King Edward VII. who was quite an exceptionally heavy smoker, favored cigars of enormous length and thickness. These cigars were made especially for him in Havana, by the same manufacturers that the Kaiser patronizes. The cigar to which the Kaiser indulges, however, is much smaller than that which was smoked by his uncle, and much more moderate in price. The King of Spain is a slave to the cigarette habit. He rarely smokes anything else, and his chief objection to Court functions is that he cannot attend them with a cigarette between his lips. The Tsar, too, is very fond of cigarettes, those which he smokes being made of a choice Turkish tobacco grown and selected exclusively for his own consumption. The Emperor of Austria is distinctly puritan in his taste for tobacco; the only thing he ever smokes being that long thin black cigar, which is to the working classes in Austria what "the fag" is in Britain.

Fatality of Whooping Cough

Many parents think lightly of whooping cough, and treat it as a necessary evil, not giving the child who has it any special attention.

The seriousness of whooping cough was emphasized by the Medical Health Officer in Toronto a few months ago, when he reported 14 deaths during the month from whooping cough, and only ten from scarlet fever, typhoid fever and measles combined.

So many people write to us about the relief and cure of whooping cough by the use of Dr. Chase's Syrup of Linseed and Turpentine that we can recommend it with the greatest confidence.

It loosens the cough, aids expectoration, and by its soothing influence prevents the terrible paroxysms of coughing which are so distressing to witness, and which wear away the strength of the child. By using this treatment the disease is held in check, and cured in a few weeks, instead of months. Look for the portrait and signature of A. W. Chase, M.D., on the bottle you buy. There are many imitations.

CONVICT SNOBS

Where There is an Attempt to Reform by Special Privileges

Separate tables at meals may be provided for the convicts at the prison "hotel" at Camp Hill, Isle of Wight, where an attempt is made to reform convicts by special privileges. Meal times at Camp Hill are social functions which the warders are not permitted to disturb. These old habitual criminals who have been granted many comforts by the authorities have their after-dinner chats which are often of a strictly confidential nature. A distinct "caste" feeling has sprung up. The more notorious men have formed a clique. They decline to discuss subjects with men of less repute. Apart from this purely professional jealousy, there are sharp cleavages of opinion, religious, moral, and political, which have been so masked that further controversy on sentimentality lines is out of the question. The result is that things have not been so happy as formerly at the long tables in the dining room. Several men have the habit of leaning across the table confidentially and ignoring their neighbors altogether. These slights have not been unheeded, and thus the demand has arisen for the abolition of the old boarding house manner and the provision of smaller tables. At present the authorities have declined to make any change.

Church Union Talk at Ampleforth

The Roman Catholic residents at Ampleforth will shortly enjoy the distinction of possessing a church built from the proceeds of the sale of the jewels of the first wife of the Duke of Norfolk. The foundation stone has just been laid by the Roman Catholic Bishop of Nottingham.

Alphonso Likes Music.

Alphonso loves a pianiste for musical instruments and the wealthier classes import same costly makes. It is of record that an Austrian nobleman sent out to Europe for a grand piano and on its arrival had all the lower part of it cut off, as he found it most convenient to play it while standing on the floor.

The King's Recreation.

His Majesty's taste in flowers is rather different from that of his sister. King Edward went in almost entirely for gardenias, and every day when he was in residence at Buckingham Palace two or three perfect specimens were always placed in his desk for his use. He would wear one in the morning and then change it for another in the evening.

On the other hand, King George loves violets. For evening wear, of course, a white flower is de rigueur, and His Majesty patronizes either a small white rose, a gardenia, or—with a fairly pronounced buttonhole—lily of the valley. For morning and afternoon wear he is very partial to Parma violets, a small bunch of sweet peas, or a single unopened rose.

Dr. Morse's Indian Root Pills
are just the right medicine for the children. When they are constipated—when their kidneys are out of order—when overindulgence in some favorite food gives them indigestion—Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable, they neither sicken, weaken or gripe, like harsh purgatives. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They
Keep the Children Well

OPENS UP NOSTRILS, CLEARS HEAD, ENDS COLDS OR CATARRH AT ONCE

Instantly Relieves Swollen, Inflamed Nose, Head, Throat—You Breathe Freely—Dull Headache Goes—Nasty Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappears. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End stuffy misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

BAGDAD'S GLORIES

The Ancient City May Take on Renewed Life and Beauty

Will Bagdad ever resume its former glory? Will the picturesque scene of the "Arabian Nights" become a great mart for the distribution of the treasures of the Orient? The city which divided honors with Cordova as centres of the world's literature and science and which was the capital of Islam will not again reach that eminence. But perchance some day the famous project of a Mesopotamian railroad connecting Constantinople with Bagdad and the Persian Gulf will be accomplished and an irrigation system like that which made the plains of Nineveh and Babylon blossom like the rose will be dug. Then will the "dried oxford of Bagdad, the glorious, take on new lustre, for it will be the entrepot for a wide and prospering area. At present Bagdad is almost lost to the world. Yet, tucked away in an out-of-the-way corner of the world, as it is, its modernization has begun. It has felt the influence of the cotton looms of England and the five-gallon petroleum tins of the Standard Oil Company. The Bedouins who frequent its wandering streets no longer rely upon the deft fingers of their womankind for the stuff of which to make their headdresses, but upon the toil-worn phalanges of the women of Manchester and Lancashire. These are now made of cheap European cotton. The ubiquitous oilcans serve in the place of the old fashioned goatskin as a means of transporting the precious supplies of Tigris water. Bagdad is changing. This curious city, with the crumbled gilt minarets and narrow, dusty streets, the home of Sinbad the Sailor, when in its prime a thousand years ago had a population of two million, according to tradition. Now its inhabitants number less than one-tenth that number. Its scores of mosques are in ruins and the major part of the inhabitants are living in a relatively new Bagdad, which has grown up on the east bank of the Tigris.

Bagdad is, indeed an ancient city, if one may believe the legends, older than any other existing, even Damascus. It is said that more than two millenniums before the opening of the Cristian era there was a large town called Bagdadu on the banks of the Tigris. Nearly two and one-half millenniums ago Nebuchadnezzar rebuilt it.

A curious fact is that while the genuine remnants of other civilizations are easy to pick up, it is charged against the Bagdadi that four-fifths of the objects they offer for sale are spurious.

The house walls hemming in the streets would delight the eye of a bill poster, but no one else. They are blank surfaces of brick, for the Mohammedan lives as the Pompeiians did before they were swallowed up His home life is spent looking not out but in. The interior of a Bagdad house is an open court surrounded by Galleries. The courts with their fountains, are the "high-walled gardens, green and old." On the flat roof with its high parapet, over which the neighbor is supposed never to cast a glance, the family eats in pleasant weather and sleeps under the starlit sky in the summer time. Each house, also, has a sort of cellar to which all retreat in the middle of the day when the thermometer ranges above one hundred degrees Fahrenheit.

A "White" Trick

In Athens goats are marched to housekeepers' doors and milked before the eyes of patrons. But this system does not prevent adulteration. The milkman wears a loose coat with wide sleeves. Around his waist is a rubber bag filled with water, and a tube runs down his arm. As he milks he presses the tube, and milk and water flow silently together into the milk pail.

For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher

LORD KITCHENER

This famous warrior gained a great reputation among the Egyptians for fearlessness by making a flight over Cairo in a monoplane. It appealed to them more than his battlefield record.

An old cannon, salved from the "Lutine," a British Navy frigate lost with bullion valued at $6,000,000 off the Zuyder Zee in 1799, has been placed outside Lloyd's in the Royal Exchange

Grandma Used Sage Tea To Darken Hair

She Mixed Sulphur With It to Restore, Colour, Gloss, Thickness

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn grey, streaked and faded hair beautifully dark and luxuriant, removing every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, grey or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of muss.

While wispy, grey, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all grey hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

UNIONIST DOG'S $35 BITE

Camberwell Club to Pay Damages to Unfortunate Visitor

There were queer political asides to an action brought in the Lambeth County Court by Thomas John Hoyton, a Briton hairdresser, to recover $125 damages from the Camberwell Unionist Club, and Edward Aldwell, the club steward, for injuries arising from the bite of a dog.

Judge Parry: "Is this a Unionist dog?"

Mr. Beresford (for the plaintiff): "That I cannot say."

"Is it the property of the club?"

"I understand it belongs to the steward, but the club harbors the dog, which is kept chained up in a yard."

Mr. Hoyton said that he was at the club as a visitor, and after a game of billiards he went into the yard, where the dog bit him. The dog had bitten members of the club.

Judge Parry: "It seems to be a very dangerous club to belong to."

George William Capper secretary of the club, said the dog, which did not belong to the club, was still there.

Judge Parry: "Then it is a member of the Unionist club. This is an Irish Unionist terrier, and the club keeps it at their own risk." His Honor gave judgment for $25 and costs.

Girl at the Plough

At Wivelsfield, near Haywards Heath, a young girl, named Lily Burtenshaw, took to ploughing. She is seventeen years of age, and her rosy cheeks indicate that life in the open agrees with her. She can drive a plough as straight as a man, and can cut and bind corn and pull mangels. Her employer admits she is more use on the land than many lads who find employment there.

ASSESSMENT RETURNS FROM THE SOUTH WARD

(Continued from Page 1.)

John McFarlane and A. E. Hanson, tenants, 249 and 251 Princess street. Parts lot 70, Plan 120. Frontage each 19 feet 6 inches. Land value $330. Buildings $1,400. Total taxable property $1,730. Former assessed $870, latter $860. Former S.S.S. Latter P.S.S. Owner Alex. Chouinard.

A. E. Hanson, tenant, 253 Princess street. Owner Alex. Chouinard. Part lot 69, Plan 120. Frontage 22 feet 6 inches. Land value $190. Buildings $900. Total taxable property $1,090. P.S.S.

Wm. Jubb, tenant, 257 Princess street. Part lots 69 and 68, Plan 120. Frontage 22 feet 6 inches. Land value $190. Buildings $900. Total taxable property $1,090. P.S.S. Owner Alex. Chouinard.

G. N. Rutter, tenant, 259 Princess street. Owner Joe Brioux. Part lot 68, Plan 120. Land value $240. Buildings $[illegible]. Total taxable property $1,190. P.S.S.

Henry Rush, owner, lots 28, 27, 26 and 25, Plan 137. Frontages 41 feet, 30 feet, 30 feet, 30 feet. Land values $360, $270, $270, $270. Total taxable property $1,170. P.S.S.

Patrick Tobin, lots 24 and 23, Plan 137. Frontage 60 feet. Land value $540. Buildings $100. Total taxable property $640. S.S.S.

Henry Rush, lot 25, Plan 137. Frontage 30 feet. Land value $270. No buildings. Total taxable property $270. P.S.S.

Mrs. M. J. Castle, owner, 118 George street. Lots 47 and 47, Plan 138. Frontages 35 feet each lot. Land values $310 each. Buildings $1,200. Total taxable property $1,820. P.S.S.

Wm. G. Anderson, owner, lots 46 and 45, Plan 138. Frontages 35 feet each. Land values $350 each. Total taxable property $700. P.S.S.

Simon Windsor, owner, lot 44, Plan 138. Frontage 48 feet. Land value $450. No buildings. Total taxable property $450. P.S.S.

Guy Popham, owner, frontage of 187 feet 6 inches, assessed on adjacent street.

Thos. Madeley, tenant, 154 George street. Owner John Anderson. Lot 9, Plan 135. Frontage 30 feet. Land value $300. Buildings $1,250. Total taxable property $1,550. P.S.S.

Bernard Welsh, tenant, 150 George street. Owner Robert Davis. Lot 8, Plan 135. Frontage 30 feet. Land value $300. Buildings $1,200. Total taxable property $1,500. S.S.S.

Thos. Relfill, owner, 148 George street. Lot 7, Plan 135. Frontage 30 feet. Land value $300. Buildings $1,400. Total taxable property $1,700. P.S.S.

Fred Finnie, owner, 146 George street. Lot 6, Plan 135. Frontage 30 feet. Land value $300. Buildings $1,400. Total taxable property $1,700. P.S.S.

Mrs. Charlotte Morris, owner, 144 George street. Lot 5, Plan 135. Frontage 30 feet. Land value $300. Buildings $1,400. Total taxable property $1,700. P.S.S.

Arthur Ash, tenant, 142 George street. Owner Mr. Bushnell, Omemee. Lot 4, Plan 135. Frontage 30 feet. Land value $300. Buildings $1,050. Total taxable property $1,350. P.S.S.

James W. Carey, owner, lot 3, Plan 135. Frontage 30 feet. Land value $300. No buildings. Total taxable property $300. P.S.S.

Mrs. Susan Evans, tenant, 138 George street. Lot 2, Plan 135. Frontage 30 feet. Land value $210. Buildings $900. Total taxable property $1,110. P.S.S. Owner Geo. Porter.

Wm. Hogan, owner, 136 George street. Lot 1, Plan 135. Frontage 74 feet 3 inches. Land value $120. Buildings $850. Total taxable property $970. S.S.S.

N. T. Laplante, owner, part block A, Plan 83. Frontage 246 feet. Land value $2,460. No buildings. Total taxable property $2,460. S.S.S.

ROMANTIC OUTLAWS

Exploits of White Wolfe Have Drawn Attention to Brigands

The exploits of White Wolfe, the dreaded robber chieftain of Honan and Rupeh, who took prisoners all the members of the Lutheran Missions of Tsoaying—who were rescued only after great suffering and the loss of all their belongings, has drawn attention to the question of brigands generally in China.

White Wolf is the most famous of them all. With a following of some three thousand men, he has pillaged many towns, eluding all the government's efforts to capture him. With him was formally associated a formidable bandit named Wang Tiencheng. But the government, being unable to seize him, offered him a military post and Wang accepted. He is said to have noble qualities and to be proving a very faithful servant.

A parallel case was that of the bandit Hsu Pao San, the famous "Tiger Usu," who entered the service of the Manchu dynasty, transferred his allegiance to Yuan Shi Kai, and was ultimately blown to pieces by a bomb sent to him in a parcel just before the late rebellion. White Wolfe was made was made a similar offer, but refused.

Starting the Day Right

Do you begin the day with a "grouch"? Are you tired in the mornings? Do you fail to benefit by the restorative influence of sleep, which should make good the energy and vitality consumed by the day's work?

Then you are rapidly becoming bankrupt so far as health is concerned. You should look to your habits of eating, make sure that you get lots of fresh air in your sleeping apartments, and restore wasted vitality by using Dr. Chase's Nerve Food.

This great food cure does not induce sleep by any drugging effect, but when you have been using it for a few days and get the nervous system into condition you find yourself resting and sleeping naturally and healthfully. By keeping up this restorative treatment you will be able to make good the waste and fill the exhausted nervous system with new vigour and energy. This means thorough cure of such symptoms as headache, sleeplessness, indigestion and tired, listless feelings.

A LOVER OF BIRDS

John B. Doolin, state game warden of Oklahoma, has undertaken a campaign to teach children the economic value of birds as insect destroyers.

COMMON SENSE TALK ABOUT AGRICULTURE

Dr. Creelman Said That Rural Schools Were Not Close Enough to Farm Interests

Dr. Creelman, President of the Agricultural College, Guelph, in the course of an address on the attitude of agriculture to the rural school said in part:

"Our educational system is a good one. Is it too good? Is it so perfect that they are afraid to break in anywhere with changes that our times and conditions demand?" The speaker went on to describe his own public school days, how he had attended school for years without securing any knowledge of vital import. "I spent seven years," he said, "learning about the battle of Hastings in 1066, and a lot of other trash. I was taught a little sing-song about the relative pronoun, which I know yet, word for word. What good is it to me? Listen"—closing his eyes, with the easy nonchalance of a boy "hooking his book," the President recited at express speed the old ditty about the rivers of Europe as we all learned it. Through the full gamut he ran it, from Petchora back to Ural, taking in everything but the minor tributaries. "There—I know it still," he exclaimed. "I can't get rid of it. All that trash is taking up space in my brain that should be filled with something of value to me. And that's the stuff I was taught. I was not taught a thing that was of much use to me till I went to college. Make every girl going out to teach a rural school possess a training in the principles of agriculture. Send her to the Agricultural College? Yes. Why not? What else? She has no right to teach a rural school without the training she would secure at such a college."

"Does every farmer in this hall weigh and test the milk yields of his cows?" he asked. "If not, how do you know whether you are making or losing money? The time has gone by when an ordinary careful farmer can go ahead without testing. The farmer who goes by guess is a guess-farmer, and should not be allowed to keep good cows. Go to work! It is possible for us farmers to get a start now such as we never got before in the history of the Province. The average cow—the average, mind you—in Ontario gives less than 4,000 pounds of milk per year. What about the poor cows; where do they stand? Compare that with one of our cows at the O.A.C. which gives over 20,000 pounds of milk each year. Let us quit talking about the high cost of living and look to the performance of our cows. Why are there not more 20,000-pound cows? You say that we have the Government at our backs. Nothing makes me so angry as that silly remark. What has the Government to do with the number of eggs our hens are laying? The Government doesn't feed and superintend our hens, I assure you. Our poultry men are the ones responsible for the work not the Government. The Government has owned those college hens for a long time, yet only a few years ago did we find that some of our pure-bred hens that went oftenest to the nest and cackled the loudest never laid an egg. That started things going, also some of the hens. We have now a pen of hens in which the birds average 289 eggs per year. Did the Government make that increase? Live stock is, in my opinion, the right arm of agriculture, and live stock is coming into its own."

An "Interest" Instrument

A Hungarian citizen invented an instrument which shows instantly the amount of interest due on any given sum for any period at any given rate of interest. The instrument, made in the size and shape of a watch, is of very simple construction, and inexpensive. All that is necessary to operate it is to place the hands in the proper position on the dial and the exact amount of interest in each case is indicated on the face of the instrument.

Money in Records

There is money in making records for talking machines. An American singer, not of world-wide celebrity, spent over $50,000 on building and furnishing his house, all from the fees paid him for singing into a receiver.

THE BUSIEST STREETS THROUGHOUT THE WORLD

Inquiries were recently made in order to ascertain the amount of traffic passing through the principal thoroughfares of the capitals of the world, with a view to discovering which had the most congested traffic to deal with. The result goes to show that the two busiest streets in the world are the Mansion House Corner, in the City of London, and the Place de l'Opéra, Paris; the former having the greater number of foot passengers and the latter the larger share of vehicular traffic. Every week day 160,000 persons walk past the Mansion House, the number of vehicles being 20,000; compared with 450,000 pedestrians and 43,000 vehicles passing through the Place de l'Opéra. After these most important thoroughfares comes the Broadway, New York, which is traversed by 430,000 foot passengers daily, although over 700,000 pass through in tram car or motor car. The next in importance is the Puerta del Sol (Gate of the Sun), Madrid, into which nine or ten great arteries of traffic discharge their streams, and which carries 360,000 people daily. Finally come the Friedrichstrasse Berlin, and the Vladimirski Prospekt, St. Petersburg, with 300,000, and the Graben, Vienna, with a daily average of 275,000 persons.

TO CHECK A COLD

It is easy to check a cold if you begin in time. Frequent doses of Dr. Chase's Syrup of Linseed and Turpentine, loosen the cough tones, allay the irritation, and so prevent it spreading to the tubes. Total relief soon ensues. Mrs. E. M. Bennett, Shortsville, N.Y., writes: "I feel it my duty to express my gratitude for Dr. Chase's Syrup of Linseed and Turpentine, for it cured a cold which a friend said would soon put me in the grave."

The Difference.

When a man's single his money he'll fling;
He carelessly squanders his rocks;
He buys lovely collars and spends eight dollars
On white vests and delicate socks.

When a man's married he's worried and hurried;
He wants things that will not show dirt.
His wife takes his money and buys her honey
A forty cent mud colored shirt.

—Pittsburgh Post.

BURDOCK BLOOD BITTERS

CURED A BAD ATTACK OF ECZEMA.

All skin diseases such as Eczema, Salt Rheum, Tetter, Pads, Boils, Pimples, and Itching Skin Eruptions, are always caused from the blood being in a bad condition, and it is impossible to eradicate them from the system unless you put your blood into good shape. This you can very easily do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich, and not only are the unsightly diseases removed, and a bright clear complexion produced, but the entire system is renovated and invigorated at the same time.

Mrs. G. A. Day, Somerville, N.B., writes:—"Last spring I had a bad attack of Eczema. I tried several patent medicines as well as the medicine of a physician, but they seemed to make the disease worse. I was advised to try Burdock Blood Bitters, and I did so with the result that in two weeks time the sores began to disappear. I continued to take it until I had taken three bottles and they worked a complete cure."

Worth Saving?

A bar of N.P. SOAP costs 15¢. It takes from four to five 5 cent cakes of other soaps to come near the same weight. That's a difference of at least 5¢. On a dollars worth of soap it amounts to from 25¢ to 40¢. And N.P. SOAP is better soap. Try it and see.

CHALLENGE COLLARS

Are a boon to every man who cares for his personal appearance.

Challenge Collars are not shiny rather collars. They have a dull finish cloth. In fact, you can't tell them from linen. Easily cleaned—keep their fresh immaculate look.

Sold at all Gents' Furnishing and Dry Goods Shops, or send 25c. for sample collar.

READ THE EXAMINER

Newsy Gleanings From British Isles

Only $136,000 was offered at Sheerness Dockyard for the obsolete battleship Royal Oak, of the Royal Sovereign class, built in 1892, and the vessel was bought in for the Admiralty.

Twelve Eggs, Thirteen Chickens

Mr. Spademan, of Woodnewton, Northants, placed a dozen eggs under a hen which hatched out thirteen chickens, one of the eggs being double-yolked.

Seven Sons in the Services

Mr. and Mrs. A. Newell, of Gosberton Risegate, South Lincolnshire, have seven sons serving the King. The eldest has served eighteen years in the Navy, and the other six are in the Lincolnshire Regiment.

Persian Prince Fined

Abdulla Khan, a Persian prince living in London, was fined $15 and costs for driving a motor car at an excessive speed at Ripley. Police witnesses estimated the prince's speed at thirty-two miles an hour.

Brass Thief's Defence

When charged at Bootle with stealing brass from a foundry, John Tate said, "I am a white man, and would rather be hanged than give the others away." A fine of $10 and costs was imposed.

Cottages Not Waterproof

Attention was called at a Huntingdon District Council meeting to the deplorable housing conditions in some of the villages. Many cases were reported of thatched roofs letting in water, and it was stated that in cottages at Woolnington water dropped on the occupants when in bed.

Geese Aged 36 Years

An extraordinary instance of longevity in the case of a goose comes from North Yorkshire, where it has been ascertained that a bird that belonged to Mr. Christopher Grayson, of Derwent Ho, near Pickering, for sixteen years, died shortly before it reached the age of 37 years. It had hatched an average of eighteen goslings every year till last year.

Centenarian Weaver

Mr. John Turner, an old hand-loom weaver, of Kirkburton, near Huddersfield, on attaining his 100th birthday, received a letter of congratulation from King George. Mr. Turner worked for eighty-two years as hand-loom weaver, and has lived for nearly sixty years in one cottage.

Trap Gun Fatality

Whilst passing through a wood at Highleigh, Joseph Slitt, an ex-gamekeeper, aged seventy-four, caught his foot in a wire which caused a trap gun to go off. He was injured and died in hospital. At the inquest it was stated that the gun was loaded with blank cartridges, but that a piece of a slug must have accidentally got into the charge.

Hounds Stop Trains

Members of the South Berks Hunt had an exciting time during a run near Twyford. Two foxes which had been started headed straight for the railway with the hounds hot on the scent, the main body pursuing a fox which ran down a deep incline leading directly on to the line with walls 8 feet high on either side.

The fox managed to clamber up one wall, leaving the hounds on the railway line, and for some time the huntsmen were occupied in frantic efforts to clear them away, in fear of their being cut to pieces by a train. Three trains were stopped ere they had a chance of running into the "field."

Fatal Foot-Warmer

Bedclothing that had been set on fire by a hot brick used as a foot-warmer caused the death of an old woman named Webster, aged eighty, at Leeds. She was found lying on the floor of the bedroom in the morning, and the bedclothes were a charred mass.

Sixty Years a Chorister

Mr. Thomas Matthews, of Cirencester, who died in his seventy-eighth year from injuries sustained in a fall, had been a member of the church choir for sixty years, and for over fifty consecutive years had attended the Three Choirs Festival.

Lady Mayoress in Aeroplane

Mrs. C. R. Ratcliffe, the Lady Mayoress of Leeds, was a passenger with Mr. Harold Blackburn on a monoplane flight at Leeds. She was in the air for twenty minutes, and on descending said it was the most enjoyable experience of her life.

Pickling Horseflesh

At a meeting of the Stirling County Council at Falkirk, application was made on behalf of Mr. Peter Taylor, a horse slaughterer of Grangemouth, for permission to extend the scope of his business of slaughtering horses and pickling horseflesh for transport to the Continent. Dr. Adam, medical officer of health, said that this was rather an innovation so far as Scotland was concerned, and he thought the matter should be considered by the Public Health Committee in detail. It was agreed to do this.

Automobile Alarm

An inventor has designed an alarm for automobiles with the object of discouraging the car thief. It is claimed that tampering with the car in any manner without first using the key which controls the device releases the alarm to ring for forty-eight hours, short circuits the ignition wires, and turns off the petrol. Since it is claimed that the alarm cannot be stopped until two whole days have passed, a thief could not get very far with his stolen car.

The editor of a daily paper appearing at Gary, Indiana, after attempting to satisfy the demands of his polyglot readers by publishing news in Italian, Czech, Croatian, Polish, Hungarian, and English, was challenged to a three-cornered duel by two subscribers because he failed to print columns in Russian and Serb. Even in happy Indiana editors can't please everybody.

THE DEMAND Is increasing enormously Can we tell you the Reason Why?

SEALED PACKAGES ONLY BEWARE SUBSTITUTES

℞ To Women Seeking Health and Strength

For those ills peculiar to women Dr. Pierce recommends his "Favorite Prescription" as

"THE ONE REMEDY"

A medicine prepared by regular graduated physician of unusual experience in treating women's diseases—carefully adapted to work in harmony with the most delicate feminine constitution.

All medicine dealers have sold it with satisfaction to customers for the past 40 years. It is now obtainable in liquid or sugar-coated tablet form at the drug store—or send 50 one-cent stamps for a trial box, to Buffalo.

Every woman may write fully and confidentially to Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and may be sure that her case will receive careful, consecutive, confidential consideration, and that experienced medical advice will be given to her absolutely free.

℞ Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar coated, tiny granules easy to take as candy.

On Irish Stew

Irish Stew.

Put in a saucepan twelve peeled potatoes, sliced the thickness of a penny, four large onions, sliced—a layer of each—with salt and pepper to taste. By successive layers half fill your pan. Then take four chops of neck of mutton, the scrag end. Lay these on the potatoes and onions and fill up with additional layers of potatoes, onions, etc., as before. In 1½ pints of water boil 1½ ozs. of Edwards' White Vegetable Soup for 30 minutes, add it to the contents of the saucepan, and simmer all together gently for two hours.

Mrs. Edwards comes from Ireland—what she doesn't know about Irish stews isn't worth knowing at all. You can make Irish Stew as well as Mrs. Edwards does, if you follow the simple recipe above. But be sure to use Edwards' Soup—be certain to boil it for half-an-hour. No bother. Come—give them an Irish Stew for dinner to-day.

EDWARDS' DESICCATED SOUPS

But you MUST boil them for half-an-hour—worth it. 5c

Edwards' Soup is good as a soup by itself, it is great as a strengthener of other soups; good as a thickener of gravies; good for hashes, good for stews—also good to be spoiled by inordinate boiling. Of all wholesome and tasty Cereals, etc., Edwards' Soup is the most wholesome and tasty. Use it for thickening and all purposes.

Three varieties—Brown, Tomato and White.

W. G. PATRICK & CO., Limited, Toronto, Representatives for the Province of Ontario.

WASTE FROM DESKS GOES INTO BRUSHES

Remnants From One Factory Used as Raw Material For Another

Waste wood in the manufacture of school desks is used for the backs of cheap brushes. A large manufacturer of school desks in Michigan had a considerable amount of waste material in sizes which were too short to enter into the manufacture of the smallest desks, and could not be utilized further with his machinery or in his line of work. This material was all hard maple in pieces an inch thick, a foot or so long, and about three inches wide; for a long time it had been consigned to the waste pile and sold as firewood. This waste amounted to from 1,000 to 1,500 board feet each day. A nearby manufacturer was using practically this quantity of maple, which he was sawing up into small pieces for making the backs of cheap brushes. Members of the Forest Service, investigating methods of eliminating factory waste, conceived the idea that the blocks used by the brush factory could be readily secured from the waste of the school desk manufacturer, and on this basis an arrangement of mutual benefit was soon concluded. Arrangements were made so that the brush manufacturer now places orders with the other firm for its raw material and what was formerly waste is now a source of profit.

A Life Novelty

To have a bath without water is one of the latest novelties. A thick robe is entwined with wires, and, when put on, a current of electricity is passed through the wires. The wearer of the robe soon finds his body getting warmer, until in a little while he perspires as freely as if he were in a Turkish bath.

By order of the Local Government Board, the graveyard at Durrow, King's County, Ireland, which is over 1,500 years old, has been closed owing to its overcrowded condition. Among other ancient monuments it contains a splendidly preserved Celtic cross, which some maintain has been brought from famous Clonmacnoise and others from Derry.

SUNKIST ORANGES

OVERSHOT.

The parents of a ten-year-old boy had so much trouble making them hear their calls while he was at play that they decided his hearing was defective. So they took him to a specialist.

The latter made several of the ordinary tests, and the boy could hardly hear a word. To all appearances there was something radically wrong with his hearing. Shaking his head the specialist walked into the far corner of the room.

"My boy," he said, in a voice little above a whisper: "Here's a nickel."

The lad squirmed in his chair. A grin spread over his countenance.

"You can't fool me with that bluff," he said.

"Wasn't That a Dainty Dish to Set Before A King"—and Queen?

THE dish in question was a beautiful, sparkling Shirriff Jelly made from one of the "fancy" recipes inserted in Shirriff's Jelly Powder packages. It was served by a Toronto hostess at a fashionable Bridge Party. It was her "trump" card. No guest could resist it. As a hostess you, too, will find Shirriff's Jelly your high "trump" when it is time to play your hand with the refreshments. There are many unique ways of serving it in combination with fresh or canned fruits, preserves, ice cream, nuts, dates, figs, maple syrup, wines, etc. Look for the recipes in Shirriff's Jelly Powder packages. Shirriff's Jelly—the dessert delicious—is a high-class, wholesome, pure-food product. Over a dozen "fruity" flavors. 10 cents a package; 3 for 25 cents. Sold by almost all grocers. Try it for your next dessert.

FOR CARD PARTIES

Shirriff's Jelly

A Youthful Aspirant

By "Bud" Fisher

INDOOR WORK REDUCES STRENGTH

because confining duties, lack of fresh air and sunshine gradually weaken even a strong constitution, and the enfeebled system readily accepts sickness and disease.

Scott's Emulsion checks such decline. Its pure cod liver oil is nature's greatest medicinal food while its hypophosphites act as a building tonic. It refreshes the body, puts vigor in the blood, strengthens the lungs, upbuilds the nerves and invigorates the whole system.

If you could know, Scott's Emulsion after meals will prevent much sickness and loss of time, and often forestall tuberculosis—it builds up and holds up your strength.

Send for free sample.

Prison Hospital Burned.

MONTREAL, Feb. 27. — A fire which broke out in the St. Vincent de Paul Penitentiary at 6.15 yesterday morning destroyed the hospital annex and chapel and did extensive damage to the surgical department.

The twenty patients in the hospital were all moved safely to the main building, though at one time it looked as if some of the sick prisoners' escape had been cut off. There is 1,199 prisoners in the institution.

Montreal, which is 15 miles away, sent fire engines, and at 10.20 the fire was under control. The loss is estimated at about $50,000.

Project to Drain Swamps.

GALT, Feb. 27. — Announcement was made yesterday of the co-operation of the Ontario Agricultural College with the local farmers interested in a huge drainage scheme. The project is to reclaim ten thousand acres of swamp land in Dumfries Township, and it is estimated that the cost will be but little compared with the value of the splendid land reclaimed. Prof. Day is taking an active part in the matter.

NERVOUS DYSPEPSIA GAS OR INDIGESTION

Each "Pape's Diapepsin" Digests 3000 Grains Food, Ending All Stomach Misery in Five Minutes

Time it! Pape's Diapepsin will digest anything you eat and overcome sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odours.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

EXAMINER PATTERN SERVICE

DAILY FASHION HINT.

No. 6,868, Girl's Dress.

A pretty sacque model, closed at the left side of the front and with either long or short sleeves. The very long shoulder is used and the material is gathered at the neck in both front and back. Such materials as challie, cashmere, fine gingham, voile, cotton crepe or cotton sponge will make pretty frocks in this style.

The dress pattern, No. 6,868, is cut in sizes 6, 8, 10, 12 and 14 years. Medium size requires 2¾ yards of 36 inch material.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

A CONFERENCE ON UNEMPLOYMENT

Special Wire to The Examiner:

NEW YORK, Feb. 27.—In response to a call issued jointly by the American Association for Labour Legislation and the American Section of the International Association on Unemployment assembled in this city today and will continue its sessions over to-morrow. The conference is a direct result of the recent reports from many parts of the United States and Canada to the effect that the situation in regard to the unemployed is very acute and that the immediate prospects of a change are not bright.

Announcement of the conference set forth its purpose as "to co-ordinate the efforts made to combat unemployment and its consequences, to organize studies, to give information to the public and to take the initiative in shaping improved legislation, and administration and practical action in times of urgent need."

The programme for the conference calls for a mass meeting in Cooper Union to-night and two business sessions to-morrow for the discussion of plans for immediate action in the various States and Provinces where the need for such action is most urgent. Mayor John P. Mitchel has accepted an invitation to preside at to-morrow's sessions.

The attendance at the conference is made up of official representatives of numerous States and Provinces and delegates appointed by the mayors of many of the leading industrial cities of the United States and Canada. Among the delegates are many prominent representatives of organised labour and heads of commercial and industrial bodies.

The American Association for Labour Legislation, one of the two bodies which took the initiative in calling the conference, was formed two years ago for the purpose of studying industrial conditions and acting in an advisory capacity in shaping national and State legislation affecting the interests of the working classes. Included in its membership are the leading officials of the Department of Labour at Washington and the Labour Commissioners of the different States.

The International Association on Unemployment, as its name implies, is international in its scope, with Leon Bourgeois, former president of the French Council of Ministers, at its head. Charles R. Crane, chairman of the Chicago Commission on the Unemployed, is president of the American section and among the other officers are Henry R. Dennison of Boston, Charles P. Neill, former Commissioner of the Federal Bureau of Labour and John Mitchell, former president of the United Mine Workers of America.

American Missionary Killed.

BERLIN, Feb. 27.—The Volkstaat Zeitung yesterday publishes a special despatch from Durazzo reporting the an American missionary who was travelling through the south from Elbasan, in Albania, has been captured by a band of brigands. According to one version he was killed.

FAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly, backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

THE MARKETS

CHICAGO, Feb. 27.—Another wheat storm today fell the effects of the corn deficit in Argentina, Australia and India, expert Canadian wheat to come up to what was looked for. Accordingly the market had a weak finish at 2c to 2½c net decline. Other speculative articles were also depressed. May to 54½ down, oats unchanged to 1-16c lower and provisions 10c down.

Liverpool wheat closed ¾d to 1d higher; corn, ¼d to ½d higher.

CATTLE MARKETS

UNION STOCK YARDS.

TORONTO, Feb. 26.—Receipts of live stock at the Union Yards were 25 carloads, comprising 447 cattle, 23 calves, 963 hogs and 76 sheep and lambs.

Steers.

Choice heavy steers sold at $6.35 to $6.40; good steers and heifers, $6.10 to $6.30; medium, $5.40 to $5.60; common, export bull, $5.75 to $6; choice cows, $5.40 to $5.60; good cows, $5.20 to $5.40; medium, $4.85 to $5; common cows, $4 to $4.50; canners and cutters, $3.75 to $4.25; choice bulls, $5.50 to $6; good bulls, $5.10 to $5.25; medium bulls, $4 to $4.50; common bulls, $3.75 to $4.

Stockers and Feeders.

Receipts of feeders were light, not enough to supply the demand, and prices continued very firm. Choice steers, 900 to 1000 lbs., $7 to $7.40; medium to good steers, $6.50 to $6.75; stockers, 500 to 800 lbs., $6 to $6.25.

Milkers and Springers.

A limited number of milkers and springers were on sale, not enough of good to choice quality to supply the demand. Prices were firm at $60 to $90 each, the bulk selling at $70 to $80.

Veal Calves.

Receipts of calves were again light, and prices ruled firm. Choice veal calves, $10 to $11; good, $9 to $10; medium, $7.50 to $8.50; common calves, $6.50 to $7.

Sheep and Lambs.

The sheep and lamb market was firm. Sheep, light ewes, sold at $6.50 to $7; heavy ewes, $6.75 to $6.90; rams, $5.25 to $5.50; heavy bucks, $4 to $4.75; choice lambs, $9 to $9.75.

Hogs—Receipts, 20,000. Market 5c lower. Light, $8.15 to $8.35½; mixed, $8.15 to $8.35½; heavy, $8.40 to $8.65½; rough, $8.40 to $8.55; pigs, $7.60 to $8.05; bulk of sales, $8.20 to $8.40.

Sheep—Receipts 2000. Market steady. Native, $4.60 to $6.65; yearlings, $6.90 to $7.35; lambs, native, $4.60 to $8.

DROPS FROM THE WIRES.

The death is announced of Sir John S. Allen, a prominent Liverpool underwriter, who made many business visits to Canada.

Richard Morris, a well-known resident of St. George, near Brantford, was killed by a falling tree, which crushed in his chest.

The French cruiser Waldeck Rousseau, which went ashore on Feb. 23, in the Gulf of Juan, was refloated yesterday when the hurricane abated.

Until Monday of this week there had been no cases of hold-up for 18 years, and no murders in three years in Windsor, says the report of the chief of police.

Both lines of the Grand Trunk were completely blocked as a result of a fast west-bound freight from London crashing into the middle of an eastbound freight.

Hon. Frank Cochrane got a great send-off at Ottawa yesterday when he left for a health trip to the Mediterranean. The premier and fifty members of Parliament were at the station.

At the annual banquet of the Bricklayers and Masons' Union in Brantford, George R. Yates, a union member, collapsed while in the middle of a mandolin selection and fell dead.

The Continental Shipping Pool in which the Hamburg-American and North German-Lloyd lines are the principal parties concerned, was renewed yesterday for a period of five years.

A number of houses were destroyed by a huge meteorite which descended yesterday in the village of Jendzheritzy, in the Polish province of Kielce. The meteority emitted sulphurous fumes.

Men who drink liquor will not be given a place in the 14th Princess of Wales' Own Rifles of Kingston, according to the new commanding officer, Lt.-Col. W. A. Hughes, brother of Col. the Hon. Sam Hughes.

IF CHILD IS SICK, FEVERISH AND SICK

Look Mother! If Tongue is Coated, Cleanse Little Bowels With "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to set on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

Believe Britannic Is Unsinkable.

BELFAST, Ireland, Feb. 27.—The launching yesterday of the Britannic, the 50,000-ton White Star liner, marks an important development in constructional safety, so far as engineering ingenuity can assure it.

The Britannic, intended for the transatlantic service, had only just been laid down when the Titanic disaster occurred, and as a result of that accident, the plans of the new liner were almost completely remodelled.

It is claimed for the Britannic that she will be able to float with any six compartments flooded. The inner skin consists of heavy plates.

Twelve Killed By Explosion.

BERLIN, Feb. 27.—Twelve men are known to have been killed and eight others seriously injured in an explosion which yesterday destroyed an extensive aniline dye factory in Rummelsburg, a suburb of Berlin.

There were four hundred employes in the building at the time of the explosion, which was heard all over Berlin.

The firemen were unable to enter the buildings owing to the poisonous fumes and it was not possible to ascertain the real extent of the disaster.

Case Again Postponed.

WELLAND, Feb. 27.—The trial of H. Coulthurst, the accused deputy returning officer of Bridgeburg, is again postponed, and will not be called until the investigation here has been concluded. Application may then be made to the Minister of Justice for an order to use the ballot box of the accused as evidence by the prosecution, and any other evidence that may result from the investigation.

When The Stomach Goes Back to Work

Then Is the Whole System Glad. Stuart's Dyspepsia Tablets Will Quickly Put the Stomach In Shape.

When the stomach fails to do its work properly the whole machine of man is unstrung and wholly incapable of work. This condition obtains from the tiniest nerve to the big, strong, pumping heart.

It is a wise law of nature that has made the stomach man's strongest organ, but when it stops work man ought to realize that it does so because it can continue no longer.

"Hooray! Stuart's Dyspepsia Tablets Are the Real Appetite Bringers."

Stuart's Dyspepsia Tablets will certainly give the stomach the repair it needs and is always crying aloud for.

A tablet taken after each meal will in the course of several hours become a portion of the digestive fluids It will build up these fluids. First in the stomach, then in the intestines.

The liver is the storehouse of the body. Here are accumulated all the reserve fluids of the system and here the various ingredients of Stuart's Dyspepsia Tablets mingle with the faulty natural juices and strengthen them, or if they are too strong then they will be reduced to their proper strength and proportion.

Stuart's Dyspepsia Tablets contain a single ingredient, one grain of which is sufficient to digest 3000 grains of food. Just think how gratefully such an element is received into a body that cannot digest at all without a new weakening of the already depleted juices.

Go to your druggist this very day and obtain a box of Stuart's Dyspepsia Tablets, price 50 cents. A week's trial will make you a new man and your stomach will go back to work.

PURE FOOD SPECIALTIES

Stop! Look! Listen!

ORDER A BAG OF

MONARCH FLOUR

THE CAMPBELL FLOUR MILLS CO. LTD.

PETERBORO TORONTO

Short Bread.

2 cups of flour.

1 scant cup of brown sugar.

1 cup of butter.

Mix to a paste, then roll out and cut in squares.

POPCORN BALLS.

Put into sauce pan one cup of granulated sugar, two tablespoonfuls of vinegar, one-half teacupful of water and butter the size of a walnut. Boil until the mixture drops from the spoon like wax. Have the popped corn ready in a large pan or bowl. Pour the candy into the corn, stirring all the time with a large spoon until the corn and candy are thoroughly mixed. Dip the hands into cold water and while the mixture is hot press tightly into the round balls. The above recipe will make 14 balls as large as baseballs. It will improve the flavour if the corn is popped in hot lard, to which a little salt has been added.

POTATOES AND HAM BALLS

Season mashed potatoes with butter, cream, salt and pepper, then add one-half the quantity or less of cold boiled ham, chopped fine, and one or two well beaten eggs. Make into flat cakes or rolls and dip each one in egg and fry in nice drippings.

COUNCIL GIVES HARRY EVANS $150 INCREASE

Recognition of His Services as Street Commissioner—Nothing Done for Mr. Spence — Ald. Duncan Urged $150 Raise

MR. SPENCE'S HORSE

Street Commissioner Evans salary increased to $1,100 a year.

One hundred dollar increase to Sanitary Inspector Spence to be considered again.

The Council struck the City's pockets last night and produced $150 to be added on to Street Commissioner Harry Evans salary. Several of the Aldermen urged a further rustling in the interests of Sanitary Inspector Spence, but the search was deferred for another occasion.

In spite of the fact that Alderman Duncan is well aware of the opposition which the suggestion of salary increases brings forth with the present administration he took a plunge in behalf of Mr. Evans. It may be a lean year, but merit must be revealed now and then.

For ten years has Mr. Evans served as Street Commissioner. During that time 40 miles of concrete sidewalks have been constructed under his supervision; also a number of sewers and bridges, and in the permanency of the work he wrote that he had saved the City a sum practically equal to his salary.

Ald. Duncan—I think Mr. Evans is entitled to an increase, and I move that he receive an increase of $150.

In reply to a query put as to this department Mayor Buller stated that there was a right and left bower. Mr. H. Fitzgerald is the other bower, and received $700 a year.

Ald. Duffus—Are you going to take up the salary question to-night?

Ald. Duffus was apparently thinking of a proposal under consideration some time ago to take up the whole salary question.

Mayor Buller—I'm against the salary question all the time.

Ald. Stratton—Do we require two commissioners?

Mayor Buller—I couldnt tell you.

Ald. Anderson—Mr. Fitzgerald is assistant to Mr. Evans and works under him.

Ald. Green seconded Ald. Duncan's motion and it carried without any opposition.

Mayor Buller—Are you going to save that from some other source?

Ald. Duncan—We'll save more than that if you'll let us.

Mr. Spence Next.

Ald. Gordon—Mr. Spence gets only $700 a year and I think he should be getting more.

It might be explained here that Mr. Spence has a horse and buggy for the use of which in the pursuance of City business he was allowed $100 last year, about $2 a week, all or part of which, possibly more, would have been expended in livery bills.

Mayor Buller—I'll vote $100 more for that horse.

Ald. Anderson—Leave the horse out of it.

Ald. Gordon—One hundred and fifty dollars is little enough money.

Mayor Buller—Dont be jumping at it. These fellows can't get jobs like that every minute.

Ald. Green—I'm in favour of giving him what he got last year.

Mayor Buller stated that there certainly had been a saving by the use of Mr. Spence's horse.

Ald. Anderson—It is cheaper than hiring livery outfits.

Ald. Anderson stated that he was strongly in favour of giving Mr. Spence an increase of $100 over last year's sum and moved to that effect.

Ald. Stratton seconded it.

Ald. Green—That means $200 a year for Mac and his horse.

Ald. Duffus felt that the Sanitary Inspector had too much work to do, and was in favour of appointing an assistant.

Ald. Anderson—Deal with that afterwards. He is entitled to an increase.

Ald. Saunders— He was willing to take the job at $700. One hundred dollars went as good then as it is now. Ald. Anderson — You cant replace him for [illegible] like that salary.

Ald. Gordon's Remarks.

Ald. Gordon [illegible] the Council [illegible] on the wall. [illegible] he remarked apropos of the proposed increase. "We started out to keep this thing down. We will have to deal with the Medical Health Officer matter. He got pouty and quit because he couldn't get a $200 increase.

Ald. Duffus moved an amendment, seconded by Ald. Saunders, that the question be left over until the M.H.O.'s communication is dealt with.

The amendment carried. It was opposed by Ald. Stratton, Ald. Anderson and Ald. Gordon.

COBOURG'S NEW HOSPITAL WAS FORMALLY OPENED

Splendidly Equipped and an Ideal Site, It Will Accommodate Forty Patients

DIPLOMAS PRESENTED

COBOURG, Feb. 27.—Yesterday was a red letter day in the history of Cobourg, it being the occasion of the opening of the new hospital, erected at a cost of about $50,000.

In the year of the Queen's Jubilee, 1887, Cobourg's first hospital was started, being greatly helped at first by a generous gift from Miss Allen. Then an old Cobourg boy, Mr. Harry Black of New York, donated $10,000 towards a new hospital in memory of his brother, the late Wm. Black of Cobourg. Two years ago the late Mr. John Helm of Port Hope left a bequest of $20,000 to Cobourg hospital. It was then decided to build at once.

The site of the hospital is ideal, commanding extensive views on every side, and the building and equipment are modern in every respect. There is accommodation for forty patients.

A brass tablet is to be erected to record the generous gifts of Mr. Helm and Mr. Black, also Mr. W. J. Crossen's $5,000 subscription and some $16,000 subscribed by Cobourg citizens. Mr. J. A. Culverwell of Port Hope sent a cheque for a goodly amount yesterday. The Reception Committee was composed of: J. D. Heyden, President of the Hospital Board, Judge Roger, James Bulger, J. W. Bickle and N. T. Field. Lieut.-Col. Neil F. MacNachton is Treasurer of the board.

The day was further marked by the presentation of diplomas to the first graduating class of nurses, Misses Snarr and Thirle, Toronto; Feyburn, Leamington, and Gallagher, Cobourg. Opportunity was given to the friends visiting the hospital to bring a present or other donation, and the response was most loyal.

Dr. E. C. McNicholl addressed the graduating class, and Mrs. (Dr.) Smith presented the members with prizes and nurses' diplomas. Mr. Hayden presented the Lady Superintendent, Miss Wod, with a signet ring on behalf of the Hospital Board [illegible]

Mr. Joe Casey, of Montreal, visited Mr. James Moran, Lake street, this week.

Mr. W. J. Gamble has returned to Calgary, having been home on account of his mother's serious illness, who is now recovering.

NOTICE!

Under the auspices of the Health Association, Mrs. J. H. Renwick, soprano, and Miss Mignon Telgmann, violinists, will give a joint recital in Collegiate Institute Assembly Hall on Friday evening, March 6th, at 8 o'clock. Proceeds for the funds of the new sanatorium. Admission, silver collection—10c. and upwards. Keep the date clear. 2d-6t.

BOY SCOUTS.

Troop No. 4, Boy Scouts, will meet on Friday evening at 8 o'clock, in St. Luke's Sunday School.—Rev. F. J. Sawers, Scout Master.

TO INVESTIGATE BENTON CASE

Special Wire to The Examiner:

WASHINGTON, Feb. 27.—President Wilson and his Cabinet had another meeting to-day in regard to the Benton case. It is thought that the United States will still press for the delivery of the body to the family of Benton for burial outside of Mexico, but in the meantime will accept Villa's proposition that a commission be sent to examine the remains and report.

$5,000 SALE ON DUFFUS FARM

One of the Biggest Sales Ever Recorded in the County—Horses Brought Big Prices

1000 MEN ATTENDED

One of the biggest sales of farm stock and implements in this county was held yesterday at the dairy farm of James J. Duffus & Sons, Otonabee. Over 1,000 men foregathered, some coming rather long distances to attend the sale, which was opened at 12 o'clock and closed at 5.45 p.m. The horses sold at prices rangin from $125 to $225. One heavy team went at $450, although on the previous evening $500 had been offered for them, but Mr. Duffus refused to take them off the bill. Some of the cattle brought over $100, the prices ranging upward from $60. The total sum realized was $4,946.70. To this may be added $360 expected for the Duffus' milk route, which will bring the amount to over $5,000.

Mr. Duffus has leased his farm to Mr. Basil H. Cook, a young Englishman who has been working on the Duffus farm during the past two years. He returned two weeks ago from a trip to the Old Country.

Mr. and Mrs. Duffus and family intend residing in the City.

A Great Organist And A Great Organ

St. Andrew's Church, Monday Evening, March 2nd, at 8 o'clock

In no department has greater strides been made in recent years than in the art of organ building. The combinations on a modern electrically constructed organ being simply wonderful. When an eminent organist like Mr. W. H. Hewlett, of Hamilton, sits down before the King of Musical Instruments, a rare treat is in store for all who hear. Mr. Hewlett will be assisted by Miss Estelle Carey, of whom the Toronto Globe says: "Her numbers were received with great enthusiasm, and were delivered with that easy, yet decisive manner so characteristic of her Italian Teacher, Signor Isadore Braggiotte."

ANOTHER SWEEPING SWING OF THE AXE IN LOCAL PRECINCTS

OTTAWA, Feb. 26.—As a result of an investigation which has been conducted by G. Howard Ferguson, K. C., M.L.A., into the management of the Trent head offices at Peterborough, the Minister of Railways and Canals has directed the suspension of Superintendent Joseph McClellan, Overseer Samuel Clegg, Lockmasters M. Burrett and L. McFarland; U. C. Huyeke, inspector of water levels; George H. Giroux, clerk of works; A. J. Haddon, cement tester; Frank Haddon, handyman; J. A. Hadcock, inspector and timekeeper, and Geo. A. Mothersell, auditing engineer, Ottawa.

Pending a reconstruction of the staff at Peterborough, A. L. Killaley of the Cornwall Canal, has been placed in charge.

CLASS OF INSTRUCTION.

Sergeant Spalding, of the Royal Canadian Dragoons, Toronto, is here instructing a class of the 3rd Prince of Wales Dragoons. The classes will be held every Tuesday and Friday night in the Town Hall.—Millbrook Reporter.

A FINIERA MODEL.— Straw forms the foundation of this fascinating hat, bordered with satin ribbon and a wealth of flowers with a bunch at one side.

THE MYSTERY OF THE CELLAR

John Weese, a Local Man, Remanded on Charge of Being Drunk While on the Prohibited List—Other Cases

TO-DAY'S POLICE COURT

A local man was this morning assessed $5.75 by Magistrate Dumble for acting in a disorderly manner in a Chinese Cafe. The evidence showed that he broke a bottle of pickles, and when asked to make the damage good, refused to do so.

Advised to Get Out.

You will be under police surveillance, and if you come back here any more, you will go right to jail, without being fined, said Magistrate Dumble to a local woman, who was fined $5, for acting in a drunken and disorderly manner on Water street last night. P. C.s Reid and Hayward gave evidence to the effect that at 10:40 last night, the woman in question was loling in front of the bill boards near the Grand Opera House, in company with a man. The couple later went round to the rear of the Opera House, where they acted in a very disorderly manner, and the woman was taken into custody. She used very abusive language, both on the way to the Police Station, and in the cells.

The Old, Old Story.

John Weese, a blacklister, was this morning charged with being under the influence of liquor while on the prohibited list. He pleaded guilty and put in the witness box to tell where he got his liquor.

The story ran to the effect that he got it from Hastings, at New Years, but the veracity of that statement was doubted by the court.

Weese said that he got his father to put him on the blacklist. Yesterday afternoon he, in company with two other men, went for a drive out on the Lakefield road. During that time neither of them had any liquor, but he had had some before, in the barn of the Palace Hotel, and in the cellar of his home. This cellar business was somewhat a mystery to the chief, who asked for a remand for a week, which was granted.

Weese has been on the list since July 14th last.

Re-election Of Officers

Annual Meeting of 57th Chapter Daughters of the Empire

The annual meeting of the 57th Chapter of the Daughters of the Empire was held at the Armouries yesterday afternoon.

The most important business was the election of officers for the ensuing year. All the old officers, with the exception of Mrs. Basil Hall, who resigned, were re-elected. Mrs. (Dr.) Neal was appointed Secretary in place of Mrs. Hall. Mrs. Neal also gave a short paper. Col. Miller was to have addressed the meeting, but at the last moment he was prevented doing so. The annual report of the Medical Association was read. An executive committee was also appointed.

ONE YEAR AT THE GUELPH FARM

Special Wire to The Examiner:

ST. CATHARINES, Feb. 27.—One year at Guelph prison farm was the sentence to-day imposed by Judge Carman on J. Thomas, who pleaded guilty to passing a worthless cheque for twenty-five dollars at the Imperial Bank, Niagara-on-the-Lake on Feb. 5th. Thomas to-day admitted similar acts in Buffalo, Niagara Falls, Thorold and St. Thomas, and the Judge shortened his sentence for his frankness.

TAKE OATH OF ALLEGIANCE

Two of our Local Greek Merchants, Messrs. Peter Moores and James Haggis, Are Now Full-Fledged Citizens

PAPERS SIGNED

Among the minor business that His Lordship Mr. Justice Kelly had presented before him at the recent Court of Assize, were two naturalization papers, concerning two local Greek merchants. They were Peter Moores, confectioner, formerly of Sparta, Greece, in that country known as Demetrius Moisakos and James Haggis, formerly of Sparta, Greece, and in that country known as Demetrius Hantzis. They made a formal declaration that they had resided in the Dominion of Canada for seven years, and took an oath of allegiance to His Majesty King George V., Sovereign of Great Britain and Ireland, and of the Dominion of Canada.

These two citizens will, from now on, have all the rights that a Canadian citizen has.

Action Has Been Deferred

Respecting Transfer of License to Mr. G. N. Graham

The proposal to transfer the license in connection with the Hotel National, now controlled by Mr. Whitehead, Manager of the Toronto Guarantee Company, to Mr. G. N. Graham of this City, was again dealt with by the Licensee Commissioners, at a meeting that was held yesterday. Action in respect to the matter was deferred until a subsequent meeting, the date of which will be determined by the Chairman of the Board. A number of deputations have been heard in regard to the matter, and further discussion from outside sources has been closed. The matter is now entirely in the hands of the Commissioners.

Case Of Insanity In Lakefield

Is Being Investigated by High County Constable Cochrane

High County Constable Cochrane left for Lakefield to-day, where he will conduct an investigation in connection with a case of insanity that has been reported from that district. The person concerned is said to have been employed at St. Joseph's Hospital for a short period. Later, she removed to Lakefield, where she resided with a relative, and incidentally manifested signs of insanity. The case will be heard before Mr. John Hull, Justice of the Peace, at the instance of County Police Magistrate Edmison. It is altogether probable that two doctors in Lakefield will be delegated to make an examination of the case, and report their finding to the authorities.

DRUNK AT WARSAW.

Magistrate Mathison was in Warsaw on Wednesday of last week, sitting on a case with associates Hawthorne J.P. and Wattis J.P. Bert Stewart and Stanley White came before them charged with being drunk in a local option municipality, and both were found guilty by Mr. Mathison and fined $20 and costs each, or a total of $41.60. The fine was paid forthwith.—Havelock Standard.

FRANK SMITH FOUND GUILTY OF MURDE

JUDGMENT WAS RESERVED IN HAVELOCK CASE

Jury Answered Questions Submitted and Recommended Damages of $750 for Death of Children

THE CASE CONCLUDED

At twenty minutes to 2 o'clock, yesterday afternoon, after counsel, and the presiding Judge had addressed them, the Jury sitting on the case of Robinson vs. the Corporation of Havelock, retired to answer the questions that Mr. Justice Kelly had prepared for them. Precisely at 2 o'clock they intimated the fact that they had prepared their answers, which are appended together with the questions:

1. Did defendants' children and other children resort to, and play on, this land (the gravel pit), with the knowledge and permission of defendants?

Answer—Yes.

2. Had defendants any knowledge that there was any likelihood of children being injured by the falling of earth, sand, or gravel, while in the pit?

Answer.—Not previous to the accident.

3. Was there any invitation to plaintiffs' children who were killed, to use this pit?

Answer.—Yes.

4. Did plaintiff's children, who were killed, enter defendants' land directly from the highway?

Answer.—Yes.

5. Was there any excavation or hole under the upper crust of the earth, at the place of the accident, at the time of the accident.

Answer—Yes.

6. If so, was that excavation or hole there when the children went to the place of the accident, or was it made wholly or partly by the children?

Answer.—It was there when they went.

7.—Was the death of plaintiff's children a mere accident, or was it caused by negligence?

Answer.—It was caused by negligence.

8. If it was caused by negligence, was it negligence by defendants which caused their death?

Answer.—Yes.

9. If there was such negligence by defendants, state fully and clearly what was or were the act or acts of negligence by defendants which caused or assisted to bring about the children's death.

Answer.—Mr. Leeson dug the hole and left it unprotected.

10.—Was the death of the children brought about or contributed to by any act or acts of their own.

Answer.—No.

11.—If so, what was or were the acts of the children, which brought about or contributed to their death?

No answer.

12. Was there any negligence on the part of the parents of these children, or of those in whose charge they were, which contributed to the accident?

Answer—None.

13. If so what did their negligence consist of?

No answer.

What amount of damages do you assess?

Answer: $725.

Here His Lordship sent the Jury out again, to divide the damages, and in a few minutes they returned and reported that the result was Phoebe Jane, $325, and Richard John $400 without any for the younger child.

The Jury were then formally dismissed, after His Lordship had thanked them for the attention they had given to the evidence, and for the quiet hearing that they had afforded both himself and counsels.

After Messrs. O'Connell and Kerr had explained their own reasons why

Chatham Colored Man [illegible] to be Hanged in May [illegible]

Jury Out Three Hours

ASSOCIATE ACQUITTED

CHATHAM, Feb. 27. [illegible] Smith, colored, was last night guilty of the murder of [illegible] years last November, and [illegible] be hanged in May next. [illegible] was out about three hours. [illegible] was opened yesterday [illegible] evidence was in about four [illegible] and the case was given to [illegible] at 5.30. Wm. Currie, who [illegible] ly arraigned with Smith, [illegible] the evidence had all been [illegible] given his freedom by the [illegible] instigation of the Crown Attorney.

The chief justice stated in charge to the jury that the [illegible] against Currie was very slight, that an acquittal would be [illegible] by him, upon which the counsel [illegible] that no objection would be taken [illegible] ed if the prisoner were allowed liberty at once.

According to the evidence [illegible] case Conyers and Currie had a dispute as to a house, and [illegible] encounter followed. Lamb is said to have made a thrust [illegible] towards Currie, when Smith [illegible] tween them and took up the [illegible] Conyers was stabbed five times, five days later died of septicaemia, as a result of a wound [illegible] abdomen.

"BETWEEN SAVAGE AND TIGER"

A Most Wonderful Picture at the Grand" Next Week

The most exciting and [illegible] photo drama that Mr. George [illegible] has ever produced in this country is his latest success, "Between Savage and Tiger," a magnificent [illegible] production by the Cines Company of Italy. It presents a story of love and romance in the jungles of India that fairly bristles with [illegible] and keeps the spectators in a state of feverish interest and [illegible] alarm. Tigers, water buffaloes, [illegible] lope, ravages and all the other elements with which the jungles of India abound are utilized in working out a consistent tale of [illegible] interest. It is the first big production that Mr. Kleine has imported and illustrates the work of the Cines Company. Animals all accurate, no animal [illegible] ventures story that has thus far been seen in this country can compare with "Between Savage and Tiger." A remarkable entertainment is to be given in Canada for the first time next day, March 2, at the Grand, [illegible] with a matinee at 2.30. The engagement will be limited to four days only. The prices will be 10c. [illegible]

RUPTURE EXPERT HERE

Seeley, Who Fitted Case of [illegible] Called to Peterborough.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will be at the Oriental Hotel and [illegible] main in Peterborough this week only, March 2nd. Mr. Seeley's "The Spermatic Shield" is endorsed and approved by the United States Government will not only in any case of rupture perfectly, giving immediate and complete relief, but closes the opening in 10 days on the average case. This invention received the only award in America and in Spain, producing results without cut surgery, harmful injections or [illegible] ideal treatments or pretenders. Mr. Seeley has documents from the United States Government, Washington, for inspection. All charity cases [illegible] out charge, or if any interested [illegible] will be glad to show same [illegible] charge or fit them if desired. All ruptured should remember this date and take advantage of this opportunity.

His Lordship should pronounce [illegible] must in their favour, he [illegible] judgment, stating that he wanted to consider the facts of the case fully.

THE EVANTUREL BOMB.

The saffron Conservative journals make much of the Evanturel letter read in the Legislature. The Mail and Empire becomes quite hysterical, describing it as a deadly blow to Rowell, who was dumbfounded by the explosion of the bomb, etc. As to Mr. Rowell such a revelation as the reading of the letter was no surprise to him; he knew that Mr. Evanturel, though sitting on the same side of the Legislature, was a declared opponent to his temperance policy. No one can defend Mr. Evanturel's position as set forth in his letter; but he shows to better advantage than many of the members of the House, sitting behind the government leader. He had thec ourage of his convictions. He felt justified in antagonizing the policy of his party interest in the "interests," the Conservative party and defending—if in no other way—by opposing a policy that is aimed at curtailing the privileges or injuring the interests of the liquor traffic. He felt that his attitude deserved support and he frankly applied for this support to the modest extent of $10,000. He was willing to help protect the liquor interests from personal consideration. This seems to be more selfish than the supporters of the Whitney Government, who have not the courage of their convictions and subordinate their temperance principles for party profit. This is less selfish, but is it more principled. Mr. Evanturel did not pretend to be the friend of temperance, and of the many temperance men who support anti-government hostile to effective temperance legislation. Mr. Evanturel's position is not an envious one. He is repudiated by Mr. Rowell, and Mr. Rowell's followers. Tis place in the House, if he is permitted to remain a member, is logically with the Conservatives. He is in open and declared sympathy with their opposition to temperance advance, even if he shirked the vote,—deserted his new allies in their voting down. Dr. McQueen's amendment regretting that the government had not brought in anti-treating legislation, which was promised with the object, as shown in the light of subsequent event, of killing Rowell's banish the bar proposals. The Evanturel incident is not so much a blow as a revelation. It shows temperance people that if they honestly desire temperance reform they must unite to fight, give effect to their desires independently of party considerations—that they cannot with very good result simultaneously serve God and man.

APPLIED CHRISTIANITY.

The "Social Service Council of Canada" is a new name to many persons. It is an organization covering a wide field, both in the representative character of the interests that compose its active factors and in the scope of its aims. The organizations, represented by the best hearts and intellects of each, are the Church of England, the Methodist, the Presbyterian, the Baptist and Congregational churches, and the Salvation Army in Canada; the Dominion Trade and Labour Congress, the Dominion Grange, etc. The honorary president is the Primate of Canada, Most Rev. Archbishop Matheson; president, Rev. A. Cayzam, vice-president, Adam Studholme. The Social Council will hold its first "National Service Congress" in Ottawa, March 3-5. Addresses of welcome will be made by Rt. Hon. R. L. Borden and Rt. Hon. Sir Wilfrid Laurier, with a reply by the Bishop of Montreal, Rt. Rev. J. C. Farthing. The object of this congress is asserted to be—"to interest all Canadians in behalf of social righteousness, with the purpose of improving social economic and ethical conditions in Canada. This is assumed to be done by the application of the creed of the Social Service Council, which is as follows:

The Social Service Council believes:

That Righteousness can be realized in the complex conditions of modern life only through the application to all human affairs of the principles of the Kingdom of God.

The Social Service Council declares:

That the application of Christian principles to the operations of industrial associations whether of labour or of capital.

For a more equitable distribution of wealth.

For the abolition of poverty.

For the protection of childhood.

For the safeguarding of the physical and moral health of women in industrial life.

For the adequate protection of working people in case of industrial accidents and occupational diseases.

For the Sunday rest for every worker.

For conciliation and arbitration in industrial disputes.

For proper housing.

For the adequate care of dependent and defective persons.

For the reclamation of criminals.

For wholesome recreation.

For the protection of society against contagious diseases.

For international peace.

No one will refuse to admit that even a partial application of such a creed to conditions in Canada, would represent a moral revolution and regeneration leading up to almost millenial conditions. If we have belief in God, belief in the religion his Son taught by word and example, we should sympathise with the aspirations represented by the creed of the Social Service Council, which means applied Christianity, meaning, in its fullness, the regeneration of mankind.

ROWELL'S FIGHTING SPIRIT.

(From the Globe.)

The Evanturel incident in the Legislature yesterday showed the Liberal Leader at his best. He recognized the strength of the liquor interests arrayed against his policy. He paid tribute to the persistence and the craft of the opponents of temperance reform. The Evanturel letter was to him but another evidence of the fact that nothing would be left undone that could be done to stem the tide of temperance reform.

Mr. Rowell does not despise his antagonists, but he welcomes the emergence of the issue. "I would rather go down to defeat," was his declaration, "fighting the liquor interests than win twenty victories with their support."

Brave words, honestly spoken. The temperance men in convention assembled will not hear them unmoved. When Conservative temperance men see even members of the Legislature chosen to support Mr. Rowell falling away on the temperance question they must feel that they, too, must speedily make a choice and put their principles before party. Political allegiance does not count for much in the anti-temperance camp. Why should it among temperance men?

THE OUTSTANDING FEATURE OF THE EVANTUREL AFFAIR

Special to The Examiner.

PARLIAMENT BUILDINGS, Toronto, Feb. 27.—That a most painful incident, one which undoubtedly Howard Ferguson, Conservative member for Grenville, thought would be an embarrassment to Mr. Rowell and the Liberal party, has turned out very differently from what was expected, is the outstanding fact in the Evanturel sensation.

Instead of being on the defensive, Mr. Rowell ad the other Liberal members are actively on the aggressive, and there are significant indications that public sympathy is turning largely to Mr. Rowell, owing to this affair and that Temperance Conservatives especially are seeing the whole issue in a new flood of light.

In the first place Mr. Rowell did not mince matters, but at the very first opportunity after a few hours in which to get the facts and consider the situation, he made a statement and a speech in the House, which held every member, Conservative and Liberal alike, spellbound, and which was admitted in the lobbies, even by Conservatives, to have created a profound impression. Mr. Rowell said he could see no justification for Mr. Evanturel's action and, in parliamentary language, he read Mr. Evanturel out of the party, and suggested that he should resign. Such clear-cut and speedy action in dealing with the unfortunate affair has redounded to Mr. Rowell's credit.

The permanent result of the event, however, is the most dramatic and graphic proof possible that in fighting for the abolition of the bar Mr. Rowell is facing great difficulties not only from political opponents, but from the liquor interests and even from one of his own members, who now is shown up as the avowed friend and advocate of these interests. Months of talk could not prove so well that Mr. Rowell and the Liberal party as a whole, in fighting against the bar, must have the support of every temperance man, irrespective of politics if the reform is to be brought about.

The liquor interests, to a man, are united. This recent event shows that their ramifications are even wider than was suspected. To fight them there obviously must be a solid body of support behind Mr. Rowell.

In his speech the Leader of the Opposition declared with an earnestness that was absolutely convincing that he would rather go down to defeat fighting against the bar than win twenty victories with the aid of the liquor interests. The Evanturel incident will probably be looked back upon as one of the milestones leading not to the defeat of Mr. Rowell on the Temperance issue, but to his victory, aided by the temperance men and women of Ontario.

It is rather significant that on the very day when this sensation occurred the Conservative party in the House voted down the amendment of Dr. McQueen regretting that the Government had brought in neither the anti-treating bill, they themselves had promised nor any measure either to abolish the bar or otherwise curtail the evils of the traffic.

A Warning To Liberals And The Labourites

Special Cable to The Examiner:

LONDON, Eng., Feb. 27.—(Special Cable)—The Westminster Gazette, which is the leading government organ, is out this morning with a warning that the Liberals and Labourites must get together and stop cutting each others throats if their cause is to prevail and their government stopped on its way to defeat. This warning is inspired as the result of the Liberal loss to the Unionists in the Leith election. The Gazette points out that since the last general election the Labour party has managed six times to win a seat for Tories by placing Labour candidates in the field. "These methods," says the Gazette, "will mean not only the defeat of the Liberal party, but the extinction of the Labour party as well." The Manchester Guardian, leading Liberal provincial newspaper, says the split vote is both a nuisance and an absurdity.

NOTICE

NOTICE is hereby given that a By-law was passed by the Council of the City of Peterborough on the second day of February, 1914, providing for the issue of debentures to the amount of $20,000 for waterworks purposes, and that such By-law was registered in the registry office of the County of Peterborough on the fifth day of February, 1914. Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated the 5th day of February, 1914.

S. R. ARMSTRONG,
Clerk.

Married in The Gaol

Prolonged Honeymoon in Central Prison For the Groom

LINDSAY, Feb. 26.—There was no wedding march, no notes of any kind played, no giving away of the bride, no standing under the bridal arch during the performing of the ceremony, when Esther Edna Warwick of Fenelon Falls was united in the bonds of matrimony to Frank York at the County Jail on Wednesday afternoon at 2 o'clock.

The couple were married in the waiting room of the jail, the ceremony being performed by Rev. Mr. McConachie, curate of St. Paul's Church.

On arrival of the clergyman Governor Balfour asked the turnkey to produce the bridegroom. The assistant obeyed the command amidst the rattling of keys and chains as he departed for his charge, with whom he quickly returned. The meeting of the young couple was of a formal nature and nothing was said by either parties.

About a dozen parties witnessed the unusual event, and before parting they wished them health and happiness in their new state of life. The groom will honeymoon for three months in the Central Prison, while the bride, who has no living relations in Canada, will, it is most probable, return to her home village, Fenelon Falls, to await her husband's liberty.

ITEMS OF NEWS IN REGARD TO THE G. T. P. RAILWAY

Track laying on the main line of the Grand Trunk Pacific Railway, west of Prince George, B.C., is proceeding at a rapid rate. Prince George is at Mile 1279 west of Winnipeg, and the track laying outfit has been pushing forward from that point at the rate of over a mile a day since the 1st of February, and no interruption is expected until the gap is closed up by meeting the track-laying outfit now working from the end of steel 337 miles east of Prince Rupert.

At Prince Rupert, the excavating of the new Government Building and Post Office at Third avenue is going ahead at a rapid pace, as is also the work of excavation for the Grand Trunk Pacific new hotel. A large shipment of steel arrived for the Dry Dock during January, and work on this structure is making rapid progress.

The second monthly meeting of the General Safety Committee of the Grand Trunk Railway System was held on Monday, February 23rd, in the room of the Board of Directors of the General Office Building in Montreal, Howard G. Kelley, Vice-President, presiding, which was attended by U. E. Gillen, General Superintendent, Chicago, Ill.; H. E. Whittenberger, General Superintendent, Toronto; H. R. Safford, Chief Engineer, Montreal; T. W. R. McRae, Chief Claims Agent, Montreal, and Geo. Bradshaw, Safety Engineer, Montreal.

Reports received from twenty-three Safety Committees located at various points on the system showed that during January last, members of the Safety Committee corrected 445 unsafe physical conditions and cautioned employees against unsafe practices in 433 cases. The report of the Secretary showed that the influence of the Safety Movement is being felt in constant reduction of injuries to employees and patrons, the results for January being more favourable than for any previous month, notwithstanding the severe weather which often is an indirect cause of casualties.

MACON, GA., CHILD

Made Strong and Well by Vinol.

When we tell you that Vinol is the best remedy in our whole stock for making weak, puny, ailing children strong, robust and rosy we are only telling you what has been proved by hundreds of mothers.

J. L. Fickling, Mason, Ga., says: "My child was very thin and delicate, no appetite, nervous, and did not sleep well. Doctors did not help her. Vinol was recommended and the change after a fair trial was wonderful. She sleeps soundly all night, has a splendid appetite and has gained in weight. I wish every mother knew what Vinol will do for delicate children."

What Vinol did for this little girl it will do for every weak and ailing child because sickly children need the strengthening cod liver elements and the tonic iron that Vinol contains—that is why Vinol builds them up quickly and gives them a fine, healthy colour. It is pleasant to take and we guarantee that the results will satisfy you—money back if they do not.

NEGLECTED NEIGHBOURHOODS.

You can find in almost any town a "neglected neighbourhood." The easiest thing to do with such a neighbourhood is to keep on neglecting it.

It is so easy for us to study these topics as if they were about other places and people than ourselves and our homes. Is there a neglected corner in your town or in your county? If there is, what are you going to do about it? Not "What have you been doing about it?" or "What ought you to do about it?" but "What are you going to do about it?"

If you can't get the committees interested do something yourself. Do not be afraid.

The thing is to get started. You see as soon as you have started something the neighbourhood is no longer neglected. And then it will be an easier matter to get some one to come in and help.

Band at Street Railway Rink to-night. Good skating.

YOU CAN'T EARN MONEY WHEN YOU'RE LAID UP

There are a lot of people in this town who cannot afford to be sick. Perhaps some of you feel that you can, but certainly none of you can't, for as soon as you are sick, your wages stop and worry and debts begin to pile up. The sensible thing for you to do, as soon as you feel run-down and worn out, no matter what the cause, is to take something just as quick as you can to build up strength and health. Make yourself more comfortable and provide against serious sickness.

We don't believe there is any other medicine made that will do as much towards making your health and that helping you save your money as Rexall Orderlies. It is a medicine that goes right at the weakness and relieves it by toning the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or habit-forming drugs, because it contains none. The strength and health-giving properties are in pure Olive Oil and the Hypophosphites, long endorsed by our medical physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood and body-building medicine—a real accomplishment that we are proud to tell you about. You don't need to hesitate in using it, because if it doesn't do all we say it will and actually you in every way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without word or question. Sold only at the store that has 7,000 Rexall Stores, and in this town only by us. $1.00.

Mr. Baker, of C.O. Jct., attended the Masonic banquet on Friday night last.

Beginning Ash Wednesday there will be a series of Union meetings of the Anglican, Methodist and Presbyterian churches beginning at 7:45 each evening for nine nights.

Programme of services as follows:

Wednesday, Feb. 25—"The Holy Spirit," by Rev. J. R. Real, in Anglican Church.

Thursday, Feb. 26—"What the Church Stands for," by Rev. J. Skene, in the Methodist Church.

Friday, Feb. 17 — "Sin," by Rev. C. W. Holdsworth, in the Presbyterian Church.

Saturday, Feb. 28—"The Unknown Christ," by Rev. Jas. Skene, in the Anglican Church.

Monday, March 2—"Consecration," Rev. C. W. Holdsworth, in the Methodist Church.

Tuesday, March 3—"Atonement," by Rev. J. R. Real, in the Presbyterian Church.

Wednesday, March 4—"The Risen Christ," by Rev. J. Skene, in the Anglican Church.

Thursday, March 5—"The World for Christ," by Rev. Holdsworth, in the Methodist Church.

Friday, March 6—"Habits," by Rev. J. R. Real, in the Presbyterian Church.

A meeting of the Order of Railway Telegraphers was held here on Friday evening, Feb. 20th, at which the Havelock, Toronto and Port McNichol subdivisions were well represented by an assembly of forty telegraph operators and agents. The meeting was entirely in the interests of the order, several important matters being discussed. It was decided to make Havelock the meeting point on account of it being central for the above mentioned subdivisions. The chief speakers were M. D. McCaughran, representative to the Ottawa House, and Mr. Mooney, general chairman of eastern lines, and Mr. P. Brown, local chairman. Meeting adjourned 11.30 p.m.

Mr. Weller of Peterborough was the week-end guest of friends in town.

Mrs. Wm. Jackson and Miss Edna were the week-end guests of her sister, Mrs. H. Falkner.

Mr. F. H. McNichol spent the week end in Toronto.

Mr. J. Thompson of Toronto, spent the week-end in town.

Mrs. Knox of Kingston is the guest of Mrs. Jas. E. Black.

Mr. George Knox was operated on last Sunday for appendicitis. Dr. Holdcroft performed the operation at Mrs. Campbell's private hospital.

Mr. Russell Joyce spent last week with Mr. and Mrs. A. O. Sawyer of Lakefield.

Mrs. Kelly of Norwood is the guest of Mrs. Mervin.

Mr. Bert Deremo, night electrician on C.P.R. here, while on duty last Thursday night, fell from an engine sprraining his ankle so badly that he will be confined to his home for some few days.

Mrs. Baker and Baby Florence have returned from Toronto, where they spent the past week with Mr. Baker.

Mrs. W. J. Brown returned home Monday from Toronto.

OUR DIFFICULT LANGUAGE.

The Frenchman read in the paper, "Keep smiling in consequence a decided success.' And then he gave up trying to master the intricacies of the English language.

WILL ORGANIZE MOTHERS' CLUBS

Meetings Will Be Held in all the Public Schools This Evening —Movement Being Well Received

THE REPRESENTATIVES

A meeting will be held in the Public schools of the City this evening at eight o'clock, under the auspices of the Local Council of Women, and the Mother's Club of the Y.M.C.A. The Mothers' Club of the Y. M. C. A. has been appointed the Central Operative society.

One representative from the parent club, and one from the Council of Women will be present at each of the meetings, for the purpose of organizing Mother's Clubs in the respective schools.

The following named ladies will have charge of the various meetings:

Queen Alexandra — Mrs. Dunsford and Mrs. Dr. Eastwood.

King George—Mrs. J. C. Davidson and Mrs. H. O. Fiske.

Queen Mary—Mrs. Conway and Mrs. Christie.

South Central—Dr. Carruthers and Mrs. McNeally.

Central School — Mrs. Taylor and Mrs. Gumpricht.

King Edward— Mrs. A. Stevenson and Mrs. Bannan.

These group of ladies have interviewed the principals of the respective schools and have issued the following invitation to parents:

"Teachers and friends of the school "are cordially invited to attend a "meeting at said school on Friday, "February 27, at eight o'clock in the "evening, for the purpose of forming a "permanent organization of the par"ents and teachers of the school.

"The object shall be to study the "welfare of the child, in the home, "school and community, and to cre"ate a better mutual understanding "between parents and teachers, and to "secure the co-operation in the work, "for the interest of the children."

The co-operation of the Principals of the different schools is assured, and on each occasion that they have been approached on this matter they showed a willingness that left in the minds of the organizers a feeling that success could be the only outcome of their efforts, which from now will be directed with more earnestness and zeal toward the accomplishment of a work but recently commenced, and viewed with favour by all concerned.

THE RETORT OBVIOUS.

Clergyman: Will thou take this woman for thy lawful wedded wife?

Prospective Bridegroom: Well, wot d'yer think I come 'ere for?

RICHARD HALL & SON LIMITED

GUSTAVE EVANTUREL IS THRUST OUT OF THE LIBERAL CAUCUS

Member for Prescott May be the Subject of Official Action, Says the Attorney-General—Letter is Not Explained

WAS DISAPPOINTED

TORONTO, Feb. 27. — Gustave Evanturel, M.P.P. for Prescott, did not appear in the Legislature yesterday, and the expected statement in connection with the letter read by J. H. Ferguson, soliciting a retainer from the liquor interests, is still outstanding. The matter, however, is not to be allowed to stand, and before adjournment Hon. J. J. Foy, speaking for the Government, said that the whole incident is to be considered, and in default of a satisfactory explanation some action will be taken to safeguard the dignity of the House and resent the insult it has received.

In this Mr. N. W. Rowell, leader of the Opposition, concurred, and promised hearty co-operation with any proper methods that might be adopted.

In the course of a statement during the afternoon, Mr. Rowell said:

"I desire to say that the honorable member for Prescott came to the Liberal caucus this morning and made a statement in reference to the letter read in the House yesterday by the honorable member for Grenville. After making his statement the honorable member retired. It was unanimously decided that the honorable member should not be again invited to attend caucus or be recognized as one entitled to take part in the deliberations of the Liberal members of the Legislature, and this decision has been communicated to him by the Chief Whip of the party in the Legislature.

A sharp passage occurred when Mr. G. H. Ferguson (Grenville) rose to reply to Mr. Rowell, but the Speaker finally allowed him to proceed.

He did not think the Liberal leader could entirely dissociate himself from the position he had formerly assumed regarding Mr. Evanturel. The member for Prescott had been closely allied with the Liberal party. "All the time," said Mr. Ferguson, "he had expressed a desire to make an official connection of the liquor interests with the Liberal party to get a large contribution from the liquor party, no doubt to be made use of in the interests of the Liberal party."

Mr. Rowell denied that Evanturel had supported the temperance policy, and Mr. Ferguson pointed to a case in 1913 where Mr. Evanturel had been paired with Mr. Gamey on a liquor policy vote.

Mr. C. M. Bowman, Liberal Whip, rose to explain that the pairing had been an error, and that Mr. Evanturel did not want to be paired on that occasion but had protested vigorously afterwards.

Mr. Ferguson, he said, was evidently disappointed that his bomb had failed to discount the Liberal position on the temperance issue.

This closed the discussion.

SHORT COURSE IN AGRICULTURE

The Millbrook Class of 1914 is a Record Breaker—Grand Banquet to Wind Up

MILLBROOK, Feb. 27.—Those who attended the wind-up of the agricultural class in a most successful Horse, Cattle and Seed Show, last week, could not be otherwise than pleased with the most auspicious outcome. For five weeks Mr. R. S. Duncan, B.S.A., and his assistant, Mr. George Wilson, B. S. A., of the Agricultural Department of Port Hope, have been instructing a class of thirty-five young farmers of this district in certain phases of Agriculture as it pertains to stock judging, feeding, milk testing and grains and crops and that the school of instruction has been much appreciated was evidenced by the words and other tokens of esteem tendered them at the banquet on Friday night. The list of students and the prizes awarded are given elsewhere so that we need not refer to them.

Daily grinds in the class room and frequent trips to the creamery and stock farms, where lectures were given on the animals brought before them, constituted the course of instruction, and Dr. Dickinson, V. S. of Port Hope, was out twice to lecture to the members. As was stated by the members at the banquet, they have made a good start on the highway to successful and intelligent farming by the splendid instructions received from Messrs. Duncan and Wilson, which, by further study and application cannot but be of great benefit in the coming years.

Remembered By Her Friends

Mrs. Elric White (nee Fitzpatrick) Honoured by Norwood People

On Wednesday evening, Feb. 18, over a hundred friends gathered at the home of Mr. W. H. Hurley, the occasion being a shower in honour of Miss May Fitzpatrick, a bride-elect. The gifts were numerous and beautiful, consisting of linen, china, nickel and silverware.

The guests spent a most enjoyable evening in vocal and instrumental music, card playing and dancing, a dainty lunch being served at midnight. The affair also partook of the nature of a "house-warming," being the first function given in Mr. Hurley's new home.

In the wee sma' hours of the morning, as the guests were preparing to depart, Mr. Hurley, on behalf of the bride-elect, thanked them all for their kindly expressions of feeling.

Miss Fitzpatrick is one of the most popular young ladies of St. Paul's parish, as was evinced on this occasion, and her bright and charming presence will be greatly missed by her wide circle of friends.—Norwood Register.

New Minister Was Inducted

Into the Charges of Roseneath and Bethesda

COBOURG, Feb. 27.—The induction of Rev. W. H. Alp into the Roseneath and Bethesda Presbyterian charges took place at Bethesda Church, Harwood, yesterday afternoon. Among the clergy of the district present were: Rev. D. A. Thompson, Hastings; Rev. Wm. Beattie, Cobourg; Rev. R. J. Ross, Baltimore, and others. The ladies of the church served tea, and the Baltimore Musical Association assisted in the programme.

GAIN FOR "WETS"?

Rejection of More Ballots In Welland Means Lead of 96.

WELLAND, Feb. 27. — Evidence was produced yesterday in the Canada Temperance Act election scrutiny by the temperance people in support of their assertion that they were dishonestly deprived of a verdict in their favor. The drys are endeavoring to establish the correctness of the original count from the polling subdivisions where the "wets" now show considerable gains. During the examination by W. E. Raney, K.C., for the temperance people, Judge Livingstone remonstrated, claiming that too many assertions of manipulation were being made. It is expected that as a result of the evidence taken yesterday the ballots which had been numbered in three polls where there was a dry majority, will be rejected. In that case the wet majority would be increased by 96. The scrutiny will be continued to-day.

Conciliation Efforts Fail.

PHILADELPHIA, Feb. 27. — Unable to reach an agreement on a new wage scale to take the place of the present one which expires March 31, the joint conference of operators and miners from Western Pennsylvania, Ohio, Indiana and Illinois, which has been in session since Feb. 10, yesterday adjourned sine die.

It was announced that this action does not necessarily mean a strike.

Earl Minto Sinking.

LONDON, Feb. 27. — Earl Minto, who has been seriously ill for many days, is gradually growing weaker.

Applications In For The Position

Of Medical Officer of Health—A Meeting of the City Council

A meeting of the Finance Committee of the City Council will be held this afternoon at 4 o'clock. The usual list of accounts will be presented for endorsation at the hands of the Finance Minister, Ald. J. C. Anderson. Committee meetings have been held each night this week with the exception of Monday evening, which was given over to a meeting of the Central Charity Board. Reports of the various meetings will be presented at the regular meeting of the City Council that is scheduled for Monday night next. One matter of importance that will be dealt with at the forthcoming meeting of the Council, is the resignation of Dr. McPherson, Medical Officer of Health. It is understood that several applications are in for the position, including one from Dr. Brown and one from Dr. Young. The latter has had considerable experience with the public health of the City, as a member of the Board of Health. He was chairman of the Board prior to the appointment of Dr. Amys.

Conducted An Investigation

To Enquire into Destruction by Fire of the Cmemee Armoury

KINGSTON, Feb. 27.—A board of officers was detailed by Col. T. D. B. Hemming of the Third Division to convene at Omemee, Ont., on Thursday morning to inquire into the burning of the armoury at that place on the previous night. Major H. T. Hughes, Engineer of Division; Major J. J. H. Fee, and Captain J. A. Williams of the 45th Regiment composed the board. The building was erected last year, and was valued at $11,000. After investigating the matter as directed the Board returned to Kingston. They will make their report later.

BELL TELEPHONE GIRLS WERE ENTERTAINED BY MR. AND MRS. HUNTER

Mr. and Mrs. Albert Hunter, North Monaghan, entertained at their home last night a Peterborough party comprised of a number of the young ladies of the Bell Telephone Office, and their friends. The host and hostess were most hospitable, and the outing was thoroughly enjoyed. A number of vocal solos by the young ladies were greatly appreciated. Beautiful voices have the young ladies of the Bell staff. There were no untoward occurrences on the journey, with the exception of an upset, in which a box of sandwiches and a dozen crullers disappeared.

A hearty vote of thanks was extended to Mr. and Mrs. Hunter.

AT ELLIOT'S ON SATURDAY

1. Special snaps in lace collars and frilling 25c
2. Ladies out-side size underwear, Reg. 50c for 39c, Reg. 75c for 49c and Reg. $1.25 for 94c.
3. Great clearing in satchels and chain bags.
4. New lot of Dust Caps at just the same price of the Handkerchief, 2 for 25c

Sabbath Is Disregarded

Bishop of Toronto Exhorts Clergy to Promote Observance of Sunday

All the clergy of the Diocese of Toronto, which includes Peterborough, have received a Lenten pastoral letter from the Bishop, in which he says:

"I desire you to note that the first Sunday after Easter is the annual Lord's Day Sunday for the diocese, upon which you are requested in sermons and addresses to emphasize the obligations and privileges of the day as a day of spiritual refreshment in public worship and of physical rest. In view of the alarming encroachment in recent years upon the observance and sanctity of this day and the widespread spirit of pleasure-seeking which is affecting all classes of the community, it would seem that too much emphasis cannot be laid by the clergy at the present time upon the need of a due and proper observance of the Lord's Day."

The offerings on Good Friday are to be devoted to evangelization work among the Jews in Canada. The amount asked from the whole Church in Canada is $10,700, and the share of the Diocese of Toronto is $1,800 for work among the local Hebrews.

ANNUAL MEETING OF ST. LUKE'S W. A.

Officers Were Elected and Reports Received

The annual meeting of St. Luke's Woman's Auxiliary was held yesterday afternoon with a large attendance of members. Mr. S. Gaskins presided. The reports of the year's work showed the society to be in a very satisfactory condition. Officers were elected as follows:

Hon. Pres.—Mrs. E. A. Peck.
President—Mrs. S. Gaskins.
1st Vice Pres.—Mrs. F. J. Sawers.
2nd Vice Pres.—Mrs. T. Moore.
Cor. Sec.—Mrs. J. Butcher.
Rec. Sec.—Mrs. H. Butcher.
Treasurer—Mrs. W. F. Turner.
Dorcas—Mrs. F. J. Jameson.
Junior Supt.—Miss Clara Adams.
Secretary of the Babies' Branch—Mrs. E. Turner.
Organist—Mrs. F. Whitehouse.
Members of the Executive appointed by the Rector—Mrs. R. Tivey and Mrs. J. Heap.
Delegates to the annual meeting in Toronto—Mrs. S. H. Long and Mrs. J. W. Anderson.
Substitutes—Mrs. F. Milliken and Mrs. W. Gibbs.

FREEDOM FOR CHECK-RAISER

Special Wire to The Examiner:

COLUMBUS, O., Feb. 27—Joseph A. Hull was released from the Ohio penitentiary to-day after having served a four years' sentence on a forgery charge. Hull is under indictment in New York on a charge of raising a check bearing the signature of the late Timothy L. Woodruff, whose secretary he was. It is understood that no action is to be taken on this indictment for the present, and that Hull will be permitted to retain his freedom.

LIVE STOCK MARKET

Special Wire to The Examiner:

UNION STOCK YARDS, Feb. 28.—Receipts were light. 23 cars, 311 cattle, 630 hogs, 43 sheep and lambs and 19 calves.

Cattle.— Notwithstanding the light supply of cattle, trade was slow with prices unchanged from Wednesday. Choice butcher's steers, $8.25 to $8.45. Good butcher's steers, $7.75 to $7.90. Medium buther's steers, $7.40 to $7.60. Common butcher's steers, $6.75 to $7.25. Choice butcher's heifers, $7.75 to $8.25. Common butcher's heifers, $7.00 to $7.50. Choice cows, $7.00 to $7.25. Good cows, $6.50 to $6.75. Canners, $3.75 to $4.75. Bulls $6.50 to $7.75.

Feeders and Stockers.—Market very firm with prices unchanged. Choice steers, $7.00 to $7.40. Medium steers, $6.50 to $7.75. Stockers, $6.00 to $6.50.

Milkers and Springers.— Not many on sale at $65 to $100 each; bulk sold at $70 to $90 each.

Calves.— Only 19 on sale. Choice veals, $10.50 to $11.50; medium to good, $6 to $9.50.

Sheep and Lambs.—Only 43 on sale, not enough to make a market. Sheep, $6.50 to $7.00. Culls and rams, $4.00 to $6.25. Lambs, choice ewes and wethers, $9.25 to $9.75.

Hogs.—There being a light supply, the market was very firm. Selected fed and watered, $9.25 and $9.60 f.o.b. cars, and $9.75 weighed off cars.

Band at Street Railway Rink to-night. Good skating.

SPREADING HIS SONS.

Kaiser Is Placing Them at Different Points In Germany.

BERLIN, Feb. 27.—Another step was taken by Emperor William yesterday in his policy of distributing his sons throughout Germany. It was officially announced that Prince Eitel Friedrich was to be appointed in the autumn commander of the king's mounted rifles at Posen, where he will be the first resident of the imperial palace.

The crown price is on the staff in Berlin. Prince Adalbert is a naval officer at Kiel. Prince August William is a civil official at Hanau, and Prince Joachim is serving with his regiment at Cassel.

WALL DECORATIONS

The increasing demand for the plain and semi-plain papers with the Cut Out and Panel decorations was anticipated by us, and we have put in stock for the 1914 season a large assortment of these effects, suitable for either bedrooms or the downstair rooms.

Our Blends, Scrambles and Foliage grounds, with dainty stragglings and cut out borders, offer unlimited opportunity for pleasing decorative effects.

We carry Cretonnes to match our own papers, and, when used, seem to be the finishing touch in home decoration.

All of our 1914 patterns are in stock, now, and we will be glad of the opportunity to show them to you.

Notable Values For The Closing Day Of The February Sale of Furniture And The Mark Down Sale

Set of Quartered Oak Dining Room Chairs $18.90

Procurable in either fumed or golden oak finish, with broad solid leather seats, and well shaped legs. All quartered oak frames and of $22.50 usual value. February Sale $18.90

Embroideries and Shadow Laces, both New and Dainty

Being new Spring goods, they show a complete selection of all the latest patterns and designs, that are proving so popular with smartly attired women just now, and which are to be had in 12, 18 and 24 inch widths; ranging in price from 45c to $1.35 a yard.

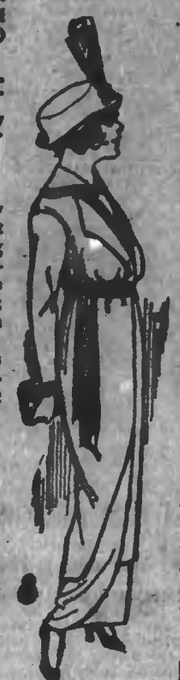
Embroidery Flouncings 27 inches wide some in hemstitched and scalloped edges, and are worth from 89c to $1.49 a yard

Main Floor Centre

$15 Chiffoniers are Selling for $11.95

It is certain that $11.95 never brought home such value as there is in these Chiffoniers. The body has four large drawers and two small ones, fitted with either brass knobs or handles, the whole being surmounted by a square or oval mirror.

The finish is golden surface oak, and the February Sale Price $11.95.



Spring Dress Goods and Suitings

With the sunset growing later, and the sun's rays growing stronger each day, it is not to be wondered at, that many women have already chosen a length of some favourite material, which is to be made into a dress, costume or skirt, and donned with the first blush of Spring.

And selections of Spring Dress Goods or Suitings were never wider or more beautiful, than in the present showing of fashionable materials gathered from America and Europe; and now on view in the department at the rear of the Main Floor.

A Neat Kid Boot for Women's Wear at $2.38

This is a nicely fitting little button boot of Dongola Kid, which is made with medium weight sole and Cuban heel.

It has a top of dull kid, and a patent toe cap, while the well modelled last easily conforms to the shape of the foot.

At $2.38 a pair on Saturday, this is value a little better than usual.

Second Floor

Yokes and Belted Effects Distinguish the Sports Coat

And what an excellent coat for all early Spring occasions, are these smartly made Sport Coats with their patch pockets, belts and straps.

The materials are generally woolly plaids and broken checks, while most of them are cut with a yoke and finished with deep cuffs or cuff effects.

Then amongst the new Spring Coats, one sees many dressy little models made of such cloths as Whipcords, Shepherd Checks, Granite Cloths and Serges; and having bright touches of colour introduced at the cuffs and collars.

Like the Sports Coats, they have the kimono and set-in sleeves, while the general pricing ranges between $9.50 and $18 for both styles of coats.

Second Floor

Take a Free Pattern Home With You

Be sure to visit the Pattern Counter and secure one of the free patterns that are being given away all day next week.

They are the famous Ladies' Home Journal Patterns, and are distributed in this way, to show many women that in these quarters they can secure dependable goods that is easy to fashion.

Main Floor Rear.

Wash Goods in Plain and Novelty Weaves

Looking down the counters and shelves of the Wash Goods Section, one sees some of the loveliest fabrics that modern looms have ever produced. Ratines, Crepes, Reps, Linens, and Silk and Cotton mixtures, also a host of plain white materials of many different textures.

And gazing upon such a noble assortment, the fact is surely impressed upon one, that Cressmans' is the place for Wash Goods.

Main Floor Right

The "Ever Right" Boot For Women $2.68

In this new shipment, one has a choice of early Spring styles in patent buttons, that have dull glove tops and an extension sole. "Ever Right" Boots are an example of the modern application of science in fitting shoes, and will be found to give much satisfaction.

Moreover, $3.50 seldom buys a boot that can equal it in style and quality.

Saturday $2.68.

Spring Suits For Misses and Women

At prices between $13.75 and $25.00 we are showing a number of Spring Suits, that are correctly designed and neatly finished, in the leading cloths for early Spring wear.

Second Floor

$8.70 is the February Price of This Hall Rack

It is finished in golden surface oak, and has an handsome appearance.

It is over 6 feet high; is 27 inches wide, and has a bevelled plate mirror 20 by 12 inches.

There are four hat and coat hooks, a box for rubbers and things; also a brass umbrella holder.

February Furniture Sale .. $8.70

Surface Oak Buffets $20.75

The roomy case, which is in size 20 x 48 inches, contains one large and three small drawers, one of which is lined with green felt for cutlery.

The mirror measures 12 x 36 inches, and has an ornament shelf each side of it, while the two china cupboards are hung with leaded glass doors.

Nothing short of $35.00 would purchase this in the usual way, yet the sale price is only $20.75.

Conducted Funeral in Norwood

Death of Mrs. (Rev.) Low, Wife of Baptist Minister

After a serious illness extending over several months, Mrs. (Rev.) Low, beloved wife of Rev. W. W. Low, pastor of Norwood and Centre Dummer Baptist Churches, passed away on Thursday last, the 19th inst. at the parsonage, Queen Street, Norwood.

Mrs. Low, whose maiden name was Mary A. Harmer, was in her 50th year. She was born in the township of McGillivray, county of Middlesex, being a daughter of the late Charles Harmer. Her marriage took place twenty-two years ago. She also leaves to mourn her loss, two sons, Milton of Peterborough, and Carman at home; and one little daughter, Jean.

Accompanying her husband in his pastoral work, they resided at Kenilworth, Oxenden and Dyers Bay, previous to coming to Norwood in July 1912. During their comparatively short residence here deceased became not only beloved by the congregation as a help mate to her husband, but also favourably known to a large circle of friends.

The funeral was held on Sunday afternoon, service being conducted in the church by Rev. J. E. Webb, pastor of Murray Street Baptist Church, Peterborough, assisted by Revs. Copeland and Snider of the Methodist Church of this place. The Church was filled to the doors with members of the congregation and sympathizing friends, who were gathered to pay the only remaining tribute of respect possible to the memory of the departed, by attending the service and afterwards following the remains to their last and resting place in our Silent City.

General Election May Come Early

Special Wire to The Examiner:

LONDON, Feb. 27.—Austen Chamberlain, speaking at Birmingham, said that despite all protests to the contrary, he believed the general election would come earlier than their opponents thought. The Unionists had never opposed the local Government, but setting up a separate parliament in Dublin was quite another matter.

SUPERINTENDENT WILL BE HELD RESPONSIBLE

So States Despatch From Ottawa to the Examiner

OTTAWA, Ont., Feb. 27.—It is stated this morning that ex-Superintendent McClellan will be held responsible for the return of moneys diverted as reported in the morning papers. The papers in this case will be laid on the table of the Commons in a few days, when Hon. Dr. Reid returns from Halifax, whither he has gone with Hon. Frank Cochrane.

ATTACKS THE MEXICAN POLICY

Special Wire to The Examiner:

WASHINGTON, Feb. 27. — Representative Rainey of Pennsylvania today led a bitter attack on President Wilson's policy in Mexico and moved that he be asked to report to Congress immediately what steps are being taken to protect United States' citizens and other foreigners in Mexico. Further discussion this afternoon.

A REMARKABLE BANK STATEMENT

Special Wire to The Examiner:

OTTAWA, Feb. 27.— Some remarkable movements of business occurred in Canada during January, if the bank statement is any sort of criterion. The accounts of the savings depositors alone appear to have saved the statement from disgrace. Time deposits, the gold reserve call loans in Canada, call loans in New York and current loans in Canada all declined heavily during the month, but the humble individual appears to have started the year with good resolutions and put his money into the bank for the savings deposits jumped. It is evident that the banks were holding a tight grip on credits during the month. The jump in savings deposits shows that the people are getting some money and that they are not anxious to spend it.

Y.M.C.A. NOTES

Athletics.

Owing to the large number of boys taking part in the "Laing" contest, last night, only three of the events were run off—the 60 yard potato race, running high jump, and standing broad jump. The three remaining events will be run off on Tuesday, March 3rd, at 7.30 p.m.

The standing of the competitors by points, follows: J. Green, 191; B. Mulbern, 186 1-2; C. Mongeau, 155; V. Thorndyke, 150; M. Pringle, 139 1-2; B. Hamilton, 130; G. Thorndyke, 124; R. Head, 120; J. McLeod, 105; D. Hunter, 98; K. Sturgeon, 88; G. Nelson, 74; J. Jones, 71; F. LeBar, 70; R. Cameron, 64; P. Ecobichon 45; H. Devens, 30.

Basketball.

The Buglers and Indians meet in a championship series Saturday morning.

Leaders.

A special meeting of the Senior Leaders on Saturday at 9 o'clock.

MR. GREEN'S IMPRESSIONS OF HOCKEY GAME

Mr. W. J. Green was an eye witness at the hockey game last night at Kingston between 'Varsity and Queen's. Speaking to the Examiner he remarked that both teams and referee were on the ice exactly on time (something Peterborough might improve on.) Also another thing he mentioned was that no smoking was allowed (and none was done.) The ice was first class and the rink was well lighted. The Queen's yell and song was kept up constantly, conducted by a leader who stood on the ice before the boys like a choirmaster until the play started. Both teams were in the best of condition and played for all they were worth. For swift skating, nice stick-handling, back-checking, etc., both teams were very evenly matched, and the weight of the players was nearly even with the exception of 'Varsity's point, who would weigh 175 pounds. Play was very even from end to end, with dangerous shots, until about 10 minutes, when 'Varsity scored.

Mr. Green sat immediately over the goal and gave a Peterborough shout for 'Varsity that turned about a thousand eyes on him, and that was the only yell in that end of the rink. A few minutes later 'Varsity again scored, and then Queen's, which ended the scoring for the first half.

At the beginning of the second half, Queen's evened it up—2 all—and the yells might have been heard on Lake Ontario. 'Varsity then came back with two more and Queen's one, which ended the match. Referee Brouce of Kingston Frontenacs, handled the ball satisfactorily to both parties.

ASK PREMIER FOR GOV'T OWNED FLEET FOR THE ATLANTIC

Special Wire to The Examiner:

OTTAWA, Feb. 27.—A deputation of the Dominion Millers' Association, the Canadian Lumbermen's Association, and the Ontario Boards of Trade waited upon Premier Borden, Hon. Geo. Foster, and other members of the Cabinet to-day and urged the necessity of a Government-owned fleet of Atlantic steamships to combat the ocean freight rates combine. It was maintained that the rates on wheat, flour, and other commodities had increased tremendously since the formation of the present combine within the past two years. The deputation presented strong opposition to the free wheat and free-flour proposal, declaring that it would not only increase the price of flour to consumers, but would ruin the Canadian milling industry.

At the conclusion of the interview the deputation was promised careful consideration.

Bridgey Webber Has Disappeared And The Police Are Searching

Special Wire to The Examiner:

NEW YORK, N.Y., Feb. 27.—"Bridgy" Webber, one of the most important witnesses required for the second trial of ex-Lieut. Charles Becer, is mysteriously missing. The police of all the States and Canada have been asked to watch for him.

DOLLAR DAY
March 12th

DOMINION ALLIANCE CALL FOR ABOLITION OF THE THREE FIFTHS

Special Wire to The Examiner:

TORONTO, Feb. 27.—The Ontario branch of the Dominion Alliance in convention here to-day, unanimously called upon the Ontario Government to abolish the three-fifths' clause in connection with local option campaigns. Another resolution was passed, backing up the Liberal party of Ontario in the "abolish the bar" campaign.

OYSTER SUPPER AND ENTERTAINMENT

The young men of Coldsprings, Otonabee, held an oyster supper in the Sunday school hall last night. About one hundred and fifty were present, including a number from Peterborough. The ladies waited on the tables and assisted materially in making the affair a success. A concert was held afterwards, Mr. Herbt. Peters presiding. A vocal solo by Miss Ada Lee, recitation by Miss Mary Tully, and vocal solo by Mr. Albert Lee, selections by the Wilson orchestra, and a bright dialogue comprised a pleasant entertainment.

TAFT SAYS ENGLAND'S JUDICIARY IS THE BEST

Special Wire to The Examiner:

WASHINGTON, Feb. 27—Speaking as President of the American Bar Association, before the House Judiciary Committee, ex-President Taft praised the life tenure of the judiciary as it exists in Great Britain and Canada. He declared against the election of Judges and said that in no country has the judiciary reached such a state of perfection as in England.

THREE GAMES IN CHURCH LEAGUE

The Church League played three games at Brock Street Rink last night making considerable progress in the play-off of the schedule. Knox Church beat the Y. M. C. A. Ponies 5 to 1; St. Andrew's beat George Street Methodist 1 to 0, and the Murray Street Baptist team won from All Saints by 6 goals to 0. The most exciting game of the night was the clash between George Street and St. Andrew's, which was marked by one fight and several incipient mix-ups. Len Dobson refereed all three games.

CURLING

A couple of rinks from Campbellford engaged in two friendly matches with as many Peterborough rinks. The scores were as follows:

Peterborough		Campbellford	
R. Davidson		F. Smith	
Skip—16		Skip— 8	
Peterborough		Campbellford	
R. Hartshorne		E. Dorsee	
Skip 20		Skip— 6	

Revenge.

Girl shopper—Why did you make that poor salesman pull down all that stuff and then not buy anything?

Second Ditto—Why, the mean fellow was in a car yesterday and never offered me his seat, though I looked right at him; so I just decided I would get even.

THOUGH OSTRACISED EVANTUREL REFUSES TO RESIGN SEAT

Special Wire to The Examiner:

TORONTO, Feb. 27.—Though completely cut off from all association with the Liberal party, and faced by the declaration of the Acting Prime Minister that the Ontario Government "will take some step to prove the dignity of the Legislature from the insult which he has placed upon it," Gustave Evanturel, the Opposition member from Prescott, stated today that he has absolutely no intention of resigning his seat in the House. He had an interview with Hon. J. J. Foy, during which he attempted to explain his conduct to the Attorney-General.

A CORRECTION OF A REPORT OF A POLICE COURT CASE

To the Editor, The Examiner:

Dear Sir,—Mr. William Jamieson has drawn my attention to the report of the Police Court, in which you state that a foreman by the name of McDowell, turned around and was struck by Mr. Jamieson. This leaves an impression which is contrary to the evidence given in the court, as it seems to indicate that an unfair advantage was taken of Mr. McDowell. Whereas the evidence does not in any way indicate this, but shows that the blow was struck when the men were facing each other.

I would ask you to make this correction, at the request of my client, who feels that he has suffered an injustice from the report as contained in the paper.

Yours truly,
G. N. GORDON.

TURNBULL'S

REORGANIZATION OF CITY'S DEPARTMENTS DISCUSSED

Ald. Stratton's Motion Was Laid Over for Two Months—Ald. Duncan Pressed for Changes in Engineer's Office

DISCUSSION PROLONGED

Reorganization of City departments and their staffs was the principal topic at a special meeting of the Council last night. Mayor Buller presided, and the only absentee was Ald. Langford.

Ald. Stratton moved a resolution providing that all the employees of the City be paid directly by the Council and not by the heads of any departments. In view of the probable change in the Water Commissions' office arrangements, Ald. Stratton was asked to hold his resolution over for a couple of months.

Then Ald. Duncan aims at a few changes in the City Engineers office, and a committee composed of the Mayor, Ald. Duncan and Mr. Parsons will investigate that office and report back to the Council.

Ald. Stratton's Proposal.

Ald. Stratton's motion proposed to deal with the City Clerk's and City Treasurer's offices; the head of a department would retain the authority to engage or dismiss those under him, but the salary would be paid by the City and would come out of the sum paid by the City to the departmental heads. Ald. Stratton stated that he urged solely by business reasons. He considered that it was in the interests of the City to rearrange this method of paying assistants and clerks. There might not be any saving now, but in time it would work out most satisfactorily.

Clerk Needs Assistants.

Ald. Stratton further stated that he felt that City Clerk Armstrong should have an assistant, a young man who would go in and learn the City's business from the ground floor up, and who would thus be ready to take the City Clerk's place when he is out of town, or if he became ill or was in any way unable to be in his office. Such an assistant would not only lighten Mr. Armstrong's duties to a slight extent, but also be an assurance that there was some one who would be coming on for the position.

The Present System.

Ald. Stratton quoted figures showing that the City Clerk receives $3,600 for his various duties and out of that sum has to pay two clerks. The Council pays directly the salary of a third clerk and stenographer.

The City Treasurer receives $3,500 and has to pay two or three clerks out of this sum.

Mayors Opinion.

Mayor Buller stated that this question had been up several times during recent years, but on each occasion the majority of the Council had turned it down. The Mayor favoured securing a young man who would become an assistant City Clerk. With the present arrangement the appointments are taken out of the Councils hands. In the Treasurer's office Mr. Adams assumes entire responsibility and the individual clerks have not to be handed by the City.

Ald. Stratton replied that he would not remove the power of making appointments or dismissals. Complete control would rest with the heads of departments.

Mayor Buller— They would be the heads, but the Council would engage the assistants.

Ald. Stratton —So are the old time would simply pay their salaries instead of having the money come from the heads of departments.

The Mayor remarked that things were running satisfactorily.

Ald. Stratton—So are theold time stores, but they are not up to date.

Ald. Anderson asked what was done in other cities.

Mr. Armstrong replied that the Council fixed the salaries.

Ald. Duncan—Would the heads have the same control over their clerks.

Ald. Stratton—I think they would.

Ald. Green favoured the appointment of an assistant to the City Clerk.

Let it Stand.

The Mayor pointed out that with the assumption of Hydro-Electric supervision the Water Commissioners will change the system of conducting their business, relieving the Clerk and his staff of some of their present duties. In the meantime Ald. Stratton's suggested changes should be left in abeyance, until, in any event the reorganisation of the Water Commissioners Department is completed.

Ald. Anderson and Ald. Johnston concurred in this view.

Ald. Stratton thought this re-arrangement might be gone into now, the clerk to be paid a commensurate salary for his several duties, also his staff, any revenue from the Water Commissioners' department for clerical work to go to the City's credit.

The Council as a whole, agreed that Ald. Stratton's suggestion was a good business move, but thought it advisable to leave the matter stand until organization of the Public Utilities Commission.

Ald. Stratton agreed to this, and the question is left in abeyance for a month or two.

Mr. Armstrong replied to the Council that were he given a young man assistant to acquaint himself with the duties of a clerk, year by year as his experience increased he would naturally expect more salary. This would mean that under present salary arrangements he (Mr. Armstrong) would have to apply to the Council for an increase. Consequently under such circumstances, Ald. Strattons suggestion that Council pay salaries direct to each employee in his office would be preferable. He was open to accept willingly any change agreed on by Council.

Ald. Duncans Plan.

Ald. Duncan, chairman of the Board of Works urged a re-organization of the Engineering Department, clerically. Mr. Quartermaine, he said is getting $730 and a lady stenographer $312 a year. He proposed the hiring of a smart young man capable of doing stenography, and bookkeeping and acquainting himself with many rudimentary details of the engineering department and releasing Mr. Quartermaine and the young lady. The salary for the new clerk was $600, which against present salaries of $1043 for clerical work, would furnish a saving of $443. $300 of this saving could be applied to the present salary paid for plumbing inspection—making $900 a year for this work. (Two applications for the office of plumbing inspector, at a salary of $900 a year are at hand).

This organisation. Ald. Duncan contended, would give more satisfactory service in the Engineering Department and permit the engagement of a good plumbing inspector.

Ald. Stratton said that Mr. Quartermaine was a good office man, has been in the City's employ a long time — consequently must be conversant with the duties required—and he could not see why he should be replaced by a young man,

Ald. Gordon took the ground that the Mayor, Chairman of the Board of Works and the Engineer are best qualified to judge of the needs of the department in question. Consequently the matter should be left in their hands with power to act.

Ald. Gordon moved that the question be left with them to make whatever changes they consider necessary.

The Mayor—"I understand that Mr. Quartermaine, has taken up stenography. If he can do the work required without a young lady stenographer's help why not keep him?"

Ald. Duncan—"There has got to be some change in this department, or I quit right now. I simply won't stand for the expense going on at present.

Ald. McIntyre— "I'll second Ald. Gordons resolution if the matter is reported back to the Board of Works."

Ald. Gordon—"I would not care to do that. These men are experts on the question, and quite capable of acting in their department's best interests."

Ald. Duffus—"The chairman of the Board of Works and City Engineer have gone into the question. They feel that something is not satisfactory and should be supported."

Ald. Duncan—"Do you want us to better it, or to go on as at present?"

Ald. Johnston—Don't you think the matter should come back to the Board of Works; it is a question affecting their department?"

Ald. Duncan—"I'm satisfied; we are not going to do anything to be ashamed of."

Ald. Gordon — "Very well; I'll change my resolution to read, 'report back' instead of 'with power to act,' as the chairman is agreeable."

This was done and Ald. Johnston seconded the motion, which carried.

ALD. GORDON WILL INVESTIGATE QUESTION OF COAL WEIGHING

Ald Gordon last night asked that the question of weighing coal on the public weigh scales be referred to the Legal committee of which he is chairman. "People dont' know if they are getting their weight or not." He did not think some coal was being weighed.

Ald. Stratton—"What does it matter anyway? Our coal is brought in, we look at the ticket, and are none the wiser. People have no means of judging of the accurancy of the weight ticketed."

The Mayor—"I heartily agree with Ald. Gordon's suggestion; it is just what we want. You might, Ald. Gordon, look into the combine question while you are at it." (Laughter.)

Ald. Gordon—"Oh! that's fallen through."

Ald. Stratton—"There'll be a combine before long." (Laughter.)

Ald. Gordon here moved that this question go to the Legal committee.

The Mayor seconded the resolution quite cheerfully. The motion carried.

President Nelson Of Mercantile League Explains The Situation

To Sporting Editor, The Examiner:

Sir,—In fairness to the officials of the Mercantile Hockey League, the League itself, and especially those representatives who are employed by the largest works in the city, I desire to protest against the articles in your paper of Thursday evening, February 26th.

It is stated that the Mercantile League executive have acted in a manner that violates all principles of true sportsmanship, and then a statement is made that apparently supports this contention.

Avoiding all vituperation and bald statements of right or wrong, which in any event would not hold either as evidence with courts or with intelligent assemblages of people, I will state the facts of the case as remembered by myself and other officials, and borne out by the records.

What has been done in the past has, in general, very little to do with what is being done in the present, or should be done in the future, providing no secret or underhand work has occurred.

The meeting of the League executive referred to was called by a notice in the paper, the same as all other meetings were called, and there were present at this meeting President Nelson, Secretary Walkey, and one executive, Mr. Harris, and representatives from all the teams except the De Laval and Bankers. As this meeting was called the same as all the other meetings were it could in no sense be termed a secret meeting.

The principal trouble now seems to be about a matter of money, and it will appear from a statement to be made later on that those who were unwilling to do any work or share in any expense think it right that they should share in any possible profits from extra gains, without agreeing to assume their share of any possible deficit. The schedule ended on February 9th. Up to and including that time all six teams were to share (and have shared so far as I know) equally in all gate receipts. At the end of the schedule it was necessary for an extra game to be played between the Test and the Tool rooms. This was won by the Tool Room, and left three teams a tie—the Bankers, the Tool Room and the Test. At a meeting of the executive the test drew a bye, and the Bankers and the Tool Room played off, leaving the Test and Tool rooms to play the final game for the championship next Monday night. In order to keep in shape for these games the Tool department have incurred an expense for which they can produce evidence of $38.25. It is fair to assume that the Testing Department and the Bankers will be under the same expense.

At the meeting of the officers and executive last Monday night nothing was done in secret, and nothing had been prepared beforehand, but what seemed fair to the parties concerned. More than this, it has been extremely difficult to get the representative of one of the teams to attend any meeting, and we have succeeded in getting him at a meeting only by adjourning and sending out the vice-president to call him in.

The following proposition was made by me at this meeting: Each of the six teams in the League were to be given 100 tickets for next Monday night's game, and the proceeds from the sale of these 600 tickets, and the proceeds from the extra game between the Tool Room and the Test, and the Bankers and the Tool Room were to be equally divided between all six teams in the League. It was not made a condition that any team should sell their complete number of tickets (100) or sell any tickets at all. They were only asked to try to sell them. The representatives of the Press and the Plumbers' team said that they could not reach as many people as the employees of the Canadian General Electric Company, and refused to have anything to do with selling any tickets, and would buy none for their own use, and, so far as I know, they did not make any proposition to share in any of the expenses or in a posible deficit. Now, as can be shown, each of the three surviving teams are at an expense of about $50 each to carry on the extra games. The representative of the Press team and the Plumbers' team, as before stated, refuse to do any work, refuse to share in any expense, and now they are making a wail because they cannot share in any possible profits. They made no counter proposition themselves, and made no suggestions except that they should have their share of the gate of the three extra games on which they did no work, incurred no expense, and were not even willing to try to help sell tickets, or buy any themselves. The Tool Room and the Test guaranteed to sell one hundred tickets each, and have done so and more.

I have not as yet received Vice-President Russell's resignation, and will not accept the same until Mr. Russell makes a complete and fair statement in the paper, stating just what was offered and what refused, and also stating that they made no counter proposition offering to share in expenses as well as in profits.

To show the desire of myself and the League in general, to make a fair settlement with everybody, we are willing to leave the matter to any disinterested party or parties to decide whether or not the Press team and the Plumbers' team are entitled to share in the receipts of these three extra games. The only condition I make is this matter going out to arbitration is that any team expecting to profit by the arbitration, or wishing to be represented therein, must agree to assume beforehand their share of all legitimate expenses, these expenses including any necessary expense that the Tool Room, the Test Department, or the Bankers have been put to in carrying on these extra games. If this proposition does not appear to be fair to Mr. Frank Russell will he kindly indicate just what he thinks would be fair. Myself and some of the other officials of the League are human and subject to error, and, so far from trying to put any underhand deal through, we are willing to re-open the whole matter and leave the same to any disinterested party, but we think it extremely unfair that any organization, individual, club, or anyone else, should expect to share in gate receipts or in profits from any business whatever unless they are willing to do as much work as corresponds to their share and assume a proportionate responsibility in expenses.

As the De Laval team were not represented at the meeting last Monday night, any of the above remarks are not intended to apply to them, as no doubt they will see the situation in its true light and not think that they are being used unfairly in any way.

Trusting that you will find space in your valuable paper for this letter, I remain,

W. J. NELSON,
Pres. of Mercantile Hockey League.

ASSESSMENT RETURNS FROM THE SOUTH WARD

Patrick Lavery, owner, 109 George street. Part lots 6 and 7, Plan 5a Frontage 36 feet. Land value $360. Buildings $1,150. Total taxable property $1,510. S.S.S.

IN THE WORLD OF SPORT

HE PETERBOROUGH ATHLETIC CLUB IS ORGANIZED AT ENTHUSIASTIC MEETING

y Organization Will Be Represented in Different Lines of port and is Intended for the Encouraging and Developing of oung Athletes.

40 MEMBERS ALREADY

well-attended and enthusiastic ting in the Board Room of the M. C. A. last night saw the inauation of a new sporting organi—the Peterborough Athletic n—the main object of which is to lop and encourage young play- in different lines of sport. The t of such an organisation in ch the young men of the City ld be banded together in a move- t for the interest of clean amas sport has been keenly felt here the past, and it is hoped that the Club will do much to remedy conditions that have existed in years. The Peterborough Ath- Club will play baseball this mer, make an effort to revive ress in the City, likely have a ity team in the Fall, and will be resented on the ice next winter. ady forty enthusiastic young fel- have joined the Club, and there no doubt the membership will in- ase by leaps and bounds when objects of the organization are fully before the public. Young letes in all branches of sport will welcomed, and the friends of n, manly sport will not be re- ed admission.

. D. Craig was voted to the chair the last night's meeting opened, T. B. Moffatt was appointed Secy pro tem. The chairman briefly plained the aims and objects of the b, which was destined to give ung players a better chance that y have had in the past.

The question of a name for the new anization was discussed, and it s decided to adopt the title "Peborough Athletic Club".

The election of officers was then ceeded with, the following being sen:

Patrons and Patronesses — Mayor d Mrs. Buller, Mr. and Mrs. R. M. ver, Mr. and Mrs. B. T. Carr, . E. A. Peck, M.P.P., and Mrs. ck, Mr. and Mrs. T. F. Matthews, r. and Mrs. H. B. Cowan.

Hon President—Mr. Sam Ray.

President—Dr. A. W. McPherson.

First Vice-Pres.—Fred McGrath.

Sec. Vice-Pres.—A. Cranfield.

Sec.-Treas.—Leonard Dobson.

Manager—Fred D. Craig.

Executive Committee—Orville Kennedy, Grover Halpin, Roy Smyth, E. P. Kelly, W. C. Harris.

DR. A. W. McPHERSON
President of the newly formed Peterborough Athletic Club.

LEONARD DOBSON
Secretary-Treasurer of the Peterborough Athletic Club.

A committee composed of President McPherson, Secretary Dobson, and Manager Craig was appointed to draft a constitution for the new club and report back at a general meeting of the members to be held in the near future. The admission fee was fixed at 50 cents, with monthly dues of the same amount.

Application for membership into the Peterborough Athletic Club will be received by F. D. Craig, at The Examiner Office.

Although the movement was only launched a few days ago the membership already stands at 40—a pretty satisfactory start.

"All The Ear Marks Of A Frame-up"

Manager of the De Laval Team Comments Upon the Action of the Mercantile League

Peterborough, Feb. 27th, 1914.

The Peterborough Examiner, City:

Dear Sirs,—The writer was not a little surprised to read in your columns the report of the special meeting of the Executive, convened on an eleventh hour call on the 25th inst., and to learn of what appears to me the manifestly unfair action taken to secure for the three leading teams, the gate receipts of the three additional games made necessary by the three cornered tie. This, unquestionably, has all the earmarks of a frameup; otherwise, why the necessity of holding this meeting on such a hurry call?

If a tie game replayed ceases to be a league fixture, then the proper thing to do in the case of a tie during the regular schedule would be to decide the tie by a period of overtime play, otherwise, we are hanging out an inducement for any two teams (who have the desire to do so) to get together and decide to pay a tie game, in order that they may replay the game later, and divide between them the spoils thereof. This has not a tendency to promote clean, honest sport, and I am surprised to find such a course supported by the President of the League.

In so far as the De Laval team is concerned the boys entered the League for the love of the game, and without any other incentive than to play the game fairly, and win it, if possible, and as manager of the team, I may say that the boys gladly sacrifice their participation in the gate receipts, for division among those more mercenary teams who took this action to secure it, but I would like to have seen some consideration shown for the other teams of the league who did not finish up in front, but were, nevertheless, quite as big a factor in making the Mercantile League a possibility, as were those teams who were called upon to play off a three-cornered tie.

Yours very truly,
G. A. EVANS.

LIVERPOOL BEAT WEST HAM IN ENGLISH CUP REPLAY

No Fatalities at Sheffield—Everton Players' Benefits—Sunderland Are Lucky—English Players Born in Scotland

As was anticipated, Liverpool at the second time of asking beat West Ham in the English Cup tie carried over from Saturday. The game played yesterday at Anafield, Liverpool, and West Ham, went down by 5 to 1.

No Fatalities.

Happily there is likely to be no fatality as the result of the distressing accident on the Sheffield Wednesday ground in the replayed cup tie with Wolverhampton Wanderers. Of the 75 cases of injuries to spectators sustained through the collapse of a wall on the Penistone Road embankment wonderfully few were of a serious character, and they are all progressing satisfactorily, only five or six still remaining in the local hospitals. The Wednesday directors have issued a statement to the effect that they will compensate all injured persons who make reasonable claims, but will dispute legal liability where improper and unreasonable demands may be made.

Well Merited.

Everton selected their game with Sheffield United on the 14th inst., as the benefit match for Harry Makepeace and Val. Harris. Really, any league fixture would suffice for this purpose at Everton, for the directors have decided that every one of their players who is awarded a benefit shall receive £500. A little over five years ago Makepeace received his first benefit along with Robert Balmer, and there is not a player connected with the Everton Club who deserves a second solatium more worthy than he. Harris has also proved a most loyal foot-baller, and never given his club a moment's anxiety. It was the Irishman's first award.

Lucky Sunderland

Sunderland are certainly having the best of luck in the F. A. Cup draws this season for, on three consecutive occasions they have obtained choice of ground. This has happened only once before in the history of the club, and that was in the season of 1894-95. In the opening round they defeated Fairfield by 11 to 1, which is still Sunderland's biggest win in the competition; next they beat Preston North End by 2 to 0, and then the Bolton Wanderers by 2 to 1.

Ford's Success.

J. Ford, the youthful outside right, who created such a furore by scoring goals for North End, has not yet attained his majority. He is a native of Wishaw, and he is modest and not likely to be spoiled by success, as are so many young players. He and J. Kennedy formed a smart right wing for Bellshill Athletic until Preston secured them last season in the face of keen competition from other League clubs. Ford was "cheered" off the field after the game at Bolton was concluded. Ford is a youth to whom Leeds wished to give a trial last August. But Ford preferred Preston. Leeds now wish that Wishaw youth hadn't!

He is a Scot.

It has often been remarked that the English Selection Committee are respectors of names, judging from the way they swear by the old brigade when the Internationals come round. On the other hand, they could not have been paying much attention to names when they selected Donaldson Bolton Wanderers) for the trial match. That play's name is as Scottish as Tobermory. Fancy the English selectors not know that Donaldson was a native of Barrhead, Scotland! They did not find out their mistake before Donaldson had entrained for Sunderland. Donaldson has been chosen by Scotland to play against Wales on Saturday next.

A Profitable Goal.

David McLean is the eighth man to be tried at centre forward by the Sheffield Wednesday Club this season. David McLean, the league's champion goal-getter last season, has been slow in finding his shooting boots since his return to the Sheffield Wednesday team. The Owls have failed to score in either of the league games in which the Scot led the forward line. His only goal, however, was a good one v. the Wolves in the ties, necessitating a replay and ultimate win.

Are Equal.

Sheffield United now share with Newcastle United the honour of having taken four points out of Sunderland this season. The clubs have met on 17 occasions. Sunderland winning 24 games, losing 17, and drawing 6, and scoring 98 goals to 92.

BRITISH FIXTURES LIST FOR SATURDAY.

English League—Division I.

Hockey—That's All

The Alerts of the Junior City League are requested to meet at Orme's Studio to-morrow at 3 o'clock. Every member is requested to be on hand.

Captain Field of the All Saints' Juniors requests the following players to be at the Sacred Heart Rink at 8.45 p.m. to-night: Barraclough, Soward, W. Lundy, G. Fuller, Evans, F. Laundy.

City Basket Ball League

There will be a meeting at the Y. M. C. A. on Wednesday night next for the purpose of organizing a City Basketball League. All teams interested are invited to be present.

White House will have the scores of St. Michaels-T. R. & A. A. game and Oshawa-Orillia game by goals to-night.

CHARLOTTE ST. TEAM GROUP CHAMPIONS

In an exciting game in the Junior Church League at Parker's Rink last night, the Charlotte St. team defeated St. Andrew's by 2 to 1, winning the championship of the group. They will now play two games with the Knox Church team, total goals on the two games to count. The final games will be staged at Brock St. Rink.

Tommy Moffatt is taking the Midnight Sons' hockey team to Campbellford to-night for a game with the fast team of that village who haven't lost a game this season. Cassidy, of the Tool Room; Graham, of the Exploits, and Long, of the Junior O.H.A. team are among the players who will take in the trip. Campbellford will play a return game here in the near future.

CANADIAN LEAGUE NOTES

There may be a little world's series between the Canadian League and New York State League in September. Both are Class B organizations and their respective territory is adjacent to each other. The State League has boasted of baseball little short of the International for some years on account of the number of ex-big leaguers in its ranks and the quantity of men it has sent up. As the Canadian League season will run into the second week of September this year, it is quite possible a post series of best four in seven games could be arranged between the champion clubs of the two organizations.

The Ottawa Club is making herculean efforts to purchase Pitcher Bob Strain, the big six-footer, who won 18 and lost 9 for Richmond in the Virginia League last season. Only sixty-four runs were scored off Strain in 36 games, and his strike-out record shows he has both speed and stuff. At the beginning of the season Strain won games with horrible regularity, but when the real hot southern weather came around he went bad. Up in Canada he should find the climatic conditions to his liking, and pitch winning ball right through the season.

Brantford, Feb. 27.—President Nelson of the Canadian leaguers, this morning received the signed contracts of two more fielders, which bring the total number of men signed up to 15. They are Paul Nauclair, of Chicago, and Ernest Hallback of Meridon, Conn.

President Nelson has wired Connie Mack, Manager of the world's champion Philadelphia team, asking for terms to play in Brantford during old home week in August. The Athletics have two open dates, August 11-12, following a series in Cleveland. The jump to Brantford would be a short one and easily made.

Ottawa Free Press: Manager Shaughnessy made the announcement to-day that President Frank Navin of the Detroit American League club, had offered first call on the services of a number of his players now out on a string. This includes men who are with the Providence International League Club, Nashville Southern League club and some clubs in Class B and Class C leagues. In view of the new rating given the Canadian League, the Ottawa leader realised the necessity of gathering together a team that can go the pace with such organizations Erie, London and Toronto are likely to have.

As is well known the Detroit Club has more than fifty young players placed in different leagues for developing purposes. Many of them are little short of major league calibre, and are lacking in experience only. Shaughnessy says it will be necessary to have a much stronger pitching staff than last year, and he proposes to go after the best.

Edmund Lamay, the world's champion ice skater, may be seen in an Ottawa uniform this season. Lamay played the outfield with Charleston in the Ohio State League last summer and hit .337 in 64 games. This included 21 doubles, eight triples, three circuit wallops. He is a free agent, and a scout desires to place him under Shaughnessy.

Al Tench, the youngster awarded Ottawa in the scrap with Brockton, is working out with Dick Breen, the Rochester infielder, and Jack Doescher, the former Brooklyn pitcher, now with Atlanta. They are all residing in Jersey City.

Louis Anderson of Elgin, Ill., an outfielder, wants a job with Ottawa. Ed. Coleman, a hard-hitting outfielder of Chicago, is recommended by Artie Lage. He managed a club in the Central Association two years ago.

The Leclaire trophy for the best all around player in the Canadian League is on exhibition at the Federal Hotel and is the subject of much favourable comment.

PLAN CHANGE IN ATHLETIC RULES

Special Wire to The Examiner:

NEW YORK, Feb. 27—More than ordinary interest is manifested in the annual meeting to be held in this City to-morrow by the Intercollegiate Association of Amateur Athletics of America. It is expected that several important amendements to the constitution and by-laws of the association will be adopted with a view to increasing the desire for participation in competition, and encouraging keener interest and enthusiasm for athletics among college students.

The most important of the proposed changes is the suggestion to add a fifth place in each event in awarding the championship cup for the annual track and field meeting, scoring five for first, four for second, three for third, two for fourth, and one for fifth places, a total of fifteen points for each event, instead of eleven points—five, three, two and one, which has been the method in vogue since 1888.

SOCIALISTS ON STRIKE.

Railroads In Portugal Paralyzed by Workers' Action.

PARIS, Feb. 27.—Railroad communication between Lisbon, Portugal, and the Spanish frontier has been completely stopped by the acti of railway men belonging to the revolutionary section of the Socialist party who have gone on strike. According to passengers who arrived here from Lisbon yesterday after a journey of 102 hours, instead of the usual 32, the tracks have been destroyed in many places, a bridge has been blown up and telegraph and telephone communication has been interrupted almost throughout Portugal.

The passengers were obliged to transfer six times between Lisbon and the frontier owing to breaks in the line. The rails in the tunnel near Kagrebas have been torn out and a freight train was derailed at the mouth of the tunnel.

TO LIMIT PRIVILEGES.

Hon. Mr. White Introduces Trust and Loan Company Bills.

OTTAWA, Feb. 27.—Another reform in the financial and banking laws was advanced in the Commons yesterday by the Minister of Finance.

Hon. T. W. White, Minister of Finance, moved the second reading of his bill respecting trust companies.

The object of the legislation is to have a general act governing all trust companies hereafter created and restricting their creation hereafter to act of Parliament. In short, there will be a general trust companies act, as there is a bank act and an insurance act.

Mr. White said that heretofore trust companies have been incorporated by letters patent under the Companies' Act, and also by legislation. Under the Companies' Act, many trust companies had secured extraordinary powers. They took powers to become holding companies and to operate and manage other corporations.

The general act will put some restrictions upon the holding of real estate, the investment in stocks and bonds of other corporations, and the amount of liabilities which can be contracted by the corporation in proportion to its paid-up capital. A compulsory audit is provided for and detailed reports every year, and as called for by the Finance Department.

Mr. White also introduced a similar bill respecting loan companies.

Sir Wilfrid Laurier said that the proposed legislation was a step in the right direction. Trust companies were often entrusted with the estates of deceased persons, and thus acted for widows and orphans and other more or less helpless people. Parliament, in his opinion, could not throw too many safeguards about the operation of these companies.

Both bills were given a second reading and referred to the banking and commerce committee.

Historic Church Destroyed.

DUNBAR, Scotland, Feb. 27.—An "arson squad" of militant suffragettes yesterday burned to the ground the historic parish church of the Village of Whitekirk, near here. A large quantity of suffrage literature was left strewn about the scene.

The church was erected in the 16th century and contained many priceless relics of the battle in which the Scots were routed by Oliver Cromwell's forces in 1650.

Four Years For Burglar.

TORONTO, Feb. 27.—John Gowans, who assaulted Mrs. Mary Fenton in her home, Bloor and Sherbourne streets, more than a week ago, was yesterday sent to Kingston Penitentiary on a four-year term. He was convicted on four charges.

OBITUARY

A wedding was solemnized in Christ Church, Missisquoi, Toronto, on Feb. 20th, when Miss Mabel Lamplugh, third daughter of Mr. Wm. Lamplugh of Peterborough, East City, became the bride of Mr. E. W. Bailey of Missisquoi. The Rev. H. O. Trewartha, officiated. The bride was given away by her father, assisted by her sister, Lenham Lamplugh of Peterborough.

DIXON—FROST.

On Wednesday evening, Feb. 25th, at 8 o'clock, a pretty but quiet wedding was celebrated at the home of Mr. George Frost, Otonabee, when his daughter, Annie May, was united in the holy bonds of matrimony to Mr. John Dixon of Milton, Saskatchewan. The ceremony was performed by the Rev. J. G. Lavis, former pastor of the bride, in the presence of the immediate relatives. After the ceremony a sumptuous repast was served in the dining room. The many presents received allowed the high esteem in which the bride is held in the community. The happy couple will reside in Morse, Sask.

HELEN FOLEY COTE.

Thursday morning, at nine o'clock the funeral of the late Helen Foley Cote, the beloved wife of Mr. Joseph Cote, took place from the residence of Mr. Felix Cote, 4 Melbourne street. The cortege proceeded to St. Mary's Church, where requiem mass was chanted by Rev. Father Cote, of Peterborough, brother-in-law of the deceased. The remains were afterwards placed in the vault at the Roman Catholic cemetery. The pall-bearers were: Messrs. A. Dingman, Guelph; J. Magner, F. Power, Parry Sound; J. Coulter, Toronto; P. Kennedy and J. Dwyer, Lindsay.—Lindsay Post.

225 Roger St. **GEORGE STEVENS**

SOCIAL AND PERSONAL

Mr. and Mrs. J. L. Wood have returned to Toronto after an extende of stay here.

Rev. W. H. Dafoe of Manilla, was in Town yesterday attending the funeral service of Rev. T. J. Mansell.

Mr. F. W. Wilson of the Evening Guide, Port Hope, spent the afternoon in the City, en route to Lindsay.

Mr. Harry and Mr. Fred Cressman have left the city to spend a week in New York, for the purpose of making many special purchases for several departments of the Cressman store.

Miss A. Hendricks, who is considered one of the foremost millinery designers in Canada, has been secured by the Hall store for the Spring season, to take charge of the designing and trimming.

Miss M. White of Hartney, Man., who has been the guest of Mrs. J. H. Callander, Weller Street, for a few days, left for Toronto to visit a few more friends before starting on her return trip for the West.

Miss A. E. Dawson of Richard Hall & Son, Limited, returned Wednesday night from a purchasing trip to New York, where she secured some very pretty and exclusive styles in Spring Millinery, which will be shown in the Hall Millinery Department in the course of a couple of weeks.

Mrs. George Burnham, Cluny crescent, was the hostess last night of a bridge party of ten tables in honour of her guest, Mrs. McLaren (Montreal), who wore emerald green satin with tunic of shadow lace, the hostess wearing black mitton over white with a large beauty rose. The house was most artistically decorated with daffodils and tulips. Mrs. Leacock looked lovely in white, with violets, and Miss Gladys Mitchell wore ivory satin with tunic of silver and rosebuds in her hair. Mrs. Frank McKay was in black chiffon velvet, and Mrs. Gerald Fitzgerald wore a blue gown with fur and diamond ornaments; Miss Lila Fairbairn, mauve. Supper was served at small tables and the evening finished with a dance.—Toronto World.

WEDDING BELLS

PARNELL—O'CONNELL.

A quiet wedding was solemnized on Thursday evening at 8 o'clock in Knox Church Manse, when Miss Mabel Bernice O'Connell was united in marriage to Mr. Wilbert Roy O'Connell. Rev. H. J. Keith officiated in the presence of witnesses. Mr. and Mrs. Parnell will reside on George street.

BIRTH.

REID—In Peterborough on Thursday Feb. 26th, to the wife of Mr. Jas. F. (F. C.) Reid, 140 Hunter Street, East, a daughter.

How Do You Wear Your Glasses?

That Real Estate Debate

Mr. Austin Makes Reply

Editor Evening Examiner:

Sir,—Some weeks ago in George Street Church a subject was debated. "Resolved that it is worse to make money speculating in land than by gambling at cards," and the Review says that St. Paul's young people that favoured the gambling side—had won the debate and forthwith, the Review gives decision in big black type, "Land speculation is worse than gambling at cards." I replied stating that the man that engineered this subject to the front—and got it debated by the Young People's Society—was a coward and afraid to come out and state it over his own name. Mr. G. Stanley Taylor was put forward to reply, and the whole drift of his argument was that the poor dear homesteader, when he went out to buy land, could not get any, because the real estate agent had it all gobbled up. I replied by saying that the poor dear homesteader over whom he wept does not go west to buy land, but to homestead, because he is promised 160 acres of land free, and can pre-empt another 160, and buy scrip, for more if he wants it. Then comes forward Mr. Ellis—who also figuratively sheds many real salt tears over the poor homesteader—because he can't get a homestead because forsooth, these terrible real estate agents have bought up everything in sight. I reply by quoting the statutes that it has never been possible for the real estate agents to get these ninepenny sections, which constitute one-half of all the land, and showed that Mr. Ellis' argument is based on supposition or hear-say, and that there was nothing in it. Mr. Ellis takes his medicine with a bitter face, but does not produce anything in rebuttal.

Mr. Ellis tells of the perilous hardship of the poor settler on the "steading"—that he had to go out 80 miles from Edmonton for a homestead in 1909, when the government returns on the 1st day of January, 1910, show that there were 82 homesteads still open, all within 25 miles of Edmonton.

These facts as shown by the government returns for that year, simply show that Mr. Ellis, wishing to vent his spleen against the real estate agents' business, made statements over his own signature, which the statutes and government returns flatly contradict. It is recorded in the book, "Thou shalt not bear false witness against thy neighbour." Mr. Ellis wonders why I should take umbrage at a young men's debate. I stated why very clearly, in a former letter. I said then, and I say now, that a little coward engineered it to get this subject debated and get real estate men in Peterborough classed with gamblers or worse. I said that after doing this dastardly thing, this brave little man crawled under the bed and tried to hide. Now, Mr. Ellis, either this is true or false. If your man who first proposed this subject for debate has done nothing he is ashamed of, let him come out in the open and over his own signature state that he was the author; otherwise my statement is proved. I have nothing at all personal against you, would not know you if I met you on the street. I am not thin-skinned; I can always take hard knocks and give them, in a manly way, but I despise a fellow who hits below the belt or who tries to stab in the dark. You, Mr. Ellis, took up the gambling side of the argument, and your argument conversely is that it is better to make money by gambling at cards, than by speculating in real estate. I have never heard that you made money in gambling at cards, but I have heard, on reliable authority, I believe, that you made money on some real estate deals here. At this I rejoice, for I think, and so does nearly every one else, that it is your right and privilege to make money on a real estate transaction. If it is right for you, it is certainly right for me. I would have no right to say to you that your transaction was "most immoral." Neither would you have any right to say that to me; yet you do. (See your first letter.) I naturally expected when I found that you had taken up the cudgels on behalf of the gamblers and against the real estate agents that you would give us a good, solid argument based on facts and that your reasoning would be sound and logical, but your facts were not facts and your conclusions and deductions were altogether unsound. First, let me say that there are in the real estate business rotten ones that are rotten, some men that are dishonest, some men that are liars, so there are in the editorial chairs of our newspapers, or I was a-feared to-day in our Christian Churches; but because there are some bad men in the Church it does not follow logically that all men in the Church are bad. Because one or two editors lie, it does not follow that all editors are liars. Because some real estate agents deceive and cheat it does not follow that all real estate agents do, nor does it follow that real estate business is immoral, and yet that is the influence you draw. You reason further that because you happen to have found, or thought you found, certain conditions in certain localities, therefore these conditions prevail everywhere. You come out in your top-lofty style and say, "the conditions which I and all other have found," and again, "the good land is held by speculators everywhere." No real reason for your conclusion; simply plain bluff and gall. Mr. Ellis, you may work that off in some places, but it will not pass here at par. Having exhausted his knowledge of the western real estate transactions, Mr. Ellis proceeds to quote to me what Mr. Chipman says, a real editor who "knows." Very he may know, an editor should, but as we saw in Mr. Ellis' case, he may not. Mr. Ellis then proceeds to quote me what Rev. Mr. Shaw-Mc, and Rev. Mr. [illegible] are purported to have said. Hearsay evidence would not be admitted in any court in the land! I do not propose to follow round and contradict the various authors you quote. "Yes," Mr. Ellis said that speculation in land—which we all practice—is most immoral. Logically it follows that we who speculate are most immoral producers. Who made you a judge over us?

Mr. Ellis says railways are great speculators. Mr. Ellis should go down to Montreal to see Sir Thomas Shaughnessy of the C.P.R., and tell him that it is "most immoral" (don't ye know) to hold this 7,500,000 acres

RETURNED !

Mr. Fred [illegible] Roy has returned from the Convention of The New York State Society of Photographers, held in Buffalo during the past week.

HOME NEW STYLES FOR THE COMING SPRING, TRA LA—The centre figure shows a catchy costume of love-in-the-mist blue face cloth, the flower basic and gilet of pale green, the collar turned back with point de Venise. On the left is a hat of light blue silk, "chapeau" shaped, with upstanding quills in the centre, and on the right is a new hat of white crin, with a black brush aigrette at either end.

though he has a government deed of it.

Mr. Ellis says I garnish western conditions and make things look rosy. Well, Mr. Ellis, it's a mighty mean man that runs down and knocks his own country, and any man that goes out to that country, as I have done, and driven over it, and does not see the rosy side, he is either a blind man or else some little issue has got into his little brain that prevents him seeing things as they exist. If you can show me any country under the sun that offers chances to the poor man, the homesteader, that are to be compared to our own Northwest, I will then acknowledge that I have been too optimistic, and painted things rosy. The question we are discussing focuses down to this: While I prefer to make money in real estate and urge that is the right and proper to do so, you say it is preferable to make money by gambling at cards, and you go to this length to shield the little fellow under the bed, I have never yet known a man to make, over his own signature, such monstrous statements, such hash, and unfair accusations, and have at back of it so little knowledge of the subject under discussion. Truly "a little knowledge is a dangerous thing." There are springing up in some places a few cranks who have the Rev. [illegible] craze bad, who are Sociologists first and out, who are seeking to push and pedal their wares through the various organizations of the Church, when they succeed in getting a few unthinking people to adopt their monstrous notions. They speak of it as "enlightened public opinion," which shows us poor real estate people how really bad we are. Dear me, Mr. Ellis, if you hadn't told us how really naughty it is to make money in real estate we certainly would not have known it. There are many blind guides, to-day who are seeking to lead our churches into issues, and fads, and then wondering why it is that it is not the power for good it was designed to be.

Respectfully yours,
W. C. AUSTIN.

WHERE THE SAVIOUR WALKED

A discovery of unique interest has been made in the Holy Land. Hitherto there has been no building known to have been conspicuously associated with the life of the Saviour.

As has this deficiency has, it seems, been remedied. Professor Lucien Gauthier, of Geneva, a very eminent Biblical archaeologist, reports that the actual synagogue at Capernaum, where the Saviour preached, has been found.

Capernaum, situated on the western shore of the Sea of Galilee and near its northern end, was the scene of no less than five miracles performed by the Saviour mentioned in the New Testament. It was in this region that He began His ministry, and bore most of its important events before His entry into Jerusalem occurred.

The gospel of St. Mark begins by telling us how the Saviour came from Nazareth to Galilee and there called the apostles who were working as fishermen. Then we read in chapter i., verse 21, of this gospel:

"And they went into Capernaum and straightway on the Sabbath day He entered into the synagogue and taught."

On this occasion the Saviour performed His first miracle. A man who was possessed with an unclean spirit was present in the synagogue, crying out in torment. Christ sent the unclean spirit out of the man.

Further important information about this synagogue is given in St. Luke, chapter vii. There it is stated that a Roman centurion's servant was dying and the people came to the Saviour in Capernaum and begged Him to save the man, for "he (the centurion) loveth our nation and hath built us a synagogue." The servant was healed.

The ruins now found on the shore of the Sea of Galilee are very extensive. Although the building is largely in a ruinous state, it could not be difficult to restore it to its original condition. It must have been a remarkably rich and handsome synagogue. The arches and doorways and roof are very heavy and magnificently carved. Several of the doorways are still standing.

The synagogue was ornamented with fine carvings of Boaz (the symbol of the tribe of Judah), with lambs and with eagles bearing garlands in their beaks. These stone carvings have been found in profusion among the ruins. In view of the fact that such carvings were forbidden among the ancient Hebrews because they were "graven images," the finding of these objects at Capernaum is particularly interesting. Their occurrence is strong evidence that the synagogue was not of very early date, and that it was built about the time of Christ. The strictness of the old Jewish law had been considerably relaxed at that time. There is also much in the style of architecture and solidity of the building to support the belief that it was built by a Roman centurion.

Don't Neglect Catarrh

Don't use snuff and vapors—they only irritate the delicate membranes.

Modern science proves catarrh a symptom of poor health.

Treat the cause with SCOTT'S EMULSION which contains pure cod liver oil to enrich the blood and energize the system, hypophosphites to nourish and rebuild the nerves, and [illegible] to soothe and heal.

Thousands testify that Scott's Emulsion overcomes catarrh in a permanent, natural way. Try it and it will surely help you.

Avoid the alcoholic substitutes

A MESSAGE TO WOMEN

Who Are "Just Ready to Drop."

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired-out next morning as when you went to bed, you need help.

Miss Lea Dumas writes from Malone, N.Y., saying: "I was in a badly run-down condition for several weeks but two bottles of Vinol put me on my feet again and made me strong and well. Vinol has done me more good than all the other medicines I ever took."

If the careworn, run-down women, the pale, sickly children and feeble old folks around here would follow Miss Dumas' example, they, too, would soon be able to say that Vinol, our delicious cod liver and iron remedy, had built them up and made them strong.

It is a wonderful, strength creator and body-builder, and we sell it under a guarantee of satisfaction. You get your money back if Vinol does not help you.

McDermid & Jury, cor. George and Charlotte Sts.; also Payne's Drug Store, cor. George and Simcoe Sts.

The Worry Friend.

"He's always finding something new to worry about."

"What's his latest?"

"He's afraid that if beef goes to a dollar a pound his doctor will prescribe it three times a day."

TREES FOR HUNTER ST. EAST

Way to the Lift Lock Should Be Shaded, Says Citizen

Peterborough, March 2.

To the Editor, The Examiner:

Dear Mr. Editor,—I see by The Examiner of Saturday last a suggestion of beautifying our city by planting trees. This is surely one that will be supported by every loyal citizen. Might I suggest if this is carried out that one of the first streets done would be Hunter street to the Lift lock, a street that all visitors with few of the many being able to drive, to say nothing of our own people, who from 12 to 2, the hottest part of the day, are obliged to come and go without the slightest particle of shade. Hoping if there is any work done, this will be considered first.

Sincerely yours,
A Citizen.

COMMON FORM OF INSANITY.

A party of Clevelanders entertained some holiday visitors last week and having showed them everything interesting in Cleveland proper, they had to take them out to Newburg for a view of the asylum. The superintendent was in a genial frame of mind and he conducted the tours personally.

"Here is a queer case, ladies," he said, pausing at a particular cell. This man has the delusion that he possesses the motive power that runs the universe. He is perfectly harmless, but he actually believes that without him the world would not move. Strange notion, isn't it?"

"Why, not at all!" exclaimed one of the women. "My husband has the same idea, and he always has had it. Is he crazy, too?"

PLENTY MORE.

People who break promises don't worry, because they know they can easily make some more just as good.

THE FOWLER STANDARD MEANS LONG LIVED EYES.

The best proof of the Quality of Service that is obtainable at the Fowler Optical Parlors is in the hundreds of Satisfied Users of Eye Glasses supplied by us. We have always used the very highest quality of lens on the market but have lately further raised the standard by securing exclusive control of the new

"PERLO LENSES"

A highly compound lens of perfect uniformity of quality. With this indispensable lens ground to our own Exact Prescription Depots every vestige of strain in any position of vision, from [illegible] to [illegible] feet, is entirely overcome.

We have all Mr. J. W. Bennett's Records of Eye Examinations and can therefore in any case be immediately fair, or examined and advise as to the extent of our business in many cases at much lower prices than they paid in the first place. All work Guaranteed.

Suffered Intense Agony With His Back.

Kidneys Were The Cause.

Weak back is caused by weak kidneys, and on the first appearance or evidence of kidney trouble Doan's Kidney Pills should be used, and serious trouble avoided.

Doan's Kidney Pills go right to the seat of the trouble, cure the weak aching back, and prevent any further complications arising.

Mr. John Briggs, Whitewood, Sask., writes:—"I am sending you this testimonial out of pure gratitude, as I am not a believer in patent medicines, but I got so run down, that I became quite willing to give anything a trial. I paid a visit to our local druggist, and told him I was suffering intense agony with my back. He told me I had kidney trouble, and handed me a box of Doan's Kidney Pills, saying it was the best thing he could possibly give me. I tried them, and the effect was certainly marvelous. They are worth $10.00 a box of anybody's money, and I would not be without a box by me. I certainly owe my present condition to Doan's Kidney Pills."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

(Continued from Saturday.)

CHAPTER XXIV.

THE STORY OF LESTER.

Bud's sleep of exhaustion was ended by the sound of voices calling to one another. So deep had been his unconsciousness that as he slowly struggled back to light and reason he forgot where he was and what had happened.

One thing was certain, the sun had been up a long while, and it was growing extremely hot even under the sheltering cottonwood tree where he lay.

The voices continued to call to one another, and Bud finally sat up to investigate.

On the opposite bank another camp was being made by bow-legged men, who were heavy chaps over their trousers, broad hats, and knotted neckerchiefs. Some of these men limped, and most of them swore at their cramped toes as they went about the business in hand.

At short distance away from where Bud sat some of the sheepmen were lying comfortably on their elbows, chaffing the punchers.

"I allow you cowmen're gettin' pretty swell," remarked one. "They tell me yuh kinder hanker after photygraphs of yerselves. How about it?"

"Better lose a horse for the sake of yer good looks than be a comic valentine all yore life, what?" was the drawling retort.

"Mebbe so, but if I'd lost hosses the way you fellers did last night I couldn't have vanity enough left no ways to look a pony in the left leg. I'd go to raisin' grasshoppers to sell to old ladies' chicken ranches, I plumb would."

At his sally such a guffaw of laughter greeted the discomfitted punchers that they retired from the field for the time being. Larkin grinned with the rest. Then he turned his attention to the little tent set up near by between two trees. He remembered that Juliet had slept there and wondered if she were awake yet.

He called her name, and presently a very sleepy voice responded, so tender and helpless in its accents that he laughed for joy.

"Lazy girl!" he cried. "Do you know what time it is? I've been up hours."

"All right; I'll get up, I suppose. Is breakfast ready?"

"Not quite," he replied seriously, "but I'll have the maid bring it in as soon as the eggs are shirred."

"Bud Larkin, you're horrid!" she cried. "I don't believe you have even started a fire. Do you expect me to get your breakfast?"

"It would tickle me silly," he confessed, unrepentant. "Shall I wait for you? You see the cooks are getting dinner now. Breakfast was over hours ago."

"Oh, dear, I suppose so! We're not even married and you want me to cook for you. Oh, dear!"

"Well," he said, relenting, "I'll get things started, but you come out as soon as you can."

So saying he beckoned to Ah Sin, who had been waiting for the boss, and gave him a number of orders. Then he thrashed about the river bank as though looking for faggots, while Juliet continued pretending to mourn over her hard lot. When at last she appeared, however, and had dashed the sleep from her eyes in the icy waters of the river, it was not to cook, but to sit down at one of Ah Sin's little tables and eat a glorious breakfast.

"You perfect darling!" she cried and ran and kissed Bud though the Chinaman was looking on.

During breakfast she noticed the work going forward on the other side of the river and asked Bud about it.

"The cowmen moved their camp down here opposite us as soon as they could find out where we were," he explained. "I guess they want to talk with me regarding several matters. I'm pretty sure I have a thing or two to say to them, now that I am out of their clutches."

"Oh, then, my father must be among those men."

"He must, although I have not seen him. "I intend to take you over to him immediately after breakfast."

Suddenly for the first time, the girl's face clouded; through their sweet bantering pierced the hideous image of the thing that haunted her and that she had come to ask him about.

"Talk to me a little while first, will u?" she pleaded. "You know I came to see you for a special reason last night, but had no time to discuss it then."

"Certainly, dear girl," he replied.

When they had finished eating they strolled a little way up the noisy stream and finally found a cosy nook between the trees. All about them in the succulent grass of the banks and river bottoms they could hear the bells and contented blethering of the flocks; for Sims had determined to rest his animals for a few days before starting again the long track north.

"Bud," she began, speaking slowly so as to choose her words, "I am going to ask you questions about things that you have never chosen to discuss with me for some reason I could not fathom. If it is unmaidenly I am sorry, but I must ask them. I cannot stand any more such anxiety and pain as I have suffered in the last few weeks."

Bud's features settled themselves into an expression of thought that told the girl absolutely nothing.

"Yes, go on," he said.

"First, I want you to read this note," she continued, drawing a soiled bit of paper from the bosom of her dress. "A photographer called Skidmore was held up by the rustlers and asked to bring it to the Bar T and give it to me."

Her hand trembled a little as she held the paper out to him. He took it gravely, unfolded and read it.

Then he smiled his own winning smile at her and kissed the hand she had extended.

"Lies! All lies!" he said. "Please think no more about them."

She looked at him steadily and withdrew her hand.

"That won't do, Bud," she replied firmly, but in a low voice. "What is the thing for which Caldwell blackmailed you three years ago and again this year?"

Bud looked at her quizzically for a moment, and then seemed to recede into thought. She waited patiently, and, after a while, he began to speak.

"Yes, I suppose you are right," he said. "It is a woman's privilege to know what a man's life holds if she desires it. There are but a few rare souls who can marry men against whom the world holds something, and say: "Never tell me what you were or what you have done; what you are and what you will be are enough for me."

"Putting myself in your place, I am sure I should do what you are doing, for I have always told myself that those who marry with points unsettled between them have taken the first step toward unhappiness. Suspicion and deceit would undermine the greatest love that ever existed. Acts in the past that cannot be explained create suspicion, and those in the present that are better unobserved father deceit.'

He paused for a few moments, and appeared to be thinking.

"Do you know who that Ed. Skidmore is?" he asked abruptly.

"No; only he was quite nice, and evidently from the East."

"He is my brother Lester, and he is the man who stampeded the punchers' horses last night with his flashlight."

"He is I should never have expected it; you are absolutely different in looks."

"I know we are, or I shouldn't have risked his life last night. Well, I bring him into this because I have to. He is part of the story. Lester was always a wild youth, particularly after the governor stuck him on a bookkeeper's stool and tried to make a business man out of him. The boy couldn't add a column of figures a foot long correctly inside of ten tries. I took to the game a little better than he did, and managed to get promoted occasionally. But Lester never did.

"Father believed, and announced often enough, that anybody that couldn't add figures and keep accounts after by women. I can say hey. To discipline Lester, who he thought was loafing when he was really incapable, the governor cut off the boy's allowance almost entirely and told him he would have to live on his wages until he showed he could earn more.

"Well, Julie, you know what kind of a cad I was back in the old days—rich, spoiled, flattered by men, and sought after by women. (I can say these things now, since I've learned their opposites!" Just try to imagine, then, the effect of such an order on Lester, who was always the petted one of us because he was small and delicate! It was like pouring cold water on a red hot stove Ed.'

"Tied more than ever to his desk, Lesters wanted more amusement than ever. But he had only fifteen a week where he had been accustomed to five times that amount. He drifted and borrowed and pledged and pawned, and finally was caught by some loan sharks, who got him out of one difficulty only to plunge into three others.

"Although my father had a narrow-guage mind as far as life in general is concerned, I will say this for him: that he was right in everything he did about business. He had made it a rule of the firm that anybody who borrowed money was fired on the spot. Lester knew this, and, while he would have liked nothing better than the sack, he did not want to disgrace the governor before his employees and all the business world. So he clung along and tried to make a go of it.

"I must confess that I think some of the blame for what followed should be laid at my door. I had been patient with the kid and loaned him money until I came to the conclusion that it was like throwing it down a well. Then I got fond of a certain person"—he paused a moment and smiled at Julie—"and I needed all the money to entertain her properly; so I quit loaning.

(To be continued.)

COMPLETELY BROKEN DOWN

Another Lady Thinks "Fruit-a-tives" Greatest Tonic in The World.

HAGUESVILLE, ONT., Aug. 26th, 1913.

I can highly recommend "Fruit-a-tives" because they did me an awful lot of good. About four years ago, I commenced taking "Fruit-a-tives" for a general break-down and they did me a world of good. We bought a good many dollars' worth, but they did all that your advertising claims for them, and as I said before, I cannot speak too highly for them. Their action is so pleasant, compared with other medicines, that I am glad to say so and I trust that some other women may start taking "Fruit-a-tives" for I know the results will be all that you claim".

MRS. W. N. KELLY.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

PATHWAY TO DISASTER.

Overconfidence Has Been the Ruin of Many a Good Man.

When the skillful general wishes to capture a fort he often tries to find a place that the garrison, sure of its strength, has left unguarded. So Wolfe planned, and so Quebec fell.

Many of those accidentally drowned are good swimmers, afraid of nothing in the water.

Many a trainer, before a great intercollegiate football match, has said that his team would surely win if overconfidence could cure the players of overconfidence. Overconfidence is the surest forerunner of disaster.

Every boy has seen some wretched drunkard, with his bleary eyes and unsteady gait, his rags and filth, shamelessly and pitifully pleading for a few pennies with which to buy a drink. No one can look on that sight, common as it is, without a shudder. Yet there was a time when every such pitiful being was free from the desire for drink. For a time he took his glass in moderation, until suddenly a hidden inherited curse from some ancestor, hitherto unsuspected, awoke in him and dragged him headlong. No one knows when that taint is in his blood. Yet everywhere men are saying, "Oh, I shall never be a drunkard! I can take care of myself!"

So it was that good swimmers thought as they swam to a point beyond their strength. So it was that the poor wretch thought in the days after he drank—before it was too late.

FREAKS OF THE TIDE.

The Caldron of the Spotted Seas and the Amazon River Bore.

To the ordinary lay mind the tides along our coast are most puzzling. We know that the tides rise and fall twice in twenty-four hours and that this depends in some mysterious way upon the moon. But if in his travels he sees a spot along the shore where there is no tide he is at a loss to account for it.

To be exact, there is only one ocean in the world where the tides follow the moon with regularity, and this is the great Antarctic basin. And the reason is that there is the only place a sweep of water is to be found that is entirely uninterrupted by land. The enormous waves caused by the moon's attraction [illegible] round the world south of Cape Horn and the Cape of Good Hope, with absolutely nothing to break them. Here in our northern hemisphere great masses of land interrupt the tidal waves and, combined with the shallowness of the inland seas, cause them to perform antics which seem most strange.

The depth of the water has much to do with the tidal irregularities. Out in the open ocean, where the tide is abnormal—about 6,000 fathoms—the speed of the waves is amazing. When the depth decreases to five fathoms the tide cannot travel more than fifteen miles an hour. In England, for example, which is surrounded by narrow, land broken seas, the result is that they get some of the most dangerous tidal races and currents to be found. The most formidable of these is the whirlpool between the islands of Jura and Scarba, on the west coast of Scotland. This is known as the "Caldron of the Spotted Seas."

There the current runs at times at the rate of more than twelve miles an hour, and the force of a heavy tidal current rushing up to the wide mouthed river forms what is called a "bore." A most striking example of this tidal feature is often seen on the Amazon, when a moving wall of water, reaching from bank to bank and to a height of more than twenty feet, will rush inland.—New York Sun.

When an entire town up the Hudson is exchanged for a twenty story skyscraper on Fifth avenue, New York, we get a new kind of romance in real estate operations.

A Hoboken (N. J.) woman is suing a dentist for making her homely. To the ormal feminine mind the ordinary possibilities of torture in the dentist's hair are nothing compared to this.

Greece is putting out a $100,000,000 5 per cent loan at 87½. Both the total and the interest rate indicate that the ate war was a costly luxury even to the Balkan state that got most out of it.

ENO'S FRUIT SALT

is an efficient means of prevention in fever conditions. It is NOT a cure for FEVER, but by keeping the liver working, it prevents the accumulation of poisons in the blood which, if allowed to continue unchecked, might develop into Fever.

Order a bottle TO-DAY from your dealer.

Prepared only by J. C. ENO, Ltd., "Fruit Salt" Works, LONDON, England.

BLACK, GREEN or MIXED

Mourning Etiquette.

The most frivolous and conspicuous people are often seen clothed in deepest habiliments of woe, while those who really mourn may wear anything they please, as the sorrow is within themselves, and its outward and visible manifestation is only to defend them from unpleasant approaches.

The "fashion" of mourning garments has changed within the last decade so greatly that one no longer sees heavy veils to the hem of the gown nor the broad strings tied in a big bow with the roche of the widow's bonnet. Only sometimes a sad faced woman whose heart is with those gone before shows plainly that she is really "in mourning," and the garments of black are not for effect, but to prevent the approach of frivolity when she is forced abroad.

Etiquette demands that this appearance should be treated with respect, even by the thoughtless and light minded, who have no reverence for anything upon, above or beneath the earth. Yet those who mourn in this way should try to remember that there are other people in the world and if they cannot control grief should remain at home. There are enough sorrow and suffering abroad without the feelings of those who are free as far as human can be free of trouble to have coldness forced upon them.

For a husband a widow wears crape a year; the second year all black without crape; after that anything she pleases; for a mother, all black for a year, with crape for six months; and the same for a father; for brother or sister, pink black at least three months, white for the following nine making a year, as all white without the addition of anything black is considered mourning.

Don't Insist.

"'Oh, do have some more!'

"Have you not met the host and hostess who thus insist upon forcing you to eat more than you really want at a meal?" said a man recently.

"Wherever I go out to dinner nowadays I am bothered and badgered to eat more than I want.

"After almost each course I am besought, 'Oh, do have some more' and despite my gentle protests more is generally thrust upon me in the end.

"I am naturally not a big eater, and in consequence of this 'Oh, do have some more' cult I am rapidly becoming faced with three alternatives:

"I must give up going out to dinner.

"I must resign myself to a dyspeptic martyrdom in the near future.

"I must risk earning a reputation for churlishness or perhaps even downright rudeness."

Smashing the Record.

"She broke the trotting record," said he, "all clean and slick.
"Say, talk about your stepperel She made the rest look sick!"

"What horse was that?" I asked him.
"My daughter 'twas," said he.
"She broke the record lately
For the turkey trot," she did."
—Walter G. Doty in Judge.

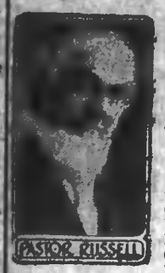
FRISCO EXTENDS A ROUSING WELCOME

Pastor Russell's "Movies" Running From Coast to Coast.

CHURCH TO BE EXALTED SOON

Great Feast Then For Famished World—Machinery Starting For Message Which His "Movies" Supply—Reign of Sin and Death Nearing Conclusion—Kingdom of God Soon to Be Established—Introduced by "a Time of Trouble"—Overruled to Constitute a Channel of Blessing—Famished Hearts Crying For Love and Sympathy—They Shall Be Satisfied.

[The matter under this heading is supplied by the Pastor Russell Lecture Bureau, who conduct the Brooklyn Tabernacle (unsectarian) Bible Studies, and who have arranged for its insertion.]



PASTOR RUSSELL

San Francisco, March 1.—Pastor Russell's Photo-Drama of Creation was introduced here to-day in the Valencia Theatre before crowds. The debut of these films here approaches a completion of a chain of Pastor Russell's Photo-Drama from Coast to Coast—Boston, New York, Cleveland, Cincinnati, Indianapolis and St. Louis—Chicago and other places soon.

The Valencia, which is one of the finest theatres in the West, will be, what might be called for the present, the home of the Photo-Drama on the Coast. The Drama will be produced daily, both afternoon and evening. Parts I. and II. were run to-day; parts III. and IV. next, and so on.

The elite of the city were well represented. Reserved seats (which, by the way, are free to all these exhibitions, and no collections) were soon exhausted.

It is unquestionably true that Pastor Russell has brought to the Coast the finest collection of motion-pictures and slides ever shown here, and a long run will follow. About 15,000 people now attend the Photo-Drama of Creation daily. The Gospel is being preached in a most enticing manner; a long-felt want is being supplied.

In his syndicated sermon in the forenoon Pastor Russell's subject was quite appropriate—"A Great Feast for a Famished World." It is believed that his audience agreed. His text was:

"And in this Mountain shall the Lord of Hosts make unto all people a feast of fat things." (Isaiah 25:6.) He said:

Throughout the prophetic Scriptures the word Mountain is used as the symbol of a kingdom. Earthly governments are represented as mountains and hills, while the Lord's Government is represented as being established "in the top of the mountains." It is this Mountain, or Kingdom of God, which is referred to in our text. It has not yet been established in the earth, and hence its blessed work has not yet been realized. We still properly pray, 'Thy Kingdom come; Thy will be done on earth, as it is done in Heaven."

True, a beginning has been made. For more than eighteen centuries since our Lord's ascension and the bestowment of the Holy Spirit at Pentecost, the Church has been in process of selection, and the Church is sometimes styled the Kingdom, because its members when glorified will constitute the Kingdom class—the Bride—who will share with the Heavenly Bridegroom the Kingdom honors and services for the world.

It is true, also, that our Lord is exalted a Prince and a Saviour; and that shortly, at His Second Advent, He is to take to Himself His great power and reign as King of kings and Lord of lords. But He has not yet done this. He declared at His resurrection, "All power in Heaven and in earth is given unto Me." Yet He also in His last Message to the Church distinctly pointed out that the time for taking possession of His Kingdom was future; and that the time will surely come when He will take unto Himself His great power and reign, because the time to reign will then have come.—Revelation 11:17.

More than this, the signs of the times, read in the light of the Lamp of Truth, the Word of God, seem clearly to indicate that the time is near at hand for the setting up of Christ's Kingdom. How glad we all should be! What rejoicing it should cause to the whole world of mankind, to know that the reign of Sin and Death is nearing its conclusion; that Satan, the Prince of this world, will shortly be bound for a thousand years, that he shall deceive the nations no more until its termination! How we should rejoice that "the night is far spent and the day is at hand"; that the Millennial Morning is already dawning; that the Sun of Righteousness is already rising, and that soon the whole earth will "be full of the knowledge of the glory of God, as the waters cover the great deep."—Habakkuk 2:14.

The bare announcement of the Kingdom of God would strike mankind variously in proportion as the character of the Kingdom and its work might be understood or misunderstood. Thus to-day to many the mention that the Kingdom of God is nigh at hand would carry the thought of "a wreck of matter and a crash of worlds." Not only our Second Advent friends believe, but the creeds of practically all denominations of Christians recite, that our Lord's Second Advent and the establishment of His Kingdom will signify to mankind the end of probation, the end of hope, and usher in to all except the elect few a great burning-day.

Far too long we have allowed these traditions of men to becloud our judgment, to come between our hearts and the great blessings, set forth in God's Word, and now due to the Church and to the world. It is very proper that those who are living in alienation from God, in willful sin, should realise that the establishment of His Kingdom will mean a Reign of Righteousness which will be strictly opposed to their pernicious ways—opposed to every form of immorality, opposed to every form of injustice and iniquity, opposed to every form of trickery, sham, and false pretense. But surely Christians who are seeking to live in harmony with the Divine Law of Love, for God, for the neighbor, for the brother, for enemies, have every reason to look forward to, to long for, to hope for the coming of the Lord's Kingdom as the most desirable thing to be imagined. Indeed, it is thus described in Bible language: "The desire of all nations shall come."—Haggai 2:7.

However much the few favored by present conditions may be pleased to have things remain as they are, the masses of mankind, if they were but converted from ignorance and superstition, and brought to a knowledge of the Truth as God's Word presents it, would be glad and rejoice in the salvation which is to come to the world through God's Kingdom. The god of this world hath blinded the eyes of understanding of mankind and put darkness for light, and under the terrors of the world's "doom's day" has obscured the glorious blessings which belong to the Day of the establishment of the Kingdom of the Lord.—2 Corinthians 4:4.

True, the Kingdom of the Heavens will be introduced, the Scriptures tell us, by "a Time of Trouble such as never was" before and never will be afterward; a Time of Trouble which will involve all nations, and peoples, and kindreds, and tongues, and every part of the world; a Time of Trouble from which there will be no escape except for those who have made the Lord, even the Most High, their Refuge and Habitation (Psalm 91:9). But then, even that pleasure of trouble the Lord proposes shall be overruled so that it will constitute a channel of blessing to mankind by preparing their hearts for the Message of Divine Love and Grace, centred in Christ and His redeeming work at Calvary.

Turning from the ignorance, superstition, darkness and terrors of the Dark Ages, let us look still further into this inspired Word of God through the Apostles and Prophets. From these let us hear some description of the blessings which God purposes His Kingdom shall bring to our sin-cursed race. The Scriptures tell us that God has prepared a great feast for humanity; they intimate figuratively that mankind has been starving for the Message of Divine Grace—that billions of our race have gone down in ignorance and superstition, famished for lack of the Word of God.

The Bread which came down from Heaven—the Message of Truth and Grace which our dear Redeemer brought and exemplified—has indeed been supplied lavishly to some. Some of us have feasted upon the good things of our Father's Word and Plan. But the great mass of mankind have been as deaf and so blind that they see not, neither do they understand nor receive the grace of God, under present conditions. How glad we are that "all the blind eyes shall be opened, and all the deaf ears shall be unstopped" (Isaiah 35:5), and that the whole world will thus be prepared for the true knowledge of God, whose goodness and loving kindness and tender mercies will undoubtedly have a softening and mellowing effect upon hard hearts!

There are many hungry hearts in the world. Many whose bodies are well nourished have famished hearts, which cry out for love and sympathy. He who reads the hearts, who knows what is in them, has prepared this feast which will surely satisfy every legitimate, righteous desire. Those who already are the Lord's people, and who have already feasted at the beautiful table spread for the Church, can approximate to some extent the bounty that will be spread before the world in this great feast foretold through the Prophet in our text. There will be several differences, however, between our present feast and that for the world.

The present feast is merely a feast of promises which must be partaken of by the exercise of faith. The feast described in our text will be a very actual one. The realities of the blessing of Restitution—of health, of strength, mental, moral, and physical—will there be bountifully supplied, to be partaken of freely by all who appreciate them.

Again, the present feast is a spiritual one, relating to a Heavenly Kingdom glory and honor—things not seen as yet, except by the eye of faith. To the contrary, the feast for the world, referred to in our text, will consist of earthly bounties and blessings, most tangible in kind as well as excellent in quality. All that was lost in Adam will be tendered to such as will accept the mercy.

The Prophet in attempting to describe the bounties of that feast uses highly symbolical terms, and describes it as a "feast of fat things, full of marrow, of wines on the lees, well refined." Assuredly no language that we could use could fully and properly set forth the riches of God's grace provided for the world of mankind under the ministration of His Kingdom. The earth shall yield her increase, streams shall break forth in the deserts, the wilderness shall blossom as the rose, the solitary place be made glad.—Isaiah 35.

The Lord, after describing through the Prophet the feast of blessings and refreshments, portrays the destruction of things injurious to mankind, saying, "And He will destroy in this mountain the face of the covering cast over all people—the veil that is spread over all nations." (Verse 7.) This veil is none other than the veil of ignorance and superstition which hinders mankind from seeing that the Creator is their Friend, that righteousness and truth are to their advantage, that the ways of the Lord are righteous altogether.

The sunlight of the New Dispensation, the Reign of Righteousness, will scatter the clouds and darkness, the veil of ignorance, and let into the hearts of mankind "the light of the knowledge of the glory of God," as it shines "in the face of Jesus Christ" our Lord. What a wonderful change! And how glad mankind will be, not only to have that feast prepared, but also to be rid of the darkness which would hinder them from appreciating it.

The Prophet proceeds to describe further, saying, "He will swallow up death in victory." For several thousand years Death has had the victory, and the human family have been swallowed up by it. The Scriptures designate the six thousand years of earth's history as the reign of Sin and Death. It is conservatively estimated that Death has swallowed up twenty thousand millions of humanity, and that ninety thousand are going to the tomb every day.

The Lord tells us through the Prophet that with the establishment of His Kingdom will come a wonderful change; instead of Death continuing to swallow up the race, dying shall cease. None shall die then except for wilful sin. How glorious a time that will be! All of our sorrows are more or less intimately associated with the reign of Sin and Death. How we may well rejoice in the New Dispensation which Divine Wisdom has planned, and which Divine Love will execute, for the release of our race from the dying process, permitting them to return to the liberty of the sons of God—freedom from death, freedom from sin!

But even this is not enough! The Lord purposes not merely to restrain the power of death, so that it shall cease swallowing up our race, but additionally to "swallow up Death in victory." The tomb, which figuratively has engorged itself with twenty thousand millions, will be forced to disgorge, to release its victims. "All that are in the graves shall hear the voice of the Son of God and shall come forth." The saintly few, whose faithfulness God has already tested, will come forth to the perfection of life. The unsaintly masses, the majority of whom have never known God truly, will come forth to a resurrection, to trial, by judgment, by discipline. Death itself shall be destroyed.

St. Paul quotes from the Prophet Hosea, saying, "O Death, where is thy sting? O Grave, where is thy victory?" He does not quote this as applicable now; for Sin and Death still have their victory in the world. Millions are still slaves of Sin, and millions are still bound by the power of the tomb. St. Paul and the Prophet still point down to the glorious Millennial Kingdom (following the resurrection change of the Church), when all shall be brought to a knowledge of the Truth, and when all that are in the [illegible]

ABSOLUTE SECURITY.

CURE SICK HEADACHE.

A WONDERFUL CURE OF AN ABSCESS BY Burdock Blood Bitters.

Mr. A. W. Dryden, Amherst, N.S., writes:—"I am going to tell you what Burdock Blood Bitters has done for me. My son "Vance," when only nine months old, got an abscess on his cheek bone. I took him to a doctor in St. John, N.B., and he lanced it, and told me it would get well in a few days, and wanted me to keep it squeezed out. It did not seem to get any better, so my wife took him home and it would soon get better. It would gather and break, and it went on that way until he was over four years old.

"He lost four pieces of bone out of where it was lanced, and two pieces came from his mouth; he has lost all of his cheek bone, and his eye was drawn down. I took him to doctors in St. John, Moncton, and Amherst, and all wanted me to let him go under an operation. He was so small I told them that if he was going to die he might as well die as he was as to go there and be all cut to pieces, so I declined to have the operation done. I told them I was going to try Burdock Blood Bitters, as I had heard my mother talk so much about it. I got a bottle, and when it was about half gone noticed it was doing good, and before many days the sore stopped running, and healed up, and the abscess has never broken out again. This happened nearly six years ago, so you can see I have great faith in Burdock Blood Bitters, and I can say with all my heart that it is the best blood medicine in the world."

A PAGE OF THE BEST HUMOR OF THE WEEK

Mutual Benefit.

"I took a long walk yesterday," said Boreman, as he collapsed into a seat at Busyman's desk.

"Take another, old man," suggested Busyman; "it'll do us both good."

Trouble.

Briggs: "You must have a lot of trouble keeping your wife dressed up in the height of style."

Griggs: "Yes, but it's nothing to the trouble I'd have if I didn't."

A Last Chance.

Waverley: "I notice Rosemary has changed her style of coiffure."

Marcella: "Yes, she says she will never wear it over her ears again."

"Unbecoming?"

"No; when Percy Plenty asked her to go to the theatre with him she didn't hear what he said."

Number One: "There you are—that's wot cigarette picture collectin' leads to!"

Tit for Tat.

The following correspondence was recently brought to a summary close:

"Mr. Thompson presents his compliments to Mr. Simpson and begs to request that he will keep his dogs from trespassing on his grounds."

"Mr. Simpson presents his compliments to Mr. Thompson and begs to suggest that in future he should not spell 'dogs' with two gees."

"Mr. Thompson's respects to Mr. Simpson, and will feel obliged if he will add the letter 'e' to the last word in the note just received, so as to represeent Mr. Simpson and lady."

"Mr. Simpson returns Mr. Thompson's note unopened, the impertinence it contains being only equalled by its vulgarity."

What the Cow Gave.

Old John had been down at the cow house long enough to do the milking twice. When he finally came up to the house with his milk pail empty, the irate farmer demanded:

"What are you comin' back with an empty pail for? Didn't the old cow give anything tonight?"

"More than usual," replied old John. "Nine quarts and a kick."

An Expensive Thirst.

"My husband sees pink elephants when he drinks."

"Mine has a worse delusion than that. He sees green dogs. It's expensive, too."

"How's that?"

"Why, he goes and buys licenses for 'em."

Doubtful.

William Tell and the Austrian governor were discussing the morrow's target practice.

"I can shoot that apple off with my eyes closed," said the Swiss hero confidently.

The Austrian smiled grimly.

"You never can, Tell," he answered dryly.

A Matter of Sense.

"Answer me, Clara," he said in a moment of passion. "I can bear the suspense no longer."

"Answer him, Clara," echoed her father who was in the hall, thinking of the coal and gas bills, "I can't bear the expense much longer."

Concerning Wives.

Old George Diggle was going to marry again, and his friends asked him why.

"I'm an old man," he replied, "and I can't expect to be here much longer. When the end comes, it will be mighty pleasant to have a wife at my bed-side to close my eyes."

"That's funny," said Jake Hodges, "I've had three wives, and they opened mine."

The Logic of It.

"You must stop worrying and take a holiday," said the suave practitioner.

"My dear doctor," replied the irritable patient, "if I could get my affairs into a shape that would permit me to take a holiday, I'd be so relieved that I wouldn't need one."

A Teacher's Boomerang.

A certain high school teacher, who at times is rather blunt in speech, remarked angrily to his class of boys at the beginning of a lesson:

"I don't know why it is — every time I get up to speak, some fool talks."

Then he wondered why the boys burst out into a roar of laughter.

Prosperous-Looking Old Farmer (at last realising that the auctioneer has been for some time talking "at" him): If you be talkin' to me, young man, I wish you'd write down what you do want to say in my little book. I be stone deaf.

Misery Loves Company.

Shortly after 2 o'clock one bitter winter morning a physician drove four miles in answer to a telephone call. On his arrival the man who had summoned him said:

"Doctor, I'm not in any particular pain, but somehow or other I've got a feeling that death is nigh."

The doctor felt the man's pulse and listened to his heart.

"Have you made your will?" he asked finally. The man turned pale.

"Why, no, doctor. At my age—oh, it isn't true, is it? It can't be true—"

"Who is your lawyer?"

"Higginbotham, but—"

"Then you'd better send for him at once."

The patient, white and trembling, went to the phone.

"Who's your parson?" continued the doctor.

"The Rev. Kellogg Brown," mumbled the patient. "But, doctor, do you think—"

"Send for him immediately. Your father, too, must be summoned; also your—"

"Doctor, do you think I'm going to die?" The man began to blubber softly.

The doctor looked him sternly. "No, I don't," he replied grimly. "There's nothing the matter with you. But I want to be the only man you've made an idiot of on a night like this."

Bobby. Pa, what is platonic love?

Bobby's Pa: Platonic love, my son, is what a man feels when he doesn't like a woman well enough to marry her.

Slow Growth.

Bareface Junior: Yes, I'm trying to raise a mouse'ache, and I'm wondering what color it will be when it comes out.

Miss Green: Why, I should say, at the rate it appears to be growing.

Looked Like Light.

A farmer returning home late at night, saw a light moving about the farmyard. He investigated, he found a neighbor's farmhand carrying a lantern.

"What are you doing here?" demanded the farmer.

"Courtin', sir."

"Courtin'? Courtin' with a lantern? You stupid, I never used a lantern when I went courtin'!"

"No, sir," replied the farmhand as he moved off, "we can all see you didn't."

The Age of Frankness.

"My dear," the little girl's mother said, "don't you think you're getting to old to play with boys?"

The little girl frowned in scornful astonishment.

"Why, no, mamma," she cried. "The older I get the better I like 'em."

Accommodating.

Muggins: Young Goldspoon has money to burn.

Guggins: That's why so many girls' mothers are trying to make a match for him, I suppose.

Her Precious Thumb.

A woman sued a railroad company for £5,000 for the loss of her thumb, which had been destroyed in a collision, and the opposing counsel opened the defense with the words: "£5,000 for the loss of a thumb. Well, gentlemen of the jury, the only justification I can see for so extorbitant a claim is that it was the thumb the lady kept her husband under."

Very Encouraging.

"I told father I loved you more than any girl I've ever met."

"And what did your father say?"

"He said to try and meet some more girls."

"I believe in a girl having a mind of her own," said she. "I, for one, am not easily led."

"So I perceive," he ventured gently between dips.

"I am thinking of touring in South Africa next season," remarked the comedian.

"Take my advice and don't," replied the villain. "An ostrich egg weighs from two to three pounds."

Miss Wheat, the new teacher, was hearing the history lesson. Turning to one of the scholars she asked: "James, what was Washington's Farewell Address?"

The new boy arose with a promptitude that promised well for his answer.

"Heaven, ma'am," he said.

Now They Don't Speak.

The discussion between the two friends had become heated.

"But any donkey can see that," remarked one of them.

"That's where you have the advantage," was the other's polite rejoinder.

Doing It.

"Why do you mix with all those university professors?"

"My doctor says I must live in a dry atmosphere."

Unappreciative.

"My nephew doesn't seem to appreciate that oil field I deeded him."

"Why not?"

"He has made light of it."

Too Cheap.

He—I'd like to propose a little toast—

She—None of that cheap stuff for me. I'm hungry. Bring me bird and a cold bottle.

Gentle.

"I used to have beautiful hair but I've lost it all."

"Isn't that too bad! And can't you remember where you lost it?"

Probably.

I was struck on the head yesterday."

"Poor chap! Many bones broken?"

So Kind To Them.

He was undeniably from far beyond the suburbs; and as he was walking along a city street he stopped in front of the fire-engine house and looked in.

"Have many fires in town?" he asked.

"Yes, we have them pretty often," replied the fireman.

"Ever try to see how quick you can hitch up?"

"Oh, yes."

At that moment an alarm came in. At the first stroke of the gong the men rushed to their posts, the doors of the stalls opened and within a few seconds men, horses and engine were speeding down the street.

The young man watched the proceedings with admiration.

"Well!" he exclaimed, when speech returned. "There ain't many places where they'd go to all that trouble to show a stranger what they can do."

The smart young housewife went to market one morning to buy some geese and found five hanging outside the shop.

"I am a boarding-house keeper," she remarked, with a smile. "Will you pick out for me the three of these geese that are toughest?"

The man laughed knowingly, and obeyed.

"Thank you," said the woman, briskly. "Now I'll take the other two."

An amusing story is related of Prince Arthur of Connaught, who went over to Japan with the Order of the Garter in the time of the late Mikado.

Prince Arthur had the time of his life in Japan, and he delights in telling of a formal visit to a small town where, to do him due honor, the railway authorities had placed a motto in English directly facing the place where he alighted. Unfortunately, the English was not so precise as it might have been, for it read, in letters about a couple of feet deep:

"God Help Prince Arthur!"

There was a terrible noise coming from the direction of the dining-room and the fond mother, alarmed, rushed in. On the floor her son, aged ten, was going thru all manner of contortions—somersaults, both backwards and forwards. Bang, bang, he went.

"Willie! Willie!" she cried. "What are you doing? You'll—"

For a moment Willie paused in his gymnastics. "Oh, its all right, mother!" he gasped. "You see, I forgot to shake my medicine before taking it—like you always told me to do. So I thought I'd shake myself up as the medicine was inside me!"

A Devonshire lady once sent to her son a pair of trousers by post, which is, of course, cheaper than parcel post.

The postal officials wrote to her, "Clothes cannot be sent by book post. If you will refer to the 'Post Office Guide' you will see under what conditions articles may be sent by book post."

After a few days the lady replied, "I have looked in the 'Post Office Guide' and find that articles which are open at both ends may be sent by book post. And if trousers are not open at both ends I should like to know what is."

A Recommendation.

Customer: "Can this parrot talk at all?"

Bird Fancier: "Talk, sir? Why, I had my wife's mother staying here last month, and between the two of 'em we couldn't hear ourselves speak."

The dandy sauntered into the village shop and asked, with an offensively supercilious air:

"Do you sell puppy biscuits in this rotten little shop?"

"Yes, sir, certainly," said the shopman, suavely. "Shall I put them in a bag for you to take home, or will you eat them here?"

His Rivirence: "Dear, dear, O'Brien, surely you had more sinse to go lookin' for an escape of gas with a match."

O'Brien: "Sure, yer honor, 'twas a safetymatch."

Imagination.

"Now," said the stage-manager, "you are the heroine. You are supposed to suffer more than anybody else in the play. You must put yourself into a frame of mind which represents grief and remorse."

"I know," replied the leading woman. "I'll try to make myself believe I'm one of the people who paid two dollars to see the play."

Diplomatic Move.

"What makes you so anxious to send Three-finger Sam to the legislature? He isn't so very popular."

"No. We citizens of Crimson Gulch figured that it would be a great savin' to the general community to get a poker-player like Sam located somewheres else."

"You're rather a young man to be left in charge of a chemist's shop," said the fussy old gentleman. "Have you any diplomas?"

"Why—er—no, sir," replied the young man; "but we have a preparation of our own that's just as good."

A Hero.

Kicker: "My great-grandfather carried the drum all thru the revolution."

Snicker: "And whenever he sighted the enemy he beat it, I suppose?"

"How often does your railway kill a man?" asked a facetious traveling man of a Midland ticket inspector.

"Just once," replied the inspector.

"I want to be a pirate when I grow up, Uncle Bob."

"Well, I understand there's money in it. What do you want to pirate, books or plays?"

His Whim.

English Waiter: "Which side of the table do you wish to sit on, sir?"

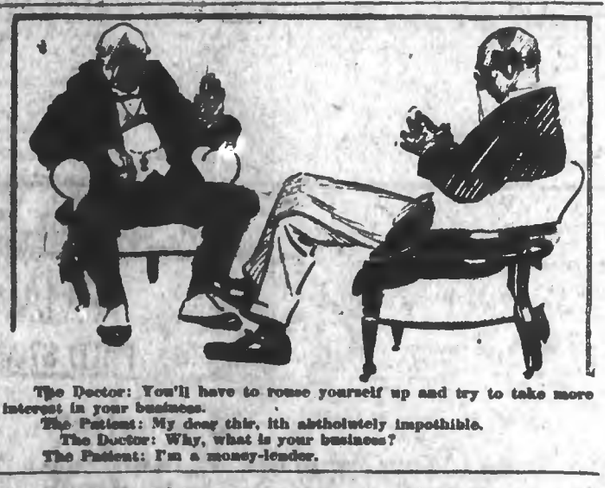
American Guest: "I prefer to sit on a chair."

Sir: "Is there any difference between a fort and a fortress?"

Sir: "Why, I should imagine that a fortress would be—er—harder to silence."

A prominent solicitor received a golden invitation to spend a holiday with a party of friends in the north of Scotland. The solicitor was anxious to go, but didn't know whether it was a fishing or shooting party, so he wired:—"I will start at once. What shall I bring?"

In a few hours he received this reply: "Corkscrews. We have the rest."



The Doctor: You'll have to rouse yourself up and try to take more interest in your business.

The Patient: My dear thir, ith abtholutely impothible.

The Doctor: Why, what is your business?

The Patient: I'm a money-lender.

A Story of Crime.

Are criminals as black as they are painted? Here is a story of a bad man who must have been a bit of a brunet in the matter of wickedness.

He had killed an old man, the motive being robbery, tho the victim had but a half-dollar on him.

"And you actually had the heart," asked the judge, "to kill this poor old man for half-a-dollar?"

"Why not?" said the criminal. "Half-a-dollar here and there—it soon mounts up."

La Mode.

Celeste. Gracious, monsieur! How is it that the less material used in my gown the more it costs?

Mons. Wurthe: Ah, madame, et is because of ze art to create ze illusion zat you are well groomed.

One Girl to Another.

"I'm going to sell kisses at the charity bazaar. Do you think one dollar a kiss is too high?"

"Oh, no! People expect to be robbed at these charity affairs."

Really, the way you go on is disgraceful! Can't you remember that you are a married woman?"

"Yes, but the men can't."

Liars.

She found her dearest girl chum in tears.

The situation was unexpected, being rather common and vulgar. But the patrician girl was sympathetic enough to inquire, just as any other girl might.

"Why, dear, what on earth is the matter?"

"Men are all liars," sobbed the broken-hearted one.

"Oh, don't say that!" protested the other. "That's too broad a generalisation."

"Well, I suppose there are some good, honest fellows who are not. But all the really nice men are!"

Mistress: What made you so long when I sent you into the city this afternoon?

Polly: I called in at a lawyer's office to inquire the price of a divorce, m'm.

Mistress: A divorce! Why, you are not married!

Polly: No, m'm; but I'm engaged!

Freddy's father has been giving him lessons in politeness, but hardly dared hope that the seeds of his teaching had taken root. One day, hearing noise coming from the nursery, he investigated, and found Freddy pounding his little brother.

"I'm surprised, Freddy," said his father, sternly, "that you should hurt your little brother. Don't you know that it is very cowardly to strike one who is smaller than yourself?"

"Yes," replied the culprit, meekly, "but when you thrashed me yesterday, I was too polite to mention it."

"Yes, sir," said Dobbleigh, "horses are ruining my brother Tom. He's crazy about them. Just paid twelve hundred pounds for a pair of trotters."

"Well, I don't know," said Billups. "How about yourself? What did you pay for that touring car of yours?"

"Fifteen hundred," said Dobbleigh. "But what—"

"Well, you'd better not criticise the team in your brother's eye until you have cast out the motor that is in your own eye," retorted Billups.

ANSWERED.

"I'm glad you're again, Gerald! And do think how I have prayed for you."

"Well—er, haven't you—big—got me?"

OUR DAILY SHORT STORY

"THE RED TORRENT"

The river emerges, glacial, dark and muddy, from a vaulted ice cavern. Above the mouth of the cavern is a mountain a thousand feet high. In winter it glitters under its dazzling cover of snow, virgin and unapproachable. In summer the sun brings forth spots of clay and sand on its eternal ice, but it never reveals the crater, which lies dormant under a cover of ice, centuries old. Everybody has forgotten the existence of the crater and the ice giant rules in its tyrannical arrogance, while the fire sleeps. The river flows greyish yellow between the jagged and torn walls of granite. In one place it falls a hundred feet down in a foaming cascade. It has no name, for there are no others like it for miles around. So it is simply called the Torrent. Then it runs on more slowly through a green valley until it falls into the sea.

On a gloomy evening late in autumn a man cautiously crosses the slippery flat stones where the torrent dissolves into foam and spray. The man is rough and broad-shouldered and his big beard is dotted with gray. He is shabbily dressed; a soft hat full of holes, a coat of untanned sheepskin held together by a rope around the waist, trousers made from hides patched in many places, coarse home-knit stockings worn outside the trousers and well-worn shoes of heavy leather. He looks about on all sides, evidently afraid he may be watched. In his hand he carries an immense kettle of solid copper filled to the edge with gold coin. This treasure he must put in a safe place and he can think of none better than the cave hidden by the torrent.

A couple of hours later when the kettle has been safely hidden and the man is on his way homeward there is a rumbling, thundering noise, so strong no ear that has not heard it can form any idea of it. At the same time the whole earth rocks so violently that the man falls and lies there staring at the mountains.

The man who lies there is no thief. He lies on his own ground and soil, for he owns every inch in the valley. He is Gestur Hunsson, of Floa. Floa is his ancestral farm. The other farms in the valley he has bought up from time to time. He has always been ready to assist others and the other people of the neighborhood are poor. He is now known as the benefactor and church builder of the country, which is quite natural, for his eyes have always been open to look after the welfare of others—and of himself.

He has helped them to make a living and in return he has taken their property. He has always paid them a reasonable price for it. If he had not been there to help them, who knows what might have happened? Perhaps they might have made a living without him. That later on he made money out of their farms, when the original owners had become his tenants, was surely not to be counted against him. And that he hoarded and hid his money was a most natural thing. The kettle had been filled with gold in a comparatively short time. When he had filled one more he intended to cross the mountain and go into the next parish to extend his field of charity.

He was not an old man yet and had never been sick. Who knows? When he had crossed one mountain—many little brooks form a big river—the people called him "the king." Was this name an omen of future greatness?

And as he is lying there confused and powerless for the first time in his life, his eyes staring in the direction whence the noise comes, he discovers that "the Torrent" has been changed into gold.

He jumps up, but the earth immediately knocks him off his feet again. He gets up and falls time and time again. Gold! A torrent of gold! A river of gold! On his property! It must be dammed up! It must be stopped.

"Oh, God in Heaven! Thou hast heard my prayers and fulfilled them. How have I deserved this grace? But now Thou must help me with the dam."

He jumps up and falls The dam! The dam!

And while he is labouring and fuming the fire works on. The fire, that has awakened from its sleep of centuries and that in a single moment has broken through the gigantic cover of ice which it has melted and transformed into steam and boiling water. The river swells and steam arises which fills the whole valley. Salmon and trout are cooked and crushed against the rocky banks. Foxes rush terrified and unnoticed through the herds of sheep and past the ferocious dogs. The sheep bleat and the horses emit almost human cries of anguish as they gallop through the darkness down the mountain. They fall and get up again or remain on the ground with broken legs or necks.

The houses tumble down and bury the sleeping people. A few make their escape from the ruins, naked, wounded and in despair.

The dam! The dam! The dam!

And then comes the lava, red-hot. It flows first into the bed of the torrent and falls a gigantic stream of fire, dow nthe cascades, illuminating the night with red glare.

It looks like a torrent of gold—or a river of blood.

All night it flows on, and the earth trembles and shakes as a body in the agony of death. Ashes begin to fall and these and the sulphurous vapours are like the hands of a strangler on the throat of men and beasts.

The lava flows. It fills the bed of the torrent. Very soon it will overflow into the valley. And while it accomplishes its dreadful work of destruction the rich owner of the valley, Gestur Hunsson, implores God to help him.

He cannot keep on his feet for a single moment. His senses are confused. His eyes are bloodshot. He opens his arms and cries, not in terror, but filled with the lust of avarice. His dreams of kingdom is about to be fulfilled. The miracle! The wonder!

"Oh! Holy Lord! Help me and do not fail me now. The dam! The dam!"

THE WORLD'S WORK DEPENDS ON THE WORLD'S DIGESTION

From the captain of industry to the load carrier—from milady in the auto to the woman with the scrubbing brush—the accomplishments of every one of us depend absolutely on the accomplishments of our stomachs. Backed by a good digestion, a man can give the best that is in him. When his stomach fails, he becomes a weakling.

To this loss of power no one need submit. Right habits of eating, drinking, sleeping and exercise, aided by Na-Dru-Co Dyspepsia Tablets, will restore and maintain the full efficiency of the human mind and body.

Na-Dru-Co Dyspepsia Tablets contain the active principles needed for the digestion of every kind of food. They go to the assistance of the weakened stomach, and enable the sufferer, right from the start, to assimilate and get the benefit of the food eaten. With this assistance, the digestive organs regain their tone, and soon the use of the tablets is no longer necessary.

If your stomach is not working properly, try Na-Dru-Co Dyspepsia Tablets 50c. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal. 149

SUED THE SULTAN

Woman Was Operated on for the Abdul's Benefit

An amusing story of Abdul Hamid, ex-sultan of Turkey, is that one of his daughters was suffering from appendicitis. An operation was necessary. But before he would allow this to be performed Abdul Hamid required proof of the surgeon's skill. Accordingly, the surgeon removed the appendix from a woman who was in a hospital suffering from disease of the ear. The operation was successful and the ex-sultan consented to it being made on his daughter. The woman later experienced regrets that she had allowed herself to be "vivisected" and claimed damages from Abdul Hamid (the restitution of her appendix being impossible.)

Baroness de Pallandt.

That it costs much money to love a baroness was the scientific fact discovered by Dr. Ernest V. Appleby, a former college professor who ten years ago met Baroness May Pallandt on a train and became infatuated with her. Later they traveled together throughout Europe, but huge winnings at Monte Carlo and his own good-sized fortune failed to satisfy the titled lady and Appleby signed some notes to pay for a $30,000 pearl rope which she admired. Recently he entered suit against the baroness for their cost, but the baroness in defence claimed they were a gift.

CATS AND SUPERSTITION

In the Montserrato it is believed that all the cats who wander about on the roofs during the month of February are really witches, who it is lawful and even necessary to shoot. An old German superstition has it that if a black cat sits upon the bed of a sick man it is a presage of his death, while if after his decease it is seen upon his grave it is enough to arouse doubts as to the locality to which his soul has departed.

In Hungary it is thought that cats generally become witches between the ages of seven and twelve years. A French belief concerning the cat is that if the animal be carried in a cart, and the wind blow from it to the horses, they immediately fall tired. If any part of the horseman's clothing be made of cat's skin the horse will feel as though it carried a double burden.

Where They Live Long

Of the six people whose deaths were registered by Mr. J. W. F. Vale, registrar of Stratford-on-Avon, in a week, the youngest was seventy-nine years old and the oldest eighty-nine.

PILES Do not suffer from Itching, Bleeding, Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c. a box, at dealers, or Edmanson, Bates & Co., Toronto. Sample box free if you mention this paper.

A NATURE TALK

How Ants Find Their Way to and From Nests

Not only naturalists, but anyone, who has watched ants has wondered how they find their way to and from their nests. A French naturalist, M. Cornets, who watched ants in Algeria, tells the results of his observations. The ant, he says, in its outward journey, proceeds throughout in the direction initially chosen; on its return the insect places its body at the same angle, and walks in the opposite direction. The body of the ant would, therefore, act as a kind of compass needle. If an ant is caught at the nest and transported to a point some yards distant the insect is quite incapable of finding its way back. It runs around on the ground until it accidentally comes across the entrance to the burrow. The case is quite different if an ant is allowed to find its way to a distance unmolested. On leaving the nest it places itself in a certain direction, and holds the same, no matter what obstacles it may meet with en route, and not matter what side tracks it may occasionally strike in order to seize some article of food or of structural value fr its nest. The return is effected directly, rapidly, and without hesitation, even if the ground covered has been swept in order to change its nature. The return is obviously determined completely by the outward trip, and an ant which has left its nest on a voyage of exploration finds its way back just because it has made the outward journey.

GOT RID OF BRONCHITIS

The worst feature of bronchitis is the tendency to return year after year until the system is worn out and gives way to consumption, or other disease.

Dr. Chase's Syrup of Linseed and Turpentine owes much of its great popularity to the fact that it positively cures bronchitis, and this is about as severe a test as can be made of a medicine of this kind.

Mr. W. H. Walker, Calmar, Alta., writes: "I am pleased to say that Dr. Chase's Syrup of Linseed and Turpentine has done much good to myself, wife and children. My eldest girl, seven years, had bronchitis, and the doctor who attended her did not seem to do much good. We got Dr. Chase's Syrup of Linseed and Turpentine for her, and she soon got well. We always keep this medicine in the house now ready for use, and find that it soon cures coughs and colds."

In fighting diseases of the throat and lungs half the battle is in having Dr. Chase's Syrup of Linseed and Turpentine at hand to be used promptly. This is why many people prefer to buy the large family size bottle.

Brotherhood

That plenty but reproaches me
Which leaves my brother bare;
Not wholly glad my heart can be,
While his is bowed with care.
If I go free, and sound and stout,
While his poor fetters clank,
Unsated still, I'll still cry out,
And plead with Whom I thank.

Almighty! Thou who Father be
Of him, of me, of all,
Draw us together, him and me,
That whichsoever fall,
The other's hand may fail him not—
The other's strength decline,
No task of succor that his lot
May claim from son of Thine.

I would be fed, I would be clad,
I would be housed and dry;
But if it be my heart is sad—
What benefit have I?
Best he whose shoulders best endure
The load which brings relief,
And he shall have his joy secure,
Who shares that joy with grief.

—Edward S. Martin

Facts in Nature

It is a fact that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over thirty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powerful extracts as well as the blood purifying properties of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S
Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps, for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—as thousands have testified.

Send 50 one-cent stamps to pay cost of mailing, only on a copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, illustrated.

ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

REVERSIBLE HAT.

Useful and Fetching Motor Headgear.

TAUPE COLORED VELOURS HAT.

The motor maid will find the hat pictured, a reversible piece of headgear, one of the most useful additions to her winter wardrobe. The hat is of taupe colored velours, and so flexible in the brim that the waterproof side of the creation may be turned inside out in stormy weather.

The eccentric movement of hat brims is one of the fads of the season, and this "sport" chapeau has this fashionable feature. The picture also illustrates the manner of dressing the hair over the ears under a modern hat.

Mrs. Garfield Pays Income Tax.

Great indignation has been expressed by members of the Daughters of the American Revolution and kindred societies concerning one working of the new income tax. These women expressed condemnation of the tax after they had heard that Mrs. James A. Garfield, the widow of the martyred president, would be subject to taxation.

Mrs. Thomas H. Fenton, a member of the Philadelphia chapter of the Daughters of the American Revolution, said:

"When we consider how much Garfield had done for the country we must surely realize that it would only be just to exempt his widow from taxation. Men who have given service to their country are worthy of greater consideration than this."

Miss Laura Pancoast, a Colonial Dame and also a member of the Philadelphia chapter of the Daughters of the American Revolution, said:

"It is an injustice to put a tax on the pension of women whose husbands devoted and finally lost their lives for the sake of their country."

A Question of Honor.

Among other anecdotes of University life, Dean Hole tells of an occasion when there was some doubt as to the locality of a city mentioned in a Greek text, and the lecturer addressed a youth who had just come up from the famous Shrewsbury school.

"Now, Mr. Bentley, you are a pupil of our great geographer, Dr. Butler, the Atlas of our age, who carried the world not on his shoulders, but in his head, and you can probably enlighten us as to the position of this ancient town."

"I believe, sir," was the prompt reply, "that modern travelers are of the opinion that the city ought to be placed about ten miles to the southeast of the spot which it now occupies on our map."

After receiving respectful thanks for the information, the informer told Dean Hole as they left the lecture-room that he had never heard of the venerable city before, but that for the honor of Shrewsbury and the reputation of Dr. Butler he felt himself bound to say something.

Fantastic Beards.

It is recorded that the reign of Henry IV. of France was the golden age of beards, for at that time quite as much attention was paid to them as to the dressing of the hair of both sexes. Beards were clipped in all manner of fashions—round, square, pointed, fan shaped and after the fashion of an artichoke leaf. Unfortunately when the craze for beards of all shapes and sizes was at its height Louis XIII., who was then a child, came to the throne, and the beard had to go in honor of the hairless chin of the new monarch. Soon afterward the tuft, which is still so fashionable in France, came into vogue.

All Real Men Drink O'Keefe's SPECIAL EXTRA MILD STOUT

IT'S a fine, old, mellow stout—that is as rich and nourishing, as fresh cream—yet won't make you bilious because it's extra mild.

IF MEALS HIT BACK AND STOMACH SOURS

"Pape's Diapepsin" Ends Indigestion, Gas, Dyspepsia and Stomach Misery in Five Minutes

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach prepara'on, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.

Aerial Flights.

The use of looping the loop in an aeroplane is problematical unless it is expected to help in military action by throwing the enemy into a state of dazed admiration.—Washington Star.

The "automatic stabilizer" invented by Orville Wright is said to make it possible to learn to fly in twenty minutes. If flying is made too easy and too safe will there be the same incentive to learn?—New York World.

The French have figured it to show that in 1913 there was one death of an aviator for every 1,400 kilometers flown, while in 1912 there was one death for every 140,000 kilometers only. As we see it, they simply fly a little farther now to come to the same end.—Buffalo Commercial.

Mexico should be one of the richest and most contented of all the nations of the earth. It has the resources to make a rich population of 100,000,000 people. It is discouraging to see it waste its birthright and turn back the hands of the clock of progress.

YOUTHFUL APPEARANCE

An Asset to Every Woman

Grey Hairs a Source of Discontent

Every woman wishes to look young always. Grey hairs mean the passing of youth's charm. They are the source of many a heartache to many and many a woman. But they need not be. Hay's Hair Health restores grey hair to its natural colour. It is not a dye.

By its tonic qualities, by promoting a new vigorous, healthy growth of the hair, by removing dandruff, by furnishing to the scalp and hair roots a new life it brings back the real colour and lustre of the hair.

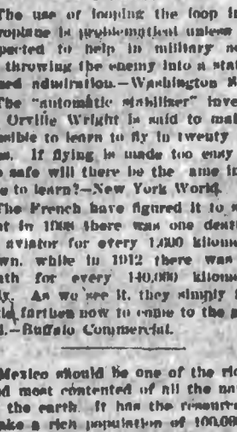
If, after a fair trial according to directions, it fails to do this we will refund your money.

$1.00, 50c., 25c. Get it at our store.

For sale and recommended by the Warne Drug Co.

EXAMINER PATTERN SERVICE

DAILY FASHION HINT.



No. 6,559, Child's Dress.

This frock shows the beauty of absolute simplicity of line. It hangs straight from the shoulders to the hem in front and back, closing in the front. The round neck is trimmed with a flat collar and the sleeves, which may be full length or shorter, have a band cuff. The style is appropriate for linen, gingham, moire, poplin, serge, ratine and some of the lighter silks.

The dress pattern, No. 6,559, is cut in sizes 2, 4, 6 and 8 years. Medium size requires 1¾ yards of 36 inch material.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

USING USELESS LAND.

Science Can Now Extract Fertilizer From the Air.

Not all the idle land o the United Kingdom is kept in uncultivated state because of the partridge preserves. There are thousands of acres of waste land scattered up and down the country which could be profitably cultivated, provided suitable methods were tried. Much of it, of course, is too poor to grow wheat; but root crops and other kinds of produce would do well. The worst land of all could be planted with trees.

Some years ago a royal commission showed that there are in Great Britain some 20,000,000 acres of absolutely waste land capable of being put under timber. It was also stated that no fewer than 100,000 adults would find healthy and profitable employment in this class of industry.

Great Britain imports timber to the value of over $200,000,000 per annum, a great proportion of which could be and should be grown in the homeland. The state forests of Germany bring in an average of about $90,000,000 per annum to the national exchequer.

Much of the land that is considered too poor to work could be profitably cultivated if the quality of the soil were improved. The quality of any particular plot of land depends upon the amount of nitrogen in the soil. Everyone knows that land is improved by manuring it. The reason for this is that manure contains a considerable amount of nitrogen, which is essential to vegetable life for its sustenance.

There are nine or ten pounds of nitrogen to every ton of horse manure. When, therefore, a farmer buys a ton of manure he has to pay pretty stiffly for the small proportion of nitrogen contained in it, which is the only part useful to him. Yet, above each acre of his land there are probably something like 50,000 tons of this valuable fertilizer; for four-fifths of the atmosphere of our globe is composed of this gas. Science has recently discovered how to extract this nitrogen from the air so that it can be utilized as a fertilizing agent.

It has, of course, been known for years that natural nitrates, such as Chili saltpetre, were valuable manures, and at the experimental station at Rothamstead Sir John Lawes and Sir Henry Gilbert experimented with this substance for many years. For instance, a field was sown with wheat for thirteen consecutive years without manure, and yielded an average of 11.9 bushels per acre. For the next thirteen consecutive years it was sown with wheat and dressed with five hundredweight of nitrate of soda per acre. The average yield for these years was 36.4 bushels per acre, an increase of 24.5 bushels.

DAMES AND DAUGHTERS.

Since her first appearance on the stage in Russia, fourteen years ago, Mme. Nazimova has played 318 parts.

Wahkiakum county, the smallest in the state of Washington, has a woman clerk, Miss Mary C. Cooper, and her work has been highly complimented in a recent report of the bureau of inspection.

Mrs. Ernest Hart, the woman scientist of England who discovered the new system of waterproofing which made washable banknotes possible, is the presiding genius in a factory which is erected in London to carry through some of the chemical processes she has perfected.

Mme. Emmy Destinn, the prima donna who sang for a cinematograph company recently in a lion's cage, has received for this performance the largest salary ever paid to a singer. For singing a single aria from "Mignon" she has been paid $12,500. She was in the cage exactly five minutes, so that the payment works out at $2,500 a minute. In addition to this, the film company had to insure her for $125,000 against death or injury.

Had a Hard Check.

Mr. Cooke was a traveling man and was slightly injured in a railroad accident. One of the officials of the road went to his home to break the news gently to Mrs. Cooke.

"Madam," he began, "be calm. Your husband has met with a slight—that is to say, one of the drive wheels of a passenger locomotive struck him on the cheek, and"—

"Well, sir," interrupted the woman, "you needn't come around here trying to collect any damages of me. You won't get a cent. If your company can't keep its property out of danger it'll have to take the consequences. You should have your engine insured!"

BENEFICIAL RESULTS

Can Only Come From The Timely Use of the World's Most Popular Laxative

"FIG PILLS"

If you are constipated, bilious, have a sour, gassy, upset stomach, an inactive liver, sick headaches; or if you are tired, worn-out and down-hearted, and the organs of digestion and elimination fail to perform the all-important functions, see to it that you cleanse your system of undigested food, foul gases, and excess bile in the intestines and bowels by the use of the popular fruit tonic laxative

FIG PILLS

This remedy, being composed of valuable tonic, diuretic, and laxative ingredients, constitutes them the best treatment for weak kidneys, sluggish liver, indigestion, constipation, and that bilious, tired-out feeling. Try Fig Pills the next time you are not feeling up to your usual good health and you will be convinced of their wonderful curative properties. Refuse all substitutes. At all dealers in 25 and 50 cent boxes, or by mail from The Fig Pill Co., St. Thomas, Ont. Sold in Peterborough by the Warne Drug Co., Ltd.

KEPHALDOL

BIDS PAIN DEFIANCE

This remedy, new to Canada, though well known in Great Britain and on the Continent, brings to all who are "tost on the thorny bed of pain" a means of speedy and grateful relief.

Kephaldol offers the sufferer from Lumbago, Sciatica, or Rheumatism quick and certain cure, even where the case is of long standing.

No more is it necessary to endure the agony, enforced immobility, backwreaking and exhaustion of Lumbago attacks, the torture of Sciatica-ridden limbs, the cramping grip of Rheumatism. Kephaldol is not only a sure, safe and natural remedy, but an exceptionally prompt-acting cure.

Kephaldol may be taken without fear. There is nothing in it to give rise to bad after-effects—nothing to injure the heart or other organs.

Thousands of letters from medical men testify to the wonderful power of Kephaldol to dispel pain and banish agonizing disease. Get a 50c. package of Kephaldol tablets yourself and experience these benefits. Kephaldol Limited, 21 Latour Street, Montreal.

The Royal Box.

The Crown Prince Frederick of Denmark, who is aged fourteen, has been made "Translator of English" by the Danish boy scouts, of whom he is one.

Queen Mary is an enthusiastic book lover, and whenever she pays short informal visits to London she usually goes to a famous book shop in the west end, as nothing pleases her better than to be able to look through the new books at her leisure.

Prince Alexis Karageorgevich, who has taken up his residence in America with his American bride, who was Mrs. Huger Pratt of Cleveland, is a claimant to the throne of Servia. He fought in the ranks of the Servian army as an enlisted man in the war with the Turks. The prince is a cousin of King Peter of Servia and asserts that he is entitled to the throne.

Telephones In Canada.

According to a report issued by the Railway Department, there is now one telephone for every 15.2 of the population in Canada. The total cost of the system in Canada is placed at $68,214,971. The gross earnings for last year were $14,877,278, or $33.13 for each telephone. The cost of operation was $11,175,680, or $24.10 per telephone.

Telegraph companies were capitalized at $202,468,041. The revenue totalled $6,095,212, and the expenses $4,034,480.

Comb Sage Tea In Hair To Darken It

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick

The old-time mixture of Sage Tea and Sulphur for darkening grey, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even colour, which is quite commendable, as we are living in an age when a youthful appearance is of the great est advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the grey hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.

For sale by the Warne Drug Co.

Current Comment.

Folks are queer. They light match es to find gas leaks and neglect to light the gas when hunting for medicine bottles.

Some enterprising newspaper man ought to send out an authoritative statement on "Who's Killing Who" in Mexico.—Memphis Commercial Appeal.

The season of swimming and boat rocking fatalities is past, but that of skating disasters has begun, while the automobile we have always with us.—New York Tribune.

Typhoid fever has practically been driven from the army and navy, and some day it should be driven from civil life, when the facilities for prophylactic vaccine treatment become more general.—New York World.

Warship as Target.

Experimental firing into the battleship Empress of India took place a few days ago in the English Channel. The ships allotted to the firing first brought to play their smaller weapons. Afterwards the 12.5 guns were turned on the mark from a distance of several miles. The effect was most deadly. The Empress of India was badly holed, and as each shot struck her she heeled over to a considerable angle. She took fire following a hit, and finally the old ironclad turned turtle and went, stern first.

Jackdaw at School.

The little town of Epworth, Eng., famous as the birthplace of John Wesley, possesses a jackdaw which has lately taken to accompanying the school children to school.

Recently the bird visited the Wesleyan Sunday school, hopping in just as the superintendent had concluded his reading of the first verse of the hymn, "There's a stranger at the door, let him in."

ASSESSMENT RETURNS FOR THE CENTRE WARD

W. D. Campbell and R. P. Bell, 134 Hunter street. Taxable property $6,000. Business assessment $1,800. Total assessment $7,800. P.S.S.

SOMETHING OF A JAR.

Here is one that was told by Congressman Frank Clark, of Florida, when the topic turned to the proprietary way that some people have of referring to things:

In a town in the South there was an esteemed citizen who always said "my house" or "my motor," or "my phonograph" in speaking of his things, and naturally little wifey began to think it was about time to establish her rights in the domestic partnership.

One evening when the husband had prefixed the word "my" to everything in the house, wifey gently remonstrated with him, and he assured her that it would not occur again.

On the following morning she heard the old man tearing around the room, opening closet doors and rummaging things in general.

"What in the world is the matter, Henry?" she asked. "What are you tearing around like that for?"

"I am looking for our shirt."

FIERCEST GALE IN YEARS SWEPT COAST

Tremendous Damage Done to Shipping and Several Ships Are Long Overdue.

A LAKE ERIE ADVENTURE

Special Wire to The Examiner:

NEW YORK CITY, March 2.—New York and all the New England coast was to-day in the grip of the fiercest storm since eighteen eighty-eight. Tremendous damage was done to shipping, but is is impossible at present to tell if any ships were lost. Several are long overdue. In this city a hundred trains are stalled and street traffic is blocked. Warnings have been issued to all vessels to keep in their piers to-day, and most of them are obeying orders. Even great liners decline to venture out till some moderation is apparent.

A Lake Erie Adventure.

LEAMINGTON, Ont., March 2.—Four residents of Pelee Island, which is eighteen miles out in the lake from here, reached here last night after an adventurous trip in an open boat. They left early, but ran into a huge sheet of ice over which they had to pull their boat. Then a fifty-mile an hour gale developed, and for several hours they fought death in one of the fiercest gales ever known here. When then finally reached here one was unconscious and the other three collapsed almost immediately. They had expected to join a deputation going to Ottawa from here to-day.

THE EXAMINER'S NEW SERIAL STARTS SOON

The Examiner's new serial story, which commences in an early issue, is a novel that brings before your eyes the colour, sentiment, and intrigue of a plot written by an author that well knows her theme, and who has studied. "The Mayor's Wife" is a detective story without a detective, but it is none the less entertaining because of the absence of that irrepressible official. The great constructor of mysteries has here, with infinite deftness, woven one of her most alluring plots. The suspense is increased from chapter to chapter, and the solution awaited with breathless interest, is not given till the very end.

35 CTS. ADMISSION TO PRAYER MEETING

At Least Announcement From Local Pulpit Said So

Among the announcements in a local church last night was the following: Organ recital to-morrow night, etc., prayer meeting on Wednesday evening at 8 oclock. "The admission will be 35 cents." I don't just know what you are laughing about; it will be worth 50 cents!" And again the laugh.

CONSTABLES APPOINTED.

The C.P.R. Company have engaged two special policemen to protect their interests in Havelock and vicinity. The men arrived on Tuesday and will make their headquarters here. They are of splendid physique and their names are A. Blatchford and J. Odlum. One will be on duty in the day time, and the other at night.—Standard.

Lost Opportunities

Do you read the classified advertising pages of The Examiner carefully every day?

If not, you are surely missing hundreds of opportunities.

There were thousands of these classified ads. in The Examiner last year. New ones are still appearing every day.

Don't lose these opportunities. Read The Examiner's classified advertisements and you will certainly profit by them.

If you want to buy a home, or find a buyer for one; buy or sell vacant property, or any personal property of almost any character; lease or borrow, exchange, rent or hire, there is no other way of doing it so quickly and so cheaply as can be done by use of an Examiner Want Ad.

DEATH OF WELL KNOWN LINDSAY MAN

Lieut.-Col. Sylvester Passed Away on Saturday at the Age of Sixty-seven Years

SUFFERED A STROKE

LINDSAY, MARCH 2.—Lieut.-Col. Robert Sylvester passed away on Saturday, after an illness extending over several weeks.

For sixty-seven years Lieut.-Col. Sylvester has enjoyed the very best of health. In the year 1885 this young stalwart entered the service of his country and fought in the Fenian Raid, and consequently was one of the veterans of this historic event. Later on, about 45 years ago, he became identified with the 45th Regiment of Victoria County, and in '84 moved to Lindsay to enter the Sylvester Mfg. Co. where he held the position of superintendent for years. Since identifying himself with the 45th Regiment, in 1859, the deceased at once, by faithful attendance to duty and meritorious work, was successful in working himself up through the ranks until he became Colonel of the Regiment, and he was popular with all classes the rank and the file. For upwards of nine years he held this honourable position with credit to himself and to the Regiment which was recognized as one of the best that ever attended camp.

About seven weks ago the deceased gentleman suffered a stroke of paralysis which caused his death, despite the fact that everything possible was done by way of recuperating his health.

In politics he was a Conservative, while in religion he was a member of the Anglican Church. He was the son of the late Henry Sylvester and Eliza Fee. Three other brothers are left to mourn his loss, namely: Richard of Lindsay; Dr. George of Toronto, and Albert of Chicago. Besides, he leaves a devoted wife and family, the members of the family being Mrs. (Ella) W. Robson, of Montreal; Mrs. (Addie) Keil Gregory of Toronto; Miss Maud (Tot) Sylvester, at home, and Mr. Boyd N. Sylvester, of the Bank of Montreal staff, New York, all of whom have the deep and sincere sympathy of their many friends in Lindsay and surrounding country, in their great loss.

The late Col. Sylvester was a member of the A. F. & A. M., No. 77, Faithful Brethren Lodge, Lindsay, and will be much missed by the members of this society.

The Examiner Newsboys' Competition

Prize Winners for Last Week

The Examiner News Boys' Competition developed a number of ties for last week's prizes.

No large gains were made, but The Examiner had the largest circulation on Saturday of any day in its history, when there was nothing special to make a sale for the paper, namely 4,900 copies. This is about 800 above the other days of the week.

It goes to show that the Newsboys are getting customers and holding them.

The following is the list of prizes for winners for last week:

Francis, Banner, Beal—Tie for first.
McWilliams, Connelly—Tie for second.
Maudsley, Thedbald—Tie for third.
Murray, Robinson—Tie for fourth.
VanNorman—Fifth.

Boys call at the office of The Examiner and your prizes will be paid you.

BENTON CASE INVESTIGATION IS HELD UP

Special Wire to The Examiner:

LONDON, Eng., Mar. 2.—In the Commons this afternoon under-Secretary Ackland said that Secretary of State Bryan had ordered the Benton examination held up because he deemed it unsaf to continue at the present time. Ambassador Spring-Rice had reported, said Ackland, that Carranza's objections had been presented to the United States, and Bryan had acted thereon. Ackland made no committal in the matter as to what Britain would do now.

THE HEATHER'S ON FIRE!

The EXAMINER has no hesitation in affirming that the Merchants of Peterboro are preparing such an Avalanche of Greater Bargains for DOLLAR DAY (March 12) as have never been witnessed before, and probably never will again---until next Dollar Day.

Relief For Depositors

Government May Reimburse Those Who Lost in Farmers' Bank

OTTAWA, March 2.—That legislation will be brought down at an early date by the Minister of Finance, having for its object the reimbursement of the unfortunate depositors of the defunct Farmers' Bank, was given out this morning. This legislation has been held up since the beginning of last session. The loss was in the neighbourhood of a million and a quarter, and it is believed that the government will reimburse the greater part of that amount. It is not expected that the shareholders will be considered in the matter, since the reimbursement of depositors will relieve the shareholders to a large extent on the double liabibity. The action of the Government will afford no warrant of precedent for reimbursing depositors of other banks which have become defunct in the Dominion. The case is considered to be of exceptional and indeed of the unique character.

KEEP ON WAITING SAYS WILSON

Special Wire to The Examiner:

WASHINGTON, March 2.—President Wilson, interviewed to-day on the Mexican situation, said he realized the enormous cost in life and money which armed intervention in Mexico would mean. He considered the United States too big to have its hand forced for any selfish reason. Those who called loudest for war he said, just failed to realize that they would have to contribute their brothers, sons and father if they had their way, whereas a better situation would result by waiting and taking no part in the struggle.

March Will Be A Spring Like Month

In Spite of the Lion-like Nature of Its Entry Present Month Will Be Warmer Than Usual

EARLY BREAKING UP

Special Wire to The Examiner:

TORONTO, March 2.—Once more the present Leonine entry of the month of March will likely be fairly pacific, even balmy in comparison with February. This was the prospect handed out by the weather expert to-day. The terrific gales which have held nearly all Ontario in their grip Sunday and Monday, are moving east rapidly, and are already ripping up the old Atlantic in great shape. So far as the weatherman can see much milder weather is in store for the rest of the month, and the probabilities are on the whole for a spring-like month, the early breaking up of frost, and a generally hopeful outlook.

ROYAL THEATRE

NOTICE

Owing to snow storms, the train from Sturgeon Falls was five hours late. Consequently "The Battle of Waterloo" will be shown at the Royal on Tuesday, Wednesday and Thursday of this week, the 3rd, 4th and 5th inst.

LOCAL BONSPIEL BEGINS WEDNESDAY

The skips' bonspiel at the Curling Rink is off for the present, but the executive of the club are arranging for a local bonspiel to begin on Wednesday with all the rinks playing. More complete details will be announced later. With a good bonspiel the local players should just about wind up a very successful season.

OBITUARY

MARY GRANDY.

Mary Grandy, wife of the late Nathaniel Bolster, passed away early yesterday morning at the Nicholls Hospital. The late Mrs. Bolster resided at Ennismore with her son, Mr Wm Bolster, on Lot 1, Concession 6. On Friday last she fell at her home, and sustained a broken leg. She was removed to the Nicholls Hospital, but passed away, as stated. It was thought that the shock was too great for an old lady of her age. Deceased was 78 years old, and was born in Ireland. She came to Canada when quite young. She has resided at Ennismore for the past fifty-five years.

The late Mrs. Bolster was highly respected in the district in which she formerly resided, and it will come as a shock to many to learn of her demise. She leaves to mourn her loss one son, Mr. William Bolster, and two daughters, Mary Jane, and Ann, both of whom reside with her brother, in Ennismore.

The funeral will take place on Tuesday afternoon at 2 o'clock, from the residence at Lot 1, Con. 6, to the Omemee Cemetery. The Rev. Mr. Earl of Omemee will officiate.

NEW HOTEL AT MILLBROOK.

Millbrook is to have a new hotel on King street. The building is to be fitted with modern heating, plumbing and lighting systems.

THE WIND BLEW AT 72 MILES AN HOUR

A NATIVE SON WILL BE THE NEXT SPEAKER

Mr. R. F. Green, M.P., Will Address the Canadian Club at Next Thursday Night's Meeting

"THE PACIFIC PROVINCE"

Mr. R. F. Green, M.P., for West Kootenay, B.C., an old Peterborough boy, will address the members of the Canadian Club at the "Savoy" (Coleman's, on Thursday evening, March 5, 1914, at 6.30 o'clock. His subject is "The Pacific Province and its Resources."

It is hoped that there will be a large attendance of the members to welcome, as the guest of the evening, a native son of the City.

SOCIAL AND PERSONAL

Mrs. F. W. Trebilcock, 499 Homewood avenue, will not receive to-morrow (Tuesday.)

Mrs. Joseph H. French, 27 King street, will not receive on Tuesday, and not again this season.

Dr. William Stanley Madill, of Toronto, spent Sunday with his parents, Mr. and Mrs. Wm. Madill, 504 Aylmer Street.

Mrs. Andrew McFarlane, Homewood Avenue, will not receive tomorrow, on account of absence from the City.

Mrs. Valentine, convalescent at her son's residence, Park Street, for the past few weeks, left for Berlin, Ont., this morning.

Mr. and Mrs. Harry Saunders of Cobourg are in the City to-day, called by the illness of their youngest son, who has undergone an operation.

Mr. W. S. Wilson, violinist, is to-day in Toronto, studying under Jan Hambourg and is also taking part in the orchestral rehearsal of the Hambourg Conservatory of Music.

The teachers of the King George school and a number of their friends drove to Lakefield on Saturday evening, where they were pleasantly entertained at the beautiful home of Reeve and Mrs. Fitzgerald.

Conducted Service.

Mr. J. Dutton officiated at the Springfield Presbyterian Church yesterday morning. It will be remembered that this Church is without a Presbyter, owing to the resignation of Dr. Marsh.

Toronto Streets Were Flooded With Signs, Loose Material and Plate Glass as Result of Gale.

ALMOST A CYCLONE

TORONTO, March 2.—A storm exceeding in violence anything which has been experienced in many years swept over Ontario yesterday, doing thousands of dollars' damage and causing untold discomfort and fear. Railway service through Ontario was paralysed. Toronto streets were flooded with signs, loose material from buildings and glass from plate glass windows that crashed through. Wires, trees, fences and poles were blown down. From the surrounding country come stories of similar devastation. The wind howled along at between 60 and 100 miles an hour, breaking into gusts occasionally that ran higher.

The storm, like the more disastrous gale of Nov. 9, 1913, was the result of a fusion of two storms over Maine. It started yesterday morning with a wind velocity of forty miles per hour, which steadily increased in violence during last night.

Over eastern Ontario the wind was higher than in Toronto, while in Montreal snow fell. Telephone communication with the east was cut off and telegraphic communication with Montreal was difficult.

West of Lake Huron there was no wind, and Alberta and Saskatchewan were having spring weather.

Several thousand dollars' damage was done to buildings throughout Toronto city by falling chimneys. The worst case reported was that at the house of Harry Partington, 1,634 Dundas street, where a tall chimney crashed through the roof and three floors of the house, doing damage to the extent of $1,500. Fortunately no one was injured, although a hole was ripped from the top of the house clear through to the cellar. At 1,520 Dundas street, the home of C. D. Cutts, the chimney also fell through the roof, causing damage to the extent of $200.

Almost without exception the trains coming into the Union Station were many hours behind time, the Port Huron train, for example, due at 7.30, arriving after 11 o'clock. The reason for this was that all the trains had to be despatched from station to station, losing valuable time in this way every fifteen or twenty miles.

Eastern States Cut Off.

NEW YORK, March 2.—A northeast storm swerving to the northwest, which brought first rain, then snow, raged over New York and vicinity yesterday, cutting the city almost completely off from telegraph and telephone communication. Reports showed its effects to be widespread. Three deaths due to the storm occurred here, two of them occurring together when a roof over a sidewalk collapsed under the weight of wet snow, crushing a man and a boy. Another man, blinded by snow, was killed by a train. Several persons were overcome by exposure and a number were injured in street accidents.

Trains for the most part left their terminals on time, but with wires down they were lost track of quickly. Concerning incoming trains, nothing could be learned except as they arrived late on all lines. Wet snow capped telegraph and telephone wires, and with a gale blowing 72 miles an hour at time many poles toppled over. On some lines the poles fell across railroad tracks, blocking traffic.

As reports began to come in later it was learned the blockade of train traffic on some of the railroad lines were even more serious than had been thought earlier. The westbound Twentieth Century Limited for Chicago was reported halted by fallen poles across the New York Central tracks north of Ossining. Other trains on the line were stalled at various points along the Hudson River from the same cause.

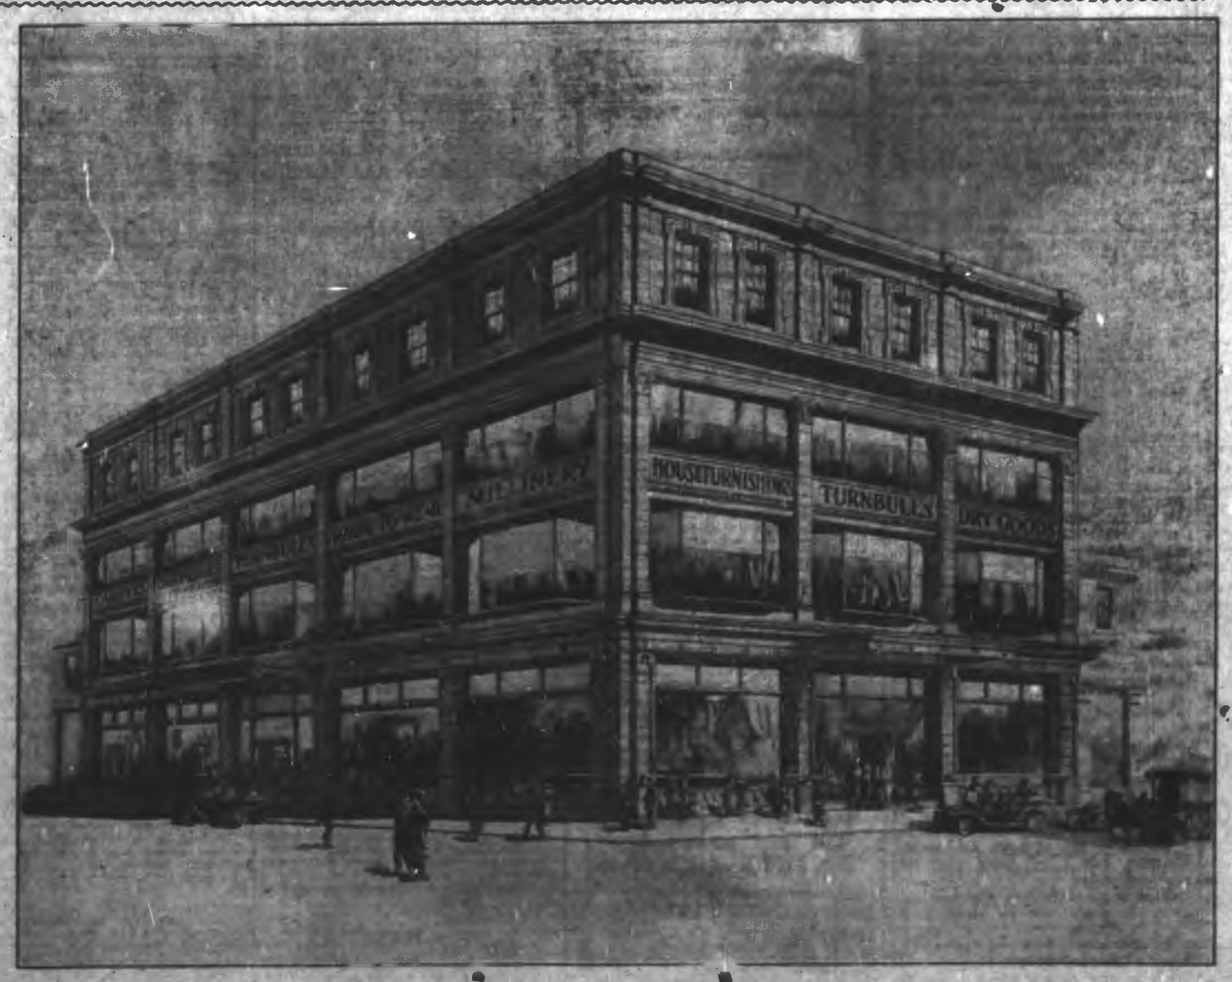
FIRE BRIGADE WAS CALLED OUT

The Fire Department received a call from Box 16 yesterday afternoon. Mr. Dees, owner of 261 Perry Street, was home for the week end from Toronto. He found the water pipes frozen and lighted fires to thaw them out. People passing the house, noticed that it was full of smoke, and some one rang in 16. The quick prompt action of the Department prevented further damage.

LIVE STOCK MARKET

Special Wire to The Examiner:

TORONTO, March 2.—Live Stock Market—Receipts light, trade slow, prices easier. Butcher cattle, $7.75 to $8.25; butcher bulls, $4.50 to $7.50; fat cows, $6.75 to $8.60; heavy stocker steers, $6.50 to $7.40; lights $5 to $6.50. No demand for sheep and lambs. Hogs, fed and watered $9, off cars $9.35 to $9.40, $8.65 f.o.b.



The New Turnbull Building as it will look when completed. Very satisfactory progress has been made with the work

"Peterborough Presents Possibilities Unsurpassed.

MONDAY, MARCH 2, 1914

BENEFIT OF DISCIPLINE.

A little military drill is commendable. It gives physical set-up; it develops the habit of obedience, discipline and respect for authority. We have examples of a recent disciplined movement as the result of drill in the burning of a public school building, in Toronto. The outbreak of fire occurred about 3.30 p.m., and though there were 900 pupils in the building at the time, no difficulty was experienced in clearing the building in a quiet, orderly manner. The pupils showed perfect discipline. The benefit of the fire drills was demonstrated as contrasted with what, we can easily fancy, might have happened if there had been panic. Presence of mind is another phrase for a disciplined mind, which is a valuable mental asset in time of sudden danger or accident. Minds under discipline—under control—make things better in all the relations of life.

A PROPER CIVIL SERVICE.

Tall oaks from little acorns grow—the germ of the towering trees is coiled inside the nut. So the germ of a great reform is contained in the notice of motion of Dr. McQueen, M.P.P., in the Ontario Legislature. His motion will demand the appointment of a non-partizan Civil Service Commission to control the whole civil service of the province—all appointments to be made on merit after competitive examinations. There [illegible] mountain of argument for this proposal. There is no end to the evil possibilities of the patronage system. To its prostitution to party purposes can be traced a great deal of the political corruption that all right-minded men deplore. It, besides, results in a waste of public money in paying for partizan service of an inefficient character. Public officials are not selected for their ability to give efficient public service, but as a reward for party service, often of the most sinister kind. An extreme case is that of a convicted forger being released from jail to be given a government office. Of course he was a rabid partizan and had given some service to the party that appointed him, either as a reward or to close his mouth. Efficiency and honesty should be the deciding factors in appointment to public office. Partizan affiliation should be no recommendation. Its recognition is the logical precedent of the application of the vicious principle "to the victors belong thes poils." In government there should be no "spoils." The public funds are not for the benefit of the dominant party, but for the state. Political creed is no qualification for public office. It would be just as reasonable to appoint men to public office by weight or by the colour of their hair, as by the colour of their party creed.

ABUSE OF PRIVILEGE.

Col. the Hon. Sam. Hughes is reputed to be a brave man, as should be the head of the fighting department of the Government. But whatever may be his personal bravery in the face of a Boer army, his official bravery is not so ostentatious. He seems to have considerable respect for the strategical philosophy of Hudibras—"He that fights and runs away may live to fight another day." He is not averse to the Indian style of warfare—fighting from behind the cover of a tree.—In this case, represented by the privilege of parliament. On Monday, Feb. 23, in the House, the Minister of Militia made a speech in which he charged the late Minister of Agriculture with personally and financially profitting [illegible] the purchase of lands for the government of the day. Hon. Mr. Foster disputed the statement, denying its accuracy, and challenging the Minister of Militia to make his statements in a way that could be reached by a suit for libel. The Minister is protected by the privilege of parliament, which means that a member from his place in the House can utter the most malicious libels against private persons outside of the House, without incurring any responsibility. He is safe from prosecution under the law of libel. This the Minister has done, and so far he has not had the courage to make his statement outside the House, as challenged to do by Mr. Fisher. Therefore Mr. Fisher must lie under the onus of such a disgracing charge without the utterer of the statement incurring any responsibility of proving it. The ex-minister is slandered without remedy. He says the charge is false. As to that, and as to what justification the Minister of Militia had for making his statement, these are not the main point. This is whether the "privilege of parliament" is to be used as a medium of slander. The privilege was no doubt wisely provided, subject, of course, to the understanding that it was not to be abused. It has been abused in this instance, and has been, and will, no doubt, again be abused. Special privileges to members of parliament, to the legal profession in courts, and to government employees may be justified, but only when they are not abused. We have evidence that parliamentary privilege is abused. We all know that barristers in court—some of them—use the professional privilege to brow-beat and insult witnesses. They can call honest men liars and perjurers, and make statements that, uttered elsewhere, would be viciously libellous, and yet they incur no responsibility. It is stated that Government employes may incur debts which cannot be collected by process of law. This special privilege is known to be abused among the civil service, at Ottawa, and elsewhere. Their salaries are not subject to legal seizure as obtains amongst honest men in ordinary commercial transactions. One will not say that these special privileges enjoyed by members of parliament and members of the bar and government employees should be abolished; but some means should be adopted to provide that they are not scandalously abused. A statement made in parliament, in the public interest, should be privileged under ordinary conditions, but no member of parliament should be allowed, without incurring any responsibility to slander persons outside the House. Barristers should not be allowed to abuse their privilege by villainously insulting witnesses and other persons in court; and employees of the Government should not be relieved from compulsion to pay their bills, such as men in other lines of employment are subject to.

ENDOWMENT FOR THE BOY SCOUTS

Christian Science Monitor: Sir Robert Baden-Powell has issued an appeal to the public of the United Kingdom for a sum of £250,000 in order to provide the Boy Scout movement with an annual income of some £10,000 as an endowment. The whole question of endowments is one open to considerable criticism, and the vitality and public usefulness of movements has not been found to be in proportion to the size of these endowments. It is, however, the way in which the world provides for the most part to-day for the requirements of its public institutions, and until the time comes when it may learn that there is, generally speaking, a better way, it will continue. It is hoped, therefore, that Sir Robert will get his money, and as much as may require, for the Boy Scout movement was in its way an inspiration of genius, the effects of which on the future, not only of the United Kingdom but of the world, it is difficult to estimate.

Baden-Powell found the young hooligans of the street corners a nuisance to themselves and others. He gave them a priceless boon of discipline, and the world is all the richer for the gift. Not, as has been said, the discipline of the barrack yard, but the discipline of the New Testament. He has taught them loyalty, unselfishness, and the salt of courtesy. The daily good turn may have, as we know it has, its perfunctory, not to say its humorous side, but that only means that "the human boy" is ordinarily mercifully free from cant. The Boy Scout movement, in a word, is a tremendous constructive force which at a critical moment in the history of the race, has been harnessed in the service of good, instead of being permitted to waste itself, or worse, to expend its energy in undesirable effort.

DANGER IN FEEDING SALT

There is considerable danger in feeding salt to ewes just before lambing time. Many cases have been known where abortion has been traced directly to the use of salt during this period.

Sheep must have salt and plenty of it, but this is one time during the life cycle when it should be withheld. Not only have bad results been noticed from the feeding of salt, but when sheep have been fed a liberal supply of beets or turnips, abortion has been more prevalent than otherwise.

This is attributed to the fact that there is more salt in these feeds than in others.

In the same way similar results have followed from allowing ewes in lamb to run on an alkali soil. See to it that your ewes do not get too much salt just before lambing.—Iowa Homestead.

—Farm and Dairy.

A PREACHMENT TO FARMERS

Rural depopulation is still a subject that is attracting much attention and causing many debates and discussions. In spite of the countless articles written in our agricultural papers and our dailies, this influx into the cities and towns continues.

Reader, you have only to pick up your daily or weekly paper to see the struggles of the unemployed in our cities. A well known business man and manufacturer was heard to remark in one of our large cities that "a successful business must be established in a town or city where labor is easily obtained, and where men can be hired and fired at will." Note the words "hired and fired." Yes, this is exactly what happens; yet the farm hands rush to the city (instead of remaining with the farm and living a comfortable life), where they can be hired and fired at any moment.

What about the farmer's sons and daughters, you say. Well, what about them? They are of an entirely different class. They do not as a rule have to earn their own bread, but attend some business college or are apprenticed to some trade. They do not have to worry about board and the hundred and one little things that confront you when in the town. They are more or less wealthy and can return home to a fine farm house whenever they feel so disposed.

In the town you are under the beck and call of many bosses, the chief being the whistle or buzzer of your factory, which calls "Hurrah for work!" If you are a minute late it is booked against you, or you lose a half hour. Then if you lose many you are fired.

Let me ask, are you ever at the command of such an instrument in the country? If you are a few minutes late with the chores does your boss stop any pay? Why no! Again in summer, what do you do in town? Rise at six a.m., be at work at seven and work nine or 10 hours a day; then work harder at night by walking the streets or giving your hard-earned money to proprietors of picture shows and theatres. When winter comes with its stormy blasts you are stumped, without a cent, and consequently find times hard. Then you long for the good old farm again.

Think this over, hired men, before quitting the farm, and when hiring, hire by the year only or not at all. I think the time will come when many of the laborers and dollars in our cities and towns will be compelled to return to the land. So stay right with the land, men, and have an occasional good time in town. What is nicer than to walk into your nearest town with your pocket well lined on an occasional week-end, knowing that a good home and plenty of work, giving good returns, is yours for 12 or eight months, as the case may be?

Spring will soon return with all its majesty, and so I think of the following words by Longfellow:

"Gentle Spring in sunshine clad,
Well dost thou thy power display!
For winter maketh the light heart sad
And thou, thou makest the sad heart gay."

—Farm and Dairy.

FOR SALE

Lot on north side Morrow St. Cheap

House on Aylmer South (Modern) At a bargain

Farm in Dummer. Good terms.

LORD MINTO IS DEAD

Former Governor-General Was Ill For Several Weeks.

HE HAD A VARIED CAREER

Fourth Earl of Minto Performed Distinguished Service In Many Parts of the British Empire and Held Two of the Highest Positions In the Service of the State —Saw Military Service.

LONDON, March 2.—Lord Minto, former Governor-General of Canada and Viceroy of India, who had been seriously ill at his country home, Minto House, Hawick, Roxburgshire, Scotland, for several weeks, passed away at four a.m. yesterday. He was 69 years of age.

Gilbert John Murray Kynynmond Elliot, fourth Earl of Minto, was born in 1845, and received his schooling at Eton and Trinity College, Cambridge. While at college he was ardent in following and participating in sports, and throughout his entire life sport of the right sort gave him pleasure, and he gave it his support. It is said of him that he wrote his graduation examinations dressed in a riding costume, covered with his academic gown, and that as soon as his paper was completed he leaped into the saddle and arrived at a race track just in time to enter and win the university steeplechase. The Minto Lacrosse Cup, now held by New

THE EARL OF MINTO.

Westminster, B.C., was donated by him during his term of office in Canada.

But the Earl of Minto's mind turned toward more than sport and constant pleasure. His painstaking and unselfish public service in almost every part of the British Empire proves that. In 1870 he retired from the Scots Guards, after being three years ensign there.

He followed the Carlist uprising in Spain as a war correspondent, and in 1877 served with the Turkish army, and was present at the famous crossing of the Danube. He was with Lord Roberts in the Afghan campaign, and in 1881 served as his private secretary in South Africa. In 1882 he volunteered in the Egyptian campaign.

Even in Canada he had to do with fighting, for when he came as military secretary to the then Governor-General, Lord Lansdowne, he was made chief of staff under Gen. Middleton in the Northwest Rebellion in 1885. The experience gained during this stay in the Dominion was put to use when, in 1898, at the age of 43, he became Governor-General of Canada. He remained as such until 1904.

In 1905 the Earl of Minto succeeded Lord Curzon as Viceroy of India. He was highly efficient in that office, and his opinions on affairs in India were taken in the highest circles. One of his unique reforms in India was the use of finger-prints on money orders in the postal service. He resigned the office of viceroy in 1909, thus bringing to a close his long career of service.

The Countess of Minto, who became his wife, in 1882, was Mary, the daughter of Gen. Hon. Charles Grey. There were two sons and three daughters. The Earl of Minto was possessed of great wealth, most of which he inherited.

Regret at Ottawa.

OTTAWA, March 2.—When informed of Lord Minto's death yesterday evening, Premier Borden said: "The news of Lord Minto's death will be received with profound regret by his friends in Canada. He served the Empire faithfully and well, both as a soldier and diplomat. As Governor-General of Canada and as Viceroy of India he filled high and sometimes difficult positions with ability, firmness and discretion.

"His associations with this Dominion, both in early and later life, won for him a well-deserved place in the affections and respect of the Canadian people, whose deepest sympathy will be extended to Lady Minto and her family."

WET MAJORITY 114.

Welland Recount Shows Big Gains for Anti Forces.

WELLAND, Ont., March 2.—Judge Livingstone sustained the first count Deputy Returning Officer Coulthurst at Bridgeburg, in poll No. 2 on Saturday. The count was 20 for and 54 against the Scott Act, which, according to the verdict of the judge, is the only count which can be taken for the evidence given by many witnesses in this case was conflicting and showed that the ballots had been tampered with since the first count by the deputy returning officer. By this decision the wet majority is reduced to 34 votes in this poll, but there is still left a majority of 114 votes against the act in the county.

In 1A, Fort Erie, the wets gained seven, and in 1B, Fort Erie, where the wets gained two, Judge Livingstone was unable to find that any wrongdoing had been definitely established and confirmed the count as it now stands. In No. 6, Pelham, and No 3 and No. 6, Wainfleet, his honor rejected 180 numbered ballots, which increased the wet majority by 96; without these the wet majority would be 18.

Application was then made by Mr. Raney to submit further evidence in regard to the Thorold Township poll No. 4. Mr. Haverson objected on the ground that the case had been closed and all evidence taken in this poll. His honor sustained Mr. Haverson in his objection, refusing to reopen the case, as he had been satisfied with the evidence submitted by the deputy returning officers and witnesses in this particular case.

SIR GEORGE ROSS SINKING.

Liberal Statesman Cannot Live More Than a Few Days.

TORONTO, March 2.—Dr. William Goldie, the physician in attendance on Sir George Ross, issued the following bulletin at the General Hospital at 10 o'clock last night:

"While there is a crisis, it is not immediate. Sir George is sinking. It is not a matter of hours, but is a matter of days."

The news of the serious turn of his illness on Saturday and the grave tone of the bulletins proclaim that the end is not very far off. Yesterday the strength of the patient was well sustained, and, barring complications, which might be expected at any moment, the immediate death of the statesman was not anticipated.

The news of the change for the worse came rather unexpectedly in a bulletin by Dr. Goldie, in which he said:

"Sir George W. Ross, after a sudden collapse last night, is in a very low condition, and recovery is not expected."

The patient came to the General Hospital from Ottawa on Thursday, Jan. 29. Sir George Ross, who is leader of the Opposition in the Senate, spoke a few days prior to his arrival in Toronto, in the debate on the address in reply to the speech from the throne. Following this he contracted a cold, which he attributed to the overheated Senate chamber.

HAD A STORMY PASSAGE.

Overdue C.P.R. Liner Docks at Halifax From Liverpool.

HALIFAX, March 2.—The liner Empress of Ireland arrived yesterday morning after a stormy trip from Liverpool. She brought the largest passenger list of the season and 374 sacks of mail. The Empress reported that on Feb. 24 she was in wireless communication with the overdue Uranium liner Principello in latitude 48 N., longitude 30, 38 W. The steamer is from Rotterdam to Halifax.

The Allan liner Alsatian got away early yesterday for Liverpool with five hundred passengers and a large cargo. Among the passengers were: Hon. Frank Cochrane, Minister of Railways; W. D. Scott, inspector of immigration, and G. M. Bosworth, vice-president of the C.P.R., and wife.

IN THE VAN OF THE WOMEN'S SUFFRAGE CAMPAIGN IN CANADA—A movement that will spread to all the Provinces. Mrs. L. A. Hamilton on the right, and Mrs. Margaret Gordon on the left, who led the delegation of Ontario women before acting-Premier J. J. Foy and members of the Cabinet to demand the right of married women, with property qualifications, to vote, as do their unmarried sisters and widows.

LOOKED LIKE A RAID.

But Assailants of Asquith's House Were Only Film Actors.

LONDON, March 3.—An enterprising attempt by a band of supposed militant suffragettes to raid Premier Asquith's official residence in Downing street Saturday was frustrated by the police, who are always stationed in strong force in the vicinity.

Several automobiles, containing a dozen women, waving the colors of the militant organization, dashed suddenly into the street from Whitehall and the occupants were about to start "hostilities" when the police surrounded them.

It transpired afterward that the "operations" had been promoted by an American moving picture concern, which had hired a number of chorus girls to represent the militants.

Girls Will Not Work Nights.

MONTREAL, March 2. — Proper police protection for girl operators in the districts where it has exchanges is a trouble that the Bell Telephone Co. is now being forced to add to its other worries. The first case in this district to be attended to has occurred in Outremont, where the company has found difficulty in getting operators for a new exchange owing to lack of light and police protection. Complaining of this to the City Council of Outremont, the company says women have refused to work at night at the new exchange because they are afraid of being attacked on their way home.

Civil Service Examinations.

OTTAWA, March 2.—Preliminary examinations for the outside service will be held on May 12, Toronto, Hamilton, London, Kingston, Ottawa, Montreal, Sherbrooke, Quebec, Fredericton, Moncton, St. John, Charlottetown, Yarmouth, Halifax and Sydney. On May 13 and 14 qualifying examinations will be held at the same places.

NERVES ARE SORE AND PAINFUL

Neuritis, or inflammation of the nerves, is the most painful of nervous ailments. You may feel the soreness or tenderness throughout the body, or it may be confined to certain nerves. In the head it is called neuralgia; in the hips and legs, sciatica; in the face, tic douloureux, and in the chest intercostal neuralgia.

The application of dry heat affords relief from the lance-like pains, but the essential thing is to build up the exhausted nervous system by the persistent use of such a restorative as Dr. Chase's Nerve Food. You will have other symptoms to warn you of the depleted condition of the nervous system, and this is your opportunity to restore to the body the energy and vigour of health.

While this great food cure is instilling new vitality into the starved nerve cells it is also forming new, firm flesh and tissue, and, by noting your increase in weight, you can prove beyond doubt the benefit being obtained by its use. This is Nature's way of curing diseases of the nerves, and it is the only way to obtain lasting benefit.

THE MARKETS

CHICAGO, Feb. 28.—Proof that the edge was off the export demand spoiled the wheat market today for the bulls. Prices, after showing an upward bent, closed weak at a loss of 1-8c to ¼c net. Corn wound up the same as last night to 1-8c higher, and oats remained unchanged to 1-16c off.

Rendering Lard.

Cut leaf lard into small pieces and run through the meat chopper before rendering and you will have almost all lard and very few cracklings when through cooking. A teaspoonful of common baking soda in the water in which you start your lard to rendering makes its white and sweet. Sprinkle a thin layer of salt in the bottom of jars before pouring in your newly rendered lard and it will not get rancid.

CARRIED NO ARMS

Washington Learns That Benton Was Defenceless When Slain.

CARRANZA STOPS PROB

He Takes the Stand That His Dealings With Regard to British Subject's Death Must Be Conducted With Britain—Bullet Wounds In Stomach Received Just After Entering the Office.

WASHINGTON, D.C., March 2.—William S. Benton, the British subject slain at Juarez, was unarmed and was shot to death in Villa's office, pistol bullets through the stomach ending his life, according to conclusive information which has reached Washington officials. While no statement to this effect was forthcoming to-day, slackening of official interest in the proposed post mortem on Benton's body was evident, the belief that the examination would be useful only in that it might serve to supplement the evidence of timid witnesses, who possibly would withdraw otherwise their oral statements.

Benton carried no arms when he approached Villa's office in Juarez according to information; he spent two hours waiting for the interview that ended in his death, walking back and forth in front of the office building; he was shot through the stomach after he entered the office and received other wounds afterward, although the first was mortal.

Official Probers Held Up.

JUAREZ, Mexico, March 2.—The Benton investigating committee yesterday was prevented from proceeding to Chihuahua to examine the slain Briton's body by rebel orders. Col. Fidel Avila, military commander here, declined to permit them to board the regular passenger train which was waiting.

The trip was suddenly postponed or abandoned yesterday shortly before the commissioners were about to take the train at El Paso, Texas. Those concerned said that any explanation must come from the State Department.

The commissioners, with their luggage, were at the train in Juarez when Zach Cobb, collector of customs at El Paso, drove up and informed them that they were not to go. "It is possible that you may go later," he told them.

The commissioners are Chas. A. C. Perceval, British consul at Galveston, and James Humbleden, a British subject, long resident in Mexico; R. E. Thomas, a lawyer of El Paso, who has made a special study of international and Mexican law; Dr. B. M. Worsham, of El Paso, and Majors W. T. Davidson and C. J. Manly, of the United States army.

Saturday night Perceval and other officials concerned with the investigation said they did not know when they would depart, although a train which came in from Chihuahua was available. Their movements yesterday morning were secret, but their return was less successful in this respect.

Carranza Obstinate.

NOGALES, Sonora, Mexico, March 2.—Gen. Carranza declined yesterday to furnish information to the State Department at Washington regarding the killing at Juarez of the British subject, William S. Benton. At the same time he gave assurances to Secretary Bryan that he would investigate the disappearance near Juarez of Gustav Bauch, an American citizen.

Until yesterday afternoon Gen. Carranza's replies were made to both queries at the same time and in the form of documents translated into English.

The stand was taken by the revolutionary leader that the death of Benton, a British subject, should be taken up through diplomatic channels of his country.

POWER COMPANY LICENSED.

New York State Officials Fix Price For Imported "Juice."

ALBANY, N.Y., March 2. — The Canadian-American Power Corporation, a new domestic corporation, is permitted to enter the public utilities field by a decision made public yesterday by the second district public service commission. It will import 46,000 h.p. into New York State. This permission, however, coupled with the commission's consent to the absorption of the old Niagara Falls Electrical Transmission Co., is hedged with stringent limitations.

As a condition precedent to doing business the new concern is limited to an average charge of $10 a horsepower, and it must reserve at least 23,000 horse-power, half of its output "for direct service to consumers, as against transmitting or distributing companies."

The commission reserves the right to reduce the $10 price at any time, pointing out that Canadian companies are supplying power at $12.50 and even $9 to their own people, while the cheapest rates to Americans of such transmitted power is $10 to the City of Buffalo, and $25 to the Buffalo General Electric Company.

WHY COUNTRY BOYS EXCEL

The proposal of the American Society for Thrift to have school all the year in order to "keep the city boys from three months' contamination in the streets" again emphasizes the advantages of rearing children in the country. Warm endorsement has been given the proposed plan by P. P. Claxton, commissioner of the United States Bureau of Education. Whether its advocates believe it should be applied to rural schools we do not know; it seems to be designed essentially to keep town boys and girls, particularly boys, out of mischief in summer.

It is not proposed to have regular school work in the vacation months, but to give vocational training, especially in gardening and horticulture. Both idle boys and idle lots, it is believed, may in this way be put to productive use, and at the same time give the boys valuable training. The city boy out of school is a disturbing factor in the neighborhood and a source of constant worry to his parents. Modern conveniences in the city have left the boys without anything to do—no wood to chop, no fuel or water to carry and no errands to run. Their fathers either cannot or do not make use of them, and have very little time to look after their welfare. We suspect that many city parents would welcome outdoor summer schools, even though it meant the further abandonment of the training of their children to the public school system.

What a contrast to rearing boys and girls in the country! In the country there is more home life, more association of parents with children, and the training of the youth is not so much abandoned to the schools. Country boys and girls in vacation time may be profitably employed at tasks that not only keep them out of mischief, but which give them responsibility and train their minds and hands. It is small wonder that the world must look to the country for the majority of its leaders.

Idleness and irresponsibility are the worst possible things for boys and girls. That so many youths in the city are growing up without anything to do is a serious situation. This problem affects us all, whether or not we live in the city. Having school the year around would help to keep city boys out of mischief, but it would not be comparable to the schooling the farm boy receives when he proudly takes a team to the field and helps to produce a crop. We trust that educators will not venture to suggest the all-year school for rural districts. The school of farm experience is a good enough summer school.—Nebraska Farmer.

MAKING HOME LIFE HAPPY

Living with other people is—or ought to be—a daily education. In demands, and rewards, a daily growth in grace. To enjoy grandfather's reminiscences really, and attend to them, is to procure much information about a past generation and enter into its bygone life. To be interested in what one's father and brother and husband have to say about politics or business is to gain valuable knowledge. To know just when to turn the family conversation so that a disagreement shall not be reached, is to acquire a fine tact for all social emergencies. To let certain subjects alone yet to hold them, is a deep development of character and will.

The family is a microcosm of life. If we succeed in family relations, we are real successes in life, if we fail, no outside success can compensate in the least. Freedom and sympathy—what better watchwords in the whole of life? They make the brotherhood of man possible, and they alone, for they mean love at its best—unselfish and wide and lasting, beginning within four walls, but reaching out in wider influence every year. —The Interior.

—Farm and Dairy.

ORCHARD AND GARDEN NOTES

Watch for rabbit injury to the apple trees.

Get material ready for the earliest hotbeds.

Labels for next summer's garden may now be prepared.

Do root-grafting of apples now and get ready to top-graft late next month.

Go over the ferns, palms and other house plants and remove any scale or other insects found on them.

A weekly bath in soapy water rinsed off with clean water will help to keep the house plants in good condition.

The white elm and the hackberry are the best two trees for the street. They should be planted at least forty feet apart.

It is best to sow seeds in drills in a hot bed or cold frame, since they may be easier taken care of and weeded.

Good garden work cannot be easily done unless good tools are available. See that all tools are in good condition and that you have those best adapted for your work.

Be sure that seed of the best possible quality is purchased for the garden. Neither the gardener nor farmer can afford to use poor seed because it is cheap. It is the most expensive in the end.

Bulbs planted last autumn may be brought into the light and heat now, and should furnish a succession of bloom during the rest of the winter and spring.

COMING
Truss Torture
Gone Thought Necessary, but Modern Search for Relief to Ended Wonderful Method Retains Without Knife, Danger or Pain
J. V. EGAN, Specialist of Toronto
Old-fashioned truss torture is no longer necessary. Galling, slipping trusses and barbarous methods of treating ruptures are done away with by the wonderful invention of a specialist who has devoted forty years to the study of rupture. The marvellous new Egan Method gives to the ruptured instant relief, a new security where all others fail, a natural position as soon as it is used and the daily use of old style trusses are thrown aside. Egan's Chemical cures are absolutely painless, no cutting, no pain or detention from business. Nothing compared to pain of cutting, but just a natural recovery produced. Immediate relief guaranteed. No failures in over 40,000 cases. Egan's Method cures to stay cured. Egan's Method

If you enjoy Moving Pictures you must see "BETWEEN SAVAGE AND TIGER" the big Kleine 6 reel Photo-Drama At "THE GRAND" For Four Days, commencing To-Morrow. Tuesday. Matinees Daily at 2.30 and 4.00 p.m., Evening 7.30 and 9.00 p.m. Did you enjoy "The Last Days of Pompeii"? If so, you'll enjoy this. It is by the same producers.

TELLING YOU ABOUT THE ALLURING STYLES IN WOMEN'S NEW SPRING COATS

WOMEN WHO ARE WONDERING ABOUT THE NEW SPRING COATS WILL be interested to know that they are chiefly in lengths a little below the hips and that they are belted some at the waist and some much lower. They are longer in the back than in the front, some in cutaway styles and are made of lightweight Poplins, Ratines, Serges, Honeycomb Weaves, Combination Plaids, Black & White Checks, Crepes, Gabardines, etc. The colourings are rich, soft and characteristic of the Spring season. A few of the Models are—

Our Annual March Sale of New Spring Dressgoods & Wash Goods Commences Wednesday Morning.

See Tomorrow night's paper for full particulars — regarding the Special Sale Values.

Wool Ratine Coat
Comes in a pretty becoming style in a deep rich shade of Dutch Blue. It is fashioned with the popular draped back, drop shoulder and the collar and cuffs are trimmed with fancy coloured Ratine. Price ... $25

Striped Wool Ratine Coat
A very stylish Spring Model is this combination Honeycomb Cloth Coat, yoke back, English Raglan shoulder silk-lined to waist ..... Price..... .... $27.50

Honey-comb Cloth Coat
An extremely smart model in three-quarter length style. This novelty Coat is thoroughly lined throughout with silk, the back is draped and finished with the new butterfly sleeve.... Price..... $27.50

PASTOR AND PULPIT

Principles Are Misunderstood

Said Canon Davidson, Speaking on "Concrete Christianity" in St. John's Church Last Evening

Rev. Canon J. C. Davidson, Rector of St. John's Church, last night delivered the first of his series of Lenten sermons, on "Concrete Christianity." He took for his text Ephesians I. and the 23rd verse: "Which is His Body, the fulness of Him the filleth all in all."

By way of introduction he referred to the general demand for the concrete in life, illustrated by the Kindergarten and Manual and Domestic training in education, and even by the realistic dressing of shop windows. So in religion, while restive as to doctrines were interested in in realisations and flesh-clad exemplifications of religion. The demand was for Concrete Christianity.

This need had been divinely anticipated and met. The Lord Jesus Christ had been given as "The Word," the concrete expression of God's nature. Succeeding Him had been given the Church with her outward sacraments and ministry, the continued concrete expression of Christ's Divine Person, while thirdly individual Church members were intended to be concrete expressions of God's life and love— living Epistles read of all men."

The Old Testament was marked by a development of more or less abstract teaching which, while a few choice souls had succeeded, the majority had failed to grasp. In condescension to human weakness God had given the concrete gift of His Son in the flesh, not only to practically reveal the divine nature, but also as the God-man, to unite mankind to God.

Not able to come into bodily contact with the wide world of His day or succeeding ages, Jesus Christ had controlled His efforts on training a body of Disciples, who would carry on His work and bring Him into contact with the whole world.

This Body were solemnly commissioned and received corporate life on Pentecost, the birthday of the Church. The Church was the "extension of the Incarnation."

Thus the outward concrete presence of Christ in the World was followed by the living concrete Church, through which all down the ages the voice of Jesus was to be heard, and His hands upraised to bless. If she came between the soul and God it was not as an obstacle, but as a living and effective work.

There were two true appeals in the religious world to-day, which might be said to be complementary rather than antagonistic. First, the appeal of abstract Christian philosophy, "accept Jesus Christ, establish soul connection with Him, and then join any communion preferred for fellowship".

The second appeal was of a more concrete character. God has already, in love, given you a connexion with Him through His Church. Realise and do your part to perpetualise this connexion. Be trained in the Church, the Divine School, and develop your powers. United to the Divine Head of the Church get obstacles of sin removed and let the Divine life flow freely into your being. Use not only the age-long stream of rich life and power, but all the varied treasures and the inspiration of all the heroic souls which had been accumulated in both the past and present of the world-wide Church.

From this standpoint connexion with the Church was not an incidental or an after-part, but was an integral and vital part of man's religious life.

This concrete and spiritual connexion, through the Church, could be supplemented by all other possible means of union with Jesus Christ.

Members of the Church did not measure up to their opportunity through lack of realising the treasures possessed. It is time mine was a slab of rock, on one side encrusted by the wheel-marks of those who for years drove over it in ignorance of hidden wealth so close to them. So ours was a deep and most imperfectly understood religion with mines of precious truth to be dug out, over which multitudes were passing in thoughtless ignorance. These formal members of the Church got nothing out of it except the delusion that they were in safety. The external and mechanical parts of the Church were wholly unsatisfying, but underneath lay rich spiritual treasures— nothing bare or narrow, or mean, or poor, but the "fullness of Him who filleth all in all"

SOME CAUSES OF POVERTY

Interesting Sermon by Rev. R. Pogue Last Night

The subject of Rev. R. Pogue's sermon last night in St. Paul's Church was "Some Causes of Poverty and Their Cure." Among the minor causes of which he spoke he referred first to the drink evil. It is impossible to over-estimate the misery, the wretchedness and the woe that flow from the traffic in intoxicating liquor. It is impossible for a country such as the United States to squander over $1,200,000,000 yearly, and a country such as Canada directly and indirectly, $180,000,000, in a traffic that affords no enjoyment to life and which is only wasteful and destructive, without causing untold misery and suffering. If the end of the Socialist propaganda, if the propaganda of every Social Reformer, is the bringing about of the time when every one shall be well-fed, well-housed, and well-played, when perfect justice and love shall dominate all our Social relations, then they must wage a constant warfare against the liquor traffic as one of the most prolific causes of loss, waste and misery that exists. All such workers must inform themselves of the true nature of alcohol, they must accept the conclusions arrived at after the most careful scientific tests, that alcohol is never a food, that it is always and only a poison, and always and only hurtful to the man who uses it. If money is wasted in drink it cannot be expected that the working man and his family will have a generous supply of food upon their table or comfortable clothing upon their back. The cure of this cause of poverty is the complete suppression of the traffic. Every Social Reformer must work for nothing less than total prohibition.

Among other minor causes of poverty that he mentioned were, improvidence and mismanagement in the home, gambling, sloth, laziness, militarism, high protective tariffs. The two great causes are Trusts and Combines and Land Monopoly. Of the first of these he said it is impossible to estimate the extent of the slavery in which people are held to-day by the power of trusts and mergers. He quoted a writer in the Canadian Chartered Accountant who makes the statement that he can prove the existence of combinations in connexion with the food which is daily on the table of the poor man struggling to support his wife and family of Canadian boys and girls, and that the result of one such combination was to raise the price of the commodity which they manufactured 50 per cent. over what the individual companies had been receiving before the combine. Now that is only one article of food. But when you take into consideration that combines control the price of practically everything you buy whether it be boots, carpets, carriages, waggons, furniture, harness, paints, drugs, woollen goods, cotton goods, rubber goods, groceries and provisions, and that they extract exorbitant profits on all of these things, you will readily see how great must be the suffering that comes to the ordinary working man as a consequence. The most serious effect is the concentration of business in cities and large centres. There are thousands of villages and towns all through Canada which a few years ago were centres of thriving industries, and as a result of these combinations are now lifeless and dead. The machinery in the plant lies rusting, and the men who once worked there have been compelled to move into the cities and thus the population of our small towns has been depleted while that of the big cities has been swelled. The result of that upon labour has been that with a surplus labour market, wages have been cut down while many have been unable to get employment at all. And hence the poverty resulting from the great number of idle men during this past winter.

But the greatest of all evils as a cause of poverty is the evil of land monopoly. What is the evil of land monopoly? It is that a few men own and control the great natural resources of the earth which God has given for the use of all. There is no principle more evident, more true, more in harmony with the teaching of the word of God than that God made the world for, and gave it to, the children of men, and that all men should have equality of opportunity in the use of the earth and its resources. God never gave to any individual or government the power to put a fence around a large portion of the earth and thus deny free access to those who want to use it. It was never the intention of the Creator that two-thirds of the land of Britain should be owned by 2,500 people or that 42 men should control one-third of the wealth of Canada.

God never gave to a few men the right of putting a fence around large tracks of land which He has given for the use of all, and call it theirs, and by adopting a dog-in-the-manger-policy, keep other people from living upon it except at such prices as they shall dictate. Such a policy is utterly opposed to the doctrine that all men are the children of God, to the doctrine of the brotherhood of man, and to the command of the Master who taught His disciples to love their neighbour as themselves. The national conscience is being aroused to the existence of these evils. The Church is beginning to insist on the truth being told about social wrongs. The great Social Congress which this week is meeting in the City of Ottawa is one of the significant signs of the times. The dawning of a better day for the poor and oppressed of all lands is at hand. Already the rays of the morning are gilding the hill tops.

ST. PAUL'S ANNOUNCEMENTS.

The church announcements for the week are as follows:

Monday evening the choir will give a concert in the Sunday School Hall.

Wednesday evening the Rev. A. H. Bowen, of Central Africa, will give an illustrated lecture of life among the Cannibals of Central Africa. An offering will be received.

The Willing Workers' Mission Band meets Thursday afternoon at 4:15.

The Ladies' Aid will hold their regular monthly meeting on Friday afternoon at 3:30.

PASTEURIZING SKIM-MILK AND WHEY

Why pasteurize skim-milk and whey? The main arguments in favor of this process, one of interest to both cheese and butter makers, are summarized by Prof. E. G. Hastings, of the Wisconsin Exp. Station, in a recent issue of Hoard's Dairyman. Prof. Hastings says:

"For a number of years the question of heating skim-milk and whey before returning them to the farm has been discussed. Where this practice has been required by law, as in Denmark, in Iowa and in Minnesota, the purpose has been to prevent the spread of tuberculosis. The experience of many Canadian cheese factories has shown, however, the value of the process as a means of improving the quality of the milk, hence of the cheese. This has resulted in an increased financial return for the product.

"The quality of the milk is often impaired by the carrying of sour whey in the milk cans which can not be washed and sterilized on the farms in a thorough enough manner to prevent the contamination of the milk from the whey. This product, unless it has been heated, always contains a large number of acid-forming bacteria and often gas-forming and other harmful kinds of bacteria. A vicious circle is established from whey tank to cheese vat by means of the can used for the transportation of whey and milk alike. If the whey is heated to 150-155 deg. F. after it is placed in the tank, it will be practically free from harmful kinds of bacteria. A few Ontario factories in 1908 were treating the whey; the advantages derived were so evident that other factories adopted the method, introducing it because it had been shown to be profitable. The cost of additional fuel and labor is small.

"One advantage to the farmer is in the increased feeding value of the sweet whey over the sour whey which is received from factories where the process is not in use.

"It now seems apparent that the heating of the by-products may serve to prevent the spread of contagious abortion, a disease as much dreaded by the breeder and dairyman as tuberculosis. It has been shown that the organism is given off from the body of the infected animal in the milk, as well as in other ways, and that the milk may continue to contain them for months, even when the animal is apparently healthy. If the milk from a diseased herd is carried to a cheese factory or creamery, there is opportunity for the transference of the organisms on to farms yet free from the disease.

"It may be argued that the whey will be fed only to hogs and calves and that there is no opportunity for the milch cows to become infected. This may be true, but it is certainly not good practice to bring any infectious material, whether it contains the organisms of hog cholera, of tuberculosis, or of contagious abortion onto the farm. It has been shown that cows may become infected by means of the food, indeed some investigators are of the opinion that this is the chief way in which infection occurs.

"It seems that there are three reasons for the heating of the skim-milk and whey before returning them to the farms: first, to improve quality of the milk; second, to prevent the spread of tuberculosis; third, to prevent the spread of contagious abortion. Any one of these is sufficient to justify the introduction of the process. Cheese factory operators do not seem to be acting of their own accord in this state, and it seems necessary that the dairyman and breeder demand the introduction of the process as a means of protecting their herds."

PAPER READ AT MOTHERS' CLUB

The following paper was read by a representative of the Women's Council at each of the meetings in furtherance of the Mothers' Club Movement on Friday night:

The average mother, working faithfully in her home to make her children's lives true and pure, strong and vigourous, gathering them each night by her fireside listening to the evening prayers, finds it difficult to acquaint herself with the special dangers and temptations which are sure to await them in the world outside; at best finds it difficult to cope with them. She is only one mother with perhaps little outside influence. But if six mothers band themselves together—or twelve their influence is increased six or twelve-fold, and so becomes strong enough to check or destroy the evils which threaten the welfare of the children. Indeed their children's opportunities and privileges will be far beyond what they would have been had each mother sat in her own home vainly wishing that things might be improved, but (without the power that comes from united effort) unable to accomplish much.

Organization Is Strength.

Mothers organized become a power which no man wishes to resist and to which educators listen with respect. Every mother should realize that her children are citizens of Peterborough, and that for them she has a right to demand that the moral conditions of this city should assist her to secure her child's highest and richest development, mentally, morally and physically; the mothers can demand this if they unitedly seek it.

"The education that the world most needs is for good parenthood, that which will help all of us to understand that in every child are infinite possibilities for good and that to know how to develop them is to render to earth and Heaven the highest service."

Would You Promote the Welfare of The Child?

You can do so by uniting in this organized effort for this great purpose. Have you problems in homemaking or in training your children? It is our hope that these meetings can give you the help of others' experiences in similar situations.

Are there conditions in your neighbourhood prejudicial to the children? Perhaps these meetings can advise you how to remedy them.

Have you solved the problem that perplex mothers?

Your experience will help, and you are needed in our organization.

Will you give your sympathy and support by joining the mothers' meetings in your district?

The Mothers' Club will be strong and effective just in so far as it enlists every mother in the community. Let each one present use her influence to enlist the sympathy of her neighbour to take an interest in these meetings.

What Are Some of the Benefits.

You will be kept in touch with the thought of the best and most experienced men and women on bringing up children, through informal talks, special literature and other practical means not otherwise available to you.

You will feel the pleasure of knowing that by your membership you are strengthening and encouraging those who are working successfully to improve the conditions of childhood.

It has been truly said, "To cure was the voice of the past; to prevent, the divine whisper of to-day."

"May the whisper grow into a mighty shout throughout the land until all mankind takes it up as the battle cry. Let mother, fathers, and educators make the child the watchword and word of the day and hour; let all else be secondary, and coming generations will behold a new world and a new people.

Untiring, universal, individual effort, with such organization only as may prove helpful, will build a bridge upon which struggling humanity may safely cross into a new land, leaving forever the old, with its unending reformatory movements, its shattered homes; and the keystone of that bridge will be maternal love, while in that fair domain thes plendid edifice of the new civilization will bear the corner-stone of home."

FRENCH CREAM SLICING.

(This is a modified puff paste, easier to make, but very good.)

Ingredients—Three cups (sifted) pastry flour, one-half teaspoon salt, one teaspoon baking powder, one-half cup sweet lard, one-half cup butter, one-half cup very cold water.

Method: Sift all dry ingredients together with finger tips, rub in the lard and half the butter; when it crumbles stir in water, mixing mass carefully with a fork. If it does not hold together well take up in floured hands and press together. It should look like putty. Now place in bowl and set in ice box to chill, preferably over night. When ready to use roll thin quite thin, take the reserved half of butter and pick into tiny bits; place at intervals over half the paste, fold over, then roll and pat with rolling pin until a little thicker than a pasteboard. Cut into evenly cut slices about two inches wide and four long, prick and bake on tin sheet in very hot oven until crisp, but not too brown. When done combine every two slices with cream filling. Or use three slices for each, placing cream between, as in a layer cake. The top is iced.

Bricks made of peat are being successfully used in Sweden for small buildings.

Using benzine for fuel, a new cigarette lighter is a close facsimile of a cigarette.

The Lion Beat The Lamb To The Barrier, But The Woolly One Will Lope In Soon

Old Time March Winds Played on the Telephone Wires and Whistled Through the Weak Spots in Houses Thrown Up in a Hurry

BRUIN IS VINDICATED

The lion beat the lamb at it yesterday, although it was several hours late clocking in. However, Old Probs made up for his earlier indecision and delivered a genuine howler. The weather sharks must have been satisfied with the evidences that the entry of the new month was anything but lamb-like, and if the old saying is to be carried out to its conclusion, winter should be wound up within a few weeks and an unbroken spring should follow. For the sake of the old timers who hold to these manifestations it might be added that the bear story has received a little credence as the result of the February cold spell, and the present prospect of good measure.

Real March Wind.

Leave it to March for blustery weather. The gale last night created trouble for the Bell Telephone linemen. There was no through line to Toronto last night, but this afternoon messages were being handled. Most of the other lines were intact.

Trains Were Late.

The storms of yesterday and to-day has interfered considerably with the train sevice on both the C.P.R. and G.T.R.

The C.P.R. train which should arrive here about 5.25 in the morning, did not get here till about 1.35. This was chiefly on account of the storm, but other causes assisted materially in this respect. At Havelock an engine off the tracks, at the turn-table, blocked the traffic for a long time, and drifts added to both the inconvenience and displeasure of passengers on the road. The 11.43 a.m. train from Toronto, which carries the Toronto morning paper, pulled into the depot shortly after 2 o'clock.

On the C.P.R., snow ploughs were started out from Havelock and Toronto, but the services of another were required before the morning was out, and one passed through here at 1.45 p.m.

The locals from Tweed and Port McNicholl, however, were practically on time. The storm, is transpires, is not so fierce in this part of the province, but Perth and points further east have suffered considerably.

On the G.T.R.

The delay on the Grand Trunk was also a feature. The Belleville train, due to arrive here at 8 o'clock, steamed into the depot at 10.20 p.m., and was immediately despatched on to Lindsay, as the information had come to hand that the Port Hope train was stuck in a drift in the neighbourhood of Garden Hill. This train was preceded by a plough, which immediately wheeled around and went to the assistance of the latter train, which arrived here exactly at 2 o'clock. It was plain to see that it had been combatting with a storm or drift which had gone right over the cab of the engine. The Lakefield train was reported just north of Garden Hill at 1.45 p.m.

Sand and Snow.

At Burketon Junction, on the C.P.R. early this morning, a freight train left the metals and caused a delay of several hours. This part of the country is sandy, and the tremendously high winds would doubtless lift some of the sand as well as the snow from the hills, on to the tracks. It is probable that the service will be of more uniformity towards evening, and trains will be running near to schedule time. The section men, however, will be kept busy until the storm ceases. Several lines along the tracks have been broken, and communication between distant points was not possible until repairs had been made.

Wires Were Down.

The storm king is no respector of persons or institutions. This morning's blizzard reached out and laid a restraining hand on the service that links this City with the New York and Chicago stock markets. As a result it was nearly 12 o'clock before the first quotations were received at the office of Mr. A. H. Stratton and company.

The suspense was exacting towards a few of the toreadors and bear-baiters who are always more or less anxious to learn what the beginning of a new week will bring. The result to-day was impartial in its effect towards the traders. No preferences were shown, and the day closed without any big losses or gains on either side, to speak of. Some of the tusks froze up, metaphorically speaking, and refused to come out. The day's business was limited, but a good undertone was manifest.
Ad storm

Street Car Service.

By running an occasional car out on Sunday and through the night, the Peterborough Radial Railway Company were able to maintain a regular service.

The snow ploughs and sweepers wrested with the storm, and were able to keep the lines open throughout the City. The steam railways were not so fortunate and many of the passenger trains were long overdue.

Blizzard In Winnipeg.

Winnipeg, Man., March 2.—Citizens who went home Friday night ankle-deep in mud and slush, following a 36-hour thaw, made their way downtown Saturday morning fighting against a raging snowstorm, backed by a cutting north wind and with the thermometer falling to 15 below zero. Conditions are the most unpleasant of the present winter. The probabilities are for continued cold over the week-end.

Just after noon Friday the thermometer stood 40 above zero and a number of people had discarded their furs.

Lillian Russell On Honeymoon.

NEW YORK, March 2.—"Our first real honeymoon," said Alex. Moore, husband of Lillian Russell, who sailed with the fair Lillian Saturday for a cruise to the West Indies and Panama.

"It may be for you," replied Lillian, "but no for me."

Miss Russell declared that she was looking forward to seeing Jamaica and other places in the West Indies. Strangely enough she said she had never spent a honeymoon in those placid climes.

Jacob H. Schiff and Mrs. Schiff were passengers on the Calamares, accompanied by Miss Lillian D. Wald. Mr. Schiff is going for a look at the canal, which he has never seen before.

Crushed Under His Load.

BURKS FALLS, Ont., March 2.—James Totten was killed near Sprucedale Saturday. He was taking a load of bark to the railway station when his team took fright and ran away upsetting the load upon the unfortunate man. He was dragged some distance and his life crushed out.

Mr. Totten was a married man with a family.

Vancouver Firms Get Big Contract.

OTTAWA, March 2.—The contract for the new wharve, and docks at Victoria, B.C., has been awarded to two firms, which will form a co-partnership to do this work. The firms are Grant, Smith & Co. and McDonell, Limited, and the price is $2,246,745. A sea wall is at present under construction.

This Way Out.

"The nights are very long now," he said after they had been silent for a long time.

"Yes," she replied, "it seems almost a week since you came in." — Chicago Record-Herald.

Lent Brings Thoughts of Easter, and Easter Suggests The Need of a New Suit.

While Awaiting Your Choice is a Smart Array of the Season's Latest Models

GABARDINES, Granite Cloths, Checks, Poplins, Whipcords, Serges, etc., etc., are all to be found in the New Suits, which are made in styles by far the smartest that Milady has seen for many Seasons.

Take for instance—

One in Navy Blue Brocade

The coat has the modish vest effect, and is cut so as to fall away from the waistline to a somewhat tapered back. The sleeves are kimono style, and harmoniously correspond with straight back and loose cut of the whole garment.

A pretty touch of colour appears on the collar, while the skirt is cut in peg-top fashion, and the whole suit is button trimmed. This is $30.00

Another Suit at $30.00

Is a handsome fawn Hopsack, the coat of which is made with yoke and kimono sleeves; and has a detachable collar embroidered in bright colours.

It is trimmed with piping and buttons, and the peg-top skirt shows a pretty trim at the side.

Silk is used to line the coat, making in all a very fashionable and becoming suit at a moderate price.

A Black Granite Cloth Suit

Has a nicely draped skirt cut full over the hips, and has a new feature in the way of a self pleat at the top of the skirt which appears as a belt.

Like the others, the coat shows a neat vest effect, and in this instance is finished with a satin collar. It is black throughout, and priced at $25.00.

Many New Ideas in Neckwear are to be seen on the Main Floor. The GRESSMAN Ltd. *Miss Wesley re-opened her Dressmaking Department to-day*

Killed By A Falling Tree

Mr. Emmory Bedore Victim of Fatal Accident Last Friday Afternoon

MARMORA, MARCH 2.—Mr. Emmory Bedore, who resided near the Fair Grounds, just outside the limits of the Village, met with a fatal accident while at work for Mr. John Crawford. In company with Mr. Gordon Gray he was cutting timber for Marmora Cooperage Company. They cut one tree down and it fell against another, evidently breaking off a limb, which was held up by other branches. Mr. Bedore then began to cut down the tree which was holding up the one they had just cut. Without warning the limb, which had been broken off, fell, striking the deceased on the top of his head. The limb was about sixteen feet long and four inches thick at the bottom, and fell about thirty feet with great force.

Medical assistance was immediately summoned and as soon as possible the victim was removed to his home here, but although everything possible was done he never rallied, and passed away Saturday night.

The late Emmory Bedore was born on the old homestead in Marmora Township, not far from the Village, and has lived all his life in this vicinity. His father died at his home in the Village just ten days before. Deceased leaves a wife, but no family except an adopted daughter.

He is also survived by four brothers and four sisters, all of whom reside in the Village or in Marmora Township. They are Alex., Julian, Frank and George, Mrs. Robert Forsythe, Mrs. Thos. Winfield, Mrs. J. Ryan and Miss Polly.

TAG FOUND IN COW'S STOMACH

A strange thing happened the other day in Fenelon Falls. John Cupp, killed a cow and when the liver was taken to the butcher shop and cut, a sheep's tag was found embedded in it. The tag was bright and Balsam Grove was plainly stamped upon it. How did the tag get there is what is bothering many people. Had the cow been sucking the sheep's ear and sucked the tag out, or had it picked it up from the grass. Then how did it get out of the cow's stomach and into the liver, and how did the liver grow around the tag? It is a puzzler. —Bobcaygeon Independent.

BRIEF NEWS DESPATCHES

Trial of Goelet Divorce uit.

NEWPORT, R.I., March 2.—The petition filed several months ago by Mrs. Elsie Goelet, formerly Miss Elsie Whelen, of Philadelphia, for a divorce from her husband, Robert Goelet, will be called for assignment to-morrow in the Superior Court of Rhode Island. At that time it will be learned whether the details of the domestic troubles of the young millionaire and his beautiful wife are to be made public through a contested trial of the case. The belief prevails here that Mr. Goelet will not contest his wife's petition and that Mrs. Goelet will be granted her divorce without any public airing of the evidence in the case. It is rumoured that Mrs. Goelet will receive a liberal allowance for her support and for the care and education of their two sons, Ogden and Peter Goelet.

Independence Day of Texas.

AUSTIN, Texas, March 2.—Seventy-eight years ago to-day the patriots of Texas, who had assembled in conference at Washington, on the Brazos, declared their independence of Mexico and proceeded to organize a provisional government for the new republic. In accordance with custom the cities and towns throughout Texas to-day observed the independence day anniversary as a legal holiday, the courts, the banks and public offices remaining closed and business in many of the cities being partially suspended.

Farmer Again on Trial For Murder.

KANSAS CITY, Mo., March 2.—Jasper Webb, the Oak Grove farmer who was once convicted of murder and sentenced to death, was arraigned in court to-day to stand trial for a second time on the murder charge. In October, 1911, Webb shot and killed Archie Whitwell near Oak Grove. Several months later he was tried, convicted and sentenced to death. In January last the State Supreme Court remanded the case for a new trial and Webb was released on bail, after having been confined in jail for almost two years under sentence of death.

Cadillac Tries Managerial Plan.

CADILLAC, Mich., March 2. — The new managerial form of municipal government was put into effect to-day in Cadillac, which is the first city in Michigan and one of the first of its size in the country to entrust the direction of its business affairs to a city manager hired for that purpose. The manager is responsible only to the mayor and four commissioners. The latter serve without pay and are subject to the recall. The manager is given a wide latitude in the management of the citys affairs, being empowered to hire or discharge all of the municipal officers and employees, with the exception of the city clerk, treasurer and assessor, who are appointed by the commissioners.

ALICE LLOYD, The Dainty Commedienne Who Comes to "The Grand" at an Early Date With Frank Fogarty and 75 Others in "Dance Mad"

To-day's Police Court Cases

The Castle Case Was Adjourned for Two Weeks

Two men, named Lloyd and Welsh, respectively, were each fined $2 by Magistrate Dumble this morning, for being found drunk. They pleaded guilty.

Vagrancy.

A man named O'Toole was remanded until Thursday on a charge of vagrancy. Another charge will then likely replace that of vagrancy.

Reserved Judgement.

Judgment in the non-support case was to have been given this morning, Mr. G. N. Gordon for the defendant, and Mr. McElderry for the plaintiff, were both present, and heard His Worship's remarks. Mr. Dumble found the defendant guilty, but His Worship did not fix the punishment, adjourning that for a further two weeks, to see if the parties could not come to some arrangement.

TRIAL IN "POISONED PEN" CASE

Special Wire to The Examiner:

ELIZABETH, N J., March 2—The so-called "poisoned pen" case which has been a staple subject for neighbourhood gossip in Elizabeth for many weeks, is to be threshed out in court this week at the trial of Mrs. Nelson L. Pollard. Mrs. Pollard, who is well-known, socially, is to be tried for sending alleged slanderous letters to her next-door neighbour, Mrs. Charles F. Jones, the wife of a noted dentist.

MEMORIAL SERVICES WERE HELD

Touching References to the Death of Rev. T. J. Mansell

Touching references to the death of Rev. T. J. Mansell of the Charlotte Street Methodist Church were made in a number of the local churches yesterday, when appropriate memorial services were held. In George Street Methodist, Charlotte Street Methodist, St. James' Methodist and Mark Street Methodist, special services were held at which the speakers referred to the loss the City as a whole as well the Charlotte Street congregation had sustained in the death of Mr. Mansell. Similar services were held in St. Andrew's and Knox Presbyterian Churches, and in the Murray Street Baptist Church.

ARKANSAS MURDER CASE

Special Wire to The Examiner:

BENTON, ARK., March 2 — The case of Clarence Dewein and a man known only as "Joe" or "Shorty," both of whom are said to have confessed to the murder of L. H. Thompson, who was slain here last November, is to be taken up by the Grand Jury which convened here to-day. The murder was one of the foulest crimes ever committed here. The victim, who was an aged commission merchant, was murdered for a small sum of money he had in his possession. One of the keepers held the aged man while the other beat in his skull with a coupling pin. Dewein was arrested shortly after the crime, and is alleged to have confessed. His alleged accomplice remained at large until a few weeks ago when he was found in Jonesboro, La. Dewein, who is not 21 years old, belongs to a respectable and well-to-do family in Belleville, Ills. His relatives have retained Charles P. Johnson, former Lieutenant Governor of Missouri, to defend him.

MURDER OF NORWOOD MAN

Is Recalled by Civil Action That Has Been Instituted Against the City of Edmonton

EDMONTON, Alta., March 2.— Action against the city of Edmonton, David W. Simpson, formerly captain of the city detective force, and ex-chief of Police Silas H. Carpenter, was started in the supreme civil court Friday when Lewis Waller, arrested in connection with the murder of James O. McNulty, of Norwood, asked the court to award him the sum of $20,000.

Waller was arrested in Calgary at the instigation of the Edmonton city police and afterward accused of murder. It transpired later that the person who had given the information leading to the arrest had lied and Waller was given his freedom and formally dismissed by the courts.

Part Of Plant Is Located

Counterfeiters Will Appear For Trial To-morrow

LINDSAY, March 2.—As a result of a search for more evidence in the counterfeiting case, Burke was taken fro mthe county jail to augment in a greater degree the chain of evidence now being welded together by Inspectors Parkinson and Greer, the party drove to the home of Burkholder, where the prisoner located the inks used, a roller and other incriminating evidence.

The last information elicited is to the effect that a party who has not figured in the case will be brought to town to give evidence at the preliminary hearing, which is slated to take to-morrow morning.

STUDENTS HEARD FROM

KINGSTON, March 2.— Word has been received from G. M. Macauley and C. R. Holdcroft, the two Queen's students who suddenly disappeared from the university on Wednesday, February 18th. When the card was written to one of their friends, who is a student at Queen's the young men were at Omaha, Nebraska.

There appears to be no reason for their hasty departure unless they feared they would not be successful in their examinations.

Macauley, who comes from Carrying Place, Ont., was a student at 'Varsity, but came to Queen's last fall for the purpose if taking a scieno course. Since entering the university Macauley developed into an excellent boxer and would have likely represented Queen's at the intercollegiate assault-at-arms which takes place at McGillon Friday and Saturday.

Holdcroft was a second year medical student, having come from Havelock, where his father is a prominent doctor.

When the two young men left the city it was thought that they had started for South America.

FUNERAL TO-DAY

The funeral of the late P. C. McGinty took place this morning from 11 Stewart Street, to the Sacred Heart Church, and thence to St. Peter's Cemetery. There were a large number of the deceased gentleman's acquaintances present. There were also a representative body from the Catholic Order of Foresters.

The pall-bearers were six of the local police force, namely: P.C.'s Brown, Patterson, Phymester, Hayward, Reed and Sills.

FATAL FALL FROM WINDMILL.

MARMORA, March 2.—News was received here of the death, by falling off the windmill on his ranch at Symons Valley, of William Golding, the well known liquor dealer of this city. Mr. Golding has been in the custom of going out to the ranch, which is only a few miles from the city, quite frequently to personally supervise its management. He was making one of these visits when the accident occurred.

Mr. Golding fell a distance of between thirty and forty feet and broke his neck.

Mr. Golding was 47 years of age. He came to Calgary about four years ago, and for some time ran the Grand Union Hotel, later opening the Royal liquor store on Ninth Avenue east. He leaves a widow and three children, Lyman, Cecil and Noreen, all of whom are at home.

The body was brought into the city by Shaver, Armstrong and McPherson. Coroner Costello will look into the matter, but it is not anticipated that an inquest will be necessary.

Mr. Golding was formerly proprietor of the Royal Hotel in Marmora. He married a daughter of the late Benjamin Surr of Madoc.

THIS FARM SOLD FOR $123 PER ACRE

Mr. James Howe, of Manvers, has disposed of his fine 80 acre farm, lot 7, con. 12, Manvers, for the unprecedented price of $120.00 per acre. This is a record price for farm land in Manvers or any other township in a radius of 20 miles from where it is situated. Mr. Howe has disposed of his 100-acre farm, for which he received $60.00 per acre, and will in future make his home in the Village of Janetville, whither he will remove after he makes sales of his farm stock and implements.

HELD DEBATE ON CAPITAL PUNISHMENT

Twenty new members were received into the Sacred Heart T.A.S. at the regular meeting on Sunday afternoon. There are evidences of decided activity among the men and some of them have been quite successful in their desire to secure a larger membership. The work of Mr. Jos. Lasure practically stands out by itself, although there are others who are doing good work. Four of the junior members presented a decidedly creditable debate on the subject "Resolved that capital punishment should be abolished." The affirmative was taken by John Finn and John McCarney, and the negative by Vincent Maher and Jack Theobald. The debaters had prepared their subject well and marshalled a few more than the stock points. The affirmative speakers presented a strong case, but the negative won the decision. Rev. Father Galvin acted as judge, and in summing up the points, complimented the debaters on their work, and the society for recognizing their junior members.

SCHOOL TEACHERS LAZY

"Sisters" on Other Hand Have Conscience Says Bishop.

SAULT STE. MARIE, Ont., March 2.—With imposing ceremony the Rt. Rev. R. J. Scollard, Roman Catholic Bishop of North Bay, opened the new St. Mary's School in Sault Ste. Marie yesterday afternoon.

Bishop Scollard was very emphatic in his declaration that it was their duty as Catholics to take their children out of the public school and send them to the separate school. In support of his contention, he stated that the separate schools throughout Ontario would compare favorably with the public schools, the difference between the public school teachers and the Sisters being that the Sisters had a conscience and worked every minute of their time, while the public school teachers only thought of putting in their time as easily as possible and drawing their pay.

The bishop denied that there were too many prayers in the Catholic school. "There is no God in the public school," said the bishop, "and they teach no religion."

Same Schoppe Missing.

NEW YORK, March 2.—Doubt expressed by the lawyer for Sam Schoppe that this important witness in the case against Charles Becker would be available at his second trial for the murder of Herman Rosenthal, caused a commotion Saturday among those directly interested in Becker's case.

At noon Saturday Bernard Sandler, attorney for Schoppe, said that he had not seen his client since the recent decision by the court of appeals. He added that Schoppe had promised to communicate with him immediately after the decision was handed down. The fact that he had not heard from Schoppe made him believe that his client had "dusted," to use the lawyer's own expression, and that in all probability he was headed for South America.

Gave Life For Children.

SPOKANE, March 2.—Mrs. Stella Marles, a widow, lost her life early yesterday when she attempted unsuccessfully to save the lives of her two daughters, Helen, 4, and Gale, 7 years old. The children also perished.

The mother discovered her home in Hillyard, a suburb, on fire, and after arousing her two sons, went to her daughters' bedroom. The flames spread so rapidly that she did not have time to save her girls or escape herself, and the three bodies were found in the ruins of the home.

Two boys, 12 and 14 years old, escaped by jumping from the second storey window.

Pope Gives 23-Ton Bell.

PARIS, March 2.—At Annecy, in the Haute Savoie, the casting of the huge bell for the Rouen Cathedral has just been finished. The bell is the gift of Pope Pius X. It weighs 45,000 pounds, and is the largest in France.

NOTHING LIKE IT FOR COLDS

Mrs. Holland Ferguson, Shediac, N.B., writes: "Dr. Chase's Syrup of Linseed and Turpentine has cured my children and myself of severe colds. We are never without it in the house. There is nothing like it for colds and throat trouble, and it is so soothing and pleasant to take, my children would drink a whole bottle if they were permitted."

"WITH THIS RING I THEE WED"

And then the "plain wedding circle" is slipped over her finger, and the clergyman says, "I now pronounce you."

"Plainness," however, is not so characteristic of wedding rings as it once was. We have the 10, 14, 18 and 22 karat plain gold bands, costing $3.50 to $10.00.

Aside from this, wedding rings vary extensively in width, and other details, giving our display a greater variety than you would think probable.

They are an interesting sight, when all laid before you, and we shall be very glad to have you inspect them.

SCHNEIDER,
The Jeweller, George St.

FACTORS IN HATCHABILITY

"Why do eggs not hatch?" has been an eternal and largely unsolved question with poultry keepers. Some experiments that were conducted by Prof. A. G. Phillips when he was at Cornell University, and reported in Farm and Home, serve to throw some light on the question.

In one experiment conducted by Prof. Phillips three lots of 50 eggs each were kept two weeks in average temperatures of 80, 65 and 50 degrees respectively. When they were placed in the incubator the percentage of fertility ran 24, 88 and 90, and the final hatch was 0, 43 and 70 per cent. This indicates clearly the advisability of keeping eggs in a room of not higher than 50 degrees temperature.

To determine the effect of age at time of setting or the hatchability of eggs, Prof. Phillips took those lots of 50 eggs each, which were kept one, seven, 14, 21, 28 and 35 days respectively in a suitable place and handled in a proper manner. The longer time the eggs were kept the poorer they hatched, running from 35 up to 86 per cent for fresh eggs.

STAND ON LARGE END

Another experiment proved that eggs held standing on the large end were eight per cent better than eggs held in any other manner. Another experiment in which three lots of eggs were kept 14 days in bran, in an ordinary egg case, and in a rotary egg holder, allowing free circulation and plenty of light, the last lot proved by far the best. The eggs held in bran were second best. Prof. Phillips' experiments did not show that dirty shells have any effect on hatchability.

Another factor in hatchability often discussed, and on which many poultry men have fixed superstitions, is the effect of the shape of an egg on its fertility and hatching power. To determine this point eight sets were set as follows: Ridge around the middle, small end twisted, thin shelled, the usual small end enlarged, short and round, long and narrow, small, double yolk. The fertility varied about 10 per cent except with lot 8, which was infertile. The small, thin shelled and enlarged end eggs had 70 per cent fertility. The others had 80 per cent. Lot 1 hatched 100 per cent fertile eggs; 2, 63 per cent; 3, 28 per cent; 4, 43 per cent; 5, 86 per cent; 6, 28 per cent; 7, 28 per cent; 8, 0.

HOW TO HANDLE EGGS FOR HATCHING

After numerous experiments Prof. Phillips summarizes his deductions as follows:

"The fresher the egg the stronger it will be in fertility and hatchability.

"Never keep eggs at all if the temperature is not cool.

"A temperature of 50 degrees or less is desirable.

"Eggs should be turned sometime or other during the period of keeping.

"Washing the eggs affects them but little.

"It makes little difference what position the eggs are placed in when being kept.

"Abnormalities in the shell of eggs do not affect fertility and hatchability to any extent.

"I believe the hatching power of eggs is largely controlled by the vigor of the germ, and the supply of food material for the growing chick. Too many times cases have been noted of eggs that have been badly abused in various ways hatching large percentages. They did not hatch particularly on account of the conditions, but more in spite of them. I believe that the hen which laid the eggs has a wonderful influence on the hatching power. Shape, etc., certainly has little influence."

COUNT DE LESSEPS IN HIS MOTOR-SLEIGH—Lieutenant Shackleton is to test the practical possibilities of motor traction in his forthcoming expedition to the Antarctic. Above is a view of an aero-propelled motor motor sleigh, which shows what can be done on snow by existing machines. This form of aero-ski-ing has already reached a remarkable degree of perfection, and has several devotees notably Count Bertrand de Lesseps, son of the famous Frenchman of Suez Canal fame and brother of Count de Lesseps. Count de Lesseps has constructed an air-propelled machine which is capable of attaining a speed of from fifteen to sixty miles an hour over the snow, according to the condition of the frozen roads.

Portugal Strike Ended.

LISBON, Portugal, March 2.—An announcement of the conclusion of the present revolutionary railway strike in Portugal was made Saturday by the committee directing the movement. All the strikers have been ordered to return to work.

The action of the committee is regarded in official circles as certain to bring about tranquility throughout the country, where railroad, telephone and telegraphic communication has been interrupted for several days in consequence of acts of violence by the strikers.

Aviator Beachey Has Close Shave.

SANTA BARBARA, Cal., March 2.—While looping the loop here yesterday Lincoln Beachey lost control of his biplane and fell 1,600 feet, but managed to right himself four hundred feet from the ground and escaped with slight injuries. His machine crashed into a tree but was not greatly damaged.

HON. MR. DEVLIN DEAD.

Member of Gouin Cabinet Had a Relapse on Friday.

OTTAWA, March 2.—Hon. Charles Ramsay Devlin, Minister of Colonization and Mines in the Quebec administration, died at his father's home in Aylmer, Que., at 7.30 o'clock yesterday morning. He had been seriously ill during last week, and on Saturday he lapsed into a state of coma. Surrounded by the members of his family the end came peacefully yesterday morning.

Hon. Mr. Devlin's condition, which had been showing signs of distinct improvement throughout the week took a serious turn for the worse Friday night and was considered so grave that the last rites of the church were administered Saturday morning. Dr. Quirk of Aylmer, who has been in attendance, said the condition of the patient was very low.

He was born in Aylmer and was in his fifty-sixth year. He entered political life in 1891, sitting in the Federal House for Ottawa County. From 1896 to 1897 he represented Wright County, and was appointed Canadian commissioner in Ireland in 1897. In 1903 he resigned to contest Galwry County, Ireland, for the British House. He sat in the British House from 1903 to 1906. Returning to Canada in 1906 he was elected for Nicolet in the Dominion House. The following year he entered the Gouin Cabinet, sitting for Nicolet until 1912, when he was elected for both Nicolet and the new constituency of Timiskaming, choosing the latter seat.

INTERESTS TOO INVOLVED.

U. S. Shipping Trust Better Be Left Alone, Says Report.

WASHINGTON, March 2—Foreign and domestic shipping of the United States is so combined by agreements, pools and conference arrangements that an attempt to dissolve the combinations would cripple trade. This is the conclusion reached by the house merchant, marine and fisheries committee in the final report of the so-called shipping trust investigation, made public yesterday. The committee, after two years of exhaustive enquiry, recommends that both foreign and domestic shipping combinations be placed under the strict control of the Interstate Commerce Commission, and that, if necessary, the commission be enlarged to care for additional work.

'Quakes Felt In Washington

WASHINGTON, March 1.—Seismographs at Georgetown University recorded pronounced earthquake shocks for nearly 45 minutes early yesterday. The estimated distance from here was 2,700 miles.

CLEVELAND, O., March 2.—Another earthquake was recorded Saturday by the seismograph in St. Ignatius' Observatory here.

BRIEFS FROM THE WIRES.

At a meeting of the Norwich, Ont., Board of Trade it was decided to attempt to obtain a Carnegie library.

Upwards of $200,000 in cash was stolen Saturday from a postoffice van at one of the railroad stations in Paris, France.

Mrs. George Oakes, a widow, aged 60, was burned to death by the explosion of a lamp in her home at Tyron, near Halifax, N.S.

The first step in the purchase of the Walkerville Light & Power Co. by the Hydro Commission by Hydro Commissioner Hatcher Saturday.

Mrs. Eliza A. Wilkinson, who died in Brockville yesterday, aged 82, was the last surviving member of the family of Arthur McLean, C.E., father of Orangeism in Canada.

Fethy Bey and Sadik Bey, two young officers of the Turkish military flying corps, were killed Saturday while attempting to make a flight from Constantinople to Alexandria, Egypt.

Omar Graybiel, aged 49 years, son of Elisha Graybiel and Mrs. Graybiel, farmers, living in Wainfleet Township, committed suicide Saturday afternoon, by shooting himself through the head.

Louis Campani, of Columbia, Ill., swallowed 97 nickels and won a wager of $5. To-day he is in the care of a physician who is confronted with the task of withdrawing the coins from this human savings bank.

A big whale was found on the beach at Long Branch, L.I., Saturday morning, driven high and dry by the winds, and prevented from getting back into deep water by the ice. The big leviathan died on the beach.

YOUNG FARMER KILLED.

Albert Waring Falls Thirty Feet From Windmill.

INGERSOLL, March 2.—While at work at the top of a windmill shortly before noon yesterday, Albert waring, a young farmer, residing on the Governor's road, fell and was almost instantly killed. The fatality occurred on the farm of J. S. Nicholl's. The windmill was not in working order, and Mr. Waring, who had no former occasions rendered the required service, was requested to remedy the difficulty, as Mr. Nicholls was ill. While at it he fell from the top of the windmill, a distance of thirty feet. His skull was fractured, and his death opened in a few seconds. Mr. Waring was about 35 years old, and is survived by a wife and three children. He was well known and highly respected in the district.

Not Even Sent.

Little Eric had dropped a basket containing some eggs on his way home from the grocery.

"How many did you break?" asked his mother.

"I didn't break any," replied Eric, "but the hens came off two or three."—Chicago News.

IN THE WORLD OF SPORT

The Rift In The Mercantile Hockey League

Do Appearances Point to a Dissolution or a Collapse of This Organization?

Peterborough, March 2, 1914.

To the Editor of "The Examiner."

Mercantile Hockey League.

Dear Sir,—Permit me to make a few comments on President Nelson's letter published in last Friday evening's "Examiner."

I maintain that the action of the Mercantile League, as carried out at the eleventh-hour-summoned meeting of the Executive committee of the Mercantile Hockey League on Wednesday last, is subversive of all principles of true sportsmanship.

I will pass over his remarks as to statements which would neither hold good "as evidence in courts, or with intelligent people," with but this one remark, viz., that many people who know what sport is and who may fairly be credited as being "intelligent," have expressed to me their opinion, that to put it mildly, the League has done that which does not commend its action to them.

Granted that this meeting was called in the usual way, I would ask whether—considering the important nature of the business to be submitted—this special meeting did not warrant such notice to those concerned being given earlier than it was? Moreover, no indication of the busines was vouchsafed. The Press, in a spirit of sport, has published these notices of meetings—really advertisements — gratis. Now, personally, although I was then Vice-President of the League, I had no knowledge of the intention to hold such meeting until the matter came officially into my hands as one of the editorial staff of "The Examiner." Some who would have been present did not, so I understand, know anything of the meeting and the business transacted until it had become un fait accompli. Hence it may well be considered—to use the Presidents' own expression—"a secret meeting."

President Nelson is wrong altogether in stating that the "kick" against the action he, with others, engineered, is one of dollars and cents. It is a "kick" in the interests of fair play, nothing more and nothing less! It may be a question of money with some teams, who wished to grab all the "gate money," because at the meeting one representative anyway, pointed out that their team had broken seven sticks, Great Scot! and haven't other teams broken any sticks over the sport? And a team put forward the plea that they had engaged a "trainer." Mon Dieu! If they wanted a luxury such as this, then for mercy's sake let them pay for such luxuries themselves and not go holding out the hat for charity doles. No one but themselves thought it necessary to go in for such high-flown luxurious expense. If the average man wants to drink champagne instead of something less expensive, let him pay for his own "fizz!"

As regards my own team, I can safely say it is not a question of dollars and cents with its members. It is purely a matter of principle. For example let me hike back to last season. I had a team who played for some time independently of any league. They put up some very good play, winning more games than they lost and, as a digression, let me say now that if I had had this year the same material they would have been able to have shown much better results. However, I had to do the best with what I had, and the "boys" did their level best, and what more can be expected from any one? Well, to resume; somewhere about the middle of last season's hockey, a C.G.E. team fell out of the Mercantile League. The committee was in a dilemma, the outgoing team had lost so many games that if another team could be found to take their place, the incoming team could not possibly have won out. I was approached as manager of "The Examiner" team. I was told the League must go to pieces unless my "boys"—good, loyal fellows every one of them, I am thankful to say —would step into the breach and take the place of the defaulting team. I at once called by "boys" together and we decided we would go into the Mercantile League purely from the love of sport rather than any contretemps should arise. We paid our dues, amounting to many dollars, and at the end of the season all we saw back of our somewhat considerable expenses was the munificent sum of—I believe —forty cents. Did we kick at that? You bet we didn't! We had had the satisfaction of beating the crack team in the league, a team which boasted that they had never been beaten. We won more games than we lost. And my team was one of the first to be entered for the Mercantile League this current season.

I think the above remarks will dispose—so far as "The Examiner" team be concerned—of the dollar and cents question, and I believe I voice the opinion of the De Laval and the Plumbers' teams, that the dollars and cents did not weigh with them. What the former team think of the deal of last Wednesday was expressed in Manager Evans' letter in last Friday night's issue. Does not the fact of tickets being already printed before the meeting show that it was what "The Examiner" termed a "hole and corner" affair, or as the De Laval team expressed it a "frame-up?"

Now, as regards President Nelson's remark that the only way in which he could get a certain member of the executive committee to attend was by sending out the Vice-President (the writer of this) to call him in. Now, I am not in the habit of acting as "call boy" for other people, and moreover, I am blessed (some times it may be a negative blessing) with an extremely good, retentive memory, and I certainly cannot all to mind a meeting being adjourned to enable me to go out into the highways and hedges to compel them to come in. If I have been guilty of a lapse of memory let him be more explicit. However, let this pass.

As regards the sale of tickets the two teams who were represented, but who were opposed to the motion, viz., "The Examiner" and the Plumbers, required that these play-off games should be proper League games and were prepared to either share in the profit or the loss, which ever way financial matters might have gone. Mr. Nelson says, too, that the Press team and the Plumbers team made no counter proposition. I believe it should be found on the minutes that I seconded an amendment to the proposition, which was lost, the original resolution to do that to which we objected being carried by the coalition. But oh dear no! Three teams were practically thrown out. Is it not feasible, considering action was adopted to which we entirely objected and equally strongly opposed, that we did not consider it our duty to boost that which we so highly disapproved of?

So far as my memory or recollection serve me no genuine proposal to the three teams left out in the cold was made. We were asked in a somewhat jeering manner by one of the lucky (?) ones if we would sell tickets for them, and presumably for their benefit; in a bantering manner the question was put, would the Vice-President buy one ticket for the game, whereupon that individual told the enquirer that he would see him—well, bothered first.

That is all I have to say about the numbers of tickets which were offered to the three unfairly used teams.

I am willing to leave our conduct in the hands of intelligent lovers of clean sport.

And now, if you please, let me reply to that part of President Nelson's letter which applies personally to myself. He affirms that he had not received my resignation. Of course, I have no idea when his letter was written, but this I can say, that before my resignation was announced in "The Examiner" I had not only written it, but I had posted it to the secretary and, so that there should be no mistake, I mailed it myself.

Lest it should have miscarried, I append a copy:

26th Feb., 1914.

To the President and Executive Committee of the Mercantile Hockey League:

Gentlemen,—Herewith I beg to tender you my resignation as Vice-President of your League. The decision arrived at last evening, and the methods adopted are so foreign to any of my English ideas of fair play, that I prefer not being associated with some whose views are so diametrically opposed to my own.

Yours faithfully,

(Signed.) **Frank Russell.**

I have no doubt this was delivered in due course; Mr. Nelson says he will not accept my resignation. Does he imagine that I have not a mind of my own? When I say I will do a thing I do it, and contrary wise. I am always open to conviction, but before acting I usually look at a matter from both points of view. Great Scot! What does he take me for? A puling fool to be twisted round anybody's finger? Those who know me are aware that I am not in the habit of saying—let alone committing to paper—things which I do not mean. I have a general habit of not "jollying," but saying what I mean and, conversely, meaning what I say — or write.

As to his suggestion of arbitration—it appears to me that his proposition is a "reductio ad absurdum." The three losing teams have, by no action of theirs, been practically eliminated from the League. "It is a case of we have done with you, out you get!" And it will surprise me much if either of them ever again join the forces of the Mercantile League as at present constituted. I may be wrong; it is a matter which only time will prove.

"What has been done in the past," says Mr. Nelson, "has very little to do with the present." There I join issue. A precedent on this very matter—and a good one too, to my way of thinking—has been established by other Leagues in this City, which certainly favours the contention of the teams who have had the "chuck out." On the whole, Mr. President, it has been "a bad deal."

As regards the President's remarks on the De Laval team, I consider that their manager's letter in last Friday's issue is a sufficient answer.

Faithfully yours,

FRANK RUSSELL.

Exhibition Games For Peterborough Ball Club Will Train At Youngstown

The Peterborough Ball Club will have a more ambitious spring training programme this year than in past seasons. Arrangements have been made to have the team train at Youngstown, O., where splendid grounds were secured last week. Manager Blount will have his pitchers and catchers report three weeks before the League season, with the other candidates coming a week later. A schedule of exhibition games with teams in the vicinity of Youngstown is being arranged, and the Petes will arrive at Erie, Pa., on opening day in much better shape than they usually have been for the first game of the season. It is expected that six or eight games will be played during the spring training. The grounds at Youngstown are of big league calibre, with the dressing rooms fitted with shower baths and other facilities for training. Manager Blount is hard at work rounding up his team, and has already a formidable squad signed.

DWYER TO PLAY FOR THE EASTERN ALL STARS

Secretary W. A. Hewitt, of the O.H.A. informed an Examiner representative on Saturday that owing to the Belleville protest against Oshawa, the proposed game between the All Star juniors and the Junior O.H.A. champions has been cancelled, and instead there will be a game Saturday night between All-Star Eastern and Western junior teams. Harold Knapman was chosen on the All-Star junior team under the other arrangement, but there has been a change necessary, and the local right wing will not land the position. Peterborough will, however, be represented, as Secretary Hewitt said that Joe Dwyer would be the goal keeper for the All-Star Eastern team. Box of Belleville and Terry Millan of Kingston, will also be on the Eastern line-up.

FINAL GAME IN MERCANTILE LEAGUE

The final game in the Mercantile Hockey League will be played tonight, with the Test and Tool Room aggregations as the contesting teams. There is very keen rivalry between the two, and the game should be the most interesting of the season in this series. Len. Dobson will referee. The game is called at 8.15 o'clock.

BIRTHDAY OF FEDERALS' PRESIDENT

Special Wire to The Examiner:

CHICAGO, Ill., March 2.—James A. Gilmore, whose activities as President of the new Federal Baseball League, has caused the old league magnates to sit up and take notice, celebrated his thirty-eighth birthday anniversary to-day. Within the past few months Mr. Gilmore has become one of the most discussed men in the baseball world. Before that time he was unknown outside of his own circles of business associates and acquaintances.

Portsmouth, O., has the distinction of being the birthplace of the Federal League President. When he was an infant, however, his family removed to St. Louis and then to Chicago. This was in 1882, when the future baseball magnate was six years old. He received his education in the Chicago public schools and on completing his course in the Grammar School, went to work as a messenger boy for $3 a week. Later, he secured a job with a coal company and held to it until the beginning of the war with Spain, when he enlisted and went with his Regiment to Santiago. Later he went to the Philippines and it was nearly two years before he returned to Chicago.

After the completion of his military service Mr. Gilmore returned to Chicago and to his job as a coal salesman. A decade ago found him still plugging along at a modest salary. Then the qualities that have made him known as the fighting president of the Federal League, began to assert themselves. He quit the coal business and engaged in manufacturing on borrowed capital. He was successful from the start and within a few years he accumulated a comfortable fortune. When the Federal League Club in Chicago was close to the rocks, last fall, Gilmore and a few friends advanced $12,000 to keep the club from going under. This gave Gilmore his first insight into baseball club management. Though he lost his money he liked the experience and when the League Presidency was offered him last fall, he readily accepted and, with characteristic enthusiasm, started out to make the new venture a success.

JUNIOR CITY HOCKEY LEAGUE MEETS TO-NIGHT

A meeting of the executive of the Junior City League will be held this evening to discuss the advisability of arranging home and home games with a Lindsay City League team or the fast-going Lindsay Collegiates. The meeting will be held in the Oak Hall store at 8 o'clock. All the members are asked to be present.

Hockey—That's All

CHURCH HOCKEY LEAGUE GAME.

The Senior Church Hockey League executive has arranged for the following games to be played on:

Tuesday night, 7 to 8, St. Paul's and George Street.

Thursday night, 7 to 8, St. Andrew's and Knox Church.

Thursday night, 10 to 11, Murray Street and Y.M.C.A.

BANDSMAN BLAKE VS. BOMBARDIER WELLS

Special Wire to The Examiner:

LONDON, March 2. — Bandsman Blake, whose performance during his short career in the ring have caused him to be hailed in some quarters as the coming heavyweight champion pugilist, will be given a real tryout to-morrow night with Bombardier Wells as an opponent. The two are to engage in a twenty-round contest before Dick Burge's club in this City. The match will be for $2,500 a side and a purse of $4000 offered by Burge.

Fred Kelly Received A Big Ovation

Petes' Left Wing Played With His Old Team, Ingersoll

INGERSOLL, Feb. 27.—Another victory was chalked down to the local intermediates to-night. They took the measure of the Brantford seven by a score of 15 to 8 in an exhibition game that was fast throughout, and worked desperately. The score and workedd esperately. The score was tied several times, the standing at half-time being 4 to 4. Brantford broke thet ie, but Ingersoll soon came back for another. They continued to fight on even footing, for some time, and thep lay was very exciting. Finally the old-time combination proved a problem to the visitors and Ingersoll piled up the goals. The fans gave Bud Kelly an ovation and he played a great game.

DATES FOR POSTPONED LEAGUE MATCHES

Have Been Approved of by English League Committee

The English League committee have approved of the following rearranged dates for postponed League matches: Glossop vs. Britol City, March 10; Bolton Wanderers vs. Chelsea, Feb. 11; Liverpool vs. Chelsea, March 18.

Application in conection with the transfer of players were dealt with. No action was taken in the cases of T. Broughton, Leeds City, and of Bigood, Hull City. It was reported that Gainsborough Trinity had granted a free transfer to G. Ellis, their former player.

The following benefit matches were approved: Clapton Orient vs. Croydon Common, March 7, for Johnston, Orient F. C.; Tottenham Rotspur vs. Croydon Common, April 11, for Bob Steel, Tottenham, the recipients to be supplemented by a bonus from the club; and E. Bullen Berry, who is to receive an agreed sum out of the gate of the Bury vs. Hull City match on April 10.

A request was made by the Chelsea F. C. for the League Committee to selete a representative team to meet a team selected from the League clubs in London on the Chelsea ground on a date to be hereafter approved, for the benefit of the wife and children of Ben Warren, who is still materially suffering in health. The request was at once acceded to and the president, Mr. McKenna, was instructed to complete the arrangements with the Chelsea Club.

BASKETBALL

A meeting of the Senior City Basketball League will be held on Wednesday evening at 7.30 o'clock in the Y.M.C.A. for the purpose of getting under way. Some of the churches have signified their intentions of entering teams and the prospects are bright for one of the strongest leagues in years. It has not yet been decided whether a junior league will be formed, but the question will be considered on Wednesday night.

Music & Drama

THE DEAR FOOL.

While the name on the bills may not have been in any way responsible for the rather slim attendance at the Grand on Saturday night, the pretty dramatic comedy presented by Eva Moore and H. V. Esmond is worthy of a more attractive title. "The Dear Fool" is appropriate enough after you have seen the production, although the last word might have been pluralized to have been really exact. One of the lines, "We're like little lonely children awed by the mystery of life" applies to the chief incident in the piece, which remains as unsolved as it is inexplicable, to the last curtain. Betty Dunbar, ten years a widow, with two children, received a pittance while Ethel, her elder unmarried sister, was bequeathed the bulk of their father's estate. Just passed forty, Betty is in love to a young Cecil twenty years her junior, but she acknowledges she would not marry him because of the difference in their ages. Betty and her boys are living at the Manor with Ethel, where Sir Egbert Inglefield, a writer with an income of several thousand pounds is visiting. Between his proposals to Betty, who is slightly younger than he, Egbert is engaged upon a deep literary work. Cecil is called to Australia sooner than expected and Betty on receipt of a telegram, leaves for London, stating that she is going to visit her friend Dolly Palgrave. She promised to return the same evening, but her brain had barely left when her son, Jack, fell from a tree and was seriously injured. Betty Palgrave, visiting with friends nearby, calls at the Manor. She certainly had not sent the telegram, and the straight-laced Ethel smells a rat. Supper and champagne with Cecil was Betty's undoing. She returned home the following morning to find her son near to death, and Ethel's thumb turned down. Then Ethel decides to marry the Marquis of Dunbar, who dangled a title before her in exchange for the necessary finances to restore a dilapidated estate. She issues an ultimatum to Betty that the latter must follow Cecil and marry him. Charity covers a multitude of discretions, Sir Egberts remarks, at the same time admitting that his past has not been wholly free from blemishes, and Betty accepts his final proposal, which is influenced by the boys who, knowing Egbert's love for their mother, suggest the alliance as a way out.

The play can scarcely be termed convincing, but it was decidedly interesting, thanks to the clever work of Mr. Esmond as Sir Egbert, and Miss Moore in the role of Betty. The rest of the company gave excellent support. The play has many bright lines. When paying the doctor Ethel says: "I feel that running an account with a doctor is like tempting Providence." Cynically or otherwise, she says, "I don't think heaven had much to do with most marriages." Speaking of Ethel, Betty repeats the old equivocation: "She's never been in love, never married. She doesnt know much about life."

SOCIETY BRAND CLOTHES ARE FOR YOUNG MEN

FEATURES

English Woollens, American Styles

Made in Canada. Saving Duty Charges.

LAST SEASON we inspected all the Leading Clothing Houses of Canada, also Society Brand of Chicago in search of new clothing that would interest our customers. We were particularly impressed with Society Brand Clothing for Young Men. We introduced Society Brand Clothing to the Young Men of Peterborough, and its merits were specially recognised. This season we again present Society Brand Clothing, but under more favourable circumstances. A contingent of American Society Brand Designers and Tailors arrived in Canada; huge bales of English Woollens were here in readiness, and Society Brand Clothing, with all its style, splendid tailoring and beautiful finish, improved by the use of English materials, and the price, less the cost of duty, is here for the fitting out of the particular, well-groomed young man. The preference this season is Grey and Brown, leaning towards the rougher weaves, and are shown in splendid variety. Come in and see them. Whether you buy now or latter matters not to us. But we are anxious to have you know the character and quality of these

CANADIAN LEAGUE NOTES

London Advertiser: President Stevely of the London Baseball Club, returned home last night after a three days' stay in Toronto, and announced that he had been dickering for a new third baseman who, if he is secured, will be one of the best in the league. He played in the Western Canada League last season and was one of the best third sackers in that organization. He is not yet a free agent, but it is likely that he will be turned over to the London club in a day or so.

Schedule Ready by March 15.

Mr. Stevely stated that the schedule would be ready by the middle of March and he expected that it would be released about the fifteenth of next month. All the clubs have signed up a number of players and the owners are preparing for the spring training.

Reisling Has Little News.

Manager Reisling has been heard from, but he has little news. He has not completed his spring trip yet, a couple of dates not having been filled. However, he anticipates no trouble in getting these filled and the schedule of his whole trip will be forwarded in a few days. He has practically signed up all the men he intends to before the team reports. He is busy at present making all the arrangements at Marietta, Ohio, for the players' arrivals.

Charity Basket Social.

The Woodmen of the World will hold a charity basket social on Tuesday evening, March 10th. Everybody welcome. Woodmen especially are requested to attend with their lad friends. Will ladies kindly bring baskets. 5d-51-m.w.s.m.t

A Special Meeting.

A special meeting of the Ladies' Auxiliary of the Woman's Foreign Missionary Society of Charlotte Street Methodist Church will be held on Tuesday afternoon, March 3rd, in the Guild room, after the meeting of the Ladies' Aid. Every member is urged to be present.

VICTORIA HEIGHTS

Is now Registered Plan 144 for the City of Peterborough. All sewers, water and light will be installed in Victoria Heights. A number of buildings will be built in early spring, so choose your lot for a choice residence. Good terms. Ask C. J. CARROLL & CO., 372 Water Street. 'Phone 822. Open evenings. We sell the earth.

A GOOD POSTER.

Mr. W. J. Hancock, the local auctioneer, who so successfully conducted the Duffus sale on Friday last, has received several complimentary references, some from out of town, to the poster The Examiner put out advertising it. It was complete in every detail and gave the prospective buyer is comprehensive review as to what was to be sold.

BIG REMOVAL SALE.

Groceries, flour, tea, canned goods, rolled oats, roll wheat, rice, white beans, raisins, currants, olives, black currant jam, other jams, peanut butter, Heintz pickles. Big value in sugar, potatoes, cabbage, turnips, beets, in fact everything must go, so as to save moving to our new store a little further west on Hunter street. Come with your cash. Sale starts at once. Our low prices will startle you. Come early. James R. Bell, 161 Hunter St. west. 'Phone 455.

WINTER UNDERWEAR.

We have a big lot of all kinds heavy weight underwear, which we will sell at low prices. Reg. $1.00 and $1.50 a pair, for 49c, 75c, and 98c.

Great bargains in Sweater Coats, working shirts, overalls, sox, mitts, suits and winter overcoats.

Dressers—We have a big lot on hand, which we will sell very cheap.

2 good ranges and 3 first-class parlour heaters, will sell at a great sacrifice. Come and save money.

We buy anything you may offer to sell.

The Old Country New and Second-hand Store, 199 Charlotte Street.

ST. JOHN'S NOTICES.

Monday, 7.30, Girls' Auxiliary Annual meeting.

Tuesday—2.30, W. A. Sewing meeting; 8 p.m., Evening Service.

Wednesday—8 p. m., special Lenten Service; address by Rev. Mr. Kirkpatrick, Tweed.

Thursday—8 p.m., Evening Service, 8 p.m., Choir practice.

Friday—4.15, Mission Band.

Saturday—9 a.m., Boys' practice; 5 p.m., evening service.

An attendance of over sixty was chronicled at the Men's Bible Class in the upper vestry at yesterday's session.

JUDGMENT DELIVERED.

Judgement was delivered this morning by His Honour Judge Huycke, in the case of Pappas versus Revollos. The case concerned the renting of a shoe shine parlour in Toronto, which Revollos agreed to sell, and Pappas agreed to buy. Judgement was rendered for plaintiff for $400 for a cheque which was admitted as being given but unpaid. The defendant had a claim, which His Honour assessed at $696.37, which was allowed less the $400.

Counsels were: Mr. Godfrey for defendant, and Mr. O'Connell for plaintiff.

IS TRAVELLING IN THE HOLY LAND

Mr. A. F. Calder, Concession street, has received a couple of post cards from Mr. William Pitt of Toronto, who is travelling in the Holy Land this winter. One card is from Naples, and his last from Jerusalem. Mr. Pitt is a great Stoney Lake man. He comes to Peterborough as soon as fishing starts and stays around Eel's Creek until the cold weather comes, when he makes for a warmer climate. He will be back again for fishing this year.

TRANSPLANTING

It will soon be time to plant fruit trees and shrubs so it may be of interest to those whose experience is limited to few a few reminders:

It cannot be too strongly impressed upon all that the success of transplanting is in preparing the soil; it should be sufficiently drained to relieve the roots from standing water, otherwise the plants are sure to suffer. To insure a fine growth land should be in as fine condition as possible, so prepare a rich deep bed of mellow soil.

Prune off broken or bruised ends of roots, as a smooth cut granulates or makes ready to extend quicker than a broken one.

Have a tank or tub filled with water in which put some rich soil and mix it well until it is a fairly thick puddle, then dip in the roots of your trees to be transplanted. Be sure and make the holes large enough to admit the roots without cramping or bending, and deep enough to bring the tree to its natural depth.

The fine surface soil should be used for covering the roots, and this should be carefully worked among them.

If the ground is dry it is as well to pour in some water when the hole is partially filled.

A most important point, and one not to be neglected, is that the ground should be firmly and solidly packed over all parts of the roots by exerting the full weight of the planter upon it, so that there will be no opportunity for dry air or frost to enter, and destroy roots deprived of the full benefit of their natural protection.

Omission to pack the earth solidly is the most frequent cause of failure in planting nursery stock. Fill the holes full enough to be even with the surrounding surface after the fresh earth settles.

Another point to remember is, never use manure in contact with the roots.

When trees or bushes are planted they should be mulched or covered with a layer of coarse manure or litter from one to two feet deep for a space of, say, two feet more in diameter than the extent of the roots. This keeps the earth moist and of even temperature, and is a great aid to success.

Grass should not be allowed to grow about young trees or shrubs, but the ground should be cultivated for at least one foot outside the roots.

If the trees are received in a frozen state, place the package unopened in a cellar, away from frost and heat, until they are thawed out and then unpack.

If partially dried from long exposure, bury entirely in the ground, or place in water from 12 to 24 hours.

"NIMROD."

EASY DISHES.

A dish of hot, well-seasoned tomatoes poured over buttered toast and sprinkled with cheese will make a quick and most tasty luncheon or supper dish.

Milk toast is another easy to make supper or luncheon dish. Add cheese to the whole sauce just before serving, and that makes a change. A little cold ham chopped and added to the white sauce is an acceptable change.

Some cooks have the pepper and salt mixed together in a shaker where it is in reach.

STORING ICE FOR SUMMER USE

We take our ice off a creek supplied from a running spring. Below the spring a dam is built and sufficient earth is scraped away to make a pond deep enough to cut the ice. Thus we have ice near home, while it is nine miles to Lake Simcoe, the nearest large body of water.

We use an ice plow for cutting the one way and saw it the other. We have plowed both ways, but the blocks are rougher and more difficult to pack in the ice-house. For any community that stores 3,000 or 4,000 blocks of ice, I would advise that they buy an ice plow. We can plow enough ice in one-half to one hour to make 1,000 blocks of ice. We have used our plow for nine years, and in one season have used it at Lorneville, Gamebridge, Rathburn, Brechin and Hawkestone; hence a number of communities might cooperate together and use the one plow.

When plowing we clear away the snow for about 100 feet square, or if on a small pond the whole width of it and as far back as we think we can take the ice out on that day. We then plow, making the plow cuts about 16 inches apart. Again we shovel off the snow the plow has made and saw across the plow cuts, being careful to cut at right angles otherwise the blocks will be more or less diamond-shaped and difficult to pack. We use an ice chisel to break the blocks apart. We always leave two rows of ice (two plow cuts) to give the horses room to start plowing again. We make the blocks about 16 inches each way, but if the ice is shallow we make the saw-cuts 20 or 22 inches apart, but the plow cuts are always 16 inches. If the blocks are too large the work is much harder. We pull the ice out at either end but not over the plow cuts. Care must be taken not to splash water into the plow cuts or they will freeze and be no good.

When pulling the block out of the water it is easier if one gets the bottom of the block towards him at the edge of the ice, then catch the block with the tongs about the centre or a little nearer the top, then give an upward, inward pull and the block comes over the edge with a rolling slide. This operation is difficult to describe clearly, but the man who never did it always makes hard work for himself until he is shown the easy way.

When hauling we use a platform rack made of plank, 12 by five feet, at each end, and on the sides two by four-inch scantling are bolted and the blocks are placed inside of those; this prevents the ice from slipping. If this is not a large enough load the first layer is placed with the slush side up, while the second layer is placed with the slush side down and it does not slip off, especially if the ice is just pulled out of the water.

When packing the ice in the ice-house the blocks are placed as closely together as possible, keeping the slush side up. We pack from six to 12 inches of sawdust all around the edge, while we put from one to two feet on the top.

—Farm and Dairy

SHEEP NOTES

Make all changes gradually.

You won't gain anything by crossing breeds.

Sheep like upland pasture. They need dry footing.

Wet or muddy yards are breeders of foot diseases.

What's the good of a salt box if you don't keep salt in it?

Give your boy a lamb, and he will soon get interested in sheep.

Remember that the lamb crops depends upon the care of the ewes.

Give your sheep good feed and care and they won't need condition powders.

Don't buy a new ram unless you are sure he is better than your old one.

The farmer who tries to raise lambs without roots and clover makes a mistake.

The lamb makes the sheep, and good care or lack of it produces a valuable animal or a scrub.

Don't stack straw where the sheep can get at it. They will fill their fleeces with chaff, which will injure the value of the wool.

See that the water trough, spring or run furnishes plenty of pure, fresh water. Don't make your sheep drink green, slimy water.

Keep an eye out for a good ram, if you need one this year. Don't wait until the breeding season is on, or you might not get just what you want.

It isn't always safe to buy a show ram; he is probably fitted up for the occasion. You will get better results from one that is well bred and in good thriving condition. Good breeding and individuality are the things that count with a ram.

—Farm and Dairy

TORONTO SOCIETY OFFICIALLY WELCOMES THE TANGO—Although banned by ecclesiastical authorities of Montreal and other Canadian cities, the tango, hesitation waltz, and other new dances were given the unqualified approval of Toronto Society on the evening of February 24th, the day before Lent commenced, when they made their appearance at the Rose Ball, given by the Imperial Daughters of the Empire, and considered to be the premier society function of the season in Toronto. The new dances were on the programme as waltzes, but the newspapers agreed that the "tango" was the popular dance of the occasion.

COMMON WEAKNESS.

An interesting light is thrown on the purely human side of the late Edward VII of England, by a story told of his inability to resist the temptation to appropriate a particularly good anecdote.

Some told a delightful story to one of His Majesty's young nieces. "That is capital," she said. "I must tell it to the king."

"No," she instantly added, "I won't, for if you tell uncle a good story he forgets it in a day or two that it was told to him and goes about repeating it to every one as his own.

Traces of radium have been discovered in the interior of Madagascar, and a company has been formed to exploit the deposits.

A REAL NERVE AND BODY-BUILDING MEDICINE

We believe Rexall Olive Oil Emulsion is the best remedy made for toning the nerves, enriching the blood, building up wasted tissues, restoring health, strength and energy—the best medicine you can use if you are run-down, tired-out, nervous and debilitated, no matter what the cause. It doesn't depend for its good effect upon alcohol or habit-forming drugs, because it contains none. It may not make you feel better in a few hours, but it will make you feel better, we are sure, just as soon as the tonic and food properties it contains have a chance to get into the blood and, through the blood, into the rest of the system. Pure Olive Oil and the Hypophosphites have long been endorsed by successful physicians, but here, for the first time, they are combined into one preparation which, as a nerve-food and a builder of strength and health, we believe, has no equal.

If you don't feel well, begin taking Rexall Olive Oil Emulsion today, and build your health and strengthen your system against more serious illness. To convalescents, old people, puny children and all others who are weak, run-down or ailing, we offer Rexall Olive Oil Emulsion with our personal promise that, if it doesn't make you well and strong again, it will cost you nothing. If we didn't have the utmost faith in it, we wouldn't offer it with this guarantee, nor even recommend it to you. We are sure that once you have used it you will recommend it to your friends, and thank us for having recommended it to you. Sold only at the more than 7,000 Rexall Stores, and in this town only by us. $1.00. —McDermid & Jury, E. L. Payne, Peterborough, Ont.

BELLS HAVE PLAYED MANY PARTS IN WORLD'S HISTORY

None Are Made in Canada—Bells Have Ushered Princes Into the World and Tolled Mournfully Over the Tombs of Earthly Kings—The Bells in St. John's Anglican Church.

"Ring out wild bells to the wild sky."

Bells have played a part, more or less tuneful, in the lives of most men. The old Romans were chased to the public baths by the clanging of bells, and to-day, kiddies are called to school by the same sounds.

Bells have ushered princes into the world, and tolled mournful over the tombs of earthly kings. The poor man tumbles out of bed when the bell on his alarm clock begins to ring, and the rich man slides downstairs to a 10 o'clock breakfast at a similar signal. Wedding bells fill women's hearts with joy. Railway bells at the railway stations make men swear in their sleep. The Curfew Bell sent men and women scurrying to their homes in ye olden days; noisy changing bells brought Peterborough citizens out of their beds to celebrate the capture of Pretoria a week before the event came off. But the ringing you hear in your head sometimes merely denotes biliousness.

NONE MADE IN CANADA.

By the way, there are no bells of any size manufactured in Canada. Most of those used in the public schools come from the States, C. S. Bell, of Hillsboro, Ohio, supplying most of them." Bells imported by local contractors are in two classes, cast steel and copper alloy. The former are the cheaper of the two classes, and are chiefly supplied to country schools and churches. Cast steel bells couldn't be made into medals, such as it is proposed to make of the old bell at Carlton school. The bells in the tower of St. John's church came from Loughboro', Leicestershire, England. The average school bell measures 24 inches across the base, and weighs 152 pounds. A bell of that size costs about $25. The average single bell used by churches runs from $50 to $200, according to the metal used in its manufacture.

Pope Sabinianus first introduced church bells in 604, and if he heard some of those used by mission churches to-day, he would wish he hadn't.

HOW THEY ARE MADE.

The manufacture of bells is simple. What is known as "bell metal" is used, a pure mixture of copper and tin, in proportion of 4 to 1. Zinc, lead and copper are used in small bells. Bells, dinner and funeral, are cast, the metal being boiled and run into moulds. It takes several weeks for a large bell to cast. A good bell, when struck, yields one note. It is tested by tapping, and toned down by filing. Some bells we hear round Peterborough suggest that a few more taps might put them out of business, which would be a great blessing.

LARGEST IN WORLD.

In olden times, the chief bell in the Cathedral belonged to the town, and the man who owned the bell bossed the situation. After a battle the conqueror used to melt the captured cannon down, and make bells to ring, by way of filling the hearts of the vanquished with joy. We learn that many a pretty but bloody chapter in history has been rung in and out by bells.

The largest bell in the world is at Moscow, weighing 128 tons. The great bell at Peking comes next at 53 tons. Big Ben in Westminster clock tower (cracked by the way) weighs only 14 tons. Other famous bells are those passengers hear on street cars, but which are occasionally missed by the motorman. Half hour bells at sea keep sailors up to time, and the most tuneful bell in the navy is that which summons the jolly tars to "grog." A few others we might mention are the yard bell, factory bell, jail bell, door bell.

Then, of course, there's the blonde, or brunette belle.

A LOVELY OPERA CLOAK.—Of simple design, but attractive contour. The new Sau Toy fabrics or linens are suitable for this make-up.

WANT 'PHONES NUMBERED

A Petition May Be Presented to the City Council Recommending Such a Course

A petition may be presented to the city council, asking that the Bell Telephone Company be requested to number each 'phone on instrument. At the present time persons using telephones, and not knowing the numbers, are often put to considerable trouble looking up the directory to ascertain the number, for return calls. In the same way, many people call a number and the telephone girl gives them a wrong connection. They ask the party at the other end of the wire what number they have secured and that party, if not familiar with the number, has to look it up. In this way much time is lost.

Again, if a person calls a number, and asks for a certain party, and that party is out, a request is left for the absent one to call such-and-such a 'phone. If the first party does not know the number of the 'phone through which he is speaking, more time is lost in looking it up.

It is urged that it would be little trouble, and would not mean an appreciable expenditure for the company to follow out this suggestion. The result would be a great saving in time and convenience, and without doubt would be very highly appreciated by subscribers.

Most people would be benefited by the occasional use of
Na-Dru-Co Laxatives
Gently, thoroughly, and without discomfort, they free the system of the waste which poisons the blood and lowers the vitality. 25c. a box, at your Druggist's.

Stray Shots From the Firing Line

Class of Instruction.

There will be a class of instruction in cavalry work held this evening at the Armouries, under Sergt. Instructor Spalding of the Cavalry Barracks, Toronto. The classes are of avery interesting nature and anyone who is interested in the work is asked to be present at 8 o'clock.

At Petawawa Camp.

The commanding officers of infantry units of the 3rd Division are being queried as to whether the officers and men of their commands would favour the proposal to take the regiments to Petawawa for the annual two weeks' training period next summer, instead of Barriefield. It is understood there is a suggestion to form a composite brigade of the city corps of the second, third and fourth divisions also to train at Petawawa for a brief period. It is not considered likely that the 16th, 40th, 42nd, 45th, 47th, 49th and 59th Regiments prefer Petawawa.

Divisional Orders.

In the Divisional Orders of the general staff, dated February 3, the attention of officers commanding units is invited to Par. 624, K. R. & O., Canada, which reads as follows: "Non-commissioned officers recommended must have completed at least twelve months' service in the corps to which they belong, and must have attended the last annual training of their corps, except in special cases, when the commanding officer will be required to add to his recommendation his reasons for wishing to send individuals who have not complied with the above conditions."

Re Caretakers.

According to the Divisional Orders of the same date, notification has been received from Headquarters, Ottawa, that the following qualifications are required of applicants for the position of caretaker in drill halls, viz.: 1. He must be of good character, an active, industrious, thoroughly temperate and sober man and must be satisfactorily recommended. 2. He must be an active member of the local corps. 3. He must understand the care of arms and clothing. 4. He must qualify to be able to drill a cadet corps or an infantry company.

City Corps

Orders have been issued from headquarters with reference to the training of the city corps. It practically leaves the training in camp for these corps optional. If they go to camp they are allowed eleven days at their headquarters, three days' training and two days going and coming, making sixteen days in all. The city corps who drill at headquarters will be allowed the usual twelve days. The city corps of this division are not a unit as to the place where they would prefer to perform this training in camp, some desiring Petawawa and some Niagara. So far as ascertained the minority favour the latter, and it may end in this place being selected

A Composite Regiment

As only a composite regiment could be sent to Petawawa it would be folly for a commanding officer to split his regiment after having had all the trouble this last three years of inducing his men to arrange to go to camp, now when it is being pretty generally understood it would cause no end of trouble to change it.

Breakages

In future the members of the active militia using the Armouries for the playing of indoor games must expect to pay for glass and other things broken, as the Minister, while desirous of encouraging these games, is of the opinion that such breakage is not a fair charge against the public.

A sanitary guard has been invented to prevent persons handling spigot outlets.

Waterproof knapsacks made of horse hair have been invented by a Japanese army officer.

Bad Blood

is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The undigested food and other waste matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidneys, giving them ease and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health take

Dr. Morse's Indian Root Pills

Took Carbolic By Mistake.

SARNIA, March 3.—Miss A. R. Mudie of this city lies at her home in an unconscious condition, the result of making a mistake yesterday morning in taking a dose of carbolic acid for medicine. Immediately after taking the poison she ran to the home of a neighbor. Doctors were summoned. The unfortunate woman's mouth and throat were terribly burned and within a short time she lapsed into a state of unconsciousness, and is still in that condition.

To Sentence White Slavers.

CHICAGO, March 3.—Charles and Zoe Wilson, Elias Willard, whose conviction under the Mann Act in the Federal Court here recently was affirmed by the U. S. Supreme Court yesterday, were remanded to the county jail to await sentence. Their appeal resulted in the affirming of the validity of the Mann Act. They were unable to furnish bonds of $15,000 each.

GRANDFATHER CLOCK.

Grandfather clock is company,
Both night and day he speaks to me.
He tells me the time, one, two, three,
My clock is good company.

Grandfather clock stands in my hall,
He looks graceful and very tall
And gives his company to all.
My clock is good company.

Grandfather clock at my front stairs,
As I pass by, on me he stares,
And seems to me to put on airs,
My clock is good company.

My grandfather clock is sublime,
At night and day I hear him chime,
And tells me just the exact time,
My clock is good company.

At night when I wake from my sleep,
And just before the daylight peep,
Into my room his voice will creep,
My clock is good company.

And when I enter my hall door,
And stand before him on the floor,
He welcomes me home, I am sure,
My clock is good company.

From the floor my clock stands quite high,
Oft when I pass he says good-bye,
Up at his face I cast my eye,
My clock is good company.

Both young and old are born to die,
To see Gods face we all should try,
Under the sod our bodies lie,
God grant us thy company.

JOHN BELL,
Peterborough, March 2nd, 1914.

Married In Lindsay Jail.

LINDSAY, March 2.—Esther Edna Warwick, of Vensleu Falls, was married to Frank York in the waiting-room of the jail, the ceremony being performed by Rev. Mr. McConachie, curate of St. Paul's Church.

About a dozen persons witnessed the unusual event, and before parting they wished them health and happiness in their new state of life. The groom will honeymoon for three months in the Central Prison, while the bride, who has no living relatives in Canada, will return to her home in Venelon Falls to await her husband's return.

Service

Is Our Watchword

in the examination of the Eye—in the fitting of the proper Glasses—in the eye-glass mount or frame we fit you with.

Having one of the most up-to-date Lens Grinding Plants in Ontario we are in a position to duplicate almost any lens in one hours time. This SERVICE is worth something to you in case of an accident to your glasses.

We use "PEBLO" Quality Glass in all our work, it's the finest quality manufactured.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glenford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion."—Mrs. HENRY CLARK, Glenford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."—Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

OUR STORY PAGE

"THE FREE RANGE"

By ELWELL LAWRENCE

(Continued from yesterday.)

"I don't know whether to tell you the rest or not; it isn't what I would want anyone else to tell you, even about a perfect stranger; but I think it is right you should know everything if you know anything."

The girl nodded without speaking. "In the loan-shark office was a pretty little girl, and Lester thought he fell in love with her. She had a red-headed cousin and an admirer named Smithy Caldwell, who belonged to a tough gang on the South Side.

"The girl was fond of Lester for a while, but she wouldn't forsake her friends as he ordered her to, and they quarreled. Her name was Mary, and after the fuss the three friends, together with the loan-shark people, played Lester for a gilt-edged idiot, basing their operations on alleged facts concerning Mary. In reality Smithy Caldwell had married her in the meantime, and Lester eventually proved he had always treated her honourably, though now she denied it."

"Poor, innocent boy i the hands of those blood-suckers!" cried Juliet compassionately.

"Naturally driven frantic by fear of exposure and the resulting disgrace of the whole family, the boy lost his head and tried to buy his persecutors off. And to do this he took money out of the safe. But what is the use of prolonging the agony? Finally he forged my father's signature, and when the check came back from the bank he tried to 'fix' the books, and got caught.

"I'll pass over everything that followed, except to say that the disgrace did not become public. But it broke father's heart and hastened his death. When that occurred it was found that practically all the estate had come to me, and this fellow Smithy Caldwell threatened to disclose the forgery if I did not buy him off.

"That scared me because I was now the head of the family, and I handed over two thousand dollars. Then I came West, and thought the whole matter was buried until Caldwell turned up at the Bar T that night for supper.

"That's about all. You see, it's an ugly story, and it paints Lester pretty black. But I've thought the thing over a great many times, and can't blame him very much, after all, for it really was the result of my father's stern and narrow policy. The boy was in his most impressionable years, and was left to face the music alone. It seemed to age him mightily."

"But what will happen now?" asked Julie anxiously. "Aren't the other two still alive? Can't they make trouble?"

"Yes, but I don't think they will. I have the drop on Smithy now, and he will either write a full dismissal of the matter for all three of them or he will swing with the rustlers. And if I know my Smithy Caldwell, he won't be able to get pen and paper fast enough."

"But can you save him, even at that cost, do you think? The cowmen won't understand all this."

"That will rest with your father, dear," replied Bud, getting to his feet. "Now, let's go over and see him, for I have something else I want to ask him."

His face that had been clouded during the recital was suddenly flooded with the sunlight of his smile, and Julie realised for the first time what it had cost him to lay bare again these painful memories of a past he had sought to bury.

When he had helped her to her feet she went to him and laid her hands on his shoulders, looking up into his face with eyes that brimmed with the loosed flood of her love, so long pent up.

"Can I ever be worth what I have cost you to-day?" she asked humbly.

Tenderly he gathered her to him.

"In love there is no such word as cost," he said.

CHAPTER XXV.
THE THREADS MEET.

It could not have been later than ten o'clock in the morning when a puncher with sharp eyes might have seen two figures approaching the Bar T ranch house on horseback. They rode needlessly close together and swung their clasped and gauntleted hands like happy children.

One was a girl into whose radiant eyes a new wonder had come, and the other a handsome, tanned young man bathed in a deliriously happy expression.

"Isn't it jolly to be married without anyone's knowing?" cried Julie. "Oh, but won't they be surprised at home?"

"Rather!" remarked Bud, with a sobered expression. "I only hope your father doesn't widow you just as I ride into the yard with the olive branch."

"Stop it, Bud! What puts such awful thoughts into your head?"

"Experience. Your father was so mad about my getting the sheep across the river that he started his punchers walking home the same night, and nobody has seen him since."

Larkin spoke the truth, but little exaggerated. Beef Bissell, humiliated, beaten, and forced to accept the small end of a deal for once in his life, had started from the useless cowmen's camp by the Grey Bull the very night of the crossing. He ordered the men to follow and round up their stampeded horses and then to ride home.

Meanwhile he appropriated one horse that had not been in the corral and trotted homeward, eaten by chagrin and beside himself with impotent fury.

Bud and Julie had found this out the day of their talk concerning Lester, when they forded the stream on horses and asked for Bissell. Under the circumstances Bud developed a genius for inspiration that was little short of marvelous.

"What's the use of riding all the way home and having a grand row with your father?" he asked. "Why not go over to Rattlesnake, where there's a sky-pilot, and be married? Then we'll go home, and there can't be any row, because there will be only one party in the mood for it."

But the girl demurred. It was cruel to her father and mother, she said, not to have them present on the greatest day of her life. She allowed it was mighty ungrateful after all they had done for her. Then Bud took her hand in his and told her his principal reasons.

"I'm a busy man, honey, and I've got to start north after Simmy and the sheep in three or four days," he said. "Shearing is late now, but I guess we can make it. This trouble has set me behind close to fifteen thousand dollars, and everything is in a critical state.

"I know it don't sound much like a lover, but as soon as we get on our feet we'll take a honeymoon to Japan that will make you think I'd never heard of a sheep."

"You want your mother and father in on the joy, I know, but it doesn't seem to me there can be much joy with nine or ten men sitting around waiting for their necks to be stretched. Does it to you?"

"No," said Julie, and shuddered. "Then come along over to Rattlesnake and be married. Then we'll ride back to the Bar T, so you can see your folks, and I can see Caldwell. We can be through and away before anything is really done about the rustlers."

So it was arranged, and the two were married by an Episcopal clergyman who had a surplus, but no cassock, and whose trousers looked very very funny moving about inside the thin, white material, and Juliet nearly laughed out loud.

After the ceremony they had ridden out of town with their equipment and made their first honeymoon camp in a cool, green place beside a little brook that had trout in it and sang to them for hours on end.

Now, the day afterward, they were on the way home, and not without a few secret misgivings.

As they neared the Bar T a single man rode out to meet them. It was Lester, who had come the night before and was waiting for Bud, so as to be present at the interview with Smithy Caldwell, whom he had not yet seen.

He congratulated the pair warmly and rode with them to the corral.

Suddenly there was a shriek, and Martha Bissell tore out of the cookhouse. She ran to Julie, kissed her, and welcomed her back; then when she heard the news she picked up her apron to start crying, and dropped it again, undecided what to do.

What with Bissell's safe arrival and Julie's glorious home-coming the poor woman was nearly out of her mind.

The excitement brought Beef Bissell around the house from the front verandah, where he had been grumbling and swearing all the morning. At sight of Larkin he halted in his tracks and began to redden. But he got no farther, for Julie flung herself into his arms, tears of happiness streaming down her face, and overwhelmed him with caresses.

Bissell was mightily relieved to see her. In fact, it had been all his wife could do to restrain him from starting out to unearth Julie when he arrived home and found her gone. But Martha said that the girl had gone to find Larkin, and added that the two, were old enough to settle their troubles between them. So Bissell, remembering his last miserable interview with his daughter, decided not to interfere.

"Father, I'm married; please be happy and good to me," the girl said, clinging to him, and the fury that had flown to his head like wine died a natural death. After all, to see her happy was what he most wanted.

"Are you sure he will love you always?" he asked gently.

(To be continued.)

WEAKNESS AND PALPITATION OF THE HEART.

When the heart begins to beat irregularly, palpitates and throbs, skips beats, and sometimes seems to almost stop, it causes great anxiety and alarm.

Many people become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills are a specific for all weakness and heart disorders, and are recommended by us with the greatest of confidence that they will do what we claim for them.

Mrs. George Burridge, Coboconk, Ont., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all with heart or nerve trouble."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited Toronto, Ont.

THE DOCTOR SAID "I CAN'T HELP YOU"

Suffered 10 Months with Kidney Complaint. Gin Pills Cured.

Duxvegan, Inverness Co.

I am perfectly cured of Kidney complaint after using Gin Pills. Six hours after taking the first Pill I obtained relief, and now after three months I feel as well as ever.

I suffered ten months and the Physician attending me advised me to go to the Victoria Hospital at Halifax, as he could do nothing more for me. I may add that I used a great deal of medicine, and strictly followed my physician's directions regarding diet, etc., but without avail, until providentially I learned of your most excellent remedy. I am recommending Gin Pills.

(Sgd.) LEWIS MACPHERSON.

Sold by druggists and dealers everywhere at 50c a box—6 for $2.50, or sent direct. Write for sample, free if you mention this paper.

The Skin Troubles of Childhood

School Records Show Much Time Lost From Eczema.

Chafing and skin irritation, whether from changing temperature, rough winds, strong soap or the action of the clothing, naturally develop into eczema, spread over the body and defy ordinary treatments.

Most doctors do not give much attention to skin diseases, and, consequently, it is necessary for parents to select some treatment which has proven a cure for such ailments. If records of cures count for anything, then you can turn to Dr. Chase's Ointment with fullest assurance that in this you will have the means of controlling itching skin diseases.

By affording prompt relief from the terrible itching, Dr. Chase's Ointment puts an end to suffering, and removes the cause of scratching. As the fires of eczema die away the ointment sets up the process of healing, and brings about thorough and lasting cure. As a treatment for the skin troubles of children nothing has ever proved so satisfactory as Dr. Chase's Ointment.

No More Footprints.

For the old days we must grieve.
Statesmanship was then sublime,
And a statesman tried to leave
Footprints on the sands of time.

Few to footprints now aspire.
Surely life much savor lacks
When a statesman's one desire
Is to cover up his tracks.

—Judge.

Last Opportunities.

Yeggman—There's a twenty dollar reward offered for me arrest, Maggie!

His wife—Gee whiz! An' to t'ink I could have married a guy dat dere was a t'ousand offered for!—Kansas City Star.

Try This Home-made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix two cups of granulated sugar with 1 cup of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else ever used. Usually ends a deep-seated cough inside of 24 hours. Splendid, too, for whooping cough, croup, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready made for $2.50. It keeps perfectly and tastes pleasantly.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the natural pine elements, which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful formula has never been equaled.

A guaranty of absolute satisfaction or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not send to The Pinex Co., Toronto, Ont.

Woman's World

Mrs. M. McCormick, Suffrage Chairman.

MRS. MEDILL M'CORMICK.

Mrs. Medill McCormick, prominent society woman of Chicago, and a leading figure in suffrage circles, recently accepted the chairmanship of the congressional committee of the National Suffrage association.

It was said that Mrs. McCormick would go to Washington immediately to assume the duties of her new office.

The Woman Who Keeps on Trying.

They put on the tombstone of a Massachusetts woman. "She tried to do what she couldn't." The epitaph might be considered humorous, but read in another light it seems to point to a splendid quality in character.

Pride often keeps a woman toiling and thinking beyond her strength for the benefit of others. She refuses to surrender. Her life means nothing to her except as it is given day by day to those she loves. For them she makes a continual sacrifice and denies herself and takes up her cross. She does not tell all she feels and knows. She has learned to suffer in silence and to communicate her joy. The sympathy of such a woman counts, for, like Dido of Carthage centuries ago, she has been through tribulation herself, and therefore she knows how to be the comfort and the stay of others.

The woman who continues to do her best in adversity inspires others, though she may not know it. She is as a shining beacon set on a hill in the darkness of other lives. They argue that, as she is strong and brave and not to be defeated, what woman has done woman can do. Even though it should cease to be worth while to try on one's own account, it is always worth while to persevere for the sake of those who might give up if we surrendered.

Montessori's Farewell.

Dr. Montessori came to America to explain her educational system, and to learn. What she says of America may help us to understand all peoples and ourselves. Says this gifted observer:

"Your wonderful country is one of the hopes of the civilised world. The feel of youth is in the air and the soil.

"You will rear here the greatest race that the world has ever known. It is in your blood.

"The mixing of the people of the earth will produce a great posterity.

"I must bow with humility to the American mother. She is one of the great wonders of your growing race."

This tribute to the American nation is well deserved. And that a great teacher expresses it adds to its emphasis. The American mother is all right. Let her critics cease their railings!

Dress Bags.

In the average house closets are not built to eliminate the dust of the atmosphere. It is for this reason every suit and gown should have its own case or covering. The case should be made a little more than the width of the hanger to slip the dress or suit into. They can be purchased for $1.50, but why not include them in one's handiwork for spare moments? Have the opening of the bag about fifteen inches from the hanger.

This opening might represent the joining of the cloth with the upper part lapping over a good two inches. For convenience make have a lengthwise opening of eight inches. Fastenings may be by tape or buttons and buttonholes. The length of the bag depends upon whether it is to be used for suits or dresses.

Tomato Seed Oil.

An excellent burning oil has been extracted from tomato seeds. These, with the skins, are thoroughly dried in the sun. The seeds are then crushed in a hydraulic press and yield a thin yellow oil. This when burned in a lamp gives a bright, odorless light.—London Mail.

Made Him Too Good.

"So she married him to reform him. And what is the result?"

"He's so good now that he's shocked by the gowns she wears."—Boston Transcript.

It is the surmounting of difficulties that makes heroes.—Louis Kossuth.

Peterboro Branch, Geo. St., G. C. Wainwright, Manager

Remarkable Achievement.

He climbed a mountain steep and high
That no man climbed before.
He went away to do or die
Where foemen's cannon roar.
He learned to fly in a machine
And daily risked his life.
When death he thus had often seen
He went and took a wife.

Not once in all his bold career
Had he been beaten down.
Of fiercest foes he'd shown no fear.
He'd dared stern nature's frowns.
He'd never failed to boss his crew,
No matter what their will.
He made men low or lofty do
The thing he wanted still.

He was, indeed, a man of vim.
Courageous, strong and proud.
You would not fail to single him
From out the common crowd.
He took a wife—ah, so it goes!—
His life to make or mar.
He bossed his wife! My story shows
How great some great men are.

—Chicago News.

Embarrassing Generosity.

"You don't feel quite sure of your wife's affection?" said the very confidential friend.

"Not quite."

"But she is always lavishing expensive presents on you."

"Yes. But the presents do not denote the solicitude for my comfort and safety which I should like. First, she gave me a polo pony; then she gave me a racing automobile, and now she is trying to persuade me to accept an aeroplane."—Washington Star.

"Too Old."

Eighteen today! Why, it seems to me
But a little while ago
When I held her, a tot, upon my knee.
Ah, how the youngsters grow!
And where am I if she's eighteen?
For she was a child of eight
When twenty summers I had seen
And laughingly said I'd wait

But she should be old enough to wed.

Too Much Too Old for Me.

By that time, sir," she wisely said.
But today I bend the knee
Before this sweet and radiant thing
And implore her to be mine.
She shows me Croesus' engagement ring,
And Croesus is sixty-nine!

—Puck.

Slight Mistake.

The sweet young thing had heard people talk about microbes in kisses, but had never heard of them being mixed up in greenbacks. She was at the bank, drawing money.

"Are you afraid of microbes?" asked the facetious cashier, as he produced the bills.

"Oh, did you intend kissing me?" giggled the sweet young thing.—Yonkers Statesman.

Regrets.

Last summer on the sounding beach
We walked together, hand in hand.
Around us far as eye could reach
Only the sea, the rocks, the sand.
And when we told our tender love
The world was ours by right divine,
The sea beyond, the sky above,
The rocks, the sand, were hers and mine.

She was a daughter of the rich,
And I a clerk of low degree.
She found out that we couldn't hitch
And took her love away from me.
Our kingdom now is rent apart,
And left in sorrow I repine.
Presuming, I, to seek her heart—
The seals were hers: the sand was mine!

SOCIAL PARADISE.

Owning a Parterre Box in New York's Opera House.

MERE MONEY CANNOT BUY ONE

It Takes More Than Wealth to Enable an Outsider to Break Into the Famous and Ultra Exclusive "Golden Horseshoe" at the Metropolitan.

Anybody with money enough can become the owner of the costliest art treasure in all the world if it is for sale. Anybody can have the finest yacht or the biggest fifth avenue mansion or the longest string of matched pearls. This means more money.

But the attainment of a box at the opera is without irreverence about as near achieving the kingdom of heaven on earth as it well can be. Riches alone cannot buy entrance therein.

Not one millionaire in a hundred owns a box at the opera.

Why?

Just jot down these symbols:

$$\frac{N}{25} = \frac{M\ (a+b)c}{\text{———}}$$

Here we have social New York's chiefest problem expressed algebraically. "X" is the unknown quantity for which a given value is required. "N" is the uncertain quantity which the mathematicians call a "variant," and "a," "b" and "c" are the known quantities which can readily be ascertained by referring to the real estate records on file in New York city.

In a word, when the rich man solves it he knows exactly how much a box at the opera costs to own outright, in fee simple, he and his heirs and assigns forever, if he has the value of "N."

The correct answer has only been reached five times in thirty years! Strangely enough, too, this right result each time is never the same. Each solution, where "N" has been properly found before the lucky solver begins on his problem, gives higher figures than the one before.

Today the correct answer is $120,000, the price for which one of the coveted boxes was recently sold.

The symbol "N" means, in a word, the approval of the board of directors of the Metropolitan Opera. If you can possibly get it and have the $120,000 lying idle to boot, then you can become the proud possessor of a box at the opera—the one and greatest desideratum of those who would have impeccable social prestige in New York, which means everywhere. It also means that boxes in the "golden horseshoe" are the costliest of any opera house in the world. The right to have your six places at every performance of the opera is a mere adjunct to the ownership. It is the fact that you, personally, own the box which is the acme of the whole transaction. It means that your social standing is A1, flawless, unimpeachable, unassailable, wholly perfect!

Now let us get right down to figures and solve our problem of the opera box. We must assume, of course, that we have "N" figured down to a nicety—that is, we have the unqualified approval of the directors of the opera, the hardest quantity of all to obtain.

Our known quantities are a matter of record and easy to obtain to the last penny. We find, then, as follows: Our "a" is the value of the building; our "b" is the value of the land; our "c" is the mortgage upon the property as a whole. And the divisor, 25, is the number of boxes in the parterre at the opera, of which there can be just thirty-five, no more and no less.

So, we can now substitute figures for our algebraic symbols or letters and work out the problem by simple arithmetic. The building is figured at $1,000,000 and the land at $3,500,000. Besides this, there is an equity in a loft building where scenery is stored, which is figured at $100,000. You have just as much a share in the dingy loft as you have in your brilliant red and gold box at the Metropolitan Opera House. So the total real estate value is $4,600,000. From this you must subtract the mortgage, which is $1,000,000. Our result, then, is $3,600,000. Now, divide this by 35. We get $102,857. That is the cost price of a box at the opera. The balance is the seller's profit.

Look to this fact the remaining original box holders of thirty years ago have quadrupled their money. They chipped in $75,000 apiece then, and now their individual holdings are $120,000 each and growing every season. Their name ever parts and never from his box, and there it stays in the family three times out of ten. Why?

Simplest thing in the world—became the box is sure of a handsome income every year. A man could hire to style from what his box at the opera would bring him if he had to.

Monday is the gala night of the week at the opera. A choice box—and they are all choice except that some are choicer than the rest for ocular or auditory purposes—can be rented out at a moment's notice for $3,000 for just the twenty-four Monday night performances. There are 120 nights and matinees of opera—five performances a week for twenty three regular weeks and an extra week. So ninety-six performances are still left after you have taken in your $3,000. Sell your tickets dirt cheap for these, say $1,000 for the six sections, and you have $3,000 more, or $12,000 income in all. Throw off the $600 for commissions and you have a net income of $12,000 from your tickets, or $1,000 a month.—New York World.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grape and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Current Comment.

One vainly searches the histories of Mexico for the word "antebellum."—Columbia (S. C.) State.

In spite of all the difficulties experienced in regulating railroads, Alaska wants one.—Washington Star.

The kaiser refers to the statutes of 1280 to uphold his militarism. He must have made a superficial search—those of 1280 would yield him better copy.—New York Sun.

It is reported that Premier Asquith has a plan for the elimination of the hereditary peerage in Great Britain. There seems to be at least one Englishman who doesn't love a lord.—Chicago Record-Herald.

Fashion Frills.

Paris says new gowns will be more decollete. Well, that's better than taking any more off the other end.—New York American.

The business of selling haberdashery in this country seems to be based on the theory that a man can wear any kind of a hat.—Philadelphia Ledger.

Report from Paris that women of fashion are to wear "muffs on their legs" shows the skillful way in which modistes can lay a foundation for selling leggings under a new name and getting fancy prices for them.—New York World.

Aviation Notes.

Russia is the first country to adopt, in addition to her land and sea flags, an aerial flag for aeroplanes.

The erection of an extensive aerial station midway between Berlin and Vienna is expected to lead to regular aeroplane service between the two cities.

French scientists are now discouraging aviation loops in the air. They say that the "loop the loop" in a monoplane only puts aviation again on the level where its friends prefer it should not be—"the level of a circus performance."

TOOK SEVERE COLD.

Left A Terrible Hard Cough And A Nasty Tickling Sensation in The Throat.

A bad cough accompanied by that distressing, tickling sensation in the throat is most aggravating.

Dr. Wood's Norway Pine Syrup is rich in the lung healing virtues of the Norway pine tree, and for this reason it will stop that tickling in the throat which causes that dry hard cough that keeps you awake at night.

Mr. Sanford Roode, Antrim, N.S., writes:—"Last fall I took a severe cold which left me with a terrible hard cough and a nasty tickling sensation in my throat. I tried many cough medicines, but they did not help me so I got a bottle of Dr. Wood's Norway Pine Syrup, and before I had used half of it the cough had left me, and the next one made a complete cure, and I will recommend it as the best cough medicine on the market."

See that you get "Dr. Wood's" when you ask for it. Do not accept substitutes. The genuine is put up in a yellow wrapper, three pine trees the trade mark, price, 25 and 50c., and manufactured only by The T. Milburn Co. Limited, Toronto, Ont.

They warm and strengthen

SIRES AND SONS.

Mayor Baker of Cleveland says he will not be a candidate for re-election in 1915.

Charles Adee has resigned after forty years as clerk of the board of estimate of New York. He is seventy-seven. He will receive a city pension of $2,000 yearly.

Dr. David Thompson, the senior of Presbyterians among the mission forces in Japan, has now been a full half century on the field. He sailed from New York Sept. 1, 1863.

Jean Henri Fabre, who is now ninety years old, has studied insects and their life so faithfully and has written so well of his observations that he is regarded as the greatest living entomologist.

Henry Clay Folger, Jr., is said to have one of the finest collections of Shakespeariana in the United States. Book collecting is Mr. Folger's avocation; in the business world he is known as the president of the Standard Oil Company of New York.

William J. Calhoun, on whom the president of China has conferred the Chinko decoration of the first class, is former minister of this country in China. He took the post in 1909. The recipient of this honor was born in Pittsburgh in 1848. He studied law and was admitted to the bar in 1870.

Flippant Flings.

A scientific theory that the tonsils were once gills may serve to explain why some men are still as dry as a fish.—Washington Post.

A Chicago surgeon claims to have invented a device to determine whether one is hungry. As for ourselves, we were born with one.—Detroit Free Press.

A man advertised for a wife who would support him and received four answers the first day. And still men allow themselves to be henpecked.—Macon Telegraph.

"Life," says Luke McLuke in the Cincinnati Enquirer, "is a cocktail in which the bitter is blended with the sweet, and woman is the cherry." Some of them are olives.—Boston Transcript.

Absolute silence is the inflexible house rule of a chess club just organized in Moscow, guests being forced to write out orders to waiters. Why, certainly, women are eligible for membership.—Pittsburgh Press.

TREASURES OF THE DEEP.

Some of the Difficulties Which Confront Divers.

Hundreds of millions sterling in gold, silver, copper and precious stones are lying on the bottom of the sea, ready to the hand of the first person who will devise means of recovering them. Inventors in every part of the world—says Mr. F. Parker, writing in The Popular Mechanics' Magazine) are building submarine boats, diving armor, dredging apparatus and other devices, solely for the purpose of finding and bringing to the surface these sunken treasures. The two main problems to be solved are those of protection against water pressure and of providing light in which to work. The latter problem is more easily solved than the former. Modern developments in electric lighting make it practically certain that powerful searchlights can be devised which will give sufficient illumination for salvage operations at depths as great as 400 feet. The other and more serious problem is that of pressure. The ordinary diver's equipment depends upon a constant supply of air pumped in from above, and a rubber suit with a metal helmet, all air-tight, or nearly so, to keep the water from rushing in the minute the pressure the air pumped through the hose becomes less than the water pressure from outside. At 200 feet the water pressure is a little over 86 1-2 pounds to the square inch; at 250 feet it is over 108 pounds; at 300 feet it is 130 pounds—and many of the sunken treasure ships lie at even greater depths. Very few divers have descended as deep as 100 feet. One adventurous young man went down 196 feet in Puget Sound, but on a second attempt his helmet was crushed by the 85 pound water pressure, and he was hauled up dead. Two English naval officers are said to have descended 210 feet, but could remain at that depth only a few seconds. The problem of getting down to the deep-lying treasure ships, therefore, is essentially one of constructing a mechanism sufficiently rigid to withstand the terrible water pressure. It must carry its own supply of oxygen, and it must be so constructed that the diver inside it can accomplish something after he reaches the wreck, even if he can do nothing more than attach a grappling hook to a copper ingot.

Her Name.

One needs patience to succeed as a teacher of the young, as this brief dialogue in one of our elementary schools may show:

Scholar—I've left home now, ma'am. I'm living with my auntie.

Teacher—What's her name?

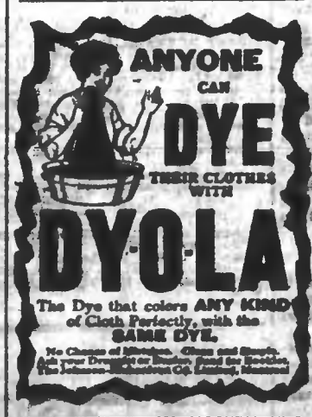
"She's called after me—Fanny."

"Yes, but what's her other name?"

"She has no other."

"But what does the woman next door call her?"

"She doesn't speak to the woman next door."



The finest form in which you can use healing Witch Hazel and Soothing Cucumber. It keeps the skin white, soft and smooth in spite of exposure or roughening work. 25c a bottle, at your Druggist's. 190

NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED, MONTREAL.

Against the Bachelors.

Women in Pennsylvania have begun a campaign against the bachelor legislators. They will ask the voters of the state to substitute married men instead of the unmarried wherever one of the latter has been nominated for congress. There are said to be quite a number of unmarried men at Harrisburg, and it is contended that they do not understand the interests of the home as well as husbands and fathers.

Women to Edit Newspaper.

John C. Shaffer, owner of several newspapers in Chicago, Denver and elsewhere, has bought the Index, a weekly, at Evanston, Ill.

The paper will be run exclusively by women. Miss Hetty Cattell of Denver will be managing editor. There will be a woman sporting editor, a woman city editor, etc.

The Secret of Good Digestion

In perfect health, with regular and healthful action of the liver and kidneys, you need not know there is such a thing as digestion or indigestion. Unfortunately, however, modern life is artificial, and not many people avoid suffering more or less from troubles of this nature.

The great secret lies in keeping the liver and kidneys in health and vigour, for then the food is passed quickly along the alimentary canal, the nutritive portions being assimilated in the blood stream and the poisoned waste materials are passed out of the body.

When the liver and kidneys get wrong you will obtain relief most promptly and effectively by using Dr. Chase's Kidney-Liver Pills. If chronic indigestion is to be cured it must be by enlivening the action of these filtering and excretory organs. To persons who have thought only of the stomach as being the offending organ this may seem strange, but any competent physician will tell you this is correct.

Winter Baseball.

These winter baseball campaigns are exceedingly exhausting on the managers' typewriters.—Chicago News.

It seems the Federals are leaving the Cardinals severely alone. The Feds must be after ball players.—St. Louis Republic.

A woman has presented Cincinnati a painting worth $400,000. And think of how many nifty fielders and star slab artists this sum would buy, and how much Cincinnati needs them.—The Oklahoman.

ANSWER PROMISED.

Holder Affair Will Be Explained When Estimates Are Voted.

TORONTO, March 3.—During the brief sitting of the Legislature yesterday the order paper was cleared of a number of questions put by Opposition members in anticipation of the Budget to-day.

The first of these, concerning the appointment and activities of License Inspector Snider, including his itinerary Jan. 25 to 27, when he had been in Brampton, Wingham, Clinton, Goderich, Ridgeway and Stevensville successively, was given by Hon. Mr. Hanna.

"In this connection I want to say that in supply I shall state what happened and what led up to it," he said. "With the facts all stated no one will question the good faith of any officer of the department."

Hon. Mr. Hearst stated that although no official report had come in yet, he understood that work had commenced upon the Lake Huron & Northern Ontario Railway, but no lands had been sold.

Lieut.-Col. T. R. Mayberry (South Oxford) introduced a bill to amend the Assessment Act, to permit municipalities to have a differential assessment on land and improvements.

With the view of giving an impetus to the iron industry in Ontario, Mr. E. R. Gamey (Manitoulin) is going to ask the Legislature to pass a resolution calling upon the Dominion Government to grant aid to enterprises developing the iron deposits in the province. At the meeting of the Associated Boards of Trade last week the matter was discussed and a resolution along lines similar to that of Mr. Gamey is now before the House of Commons.

Mr. Rowell's bill of former sessions to enable litigants to proceed against the Timiskaming & Northern Ontario Railway in the same manner as against any private corporation, without the necessity of securing a fiat from the Attorney-General, was read a first time.

BRIEFS FROM THE WIRES.

At a sale of grade Holstein cows at Harrietsville, Ont., yesterday, E. Abbott realized an average of $90 for each cow sold.

Fire destroyed the Bedford Pulp & Paper Co.'s mill at Big Island, Va., Sunday, with a loss of $500,000, covered by insurance.

At the advanced age of 86 years Rev. James Harris, one of the oldest Methodist ministers in Canada, passed away suddenly in Guelph yesterday.

Frank Peterson, while crossing the Grand river at Galt yesterday fell through the ice at a drain opening, and was with difficulty rescued from drowning.

The Philippines Assembly has adopted resolutions urging the American Congress to provide at the present session for the independence of the islands.

Word was received at Ottawa last night by the Liberal whips that Hon. Wm. Pugsley had almost recovered [illegible] New York with Mrs. Pugsley.

The South African House yesterday, by a vote of 72 to 15, adopted the clause in the indemnity bill confirming the deportation recently of the nine labor leaders.

Capt. Wm. McIlwain, who was Government examiner of masters and mates for 22 years, died yesterday in St. Catharines. He was born in Holyrood, Ireland, nearly 87 years ago.

An urgent appeal for Texas rangers at Lyford and other points along the Mexican border, near Brownsville, Texas, was received yesterday by Governor O. B. Colquitt from residents.

Goethals May Build Road.

WASHINGTON, March 3.—G. W. Goethals conferred yesterday with Secretary Lane over the building of the Government railroad in Alaska.

The availability of both the personnel of the Panama Canal construction corps and the machinery for the Alaska Railroad was considered at length. Much of the machinery, in the judgment of both Secretary Lane and Col. Goethals, might be used to advantage, but neither was so certain about the personnel. They also considered to an extent, routes suggested for the railroad. No conclusion, even of a tentative character, was reached, but the questions will be taken up in a definite way later.

Major Stephens Will Run.

MONTREAL, March 3—"My hat is in the ring," announced Maj. George Stephens on his arrival in Montreal yesterday to fight Mederic Martin for the mayoralty. Mr. Stephens conferred with his committee, headed by Sir Thomas Shaughnessy and Senator Dandurand, and made his preliminary arrangements for the campaign which promises to be the hottest in years of Montreal municipal history.

Youth Suspected of Murder.

DECATUR, Ill., March 3—"If anything happens to me, see John Baucom."

This note, found on the body of F. W. Mennerich, who was killed in his home by a bomb received by mail, resulted in the arrest yesterday of Baucom, who is only 18 years old.

The coroner's jury had recommended that the youth, who is said to have assaulted Mennerich last week after a quarrel, be held for the grand jury pending a further investigation of the tragedy.

United States postal inspectors are investigating a charge that a friend of Mennerich's wife, from whom he was separated, may be implicated.

Fashion Frills.

Possibly this year's fashions were designed by the artists who draw the comic pictures.—Chicago News.

The doctor who says that too many clothes are the cause of colds certainly talks like an apostle of the modern female fashions.—New York Tribune.

"The spring fashions will be a revelation," says an item from Paris. The fall fashions were also pretty good at revealing things.—Charleston Courier.

THE MARKETS

CHICAGO, March 2.—Incipient crop damage had a rallying effect today on wheat, especially the July delivery. As a result, the market closed steady at prices ranging from ¼c off to ⅝c up, as compared with Saturday night. Corn made a net gain of ⅛c to ⅜c, and oats of 1-16c to ⅛c. In provisions, the finish varied from a shade decline to a rise of 7½c.

Wheat futures closed at Liverpool today ½d higher and ⅝d to ½d lower. Corn, ⅛d to ¼d lower.

CATTLE MARKETS

UNION STOCK YARDS

TORONTO, March 2.—Receipts of live stock at the Union Yards were 136 cars—2729 cattle, 760 hogs, 144 sheep and lambs and 37 calves.

Butchers.

Choice butchers' steers sold at $8 to $8.25; good steers and heifers, $7.75 to $8; medium, $7.40 to $7.60; common steers and heifers, $6.75 to $7; choice cows, $7 to $7.25; good cows, $6.50 to $6.75; medium, $5.75 to $6; common cows, $5 to $5.50; canners and cutters, $3.75 to $4.75; choice bulls, $7.50 to $8; good bulls, $6.75 to $7.25; medium bulls, $6 to $6.50; common bulls, $5.50.

Stockers and Feeders.

Choice steers, 800 to 900 lbs., are worth $7 to $7.40; medium to good steers, $6.50 to $6.75; stockers of light weights are slow sale at $5.75 to $6.25.

Milkers and Springers.

Choice fresh milkers and forward springers are in good demand, but backward springers are slow sale. There was a moderate run yesterday, which sold at $60 to $90 each, but the bulk of sales ranged at from $70 to $85 each.

Veal Calves.

Receipts of calves were again light and prices ruled firm. Choice veal calves, $10 to $11; good, $9 to $10; medium, $7.50 to $8.50; common calves, $5.00 to $7.

Sheep and Lambs.

The sheep and lamb market was firm. Sheep, light ewes, sold at $6.50 to $7; heavy ewes, $5.75 to $6.25; rams, $5.25 to $6.25; heavy lambs, $8 to $8.75; choice lambs, $9 to $9.75.

Hogs.

Selected, fed and watered, sold at $9.25 to $9.40, and $9 f.o.b.; and $9.65 weighed off cars.

MONTREAL LIVE STOCK.

MONTREAL, March 2.—At the Montreal Stock Yards west end market the receipts of live stock for the week ended Feb. 28 were 1400 cattle, 300 sheep and lambs, 2100 hogs and 600 calves. The offerings today were 1200 cattle, 150 sheep and lambs, 1800 hogs and 300 calves.

A weaker feeling developed in the market for cattle today, and prices declined 25c per 100 pounds, owing to larger receipts and a let-up in demand. Sales of full loads of choice steers and heifers were made at $8.25 to $8.50, and choice butchers' cows at $6.75 to $7 per 100 pounds.

Small meats were unchanged, owing to the continued small offerings, and prices in consequence were maintained, with sales of small lots of choice lambs at $8.50 to $8.75, and choice ewes at $6.50 to $6 per 100 pounds. Calves were in good demand. Hogs were steady, but sold at a slight decline from last week's prices.

Butchers' cattle—choice, $8.25 to $8.50; do., medium, $8 50 to $7.70; do., common, $5 to $6.40; canners, $4 to $4.25; butchers' cattle, choice cows, $4.75 to $7; do., medium, $5.50 to $6.50; do., bulls, $4.75 to $7.50; milkers, choice, each, $90 to $110; do., common and medium, each, $60 to $90; springers, $70 to $75.

Sheep, ewes, $5.50 to $6; bucks and culls, $5 to $5.25. Lambs, $8.50 to $8.75.

Hogs, f.o.b., $10 to $10.10.

Calves, $3 to $12.

EAST BUFFALO LIVE STOCK.

EAST BUFFALO, N.Y., March 2.—Cattle—Receipts 4000; slow and 10c to 20c lower; prime steers, $8.75 to $9; shipping, $8 to $8.65; butchers, $7 to $8.25; heifers, $6 to $8; cows, $3.75 to $7.25; bulls, $5.75 to $7.40; stockers and feeders, $5.75 to $7; stock heifers, $5.25 to $5.75; fresh cows and springers, active and steady, $35 to $85.

Veals—Receipts 300; slow and 50c lower, $6 to $11.50.

Hogs—Receipts 10,000; slow, 5c to 15c lower. Heavy and mixed, $9.10; yorkers and pigs, $9 to $9.10; roughs, $8.25 to $8.35; stags, $6.50 to $7.50; dairies, $9 to $9.10.

Sheep and lambs—Receipts 19,000; sheep active; wethers, 15c lower; lambs slow, 25c lower. Lambs, $8.50 to $8.15; yearlings, $6 to $7.60; wethers, $6.25 to $6.50; ewes, $3 to $6; sheep, mixed, $6 to $6.35.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating. Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

FACED GIGANTIC TASK

SIR JAMES MURRAY HAS NEARLY COMPLETED DICTIONARY.

The Man Who Assembled Three Hundred Thousand Words into a Single Work With All Their Subtle Shades of Meaning is a Scotsman and a Born Lexicographer — He Has Spent 34 Years on the Task.

To marshall more than 300,000 words in perfect order, to trace their ancestry? often along the faintest paths of the past and beyond the regions of history, to show how change has left its mark upon them, to set forth their partnerships, to unmask them in their disguises, to discover what various meanings men in all times and places have ascribed to them—in a word, to produce the "New English Dictionary," that is the stupendous literary labor which, with the publication of a further section of Sir James Murray's life's work, reaches the end of another of its concluding stages.

Three hundred thousand words. Such is the size and might of the English language — 300,000 main, compound, and subordinate words, made out of the raw material of 26 letters, and minted from every important language in the world.

When you think of this colossal work, and when you meet the general who commands this huge parade of the English language, it is only natural to think first of Dr. Johnson, who called the earliest roll-call of the words of our tongue—to compare the two men and their works. Dr. Johnson began his dictionary at the age of thirty-nine; Sir James Murray was forty-two when he commenced his great lifework. Both were wrong in their calculations as to the time the labor would take. Dr. Johnson "had no doubt" that he could finish his task in three years, and when Dr. Adams objected that the French Academy of forty persons took forty years to complete their dictionary, the doctor growled out: "Sir, thus it is. This is the proportion. Let me see; forty times forty, is 1,600. As three to 1,600, so is the proportion of an Englishman to a Frenchman."

Dr. Johnson, during the seven years, poured out many other works; he received but little help; he was troubled with bad health. He made many mistakes; he put into his work expressions of his own likes, and hates, epigrammatic and mordant flashes from his own mind, such as:

Patriotism.—Love of country; the last refuge of a scoundrel.

Oats.—A grain which in England is generally given to horses, but in Scotland supports the people.

Pension.—In England generally understood to mean, pay given to a state hireling for treason to his country.

And how the two works differ in magnitude! Let me take a couple of instances at random. Under the letter "N" down to the word "niche" Johnson gave 284 words; Sir James Murray gives 3,469. In the first case there are 833 quotations to illustrate the use of the words; in the second, 17,273.

Sir James Murray is the ideal dictionary maker; wide as the poles asunder is he from that curious mixture of characteristic which went to make Dr. Johnson. Like Dr. Johnson, he has erred in one thing. He thought that his dictionary would be completed in twelve years, but he told me a little while ago, "I hope we shall finish it in four years' time—in 1917. In that year I shall be eighty, and shall celebrate my golden wedding. So we must have a triple feast."

It was at a time when this veteran was working fifteen hours a day—"harder than I have ever worked in my life before!"—that I disturbed him in his little clearing-house of the English language. It is now nearly thirty years since the dictionary's "home"—the Scriptorium, it is called—a house of wood and corrugated iron, was erected at the rear of Sir James' suburban residence at Oxford.

And thirty-four years of unremitting labor in this unique workshop has not dimmed the enthusiasm of the great dictionary maker. He comes to his desk every morning with the same, if, indeed, not a greater enthusiasm; times does not bring weariness. Still he talks of words with eyes that light up with pleasure. He picks one out of a proof-sheet which lies in front of him, traces it for you down through the ages, tells you its meaning in one hemisphere, its significance in another.

A typical Borderer, tall, with heavy moustache, and white, flowing beard, with the high forehead of a scholar, he recalls almost exactly that other great investigator in a widely different field of human endeavor, Charles Darwin.

Sir James Murray was born in 1837, in the little Border village of Denholm, five miles from Hawick, the birthplace also of John Leyden, friend of Sir Walter Scott, an Orientalist of great genius and a poet of more than ordinary rank. It was in the busy little manufacturing town of Hawick that the young man spent several years in scholastic work, and many of the oldest inhabitant remember him as their master.

When he left Hawick in 1864, it was to fill the position of foreign correspondent in the Oriental Bank, London. Six years later he became a master at Mill Hill School. Two years before this date the Dictionary was first projected as the result of the appeal of Dean Trench, author of a number of learned papers on the English language. Under the first editor, Mr. Herbert Coleridge, a great-nephew of the poet, and his successor, Dr. Furnivall, a vast amount of material was gathered together. Nothing, however, was published, and on Dr. Furnivall's death something like a crisis occurred in the Dictionary history. It was at this juncture that Mr. Murray came upon the scene.

What adds more to a good breakfast—what is more enjoyed—than a cup of good coffee?
What is simpler to make?
Why deprive yourself of this morning luxury when
Chase & Sanborn's Seal Brand Coffee
costs but one cent a cup?
CHASE & SANBORN, MONTREAL. 143

Soft Gingerbread.

A cupful of sugar, one-half cupful of shortening, two eggs, a cupful of molasses, a tablespoonful of ginger, a tablespoonful of cinnamon, a heaping teaspoonful of soda dissolved in a cupful of boiling water, three and two-thirds cupfuls of flour and a tablespoonful of vinegar. Beat well and bake in a moderate oven thirty-five or forty minutes.

A Lark.

What a lark it would be if an egg came down the chimney.

No, it wouldn't, unless it was a lark's egg, and even then not until it was hatched.

Exactly.

Not Worth Stealing.

A certain dramatic author was seen by a friend to have a manuscrip; almost falling from his pocket. "If you were not so well known you would have had your pocket picked," said the friend.

Quite Obvious.

A needle has only one eye, but it looks sharp just the same.—London Family Herald.

WHY DOCTORS PRESCRIBE
108
NOX A COLD
Because it is not a patent medicine but a prescription of a very eminent doctor. 108 Nox a Cold in one day. 25c and 50c per bottle at all drug stores.
Warne Drug Co., special agents.

Breakfast Before Bed.

The latest freak of London's night life is the evolution of the break-of-day brigade, whose motto is to breakfast before bed:

When the last night club closes at five o'clock in the morning, instead of going home to bed, the latest caper now is for the light-headed brigade to charge on the nearest restaurant or hotel for a cold-gray-dawn breakfast, sometimes visiting two or three places before the streets begin filling with the crowds going to work. As one newspaper poet has paraphrased Tennyson, it is "theirs not to reason why, theirs but to drink or die."

Several west end restaurants report that they have never known such an insistent demand for bacon and eggs and the ordinary working hours of many restaurants are now being rearranged to supply the early morning rush of the merry night hawks.

Couldn't Be Done.

Lord Sheffield was once walking down Piccadilly with a friend, to whom he explained that it was impossible for anyone to pick his pocket without his knowledge. Lord Sheffield's pocket-handkerchief was hanging out, and his friend, having diverted his attention, quietly abstracted it. Instantly Lord Sheffield collared a seedy-looking man who was passing and charged him with the theft; but, the friend producing the handkerchief and explaining the joke, the unfortunate individual whom his lordship had so unceremoniously seized was released with many apologies. The man beat a hasty retreat, and shortly afterwards Lord Sheffield discovered that he had lost his pocketbook!

ENGLAND AND KING MENELIK.

British Government Watching Abyssinia—A Remarkable Career.

Since the death of Menelik England has been looking with anxious eyes upon Abyssinia, for there is considerable disorder in that country. Territory amounting to 8,000 square miles was ceded by the late negus to British Somaliland in 1897. All along the frontier bandit tribes have been collecting and threatening the central government. If, as the indications suggest, there is destined to be a series of wars to establish one of the many claimants to the throne, destitution among the Abyssinians will increase, and so will raids on British surrounding territory. Menelik had a great regard as well as a wholesome fear of the British Government.

With little authentic known about the Emperor Menelik, he did enough in his own obscure corner of the world to establish the reputation of being one of the most remarkable men whom the negroid race has produced in recent years. The descendant, as he boasted, of the Queen of Sheba, when he ascended the throne of Ethiopia he had to face a country riven among a score of petty states and principalities. He had to establish order and introduce the rudiments of civilisation.

This he accomplished by calling to his aid the science and arts of Europe. He crushed the minor chiefs who opposed him and abolished slavery. He fostered the means of communication and encouraged agriculture. He even built railroads and encouraged his people to trade with the outside world.

Fenced in by fierce Mohammedans, Abyssinia remained unknown to Europe a thousand years. Still shut off from the sea by Italian Eritrea and British and French Somaliland, it is a hermit kingdom where almost anything may happen.

Scotchman Got the Best of Them.

Jack B., who paints portraits and, incidentally, is the father of William Butler Yeats, the Irish poet, is a regular patron of a certain New York restaurant. Among the habitues of this place he has acquired a reputation as a raconteur.

"In my part of Ireland," he tells, "there was a noisy Scotchman whose abuse of everything Irish riled the neighbors considerably. At first, however, he refrained from bragging about Scotland, and we decided to wait until he should be guilty of that indiscretion before acting drastically.

"The chance came at last. He had been swearing at the Irish peat fires, the Irish rain and the Irish spuds, and ended up by saying that, 'Hoot, mon, Scotland was verra deeferent! It was a land flowing with milk and honey.'

"Well, we went for him. Scotland, we pointed out, was known to be a barren waste inhabited by starvelings, and the Biblical quotation he had used could not have been more outrageously misapplied.

"He looked us over with his canny eye. 'Ye're wrang, he said, 'and I can prove it. Scotland flowed with milk, and maybe honey, all the time that I was there. I left wheu I was ten months auld'."

Britain's Wires.

The British postoffice has 2,610,650 miles of single wire, made up of 213,805 for telegraph, 2,234,215 for telephones and 62,030 for private and leased wires.

Granite Statue Erected.

The granite statue of King Edward VII., recently dedicated at Aberdeen, is believed to be the first granite statue of a ruler erected since the days of the Pharaohs.

Try A Dessert
Made This Way
Dissolve one package of Shirriff's Jelly Powder in a pint of boiling water. Then add juice of one orange. When jelly is beginning to harden push in slices of orange. When cold, serve with whipped cream.
This is only one of many delicious desserts made with Shirriff's Jelly Powder. Other recipes are in the packages. 10c. a package.

SOAP ON YOUR HAIR CAUSES DANDRUFF; SCALP GETS DRY, THEN HAIR FALLS OUT

Girls! Get a 25 cent bottle and try a "Danderine Hair Cleanse"

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

CONSTITUENTS TO ACT.

Evanturel's Case To Be Dealt With By Executive of Riding.

VANKLEEK HILL, Ont., March 3.—The executive of the County of Prescott Liberal Association has been summoned by President J. N. LaPointe to meet in Vankleek Hill on Saturday, March 7, to consider the question of Gustave Evanturel, M.P.P., and his expulsion from the party. From opinions freely expressed, it looks as though the association will almost unanimously demand Evanturel's retirement from public life. Some of his friends have started the race-religious cry in his favor, declaring he is being persecuted by Messrs. Pyne, Ferguson and Hanna, and the Orangemen of Ontario. These were discussed in parishes after church on Sunday. Mr. Evanturel's personal friends in Alfred are outspoken in these declarations. Mr. Evanturel, it is understood, will be asked to attend the meeting on Saturday.

Gen. Morales Dead.

PARIS, March 3.—Gen. Carlos F. Morales, former President of the Dominican Republic, died here yesterday. He had lived in Paris for some time as Dominican Minister to France.

Are You One Of The Unfortunates

With Backache, Headache and That Tired Feeling.

If So Listen to the Story of George F. Stander, and Use Dodds Kidney Pills.

Handsworth, Sask., March 2.—(Special).—If you are one of those unfortunates who suffer from sore back, headache and that tired, listless feeling that makes work a hardship and life not worth living, the story of Geo. F. Stander, a well-known young man of this place, will interest you.

"For nearly ten years," Mr. Stander says, "I suffered from sore back and headache. I had a bad taste in my mouth in the morning, and I was always tired. I finally decided that my kidneys were the cause of my trouble, and decided to try Dodd's Kidney Pills. I got half-a-dozen boxes, and before I had finished taking them I was completely cured.

"I advise anyone suffering as I did to use Dodds Kidney Pills."

Healthy Kidneys strain all impurities, all the seeds of disease, out of the blood. Weak kidneys leave these impurities in the blood, and the result is nervousness, tired feeling and pains and aches that often develop into Diabetes and Bright's Disease. Dodd's Kidney Pills make weak Kidneys strong and healthy.

EXAMINER PATTERN SERVICE

DAILY FASHION HINT.

No. 6,572, Lady's Shirt Waist.

This simple model has a short tuck at each shoulder in front and a plain back. The neck may be made high with band and collar or open with large square collar. The sleeves are plain and straight, ending in a cuff at the wrist. French flannel, challis, cashmere and novelty silks, satins and crepes are used for these waists.

The waist pattern, No. 6,572, is cut in sizes 34 to 44 inches bust measure. Medium size requires 3½ yards of 27 inch material.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering, remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

WILSON IS PATIENT

But He is Ready for Mailed Fist If Argument Fails

SITUATION IS VERY GRAVE

WASHINGTON, March 3.—President Wilson revealed to those who discussed Mexican affairs with him yesterday that he fully realized the gravity of the situation resulting from the killing of Wm. S. Benton, a British subject; the reported murder of Gustav Bauch and Clemente Vergara, American citizens, and Gen. Carranza's denial of the right of the United States to look after the interests of foreigners generally in Mexico.

The President spoke deploringly of armed intervention, but at the same time pointedly referred to the size and power of a country like the United States as being sufficient warrant for a calm and patient course while compliance with the American demands was being sought.

Callers got the impression from the President that he was determined to try every peaceful means at his disposal to solve the Mexican problem, but that he realized certain eventualities might mean a drastic course. He spoke with a firmness that showed his determination not to be stampeded into action by radical speeches in Congress, but with a hint that when the necessity arose the American Government could be expected to move decisively and effectively.

Sir Edward Grey's expected statement in the House of Commons is awaited with much interest, as it is hoped by many he will show just how far Great Britain expects reparation for the Benton killing at this time. To-day Sir Lionel Carden, the British Minister to Mexico, will discuss Mexican affairs with President Wilson, bringing him the latest information about the Huerta Government and the situation in Mexico City.

Bauch Murdered Thinks Villa.

EL PASO, Texas, March 3.—Gen. Villa's expressed belief that Gustav Bauch, who was arrested at Juarez as a spy two weeks ago, was the victim of an assassin, occasioned no surprise here, where the German-American sister, Mrs. J. M. Patterson, and others interested in the case, have been resigned to the conclusion that Bauch was slain at Juarez a week ago last Friday. They scout the personal enemy idea, however.

Repeated assertions have been made by certain Juarez rebels, talking confidentially to friends on this side of the border, that Bauch was executed, and the stories all agreed on the date of the execution, which was the day Gen. Villa departed for Chihuahua.

LOSES ENTIRE RECORDS.

Township of East Gwillimbury Suffers From Fire.

QUEENSVILLE, March 3. — The Township of East Gwillimbury has suffered an irreparable loss in the complete destruction of all its papers in a fire which consumed the office and also the home of Mr. A. McKenzie, Township Clerk, at an early hour yesterday morning. The family all escaped in safety, and managed to save most of their household goods.

The township's loss is, of course, beyond estimation. The Mount Albert Telephone Co., Limited, loses to the extent of about $250, with no insurance. Mr. McKenzie's loss on his house is about $1,500, with insurance unknown.

Imprisoned In Fire.

PETROLEA, March 3.—With the wind blowing forty miles an hour and the thermometer recording ten degrees above zero, the home of William Mackerel on Tank street was burned to the ground about ten o'clock yesterday morning.

The blaze originated in the chimney in the attic, and had gained considerable headway before it was noticed and before Mrs. Mackerel and her three children could escape from the dining-room the roof fell in, blocking up the doors.

By this time a number of employees from the refinery arrived on the scene and rescued the prisoners.

Home Is Burned.

LONDON, Ont., March 3.—Children playing with matches yesterday afternoon fired the home of William Ratcliffe in East Williams. The older children rushed half a mile for help, and Miss Annie McDonald arrived in time to snatch a baby sleeping in his cradle and two small children to safety. The house was completely destroyed.

Wood Alcohol Exploded.

ST. THOMAS, March 3.—Fire here yesterday morning did $4,000 damage to the drug stock of G. H. Small and $1,000 damage to the building. The blaze was caused by the explosion of a demijohn of wood alcohol near a stove.

WILL HELP ULSTER.

Roberts, Kipling and Others Sign Anti-Home Rule Covenant.

LONDON, March 3.—Lord Roberts, Viscount Milner, Baron Balfour of Burleigh, Rudyard Kipling, Prof. Albert Venn Dicey and Sir William Ramsay, and a score of less prominent persons, yesterday issued an appeal to their fellow-countrymen to follow their example in signing a declaration which is milder in form than the Ulster covenant, by which they hold themselves in case the Irish home rule bill becomes a law without first being submitted to the judgment of the nation, "justified in taking or supporting any action that may be effective to prevent it being put in operation."

The signatories of the appeal are careful to point out that by signing the declaration "no man will pledge himself to take any particular action of which his conscience or judgment does not approve."

Expects an Election.

LONDON, March 3. — Sir George Doughty, well-known fighting industry promoter, who has many Canadian interests, tells his Grimsby constituents to expect a general election within two months. He is confident that no Government dare pass home rule before appealing to the country.

Acid Stomachs Are Dangerous

Nine-tenths of All Stomach Trouble Said to Be Due to Acidity.

A Physician's Advice on Cause and Cure.

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have gained for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary household magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself — neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments are useless, as long as the contents of the stomach remain acid; remove the acidity and there will be no need for medicine — the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisurated magnesia from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

ON LAKE IN STORM.

Four Pelee Islanders Had Terrible Trip To Mainland.

LEAMINGTON, Ont., March 3.—The delegates appointed to wait upon the Dominion Parliament with a request for improvements to the harbor left here yesterday afternoon. The party numbered 125, although Mr. Borden had requested that only two men be sent. For their journey to the capital, a special train was chartered at a cost of about $5,000.

Pelee Island sent but four delegates and they nearly perished in their attempt to get to the mainland. It is 18 miles across the lake to the island, and the four who got across started in a small rowboat. They had not gone far before they struck ice, and had to get out and carry their boat across the ice until water was reached again. This occurred several times, and the wind blowing 40 miles an hour made it so rough that the waves broke over their small craft, and they were covered with spray, which froze quickly.

WANTS HUSBAND RECALLED.

Wife of Sheriff Eggers Also Seeks Divorce From Him.

SAN FRANCISCO, March 3.—In addition to having brought divorce proceedings against Frederick S. Eggers, sheriff of San Francisco County, his wife announced yesterday in a signed statement that she would circulate a petition for his recall from office. They have lived together thirty-five years.

"This is not spite work," said Mrs. Eggers. "I simply do not believe that Sheriff Eggers is a fit man to be in a public office."

In her statement Mrs. Eggers outlines testimony which she has given before the grand jury.

YOU'RE BILIOUS AND COSTIVE!—CASCARETS

Sick Headache, Bad Breath, Sour Stomach, Mean Liver and Bowels Clogged—Clean Up To-night

Get a 10-cent box now.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver, and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated and never know a miserable moment. Don't forget the children — their little insides need a good, gentle cleansing, too.

TYPHOID IN CANADA.

Eminent British Doctor Says Inoculate Everybody.

TORONTO, March 3.—"I have been asked to recommend that you should inoculate the whole population of Canada with typhoid vaccine, and I certainly see no reason why you should not do so." This somewhat startling statement was made to a gathering of the medical fraternity in the Physics Building last night by Sir William D. Leishman, the famous physician, while lecturing on the value of inoculation in preventing typhoid fever.

"In my short stay here," he continued, "I have learned that you suffer very largely from typhoid in this country, that it is, in fact, a scourge in some country parts and villages. If you organise a campaign so that people exposed to the risk of typhoid will be inoculated you will be doing a great deal of good, and we could thus compile very valuable statistics."

Girl Frozen To Death.

HAZLETON, Pa., March 3. — Frances Sweeney, 22 years old, was found frozen to death yesterday in a sleighwhere her companion, James Baldi, had left her Sunday night in the blizzard while he went for help.

The young woman had become exhausted and terror-stricken over the raging storm, and there were four or five miles more of hard road to travel. Her companion stopped the sleigh within 300 yards of shelter and tramped two miles over the mountains for assistance. Almost collapsing at the end of his journey, he was only permitted to make the return trip with a searching party yesterday found the body of the girl.

Piles Quickly Cured At Home

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

The Pyramid Smile.

Many cases of Piles have been cured by a trial package of Pyramid Pile Remedy without further treatment. TO STOP HAIR LOSS AND RID YOUR SCALP OF DANDRUFF, USE NEWBRO'S HERPICIDE

Do you have dandruff? Does your hair fall out? Is it getting thinner and the parting more pronounced every day? If so, we advise you to get busy right away or before it is too late.

We are not trying to scare you. We are simply telling you the truth. If you would ward off impending baldness you must check that hair loss and rid your scalp of dandruff.

Dont resort to the use of an untried, off brand hair preparation when genuine Herpicide costs no more. You are liable to disappointment if you experiment. Start right and start now with the right remedy and stick to it—Newbro's Herpicide.

Use Herpicide daily for a while, then three times a week will be sufficient. Watch the change which takes place in the condition of your hair and scalp. The scalp is clean and free from dandruff. The hair looks strong and healthy and does not fall out. There is vigour and snap where before the hair was dead, dull and brittle. The itching which is so annoying stops and you enjoy a feeling of coolness and cleanliness hitherto unknown.

Any dealer will sell you Newbro's Herpicide in 50-cent and $1.00 sizes and guarantee it. If it doesnt do as promised, and you are not satisfied, he returns your money. But you'll be satisfied. The first application will convince you that Newbro's Herpicide is the very thing for the hair. Its odour is delightful.

Applications may be obtained at the better barber shops and hair dressing parlours.

McDermid & Jury, special agents.

Stop! Look! Listen!

ORDER A BAG OF

MONARCH FLOUR

Pumpkin or Squash Pie.

Two tea cups boiled pumpkin or squash, 3-4 teacup brown sugar, 3 eggs beaten, 2 tablespoons molasses, 1 tablespoon melted butter, 1 tablespoon ginger, 1 teaspoon cinnamon, 2 teacups milk, a little salt. Makes two pies.

THE

CAMPBELL FLOUR MILLS CO. L'TD.

PETERBORO TORONTO

PINEAPPLE SHERBET.

Grate two pineapples. Boil together one quart of granulated sugar and two quarts of water; when thick pour it over the grated pineapple. Add the whites of four eggs beaten very stiff and the juice of two lemons. Put in a freezer and freeze.

MOLASSES LAYER CAKE.

One cup molasses, two cups flour, beat together lightly. Three tablespoons soft butter, one-half cup boiling water, one teaspoon soda, one teaspoon nutmeg, allspice, and cloves to taste. Bake in layers with white boiled frosting between.

POTATOES AND HAM BALLS

Season mashed potatoes with butter, cream, salt and pepper, then add one-half the quantity or less of cold boiled ham, chopped fine, and one or two well beaten eggs. Make into flat cakes or rolls and dip each one in egg and fry in nice drippings.

MR. W. H. BRADBURN RESIGNS FROM POSITION OF TRUST COMMISSIONER

Owing to Pending Arbitration Between City and Bradburn Estate —Mr. James Kendrey is Appointed—Cigarette By-law Passes

$40 LICENSE FEE

The third regulars session of the City Council for the year 1914 was accounted for last evening. Unlike the first instalment of March weather, the meeting did not develop any lion-like propensities. Superfluity of speech was also negatived by virtue of the volume of business that occupied the attention of the Council from eight o'clock until fifteen minutes to eleven. A feature of the meeting was the presence in the gallery of two spectators, one of whom remained until the last alderman had removed his feet from the desk preparatory to the valedictory. This is the largest aggregation of citizens that has graced a Council meeting for some months, excepting deputations, and is indicative of the ever-growing interest that is being manifested by the populace towards the regular conferences of the civic legislators. A search among the archives might reveal a similar situation, but not two months after an election. Prospective candidates have been known to attend Council meetings, a few weeks prior to a municipal election, but only for the purpose of familiarizing themselves with the conduct of municipal government, for reasons that are obvious.

Has Resigned.

The resignation of ex-mayor W. H. Bradburn as a member of the City Trust Commission came as a big surprise. Some of the members of the Council were reluctant to accept it, until it was explained that arbitration proceedings were pending between the City and the Bradburn Estate that would involve the nominee and might eventually lead to disqualification. Mr. Bradburn was elected at a previous meeting of the Council, to succeed Mr. James Kendry.

Ald. Green made a strong plea for the appointment of Mr. Henry Rush to the vacancy caused by the resignation of Mr. Bradburn. He submitted that Mr. Rush was particularly well qualified to fill the position, having served the City in the capacity of Alderman and subsequently occupied the "red plush' chair as Chief Magistrate of the City. The name of Mr. E. F Mason was advanced by Ald. Stratton who claimed justifiable qualifications in respect to the appointment of the nominee. The motion which constituted an amendment, was lost, however, and Mr. Kendry, whose name had been introduced on motion of Aldermen Johnston and Langford, was re-elected to his old position. In resolving into a committee of the Whole Council, before the division was taken, Mayor Buller who favoured Mr. Kendry's appointment, was careful to see that Ald. Gordon was nominated to the position of chairman, thereby eliminating a vote that might otherwise have been recorded in favour of Mr. Rush.

Cigarette By-law.

Henceforth dealers who retail cigarettes to the public will be required to pay a license fee of forty dollars a year. A by-law to this effect was adopted by the Council, and will be put into force within the next few weeks. Ald. Anderson, who claimed responsibility for the enactment said that one object of the by-law was to prevent the sale of cigarettes in the outlying districts. He submitted that by confining the sale of "coffin nails" among a few dealers in the business section of the City, who could afford to pay the license fee, it would be possible for the police to keep a closer watch on the sources of supply, with a consequent lessening of the smoking evil among the juvenile element of the City.

An Amendment.

Ald. Gordon moved in amendment that the license fee be fixed at one dollar. He contended that a license fee of forty dollars was prohibitive and tended to create a monopoly in favour of the hotels of the City. The latter were not affected by the new legislation as a liquor license carries with it the right to distribute cigarettes and other forms of tobacco. It was unfair to the large number of hawkers who were located throughout the City, that they should be deprived of a privilege that constituted a part of their livelihood.

Aldermen Green and Johnston upheld the by-law in its entirety, claiming that it would stop the sale of cigarettes. The film was also mooted to prevent the sale of cigarette papers, but the promoters of this motion were informed that such a clause would exceed the statutes, which in the opinion of the City Solicitor would have a tendency to weaken the by-law. It was decided to refer this matter to Mr. E. A. Peak, M.P.P., with a view of having the present act amended so as to regulate the sale of cigarette papers. In the meantime, only those who can afford to pay the license fee of forty dollars will be permitted to engage in the retail distribution of cigarettes.

MOST REMARKABLE MEMORY KNOWN TO SCIENCE — At the starting-lever of a Toronto hotel elevator, is a complete weather chart for the past 24 years. It is not a book, but the brain of the elevator man, William McNair. People travelling up and down in that elevator can find out what the weather was on a certain day in the past 24 years. Mr. McNair is gifted with an uncany memory. He can recall without hesitation, the minutest details of his daily life on any given date. The above picture shows a number of professors, whose experiments with McNair, who is also in the group, have revealed the amazing development of memory. From left to right: R. F. Stupart, chief director of the Meteorological Department in Toronto; Rev. Prof. Cotton of Wycliffe College; Wm. McNair, B. Weber, and Dr. A. H. Abbott, professor of psychology in the University of Toronto. Mr. McNair has been asked to go to New York and Baltimore to be examined by physicions there, but has not yet consented. He is about 35 years of age, and absolutely normal in physique and mentality except in his memory.

The Battle Of Waterloo At The Royal

A Treat For Lovers of Really Artistic Motion Pictures

Every man, woman and child is acquainted with the history of the famous and historic Battle of Waterloo, and, every man, woman and child should avail themselves of this opportunity of seeing a realistic repetition of this great encounter at the worth-while Royal. Owing to the popularity of this immense film production which comes in four reels, special shows are being arranged for to-day and Wednesday, March 3rd and 4th, commencing at 9 a.m. and continuing till 11 p.m. This special show arrangement will give every lover of superior and artistic motion pictures a chance to see this really wonderful and marvellous feature, the Battle of Waterloo. The beauty of feature pictures at the Royal lies in the simple fact that there are no interruptions, owing to the management having an efficient staff of operators and three picture machines. No waits, no stops, no delays confront you. No slides, "just a minute to change pictures" greet you. The pictures are continuous and your mind and interest are centred upon the picture from start to finish.

The Royal is the only theatre in this City that can give a continuous performance. Price of admission: Children five cents; adults ten cents.

PROBABILITIES.

Fair and moderately cold. Wednesday, fair with a little higher temperature.

New Civic Legislation

That Was Endorsed by the City Council at Last Night's Meeting

A by-law to fix the salary of H. Evans, Street Commissioner. Salary to be increased from $1,000 to $1,150. A by-law to appoint a commissioner.

A by-law to authorize the execution of petitions to the Legislative Assembly.

A by-law to provide for licensing and regulating eating houses.

A by-law to license, regulate and govern laundrymen and laundry companies, and for inspection and regulation of laundries.

A by-law to regulate the granting of licenses to milk vendors.

A by-law to restrain and regulate the running at large of dogs and licensing thereof.

A by-law to authorize a grant of $500 to the band of the 57th Regiment.

A by-law to provide for licensing, regulating and governing billiard rooms, bowling and shooting, or rifle galleries.

A by-law to provide for licensing, regulating and governing keepers of stores and shops where cigarettes are sold by retail.

A by-law respecting the issuing of licenses in the City of Peterborough.

RESIGNATION REFERRED TO A COMMITTEE

Several Applications for the Position of Medical Officer of Health Have Been Received—Work for the Unemployed

FREE SKATING RINKS

The regular monthly meeting of the City Council was held last evening, with the following members present: His Worship Mayor Buller, Aldermen McIntyre, Anderson, Langford, Johnston, Green, Duffus, Gordon, Stratton, Duncan and Saunders.

Dr. McPherson's Resignation.

Ald. Duncan moved that a committee be appointed to deal with the resignation of Dr. A. W. McPherson, Medical Health Officer for the City. He suggested that the committee might ascertain if Dr. McPherson would reconsider his decision.

"That is a good move," said Ald. Duffus. There is no doubt but what Dr. McPherson has handled the situation well under the circumstances, and possibly it would be the best thing to do."

Mayor Buller rose to remark that he did not agree with the attitude taken by the alderman. He cited previous occasions when City officials who had resigned were asked to reconsider their action. One of these was the assessor. "The principle is wrong," declared Mayor. "We don't propose to crawl for anybody."

Ald. Duncan—"I didn't say that we should crawl. I merely suggested that a committee be appointed to consider Dr. McPherson's resignation, together with any applications that might come in."

Mayor Buller nominated Alderman Duncan, Gordon, Duffus, Johnston and himself as a committee to investigate the matter. One of the aldermen called for a vote on the nomination, but the meeting adjourned before the desired action could be instituted.

Applications for the position have been received from Doctors Young, Amys and Brown. The applicants expressed willingness to accept the position at the present salary of $600 per year.

The Unemployed.

Ald. Gordon asked if it would be possible for the City to employ more men in cutting out trenches and doing other necessary work. The number of men out of employment was considerably in excess of previous years.

Ald. Duncan, as chairman of the Board of Works, replied that the Streets Commissioner was employing all the men that was possible under the circumstances. He anticipated additional work about the second week in March. Steps will also be taken to open the drain running from the De Laval Dairy Supply Company, south to the river.

Free Skating Rinks.

The matter of introducing free open air skating rinks for next winter and also bathing places during the coming summer will be taken up with the Board of Education and the General Secretary of the Y.M.C.A. The latter has proffered the services of a competent swimming instructor should the Council decide to provide suitable bathing places.

Aldermen Stratton, Gordon, Duffus, Johnston and the General Secretary of the Y.M.C.A., were nominated a committee to investigate the matter. The question was introduced by Ald. Johnston.

A Branch Post Office.

Ald. McIntyre attempted to bring in a resolution regarding the establishment of a branch post office in East City, in event of the present post office being removed to the south ward. Ald. Anderson, who had previously seconded the motion, asked to withdraw, upon the grounds that the proposed action might interfere with the progress of the work that is contemplated by the Government in the early spring. The Mayor announced that the Hon. Robert Rogers, together with a number of government officials, would visit Peterborough at an early date, when the matter could be submitted to the proper authorities.

APPEARS IN COURT ON A SERIOUS CHARGE

Shocking Revelations in Police Court This Morning in Connection With Charge Against Joseph O'Toole

YOUNG GIRL'S STORY

What Magistrate Dumble termed as a conspiracy, of four local young men, namely, Joseph O'Toole, Vincent O'Toole, his brother, Raymond Welsh, and Leo Holland, was brought to light this morning, at the regular session of the Police Court, when Joseph O'Toole was charged, with procuring illicit relations with a young girl, for the other three young men named. The first witness for the prosecution, which was conducted by Assistant Crown Attorney Wearing, was the girl in question. She testified that on Saturday last she met prisoner at the Post Office. He requested her company for a walk, and she, reluctantly, consented to go. They walked about the city for a while, and prisoner then procured a cutter from Jones' livery barn. At the corner of Simcoe and Aylmer streets they met Welsh, who got into the rig, and accompanied them to Jackson Park.

It was here that the first two alleged offences took place. After the return from this trip, they drove around the city for a while, and then back to the livery barn.

Vincent, prisoner's brother, worked there, and after taking the horse out of the cutter, a conversation took place, after which another assault was committed. In the evening she was introduced to Leo Holland by prisoner, and the three of them drove into East City, where O'Toole left them. They drove to Amours' Hill, where a further assault was committed. O'Toole was picked up again on the return journey to the barn. It was while here that Detective Meagher came to the barn, and told them that they were wanted at the Police Station. O'Toole was taken into custody, and on Monday morning was charged with vagrancy. He was remanded.

Welsh was also called to give evidence for the Crown.

Detective Newhall told the court of admissions that prisoner had made in his presence.

Mr. Gordon, counsel for prisoner, was forced to leave for Lakefield at this junction, and at his request, the case was enlarged until to-morrow. A remand was granted.

ROYAL THEATRE

With Some Splendid Features

The management of the Royal is wasting no time to secure high-class features. On Thursday, Friday and Saturday of this week, Daniel Frohman presents the wonderful dramatic success, "Leah Kleschna," a story of a woman's redemption, with the celebrated actress, Carlotta Nillson in motion pictures.

Judge B. R. Lindsey, of Denver, Colo., the famous justice and criminologist, declares that human nature is the same in every breast and that if the righ appeal is made to people who go astray, there is always a chance to lead them "into the light." This humane theory is advocated in the famous play, "Leah Kleschna," the story of a woman's redemption. "Leah Kleschna" ascends far above the plane of the drama that merely interests and thrills. It is play with a message, a penetrating psychological study. Its directness, simplicity and power are irresistible. Its strong appeal touches a responsive and sympathetic chord in the heart of all humanity. The situation of the woman burglar, reformed by the kindness of the man whose house she attempts to rob, is one of the greatest sermons ever dramatized. "Leah Kleschna" interpreted by the gifted Carlotta Nillson, makes a profound and unforgettable impression.

A great play written by a famous dramatist, interpreted by a gifted actress. To be shown at the Royal Thursday, Friday and Saturday.

SECOND READING OF HOME RULE BILL

Special Wire to The Examiner:

LONDON, Eng., March 3.— Premier Asquith in the Commons to-day announced that the second reading of the Home Rule bill would no doubt come on Monday, and he would then detail the concessions the government was prepared to make for Ulster. This announcement was a surprise to the House [illegible] Home Rule debate was not expected till much later in the session.

STORM WAS RESPONSIBLE FOR VERY HEAVY DAMAGES

A GREAT FILM TRIUMPH

Intensely Dramatic Story of a Woman's Regeneration Will Be Shown at the Royal

A GREAT MORAL LESSON

The Famous Players Co., released December 16th the famous dramatic success "Leah Kleschna," with the distinguished American actress, Carlotta Nillson, in the stellar role. No other production of the Famous Players, with the possible exception of "Tess of the D'Urbervilles" and "The Count of Monte Cristo" has won such distinction on the stage, and through a coincidence, like "Tess," it has been one of Mrs. Fiske's greatest dramatic triumphs. "Leah Kleschna" brings to the motion picture a new prestige and numerous opportunities for great camera effects. Like "The Prisoner of Zenda," "Tess" and "The Count of Monte Cristo," the film production surpasses the greatness of the original, because of the evident limitations of the oral stage for scenic and realistic effects. As is commonly known, the stagecraft and technique of the spoken drama are amazingly inferior to the powers of the camera. In the film production, the overwhelming scenes in the burning bazaar and many other thrilling effects can be faithfully portrayed, whereas in the drama they can only be described verbally.

Carlotta Nillson's association with the motion picture will also confer upon Kleschna a new dignity, appropriately comparable to the glories of Mrs. Fike, Lillie Langtry, James O'Neill, James K. Hackett, and other Famous Players stars.

This production will be a decisive event in the advance movement of the photoplay.

"LEAH KLESCHNA," WITH CARLOTTA NILLSON

A Film Triumph

Few announcements of coming film productions have ever created so much comment as that of the Famous Players production of the international dramatic success, "Leah Kleschna," with the distinguished American actress, Carlotta Nillson. This intensely dramatic story of a woman's regeneration, by the noted dramatist, C. M. S. McClellan, stirred the civilized world with its appeal for the criminal who has never been shown the right way to live, and has been termed one of the greatest sermons ever contained in a play. Its introduction in motion pictures cannot but supplement the effective influence upon criminal and judicial procedure, which the original production exerted.

The situation of the woman burglar reformed by the kindness of the man whose house she attempts to rob, affords unlimited opportunity for camera action. The girl, trained from infancy to be a thief and the associate of thieves is brought into the light by the influence of a love of which she is hardly aware, and by kind words of persuasion spoken at the psychological moment when her spirit, hardened and roughened by her past training, is just about to merge with the refining and regenerating influence with which she is suddenly brought into contact.

The play should make an irresistible impression on the screen and contribute one of the greatest morals possible to incorporate in a film production.

"LEAH KLESCHNA," McCLELLAN'S GREAT PLAY

In Motion Pictures

Judge R. B. Lindsey, the famous justice and criminologist, holds views radically different from most of those who, in a legal capacity, are supposed to administer justice to criminals.

Judge Lindsey declares that human nature is the same in "every breast and that if the right appeal is made to people who go astray there is always a chance to lead them "into the light."

This humane theory is advocated by the famous play, "Leah Kleschna," by the noted dramatist, C. M. S. McClellan, and produced in motion pictures by the Famous Players Film Co. Leah has been taught to steal from childhood by her father, the master thief of France. In attempting to commit a robbery at the house of Paul Sylvain, the Deputy of France, she is caught in the act by Sylvain, who instead of treating her as a thief and turning her over to the police, has an extraordinary interview with her. Sylvain, like the Denver judge, does

(Continued on Page 14.)

Gale Left Ontario Many Thousands of Dollars Poorer—Many Cities Suffered.

HALIFAX GETS IT NOW

Special Wire to The Examiner:

TORONTO, March 3.—Despite the fact that the gale which swept Ontario and eastern Canada yesterday and Sunday was the worst in the history of the province, the damage done is not as extensive as that of several previous storms, including the two big hurricanes of last year. However, the damage in Ontario will run into hundreds of thousands of dollars.

The greatest individual losses reported in and around Toronto are at Hanlan's Point and at the Ontario National Brick Co.'s yards at Coatsville. The loss at the former is estimated at over $10,000, and at the latter at $15,000. Scores of householders and property-holders in the city sustained losses of from $500 to $1,000, and many people had narrow escapes from collapsing houses, chimneys and flying missiles.

There was no abatement of the confusion of Sunday on the railroads yesterday, and, indeed, matters were made rather more complicated because of a freight derailment at Brighton, 82 miles east of Toronto, on the G.T.R. This tied up a number of trains, and was a source of considerable worry to officials.

As for the storm, it has gone on its way east and all day yesterday the vanguard of the disturbance hurried Nova Scotia and did considerable damage to the shipping.

Factory Wall Blown Down.

WOODSTOCK, March 3.—Sunday night's gale did considerable damage in and around Woodstock. About 6 o'clock yesterday morning, with the wind at its highest, about twenty feet of brick wall on the north side of the Canadian Furniture factory gave way, a lot of debris falling into the packing-room, destroying considerable stock. The loss is estimated at $1,000.

Side of House Fell In.

INGERSOLL, March 3. — Falling bricks and mortar which crashed into their bedroom about 5 o'clock yesterday morning, when a large section of the north side of a brick house collapsed before the fury of the wind, rudely awakened the family of Mr. Wm. Selden, North Oxford.

Churches In Darkness.

WHITBY, March 3.—Church services were conducted largely in darkness here Sunday evening, owing to the storm putting the Seymour Power lines out of business. The lights were on intermittently, but several congregations sat in darkness listening to illuminating addresses.

Roofs Torn Off, Windows Blown In.

ST. THOMAS, March 3.—The storm in this vicinity did no great amount of damage, although many trees were blown down and fences damaged. The roof of the London & Lake Erie Transportation Co. station at Union, south of here, was blown off, and one of the colored windows in the Holy Angels' Church was blown in.

Had To Postpone Burial.

KINGSTON, March 3.—While proceeding to a funeral at Kingston Mills yesterday morning, Rev. Father Halligan and Undertaker Thomas Regan were thrown out in a snowdrift, when the hack in which they were being driven upset. The funeral party had to turn back, and the burial was postponed until to-day, owing to the snowbound roads.

Litigants Storm-Stayed.

WELLAND, March 3. — Division Court, which opened yesterday morning, was forced to adjourn until the afternoon, as many of the litigants were unable to reach here owing to the blocking of the railways and country roads by the blizzard. Railway traffic was resumed with fair regularity yesterday afternoon.

Find to Have; Is Unroofed.

STRATFORD, March 3. — During Sunday night's violent gale a corner of the residence of J. T. Mace was blown down. The family took to the barn for shelter and safety, but the next blast lifted the roof off that structure also.

APPRECIATION IS EXPRESSED

The Quarterly official Board of the Charlotte St. Methodist Church take this opportunity of expressing their appreciation to the Ministerial Association, the surrounding clergy, the city congregations, the Mayor and City Council, the press and all others for the sympathy and kindness so beautifully manifested to their lamented pastor, Rev. T. J. Mansell.

TUESDAY, MARCH 3, 1914

LIBERALISM AND LABOUR.

The Asquith Government has lost several bye-elections through the introduction of a third candidate—a labour candidate. This splits the support that would naturally go to the Liberal candidate. Both the Liberal and Labour interest have much in common, and the labour vote drawn support from the Liberal candidate to its own. It does not affect the Conservative candidate who has nothing in his platform of political principles to attract the support of the Labour interests. It seems to be short-sighted policy of the friends of labour to take this course. The cause of labour knows by the experience of centuries that it cannot expect anything in the way of radically effective legislation in its interests, from the Conservative party. It knows that all the great reforms that have contributed to the betterment of the conditions of the masses have come directly or indirectly from the Liberal party. This is the case in Great Britain as it is in Canada. The cause of labour, the cause of the people who toil, the cause of the masses, is so essentially a principle of Liberalism, that the interests of the Liberal party and a Labour party are identical. Those interested in the demands that the cause of labour create, are impatient, and even Liberal governments do not move fast enough to suit them. Labour should remember that the Liberal party of Great Britain is responsible, and that it cannot move rapidly enough to suit itself. It has to fight the entrenched interests that have held in thrall the welfare and progress of the principles that Liberalism and Labour stand for. The fight of progress against reaction or stagnation are hard enough without the beneficiaries of such a battle complicating the situation by their impatient desire to see greater progress made, and hindering the only agency they can look to for the enactment of laws that will better their condition and give them their rights.

IMMIGRATION.

The Grain Growers' Guide has the following to say upon what it calls a "Ridiculous Immigration Policy."

Wherein lies the advantage of maintaining an expensive immigration system to bring settlers to the farm lands of the Prairie Provinces and then permit them to be exploited and plundered until, in self-defence, they are forced to leave the farm? How long will the Dominion Government and the land barons pursue their ostrich policy, while the homesteaders on the prairies struggle for a bare existence? One prosperous farm home is of more value to the country than any five immigrants, and costs less. Why not encourage them?

The problem is here presented of keeping the people on the land, in contrast to the problem of getting the "people back to the land." What Canada needs for the development of her immense resources is population, but with the proviso that population be rightly placed; and that is on the land, as producers of new wealth, as new contributors to the national development and prosperity. We need the placing of population on the land so that we may lessen, or remove, the reproach of Canada, that it does not grow enough to feed its own comparatively sparse population. The Grain Growers' Guide has a good deal of logic in its contents that our present stream of population is not properly directed; that sufficient encouragement is not given to those on the land to keep them there. The conditions of farming in the West are unfavourable to profitable grain growing. The grain is produced to a limited extent, but its production is not profitable to the farmer. That condition is easily dealt with by providing the best possible marketing facilities. This done the problem of peopling our unoccupied acres lends itself more readily to solution. It is easy to say that there are thousands and even millions of acres yet unbroken by the plow that invite settlers upon them. But farming like every other industry needs capital, and the bulk of the immigrants to this country, especially those from across the water, are without capital. The majority of them are hard set to provide the trifle of money to enable them to comply with immigration requirements; and their arrival in Canada means only addition to the army of the unemployed or non-producers. It is different with many of the immigrants from the United States. They are provided with capital and experience, and they at once become producers, and factors in the production of addition to the national wealth.

Why is it not practicable to assist immigrants to settle on our unoccupied lands? This is something the Government could, one would think, easily do. We do not, at the moment, now the details of the modes adopted by the C. P. R. to settle and bring to profitable productiveness its irrigation lands in the West, but it has it is safe to say, a practicable way, because it is a successful way. Would it not be possible for the Government to evolve a scheme of assisted immigration involving actual settlement on land? We spend millions in theoretical teaching of agriculture, but this is comparatively useless unless it leads to practical application of the theories taught. Would not the Government be justified in putting into operation some scheme of assisting men without capital, but with the desire for farming upon lands? Money could be advanced to equip farms with machinery and stock and a little capital for operation, with easy conditions of repayment, and a lien on the farm so developed to insure repayment of the capital advanced, the farm to become the property of the immigrant when certain stipulated conditions were complied with. This would take considerable money, but we have the money, and it could not be put into better use. The price of a drill hall would equip half a dozen farms and make them productive agents in national development. Once such a scheme was adopted and applied it might be made to run smoothly. Thousands who are now unemployed, congesting the labour market, and intensifying the conditions of unemployment would be made into farmers; and the land would be tilled. Here, it seems, is a chance for the exercise of real statesmanship. Bringing in immigrants is an easy matter, but putting immigrants to good use is a greater matter.

CONSERVATIVE APPROVAL.

Considerable importance is to be attached to the approval of the Conservative press of Monday last to the outstanding action of Mr. Rowell, Liberal Leader, in the matter of the Evanturel letter—of his prompt repudiation of the letter and its author. The Toronto News (Conservative) says:

The straightforward stand of the Leader of the Opposition and his able handling of one of the most difficult situations which a leader of an Opposition in this country has ever been forced to contend with, was one of the features of a strenuous day, and Mr. Rowell received many bouquets, not only from his own supporters, but from the members of the Government on his able handling of a most difficult question.

The Toronto Sunday World (Conservative), has the following:

There is no doubt whatever that Mr. Rowell came out of the affair with flying colours. He did, under the circumstances, what every right-minded man in the Province would have done and he did it promptly. The moment the letter was finished the mind of Mr. Rowell was evidently made up, and the announcement of his (Evanturel's) severance was only a matter of the necessary interval. The loss to the Liberal party, numerically, cannot be denied, but it seems to end there. The first spark of political iniquity has had a heavy heel stamped upon it.

The Toronto Telegram, (Conservative), has this to say:

The Opposition Leader met and conquered danger by the straightgoing courage of his declaration that he would rather be isolated from his followers than isolated from his principles.

The Ottawa Citizen (Conservative) also remarks:

That the Liberal party in the Ontario Legislature expelled him, (Evanturel), forthwith, may be regarded as being of promise. The time is coming when Canada will evolve a political conscience, and there are signs to-day that the time is not a far afloat as pessimistic observers usually declare.

In these days of venal politics it is something to have a party leader take a stand on principle and have the courage of his convictions. If all cannot agree with the policy he prefers, all can pay tribute to his manly attitude in placing principle above expediency; in preferring failure by the straight way to success by condoning venality in his supporters.

WINTER UNDERWEAR.

We have a big lot of all kinds heavy weight underwear, which we will sell at low prices. Reg. $1.00 and $1.50 a pair, for 49c, 75c, and 98c.

ADVERTISE IN THIS EXAMINER

Game And Fishery Overseers Make Reports To Department

Some of the Interesting Points Brought Out in the Reports

RE-STOCK STONY LAKE

The report of the Game and Fisheries Department of Ontario contains the summaries of the inspectors who had charge of the local waters. Many Peterborough men will be interested in the statements that follow. The overseers deal with conditions which should receive every consideration if the game is to be protected in local waters. The true fisherman is anxious to preserve the supplies of fish, and he should also show a desire to prevent others from committing infractions of the law.

Some of the interesting points brought out in the reports are as follows:

A summer hotel has been opened at Bewdley.

Shorten the open season for black and grey squirrels, or make a closed season for three or four years.

Materially shorten the open season for muskrats.

Repeal the law regarding the shooting of ducks before sunrise and after sunset.

Longer closed season for mink.

Maskinonge fishing was poor last year.

Overseers should meet once a year to talk things over.

Guides should get permits from the overseer of the district.

Re-stock Stony Lake with bass.

Keep the water in stony Lake at one height during the spawning season in the Spring.

Forbid fishing from power boats.

Peterborough.

Overseer John Watt of Peterborough reports that bass and maskinonge have not been so plentiful in his territory, at least they have not been biting so well as usual. This, he thinks, is due to the quantity of natural feed, as all the fish caught are in such fine condition. He has never seen so many large, fat maskinonge as have been taken this year. He thinks it must be an off season, as he has heard the same complaint in other parts.

The muskrat catch was fairly good but the mink are becoming very scarce, and he suggests that their season should not open until December 1st.

Partridges are very plentiful all round his district, and there is the usual good supply of ducks.

Gore's Landing.

Overseer J. R. McAllister of Gore's Landing reports that during April and May bass and maskinonge were as plentiful as other years, but except for the first two weeks of the open season, maskinonge fishing was very poor. During the first week in September when the fishing should be good, two men from Sodus, New York, fished for six days, mostly for maskinonge, and caught one fish. Bass fishing was a great deal better.

Ducks are as plentiful as last year. At the time of writing there are a great many round the lake.

Other game, such as grouse, rail, squirrels, rabbits, are the same as last year.

The law regarding both fish and game has been well observed in his division, but he heard that the Indians are doing pretty much as they like on the rice beds, near the mouth of the Indian River.

There were not so many visitors as last year on account of the poor fishing.

Muskrats were scare, as usual, and will continue to be so until the season for trapping them is shortened. He considers that from March 15th to May 1st is quite long enough for the open season.

The people are not satisfied with the change in the law with regard to the time of day when ducks may be shot. They want it as it was before half an hour before sunrise and half an hour after sunset. He, himself, thinks that the shooting should be gin as soon as ducks can see the decoys and the hunters can see to shoot properly.

He made a note of this on October 31, when he was on Spook Island, facing the East and by his watch it was forty minutes from the time that it was possible to see to shoot until sunrise.

Harwood.

Overseer W. H. Johnson of Harwood, reports that the Game and Fishery Laws have been fairly well kept in his district, with the exception of "shooting before sunrise and after sunset." He thinks that if the overseers could work together in a different manner from what they have been doing, the Game and Fishery laws would be better observed.

The water in the lake was higher than usual during the spawning season, but it fell quite rapidly, leaving the spawn and little fish to perish in the marshes. Maskinonge fishing was no quite so good as it was last year, but bass fishing was better and the tourists were well pleased.

Black and wood ducks were not so plentiful, but the other species of duck were about the same as last year.

Black and grey squirrels and partridges are very scarce. He thinks that either the season should be closed for three or four years or the open season shortened.

Rabbits are very plentiful. Mink very scarce, and muskrat trapping not so good as last year. He strongly recommends that there be only one month of trapping and that the month of April.

Thompson's Landing.

Overseer W H Thompson of Ballieboro, reports that the laws have been fairly well observed.

Maskinonge were not so plentiful in the rived during the spawning season, as the weather was cold, and they probably spawned in deeper water. Maskinonge fishing has therefore not been so good as it was last season, although some large fish have been caught. Overseer Thompson thinks that fishing from gasoline launches should be stopped.

Black and wood ducks are scarce, particularly the latter. Partridges and black and grey squirrel are also scarce. Muskrats are about the same as last year; they are very closely hunted and he thinks it would be better if the season started on March 1st and closed on April 15th. Mink are very scarce and he proposes that skunk and raccoon should have a close season.

He thinks that the discharging of guns on Sunday should be stopped. The people who do this cannot be fined unless they are shooting game but it is very annoying for the residents to hear guns being discharged on Sunday.

He further proposes that all overseers between Peterborough and Hastings meet once a year to talk things over, with a view to improving the fish and game.

Keene

Overseer John McFarlane: Ducks were very plentiful on the Lake in the Spring, more so than they have been for years, and they were not molested; but in the Fall the hunters were difficult to watch, as they will break the laws if they can. There has been more moonlight than usual and they will shoot after sunset and before sunrise if they are not watched.

He found some hunters shooting by moonlight, but they got away leaving their decoys behind, which he seized. He also had to tear down some blinds which were beyond the limit.

He made one conviction for shooting hares in close season.

Partridges and black squirrels were plentiful.

There was a good crop of rice this season. About twenty tents of Indians and their families were camped on Sugar Island, at the mouth of Keene River, from the other side of the Lake. These, with a number of Indians from Hiawatha, gathered rice through September, for which they received a god price.

The mill owners were careful about their sawdust and refuse.

He thinks the guides should be obliged to get their licenses from the Overseer of their district, as he would then know who had licenses and who had not without making enquiries. As it is, a number of the guides from his district go to some other Overseer for his license and vice versa. In talking this matter over with the other Overseers they were of the same opinion, and would like to see the change made for Rice Lake.

Lakefield.

Overseer F. J. Moore of Lakefield reports that during the past year the Game and Fishery Laws have been fairly well observed. spearing and netting of fish being almost stamped out. Last spring was a fairly good season for bass and maskinonge to spawn, as the water was high until the season was well over, which gave the small fish a chance to get out into deep water. Tourists have had very good luck fishing with rod and spoon, particularly those who employed guides. He recommends that Stony Lake be re-stocked with bass, as it is becoming a great summer resort for tourists from all parts of the United States, as well as from our own Provinces; he thinks the fishermen would be willing to pay more for their licenses if they were sure of good fishing, as they seem very taken with the Lakes. Many anglers went further up the lake this year, as the fishing seemed to be better. He suggests that this Department cooperates with the Dominion Government to keep the water as nearly one height as possible during the spawning season in the Spring. He further recommends that the close season for bass and maskinonge be from April 1st—15th June.

Partridges are plentiful but ducks are scarce. Trappers have had a fairly good season with the muskrats but mink are not so plentiful.

He suggests that the carying of firearms be prohibited as far as possible during the close season, as there are so many people on the waters in the summer that it is very dangerous, and there is no need to carry them.

Bewdley

Overseer A. J. Kent of Beydley reports that the laws were well observed with regard to the fish. The past season was a record one, the fishing being the finest that has ever been known for many years.

Muskrats were no very plentiful last spring, and he recommends that the open season be shortened. Ducks and black squirrels are very numerous, and partridges seem to be on the increase.

Tourists are beginning to find this district a good one for sport, and it is expected that next season there will be an increase in the number of visitors, as a summer hotel has been erected for the accommodation of those seeking good fishing and shooting.

Considering everything he is well satisfied with the result of the season.

Hastings.

Overseer J. H. Hess of Hastings reports that the Game and Fishery Laws have been well regarded in his district. He thinks that the public have come to the conclusion that it is necessary to protect the game and fish.

The fishing was good at the beginning of the season and some excellent catches were made, the quality being above the average, but for some reason, later in the season it was almost impossible to catch a fish.

Ducks were plentiful this season, and very little illegal work was done.

Revenue Received

Money received from Overseers and others in this district was, in part, as follows:

R. W. Carson	$166
Dr. Ireland	4
W. H. Johnston	100
Thos. Johnston	49
A. J. Kent	18
J. R. McAllister	138
J. McFarlane	8
F. J. Moore	444

LIVE STOCK MARKET

Special Wire to The Examiner:

UNION STOCK YARDS, March 2.—Receipts were liberal, 138 cars, 2,729 cattle, 760 hogs, 144 sheep and lambs, 27 calves.

Cattle.—The cattle trade was dull and draggy, as there were few buyers on hand, and they and the sellers were wide apart as regards values. There veer a few cattle of choice quality reported as high as $8.50. Choice butcher's steers, $8.25 to $8.50. Good butcher's steers, $7.75 to $8.15. Medium butcher's heifers, $7.40 to $7.60. Commons butcher's steers, $6.75 to $8.00. Choice cows, $7.00 to $7.25. Good cows, $6.50 to $6.75. Canners, $3.50 to $4.50. Choice heifers, $7.75 to $8.00. Common heifers, $7.25 to $7.50.

Feeders and Stockers.— Choice steers of good weight were in demand, but common light stockers were slow sale. Choice steers, $7.60 to $7.85. Medium steers, $6.50 to $6.75. Stockers, $5.75 to $6.25.

Milkers and Springers.—A fair supply sold at $65 to $100 each; bulk sold at $70 to $85 each.

WOULD BAR ASIATIC

Oriental Immigrant a Menace, Says Hon. Mr. Oliver

IMMIGRATION IS DISCUSSED

OTTAWA, March 3.—Oriental immigration, heretofore discussed exclusively by British Columbia members, was the subject of a debate in the House yesterday in which only one member from the Pacific province participated.

Hon. Frank Oliver, speaking to a motion for the production of papers respecting the recent order in council in regard to the exclusion of artizans and laborers from British Columbia and the deportation of certain Hindus, said that this country would soon have to decide whether Asiatic civilization or European civilization who to be dominant in every part of Canada.

Personally, he believed that all Asiatics were undesirable immigrants, and that the Government should take steps to stringently restrict Oriental immigration. The immigration officials, he said, should be vested with plenary powers to deport them.

Hon. Rodolphe Lemieux thought Canada could not decently increase the present head tax of $500 on Chinese, and at the same time build up an increased trade with China.

As to the Japanese, Mr. Lemieux denied that they were undesirable, but, on the contrary, averred that Japan from every point of view rivalled in progress and efficiency the nations of Europe. Moreover, Japan was the great ally of Britain, and her people could not be branded as undesirables.

As to Hindu immigration, it presented a problem which Mr. Lemieux believed to be acute. From an economic standpoint the Hindus were undesirables, but they were British subjects.

Mr. Stevens (Vancouver) presented in trenchant form British Columbia's objections to oriental immigration. No one, he said, any longer favored Oriental immigration except the transportation companies and a few men deceived by the line of "cheap" labor.

Turning to the Hindus, Mr. Stevens declared that their moral standard was low and they lived in the greatest filth and degradation. They were afflicted with hookworm and if allowed to come here in large numbers would degrade the national type.

Mr. Knowles (Moose Jaw) disagreed radically with Mr. Lemieux and declared himself against Oriental immigration. The Hindus were British subjects, but that had nothing to all to do with the matter.

British subjects were sometimes hanged, imprisoned and lashed, and if they were undesirable immigrants they should be excluded from the country. Their being British subjects had nothing on earth to do with the matter one way or the other.

Hon. W. J. Roche, Minister of Interior, said that the Sikh priest recently sent back to India had not been deported because he was a Hindu, but because he was an undesirable person who had gotten into the country by criminal means. He said that an order-in-council had been issued, forbidding the entrance of laborers and artisans into British Columbia because of labor conditions in that province. There was much unemployment, and it was thought best for a time to prohibit the entry of laborers and artisans. The order however, was only for a limited period, and would expire on the 31st inst. The Government had not yet determined whether to extend it for another six months, although it has been requested by the laboring people in British Columbia to do so.

Hon. C. J. Doherty, Minister of Justice, discussed the legal question raised by Mr. Lemieux as to the power of the courts to interfere with the deportation by writs of habeas corpus. He said that in the case of the Sikh priest, and also, in the case of Harry Thaw, no writ had been served upon the immigration officers. In the case of the Hindus at Vancouver, Chief Justice Hunter had allowed the writ, and not because of any defect in the Immigration Act, but because the order-in-council relied upon was not authorized by the Immigration Act. He therefore held that it had never been decided by any court whether or no the Dominion Parliament had power to abolish the writ of habeas corpus. It was an interesting question, and a very important one, but he did not propose to attempt to decide it at this time.

Hon. J. D. Hazen, Minister of Marine and Fisheries, interrogated by Sir Wilfrid Laurier, made a brief statement respecting the status of the international fisheries treaty. Canada had notified the U. S. that she would withdraw if the treaty was not ratified by the United States by March 1, 1914. That date has now passed, but in view of assurances from Washington that the necessary legislation would be passed by Congress within a short time, the Dominion Government had consented to wait a reasonable time in the hope that the treaty would be fully ratified.

The Carey-Hewlett Concert

The Carey-Hewlett concert and organ recital afforded a delightful evening for a fairly large and decidedly appreciative audience in St. Andrew's Church last night. Mr. J. Hewlett of London and Hamilton reached the soul of the splendid new organ at St. Andrews. His programme showed a nice selection and his musical talent and inspiration is beyond question. Opening with Bach's prelude and fugue in E flat major he varied his selections with fine effect. There were more difficult and exacting numbers than Johnstons "Evensong," but this exquisite little tone poem lingers in the memory when the pomps of the more stirring pieces have flown. It was a fanciful, melodious song without words and Mr. Hewlett's interpretation left nothing to be desired. Another dainty number was Lemaire's Serenade from an Arcadian Idyl, as was also a Song of Springtime. A stirring selection was Finlandia, written by J. Sibelius, one of the foremost of Finlands musicians. It expressed the sufferings of the country under the yoke of Russia and the straining at the restraining bonds, with a bold choral finale. The substitution of a Gounod March for Boellman's Toccata produced a pleasing number. The overture to William Tell provided an illustration of Mr. Hewlett's technique, and presented to the audience a selection that is always welcome in capable hands.

It was possibly the consensus of opinion that Miss Estelle Carey's singing was the feature of the concert. In referring to her contributions one is inclined to superlatives which usually overleap the mark and fall in their object. Her soprano is rich and voluminous, with a liquid tone enhanced by all the vocal arts. Her enunciation was well nigh perfect and in the wide vaulted spaces of St. Andrew's her notes and her words with their endings, were as clear and distinct in the forte measures as in the piano. Miss Carey is a delightful vocalist, plus an apparent gladsome personality that rings in her work and adds charm and effectiveness to it. Two of her best numbers were "The Swallows," and "Haymaking," both suggestive of spring and of the joy of youth and life. Of a different nature were Gounods "O Divine Redeemer," and Behrend's "A Gift." The bell-like purity of Miss Carey's voice was equal to every one of her numbers and the encores she gave were most welcome. The Cuckoo Clock and "Daddy" were pretty touches in alighter strain than the other solos.

Miss Carey adds so much of the joy of singing to her talent and vocal abilities that the audience quickly responds to this happy combination. Altogether it was a most enjoyable entertainment and both artists should be generously welcomed should they return to Peterborough.

OPERATIC GEMS FOR THE BAND

Gilbert and Sullivan Selections Are Being Taken Up

The 57th Regimental Band had a splendid practice in the Armouries, last night, with some thirty members on hand. For some time the Band has had very little opportunity to rehearse on account of other engagements, but from now on the organization will get down to hard work. A consignment of new music has been received from England, which the Band will take up. Among this music are a number of selections from the Gilbert and Sullivan operas, including "Pinafore," "The Pirates of Penzance," and "The Mikado." A new Remick medley and a number of other light selections are also being rehersed.

A Splendid Concert At St. Paul's Church

Enjoyable Programme Pleased a Large Gathering

Mr. John Allan, the Choir leader of St. Paul's Church, and every member o' the Choir are to be congratulated on the splendid entertainment they gave in the lecture room of the Church last night. The reputation of the choir and its soloists are such that a very good audience attended, in spite of other events of a like nature which were advertised and which took place last night. All were thoroughly pleased with the programme and their reception of every number was warm in the extreme. A splendid variety introduced in the vocal offerings prevented the barest suggestion of monotony creeping into the programme, which was entertaining and of a high order throughout.

Miss Dorothy Allan's singing, as always, was superb. Although she sang in nine of the numbers during the evening, which must have been a strenuous one for her, her solo and encore toward the last of the programme were full of life, power and accuracy of interpretation. Miss Allan gave two solos, sang two selections in a mixed quartette, and took part in the renditions of the choir. In all of these here voice was full of expression, and displayed an admirable accuracy that rang true into the higher ranges. It would seem that she is among those of the local soloists who are destined to win more than local reputation and popularity.

Mrs. F. E. Ellis rendered a splendid solo in the first part of the programme and the selection proved a desirable vehicle for her talent. Her voice is a pleasing soprano, capable of rendering with effect the difficult arias of the best music.

The part songs by the Choir were greatly enjoyed and without the selections of this well-balanced, nicely trained body of choristers the programme could hardly have been said to be complete. Every section registered distinctly with great resultant harmony and neither the undue prominence of one part, nor the lack of strength of another was present to mar their work. The rendering of 'Break! On Thy Cold, Grey Stones, O Sea," without accompaniment, was ample demonstration of the effective and skillful training of the Choir.

Miss Lora Logan, violinist, contributed two beautiful solos. In both her technique was faultless, and the expression which constitutes so largely the merit of one's performance on the violin, was versatile and definite.

Mr. Robert Dickson and Mr. Gordon Wright rendered two solos which were greeted with much applause. The former has a good baritone voice and sang a patriotic selection "Scotland Yet." The latter, whose tenor is full and powerful, sang Bevan's "The Flight of Ages."

Mr. F. Skitch's bass solo was greatly enjoyed. He is a singer well known to the music lovers of Peterborough, and his solo last night was so heartily received that he was forced to respond with an encore.

The two selections by the quartette consisting of Miss Allan, Mrs. Allan, Messrs. McKeown and Dickson, deserved the favourable reception they received. The voices blended well throughout the two compositions which had been well chosen.

The programme was as follows:

Part song, "Scots Wha Hae," ..... (Leslie)
The Choir.
Quartette, "He That Hath a Pleasant Face" ..... (Hatton)
Miss Allan, Mrs. Allan, Messrs. McKeown and Dickson
Solo, "The Flight of Ages" (Bevan)
Mr. Gordon Wright.
Violin solo, "Capriccio Valse," (Wieniawski) .....
Miss Lora Logan.
Solo, "Dreams" ..... (Streleski)
(with violin obbligato by Miss Logan
Mrs. F. E. Ellis.
Part song, 'Break on Thy Cold Grey Stones, O Sea" ..... (Macfarren)
The Choir.
Solo, "Scotland Yet" ..... (McLeod)
Mr. Robert Dickson.
Solo, "The Page's Song" (Les Huguenots) ..... (Meyerbeer)
Miss Dorothy Allan.

Intermission

Quartette 'The Chevalier's Roll Call' ..... (Rodide)
Miss Allan, Mrs. Allan, Messrs. McKeown and Dickson.
Solo, "Roll on Thou Deep and Dark Blue Ocean" ..... (Petrie)
Mr. W. F. Skitch
Chorus "Bridal Chorus" (Rose Maiden) ..... (Cowen)
The Choir.
Solo "An Irish Love Song" ..... (Lang)
Miss Allan.
Male Chorus "Just a Song at Twilight" ..... (Molloy)
Male Choir.
Violin Solo 'Cavatina" .... (Bohm)
Miss Logan.
Duet, "The Keel Row" .... (Watson)
Mrs. and Miss Allan.
Part song, "The Land O' the Leal" ..... (Lady Nairne)
The Choir.
God Sove The King.

Rehearsal.

The St. George's Choral Society will rehearse this evening at eight o'clock, in the Assembly Hall of the Collegiate Institute. A full attendance is requested. This is the first banner night.

WAGE-EARNER'S IDEAS ON SOME SOCIAL PROBLEMS

To Editor Examiner:

Dear Sir,— The social and moral problems of to-day are causing considerable interest, because the modern methods used to stem the tide towards immorality are proving a failure.

The question is of special interest to the wage-earner who is a father of a family. A great many of this class believe that the methods used by some moral reformers to better the condition of the people are a snare and a detriment to those they are supposed to benefit.

The question has been asked and debated, "Is the high cost of living against the healthy growth of our country?" The material manner in which this question is handled would lead one to believe that ancient Rome, the "whitened sepulchre" was in a healthy state on account of its wealth and grandeur and could and would have remained so if they were formed into trusts, combines and mergers.

If the masses of the people are discontented, immoral and neglectful of their Christian duties, one of the great causes is the high cost of living brought about by promoters of combines, trusts and mergers. The people are discontented because they are called upon to shoulder the burden when those promoters and managers run up against a shortage of money in a land of plenty such as we have in Canada. Would it not be the just course to place upon the market the over production at a reduced price to the consumer before cutting the wages of the wage earner? But does not the reduction of wages take place in order to prevent the combines from being forced to take this course? Many of the wage earners believe that temples erected for worship of God are made "dens of thieves" by the ministers of the Gospel not condemning those promoters and managers. Is it for Christ's sake that they deal with them with so much consideration for their business interests. It might not pay to do otherwise to those generous contributors. This is a serious matter and has a great effect upon the morals of the people because they do not hear Christianity properly applied. Christian charity as St. Paul taught it seems to me to be a secondary consideration compared with money and position in society. Christianity, by the storms of pride and passion, has been cast upon the rocks from time to time and at the present many forms are drifting in many channels from many causes, while the enemies of Christian virtues are enjoying the situation of seeing many sects trying to liberate themselves from the whirlpools of uncertainty. You may hear the Athiest Anarchist and Socialist applaud the successful efforts of some church in keeping up enmity and hatred of one religion for another; and it is to them great satisfaction (for they know what the end will be with the wage-earner), when they see so-called preachers of the Gospel being made tools of by unscrupulous politicians. These are some of the reasons why the press must be used to reach the people.

Many a father, on account of the high cost of living, is sending their young daughters to work at an age when they should be watched over with the greatest care. Those fathers in many cases don't know their duty, and are fast losing the respect they should have for modesty, even in their own daughters.

The high cost of living and the unjust reduction in wages very often compels this same man to live in a locality where the surroundings are against the moral welfare of his children. If this is not his fault, then why is the evil that causes this result not exposed? Show this man that Christianity is the best friend the wage-earner has ever had and by practically applying true Christian charity the churches will bring back many lost sheep to the fold. If some of the mothers in our City who are leaders in society's fashions and fads, and owe their position of affluence to the high cost of living created by trusts and combines, would be taught by the churches to give more care and attention to the moral training of their well-dressed and highly educated sons, it would go a long way towards improving the moral standing of our City. Some modern mothers of this class adopt the latest race suicide methods and are never checked. They have the high cost of living to use as an excuse. It appears to me judging by the actions of many of late, that it is a belief of many of the upper ten that it is only criminal and immoral to use preventives before marraige. Let Christianity be taught, as Christ would have taught it, without fear or favour, and then we can say with a bold front, by our fruits we are known.

Yours truly,
WAGE-EARNER.

DEPUTATIONS WAIT UPON THE COUNCIL

And In Each Case Secure What Was Asked For—Reduction of License Fee

A deputation representing the Peterborough Industrial Exhibition waited upon the City Council last evening, with the request that the annual grant of $600 to the Exhibition be renewed. Mr. J. H. Garbutt, who acted as spokesman for the party, stated that the Exhibition was growing, and was destined to become one of the best exhibitions in Eastern Ontario. He referred to the need for additional accommodation. The grant was allowed.

Fee Will be Reduced.

The City license fee of $50 for auctioneers will be reduced to $25, as a result of a deputation that waited upon the City Council last evening. Mr. Thornton, who spoke on behalf of the auctioneers of the City, said that the present fee of $50 was prohibitive, and that if it were reduced to $25, as requested, a much larger revenue would accrue to the City. The county license fee is $25. Sales in the county often net the auctioneer from $50 to $60, whereas in the City they seldom exceeded $25 and sometimes ran as low as one dollar.

Aldermen Langford and Gordon both expressed themselves as being favourable to the proposed reduction.

A resolution was adopted authorizing an amendment to the present by-law.

Wednesday—Kid Gloves 60c at Elliot's.

FATALLY INJURED IN A COLLISION

Special Wire to The Examiner:

CHICAGO, March 3.—Jas. Breen, aged 43, a trainman of Chicago, received fatal injuries and four passengers were badly bruised, when the Grand Trunk passenger train, inbound, crashed into a Wabash freight at Forty Ninth Street, here, to-day. "Steel coaches," said the officials of the Railway, "were responsible for the fact that more were not killed or injured." Marley Burns of Chicago, who attempted to flag the on-coming passenger train, was caught in the crash and pinned under the debris. He will lose one leg, and possibly both, as a result.

Music & Drama

"PEG O' MY HEART."

The delightful comedy "Peg O' My Heart," which made such a favourable impression upon local play-goers when seen here early this season, was the attraction at the Grand Opera House last night and pleased a large audience. The company, a different organization from the one which first produced the play here, was a thoroughly adequate one, and did ample justice to the possibilities of the comedy. Few productions in recent months have been more enjoyed.

BOARD OF TRADE OFFICERS.

CAMPBELLFORD, March 3.—At the annual meeting of the Campbellford Board of Trade the following officers were elected: President, J. A. Humphries; Vice-President, A. E. Caddy; Secretary, G. E. Gaudise; Treasurer, A. J. Jenkins; Council: C. L. Owen, ex-M.P.; ex-Mayor Irwin, Dr. Macoun, Rev. Chas. Carpenter, Messrs. Jewett, D. F. Robertson, A. McKenney, J. D. Canning, T. J. Hoskins, J. A. Anderson, T. C. Smith, and G. A. Kingston.

Minister Of Trade Wanted By Retailers

Merchants Desire Ontario Government to Create New Portfolio —Public Lack Sympathy

OFFICERS ELECTED

The Provincial Government will be asked by the Retail Merchants' Association of Ontario to create a portfolio of Inland Trade. At the closing session of the convention yesterday a resolution as unanimously passed that the Cabinet be urged to appoint a Minister to look after the trade interest of the province.

It was pointed out in the resolution that there is a large sum of money invested in retail distribution throughout the province, and as this form of investment holds a larger share of capital than any other, it is necessary that every effort be made to protect the retail interests. The subject will be taken up by the executive of the association immediately.

During the day a large number of resolutions were carried by the meetings and among them were some censoring the press severely. In the case of the coal dealers it was decided that a number of articles had been published locally which were "without truth or foundation," and the executive were empowered to take such steps in the matter as they deemed advisable. The alleged abuse that the various sections of the retail trade have received in the press was also condemned, and it was decided that this was due to lack of education. It was decided to appoint an educational committee to give addresses on the subject. The antagonistic attitude of the women's leagues and other organizations was also noted in the resolution.

PROPOSED TAX UNFAIR.

The question of placing a special tax on vehicles used by retailers was brought up and a resolution was passed condeming it as unfair and deciding to strenuously oppose any legislation towards this end.

The Sunday Closing Act was considered at great length. It was claimed that often great pressure was placed upon the merchant to force him to make a sale and a resolution was passed asking that the customer be made equally liable with the merchant for violating the Act. A kindred resolution asking that the manufacturer be made liable for selling adulterated goods instead of the retailer was also carried.

Resolutions were adopted asking that legislation be passed to make false advertising of merchandise a crime; that the convention take further steps to press amendments to the Division Court Act simplifying the collection of small debts and of amending the early closing by-laws so that merchants in any municipality can close their places on one afternoon of the week.

The present system of charging for freight cartage at both ends of the trip was condemned as unfair, and the executive was requested to take steps to remedy the affair. It was also decided to combat any attempt to introduce legislation in regard to co-operative societies.

The following officers were elected for the year:—B. W. Zieman, Preston, president; A. M. Petterson, Brockville, first vice-president; R. D. Cameron, Lucknow, 2nd vice-president; H. F. Higgins, Toronto, treasurer, and E. M. Trowern, Toronto, secretary. The executive will be composed of the foregoing officers and A. Weslow, Berlin.

AN IRISH EVENING

The Daughters of Erin of St. Andrew's Church are having an Irish Evening in the Lecture Hall of the Church on Tuesday Evening, March 17th. This is an annual affair, and previous Entertainments under the auspices of the Daughters of Erin, have always proved very pleasant and successful.

"WITH THIS RING I THEE WED"

And then the "plain wedding circle" is slipped over her finger, and the clergyman says, "I now pronounce you."

"Plainness," however, is not so characteristic of wedding rings as it once was. We have the 12, 14, 18 and 22 karat plain gold bands, costing $3.50 to $10.00.

Aside from this, wedding rings vary extensively in width, and other details, giving our display a greater variety than you would think probable.

They are an interesting sight, when all laid before you, and we shall be very glad to have you inspect them.

SCHNEIDER, The Jeweller, George St.

"M'FADDEN'S FLATS"

An Old Favourite Coming to the Grand in a New Way

"McFadden's Flats" has been reconstructed. In lieu of any possible old ideas, the brightest, newest things imaginable have been introduced to such an extent that the new review is practically different in detail. Recently composed music, new songs and specialties have been added as well as a number of mechanical and electrical devices entirely cut out of the conventional; in fact there is evidence on every hand of reconstructed effects and settings from the rise to the fall of the curtain. The piece is presented this year in a spectacular fashion and requires a large chorus of young ladies, who in their gorgeously made costumes cut quite a figure in the many different and original ensembles. All in all the new "McFadden's Flats" is the proper caper in the world of spectacular farce reviews. It will be the attraction at The Grand on Saturday next, March 7. In the cast are Arthur Connolly, Joe Mason, Linton De Wolf, Speck Bros., Jack Lampe, Annie Hart, Maybelle Mahlum, Norine Dunham, Olive De Wolf, Kittie Morgan and a large chorus.

EAST CITY IS AVERSE TO GARBAGE COLLECTION

According to Ald. McIntyre, Who Requested That the East Ward be Eliminated From the Proposed Garbage Collecting Area—Matter Was Referred Back to the Property Committee.

TO PERFORM POST MORTEM

The matter of extending the area from which garbage shall be collected has again been deferred. This time at the instance of Alderman McIntyre, who claimed to voice the feelings of the majority of ratepayers in East City, when he asserted that ninety-five per cent. of the people across the river would object to the inauguration of a garbage collecting system.

The recommendation of the Property Committee respecting the collection of garbage, and submitted to the Council at their regular meeting on Monday evening, is as follows:

Area Recommended.

We recommend that the area from which garbage shall be collected be extended so as to include the area bounded as follows: Along the Lakefield line of the Grand Trunk Railway from the River Otonabee to Smith St., Smith St. to Downie St. (both sides) to London St., London St. (both sides) to Park St., Park St. (both sides) to McDonnel St., McDonnel St. (both sides) to Cambridge St., Cambridge St. (both sides) to Elm St., Elm St. (both sides) to the Monaghan Road, Monaghan Road to Paterson St., Paterson St. (both sides) to Park St., Park St. (east side) to Albert St., Albert St. (south side) to Alfred St., Alfred St. (both sides) to Chamberlain St., Chamberlain St. (both sides) to the Monaghan Road and east to Park St., Park St. (both sides) to Romaine St., Romaine St. (both sides) to the river; Hunter St. east (both sides to Driscoll St., Driscoll St. (east side) to Douro St., Douro St. (both sides) to Concession St., Concession St. (west side) to Sophia St., Sophia St. (both sides) to Burnham St., Burnham St. (both sides) to Maria St., Maria St. (north side) to the river.

Maintenance of Incinerator.

"We recommend that the cost of operation and up-keep of the incinerator be paid by the city, and the cost of the collection garbage, etc., by the area from which it is collected, and that the City Solicitor prepare a by-law to provide for the collection of garbage, etc., in the extended area from June 1st next, and also to collect the rates.

We recommend that the chairman have a dag pound provided at the incinerator and that the caretaker of the incinerator be placed in charge of such pound under the direction of the Chief Constable.

We give instructions to have a by-law prepared that all fowl sold on the market be drawn and cleaned and sold by weight, the by-law to take effect on April 1st next.

Eliminate East City.

Alderman McIntyre moved that the last part of the recommendation, referring to East City, be struck out.

Alderman Duncan—"Who are you speaking for the whole of East City or for two or three people?"

The East City representative replied that he had been approached by several ratepayers who had voiced their objection to the measure.

"This proposal is like many others," said Alderman Anderson. "Some people will favour it and others will oppose it. I have heard of many who were in favour of a garbage collecting system in East City. Some of the streets named might be eliminated."

Alderman Green—"There is considerable weakness in the present legislation respecting the collection of garbage. Last year, iron foundries were not included in the list of places to be served by the system. This year they are. I am in the foundry business by the way. Last year I advised the Committee that I would not carry the garbage from my house to the road. This year, the cost is assessed to the various properties. It is unfair that I should be assessed for one house on ten acres of land. I do not object to paying for the Park street frontage, but I do object to paying for the frontage extending from Park street to the boundary."

Alderman Johnston's View.

Alderman Johnston admitted that there was a good deal of common sense in what Alderman Green said. He had less sympathy for the big property owners than he had for the poor man.

The matter was referred back to the Property Committee together with clause six in the report of the Committee, which refers to the preparation of fowl for the market. The latter specifies that all fowl sold on the market shall be drawn, cleaned and sold by weight. Alderman Johnston stated that the last named clause would have a tendency to induce the farmers to sell the fowl alive rather than undertake the task of cleaning them as required by the proposed by-law. The Council were unanimous in regard to the proposal to weigh the fowl. The Property Committee will be asked to re-consider the clause referring to the performances of a post mortem upon all fowl that is offered for sale.

EARTH INVOLVED IN CLOUD OF METEORS

Some of Which May Be Seen to Fall With a Slow Motion—Stars For the Week

To-day, March 3, the planet Saturn, which appears overhead at 8 o'clock at night, will be exactly one-quarter way round the circuit of the heavens from the sun.

And to-day the planet Mercury will be at the farthest point north that it ever wanders from the sun.

On Wednesday the planet Jupiter will be in conjunction with Uranus in the early morning just before the sun, Jupiter at the time being just slightly more than its own diameter north of Uranus.

On the same evening Saturn and the moon will be within six degrees of each other.

On Thursday the moon will be at "First Quarter."

On Friday evening Venus and Mercury will appear within five degrees of each other, Mercury being to the north, and on the same night Mars and the moon will appear close together, Mars being about twice the moon's diameter to the south.

From March 1 to 4 the earth is involved in a scattered cloud of meteors, some of which may be seen to fall with a slow motion and appearing bright, coming from the direction of the constellation Leo, which rises in the east about six o'clock at night, just north of the equator, and sets in the west at about six o'clock next morning.

RECORD OF HIGH WIND VELOCITIES

On Sunday Wind Attained Velocity of 84 Miles an Hour—35 Pounds to the Square Foot

March has commenced in windy fashion on several occasions, but yesterday was perhaps the windiest first day of March on record. Previous to 1900 complete records have not been kept.

Sunday saw the windiest opening day of the month since 1901. In 1908, on the first day of March, a gale blew at 48 miles an hour, and on the first, 1911, 40 miles an hour.

Since 1901 the highest wind velocity on the first day of March have been as follows:

Year.	Wind Velocity.
1902	17 miles
1903	32 miles
1904	24 miles
1905	17 miles
1906	11 miles
1907	30 miles
1908	48 miles
1909	24 miles
1910	10 miles
1911	40 miles
1912	20 miles
1913	14 miles
1914	84 miles

Why did your house shake Sunday night? Well, why shouldn't it? Suppose you shot a few tons out of a catapult against a brick wall, does it not stand to reason that it would jar it a little? Especially if the building has been erected under the supervision of inspectors who have so much to do that they cannot inspect.

At 5 o'clock Sunday night the wind attained a velocity for a brief gust, of 85 miles per hour. This means a pressure per square foot of 35 pounds. Work this out on a three-storey house with a frontage of 25 feet, and you have a wind pressure of over thirteen tons when the wind was blowing at 84 miles. To be exact, a house with a 750-foot aread would have a wind presure of 26,250. If you chucked thirteen tons of anything against your house, you would be rather surprised if the jar was not felt, wouldn't you?

Next time a wind storm comes along during Church time, if the sermon isn't particularly interesting, and if the rattling of the windows, and trembling of the structure will allow you to do mental arithmetic, you can figure out the number of tons of wind that are pounding on the outside of the building and the probability of its withstanding the shock.

A LUMBERMAN'S OPINION

"I was troubled with palpitation of the heart and sleeplessness" writes Mr. Wm. Pritchard, Lumber Dresser, Lemieux Mills, Ont., "and used Dr. Chase's Nerve Food with very great benefit, as my whole system was strengthened and built up." Dr. Chase's Nerve Food forms new, rich blood and restores the feeble wasted nerve cells.

"BUYING A WHITE ELEPHANT"

An Incident With a Lesson to Buyers of Fur Garments

In every manufactured product improvements are constantly being made which place one make ahead of another. It necessary therefore for all users to look into these improvements and ascertain what value is in them, otherwise they may fail to get as good results as might be attained.

Same thing applies to furs: A case in point: An intelligent gentleman called the other day at Barrie's, Limited, and in the course of business was asked where he had procured the fur coat he wore. With some hesitation he mentioned a Montreal house and the price he paid. Anxious, then, to know the furrier's opinion of his purchase, it was pointed out to him that his coat was made of the southern, or imported racoon, with thin fur and light skins, skillfully blended to look like our fine northern coon, with its heavy, thick fur, and that the price paid represented the price of the best fur and not the low-grade pelts.

The consequence was that this man learned a lesson in fur buying, and thanked our local furrier for his information. This is only one instance and it might be multiplied.

A reference to our advertising columns in to-day's issue will acquaint Peterborough fur buyers of the exceptional opportunities prevailing during this month of March, of buying genuine furs at Barrie's, Limited, at a saving of fifty per cent., including all the beautiful coats and fur sets in their store and show-rooms.

A Championship Series With Lindsay Under Consideration

A meeting of the Junior Hockey League excutive was held last night in the Oak Hall store for the purpose of considering a proposal to play home and home games with the junior champions of Lindsay. The representatives of all the teams were favourable to the proposed plan, and if the details can be prepared the first game will likely be played here on Friday night. The Lindsay Collegiates are a nifty aggregation. They have a feeling that they could trim the Peterborough Junior O.H.A. team, but the local city leaguers figure that they can pick out a seven that will give them a strong argument. Arrangements are under way now and the matter will be definitely decided to-morrow.

DOLLAR DAY March 12th

COURT TAKES UP WAKEFIELD CASE

Special Wire to The Examiner:

NEW HAVEN, Conn., March 3.—The State Supreme Court met here to-day to hear arguments on the appeal for a new trial in the case of Mrs. Bessie Wakefield, who is confined in the State prison at Wethersfield under sentence of death for the murder of her husband. James Plew, the actual slayer of Wakefield, and whose testimony that the wife was an accomplice, led to her conviction, is to be executed at the Wethersfield prison to-morrow. Plew made his appeal for a new trial.

William Wakefield, the victim of the murder, was slain in the Cheshire woods last June. According to the confession of Plew he and Mrs. Wakefield had formed the plan to get rid of the woman's husband so that they could marry. In accordance with this plan Plew attempted the murder at the Wakefield home on June 22, but was unsuccessful. He then induced his intended victim, whom he had partially drugged, to go walking with him, finally leading him to an unfrequented spot in the woods, where he shot and stabbed him to death, and then tied some shoestrings about his neck and to a stump to give the indication of suicide.

BIG MEETING OF HARDWARE DEALERS

Special Wire to The Examiner:

BOSTON, Mass., March 3.—More than 1,000 hardware merchants, representing business amounting to $150,000,000 annually, gathered in Boston to-day for the annual convention of the New England Hardware Dealers' Association. The association is the oldest organization of the trade in America. The convention sessions which were begun to-day will continue until Friday. Among the participants are two women members who are heads of big hardware firms.

TURNBULL'S

IN THE WORLD OF SPORT

THE TOOL ROOM ARE CHAMPIONS
WON THE DECIDING GAME BY 7 TO 4

The Better Team Won Although Test Made it Interesting in the Middle of the Second Half.

THREE TITLES FOR WINNERS

The Champions.
Frank Cassidy—Goal.
Fred McGrath—Defence.
Egbert Kelly—Defence.
Frank Barrie—Rover.
Walter Jackson—Centre.
Arthur Primeau—Right wing.
Howard Cranfield—Left wing.

For the third time in the past four years the C.G.E. Tool Room captured the championship of the Mercantile League last night when they tucked away the Test team by 7 goals to 4, leading at half time by 3 to 0. It was a peculiar game. Until about 15 minutes after half time the Test were badly beaten. The Tool Room were out in front 3 to 0, and had it not been for great work by Joe Dwyer in the nets for the losers, would have had it about 15 to nil. Then the Red Shirts woke up and came through with a desperate rally that soon netted them four goals and put them right in the running. From a runaway game the contest had suddenly shifted into a red hot fight, and for a few minutes it was anybody's game. The Tool Room appeared to be fading, but with their lead cut down to one goal, they came on again, drove the Test back, and slammed two goals past Dwyer.

The better team won—there is no doubt of that. The Tool Room were all over their rivals in the first half, working in with neat combination and shooting well, and Dwyer had to work in his best style to keep them down to three goals in the first half hour's play. He handled shots from all ranges, and three times came out and blocked the shot when the Tool Room had broken inside. The Test were lucky to escape with only a three goal minority. The early part of the second half was a repetition of this bombardment, but the Test certainly made things interesting when they staged their fierce rally in the middle of the period. They were using their superior bulk freely, and their heavy checking seemed to tire the light Tool Room forwards. The latter, however, showed their mettle in the last ten minutes when they came through with the counters that cinched the game.

For the Tool Room Barrie was perhaps thep ick, the little rover showing some pretty stick-handling and rushing. Jackson was watched closely and given a rough passage around the nets, but the Red Shirts could not keep him out entirely. Cranfield and Primeau shot nicely from the wings and were always in the game. Kelly's rush the length of the rink for a goal was a feature and he and McGrath made an effective defence. Cassidy performed well in the nets.

Dwyer was the star of the losers, his work in the first half saving a big score. He was the busiest man on the ice for most of the game. Boone played a splendid game at right wing, his shooting being deadly. Carter and McDougal also contributed some nice work.

It was the sixth straight win for the Tool Room, who have earned their honours fairly and squarely. They had to come from behind to nail the Nelson-Meharry silverware, and they accomplished the feat in a decisive manner. They started out by dropping the first game to the Bankers, and they could get nothing better than a tie with the Test. Then the Cassidy gang got working and trimmed the De Laval, Examiners and Plumbers. Playing off the tie with the Test they won 9 to 1, causing a three-cornered tie. The Tool Room eliminated the Bankers last week and finished their work by walloping the Test last night. Len Dobson was a most satisfactory referee. The teams were:

Tool Room.		Test Room.
	Goal.	
Cassidy		Dwyer
	Defence.	
McGrath		McKean
Kelly		Breckinreid
	Rover.	
Barrie		McDougall
	Centre.	
Jackson		Carter
	Right wing.	
Cranfield		Boone
	Left wing.	
Primeau		Munro

Summary:
1—Tool Room, Jackson, 45 secs.
2—Tool Room, Kelly, 21 mins.
3—Tool Room, Cranfield, 3 mins.
Half time.
4—Tool Room, Primeau, 2 mins.
5—Tool Room, Primeau, 7 mins.
6—Test, Boone, 2 mins.
7—Test, Carter, 3 mins.
8—Test, Boone, 4 mins.
9—Test, Boone, 3 mins.
10—Tool Room, Barrie, 5 mins.
11—Tool Room, Cranfield, 3 mins.

Tool Room pressed from the start and Dwyer had to stop a couple of shorts in the first half minute. Then Jackson took a pass from the corner and slipped one by the Test goaler in 45 seconds.

For the next quarter of an hour the play was nearly all at the Test end of the rink, and Dwyer was worked overtime. He stopped shot after shot, while Cassidy only had two or three heaves to handle. Finally Kelly got away for a nice rush. The Test defence chased him into the corner, but he swerved out across the net and took Dwyer's measure.

Cranfield made it 3 to 3 a little latter on a pretty shot from the side.

Dwyer saved several goals immediately after when Jackson was inside on combination rushes.

Tool Room opened the second half by scoring two more goals and it looked to be all over. Primeau got them both, the first from a scrimmage after a combination rush, and the second by following in on his own spot and rolling the rubber through when Dwyer fell in making the stop. Then the Test Room woke up and started a rally that put them decidedly into the running. Boone got No. 7 from a scrimmage, and Carter followed with another one from a mix-up. When Boone scooped one from the left side of the rink, the Tool Room began to realize that they were in a game, and their suspicions were verified a minute or two latter when Boone beat Cassidy again on another neat shot.

It was anybody's game right there, but the Tool Room settled down and drove the Test back again. Barrie and Jackson came through with a beautiful combination rush. Dwyer stopped Jackson's shot, but Barrie swiped the rebound through. When Cranfield scooped another one that hit Dwyer's pad and fell into the nets, it was all over.

Manager Yates is rather sweet on his initial sack capture, but will not mention his name yet. The first base position has been one of the many on the Hamilton club that has been poorly filled in past seasons, and Hamiltonians will be pleased to learn that the 1914 first sack guardian comes here well recommended and with a record that bears consideration.

The outfield will likely be composed of Coleman, Corus and Hastie, although two or three other applicants for positions in the unpopulated portion of the lot will be given a chance to oust any or all of the trio counted on Hastie and Coleman are said to be hard hitters, and with Corus ability with the stick well known, it should be a really formidable trio.

Manager Yates will be here at the end of next week to confer with the club owners. He stated in to-day's letter that he was anxious to report about April 1, but that he would come on at any time to review the situation with the officials. He will be asked to come probably on Friday.

George Needham is to be manager of a team in the Pennsylvania State league, probably at Butler, Pa., where they allow Sunday ball. At present there are twelve clubs listed for this league, tentatively, but it is known that the number will be cu down to six, and Needham says he has the choice of one of two clubs, as have the other magnates in this combination, so all hands are somewhat on the anxious seat. Needham will probably be a playing manager, he says.

Of the men reserved by the Brantford Red Sox of last year, Clermont, pitcher is after two more pitchers, whom he expects to land within a few days. This will bring the twirling staff up to five members, Gero, Gearing and Connell being already signed.

TORONTO, March 2.—President James J. McCaffery, of the Toronto club, made some important announcements last night in connection with the Leafs. Mr. McCaffery is now busily engaged completing arrangements for the training trip of his team at Marlin Springs, Texas.

Pitcher Fred Herbert, who was drafted by the Chicago Nationals, and afterward traded to the Brooklyn Nationals, has been secured for the Leafs. Catcher Drummond Brown, who has signed with the Kansas City Federals, has recommended a young left-handed pitcher for trial by the Leafs, and advances the opinion that the youngster will "do" without being sent back for seasoning.

Outfielder Bobbie Wilson left his home in Pittsburg yesterday for the Marlin camp. He will go from New York to Galveston, Tex., by boat.

"Knotty" Lee, former manager of the Hamilton Canadian leaguers, left yesterday for the New England States in interests of the Toronto club. He has instructions to sign some players who have been recommended by friends of the Toronto club.

ERIE, March 2.—Manager "Heinie" Smith, of the Yankees, was happy when he left Erie yesterday, for Buffalo, has returned to him Billy Wright, the right fielder with Guelph last year, who was a heavy hitter and a sure fielder. Wright was grabbed by the Bisons but needs more seasoning.

Ottawa Free Press — President Fitzgerald, of the Canadian League, has the season's schedule ready for submitting to the various clubs of the league, and the full draft will probably be released for publication next week. The Ottawa club is vitally interested in the dates this season and is none too well pleased with the opening dates at St. Thomas. Manager Shaughnesy who is in Toronto to-day with the Ottawa hockey team, will take the opportunity of calling on President Fitzgerald and putting up a holler for everything that is coming his way. On account of the Toronto team not being able to play at home until May 26 the arrangement of the various series is somewhat complicated.

Dusty Bullock, who professes to be a hold out, had better look alive, as President Frank Navin sent word from Detroit to-day that he was taking a third sacker to Gulfport with him whom he would probably turn over to Ottawa. This boy has had class AA experience and his ability as a fielder and hitter are well known.

There are nine class B leagues in organized baseball, as follows: Canadian, Central, Eastern Association, Three Eyes, New England, New York State, Northwestern, Texas and the Tri-State.

Former Canadian leaguers now down south training with big league clubs are: Fred Herbert (Ottawa), with Brooklyn; Jimmy McAvoy (Berlin) with the Athletics; Ray Keating (Hamilton) with N.Y. Americans; Dunlop (London) with Cleveland.

The latest dope is to the effect Montreal only has two more seasons in the International. The franchise will be purchased at a figure to be named by the National commission, if Sammy doesn't want to sell out, and transferred to Brooklyn or Pittsburg. Montreal will have to seek entrance to the Canadian League, and in two years a Canadian League franchise will command well in five figures.

CANADIAN LEAGUE NOTES

Hamilton Herald: Charles Herman, catcher; William Hastle, outfielder; George Coleman, outfielder.

This trio, along with a first baseman and five other players already signed by Manager Yates, whose names he refuses to divulge for some time yet makes a total of nine new men already secured by the Hamilton Canadian league club. Manager Yates notified the club officials of his progress in a letter received to-day, and he states that all of the men signed are fast and well able to hold their own in B class company. The first baseman is a left-handed hitter and thrower, and has hit over .335 in the past two seasons.

INTERESTING COMMENT ON SATURDAY'S LEAGUE GAMES

Aston Villa's Triumphant March--Bradford City Trimmed Sunderland by the Odd Goal of the Game---Two Clubs That Were Strangers to Victory.

That the famous Villa team of Birmingham are playing in just their old-time irresistible way was yet once again emphasized in London at the Stamford Bridge grounds, when the Pensioners of Chelsea suffered a complete wreck, and its not saying too much to credit the Brums with being the best team in Britain at the present time. One must give credit where credit is due, and during the present year they have simply by virtue of their performances alone fully justified the above-mentioned compliment. All opponents seem alike to the Villans for the time being. Saturday's performances also saw them gain second place and oust Sunderland, in addition to which they also gained a point on the leaders, Blackburn Rovers. True, the Rovers possess a commanding lead of five clear points, but it is now clearly realised by all that with the pride of Birmingham carving their way through every obstacle that comes along, the Rovers must of necessity hang on to their formidable lead. The Villans when in villainous mood are capable of great possibilities, and are no respecters of persons.

Another exceedingly meritorious performance was that of Notts County in the Second division at Bradford, Bradford too, gave evidence last week that they had recovered from their ills by soundly trouncing Fulham by the huge score of 6 to 1 at Craven Cottage. Viewed from this standpoint, the performance of the Lacemen at Bradford, and every fair-minded sportsman must take his hat off to the County in honour of their magnificent triumph.

Huddersfield in the same competition brought off an almost equally brilliant performance. It was no mean task for the men of the Yorkshire woollen district to visit St. Andrew's, Birmingham, and locate the nets on four occasions to the homesters' solitary successful shot. Good for you, Huddersfield! Your work of the last few weeks has been decidedly invigorating and deserves reward.

In the Scottish league, Rangers reminded one of the Rangers of yore, and in scalping the Queen's, were guilty of a very naughty action, for the simple reason no person thought them capable of such a thing. Of course it was not deemed impossible for the Rangers to be returned as victors, no such thing; but six goals to nothing makes one wonder where wonders will cease. True, indeed it is that one can almost look for a bolt from the blue every week.

At Brockville park the Falkirk bairns put a couple of very good conduct marks to their credit in lowering the colours of the mighty Celts by the od goal of the game. Both for the losers, the winners and everybody else concerned, the result was the best thing that could possibly have happened. Could any a couple more sets of foemen come forward and place the Celts on level pegging with the rest of the league leaders, one would see a race worth the while.

The proud Prestonians at Burnley were another set of football warriors who truly earned their spurs on the afternoon's play. No enthusiast needs much telling of what Burnley are capable of doing at Turf Moor. Preston needs the points, as their position could not be much more desperate. In making such a commendably successful effort to lift themselves up out of the mire, they are indeed worthy of all the honours that go with the recognition of true sportsmanship.

Bradford City also accomplished a smart performance at Sunderland where they won by the odd goal of the game. By virtue of their late performances, it cannot be said the Wearsiders are equalling their last seasons form about this period. If Sunderland really intend to be serious contenders for league honours and cup finalists they must uncork that superior brand of football one knows them capable of. Unless they do this, one cannot fancy them greatly. Saturday's victory is a great tribute to the prowess of the Yorkshiremen.

Sheffield Wednesday against their own brothers-at-arms brought off a clever victory in getting the better the United by the odd goal in three somehow or other, the Wednesday generally has much the better of the argument when they meet in these Derby Day games. It is simply wonderful the amount of interest that is taken in these encounters by the residents of the outlying districts. To them the meeting of Wednesday and United is a magnetic attraction that simply cannot be missed. The "Battle of the Blades" is truly an imposing encounter. Long may it remain so.

Both the Manchester clubs were strangers to victory on Saturday last. At Old Trafford the best the United Mancunians could do was to break even with the Geordies of Newcastle, and was a good piece of work for the visitors to accomplish, which also indicates they are improving. The City, at Everton, just failed by the odd goal of the game. The Hyde Road men had better pay more attention to the league than the cup, although it's policy to do the best one can at all times. A most pointed feature in connection with the City club is the remarkable consistency of their defence. When they do suffer reverse it is only occasionally that more than the odd goal separates them from their opponents. A little more weight and dash seems to be needed in the forwards. If such was the case no doubt all the doubtful issues could be turned into victories.

West Ham United in the Southern league was one of those teams who after receiving the order of the knock in the cup rounds kept up their courage. Most teams immediately they lose all chance of future cup glory, just as soon fall to pieces. Not so with West Ham, who in addition to pulling off a fine performance have made the Southern league a real football tit-bit from a spectator's point of view.

Gallant little Wales upheld the principality's prestige in playing a goalless draw with the sons of Scotia. In leaving the field of battle with honours resting evening, the sons of the Lock accomplished a capital performance. The bhoys of the Emerald Isle at the head of the International table with a possible four points to their credit appear to be in a fair way of earning fame and glory. Sure it's been good football that done it. Why don't the Ulstermen and Redmonds men settle it on the field on play, instead of real war? Redmond in one goal and Carson in the other, and the result would be up to them.

TAYLOR AND OXFORD EIGHT

It would be interesting to know just why Geoffrey B. Taylor has lost his place in the Oxford "Varsity" boat for the big early race.

Of course, English despatches remain absolutely mum on the subject, and give one no reason at all for the change. It is only reasonable to think that a change made in the personnel of the crew at this late date is a permanent one or it would not be made at all. Taylor has been rowing opposite number six thwart for many weeks, showing promising form, and he is the only man weighing over thirteen stone (182 lbs.)

It is rather surprising to learn that he has not changed his style enough by this date to conform to the English method of rowing. It certainly looks as if Taylor or Longboat, as he is known at Oxford, would have to wait another year before obtaining a chance to capture his blue.

MANY ARE SKEPTICAL.

There are a few people here that do not hold the popular opinion that Taylor is the wonder that he is supposed to be, and that many of his victories were the result of popularity and favouritism shown to him that other men had to work their heads off for, and very often were never given a chance to show what they were made of.

Taylor is young, and very strong, and these features certainly favour one who enters the rowing game. In the early days when he was making a name for himself he strcked fours that really hadn't very much opposition, and Taylor's crew often won with its youth, strength and weight, and not science.

I am not speaking disparagingly of the crew, for they were apparently way ahead of anything at that time, as was shown by their records.

Later on, when Taylor commenced to stroke "eights," he was very good till he was taught to quicken up his stroke, and that seemed to be the beginning of his downfall.

PACE THAT KILLS.

Latterly it was quickened to such a degree that it took all one's time following the fast stroke without putting any weight on the oar.

This fast pace took all the steam out of the crew, and left them almost exhausted, and nothing with which to row on. After a fast start of this kind had been made they die away, and all are in.

Last year when the crew rowed at English "Henley," this fast, useless stroke was advocated, with the result that they were beaten right off the bat.

The friends of the crew will say that they made the victors touch record time to beat them. This is true, and we will not attempt to discuss that feature, but I will say that wind and water can make an awful difference in time—more than the ordinary person would imagine.

JUST AS GOOD FISH.

To show that other strokes were as good as Geoff Taylor, I would cite an incident of the stroke four rowing the bow four at the Dominion Day regatta some years ago. The stroke end of the eight was Taylor's four, which won many races, and was composed of G. B. Taylor, stroke, Riddy, Gale and Balfour, bow. The bow four was composed of "Tod" Lewis, stroke, Jules Thompson, George Wright, and Ike Robertson, bow.

These crews raced, and Taylor's four never finished the race, giving out afterwards that they were practically swamped by a passing ferry, but their boat was as dry as could be when they landed.

When are the Argonauts to make another pilgrimage to the land of their forefathers? I am of the opinion that it might be as well to have the opinion of a few "fine heads."

HENLEYITE.

HERE IS ANOTHER PAGE OF VALUES

That Demonstrate the Advantage of Visiting Our Store THIS WEEK

It is evident from the increasing number of shoppers who traded here last week that there is a widespread appreciation so far of our display of Beautiful New Spring Merchandise.

The New Models in Corsets have arrived that Fashion demands for the season

CERTAIN models shown here for the first time represent great achievements in the corset-makers' art. Each model is designed to best set off the slim, supple lines of Fashion's present vogue.

The above cut represents No. 525. Extremely low bust, with long skirt, free hipbone, made in fine coutil, in sizes 18 to 25. Price.....$2.00

Other models priced at $1, $1.35, $1.75, $3, $3.50.

Sensational Sale of White Dresses, Wrappers and Skirt Waists for Wednesday only $1.25 and $1.50 values for $1.00

All new Spring Styles.

No 'phone orders taken or exchanges afterwards.

Showing of Smart New Spring Tailored Suits—They are the newest of the new, both as to material, cut and finish. Shepherd's Plaid Suits, Serges, Diagonal Venetians, Bedfords, and Wool Ratines, in the new popular shades. The Coats are made with the new butterfly sleeves. Skirts are made in the new peg-top effect; the coat—silk serge lined, with fancy collar. You would expect to pay one-third more than these prices—

$12.50, $15.00, $18.50, $20.00, $22.50, $26.50

Smart and attractive are the Spring Coats we are showing for Misses and Children, Ratines, Black and White Checks & Serges, &c. The excellence of the material and styles exceeds previous seasons. You will be delighted to see your child wearing such a beautiful coat as you can get in this choice collection at "Fair's". Coats to fit children 3 to 6 years, $3.75 to $5.00. Coats to fit misses from 12 to 16 years.....$3.75 to $12.50

We are prepared to take orders for

Ladies' Man-Tailored Suits

and to execute same promptly

Splendid showing of the New Charmeuse Satins—Silks that will be appreciated because of their soft lustrous finish. In shades of maize, saxe, pink, and new shade of old rose. 40 inches wide. Per yard..... $1.10

Black and White Check Dress Goods are in big demand. One of the leading fabrics for the season. Now in stock at, per yard 50c, 75c, $1.50, $1.75, $2.00

New Serial Is One Of The Best Of Series

"The Mayor's Wife," by Anna Katharine Green Will Be Commenced Shortly

The Examiner's new serial, "The Mayor's Wife," is from the pen of Anna Katharine Green and is a mystery story written in the best vein of that talented authoress. There is not a draggy paragraph in the whole story. The interest is sustained from the first chapter until the final sentence and altogether the story is one of the most fascinating the Examiner has yet published. Watch for the announcement of the first instalment of this clever story.

Returns of the Orillia at Berlin (Intermediate), Orillia at Oshawa (Junior) Games will be received by wire at the White House To-Night. 'Phone Calls (185) gladly answered.

VICTORIA HEIGHTS

Is now Registered Plan 144 for the City of Peterborough. All sewers, water and light will be installed in Victoria Heights. A number of buildings will be built in early spring, so choose your lot for a choice residence. Good terms. Ask C. J. CARROLL & CO., 372 Water Street. 'Phone 622. Open evenings. We sell the earth.

WAS WELL ATTENDED.

A well attended meeting of the Anglican Young People's Society was held in All Saints' Church last evening. Rev. Canon Davidson of St. Johns Church, gave a lecture dealing with impressions of England and English customs. A musical programme was provided, including two instrumental selections by Miss Rahill and a vocal selection by Miss Armstrong.

BIG REMOVAL SALE.

Groceries, flour, tea, canned goods, rolled oats, roll wheat, rice, white beans, raisins, currants, olives, black currant jam, other jams, peanut butter, Heintz pickles. Big value in sugar, potatoes, cabbage, turnips, beets, in fact everything must go, so as to save moving to our new store a little further west on Hunter street. Come with your cash. Sale starts at once. Our low prices will startle you. Come early. James R. Bell, 161 Hunter St. west. 'Phone 486.

SOCIAL AND PERSONAL

Mrs. Lyle, 317 Park Street, will not receive to-morrow.

Miss Morrow, Water street, is visiting friends in Lindsay.

Mr. G. King, of Peterborough, was in town to-day—Lindsay Post.

Mrs. Robert Hinks will not receive to-morrow nor again this season.

Mr. J. C. Moore of the Lindsay post office, is visiting Peterborough friends.

Mr. John Savigny and Mr. Tom Foldard have gone to Florida on a holiday.

Miss Maud Leahy left on Saturday for New Liskeard, on a visit to her father.

Miss Vila Henry of Toronto, is the guest of Mrs. G. C. Taylor, 314 Fredrick Avenue.

Mrs. James Rollins will not receive on Wednesday or Thursday owing to absence from the City.

Miss Edythe Richardson, East City, pupil of Mrs. W. A. Greenslade, 189 King street, has successfully passed with first-class honours, her senior second piano examinations. Miss Richardson has obtained one hundred per cent. in each of three examinations.

Miss Florence Harrison was the hostess at a birthday party that was given at her home, 733 George street, yesterday afternoon. Tea was served following which an entertainment was provided. Among those who were present were: Miss Olive Edney, Miss Irene Bates, the Misses Evelyn and Hilda Simms, Louis and William Ratchford, Misses Florence and Marie Vickers, Miss Edna McGregor, Miss Edna Borland, Miss Edna Bridges, Miss Phylis Hall, Miss Nora Hedge, Miss Ella Hutton, Miss Lily Harrison, James Hunt and Kercy Harrison. Miss Florence Harrison was the recipient of twenty presents.

OBITUARY

FRANCES DUMBLE.

Magistrate Dumble received word this morning of the death of his grand-daughter, Frances, who passed away at Denver, Colorado. Deceased was the daughter of Mr. Dumble's son, Frank H. Dumble. No other news is to hand, but the public sympathy is extended to Mr. Dumble in his sad bereavement.

WEDDING BELLS

PRINGLE—RUTHERFORD.

The marriage was quietly solemnized by Rev. J. R. Webb, at his home, 194 London street, of Miss Ethel Rutherford to Mr. Clayton G. Pringle, both of this city. Mr. and Mrs. Pringle will reside in Buffalo, N.Y.

Annual Meeting

The annual meeting of St. Luke's Girls' Auxiliary was held last night, when a large number of members were present. The reports for the past year were read and confirmed, after which followed the election of officers for the ensuing year, which resulted as follows:

Honorary President—Mrs. Sawers.
President—Mrs. Beauclerc.
1st Vice-President—Miss L. Stewart.
2nd Vice-President — Miss Jessie Crane.
Recording-Secretary — Miss Clara Adams.
Corresponding - Secretary — Miss Isobel Hay.
Treasurer—Miss Elsie Dawson.
Dorcas—Miss Moore and Miss Baxter.
Organist—Miss Elsie Dawson.
Delegates to the Annual — Mrs. Beauclerc and Miss Lillian Rogers.

FIRE CHIEF IS BADLY HURT

Head of Niagara Falls Department in Critical Condition Through Being Hit by Glass

FOUR OTHERS INJURED

Special Wire to The Examiner:

NIAGARA FALLS, Ont. March 3 Fire Chief Didemus is in a critical condition and four other firemen and three citizens are in the hospital following a fire and explosion of gas which wrecked the Thornburg drug store here this morning. The Fire Chief's skull was laid open by falling plate glass. The explosion came when the clerk went into the basement with a lantern to find a leak in the gas pipes. The windows for blocks were shattered.

Stock Markets

Up Important Affairs of State

Special Wire to The Examiner:

WASHINGTON, D.C., March 3. — One tiny little mite of humanity, a new baby, which arrived at the home of Mrs. Grace Hargaves, this morning, and made William Jennings Bryan a "grandpop," was responsible for the holding up of the important affairs of Great Britain, the United States and Mexico. This morning Secretary of State Bryan was so much delayed by paying his respects to little Miss Hargrave that he was late at the Cabinet meeting, which adjourned without him, and without any Mexican despatches. Sir Lionel Garden, former British Ambassador to Mexico, also had to postpone his conference with the President re Mexican affairs, until later in the day as a result of the new baby.

Fatal Fire At Campbellford

Special Wire to The Examiner:

CAMPBELLFORD, Ont., March 3.—Peter Bonivant and his wife, Austrians, were burned to death, and twenty fellow countrymen escaped in their night clothing, when their boarding house at Healey's Falls, near here, was destroyed at one-thirty a.m. Bonivant alarmed all his boarders and got them out, then went back for his wife, but both lost their lives.

Britain Will Not Interfere

Special Wire to The Examiner:

LONDON, Eng., March 3. —"We have no intention of engaging in such fantastic attempt as the sending of a force to Mexico to demand reparation for the death of a British subject, William Benton." In these words in the Commons this afternoon did Sir Edward Grey, Foreign Ministers, reply to the jingoistic demands that Britain take military action in Mexico. Sir Edward pointed out the peculiar revolutionary condition in Mexico prevented the obtaining of justic for Benton's death. While Britain would welcome any action that the United States might take on her own behalf and Great Britain's, the British government didnt feel that it had a right to demand that the United States should do so.

REFORESTRATION IS SUGGESTED

Special Wire to The Examiner:

OTTAWA, March 3.—Reforestration in many parts of Older Ontario, and the conservation of its rivers and water powers were the subjects brought before the Commons committee of forests, waterways and water powers this morning, and it was decided to call experts to give information on these matters. One member said that one crop of white pine in Ontario was worth as much as fifty crops of wheat in the Northwest, and didn't take anything like fifty years to grow.

A GREAT FILM TRIUMPH

(Continued from Page 7.)

not believe in the severity with which criminals are treated by law. He has faith in the innate goodness of human nature, and this faith is strengthened by Leah's confession that she knows it is wrong to steal and of her hope to go somewhere, away from her father and his evil associates, begin life anew and forget the past.

An adroit complication is here introduced, which is one of the effective points of the play, and which intensifies the climax toward which it draws. The brother of the girl whom Sylvain is to marry, returning from a drunken spree, enters Sylvain's apartments and steals jewels that Leah Kleschna had intended to take.

The doubt as to whether Leah had taken the jews after all is eventually clarified by the discovery of the guilty person and Leah, now a regenerated woman, married Sylvain, and receives the jewels that had introduced her to her new life as a wedding gift.

The moral is strong and powerfully illustrated. Carlotta Nillson's acting throughout is virile and effective and renders an adequate impression of the character she portrays.

"LEAH KLESCHNA" IN MOTION PICTURES

A Masterful Production

"Leah Kleschna," the international dramatic success, interpreted by Carlotta Nillson, the celebrated actress, released by the Famous Players Film Co., has made an admirable motion picture character study. Miss Nillson gives Leah all the sympathy, sentiment and pathos of the character. Kleschna, the master thief of France, is faithfully portrayed by Hal Clarendon, and Paul Sylvain, the French deputy, interpreted by House Peters, well defines the kindly strength of that character.

The purpose of this world-famed drama, from the pen of C. M. S. McClellan, is to prove that if people who have involuntarily been led into a career of crime can be met with kindness sympathy, their better natures can be awakened and they can be led back into the light. In both intent and interpretation, the play ascends far above the plane of the drama—that merely interests and thrills.

"Leah Kleschna" is a penetrating psychological study. At the same time is intensely dramatic. It clearly defines the awakening of the girl's soul and her final revolt against a career of crime—yet there is never any recourse to the stale tricks of emotional acting. It is art concealing art.

Miss Nillson renders an ideal "Leah," never exaggerating her appeal, but maintaining a well-balanced performance. House Peters is dignified and convincing as Paul Sylvain, a role exceptionally difficult to portray. Hal Clarendon gives a consistent and well sustained performance as Kleschna, and artistically suggests the varying emotions of that character. Alexander Gaden as "Schram," is a notable impersonation.

The cast is perfect, and the technique of the production far above the average—which is to be expected from the Famous Players.

Home Rule Controversy

Special Cable to The Examiner:

LONDON, Eng., March 3.—The Home Rule controversy becomes more bitter daily and Opposition leaders seem determined in advance to wreck any possibility of Premier Asquith's forthcoming concessions being accepted. Political gossips are inclined to believe the Government may adopt the main feature of Sir Horace Plunkett's suggestion offering North East Ulster the right of plebiscite to withdraw from the Irish Parliament in a fixed period. The conviction grows that whatever form the Government offer, takes, the Opposition will refuse to agree. The bill will go to the Lords in its old form and the struggle will begin. The latest move of the Unionists is the assurance of a solemn league covenant by Lord Milner and a group of prominent men threatening to support any action to prevent Home Rule being put in operation or troops to be used against Ulster. The Daily Chronicle says: "Most of the men who signed this are men very eminent in different non political spheres. Such men, indeed many of the same men, made precisely similar exhibitions of themselves four years ago over the Lloyd George budget, which they denounced as endangering things, yet under which most of them have contrived to live tolerably ever since".

An easy name to remember. A hard tea to forget.

Stock Markets

A. E. Stratton & Co., Brokers, report the following:

The stock market declined a point and then froze to death. There was practically nothing doing after 11 o'clock. I look for a narrow market for some days to come, with advances in stocks such as the tractions, Con. Gas, Cen. Leather, General Motors, as well as St. Paul and Pac. Mail.

On reactions of a point or so you can buy the stocks on which we are bullish and on bulges such as we had on Friday and Saturday you can sell such stocks as S.P., U.P., and P.A.

Watch the market carefully. We are surely going to have a "bull" campaign.

A. E. Stratton & Co., brokers, report fluctuations in New York stocks to-day as follows:

SAVES DROWNING BOY.

Verdun Boy Scout Makes a Daring Rescue on Ice.

MONTREAL, March 4.—Boy Scout Ben Embury, of Verdun, who went to the coronation of the King, is the hero of a plucky rescue from the St. Lawrence.

Embury, James Small, who lives on Claude street, and two English boy scouts, who are on their way from London to Winnipeg, started to walk over the ice-coated river to Nun's Island. The others were several yards behind when the ice gave way and he sank. Embury, calling to the other two boys to hold him by the legs, crawled towards the struggling boy and got a hold of him. The ice again broke and Embury lost his grip, but again managed to clutch Small and the English lads pulled

TO MAKE YOUR HAIR MORE BEAUTIFUL

To give your hair that gloss and lustre and wavy silky-softness, the Harmony Hair Beautifier. It takes away the dull dead look of the hair, and makes it bright—turns the stringiness into fluffiness—overcomes the oily odors and leaves a sweet, true-rose fragrance—makes the hair easier to put up neatly and easier to keep in place. It is just exactly what it is named—a hair beautifier, and whether your hair is ugly now or beautiful, it will improve its appearance. You'll be pleased at and delighted with the results, or your money back. Very easy to apply—simply sprinkle a little on your hair each time before brushing it. Contains no oil; will not change color of hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure, liquid shampoo is most convenient to use, because it gives an instantaneous rich, foaming lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet-smelling cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, $1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Hasmony laboratories, Toronto, where the celebrated Harmony Perfumes and Toilet Preparations are made.

COLLEGIATE PUPILS ASK BOARD OF EDUCATION FOR BETTER VENTILATION SYSTEM

Members of Forms 3 and 4 Send in Largely Signed Petitions—Mr. Arthur D. Hone, of Toronto, is Appointed to the Position of Science Teacher.

The Board of Education held their regular monthly meeting in the Board Room, in the Toronto Savings and Loan Company's building, last night.

There were present: Dr. Morrison (chairman), Messrs. B. F. Ackerman, V. Eastwood, J. Crane, J. J. Turner, Jr., W. H. Hill, J. Smith, L. M. Hayes and W. Thompson (secretary).

The minutes of the last meeting were read and confirmed.

Badly Ventilated.

The following communication was received from the members of Form 3 of the Collegiate Institute:

"We, the members of Form 3 of the Peterborough Collegiate Institute, beg that the Board of Education provide better ventilation for Form 3."

The communication was signed by all the members of the form.

A similar communication was received from Form 4.

"Secretary of the Board of Education.

"Dear Sir,—In accordance with the wish of a large majority of the pupils of the school, the members of Form 4 take this opportunity of asking for an improvement in the present system of ventilation. We hope that our request will meet with the favourable consideration of the Board."

This letter was also largely signed.

Dr. Morrison, remarking on the matter of ventilation, said he thought that something should be done. He suggested that a motor and a fan be installed.

New Teachers.

Miss Mabel M. Hurlburt wrote the Board, accepting the position of teacher for the public school, providing she was successful with her Easter examinations.

A letter was read from Mr. Arthur D. Hone, signifying his willingness to accept the position of science teacher at the Collegiate Institute, at a salary of $1,000, with the usual schedule of increases until $1,200 is reached. Mr. Hone is from Toronto College, and it is the general consensus of opinion that the services of a very highly educated man have been secured.

The foregoing communications were both received.

The Peterborough Light and Power Co. wrote the Board asking that an account of $33 for a transformer that burned out be paid.

A Discussion.

A considerable amount of discussion arose over this communication, and in the opinion of the majority of the Board, they were not liable for the damage that had been done. It was reported at the last meeting that the transformer at the new East Ward school had burned out, and the Board subsequently received an account for $33 to provide a new one.

Mr. Munroe was present in the interests of the Peterborough Light and Power Co., and said that the burn-out was caused by the wires which came from the motor to the wall of the building being crossed.

Mr. Hayes: You assumed that the wiring was properly done?

Mr. Munroe: Yes.

Not Satisfied.

Mr. Ackerman was evidently not satisfied, and at this juncture he went to fetch Mr. Miller, who did the wiring.

Mr. Miller said that he did the work in question himself. He said that when they had finished the wiring inside, they brought all the wires to the outside of the building, and made no connections whatever.

Mr. Munroe also went to Mr. Hill, foreman of the Peterborough Light and Power Co., and told him the positions of the respective wires.

Mr. Munroe: That is an entirely new phase of the case to me, and before I can say any more, I shall have to ascertain whether Mr. Hill got the instructions mixed or not.

On the motion of Mr. John Crane, seconded by Mr. L. M. Hayes, the matter was referred to the Property Committee.

Leave of Absence.

Mr. Northcott, caretaker of the Central School, wrote asking permission for leave of absence for six weeks. He intimated that he had the opportunity to go to the Old Country with the S.A. Temple Band, and that he could substitute a man qualified to fulfill the duties.

In regard to the above matter, Mr. Hill suggested that Mr. Northcott be allowed leave of absence, as he had not had any holidays since he had been there. That applied in the case of the applicant finding a suitable substitute, and paying him.

Money Granted.

Mr. Kenner, Principal of the Collegiate Institute, in a communication to the Board, asked for the usual grants for the library room, which is $60, and for the Science Department, $100. These sums would keep the work in these respective departments modernised.

Mr. Kenner's requirements were granted, as had been done last year, on the motion of Messrs. Eastwood and Crane.

The Attendance.

The attendance at the Collegiate during the past month was 301, as compared with 314 last year.

Received.

The attendances percentage at the remainder of the Public Schools was as follows:

Central School	88 p.c.
Queen Alexandra	88 p.c.
King Edward	89 p.c.
Queen Mary	90 p.c.
King George	84 p.c.
South Central	94 p.c.

The average attendance percentage was 87 p.c.

Received.

Accounts Presented.

The following accounts wer presented::

T. C. Elliott	$ 6 14

R. Connall & Son	1 50
Peterborough Typewrter Co.	1 25
Bell Telephone Co.	306 65
W. J. Johnsto	982 05
Peterborough Fuel and Ctge.	

The account of the Peterborough Fuel and Cartage Company was ordered to be paid, and the others were received.

Doing Good Work.

Mr. Mowatt, School Inspector, was present, and intimated that the nurses' report was unavoidably omitted from the list of reports.

In the West Ward, there was fear of an outbreak of diphtheria, and she devoted one whole week to that particular school, and her diligence and attention to her duties was, he said, responsible for the clean and uncontagious condition of that school now. There are in the West Ward school three children who cannot see, and Mr. Mowatt suggested that some action be taken.

Mr. Smith: Has there been much averse criticism to our school nurses?

Mr. Mowatt: No, I have only had two complaints. They were from children who were sent home to be cleaned.

Moneys Received.

The following is a list of moneys received by the Board:

City Treasurer, Municipal Grant	$13800 00
Government grant, acct. Domestic Science and Manual Training	835 05
Text Book fees	301 70
Rent Cedar St. House	5 00
	$14941 75

Accounts to be Paid.

It was moved by Mr. B. F. Ackerman, seconded by Mr. V. Eastwood, that the payment of the following accounts be confirmed:

R. J. Soden, acct. for Text Books and Supplies	$ 102 90
Y.M.C.A. re Gymnasium	120 00
R. G. Sturgeon & Co., acct. Contract per order	1000 00
H. E. Edmondson, acct. per order	6 00

Committee on Appointments.

The following is the report of the Committee on Appointments:

To the Chairman and members of the Board of Education.

Gentlemen,—Your committee on appointments beg to report and recommend as follow:

1. That Mr. Arthur D. Hone, of Toronto, be appointed on the Collegiate staff to succeed Mr. J. W. Firth, who has resigned. Salary to be according to schedule, and duties to start 20th April next.

2. That Miss Mabel Hurlburt of Hamilton be appointed on the Public School staff to succeed Miss Fannie King, who has resigned. Salary to be according to schedule and duties to start 20th of April next.

Your committee also recommend that Mr. Hone be granted leave of absence during the month of May, for a sufficient length of time to enable him to write on final examinations.

Respectfully submitted.

W. H. HILL, Chairman.

Report of Finance Committee.

To the Chairman and members of the Board of Education.

Gentlemen,—Your Finance Committee beg to report and recommend the payment of the following accounts:

INJURED BY EXPLOSION,

Firemen and Others Severely Hurt in Niagara Falls Accident.

NIAGARA FALLS, Ont., March 4.—In a terrific explosion of natural gas which followed a fire of unknown origin in the Thorburn block at "The Centre" at four o'clock yesterday morning, Assistant Fire Chief Dedemus and four firemen, A. Baldry, J. Shaughnessy, J. Fox and A. Betlor with R. Douglas, manager of the Thorburn drug store; J. Nichols, Royal Bank clerk; Gardner Brookfield, W. B. Lise and William Gyson were seriously injured.

The condition of Dedemus and Gyson is very critical, and little hope was entertained last evening, for their recovery. The injured were removed to the hospital. The back of Dedemus' scalp was laid open from the top to the base by the heavy plate glass window which was shattered from the explosion, part of which fell on him while he was bending over putting the hose in the basement window.

The fire, which was a slight one, originated in the basement, and as the lead connection to the gas had been melted off from the heat, considerable gas was escaping, which could not be turned off, as the gas company men had not arrived on the scene.

Unknown to the firemen, William Gyson, who is employed in the Thorburn drug store, descended to the cellar with a lighted lantern, the result of which was a terrific explosion which hurled the firemen in all directions.

Bronchial Coughs
are too wearing and dangerous for experiment or delay—pneumonia or consumption easily follow.
Exacting physicians rely on Scott's Emulsion to overcome bronchitis. It checks the cough; its rich medical nourishment aids the healing process, soothes the enfeebled membranes and quickly restores their healthy action.
If you have bronchitis or know an afflicted friend always remember that Bronchitis readily yields to Scott's Emulsion.
Some alcoholic substitutes—your recovery demands the purity of Scott's.

For A Satiny Skin
To overcome the harshening effect of wind and weather, we recommend
REXALL CREAM OF ALMONDS
It will delight you, soothing, healing, cooling, entirely free from grease and readily absorbed by the skin, it will promote its health, beauty and purity or your money back.
PRICE 25c
McDERMID & JURY'S
THE REXALL STORE
Cor. George & Charlotte Sts.

INDIGESTION OVERCOME
Overcome by Simple Remedy.
Hurried and careless habits of eating, irregular meals and foods that do not harmonize, tend to weaken the digestive organs and result in different forms of stomach trouble.
If you are one of the unfortunates who have drifted into this condition, eats imple foods only, slowly, regularly and take Vinol, our delicious cod liver and iron tonic.
Mrs. H. J. Smith, Thomasville, Ga., says: "I suffered from a stomach trouble, was tired, worn out and nervous. A friend advised me to take Vinol. My stomach trouble soon disappeared and now I eat heartily and have a perfect digestion and I wish every tired, weak woman could have Vinol, for I never spent any money in my life that did me so much good."
The recovery of Mrs. Smith was due to the combined action of the medicinal elements of the cods' livers united by the blood making and strength creating properties of tonic iron, which are contained in Vinol. We will return the purchase money every time Vinol fails to benefit.
McDermid & Jury, cor. George and Charlotte Sts.; also Payne's Drug Store, cor. George and Simcoe Sts.

HAAKON MAY ABDICATE.

Rumor Says Norse King is Saving Up to Live In England.

CHRISTIANIA, March 4. — The Storthing by a large majority rejected the bill depriving King Haakon of the prerogative of appointing his successor in the absence of a natural heir. The bill was introduced because of the recent rumors that the king was about to abdicate.

The king's only son, Prince Olaf, was born in 1905. Queen Maud is a daughter of the late King Edward of Great Britain. Neither the king nor the queen would, it is said, have any regrets at leaving Norway. The king has been hampered considerably by Parliament and several of his prerogatives were cut off in the last few years. The queen does not like the climate of Norway, and is unpopular because she refuses to learn the Norse language.

Service
Is Our Watchword
in the examination of the Eye—in the fitting of the proper Glasses—in the eye-glass mount or frame we fit you with.
Having one of the most up-to-date Lens Grinding Plants in Ontario we are in a position to duplicate almost any lens in one hours time. This SERVICE is worth something to you in case of an accident to your glasses.
We use "PERLO" Quality Glass in all our work, it's the finest quality manufactured.

OUR STORY PAGE

"THE FREE RANGE"

By E. WELL LAWRENCE

(Continued from yesterday.)

"Yes, father, I am. I refused to marry him long ago in Chicago." He kissed her for the first time in a long while, and then gently disengaged himself and took a step toward Bud.

"Larkin," he said, "yuh were always lucky, but yuh've beat all records for Wyoming now. I allow yuh can take her away with yuh on one condition."

"What's that?"

"That yuh never beat her like yuh beat me."

"Agreed!" laughed Bud, and grasped the other's hand. "But can you stand a sheepman in the family?"

"I sure can, Larkin. Ever since I seen Jimmie Welsh and his men fight, I ain't got anythin' against sheepmen."

"Jimmie Welsh!" cried Bud. "Tell me, did any of his party come through alive?"

"Jes' Jimmie himself; the boys couldn't kill him, so he's over at Billy Speaker's meadin' up. Heart's pretty near broke because he hasn't seen yuh to explain why he's still alive."

"Good old Jimmie!" said Bud, the tears leaping to his eyes. "Dearest," he added, turning to Julie, "there's one more stop on our honeymoon, and that's at Billy Speaker's tomorrow."

Bissell continued the conversation, and asked for the full story of how Bud had run down and captured the rustlers, saying that the whole cow country owed him a debt, and if they had only known of the capture in time would have let his sheep through without protest.

"I imagined as much," remarked Bud, "but I didn't care to get them through that way once I had started the other. I hope, Mr. Bissell, that we can be friends, although we have been enemies up to now. I'm sorry I had to sacrifice those cattle of the association, but there was no other way out of it."

"I'll tell yuh this, Larkin," returned Bissell. "Anybody that can beat me at everything is good enough to be my friend for life, an' I'm here to state that yuh could count my friends of that type, before you came, on the hairs of a hairless dog."

Bud laughed, they shook hands again, and peace was finally made between them; but not until Beef Bissell had signed away half of the interest in the Bar T to Julie as her dower.

That was a happy and a hilarious dinner at the ranch. Some of the cowboys coming in at noon from near-by ranges heard of the marriage and cheered the bride lustily when she appeared on the verandah, Bud made himself solid with the disgruntled punchers by walking out to them and talking over the battle of Welsh's Butte, while he rolled cigarettes and smoked them one after another.

Shortly afterward, Bud and Lester found themselves in a room with Smithy Caldwell. The blackmailer, when he saw Lester, fell down in a faint, so great was the shock to his already wrecked nervous system. The man was really in a terrible condition, both from physical fear and the tormenting by his comrades. He started at every slight sound, whirled about fearfully to meet any footfall that sounded near, and trembled with uncontrollable nervous spasms.

To both the Larkins he was a piteous sight, and Bud wondered that that the miserable creature had not gone mad.

The wretch fell on his knees and pleaded with them for his life, so that when Bud put the proposition squarely up to him that he would forswear everything in regard to the Larkin family, he could not accept it eagerly enough.

"But about the papers that you said were in Chicago?" asked Bud.

"I lied about them," replied Smithy. "They're sewed in the lining of my shirt. Give me your knife and I'll get 'em for you."

"Give me your shirt and I'll find them," countered Bud; and he presently did.

Together the brothers looked them over. Every bit of incriminating evidence was there, and as Bud slipped it all into his pocket he gave a great sigh: "Thank Heaven, that's over."

He did not let Caldwell off, however without securing from him the written and signed statement that he wanted. When all was done they let him go, and now his mind was almost as unbalanced by joy as it had formerly been by fear.

Bissell, knowing Caldwell's condition, had agreed to his being released on his clearing his account with Larkin, for he realised that the man, in fearing death, had suffered the penalty a thousand times, and that the memory would remain with him through life, and perhaps help keep him straight.

Shortly after Bud and Lester had joined the others on the veradah again, a sudden scream was heard from the bunk-house, followed by the sounds of a terrible struggle. All hands rushed around to the rear and, with drawn revolvers, forced an entrance among the sullen rustlers.

On the floor in the middle of the room lay Smithy Caldwell, white and contorted, while Mike Stelton was just rising from his prostrate body, making sounds in his throat like a wild animal. Smithy was dead.

"How'd it happen, boys?" asked Bissell.

"This here Caldwell come out an' 'lowed as how he wasn't goin' to swing like the rest of us, an' he began packin' up his truck. Stelton asked him about it, an' when Smithy repeated what he said before and got plumb cocky about it, Mike there sneered him plenty. Then he broke his neck. Smithy betrayed Stelton, yuh know."

There is not much more to tell, except that, three days later, the rustlers paid the penalty of their lawless daring. It was the biggest "hangin' bee" Wyoming had ever seen, and was largely attended by men of all sections who stood for right and justice, if not law and order.

Bud and Julie brought pride and sunlight to a slowly recuperating Jimmie Welsh on their way north, and from him and Billy Speaker heard again nthe details of the great fight. Now, if you go to Welsh's Butte, you will see a tall white shaft rising amid the tumbling of the wretched hog-backs. On one side are the names of the sheepmen (including Jimmie, who is still alive) and on the other those of the cowmen. It is the humble offering of Bud and Julie Larkin.

Time has proven that Bud's prophecy in regard to sheep was right. Wyoming has far more sheep than cattle now, and one of the biggest of the ranches is the former Bar T, under the Larkin name, in connection with the home ranch in Montana.

I hope it will not be a shock to some readers to know that the first Bud and Julie have another Bud and Julie, who are over twenty years of age, quite old enough to have romances of their own.

All their lives they have heard the story of the adventures that brought their parents together, but all four rather sadly admit that the Free Range, which Bud fought for so hard, is now almost a thing of the past, that the great drives have passed never to return, and that the cowboy himself is a dim figure against the prairie sunset.

THE END.

Was Confined To His Bed For Four Months With Rheumatism.

Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest of pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am strong and active since taking your valuable medicine."

Doan's Kidney Pills help the kidneys to flush off the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

Obituary For a Dog.

The insertion by the Rev. J. G. Lyon, parish minister of Carmylie, Arbroath, Scotland, of this advertisement in a local paper has been the subject of some criticism:

"At the Manse of Carmylie, on the 10th inst., Argus, for many years the faithful, sagacious, sympathetic friend of the parish minister, who by this lamentable demise, suffers an irreparable loss. 'Until the day break and the shadows flee away.' Canadian papers please copy.

Argus, it seems, was a favorite dog.

The big building on the south side of Piccadilly Circus is the Criterion run by those old London favorites Messrs. Spiers and Pond.

THE CHOICEST SUGAR

No choicer or purer sugar can be produced than St. Lawrence Granulated White Pure Cane Sugar.

Made from choice selected cane sugar, by the most modern and perfect machinery, it is now offered in three different sizes of grain—each one the choicest quality.

St. Lawrence Sugar is packed in 100 lb., 25 lb. and 20 lb. sealed bags, and also in 5 lb. and 2 lb. cartoons, and may be had at all first class dealers. Buy it by the bag.

ST. LAWRENCE SUGAR REFINERIES LIMITED, MONTREAL.

Couldn't Have Middle Names Then.

It is an exception nowadays to come across a person with only one Christian name. High or low can have a string of middle names if they so desire, although the majority stick to but two Christian names.

In the 16th century, however, middle names were illegal in England and, in accordance with the strictness of that period, no infraction of the law was admitted.

Royalty were the only privileged persons in this respect. If they really wished to possess a middle name the law relaxed its severity and granted their request; but woe to the ordinary commoner who exercised his own authority and gave unto himself more than two appellations.

The whipping post was his punishment for the first offence. And should his boastfulness exceed his temerity a more lasting punishment corrected his second lapse—the medieval customs of removal of his thumbs or ears.

Cat as Witness.

A dispute as to the ownership of a black-and-white Persian cat was settled at Rochester (Eng.) County Court recently by puss herself. Mr. Cornelius Sutton, the plaintiff, claimed the cat, stating that it was born in his house and that he owned the mother. Mr. Frederick Field said the cat was given to him by a neighbor. Witnesses supported the claims of the rival claimants.

Ultimately the cat was produced in court. It was unresponsive when the plaintiff's wife called "Jim," but rubbed its nose affectionately against the defendant's wife, who called the cat "Smart," and nursed him whilst giving her evidence.

Commenting on the preference shown by the cat, the judge gave judgment for the defendant.

With Interest.

Dolly—Mean thing! You said you wouldn't give away that secret I told you. Daisy—I didn't. I swapped it for another secret and ice cream soda. —Chicago News.

Beethoven's Affliction.

Beethoven for the last seventeen years of his life could not hear a note of all the exquisite music he penned and suffered terribly from melancholia.

The Ideal.

Madge—Did he try to flatter you? Marjorie—Why, no, dear. He merely said I was the prettiest girl he'd ever met.—New York Times.

CURE SICK HEADACHE.

"Labby's" Prank at Eton.

Thorold, in his "Life of Labouchere," tells this story of young "Labby" while he was at Eton:

"While the old chapel was being restored a temporary chapel of wood and iron was run up. The corrugated iron roof made the heat intolerable during the summer months, so Labouchere hit upon a plan to put a stop to the nuisance of 'chapel in the shanty.' One boy was to pretend to faint and four others were to carry him out. A fifth was to follow bearing the hats of the performers.

"The plan worked admirably. The service was brought to a temporary stop, and the boys as soon as they were outside scampered merrily off and procured some agreeable refreshment. The repetition of this comedy, of course, aroused the suspicion of the masters, but, nevertheless, like many of Labouchere's intrigues in later life, it produced eventually the desired effect. There was no more chapel during the hot weather until the restoration of the old chapel was complete."

Frank of a Lightning Flash.

During a thunderstorm in Deal, England, Minnie Rogers, seventeen years old, was walking along one of the small back streets of the town carrying a number of umbrellas, etc., when a vivid flash of lightning, evidently attracted by the steel frame of one of the umbrellas she was holding, ripped open her own umbrella, struck her and threw her violently to the ground. There was only one man in the street at the time, and he assisted her to rise. Strangely enough, when she had done so she found that all her clothes, umbrella and cap were perfectly dry, whereas before she had been drenched, for the rain poured down in torrents. Her description of her feelings was, "I felt just as though my head had been stung by a wasp, there was a singing noise in my ears and I seemed to see a bright light, like the sun, shining through my umbrella." With the exception of her hair being slightly singed, she sustained no injury.—Strand Magazine.

The Wit of Shakespeare.

A pleasant anecdote of Shakespeare and Ben Jonson is told in a book entitled "The World's Leading Poets:"

"Shakespeare was godfather to one of Jonson's children, and after the christening, Shakespeare being in a brown study, Jonson came to cheer him up and asked him why he was so melancholy.

"'No faith, Ben, not I. But I have been considering a great while what would be the fittest gift to bestow upon my godchild, and I have resolved at last.'

"'I prythee what?'

"'I' faith, Ben, I'll e'en give him a dozen good latten (an alloyed metal something like brass) spoons, and you shall translate them.'"

While Shakespeare, according to Jonson, had "small Latin and less Greek," Ben Jonson was one of the giants among classical scholars of his day, when no other scholarship was recognized.

IN WAGES OR PROFIT

Health Sooner or Later Shows Its Value.

Don't go around with that tired, worn-out, down-hearted feeling. If you are constipated, bilious or have a sour, gassy, upset stomach, sick headaches, weak kidneys or sluggish liver, see to it that you cleanse your system of undigested food, foul gases, excess bile and uric acid, by the use of the great fruit tonic laxative

FIG PILLS

and you will be free from headaches, neuralgia, rheumatism, lame back, indigestion and all the distressing forms of sickness usually caused by constipation and kidney trouble. FIG PILLS do not gripe or sicken, but give a natural movement of the bowels. Refuse all substitutes. At all dealers in 25 and 50 cent boxes or by mail from The Fig Pills Co., St. Thomas, Ont. Sold in Peterborough by the Warne Drug Co., Ltd

The Unattainable.

Old Mr. Dinsmore had a great habit of lecturing to young men of his acquaintance. One evening Wilbur Moore, a young man from the city, was calling at the Dinsmore home.

"Have an ideal, young man," said the old gentleman enthusiastically. "Always have an ideal, I say, and hug it to your bosom at all times and places."

"I believe that, too, sir," agreed the young man, "but she won't let me."—New York Times.

Discoverer of Iodine.

To very few people does the name of Bernard Courtois signify anything, yet it is to Bernard Courtois that the world owes the discovery of iodine. A chemist of Dijon, he presented 100 years ago the notice of his discovery to the academy.—London Telegraph.

Rise Above the Average.

The world generally gives its admiration not to the man who does what nobody else ever attempts to do, but to the man who does best what multitudes do well.—Macaulay.

May Weddings.

In ancient Rome there was held in May a festival called the Lemuria, or feast of the Lemures, which was a ceremony in honor of the spirits of departed souls. It became with the Romans what we should call "the form" to have matrimonial feasts at the season of a solemn ritual, being undoubt thought to be an insult to the dead to marry at such a time. From this a number of stories grew of the revenge made by the outraged ghosts upon those who dared to disregard them, and if anything unfortunate happened to a couple who had been married in May it would, of course, have been put down to retribution. So the repugnance to May weddings arose and its influence has lasted ever since, even to our time.—Exchange.

SKIN SOFT AS A CHILD'S

"I was a great sufferer from eczema and salt rheum for years," writes Mr. John W. Ross, Lansdowne, N.S. "Five years ago three boxes of Dr. Chase's Ointment cured me and the old trouble never returned. My skin is soft as a child's now, and I shall always say a good word for this Ointment."

Child Had Bronchitis

Once people get acquainted with the wonderful control which Dr. Chase's Syrup of Linseed and Turpentine exerts over bronchitis, whooping cough, croup and colds it is not easy to persuade them that anything else is "just as good." This is why the imitators never get very far.

In 1908 Mrs. Eugene Her, King street, Truro, N.S., wrote as follows:

From an infant one of my children was troubled with bronchitis, and the least cold would aggravate the trouble. We could not get anything to help her, and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis, we used it, and are glad to state that it effected a complete cure. If any of the children take a cold or cough I give this medicine, and have never known it to fail to bring relief."

Mrs. Her now writes that she has since proved this medicine to be a cure for whooping cough, and would not be without it in the house.

SCHOOL REPORTS

The following is the report of Hiawatha Public School for February:

Sr. IV.—Lucy Paudush 97, Effie Sexsmith and Margaret Mather 96.

Jr. IV.—Fred Hawkins 98, Robert Cowie 96, John Simpson 94, Stella Howard 78, Pasker Anderson 76, Willie Muskratte 69; Verna Crowe and James Coward, absent).

BREAK WHISKY'S GRIP ON YOUR LOVED ONES

Drunkards will tell you with tears of sincerity that they do not want to drink. The craving coming from the inflamed membranes of the stomach drives them to it.

Alcura will soothe the trembling nerves and remove the craving that is ruining your home and stealing an otherwise kind husband or father from you. It costs only $1.00 per box and if it does not cure or benefit after a trial the money will be refunded.

Alcura No. 1 is tasteless and can be given secretly in Tea, Coffee or Food. Alcura No. 2 is taken voluntarily by those willing to help themselves.

Alcura can now be obtained at our Store. Ask for Free Booklet telling all about it and give Alcura a trial.

"McDermid & Jary, Druggists, Peterborough."

Stump is Turtle Soup.

Until recently it was customary to divide the turtle meat which was consumed at the Lord Mayor's banquet among the London poor on the following day, but experience showed that its value was unappreciated by the recipients, and that half the soup was poured into the Guildhall yard within a quarter of an hour of the distribution.

When the soup was last distributed its value was estimated at $30, but as its merits were lost on the poor recipients, the Lord Mayor and Sheriffs' committee decided to substitute cooked joints.

In accordance with a custom which has been observed for centuries, the provisions that remained after the banquet were distributed recently to about 150 poor people. The work of distribution was undertaken by the members of the committee, who, wearing white aprons, took their places beside the tables, which were laden with mutton-pies, beef, partridges, and lobster. Each person who presented himself received a substantial share of the food.

Royalty Honored Geese.

In Queen Victoria's time it was the graceful custom, after a company of actors had performed before the Queen, for her private secretary to send a letter of thanks next morning to the entertainers. The same form of letter was sent to all alike and on one occasion the proprietor of a troup of performing geese which had entertained the royal children at a Windsor garden party received the following communication from Sir Henry Ponsonby, on whom the duty of writing these letters fell: "Sir—I am instructed by the Queen to thank you for your visit of yesterday and to express the hope that the ladies and gentlemen of your company have returned safely to London and in good health."

Rats as a Food.

Londoners may soon enjoy the pleasure of feeding off rats. Proprietors of Chinese restaurants in the English metropolis are advertising the favorite dish of the Orientals in a striking manner. Split open, dried, pressed and powdered with a finely ground white bark, they resemble haddock as they hang in long strings in front of the Chinese shops. Many noted epicures have declared that rats are not only wholesome, but very delicious if properly prepared. The despised rodent may one of these days be in demand, especially as a contender in the crusade against the high cost of living.

Reasoned.

"I think Archie Allscadda has made up his mind to marry," said the vivacious blond.

"To marry Virgie Skeemer?" queried the sparkling brunette.

"Uh-huh."

"What symptoms do you notice?"

"Well, he wears a sort of resigned, what's the use expression on his face and doesn't run when he sees her coming now."—Chicago Tribune.

The Fiercest Thing.

The fiercest thing on earth, I wot,
A thing to call for gibes,
Would be a baseball game between
A lot of baseball scribes.
—Denver Republican.

Another most appalling thing,
We here arise to say,
Would be a drama acted by
The critics of the play.
—Youngstown Telegram.

Another thing would be quite fierce—
Indeed, be quite a caper—
To let the kickers in your town
Just try to run your paper.
—Yonkers Statesman.

Poor Teacher!

A teacher, noticing the boy's interest in the study of insects, and especially in moths, advised him to find a book in the library upon the subject of moths.

"I did, and it wasn't any help," said Bobby.

"What was the name of it?" she asked.

The boy answered scornfully, "'Advice to Young Mothers.'"—Philadelphia Record.

Different Methods.

One orator in New York says that his understanding about it is that if you "call a man a liar in the south he will shoot at you, in the west knock you down, but in the east he'll bet you a quarter you can't prove it."—Augusta Chronicle.

Clever Chap.

Mamma—Willie, didn't I tell you not to eat any more candy tonight? Small Willie—I'm not eating it, mamma; I'm just sucking the juice out of it.—Chicago News.

The Impossible.

"Is he as important as he thinks he is?"

"My goodness, no! No man is as important as that."—Detroit Free Press.

Sleep, riches and health to be truly enjoyed must be interrupted.—Richter.

BAD COLD IN THE CHEST.

"I am happy to tell you that I used Dr. Chase's Syrup of Linseed and Turpentine, and was promptly cured of a very bad cold in the chest," writes Miss Josephine Gauthier, Dover South, Ont. You can depend on Dr. Chase's Syrup of Linseed and Turpentine to relieve and cure all inflammations and irritations of the throat and bronchial tubes.

WHAT FOLK ON THE OTHER SIDE OF THE WATER ARE DOING

Americans in Berlin Pose in Living Pictures from Canvases New and Old

Affair Is a Benefit for the Catholic Women's Alliance, and the Art Treasures of the Kaiser Friedrich Museum Are Copied by Those Who Appear in Tableaux.

THE AMBASSADOR AND MRS. GERARD ARE ACTIVE

(Special Dispatch.)
BERLIN, Feb. 28.

MANY Americans took part in the living pictures given by court and diplomatic society for the benefit of the Catholic Woman's Alliance. There were nineteen pictures after originals in the Kaiser Friedrich Museum, which were arranged by Count Harrach and Countess von Henckel von Donnersmarck. Countess Scherthous, formerly Miss Muriel White, daughter of Mr. Henry White, posed as St. Katherine, with Mrs. H. Beresford Hope, of the British Embassy, as St. Lawrence in the canvas by Bernard Strigel, of the early German school.

Another canvas by this painter portraying Elisabeth of Thuringia and Kaiser Heinrich II. was impersonated by Mr. Joseph C. Grew, of the American Embassy, and Mme. Nieuwenhuys, of the Belgian Legation.

Countess Moltke, who before her marriage to the Danish Minister was Miss Cornelia Thayer, of Boston, appeared in a reproduction of Velasquez's historical canvas, "Maria Anna, Wife of Ferdinand III." The last picture was unusually interesting and reproduced Van der Goes' masterpiece, the latest acquisition to the museum. Countess Quadt was the Madonna, with Count Quadt, Count Rechberg, Prince Windischgraetz and Count Khuen as the figures of Joseph and the Magi.

Week of Court Mourning.

The death of the venerable Princess Wilhelm of Baden plunged the court and diplomatic society into mourning for a week, and the younger set in society was much disappointed at not being able to accept invitations to the fancy dress ball arranged in the Berlin Palace by the Crown Prince and the Crown Princess for Wednesday.

The Crown Princess has just returned from Zoppot, the well known Baltic resort, where she has been supervising the arrangement of her new property, the Villa Hohenlick, the gift of this seaside municipality.

An outstanding event of the week in German-American society and academic circles was the official dinner given by Professor Shorey, of the University of Chicago, and Professor Archibald Coolidge, of Harvard, in return for the hospitality they have received during their temporary connection with Berlin University. The dinner was laid in the big banqueting hall of the Hotel Adlon, and covers were laid for a hundred and thirty. The tables were decorated in multicolored tulips. Short speeches were made by Drs. Coolidge and Shorey, the latter taking advantage of this opportunity to make a graceful apology for an article written by him in the Nation two years ago against German influence upon American schools and scholarship and which caused indignation in German academic circles.

Besides well known personages in German academic circles, there were present the American Ambassador and Mrs. Gerard, the American Consul General and Mrs. Skinner; Lieutenant Commander and Mrs. Gherardi, Major Langhorne, Mr. and Mrs. Ruddock, Mrs. James Norton Winslow, Mr. Lanier Winslow, Mrs. Harry J. Luce, Mrs. Stephen H. McFadden and Mr. Willing Spencer.

Dr. Cooley discussed the subject, "What the European School System Has to Teach to Our Own.'

Mr. Arthur Schlubeck, well known in the Berlin art world, has painted a portrait of two daughters of Mr. Harry B. Hirsh, of Philadelphia, which will be exhibited in the spring salon in Berlin.

Taking advantage of the suspension of official functions for a week the Kaiserin has gone to see her daughter, Princess Victoria Luise Duchess of Brunswick and Luxemburg, whose accouchement is expected early in March.

Colored Wigs in Berlin.

Colored wigs have entered Berlin society from Paris, adding another dash of spice to the queer mélange of the seasons balls, each of which has endeavored to contrival the preceding ones in novel and outre devices.

By the death of Prince George Radziwill an American woman will become mistress of the broad estates of one of the oldest and proudest families in the German aristocracy. When Prince Anton Albrecht, the present head of the family, married Miss Dorothy Parker Deacon, of Boston, in London, in 1910, the marriage was not recognized by Prince George, and a statement to this effect appeared in the Almanach de Gotha, but now the qualifying clause has been eliminated and the American Princess enters with full rights into the title and properties of her husband.

Mrs. Gerard was at the American Church on Monday afternoon, when the daily afternoon tea system was initiated. It is felt that a free reading room, an extension of the library and other projects will help American students in Berlin and be very beneficial. Mrs. George Watson and Miss Agnes Kerr presided at the tea table.

Thackeray Sale Brings Protest

(Special Dispatch.)
LONDON, Feb. 28.

THE news that some of Thackeray's letters to Mrs. Brookfield are to be sold by auction in New York has caused a similar outburst of protest to that which was made on the occasion of the sale of the Browning letters. In literary quarters the feeling is general that the forthcoming sale is another instance of the triumph of commercial instincts over a just regard for what is almost sacred to at least a small circle of persons.

One who had considerable influence in bringing about the return of the Glenriddel Burns manuscript to Britain, while not wishing his name revealed, said:—

"There has not been a time in the history of the world when such liberties have been taken with such writings. Surely it is time that a united protest be made against this method. The love letters of Thackeray to Mrs. Brookfield, the wife of the clergyman who was the friend of the novelist, are of no literary interest to any one. They simply show the genius of the writer in a light which is certainly heroic in one sense, but is unfortunate in another, and lovers of Thackeray's work can have no great interest in such private and tender epistles.

"It is only recently that there was a long discussion on the question of the sale by auction of the Browning letters, and it is still within memory that a similar controversy arose in regard to the letters of Carlyle and Jane Welsh. Then there were the love letters of Keats to Fanny Browne, and I remember the pain which was experienced by the relatives of Dickens when a private letter of the novelist was published in regard to his estrangement from Mrs. Dickens."

The other side of the question was outlined by one of London's leading auctioneers, who held that there was no more sacrilege in selling private love letters than in selling private furniture.

Doors of London Tivoli Are Closed

Famous Old Music Hall Will Be Dismantled Only To Be Later Rebuilt.

(Special Dispatch.)
LONDON, Feb. 28.

CHEERIST and most typical of music halls, the Tivoli, in the Strand, has closed its doors to enable the Strand to be widened at that part, and the thousands who frequented that most popular of London's places of amusement are in mourning. It will be rebuilt, but not for a long time.

The Tivoli had not perhaps the antiquity of its sister hall, the Oxford, which had been opened, burned down and rebuilt nearly thirty years before the Tivoli came into existence, but its record is of greater brilliance than any other in London. Stars of dazzling magnitude have sung and danced on its stage, and no music hall in the world can boast of a closer connection with the great ones of the variety world.

It was built in 1890, but although the situation was ideal, and no expense had been spared, for some eighteen months the place was a dismal failure. Toward the close of 1891, however, Mr. Charles Morton, the "Grand Old Man" of the music halls, who had been manager of the Oxford in the sixties, was called in to pull the concern together, and the full tide of prosperity soon set in. The Tivoli became the "rage" among amusement seekers in the nineties, and it has never lost its popularity or its own particular character.

The great favorites of the mid-Victorian music halls, George Leybourne, "the Great Vance," George Hodson and others whose names to an older generation were household words, had passed away before the days of the Tivoli, but the names of their more than worthy successors, some of whom are still flourishing, appear in its earlier pay lists. Stars who now command vast salaries trod its boards for very humble sums when they had the struggle for fame before them. The payroll then ran to only about $1,000 a week. Now $10,000 is the average.

A stiffish bill of those early days contains the names of George Robey, George Mozart, Marie Lloyd, Albert Chevalier, Eugene Stratton and the Sisters Levy. The most prodigal manager would shudder to estimate the cost of such a constellation to-day. Peggy Pryde and Maggie Duggan were very popular, and "Will" Evans was then doing a turn entitled "Evans and Luxmore," in which handbell ringing was a feature. The Tivoli was one of the first music halls at which Little Tich adopted his world famous "big boot" act; and it was for Eugene Stratton during his engagements here that Leslie Stuart wrote some of his most haunting coon songs, of which, perhaps, "The Lily of Laguna" was the most melodious.

Here the "great" G. H. MacDermott first sang "We don't want to fight, but by Jingo! if we do;" here Jenny Hill was a favorite, and Harry Randall sang the song of the gallery boy, "It Ain't All Lavender."

In 1898 Mr. Charles Morton migrated to the Palace, and turned that place from a failure into a big success, while Mr. Vernon Dowsett took over the reins at the Tivoli. He was succeeded after an interval by the present manager, the genial "Joe" Wilson, who has held the position for nine years. Under his management the Tivoli, when rebuilt on a larger scale, should continue the position it has made for itself, not as a palace of varieties, but as a genuine music hall, a judicious blend of the old style and the new.

IN THE LAND OF SKIING AND SKATING AND PLUNGES BY TOBOGGAN AND 'BOB'

A SHORT CUT BACK TO ST. MORITZ.

MISS ELLIOTT ONE OF BEST SKATERS

(Special Dispatch.)
ST. MORITZ, Feb. 28.

SUNSHINE prevails continuously, but the large army of skiers is beginning to call for snow.

Let those of you who were inclined to be nervous at the report that Marchesa Casati had brought with her to St. Moritz a pair of panthers be reassured. The only animal that Marchesa Casati has with her is one of the most beautiful and graceful pure white greyhounds it would be possible to see. Last year Marchesa Casati was accompanied by a pet monkey, which, however, has been left at home this time.

Prince Festetics has gone to the Riviera to see his eldest daughter, Princess Fürstenberg, who is stopping at Nice with her husband. The Prince leaves behind him here his second daughter, Princess Charles von Windisch-Gratz, who has been his constant companion during his sojourn. Prince Festetics regrets leaving St. Moritz, and declares that he will return if possible.

Prince Antoine, of Orleans-Braganza, the other afternoon, with marked reluctance, took leave of his bobsleighing friends at the start of the bobsleigh run. He was sorely tempted at the last moment to take

Baron Maurice de Rothschild talks of a final trip down the run on Mr. E. C. Feigenspan's "bob" the Mercury, of which the grandson of Dom Pedro has lately formed one of the crew, but it was a matter of catching a train and the Prince had to forego the trip.

Miss Maxine Elliott, the American actress, received quite an ovation on her appearance at déjeuner at the Palace Hotel. She took déjeuner at a small table with Baron and Baronne Maurice de Rothschild. Miss Elliott lost no time in getting to the skating rink, where she finds her greatest pleasure, and where she figures as an expert.

leaving, and may go to the Riviera, but the social charms of St. Moritz still hold him. He is at home here in every place where society people foregather. His energy is unbounded. He is here, there and everywhere, flitting about from group to group and from one hotel to another. Never a dance or entertainment takes place without his being in the thick of it. Both he and his beautiful young wife enter into all the fun here, both are industrious skaters, and their absence would be greatly regretted in St. Moritz.

Sports are run all day at St. Moritz, and dancing generally occupies the evenings.

GHASTLY IF THE LIGHT IS NOT RIGHT, PRETTY IF IT IS, ARE COLORED WIGS

This Is the Verdict of the Innovation Attempted at Mrs. George Keppel's Party in London —Each "Transformation" Has To Be Made to Suit the Peculiarities of the Wearer, Says the Man Who Makes Them.

(Special Dispatch.)
LONDON, Feb. 28.

THE season having been opened by the King and Queen, London is rapidly filling with well known persons for the gayeties of the social round. The usual number of pet charities is receiving the attention of society women, educational fixtures are numerous and the theatres have notable audiences nightly. There is much entertaining going on in the fashionable restaurants, and not for many years have there been seen so many morning riders in Rotten Row as now. This is not solely due to the glorious spring like weather or to the King setting the fashion, but the automobile habit has got such a hold on the West End that physicians are insisting on equestrian exercises to counteract the effects. As a consequence the value of hacks is going up, and a good one will now fetch anything from $600 to $2,500, the demand being especially for steadygoing horses suitable for carrying heavy, elderly men.

The event of the week and the main subject of talk was Mrs. George Keppel's dinner in Grosvenor street for the coming out of her daughter Violet, at which she unconsciously suggested the futurist headdress which will be the vogue this year. To begin with the hostess was not in the secret, but some of her guests obviously resolved to seize the opportunity of testing the effect of rainbow hue headdresses in conjunction with ordinary evening dress. It is true, the dinner was a fancy dress affair, which served as an excuse for the presence of the new fashioned wigs, but as regards the majority of the women who wore them at Mrs. Keppel's table their dresses could not by any stretch of the imagination be classified as fancy. In fact, they represented the last word in fashion, and the only bizarre feature was the accompanying wig of vivid green, bluey lilac or pink.

About twenty guests wore these colored transformations, carefully chosen to harmonize or else to provide a vivid contrast not only with the dress but with the eyes, general style and face.

The general effect [illegible] been considered as highly successful, as several women have expressed their intention of wearing these startling transformations on ordinary occasions, provided a sufficient number will agree on such a course of action so as to remove the reproach of deliberate eccentricity.

"Original" and "beautiful" were the criticisms most frequently used, and it is [illegible] the result is not fantastic or outre, some of the very daring innovations recently made on the stage, but that, on the contrary, the colored wig, properly selected, throws up the perfection of the profile or the beauty of the finely modelled face as the natural hair cannot. But the most enthusiastic advocates admit that in the daytime it gives a ghastly appearance.

The originator of the mode in England is Vasco, of Dover street. Discussing the question in perfect seriousness he laid stress on the mysterious charm and distinction which, he alleges, belong to the colored headdress when worn in the proper environment and in appropriate light.

But the colored wig cannot be made by the wholesale. It has to be built to suit the requirements of each individual. The color of the eyes is a very important consideration, to which the wig must be an agreeable contrast.

King Attends Smoker.

The King added to his popularity this week by taking twenty-two guests from his dinner at Buckingham Palace to the smoker at the Royal Amateur Orchestral Society. It was a night of smoke and music. The King was in real Bohemian mood and not for ceremony. He led the applause, smoking his cigar side by side with Count Benckendorff and Count Mensdorff. During an interval a servant brought in a decanter of whiskey and a bottle of mineral water. The King unscrewed the stopper and pushed the decanter to his guests, but sipped barley water himself.

Free and easy, the King sometimes left his chair and mingled with the audience, talking first to one and then to another of the lights of the musical world, afterward shaking hands and chatting with his entertainers. It was an occasion when the King is seen at his best, and thoroughly enjoying the absence of restraint which is part of his daily life.

The most important and most picturesque wedding of the year did not take place in London, but at St. Mary's Church, Brighton, Northamptonshire, when the Honorable Sidney Peel, son of the late Viscount Peel, married Lady Adelaide Spencer, daughter of Earl Spencer. About four hundred guests travelled by special train from London from houses in the vicinity of Althorp Park. Crowds attended the church, and the Bedfordshire Yeomanry, which the bridegroom has commanded since its formation, lined the aisle. The bride wore a satin robe flounced gracefully on the skirt with rare old lace and a wedding veil of the same lace, which had been in the Spencer family for generations. After the reception the couple left for a honeymoon in Egypt.

Wedding of Bishop's Daughter.

Royalty permeated by Princess Louise, Duchess of Argyll, with the Duke of Argyll; the Duchess of Teck and Princess Helena of Teck attended the most interesting wedding in London, that of Mary Glyn, daughter of the Bishop of Peterborough, to Mr. John Wynne Finch, in the Guards Chapel, Wellington Barracks, the bridegroom's famous regimental band, the Coldstreams, accompanying the choir.

London Market for Art Shows Tendency Toward Improvement

From Obscurity to Fame in Three Years Is Record of James McBey, a Bank Clerk Until He Found He Had an Artist's Instinct.

(Special Dispatch.)
LONDON, Feb. 28.

ART does not seem to be ill patronized in England at the present time. It is true that artists in general are an impecunious body. Many, indeed, cannot even—like Constable—exchange their production for a receipted tradesman's bill. Notwithstanding this, it seems from inquiries at some of the leading picture galleries that sales so far have recently been quite good.

"During the last year sales have certainly shown a tendency to improve," said the secretary of the London Sketch Club, where there is now an exhibition of the works of the late 'Tom' Browne.

"At our last exhibition we sold more than a third of the total number of pictures shown," said the secretary of the Royal Society of Painters in Water Colors. "Good pictures always sell, and there is still a fairly good market for art. Many years ago, before people went in for old masters and before picture dealers existed, it was possible to sell the whole exhibition almost on the first day."

While many of the West End dealers are able to report good sales for more or less high priced paintings, the small dealer finds himself in a different category.

"Sales for paintings have dwindled down to almost nothing," said one of these. "There was a time when I could buy small water colors from artists for a few guineas, knowing that I could quickly dispose of them. It is a very different thing now. All I can do is to take pictures 'on sale or return,' charging a commission on the price I receive. As a rule a very long time elapses before a customer comes along.

"What is the reason for the change? Well, in the Victorian era people had no love for old things; they liked everything to be up to date, so they bought new paintings with which to decorate their homes. But now a craze for antiques has set in. Instead of buying pictures many people ask for old engravings, or, if they are well off, they search for old masters. Others have antique china plates on their walls, while not a few insist on 'Baxter prints.' All this is damaging to the modern artist, and if we had not picture framing to fall back upon some of us would be in severe straits."

The managing director of a firm of art agents said that some of the leading artists are now devoting themselves to commercial work, such as poster painting. "It is the money they receive for copyrights," he said, "not canvases, that keeps them going."

It falls to the lot of very few artists to leap into a reputation with the rapidity of Mr. James McBey. Less than three years ago he gave an exhibition of etchings in Hanover street which at once made its mark among the one man shows there. That was his first introduction to the world, for it was only a few months earlier that he slid off his stool in a bank in the north of Scotland and in the old Scotch style came to London with some unconventional coppers in his pocket. Then with the money he made he went on some sketching trips in Europe, came back, and he had the solid satisfaction of not being able to keep pace with the demands for his work from dealers.

Queen Mary Is Fond of Sea Pictures

King George Will Select Artist to Complete Bacon Painting of Coronation.

(Special Dispatch.)
LONDON, Feb. 28.

THOUGH Queen Mary is by no means a good sailor, she is very fond of sea pictures. She has just purchased three charming little water colors, the work of Mr. R. Eadalle Richardson, of Sandown, Isle of Wight. One is a view of the "Victory at Sunset" and the others scenes off Ryde. Mr. Richardson has long been a favorite painter with the royal family, and Princess Henry of Battenberg and the Queen of Spain both possess many examples of his work.

Talking of artists and their work, a selection to fill the Associateship of the Royal Academy vacated by the death of Mr. J. H. F. Bacon is not likely to be made until the annual spring meeting of the Academy. There is also the question who shall complete Mr. Bacon's unfinished painting of the coronation. This will be for the King to decide in due course, and as the choice must necessarily fall upon one thoroughly in sympathy with the original painter's style, the field must not be supposed to include all the eminent artists of the day.

The King has in contemplation another garden party at Windsor during the early year. It will not in any way seek to rival the great parties which King Edward instituted at the Castle. The very large number of guests invited was found to be somewhat unwieldy for comfort, and not so many will be asked on this occasion. The party probably will be held the Saturday preceding or following Ascot.

When the King and Queen of Denmark make their promised trip to England next May King Charles will bring with him the Order of the Dannebrog to bestow upon the Prince of Wales. This is one of the oldest orders of chivalry in Europe, tradition tracing it back to the beginning of the thirteenth century. The star is particularly handsome in its design and the ribbon is white with an edging of bright red. The Prince of Wales already wears the Golden Fleece of Spain and the Crown of Würtemburg, in addition to the French Legion of Honor and the Garter.

"Should Girls Be Told?" Has Opened Discussion in England

Storm Raging Over a Schoolmistress Who Ventured to Enlighten Some of Her Pupils on Mystery of Birth—Prominent Persons Take Up the Controversy.

(Special Dispatch.)
LONDON, Feb. 28.

A GREAT storm is raging among the mothers of England because Miss Outram, headmistress of Dronfield, a village near Chesterfield, has ventured to tell the elder girls in her school something about motherhood, instead of leaving them to find out from unsuitable companions. The school managers tried to compel her to resign, but the County Education Committee refused to indorse this request, and so the agitation continues. The children of the parents who believe in the school mistress still attend; the others have been withdrawn.

And wide afield the controversy rages, the majority of persons of note answering the question, "Should the girls be told?" in the affirmative.

Miss Cicely Hamilton, the well known author, says:—"These girls are reaching an age when they inevitably will learn something of the physical aspect of the mystery of birth; but their parents prefer that they shall learn it, not by straightforward, sympathetic explanation, but in the usual underhand way—that it shall be told to them by a comrade instead of by a teacher with discretion.

"They themselves, it appears, the people best fitted to undertake the task, are unwilling to touch on the subject; and, shirking their responsibilities in the matter, they are angry and annoyed with a woman who, wiser than they are, was in no mind to shirk hers.

"The exact manner in which the average child should be enlightened on the subject of its birth, the exact age at which the information should be given, must be decided by those who know more of children than I do; but there can be no excuse for the prudery which prevents discussion of the matter with a growing inquiring mind, or for the mental laziness, which shrinks from the handling of a thorny and difficult subject."

Mr. George Egerton, the well known novelist, playwright and social reformer, asks, "If children cannot be taught these things at school, where can they be taught? The outcry of the parents is wholly ridiculous. I have travelled much in this country, and I have never yet met an innocent girl in any English or Welsh village. They seem to know as much as anybody, and they have got to know in the wrong way. How can the girls of English villages be innocent? It is such buncombe to talk about them as if they were.

"Why, the housing accommodation in the country is such that no girl can be innocent. She never sleeps by herself; her mother probably has a baby in the same room she lives in, and the household accommodation is so restricted that very early she is brought face to face with the facts of life. And the same with the boys.

"And naturally they talk among themselves in the fields and the hedges and ditches, speculating among themselves in secret and all in the wrong way. What is great and noble is turned into an unclean thing and—the illegitimacy returns are increased. So little do they think of illegitimacy in the English villages that it makes no difference.

"We English people are great humbugs. We never will face facts and try to deal with them in a straightforward way; we are too fond of roundabout methods. We will not understand, for instance, that the housing problem is the cause of village immorality."

"If children are not told cleanly," says Mr. Harry Lowerison, headmaster of the Ruskin School, in Norfolk, "they will and do get knowledge uncleanly. The present system—a conspiracy of silence and of lying—is rotten in itself and in its results. The question should be faced, not shirked any longer. Ignorance is not innocence, but often a terrible danger to the growing girl."

Mr. William Alexander Coote, general secretary of the National Vigilance Association, who has had ample evidence of the "evil," says:—"There can be no question that the parents are the natural and proper teachers. But owing to many reasons all parents are not qualified to impart this knowledge, and the age at which it should properly leave the nursery is a very important point to consider, when the pitiable moral dangers that lurk in the world into which they are just stepping, especially important is this to the case of girls.

EAT CABBAGE, FISH SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach If You'll Take "Pape's Diapepsin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favourite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

WILL URGE REPEAL.

President Wilson Will Address Congress on Panama Tolls.

WASHINGTON, March 4. — President Wilson will personally address a joint session of Congress to-morrow, advocating the repeal of the clause in the Panama Canal Act, which exempts American coastwise shipping from the payments of tolls.

White House officials last night arranged with the majority with the leaders in both Houses for a joint session at 12.30 p.m. to-morrow. The President has prepared a brief address in which he sets forth his opinion that Congress should reverse itself and keep the obligations of the Hay-Pauncefote treaty, which he believes were vitiated by the Panama Canal Act. The President holds that the national honor of the American people is at stake and that European nations should not be allowed to get the impression that treaties made by the American Government are not adhered to both in letter and in spirit.

NEURITIS FOLLOWS CRIPPLED NERVES

Painful Effects of Chronic Rheumatism Quickly Routed by Rheuma

Painful Effects of Chronic Rheumatism Quickly Routed by Rheuma.

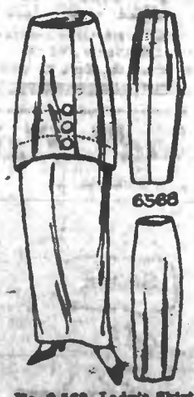
If your nerves are all crippled from attacks of Rheumatism, Neuritis can easily get a strong hold on the nerves. This most painful disease is one of the hardest known to expel, but RHEUMA can reach it if given a chance. This testimony is positive proof:

"Last March I was so crippled with Neuritis in left limb I could walk scarcely at all. Tried all remedies I heard of and had two physicians. Nothing did me any good until I used RHEUMA—$2.00 worth of your medicines surely cured me. —Mrs. C. E. Hayes, Russell, Ky.

Sold by Warne Drug Co. at 50 cts. a bottle.

EXAMINER PATTERN SERVICE

DAILY FASHION HINT.



No. 6,568, Lady's Skirt.

This two piece skirt shows a model which has the tunic in front and at the sides and merely a few gathers in the back. The waist line may be high or regulation and the skirt can also be made without the tunic. Such materials as serge, cheviot, ratine, epongo, Canton crepe and the like are used for these skirts.

The skirt pattern, No. 6568, is cut in sizes 22 to 32 inches waist measure. Medium size requires 5¼ yards of 36 or 44 inch material with tunic and 2⅝ yards the same width without tunic.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

TO GET REPARATION

U. S. Will Be Given Chance in Mexico, Says Grey

STATEMENT IN COMMONS

LONDON, March 4.—The British Government's view that no immediate action could be taken by it in connection with the deadlock over the investigation into the death at Juarez of William S. Benton, the British ranchman, was made quite plain yesterday in the House of Commons by Sir Edward Grey, the British Foreign Secretary. Sir Edward was, however, equally explicit in pointing out that if Great Britain failed to secure satisfaction through the United States, the British Government reserved to itself the right to secure reparation whenever it was able to do so.

The promised pronouncement from Sir Edward had been anxiously awaited. It was delivered before a keenly interested gathering of the members of the House of Commons, while the entire nation looked forward to a declaration of the Government's policy in regard to Mexico.

Intense resentment has been displayed throughout the British Isles over what is regarded as an attempt on the part of Venustiano Carranza, the Constitutionalist leader in Mexico, to sow discord between the British Empire and the United States, and also over the repeated delays in the investigation of the circumstances of the death of Benton.

Pleased With Grey's Attitude.

WASHINGTON, March 4. — Great Britain's pronouncement through Sir Edward Grey, that the United States was in no way responsible for the recent execution at Juarez of William S. Benton, a British subject, and that the American Government would not be asked to resort to force as a result of the incident, was the chief factor in the Mexican situation yesterday.

President Wilson, in a conference yesterday with Sir Cecil Spring-Rice and Sir Lionel Carden, the British Minister to Mexico, is understood to have expressed his approval and appreciation of the friendly sentiments uttered by the British Foreign Secretary in the House of Commons. Tension, which had been felt here over the killing of Benton, rose largely because it was believed Great Britain might press the United States into taking drastic steps to secure reparation. The British view that the United States is not obligated to demand reparation for Great Britain relieved this tension to some extent, although it is clear that the Benton incident has developed an intention on the part of the American Government to take a more aggressive attitude toward the contending factions in Mexico.

BRIEFS FROM THE WIRES.

A royal decree dissolving the Swedish Parliament was read yesterday in both chambers.

The Federal Railway Department is arranging for a daily summary of general news being flashed from Le Pas to the 200 men at Port Nelson by wireless.

Australia's first two submarines left England Monday, and are due at Sydney about the middle of May. They will make the entire journey by their own power.

Blenheim wants Hydro-electric service. Mayor J. B. Smith has written to Hon. Adam Beck, and a public meeting is expected to be held soon to consider the proposition.

Frank Bordignon, Italian, was killed Monday night while walking on the railway tracks from Cooksville to Port Credit where, until recently, he was employed in the brickyards.

C. H. Mathewson, a former Londoner, for some years in the Department of Public Works of the Federal Government, has been appointed resident engineer on the Toronto harbor works.

Water of the Richelieu river, formerly thought to be absolutely pure, is held in a large measure responsible for a typhoid epidemic now raging in that part of the province of Quebec it touches.

A bill respecting the Sudbury, Kippewa & Rell River Railway was passed by the Dominion Railway committee yesterday. It will run from Temiskaming Lake to Rell River on the N. T. R.

Two Years For Assault.

TORONTO, March 3.—His brutal blow with a hammer upon the head of James McLennan caused Roland Hatch to be sentenced to two years in the penitentiary yesterday in the police court. Hatch entered McLennan's coal office with an accomplice and after ordering some coal struck McLennan senseless. His companion escaped.

For the Hair.

A hairdresser says that an old silk handkerchief is better than a brush for stroking the hair.

Itching Scalps Dandruff and Falling Hair

Successfully Treated with Cuticura Soap

And Cuticura Ointment. Directions: Make a parting and rub gently with Cuticura Ointment. Continue until whole scalp has been gone over. Next morning shampoo with Cuticura Soap. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for women's hair.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 32-page Skin Book, sent post-free. Address Potter Drug & Chem. Corp., Dept. 6K, Boston, U. S. A.

ELECTION IN SIGHT?

Deadlock Over Ulster Absolute Declares Pall Mall Gazette.

LONDON, March 4. — The Pall Mall Gazette declared yesterday that a general election is in sight, the deadlock being absolute, with no prospect of its being solved under the conditions existing in the present Parliament. Nationalist control of the Commons and the Government forbids an effective attempt to secure a compromise in Ulster. The Pall Mall Gazette asserts that the Government is preparing its suggestions, while well knowing that they will be rejected.

The Unionists in both Houses will resist, and will use every constitutional method which is likely to compel the Government to face the country before actual civil war is inevitable. The news from Ulster leaves little doubt that the covenanters are preparing to mobilise as soon as the Home Rule bill passes the Commons.

SUFFER NO LONGER KEPHALDOL

Has Now Come to Canada

Sufferers from Rheumatism, Lumbago, Sciatica, Neuralgia, Headaches, Neuritis and kindred agonizing ailments may now find speedy, welcome relief and certain cure.

At last the victims of these torturing complaints — men and women whose lives are long-drawn-out agony —may look with hope—confidence—certainty—to pain's most glad departure.

In Kephaldol is now offered to Canadians, for the first time, a remedy which not only has medical endorsement for its efficacy, but is also guaranteed to be a perfectly safe painkiller, containing nothing to injure the heart or any other bodily organ.

For colds, influenza, catarrh and similar complaints, Kephaldol is unequalled. A tablet or two taken at the first indication of trouble will unfailingly check its development and restore health.

Get a tube of Kephaldol tablets from your druggist, or write for them to Kephaldol Limited, 31 Latour Street, Montreal.

WOULDN'T TRUST POST.

Suffragette Tool Letter to Buckingham Palace Herself.

LONDON, March 3.—Mrs. Dacre Fox informed a meeting of suffragettes here yesterday she had delivered Mrs. Emmeline Pankhurst's letter at Buckingham Palace under escort of the gate policeman, who refused to allow her to enter alone.

Mrs. Pankhurst's letter, asking the King to receive a deputation, which desired to complain of "the barbarous methods of torture by Your Majesty's Ministers."

Mrs. Dacre Fox handed the letter to the King's private secretary. If no reply is received, another letter will be sent.

"If His Majesty is unwise enough to refuse to see the deputation," said Mrs. Dacre Fox, "we will go to Buckingham Palace anyway."

IN ONE MINUTE! CLOGGED NOSTRILS OPEN—COLDS AND CATARRH VANISH

Stops Nasty Discharge, Clears Stuffed Head, Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

BUDGET IS TABLED

Hon. I. B. Lucas Claims a Surplus of $250,000

T. & N. O. RECEIPTS FELL

TORONTO, March 4.—Budget day is one of the big features of the session of the Legislature, and yesterday Hon. I. B. Lucas presented the first Budget of his own making as Provincial Treasurer.

He showed an actual balance of receipts over expenditures of $220,-276.81, and to this added the amount paid out for the construction of public buildings during the nine years the Government has been in power, some $2,000,000, $1,000,000 for good roads, $297,000 for the limits of the Munn-Lumber Co. and $150,000 for the Provincial Museum.

Hon. Mr. Lucas, at the outset of his speech, stated that contrary to precedent there would be no apology this year. He was very glad to show a surplus exceeding $300,000. The revenues of the province were substantially greater than those estimated last year by him in the budget speech, and it was a matter of congratulation to the House and to the province that notwithstanding the business and trade depression of the year and the shrinkage of timber resources, that the showing was so good. Although the money market was tight, they had closed the year with two millions in the bank.

The only serious decrease of the year was that of the T. & N. O. Railway, the estimated receipts of which had been $510,000, but which had realized only $250,000.

An analysis of the accounts shows the receipts to include the $2,134,080 derived from the Dominion Government as the provincial subsidy on account of the T. & N. O. Railway. There is another $2,396,378 subsidy on population from the Dominion Government. From the lands, forests and mines of Ontario the revenue was $2,738,609, which is the largest source. The next medium in order is the succession duties, taxes upon the estates of the dead, which netted the Government $1,062,694. Under the Supplementary Revenues Act the income was $937,599. Other revenues were: Licenses, $901,486; law stamps, $134,483; education, $60,-600; Provincial Secretary's Department, $367,366; fish and game, $136,364; agriculture, $177,131.

There is $207,805 from interest in connection with Hydro-Electric expenditure, earnings of $250,000 from the T. & N. O. Railway, and $854,629 interest from the Dominion Government on T. & N. O. account. The other large receipts are $2,581,641 from the sale of the treasury bills, and $1,027,173 per provincial loan, the balance of the $3,000,000 authorised in 1912.

The bonds and stock subscribed last year amounted to $2,770,300. The premiums to be deducted were $5,274, and discount of $103,811, with brokerage added of $34,489, making the $1,770,300 figure out $1,637,178.

Among the expenditures education looms large with $1,969,291. For maintenance of public institutions the expenditure was $1,366,038, civil government, $720,225; administration of justice, $715,934; agriculture, $683,391; hospital and charities, $416,512; colonisation and immigration, $134,601; legislation, $302,-293; colonisation roads, $406,034; charges on crown lands, $583,593; Provincial Hydro-Electric Commission, $139,593; refunds, $164,212; miscellaneous services, $317,190, or a total of $8,089,330.

The public buildings accounts total up to $2,778,669.

For roads in New Ontario the expenditure was $1,062,655, advances to T. & N. O. Railway under statute, $950,000; good roads statutory fund, $288,367; new Government House, $224,396; new provincial prison, $238,975; new hospital for insane, Whitby, $209,663; and other expenditures with various institutions that total up to $6,823,916.

In discussing the income from death duties, Mr. Lucas foreshadowed an amendment to the act to prevent wealthy men evading payment of a full tax from their estates.

C. M. Bowman, who made his first appearance as financial critic for the Opposition, congratulated Hon. Mr. Lucas on his first statement as a real Provincial Treasurer.

In the matter of receipts alone there was not much difference between his own analysis of the accounts and that of the Provincial Treasurer, with the exception of certain items which should not have been included and which would reduce the receipts to $10,794,566. In regard to expenditure, he pointed out that there had never been such thing as capital expenditure except under the last years of the old administration. Items classed then as current were now dealt with as capital expenditure. He declared the Government claim of $954,000 in arrear from the T. N. & O. subsidy was not justified and that the Government was only entitled to credit for $500,000 interest due for 1912-13 in the interest of 1909, 1910 and 1911 having no place in it. His contention that the expenditure of Ontario in proportion to the revenue had been growing at too rapid a pace and that the Government had been negligent in raising the necessary revenues to meet it. He found a direct deficit of $1,818,291.63 between legitimate and proper current receipts and legitimate current expenditures.

Tuberculosis In France Doubled.

PARIS, March 4. — Tuberculosis has a little more than doubled in France since 1887, according to figures supplied to The Temps by Henri Schmidt, the Republican-Radical deputy, who is one of the leading figures in the temperance movement in France.

MANY ARE SENTENCED.

Ruthenian Peasants Go to Prison For Sedition.

BUDAPEST, Hungary, March 4.—Sentence was passed yesterday at Marmoros-Sziget on thirty-two of the fifty-five Ruthenians who have been on trial since Dec. 28 charged with inciting to rebellion against the Austro-Hungarian Government.

The principal prisoner, Father Alexius, a Russian monk from Mount Athos, was condemned to four and one-half years imprisonment. His real name is said to be Alexander Kabalyuk, and he was understood to be the leader of the seditious movement. He was alleged to have carried on the propaganda under the guise of efforts to convert the Ruthenian peasantry to the orthodox faith, but with the real intention of enticing them from their allegiance to Austria-Hungary and drawing them toward Russia. The movement was said to have been promoted and financed in Russia. The other thirty-one convicts were condemned to terms ranging between six months and two and one-half years in prison, and all in addition were fined small sums.

HOW I MADE MY HAIR GROW

Woman With Marvellously Beautiful Hair Gives Simple Home Prescription Which She Used With Most Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them made my hair greasy so it was impossible to comb it or do it up properly. I think that many of the things I tried were positively injurious and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol and other poisonous substances. I believe they injure the roots of the hair. After my long list of failures, I finally found a simple prescription which can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair and for restoring grey hair to its natural colour, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but has practically restored all of his hair to its natural colour. You can obtain the ingredients for making this wonderful preparation from almost any druggist. The prescription is as follows: Bay Rum, 6 oz.; Menthol Crystals, ½ drachm; Lavoris de Composee, 2 oz. If you like to perfumed add 1 drachm of your favourite perfume. This, however, is not necessary. Apply night and morning; rub thoroughly into the scalp.

Chicago Train In Smashup.

CHICAGO, March 4. — The Pere Huron special of the Grand Trunk Railroad, Chicago bound, crashed into a freight train in the city yards yesterday killing Marley Burns of Chicago, a freight brakeman, and seriously injuring two other men. The passengers on the all steel train were shaken up, and several of them slightly injured.

Elections In France.

PARIS, March 4. — The French Cabinet Council yesterday decided on Sunday, April 26, as the date for the general Parliamentary elections in France.

Magnifying Misery Into Joy

Dyspeptics, Stomach Sufferers and Appetiteless People May Quickly Find Relief in Stuart's Dyspepsia Tablets.

When a stomach sufferers gets relief he is one of the happiest of human beings and he looks back at his old self with a distinct feeling of horror.

Stuart's Dyspepsia Tablets quickly readjust the out-of-proportion stomach and digestive machinery and bring joy of life and love for food to the man or woman who will use them after each meal for a short time.

"Golly gee, I used to feel just like that fellow"

The action of Stuart's Dyspepsia Tablets is a purely natural one. When taken they enter the stomach just like food. They mix with the juices of the mouth. Then they enter into and correctly build up or dilute the juices of the stomach, go into the intestines and there what the nourishment from food is taken into the system so follows the ingredients of these wonderful tablets.

They correct the faults of the blood and thus at the next meal the body is better able to produce a stronger and more normal digestive juice.

A short use of these tablets will re-establish your digestion, stop gastritis, heartburn, indigestion, foul breath, catarrh of the stomach, ulcers and many other unbearable conditions.

Go to your druggist to-day and begin the Stuart's Dyspepsia Tablet habit. It is the habit of health and appetite. Learn how to yearn for food, not how to spurn it.

Obtain a box from any druggist — price 50 cents. Sold wherever you can find a drug store.

LAXATIVE FOR A CROSS, CONSTIPATED SICK CHILD, "CALIFORNIA SYRUP OF FIGS"

A coated tongue means sluggish liver and bowels—Listen mother!

Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has sour stomach, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills. Give a teaspoonful and in just a few hours all the foul waste, sour bile and fermenting food, clogged in the bowels, passes out of the system and you have a well and playful child again. All children love this harmless fruit laxative and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on each bottle.

Mother, keep it handy in your home. A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs." Then look and see that it is made by the "California Fig Syrup Company." We make no cheaper size. Don't be fooled.

MONK RESIGNS SEAT.

Member For Jacques Cartier Gives Ill-Health as Reason.

OTTAWA, March 4.—The resignation of Hon. F. D. Monk as member for Jacques Cartier was announced by Speaker Sproule in the House yesterday afternoon. Ill-health is assigned as the cause.

Hon. Mr. Monk had not been present in the House this session, and in fact has been in Ottawa hardly at all since his resignation from the Government because of his objections to the naval policy adopted by his colleagues.

Mr. Monk was born in Montreal in

HON. F. D. MONK.

1856, was educated at McGill University, and became one of the leaders of the Bar. In 1892 he became professor of constitutional and international law at Laval University. He was elected to the House of Commons for Jacques Cartier in 1896, and continuously since. In 1901 Mr. Monk became leader of the Quebec Conservative members in Parliament, but resigned this leadership in 1903, and subsequently became identified with the Nationalists. When the Borden Government was formed in 1911 he accepted the portfolio of public works, but resigned in October, 1912.

SEEKS LABOR BUREAUS.

Social Service Congress Will Send Deputation to Government.

OTTAWA, March 4.—One of the most remarkable gatherings that has ever assembled in Canada—the Social Service Congress of Canada—the object of which is to arouse interest and enlist all Canadians in behalf of social righteousness with the purpose of improving social, economic and ethical conditions in Canada, opened its sessions here yesterday, and will continue the next two days. Fully a thousand delegates are in attendance from all parts of Canada, and so great was the crowd seeking admission to the assembly hall that hundreds had to be turned away.

At the morning sessions addresses of welcome were delivered by Premier Borden, Sir Wilfrid Laurier and by Controller Parent of Ottawa Council.

The theme of the afternoon session was "The Church and Industrial Life," and many notable speakers, including Dr. Charles Stelzle, consulting sociologist of New York; Controller James Simpson of Toronto; Rev. J. W. Aikens, pastor Metropolitan Church, Toronto; Rev. Prof. G. C. Pidgeon, D.D., Vancouver, and Rev. W. A. Riddell, B.A., Toronto, were heard.

At the conclusion of the afternoon session a resolution was adopted that a deputation wait on the Government advocating the establishment of labor bureaus. Speakers also urged that the congress take steps to ask the Federal Government to remove the evil of unemployment.

Archbishop Hamilton presided at the evening, at which the speakers were Hon. Rodolphe Lemieux, former Postmaster-General; Rev. C. W. Gordon (Ralph Connor), Winnipeg, and Dr. Charles Steele of New York.

Wants Labor Senators.

VANCOUVER, March 4.—Speaking to a resolution of the Government urging appointment by the Dominion Government of three more Senators for British Columbia, a plea that new Senators should be selected from the ranks of labor was introduced by Parker William, Socialist member. Sir Richard McBride promised consideration.

Died Trying To Save Wife.

CAMPBELLFORD, March 4. — At Healy Falls, two Austrians, Pete Beaivant and his wife, were burned to death in a fire which destroyed their boarding house yesterday morning. Twenty fellow-countrymen escaped in their night clothes. Beaivant discovered the fire, aroused the inmates and re-entered the building for his wife, but their escape was cut off.

Miner Badly Hurt.

BRANTFORD, Ont., March 4.—John Wannamaker, a hydro employe, fell from a pole while wiring a house on George street yesterday morning, breaking his thigh bone. On removal to the hospital it was found that he had suffered internal injuries. His life is despaired of.

Seven Miners Drowned.

BRUSSELS, Belgium, March 4.—Seven coal miners were drowned yesterday in a mine at Bracquegnies by the bursting into one of the galleries of a subterranean stream. The danger signal was promptly sounded throughout the mine and hundreds of other men escaped.

Sage Tea Darkens Hair To Any Shade

Don't Stay Grey! Here's an Old time Recipe That Anybody Can Apply

The use of Sage and Sulphur for restoring faded, grey hair to its natural colour dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural colour and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the grey hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.

MAY TRY TO QUASH THE CIGARETTE BY-LAW

Dealers Must Sell $400 Worth of Cigarettes in Order to Pay the License Fee—Former Cigarette By-law Was Quashed

IN THE YEAR 1906

It is understood that a movement is on foot to quash the cigarette by-law that was endorsed by the City Council, on Monday evening. It will be remembered that a similar by-law was quashed in 1906, by Mr. Justice McMahon on the grounds that the license fee was prohibitive. The fee on that occasion was fixed at two hundred dollars. A breach of the by-law was good for a fifty dollar fine with an option of six months in gaol. The present by-law calls for a license fee of forty dollars, while a contravention of the act will pave the way to a ten dollar fine with the alternative of six months in gaol.

One Cent Per Package.

The dealers claim that the present by-law which comes into force on May the first, is equally as prohibitive as the by-law that was quashed in 1906. They claim it also tends to create a monopoly in favour of the hotels and the few dealers who can afford to pay the license fee of forty dollars. The hotels are not affected by the by-law as the liquor license covers the sale of cigarettes. Alderman Gordon is authority for the statement that the profit from the sale of one box of cigarettes is one cent. At this rate a dealer would have to sell four hundred dollars' worth of cigarettes in order to pay his license fee.

By-law Number 1799.

The by-law in part as adopted by the Council, at Monday night's meeting, is as follows:

By-law Number 1799, provides for licensing, regulating and governing keepers of stores and shops where cigarettes are sold by retail.

The by-law which comes into force and effect May the first, applies to all persons, firms and corporations, who are keepers of stores or shops in the City of Peterborough, other than taverns and shops, licensed under the Liquor License Act, where cigarettes are sold by retail.

No person who is a keeper of a store or shop within the City of Peterborough, shall sell or keep, or expose for sale, cigarettes for sale by retail or permit or allow the sale thereof by retail in his store or shop, unless and until a license so to do, shall have been procured for each store or shop where such business is carried on, by such person and every person so licensed shall be subject to the provisions of this by-law.

Chief Constable Must Report.

Licenses or transfers of licenses may be granted upon application, which application shall be referred to the chief constable, who shall report on said application as to whether the location of the premises in which such business is intended to be carried on is desirable and the conditions required by this by-law have been complied with and whether the applicant is a person of good character and a suitable person to carry on said business.

The fee for each such license shall be forty dollars per year.

Every person licensed under this by-law shall keep the premises in which the business is carried on clean, and shall not allow any gambling or other disorderly practice in said premises.

Every person licensed shall keep the license posted up in some conspicuous place, which license shall remain posted up during the time it is in force.

May Be Suspended.

The license of any person licensed under this by-law, who is guilty of a breach of any of the provisions hereof or of any statute or of a by-law of the City of Peterborough, may be suspended or forfeited by the mayor, the chairman of the Finance Committee and the City Clerk on the report of the Chief Constable, and if suspended, for such time as the authorities named, shall determine.

If any person licensed is desirous of removing his place of business to other premises or to transfer his license to another person, the City Clerk may on payment of a fee of one dollar, endorse upon the original license an assent to such removal or transfer.

An Inspection.

It shall be the duty of the Chief Constable to make an inspection from time to time of all premises in connection with which a license is applied for or granted, and to see that the provisions of this by-law are being observed.

Any person guilty of a violation of this by-law shall on conviction be liable to a fine not exceeding ten dollars and costs, and in default of payment the said offender may be committed to the common gaol of the County of Peterborough for any period not exceeding six months.

The Old By-Law.

By-law Number 1218, enacted in the year 1906, called for a license fee of two hundred dollars. This by-law came into effect on the first day of

(Continued on Page 12.)

RALLY IN THE NEW YORK STOCK MARKET

Activity Developed in the Late Afternoon—C.P.R. Gains a Point

DIVIDEND DECLARED

Special Wire to The Examiner:

NEW YORK, March 4. —Increased strength and activity developed in the late afternoon, the advances being relatively the greatest in specialties like Central Leather, MNP, although even the bears had to admit that the trading was broader than the demand, and came from an increased number of sources. A brisk recovery in NH attracted more attention than perhaps any other movement.

It was regarded as an indication of progress with plans of segregation, and it was hoped that after the meeting of the Executive Committee some definite announcement on the point could be made. Strength in Steel sinking fund 5's was a feature on the bond market, the price crossing 103, compared with 102 5-8 at the close on Tuesday.

Buying was said to be of an investment kind and it was also asserted that there was quite an accumulation of the preferred shares in anticipation of an improvement in trade with the opening of Spring.

P. Lorillard has declared the regular quarterly dividend of 2 1-2 per cent. on common stock and extra dividend of 5 per cent. The Company also declared a quarterly dividend of 2 1-4 per cent. on preferred.

Total sales amounted to 199, 102.

INSPECTOR SNIDER AS EVIDENCE OF THE ALLEGED "ALLIANCE"

Special to The Examiner:

PARLIMENT BUILDINGS, Toronto, March 3.—It does not require a man with as much prophetic insight of the future as the recently unearthed Toronto prodigy displays memory of the past, to predict that the name of "Snider" will figure prominently in this year's Legislature debates.

The answers given by Hon. W. J. Hanna, after considerable delay, to a series of questions asked by the Opposition in regard to the movements of W. K. Snider, Provincial License Inspector, in the week preceding the recent Scott Act votes, have within themselves the games of good sized disturbance and fire-works will probably soon be shooting across the Legislative sky.

The story as revealed so far by the Government's own answers, runs something like this: Mr. W. K. Snider from 1906 to the end of 1908 was a Provincial organizer for the Conservative party. The general elections came in the year 1908. On the 31st of December in that year a new office was created and the Conservative organizer became a Provincial License Inspector.

On January 29th, 1914, votes under the Scott Act were taken in the Counties of Peel, Huron and Welland, The Government's answers show Snider's movements as follows:

Jan. 23—Brampton, (Peel County.)
Jan. 23-24-26, Wingham, Clinton, Goderich, (Huron County.)
Jan. 26-27. Ridgway, Stevensville and Welland, (Welland County.)

It has been known before that Snider was in Huron and Welland just before the Scott Act vote. That is the first intimation that he was also in the third County—Peel.

It will be remembered that, at the time, it was reported in the newspapers that this man Snider was in Welland and that he was telling Conservatives not to vote in favour of the Scott Act and that the passing of legislation under suhc an Act would embarass the Government. At first the Government declared that it could not have been Snider who was there and that he must have been impersonated. As the newspaper clamour continued, however, and as prominent Conservatives in Welland were protesting at Snider's mission, Mr. Hanna issued a statement saying that the Provincial License Inspector had been in Welland but that anything he had done there must have been done without the authority of the Government. In the meantime it has been shown that this Government official made a complete round of the three Counties within a week of the election. Why?

CONSCIENCE.

Sunday School Teacher—What is conscience, Tommy? Small Tommy—It's what makes a fellow feel sure when he gets found out.

2000 PEOPLE ARE ILL WITH TYPHOID

St. John's Que., is Suffering From Epidemic of Mild Form of the Disease.

AN INVESTIGATION

Special Wire to The Examiner:

MONTREAL, March 4—Two thousand people in St. John's, Q., are suffering from a form of mild typhoid, at first thought to be intestinal grippe. This statement is made by one of the physicians of the Town, who attributes the large spread to impure water. The disease has not limited itself to the people of St. John, but has spread to the Barracks of the Royal Canadian Dragoons and the authorities at Ottawa recognizing the nature of the outbreak, have sent Major Drum to investigate.

TWENTY THOUSAND FOR HOSPITAL

Request of John Helm, of Port Hope, Who Left Large Legacies to Others Also

PORT HOPE, March 4. — The trustees of the Port Hope Hospital received a cheque yesterday for $20,000 from J. Henry Helm and Walter J. Helm, executors of the estate of the late John Helm. This handsome bequest places the local hospital on a solid financial footing and insures its permanency as a lasting memorial to Mr. Helm's memory.

The late Mr. Helm left several other large legacies to similar institutions throughout the province, including $25,000 to the Toronto General Hospital, $5,000 to the Toronto Hospital for Sick Children, $5,000 to the Hospital for Consumptives at Gravenhurst and $20,000 to the Cobourg Hospital, all of which have been paid over by the executors within the past two weeks.

In addition to these bequests the executors have paid $1,000 to the Sick Children's Hospital and $1,000 to the Gravenhurst institution about a year ago.

PRINCESS THEATRE BIG LEADER

The management of the Princess have arranged to take the splendid vaudeville acts from the Royal Theatre during the time they are running features in motion pictures. The public will no doubt be well satisfied owing to the high standard acts that were coming through. The vaudeville will change Mondays and Thursdays, and the pictures every day. The admission will be 5c for the afternoon performance, and 10c for the night performance. All new seats. Lots of room to be comfortable.

TO ENCOUAGE CANADIAN SHIP BUILDING

Special Wire to The Examiner:

OTTAWA, Ont., March 4.—A big deputation representing the shipbuilding industry waited upon Premier Borden and the members of the cabinet at noon to-day and urged Government co-operation in the development of shipbuilding in Canada. It was urged by members of the delegation that as the plant of the companies represented a heavy investment and the industry was one which deserved Government support, every effort should be made by the Government to throw business their way. In recent years it was pointed out the Government had placed orders for dredges, etc., outside of Canada. It was urged that in future the Government place all such orders with Canadian firms. The Prime Minister promised consideration.

TOO FAR GONE TO REMEMBER

Richard Dunn, hailing from Sterling, was this morning assessed $2 by Magistrate Dumble, after he had entered a guilty plea, to a charge of being drunk. Dunn said that he could not remember whether he was drunk or not. "No," replied the court, "you were too blind drunk to know anything about it. You live too near the factory to let you go.

SERVICES APPRECIATED

At the meeting of the Directors of the Peterborough Protestant Home, held on Tuesday afternoon, March 3rd, a resolution was passed to place on record the appreciation of the Board and Lady Superintendent of the unfailing kindness of the late Rev. T. S. Mansell. His faithful and devoted ministrations to the old and feeble will be long remembered by those who have so often listened to him.

Cheerfully, willingly, and without solicitation he made himself responsible for a large proportion of the Sunday morning services, frequently telephoning the Home to know if he service was provided for.

THE LATE EARL OF MINTO.—Once Governor-General of Canada, and later Viceroy of India, died on March 1st at Hawick, England. He came of an old Scottish family and was educated at Eton and Cambridge. He was with Lord Roberts in the African war in 1878. After seeing service in Europe, Asia and Africa, he came to Canada as military secretary to Lord Lansdowne. In 1898 succeeded Lord Aberdeen as Governor-General. In 1904 he was sent to India, where he used the velvet glove that concealed the steel gauntlet in British affairs. Returning from India he has lived in retirement in his castle in Roxburgshire until his death.

BIG FEATURE FOR ROYAL THEATRE NEXT WEEK

Monte Christo featuring James O'Neil will be the attraction at the Royal Monday, Tuesday and Wednesday of next week. Mgr. Clayton has secured all high class plays that you have been paying big prices to see for the Royal exclusively in motion pictures, the first will be "Leah Kleschna," featuring Carlotta Nillson. Monday, Tuesday and Wednesday of next week Monte Cristo featuring James O'Neil. Owing to the crowds that will enjoy these programmes each feature will be run three days.

UNIONS AFTER THE MINISTER OF LABOUR

MONTREAL, March 4.— Protesting vehemently against the inactivity of the Labour Department in regard to the operation of the workmen's fair wage clause and other grievances and declaring that Hon. T. W. Crothers and the Department of Labour are playing a game of bluff and attempting to hoodwink the workers, the Board of Business Agents of the local trade unions has written to Premier Borden in part as follows:

"Representatives of the department call upon us and try to make us believe that they are dealing with these grievances, but when they leave and nothing is done to adjust our grievances, we have pointed out to them that the growing opinion that the department is playing a game of bluff is firmly implanted among our members."

The workers allege that many of the Government contracts are let without the insertion of a fair wage clause in the contract, and that this fair wage contract is becoming a joke under the present Administration.

Practical Geometry Discussed

At the meeting of the Mutual Improvement Club held last night at the home of Mr. H. Hill, 50 Jackson avenue, a paper on "Practical Geometry" was read by Mr. Wm. Barrie.

Mr. Barrie dealt with some of the complicating problems which woodworkers have to solve in a manner which was thoroughly appreciated by those present, and which showed him to be a capable geometrician.

After the refreshments which were served at the close by Mrs. and Miss Hill, only the modesty of the members of the club kept them from expressing the desire which all felt to come and board with Mrs. Hill.

Instead a hearty vote of thanks was tendered to the hostesses for their entertainment.

THE CATTLE MARKET

Special Wire to The Examiner:

TORONTO, March 4.—Live Stock Market—Receipts fair, trade dull, prices lower. Choice butchers', $7.40 to $7.75; good medium, $7 to $7.25; calves, steers and sheep steady; hogs, fed and watered $9.35, off cars $9.50 to $9.65, f.o.b. $9 to $9.15.

$30,000 SALARY FOR HIGH COMMISSIONER

It is Understood That the New Official Will Be the Highest Paid in the Service of Canada.

HIGH COST OF LIVING

Examiner Special:

OTTAWA, Ont., March 4.—There is to be a salary increase for the Canadian High Commissioner. Sir Charles Tupper drew ten thousand dollars a year while he represented Canada in London, and the same salary was continued during the High Commissionership of Lord Strathcona. The cost of living has increased for High Commissioners as well as for the ordinary citizen, and whoever succeeds to the post will need more money. It is understood that the supplementary estimates will increase the salary of High Commissioner to thirty thousand dollars. That will make the High Commissioner the highest paid servant the Canadian people have. At present Mr. Gutelius, general manager of the Intercolonial, with twenty thousand dollars a year, heads the Canadian salary list.

BRISK BIDDING FOR THE BIG LONDON JOB

The rival aspirations of distinguished Canadian patriots to serve their country and Empire at London as Canadian High Commissioner is proving decidedly trying to Premier Borden's nerves. The political patronage pot was never boiling more fiercely than at present. Each day brings its quota of political intrigue and a new embarrassment for the Premier in trying to keep the peace between the warring factions.

Premier Borden, himself, is said to be not indisposed to relinquish the constant worries of the coalition leadership for a serene and distinguished position at London. Not a few of the Premier's own supporters are kindly disposed toward this suggestion. Ever since he assumed the reins of office Mr Borden has not been free from the embarrassment and annoyance of the cabals within his party following that more than once forced him to the verge of resigning while he was leader of the Opposition. There are many who would see Hon "Bob" Rogers at the head, in name as well as in fact.

The arrival in Ottawa recently of Sir Charles Hibbert Tupper lent a new zest to this phase of the situation. The scion of the old Sir Charles would not be averse to "being around" when the leadership fell vacant. Besides, if the friends of Sir Richard McBride, who is conceded to be "losing something of his grip" in British Columbia, should make an eleventh hour effort to secure the big post for the picturesque western Premier, young Sir Charles wouldn't mind a bit tossing a handful of sand into the machinery. Of course Sir Richard has said once, and reiterated several times, that he doesn't want the High Commissionship. And everybody in Ottawa seems to appreciate the admirable histrionic ability that enables him to stand aloof and protest too much.

Hon W J Hanna, Provincial Secretary, and spoken of as Premier of Ontario, also drifted to the Capital on Wednesday, and made his way promptly to Parliament Hill. "Just dropped in to see the boys," he declared as he joined a coterie of members in the Conservative room off the Commons Chamber. But if the 'boys' would just prevail upon their leaders here to call Hon. Adam Beck to the London post, even the Proudfoot charges would not, according to his admirers, be any effectual barrier to the Hanna aspirations.

In Montreal, where Sir Hugh Graham is busy through the Telegraph-Herald lambasting the Government—and concentrating his energies through the Star to exalting it,—there is a growing boom in favour of Lord Mount Stephen. Lord Mount Stephen was born in 1829, and therefore couldn't be expected to hold the High Comissioner's post very long, in any event. Consequently there would be every possibility of another vacancy later on, when the Becks, the McBrides, and other aspirants would have been otherwise provided for, and when the Government would more likely have to fall back on the Canadian Northcliffe, at the head of the Montreal newspaper combine.

Then there is Hon. J. Douglas Hazen. The chief asset of the Minister of Marine and Fisheries is that he makes the appearance. More than good looks are required in a successful politician or administrator, and many of his party friends argue that the fortunes of the Conservatives in New Brunswick would not suffer were the Minister despatched to London.

Last, but not least, is Hon. Robert Rogers. He smiles and says nothing, except to a very few intimate friends. But the Honourable "Bob" is generally thinking industriously about his own interests. If it is to be the Premiership for him well and good. If not, why not London? The Minister from Manitoba is the Master of the Administration. After all is said and done what he declares goes. And his confidants hint strongly that he is going to say "London".

HON. T. W. CROTHERS IS DENOUNCED IN THE HOUSE

Alphonse Verville Moves a Vote of Censure and Opposition Members Arraign the Minister.

HIS DAYS NUMBERED

OTTAWA, March 4.—It looks today as though the days of Hon. T. W. Crothers as Minister of Labor are numbered. By a straight party vote of 80 to 42 the House of Commons at the hour of 1.30 this morning voted down the resolution of Mr. Alphonse Verville, the Labor member for Maisonneuve, and former president of the Dominion Trades and Labor Congress, condemning the "whole conduct" of Mr. Crothers as Minister of Labor in connection with the recent labor trouble on Vancouver Island as "marked by persistent negligence and absolute indifference, and deserving severe censure." Mr. Crothers took the unusual course of voting himself.

Mr. Crothers, it will be remembered, headed for England last summer on a pleasure trip when the trouble was at its height, and the militia were called out.

Mr. Verville (Labor, Maisonneuve) moved a vote of censure against the Minister of Labor for his "persistent negligence and absolute indifference in the matter of the coal strike on Vancouver Island." Mr. Verville said that his motion was in line with a resolution presented to the Trades and Labor Congress of Canada.

"The Minister," he said, "had shown all along a strong bias against international unionism, and had been actively hostile to the United Mine Workers of America. He had failed to exert himself to bring about a settlement at the inception of the strike.

The Minister, Mr. Verville continued, had brought pressure to bear upon the Grand Trunk Railway to restore discharged strikers to employment by brandishing the big stick over that company. Why had he not brandished the big stick over the Canadian Northern Railway Co., who controlled Vancouver Island mines, when it applied for and received a cash subsidy of $16,000,000 last session?

Mr. Murphy (N. Perth) in reply, intimated that the Trades and Labor Congress had been used on more than one occasion to promote the Parliamentary fortunes of Hon. Mackenzie King. At the suggestion of Mr. King's secretary, the congress had asked the Government to make the Department of Labor a separate department, and thus made it possible for Mr. King to enter the Cabinet.

Mr. Murphy went on to say that the leaders of the United Mine Workers of America, who stirred up the strike in British Columbia, were the hired envoys of American coal mine owners, who feared Canadian competition. H was glad that Mr. Verville gave credit to Mr. Crothers for settling the Grand Trunk strike. Mr. King had attempted to settle that strike, with the result that everything the men had to do was put in writing, but what the company had to do was left to the discretion of the company.

Mr. Carroll (Lib., South Cape Breton) said it was absurd to say that the United Mine Workers and the coal mine owners of the United States were acting in unison. As a matter of fact, they were in deadly antagonism.

Mr. Shepherd (Con., Nanaimo), in whose district the strike occurred, gave a brief review of the trouble, which, he said, was due to the unwillingness of the mine owners to recognize the United Mine Workers of America, who, they claimed were trying to control the coal market of the Pacific coast.

Mr. Carvell (Carleton, N.B.) charged the Minister with failing to act more promptly because of collusion with the Canadian Northern Railway Co. and the McBride Government.

Mr. Green (Kootenay), replied that the charge that the mines were the property of the Canadian Northern was absurd. Sir William Mackenzie might have some stock in the Dunsmuir collieries, but the collieries were owned in England.

Sir Wilfrid Laurier said that a motion to censure a Minister of the Crown for negligence and indifference respecting the rights of the people, whom it was his duty to look after, was a serious matter, but after examining the indictment against Mr. Crothers and the evidence in support of it, he could not but say that the charge was well founded. The labor trouble at Cumberland commenced in September, 1912. The Minister had promptly telegraphed to the company and to the men, calling their attention to the provisions of the Industrial and Conciliation Act, but had practically done nothing more for nearly a year. The men were complaining that two of their number were discharged for reporting the presence of a dangerous gas in the mines to the mine inspector. Their complaint might or might not have been true, but the Minister should have investigated. Had he been restrained from doing so by the Canadian Northern? That the mine own-

(Continued on Page 12.)

DEPUTATION MAY GO TO CAPITAL CITY

In Connection With Forthcoming Meeting of the Great Waterways Union

POWER COMMITTEE

The City Council has been invited to send a deputation to Ottawa in connection with the forthcoming meeting of the Great Waterways Union of Canada. The matter has been referred to the Power Committee of the City Council, who will determine as to whether local representatives will accompany the monster delegation that it is claimed will go to Ottawa. One of the matters that will come up for discussion is the question of deepening the St. Lawrence River.

Secretary Treasurer J. W. Lyon of the Great Waterways Union of Canada, forwarded a copy of a pamphlet to the Council, setting forth the "Benefits of Ocean Navigation to the Great Lakes, Urgency of Greater Hydro Power Supply, and need of Government Subsidy to Radial Railways," and also requested that the entire Council accompany the deputation to Ottawa. Hon. Adam Beck has accepted the invitation to join the delegation.

WONDERFUL PICTURE AT THE GRAND

Big audiences saw the wonderful Chas. Kleine "Between Savage and Tiger" picture at the Grand Opera House, last night, and pronounced the film as one of the most marvelous they had seen. The picture, which is in six reels, was taken in Rome and Calcutta, and deals with the adventures of a young Lieutenant among the natives and the wild animals of India. Scene after scene of exciting interest are shown and no more exciting picture has been seen here. The killing of several tigers is realistically portrayed and the interest never flags. No lover of moving pictures can afford to miss this film.

Were Beaten 8-6 At Lindsay

It is a hard season for barn storm ers. Last week Tommy Moffett took a team to Campbellford and the tourists were beaten 11 to 3. Last night a Peterborough team visited Lindsay for a game with a picked team from the Lindsay City League and were beaten 8 to 6 after an interesting game. The Petes led by 2 to 0 at one time, but faded, most of them having had no practice in two weeks. The visitors lined up as follows:

Goal—Dwyer.
Defence—Bond and Bradshaw.
Rover—Halpin.
Centre—Park.
R. Wing—Kenneally.
Left Wing—Paton.

Tracey And Belting Have Signed Up

To-day's mails brought two more contracts into the headquarters of the Peterborough Ball Club. Pitchers Knut Belting and Ken Tracey having accepted terms and sent in their contracts to the club. Bob Sterling is now the most notable of the hold-outs.

Athletic Club Executive To Hold Meeting

There will be a meeting of the executive of the Peterborough Athletic Club at the home of the President, Dr. McPherson, corner of Murray and Water Streets, to-morrow (Thursday) night at 8 o'clock and a full attendance is expected as important business is to come up for discussion, among other things the constitution and rules of the club and the question of club rooms. The new organization has now a membership of fifty, and applications for admission are coming in every day.

"Peterborough Presents Possibilities Unsurpassed."

WEDNESDAY, MARCH 4, 1914

PROVINCIAL EXPENDITURE.

It must be admitted that Conservative governments are good spenders. Both the Ontario and the Dominion Governments are "going the pace." The supplementary estimates brought down in the Ontario Legislature, bring the expenditure for the year up to nearly twelve million dollars. A similar rate of increase of expenditure obtains with the Dominion Government. When the Laurier government went out of power the annual expenditure of the Dominion was, in round figures, one hundred million dollars. In two years the expenditure of the Dominion had been increased to two hundred million dollars—doubled in the short space of two years with little substantial to show for the one hundred per cent. increase. When the Liberal Government of Ontario went out of power, eight or nine years ago, the total annual provincial expenditure was between four and five million dollars, and that was denounced as an evidence of criminal extravagance. The moment the Whitney Government got into power the expenditures began to mount, and today they are nearly three times as great as they were when it came into power. It is inevitable that as population increases and new demands for expenditure arise, government expenditure must increase pari passu. But our expenditure has done more than that—it has increased out of all proportion to the increase of population. Since the Whitney Government came into power the increase of population of Ontario has not been much more than appreciable. In relation to other parts of the Dominion it has lost population, as shown by the fact that in the redistribution of seats it loses two seats in the Dominion Parliament. Can the most optimistic of partisans claim that we, in Ontario, are being well governed in the matter of expenditure, or even claim that we are being well governed in any other respect?

LABOUR INTERESTS NEGLECTED.

At the Social Service Congress in Ottawa yesterday Mr. Charles Stelzle, of New York, expressed the spirit of the Congress and the spirit of the age in these words:

"This is the era of the common man. Slowly but surely the mass of the people are coming into their own. For ages they fought for religious democracy, and they won. For centuries they strove for political democracy, again they won. Today they strive for industrial democracy, and, if we read the signs aright, they will win. Labouring men are familiar with this spirit of democracy in their clubs, in their lodges, yea, in the saloon. They must meet this spirit of democracy in the Church. Some day God will raise up a prophet who will win unto himself the common people, and that day will decide whether the Church is to capture the labour movement or the labour movement is to capture the Church. That day, too, shall decide whether the prophet shall come from the ranks of the Church, or whether he shall come, as He came nearly 2,000 years ago, a lowly and rejected Nazarene, from the ranks of the common people."

This condition represents a distinct call to activity, to the Church, and to governments which must, obviously cooperate with the Church, if the spirit of democracy, the cause of the common people, and the cause of human progress is adequately promoted. The Congress was welcomed to Ottawa by Rt. Hon. Mr. Borden and Sir Wilfrid Laurier. Mr. Borden said the "cry of the market place was to-day more insistent than ever before," and he added that he

"was sure the government of Canada would be only too willing to bring about such legislation as might be suggested by the Congress, provided the suggestions offered were in themselves reasonable and practical."

Can we be sure of that? We can have no doubt of Mr. Borden's good intentions, but will his good intentions stand the strain of impact with political or party interests? Has he shown any indication of lending his ear, practically or even sympathetically, to "the voice of the market place," meaning the voice of the demands of the common people, the masses who toil. Have the interests of Labour been adequately promoted or even protected under his administration? He appointed as Minister of Labour—not a statesman, but a politician, whose party services commended his choice much more than his ability, or his sympathy with the principles it was the duty of his office to promote. Mr. Borden's Minister of Labour during his term of office has been worse than useless; he has been detrimental to the interests of labour. So neglectful has he been of the labour interests he was appointed to serve, that in Parliament last night, Mr. Verville, the only labour representative in Parliament, brought in a resolution of censure of the Minister of Labour for his "persistent negligence and indifference." Though this was voted down by a normal government majority, nevertheless it was a "true bill." Mr. Borden, himself, voted to exculpate his minister and condone his neglect of duty, within a very few hours of his academic assurance to the Congress of Social Service, that he would help by legislation the efforts of the Congress to improve the condition of the toilers. Mr. Borden has noted the career or the stagnation of his Minister of Labour nearly three years, and has thus accepted responsibility for his actions or inactions. This is all the more notable, contrasted with the activity of his predecessor.

The Liberal Government created the Department of Labour, and provided that it should be presided over by a responsible minister under whose administration important legislation was placed on the statute book and a real interest manifested in the men who toil. When the last Minister of Labour, Hon. Mr. King, went out of office, he had a bill before the House dealing with the white phosporous evil to workers in match factories. There was no time to pass the bill, and it was not passed. His successor has ignored this excellent proposal of legislation in the interest of labour. But it is noticed that the "big interests," the money barons, the combines, have been very tenderly cared for; which is not surprising—Conservatives governments have no very strong convictions in regard to legislative attention to the right of common people to be considered. They only count when the vote is to be counted. Mr. Borden, an estimable gentleman, personally; he is strong on fine sentiments, but weak on action. He cannot escape responsibility for the neglect of the interests of the common people by his appointment and retention of a inefficient do-nothing Minister of Labour.

ACT INTRODUCED.

Private Bill No. 11—"An act respecting the Peterborough Radial Railway Company"—has been introduced by Mr. Peck in the Ontario Legislature. It provides authority for increasing capital of the company from $20,000 to $40,000.

A MACDONALD ANNIVERSARY.

It is proposed to celebrate the hundredth anniversary of the birth of Sir John Macdonald, who was born at Glasgow on January 11th, 1815. The proposal is a good one. We are in danger of forgetting the achievements of those Canadians—Sir John Macdonald was a Canadian although he was born in Scotland—who laid the foundations of the Canada of to-day. Not only the statesmen whose names figure in history, but the unknown pioneers, the men and women who went into the back woods and suffered loneliness and privation and hardship and danger ought to be honoured.— Toronto Star.

BANISH THE BED.

The Khan is not going to let Bowell have a monopoly of alliteration. He is out with a plea to "banish the bed." He wants everybody to use sleeping-bags. The Khan ought to know that we never can banish the bed till we banish the bar. How could the man who creeps upstairs on all fours on lodge night get into a sleeping-bag without betraying himself to his vigilant better half? The Khan is a bachelor and has no troubles of that sort, but he should remember that there are others to whom fate has been less kind.—The Globe.

SUSPICIOUS.

Ted—You don't seem to be as friendly with him as you used to be. Ned—No; I'm rather suspicious of him. He borrowed some money from me the other day and paid it back.

We have a number of vacant positions in the Country.

Call and get particulars. We can place a good man in a good position out of town.

ADVERTISE IN THE EXAMINER

LOCAL MEN COMMITTED FOR TRIAL

Magistrate Dumble Decides That Evidence in Case Heard Yesterday Was Sufficient to Place Two Prisoners on Trial

OTHERS FINED

Joseph O'Toole, Vincent O'Toole, Leo Holland and Raymond Walsh appeared on remand at this morning's session of the police court. Joseph O'Toole was charged with a criminal offence connecting the other three young men, two of whom, Holland and Welsh, were charged with conducting themselves in a disorderly manner, while Vincent O'Toole was charged with knowingly suffering the girl to be upon the premises of Jones' Livery wrongfully.

Cross Examination.

The last witness called yesterday was Detective Newhall This morning Mr. Gordon expressed the wish to cross-examine him.

Mr. Gordon— Has this young girl been under police surveillance?

Newhall—I don't know about her being watched, but we have received some complaints.

Mr. Gordon—She is generally known as a loose character?

Newhall—No, I don't think so. There are lots of fellows who are always watching for this girl.

Mr. Gordon—Has she been in this court before?

Newhall—She has been brought into the Chief's office.

Mr. Gordon—And warned about her conduct?

Newhall—Yes.

Mr. Gordon— What general reputation has she got?

Magistrate Dumble— Has she any general reputation?

Newhall—Just among a few young fellows.

Mr. Gordon—Was she known to the police officers to be a virtuous girl, or otherwise?

Newhall—I don't know.

Magistrate Dumble — You have shown that she is not a good girl, in evidence that I previously had before me Then again, had she been brought here on any charge she might have been discharged.

Summing Up.

Mr. Gordon, in summing up the case for the prisoners, submitted that there was not sufficient evidence to send the prisoner for trial. There was no evidence of procuring, and the evidence showed that the girl was guilty herself. The section under which the charge is laid, is akin to that known as the White Slave Code.

Committed For Trial.

Magistrate Dumble, in committing prisoner for trial, said that the whole action was a preconceived arrangement. The girl was undoubtedly bad. As far as the evidence shows, there was no coercion.

Disorderly Conduct.

Leo Holland, charged with acting in a disorderly manner on Saturday night last, through his counsel, Mr. Gordon, pleaded guilty. Some discussion arose as to whether the place where the disorderly action was committed, was within the City limits.

Mr. Gordon—There is no need about splitting hairs about it anyway; we'll plead guilty. A fine of $10 and costs, amounting in all to $13.75, was then imposed.

Should Remove Temptation.

Mr. Gordon—It seems to me that the Chief should remove these sources of temptation.

Chief Thompson—The lawyers won't allow us to do it.

Mr. Gordon—I have not noticed any effort on your part yet to do so.

Another Fine.

Raymond Welsh was also assessed $13.75 for the same offence. He pleaded guilty.

Serious Charge.

Vincent O'Toole was charged with knowingly suffering the girl to be upon the premises where he was employed wrongfully. He pleaded "not guilty through Mr. Gordon.

Detective Newhall was called for the Crown, and gave evidence to the effect that O'Toole was in charge of Jones' livery barn on Saturday last. The evidence in the first charge was, by consent of counsels, allowed to stand.

Chief Thompson.

The Chief was also called for the Crown. He told the court of certain admissions that prisoner made. This evidence was required by the court to warrant the Magistrate sending prisoner for trial.

Sent For Trial.

Vincent O'Toole was, on this count, also sent for trial, and the two prisoners will come before Judge Huycke to-morrow morning, when they will be remanded, until the date of their trial, which His Honour will fix.

AN APPEAL FOR PURITY FROM "PURITY"

To the Editor of The Examiner.

Dear Sir,—On the front page of your paper, this evening, and very conspicuous at that, a large part of a column is taken up with a very filthy case in the Police Court. Is this the part that our city papers are taking to improve the morals of our city? Why should all this filth be printed in any paper? It certainly is very low. Let us have clean reading for our homes and our city papers can do a good work in this respect.

Trusting we will have no more of it and thanking you, Mr. Editor, for your valuable space, I remain,

Yours, etc.

Purity.

Peterborough, March 3, 1914.

The Examiner has no justification to offer for the form in which the details of the affair were presented—it is a case in which the usual vigilance applied to editing news matter was not sufficiently exercised. For some time past the press of the city has been filled with reports of offences against the moral interests of the city, often with considerable detail, supplied by ladies whose good faith and sincerity — and purity — could not be questioned; and it was, perhaps, under the influence of such knowledge that the reporter felt that by exposing conditions he would strengthen the cause of those pleading for the assistance of the authorities in suppressing vice. If the newspapers are timid to enlighten the public as to the immoral conditions, whose knowledge must form the basis of remedial action, it is evident that at times things will have to be, or will inadvertently be published that are not pleasant reading—in any sense. If such things were not made known through the medium of the press we should not know of them, and public sentiment could not be concentrated upon a demand for authoritative action with the object of remedying such conditions. If newspapers published such things as our correspondent complains of, with a wish to cater to prurient minds they would be doing a voluntary wrong; but when they publish them in the welfare of interests that can use the knowledge thus imparted, in the way of improving conditions, they can only be blamed for using poor judgment, or inadvertent carelessness as to the form in which the record of judicial proceedings appear.—Ed. Examiner.

GRAND OPERA HOUSE MONDAY, MAR. 9 FIRST TIME IN PETERBORO

COHAN & HARRIS MID WEEKS GEO. M. COHAN'S COMEDY SUCCESS

BROADWAY JONES

CONCEDED BY CRITICS THE SMARTEST PLAY OF THE YEAR

"Broadway Jones is a comedy and a good one. A simple plot and a pleasing reproduction of some of the characters seen on the Great White Way"—Toronto Telegram.

"Broadway Jones shows us Mr. Cohan at his best. Mr. Cohan has always had at his command a large supply of the smart sayings and the glib wise-cracks that are peculiar to a certain form of American humor, but never before has he fitted them into his story with so much spontaneity."—Mail and Empire.

THE MARKETS

CHICAGO, March 3.—Speculators sold wheat today with more courage than they have shown in some time Opinions by crop experts that the plant was entering spring with the best prospects in many years, took attention away from scattering advices of damage. The close was weak, 3-8c to 7-8c under last night. Corn finished 3-8c to ½c down, oats off 1-8c to ¼c, and provisions varying from a shade decline to an advance of 5c.

Miss Laura Foley, Teacher.

Legs have been invented for stoves which contain casters, so mounted that pressure on levers project them and enables the stoves to be moved easily.

THE MERCHANTS TREASURE BOX

$200 To be Given Away by the Merchants and Examiner

ON

EXAMINER $ DAY

IN ADDITION TO THE GREAT VALUES to be had on EXAMINER DOLLAR DAY, the Merchants will give away $200 in Cash as Bonuses to their Customers, so that Dollar Day will be long remembered. With each purchase of One Dollar made on Examiner Dollar Day at any of the stores named below, a number will be given, and 89 of these numbers will secure the cash bonuses. This is not a lottery, because there is no element of chance. Every Customer gets more than a full dollar's value for every purchase, and in addition a Cash Bonus is to be given to the 89 Customers. Of course, everybody cannot get a Bonus, but everybody can get a Great Big Bargain for every dollar spent. See the money in Neill's Centre Window. The Cash Bonuses will be as follows:

1 Bonus of	$20.00
1 Bonus of	$15.00
3 Bonuses of	$10.00
4 Bonuses of	$5.00
5 Bonuses of	$3.00
25 Bonuses of	$2.00
50 Bonuses of	$1.00

THE FOLLOWING MERCHANTS will issue numbers with every One Dollar Purchase on Dollar Day. The numbers will be named by Mayor Buller and published by the Examiner on the evening following Dollar Day. The list includes all names received up to the time of issue, and will be added to as fast as handed in.

RICHARD HALL & SON LIMITED

Commissioner Appointed

For Town of Lindsay at a Salary of $100 a Month

LINDSAY, March 4.—Mr. A. J. Williams has been appointed to the position of Town Commissioner for the year 1914 at a salary of $100 a month. His duties will commence as soon as a by-law confirming his appointment is passed by the council. This will be done at a meeting to be held in a few days at which Mr. William's duties will also be defined.

The question of the appointment of a Town Commissioner was introduced by Alderman Irvine in 1913, and this year he accepted the position of chairman of the Board of Works, in order that he might be in a position to give the question of the appointment a such an official as well as the nature of the duties he would be expected to perform, the care and study necessary in order to furnish the council with all the data possible when the matter would be considered by the council. He was assisted in the matter by Aldermen Baker and Nicholls.

PAYS PENALTY FOR HIS CRIME ON SCAFFOLD

Special Wire to The Examiner:

HARTFORD, Conn., March 4. — "I hope she gets a new trial," were the last words of James Plow, who was hanged here this morning in the State Prison for the murder of William G. Wakefield. He was referring to Mrs. Wakefield, also sentenced to be hanged for the same crime, but granted a reprieve at the last moment as a result of the widespread agitation against hanging a woman.

The Merchants are planning hundreds of surprises in big Dollar Values for Dollar Day.

MEETING FOR CHURCH OF ENGLAND SUNDAY SCHOOL TEACHERS

Rev. R. A. Hiltz of Toronto, the General Secretary of the Sunday school work of the Church of England in Canada will address a meeting for the Sunday school teachers of all the Anglican churches in the City on Tuesday evening, March 10th. The meeting will be held in the Sunday school of St. John's Church.

Escape From Gaol

Chatham Criminals Make a Clean Get-away

Special Wire to The Examiner:

CHATHAM, March 4. — David Grant, under sentence of seven years in the penitentiary for highway robbery, and Henry Darty, alias George Grant, under sentence of two years for passing fraudulent cheques, both escaped from the county jail, here, this morning and were last seen around the Pere Marquette Railway yards about the time a freight was moving out to Detroit.

THE BAKER AGENCY SECURES AN EXPERT

The Baker Advertising Agency, Toronto, with the idea of giving still greater service to their clients, have enlisted the services of Mr. Vernon S. Smith, of Chicago.

Mr. Smith is recognized in the United States as one of the three greatest advertising campaigners, and his long and varied experience will, no doubt, be of material benefit to the clients of the Baker Agency in particular, and Canadian advertisers generally.

Mr. Smith's scene of activity has been Chicago, which is the recognized centre of all that is advanced in the science of advertising and selling.

B. MULHERN IS WINNER OF LAING SHIELD

B. Mulhern is the winner of the Laing shield, emblematic of the Indoor Athletic Championship of the Boys' Department of the Y.M.C.A. The Laing shield was presented by Mr. John Laing, a former boys' secretary.

The winners have been as follows: 1911, George Reid; 1912, H. Huycke; 1913, no contest; 1914, B. Mulhern.

Events.

60 and 100 yard potato races, running high jump, standing broad jump, 8 lb. shot put, fence vault.

The scoring is done by points, each contestant getting credit for his performance in each event in which he passes the zero mark set for the event.

Following are the first five men in each event:

60 yd. potato race—1 J. Green; time, 16 seconds. 2, V. Thorndyke, time, 17 1-5 seconds. 3, C. Mongour and D. Hunter, 17 1-2 seconds. 4th, B. Hamilton, B. Mulhern and R. Cameron, 17 4-5 seconds.

Running high jump—B. Mulhern, 4 ft. 8 in.; M. Pringle and G. Thorndyke, 4 ft. 5 in.; J. Green, 4 ft. 4 in.; C. Mongour and R. Head, 4 ft. 3in.

Standing broad jump—B. Mulhern 8 ft. 1 3-4 in.; R. Head, 7 ft. 8 1-2 in.; C. Mongour, 7 ft. 7 3-4 in.; M. Pringle, 7 ft. 6 1-4 in.; B. Hamilton and V. Thorndyke, 7 ft. 6 in.

8 lb. shot put—B. Mulhern, 33 ft. 11 in.; B. Hamilton, 30 ft. 8 in.; C. Mongour 29 ft. 7 in.; J. Green, 28 ft. 6 in.; R. Head, 28 ft. 1-2 in.

Fence vault—B. Mulhern 5 ft. 4 in.; C. Mongour, 5 ft. 4 in.; R. Head, 5 ft. 4 in.; B. Hamilton, 5 ft.; J. Green, 4 ft. 8 in.

100 yard potato race—J. Green 47 1-5 sec.; C. Mongour, 48 2-5 sec.; J. Jones, 48 1-2 sec.; R. Head, 48 3-5 sec.; V. Thorndyke, 49 sec.

Total points:—B. Mulhern 439 1-6; J. Green, 367; C. Mongour, 359 1-3; R. Head, 317 1-6; B. Hamilton, 296 2-3; V. Thorndyke, 287 1-2; M. Pringle, 233 2-3; D. Hunter, 222; J. McLeod, 221 2-3 G. Thorndyke 214. J. Jones 205; K. Sturgeon 202; G. Helson, 181.

23 different boys took part in the contest.

LIVE STOCK MARKET

Special Wire to The Examiner:

TORONTO, March 3.—Union Stock Yards.—Receipts were light. 28 cars, 442 cattle, 314 hogs, 25 sheep and lambs, 91 calves.

Cattle—About 800 cattle were held over from Monday which with Tuesday's receipts, made up 1,300 cattle on sale. Trade was practically dead as regards cattle, buyers refusing to pay prices asked. Prices from 25c to 50c lower. Choice butchers' steers, $8.00 to $8.25; good butchers' steers, $7.75 to $8.00; medium butchers' steers, $7.20 to $7.40; common butchers' steers, $6.50 to $6.75; choice butchers' heifers, $7.75 to $8.00; common butchers' heifers, $6.50 to $7.25; choice cows, $6.75 to $7.00; good cows, $6.25 to $6.50; canners, $3.50 to $4.50.

Feeders and Stockers — Receipts very light. Prices were easier in sympathy with the cattle. Choice steers, $7.00 to $7.25; medium steers, $6.25 to $6.50; stockers, $5.50 to $6.00.

Milkers and Springers—As usual there was a good demand at $65 to $115 each, bulk sold at $70 to $85.

Calves—Not many on sale and prices were firm. Choice veals, $10.50 to $11.50.

Sheep and Lambs—Receipts were light and prices firm, for light weight lambs. Heavy lambs are slow sale at $8.00 to $8.75. Sheep, $6.50 to $7.00; culls and rams, $4.50 to $6.25; lambs choice ewes and wethers, $9.25 to $9.75.

Hogs—Market steady. Selected, fed and watered $9.25, and $9.00 f.o.b., and $9.50 weighed off cars.

SCOTLAND'S TEAM TO MEET IRELAND'S CHOSEN

GLASGOW, March 4.— Scotland's team against Ireland has been chosen as follows: Brownlie (Third Lanark), MNair (Celtic), Dodds (Celtic), Gordon (Glasgow Rangers), Thomson (Sunderland), Hay (Newcastle), Donaldson (Bolton Wanderers), McMenemy (Celts), Reid (Glasgow Rangers), Wilson (Sheffield Wednesday), Donnachie (Oldham Athletics.)

CLYDE AND FALKIRK PLAYED A DRAW.

GLASGOW, March 4.— Clyde and Falkirk played a Scottish Football League game yesterday, scoring one goal each.

Accidentally Shot And Killed

Special Wire to The Examiner:

FORT WILLIAM, Ont., March 4.—Shot through the abdomen when an automatic rifle exploded while he was stooping to take a weasel from one of his traps, the body of A. Frampman was found by Provincial Constable Symons, in the bush, four miles from Coglin.

TWO YEARS FOR WIFE BEATER

Special Wire to The Examiner:

TORONTO, Ont., March 4.—Duncan McDougall was sentenced to two years and twenty lashes on a charge of beating and abusing his wife, and for living on her earnings after forcing her to an immoral life. "My wife is a drunken sot," cried McDougall as he was led away to his punishment.

Knox Church Juniors Have Lead of Three

Knox Church Juniors have a lead of two goals in the Junior Church League race. The group winners met at Brock Street Rink, last night, and when the smoke cleared away Knox Church were 3 to 1 in front of Charlotte Street. It was an interesting battle all the way. Knox led by 1 to 0 at half-time and increased their margin in the second half. Harold Knapman refereed satisfactorily. The teams were as follows:

Charlotte Street — Goal, Austin; right defence, English; left defence, McWilliams; rover, Moore; centre, Huycke; right wing, Lyle; left wing, Thompson.

Knox Church — Goal, Daynard; right defence, Barley; left defence, Cunningham; rover, Montgomery; centre, Jackson; right wing, Williamson; left wing, Byers.

In the Senior Church League, last night, St. Paul's defeated George Street by 7 goals to 0.

DOLLAR DAY March 12th

WAITING FOR ASQUITH'S ANNOUNCEMENT

Special Cable to The Examiner:

LONDON, Eng., March 4.—All Britain to-day is feeling some relief from the tension as a result of Asquith's announcement that the home rule concessions will be announced Monday. There is a prevailing opinion that the country should know the worst or the best, as it happens to be, and get it over with. It is not thought that Asquith's concessions will bring forth anything more than already forecasted, that is, special protection for Ulster, but no exclusion. Thinking people of all classes say that if the agreement is once made and set in operation the Orange and Green parties will get together and the old troubles of the land will be over. The "Times" today leads the Conservative papers in urging that the Unionists give the Government proposals calm and dispassionate consideration, as this may be the last opportunity at agreement. The Government may go to the country as soon as possible after passing the home rule bill, and the election agents of both parties are already busy.

The Merchants are planning hundreds of surprises in big Dollar Values for Dollar Day.

Crookedness Of Gambling Is Exposed

Thos. V. Emory, "Broadway Jones" Tells Some of His Experiences in New York's Resorts

"Aside from all question of morality, gambling should be abolished because it is not a sport, a past-time or an amusement, but a species of sneak thievery that is easy to perpetrate and almost impossible to detect."

This is the verdict of Thomas V. Emory of New York. He ought to know what he is talking about, because he lost practically a fortune of $35,000 in the metropolitan dens made more notorious by the Rosenthal murder and its subsequent police graft exposure.

Emory, who will play the title role in Geo. M. Cohan's latest dramatic success, "Broadway Jones," at the Grand Opera House Monday, March 9, writes the story of crookedness in gambling for The Examiner. His experience covers adventures in all of New York's resorts.

(By Thomas V. Emory.)

There is no element of chance in an "honest" game, for the percentage of luck is all against the player and must break him in the long run. But I don't believe there are enough "honest" games to furnish a handful of exceptions to the rule that all gambling is crooked. The chance for thievery is so easy and open that gambling itself has become nothing but thievery.

Take a look at a few of the games. Stud poker, for instance, invites crookedness in the form of marked cards. Even if the man who runs the game plays straight, outsiders can frame it on him. To illustrate, two men in New York found out where a certain game purchases its playing cards. One of the men visited the merchant and bought up all his stock of cards. Then the other man, representing himself as a salesman, called on the merchant and offered him a bargain in the same kind of cards. The merchant, of course, bought the cards, not knowing they were marked. These two men made a clean-up when the marked cards found their way into the gambling house.

In draw and jackpot poker, "strippers" are often used. The three-ace stripper means a deck in which three of the aces are slightly larger than the other cards. To an experienced dealer, with confederate seated next to him, it is a simple matter to keep these aces on the bottom of the deck after the deal, when they can be shifted to the top and dealt to the confederate in the draw.

"Strippers" are also used effectively in many short card games, particularly, in pinochle.

Loaded Dice Are No Longer the Fashion.

There are many ways to cheat in dice games. The old time "loaded" dice have disappeared. It is too easy to detect the trick by slowly turning a dice between thumb and finger until, if it is loaded, it falls forward of its own weight.

Crooked dice are now known as "shapes." They are made with the six and ace faces slightly wider than the others.

This gives the player two chances to lose and one to win on his first shot. If the player gets a "point" it is almost a foregone conclusion that he "craps out" before he "makes" his point.

The magnet is also widely used to cheat in dice and roulette. It can be concealed under cigar counters, saloon bars and roulette wheels—anywhere, in fact. And it gives the dealer absolute control of the game, because by pushing a button that turns on the electric current, he can insure a big throw of the dice and direct the ball into any compartment of the wheel he desires.

Faro, the old standby of the "honest" rambler, has become the most subtly dishonest of all games. This is due to the perfection achieved in the manufacture of mechanically crooked deal boxes. These can be so cunningly contrived as to defy detection even after close scrutiny.

May Try To Quash The Cigarette, Etc.

(Continued from Page 7.)

July, 1906, and on the eighth day of August of the same year, was quashed by order of Mr. Justice McMahon, on the ground that the license fee was so large as to be prohibitive.

The by-law also provided for a fine of fifty dollars, for a breach of the Act, with a maximum period of six months in gaol in default of payment. The by-law was passed during the regime of the late Henry Best, who was the Mayor of Peterborough.

The judgment as handed down by Mr. Justice McMahon, in part, contains the following:

Portion of the Judgment.

"Tobacco, it is said, is used by 80 per cent. of the male population over sixteen years old, some smoke it in a pipe, others smoke cigars, while another class of smokers prefer cigarettes; some use tobacco to stimulate the nerves, while others say that they use it because it is soothing to the nerves; it is common knowledge that many people smoke as regularly as they take their meals, so that the use of tobacco in one form or another is a daily, and in many cases an hourly necessity to a large number of people."

Profits Insufficient.

"Having regard to the nature of the business and to the necessity of supplying a great number of the male population with cigarettes and having regard to the fact that the yearly profits derived from their sale is insufficient to pay the license fee, no other conclusion can be reached than that an unreasonable and prohibitive fee was attempted to be exacted; and that according to the statements of two of the aldermen at the meeting of the Council already referred to, it was intended that the by-law should be prohibitive."

Enjoys a Monopoly.

"Mr. Hall (City Solicitor) urged that the license fee could not be regarded as prohibitive because one of the tobacconists of Peterborough, Michael Pappas, had obtained a license. He (Pappas) states in his affidavit the reason for procuring the license was to prevent the revenue derived from his billiard room from being diminished and the result is that having obtained a license he now enjoys a monopoly of the cigarette trade in the City of Peterborough."

"As I have reached the conclusion that the by-law is ultra vires for the reasons above stated, I have not considered it necessary to deal with the other grounds mentioned in the notice of motion."

"The order will go quashing the by-law with costs. August 8th, 1906."

DOLLAR DAY March 12th

A Stride Nearer Perfection

In Washable Materials

The New "Kate Greenaway" Fabrics Being one of The Handsomest Products of Modern Looms

It's charm lies in the old world air about it, for it is an exact reproduction of the pretty muslins worn at the time when Kate Greenaway was a girl.

The substance is a soft mercerized cotton, in shades of blue, fawn, pink, etc., prettily covered with designs of a quaint and charming nature.

"Kate Greenaway" is made by a New York firm, who have appointed us their sole agents in Peterboro, and it comes in 30 in. widths; priced 30c per yard.

Plain White French Pique

From 22c to 35c a yard, we are showing a choice selection of these fabrics in all the beauty of their spotless whiteness; perfectly free from dressing.

And in this new assortment, there are a host of different designs in the weaving of the raised cords for which Pique is noted. The width is 30 inches.

Samson Galateas 25c yard

Is there a woman who does not know of the strength of Samson Galateas, and who has not been charmed with it's neat colourings and patterns.

From the Children's Rompers to the Smart Summer Suit, it offers itself for many purposes; always proving satisfactory in every respect.

Samson Galateas are 28 inches wide and 25c a yard.

French Costume Drills

These are practically Galateas in a lighter weight, for they possess the good wearing qualities, and the handsome fast dyed colours of this excellent material.

The width is 36 ins., either in plain colours or patterns of stripes or dots, while the price is modestly placed at 20c a yard.

THE LINDSAY COUNTERFEITERS SENTENCED TO FIVE YEARS

In Kingston Penitentiary---Burkholder Pleaded Guilty to the Charge of Having in His Possession Plates for the Manufacture of Bank Notes---Two Charges Were Withdrawn.

LINDSAY, March 4.—Five years in Kingston Penitentiary was the sentence meted out to Charles Burke and John Burkholder, the alleged counterfeiters, in the police court yesterday afternoon by Police Magistrate Jackson.

Chas. Burke pleaded guilty to the charge preferred against him, but in the three charges preferred against Burkholder, the accused, on the advice of his lawyer, elected to be tried by a jury. This course was taken by Mr. Weldon, because, as he claimed, the information had been changed without his knowledge. After a lengthy conference between Mr. H. G. Hopkins, K. C., Crown Prosecutor, Detective Greer and Mr. Weldon, two charges were withdrawn and Burkholder pleaded guilty to the charge of having in his possession plates for the manufacture of bank notes.

The charges against Burkholder were the forgery of Bank of Montreal bank notes and for having in his possession counterfeit money.

A Heavy Sentence.

The charge under which Chas. Burke was sentenced was that on January, 1913, he did unlawfully forge a bank note of the Bank of Montreal, No. 527,091, intended to be used as genuine.

Magistrate Jackson informed Burke that he had made up his mind to impose a heavy sentence on him, but his action in pleading guilty, as well as the assistance he had given the authorities, meant that his sentence would be reduced considerably.

Both prisoners felt their positions keenly, and at the conclusion of the case, a number of their friends came forward and shook hands with them.

Mr. G. H. Hopkins, K. C., who has been acting as Crown Prosecutor in the case, ably handled the case today. Mr. G. A. Jordan, counsel for Chas. Burke, made an eloquent plea for leniency in his behalf, while Mr. I. E. Weldon put up a strong plea for Burkholder, claiming that his actions were those of a simpleton.

Felt Position Keenly.

A few minutes before the hour for the opening of court, the accused men, Charles Burke and John Burkholder, entered the court room in charge of Chief Chilton, who was accompanied by Detective Greer and Inspector Parkinson. All eyes were centred on the accused until they took their places in front of the magistrate. Mr. G. A. Jordan, counsel for Burke, and I. E. Weldon, representing John Burkholder, occupied a seat near the accused. Mr. Jordan had a brief conversation with Chas. Burke, who after wards chatted freely with Jack Burkholder. Both prisoners seemed to feel their position keenly, the expressions on their countenances telling a story of anxiety and worry. Burke shifted nervously in his chair and shot occasional glances through the vast crowd in an effort to recognize his acquaintances and friends. Burkholder was heard to remark to Burke, "There is quite an audience present."

Story of the Case.

Barrister Weldon recalled the case of years ago and the decision made by Mr. Burke, Burkholder and O'Neill of a year ago to make counterfeit bills. Burkholder, a man 51 years of age, foolishly started in. It was a fool's business. O'Neill put up $300, Burkholder $100 and Burkholder and Burke went to Toronto to buy the 'stuff.' Burkholder did the buying and Burke stood outside. Burke undertook to get a man from Milwaukee to buy the goods at half of their face value. O'Neill unfortunately had one arm cut off. They made eight or ten bills and Mr. Burke, the expert, said a year ago that they were not good enough to pass. O'Neill had put in the most money and had a claim on the press, which was in his house, but when he went to Barrie the press was taken to Burkholder's. O'Neill moved away and passed four in Barrie. There must be some consideration for the ignorance displayed by the parties engaged. I submit that Burkholder has received great and severe punishment aside from the sentence he will get. No person, unless weak minded, will ever attempt a case again in this part of the country." Barrister Weldon said that it was a fool's business and Burkholder should be sent to the asylum rather than the penitentiary.

STANDARD RELIANCE MORTGAGE CORPORATION

Last Year's Earnings Over 11 Per Cent.—Aggregate Net Earnings For the Period Ending December 31st, 1913, $351,336.55

In another column of this paper will be seen the annual financial statement of the Standard Reliance Mortgage Corporation. This is one of the best statements issued by any financial corporation for the year 1913, and was highly commended by the shareholders who were present at the annual meeting held at the company's offices, 82-88 King Street East, Toronto, on Monday, March the 2nd.

The net earnings amounted to over 11 per cent. of the paid-up capital, which now amounts to the substantial sum of $1,985,104.00. After deducting interest on debentures and deposits, amounting to $122,521.00, the balance available for distribution amounted to $228,806.00, of which sum $118,471.88 was paid out in dividends, $100,000 was added to the reserve fund, and the balance carried forward to the credit Loss and Gain account.

The present corporation is an amalgamation of the Standard Loan Company and the Reliance Loan and Savings Company of Ontario, the amalgamation having taken effect on the first of May last.

The president, Mr. N. H. Stevens, stated that the net earnings of the corporation for 1913 exceeded the combined net earnings of the two companies prior to the amalgamation by over $10,000. This record is well worth noting, as showing not only the efficiency secured by the combination of the two companies under one management, but it shows also what may be accomplished in the way of reduction of expenses of operation.

It will be noted from a perusal of the statement that the total assets now amount to $5,110,332.00. The position obtained in the financial world by the Standard Reliance Mortgage Corporation places it amongst the largest and most prosperous financial institutions in the Dominion.

The conservative policy pursued by this corporation is an important feature for the consideration of those looking for substantial and safe investments. The debentures of the corporation are issued in sums of $100.00 or more, and interest at the rate of five per cent. per annum or these amounts is payable by coupon every six months.

The corporation invites correspondence with reference to the safe investment of funds at remunerative rates. All communications should be addressed to the head office, 82-88 King Street East, Toronto.

MARCH IN ALGONQUIN PARK

The large and growing interest in winter outings in wild country is now delightfully provided for in Algonquin Park, Ontario. The "Highland Inn" situated immediately at Algonquin Park Station on the shores of Cache Lake, offers special accommodation for visitors in mid-winter. The month of March in this territory is a delightful one and it is just the out-of-the-way place to rest and enjoy the gamut of winter pastimes which is possible there as in few other places. There is an unusually high percentage of possible sunshine in this part of Canada which renders it comparable with some of the famous winter resorts of Switzerland. Write to Resident Manager, The Highland Inn, Algonquin Park Station, Ont., for copy of "Winter in Ontario's Highland Heritage." Rates at the hotel $16.00 to $18.00 per week. Make your reservation early.

Plan to spread yourself on Dollar Day and secure as many of the big bargains as you can.

Weather Record Of 20 Years Carried In His Head

This Man Has a Freak Memory for Minutest Events

PSYCHOLOGISTS' TEST

TORONTO, March 2. — At the startling lever of an elevator in a downtown hotel is a complete Toronto weather chart for the past 24 years. People travelling up and down in that elevator can find out whether it was cloudy and worm or windy and bright on May 31, 1891, or snowing and cold on Feb. 1, 1902, or rainy and raw on April 19, 1891. The curious one can find out the weather on any day in the past 24 years without waiting more than a second or two. Furthermore, this information tallies with records of the Metrological Office. The weather chart is not contained within a book, but in the brain of the elevotor man.

William McNair is his name, and he lives at 222 St. Patrick Street. He is gifted with an uncanny memory. He can recall without hesitation the minutest details of his daily life on any given date five or ten or twenty years ago. Unconsciously, and without effort, his memory ertain clear images of everything that happens to him, and can recall them at will.

RIGOROUSLY TESTED.

He is not a faker. For hours yesterday afternoon, with the official Observatory records in their hands, Mr. R. F. Stupart, chief director of the Metrological Office; Dr. W. G. Smith, professor ofpsychology in the University of Toronto; Dr. A. H. Abbott, professor of philosophy in the university; Rev. Prof. Cotton, of Wychiffe College, and Mr. C. B. Webber, assistant director of the university, put him through a rigorous examination, from which he emerged triumphant at every point.

The examiners were frankly skeptical at first, for what McNair claimed to be able to do was beyond the experience of anyone present, and the very possibility of it was doubtful. Every effort was made to make the investigation thorough and exhaustive. Mr. Stupart had the weather register for the last 24 years, which contained the minutest detail of the weather for every day in that period beside him.

Mr. McNair sat quietly in a chair beside the desk, his hands folded in his lap. He has large blue eyes, well set apart, a wide jaw, and a firm mouth. The test commenced:

"What was the weather like on Aug. 30, 1897?" said Mr. Stupart, a huge book in his lap.

Without a moment's hesitation the answer came. "It was a beautiful day—fine and warm."

"That is right," said Mr. Stupart, and he looked at the visitor searchingly, but a small smile was all that could be read on Mr. McNair's face.

ABSOLUTELY CORRECT.

"And what was it like on the 15th of July, 1899?"

"Fine and warm in the morning. Later in the day a heavy storm, accompanied by rain, came up. It continued all day Saturday, all through the night, and most of Sunday," was the quiet answer.

"Absolutely correct," answered Mr Stupart.

"What were the weather conditions on Feb. 14th, 1899?"

"It was a Tuesday," came the instant response. "The temperature started to moderate after a severe cold spell. The 10th of Feb. was the coldest day of that year."

"You're wrong," answered the questioner. Mr. McNair raised his eyebrows. Mr. Stupart consulted the records again and lastly corrected himself. "No, no, I beg your pardon. I am wrong. You are right. That is perfectly correct," and the tension that had existed sice the questions had started was broken by a spontaneous laugh from everyone in the room.

"Do you keep a record of each day in a book, or do you memorise the condition of each day in its order?" asked Professor Abbott.

"No, I keep no records whatever, and I do not memorize the condition," answered Mr. McNair.

ST. JOHN'S AMBULANCE ASSOCIATION

The annual meeting of the Canadian Branch of St. John Ambulance Association was held in Y.M.C.A. Hall, Ottawa, on Thursday, February 26th, under the immediate patronage of Field Marshall, His Royal Highness, the Governor-General. The assembly was attended by delegates from branches of the organization from all over Canada. A pleasing feature of the afternoon programme was the presentation of the Wallace Nesbitt Trophy, which has been presented by Mr. Nesbitt for annual competition among railway teams in Canada, and which was won for the first time by Grand Trunk Railway Team, from Point St. Charles shops. The members of the team were as follows: Messrs. H. Cull, J. Russell, A. Portas, H. Slack, E. Castles. In the absence of President E. J. Chamberlain of the Grand Trunk who was unavoidably absent, Vice-President E. S. Logan was delegated to represent the Company, and the presentation was made to him by the Governor General personally, who also presented each member of the successful team with a gold pin emblematic of the Association. At the conclusion of the afternoon session Mr. Logan entertained the team and a number of the officers of the Grand Trunk who were present at the meeting to dinner at the Chateau Laurier.

PITCHER SUGGS SIGNS FOR LIFE

Special Wire to The Examiner:

KINSTON, N.C., March 4.—The wedding took place here to-day of Miss Seelle Cox, a member of a prominent Kinston family, and George F. Suggs, the well-known baseball player, whose home also is in this city. Suggs is widely known as a major league pitcher. He began his baseball career ten years ago at Jacksonville, Fla., and after several seasons with Memphis and Obile, was signed by the Detroit team. From Detroit he went to Cincinnati five years ago, and remained there until traded to the St. Louis Nationals, at the close of last season.

Plan to spread yourself on Dollar Day, and secure as many of the big bargains as you can.

TO SEEK AN ECLIPSE OF MOON

Special Wire to The Examiner:

WASHINGTON, D.C., March 4. — The astronomers at the Naval Observatory are preparing to turn their telescopes skyward one week from to-nigh to take obsevartions of the partial eclipse of the moon, which is scheduled for that date. If the weather conditions are favourable the eclipse will be visible throughout nearly the whole of the United States and Canada, from the Atlantic to the Pacific.

Killed By A Cave-in

Special Wire to The Examiner:

KINGSTON, March 4—Jos. Brewer aged 36, and just out from England with his wife and five children, was killed by a cave-in of a gravel pit, near here. There will be no inquest.

MANNING FACES CHARGE OF MURDER

Special Wire to The Examiner:

NEWARK, N. J., March 4.—Chas. I. Manning, for the love of whom Hazel Herdman shot and killed his wife, and then killed herself, several weeks ago, will be given a hearing in court to-morrow, on a charge of being an accessory to his wife's murder.

Miss Herdman, in her dying statement, attempted to exonerate Manning, but the police claim to have obtained evidence tending to show that he was an accessory and that he took Miss Herdman in his automobile to Newark before the murder was committed.

SEEKS $100,000 AS HEART BALM

Special Wire to The Examiner:

PORT CLINTON, O., March 4. — The most notable breach of promise suit in the history of this section of Ohio came up for trial here to-day in the Ottawa County Court. The suit was started four years ago by Miss Christina Pauls who seeks $100,000 damages from John Magee for failure to carry out an alleged promise to marry her. The defendant is an aged banker of Elmore, and one of the wealthiest men in the county. Miss Pauls was employed for many years as a servant in the Magee household.

Wherever you see the red lettered Dollar Day pennants you will find the treasure box numbers.

"WITH THIS RING I THEE WED"

And then the "plain wedding circle" is slipped over her finger, and the clergyman says, "I now pronounce you."

"Plainness," however, is not so characteristic of wedding rings as it once was. We have the 10, 14, 18 and 22 karat plain gold bands, costing $3.50 to $16.00.

Aside from this, wedding rings vary extensively in width, and other details, giving our display a greater variety than you would think probable.

They are an interesting sight, when all laid before you, and we shall be very glad to have you inspect them.

First Annual Report of STANDARD RELIANCE MORTGAGE CORPORATION.

The Standard Reliance Mortgage Corporation of Toronto held its annual meeting of shareholders on Monday, March 2, 1914, in the offices of the Company at 26-28 King Street East, Toronto. The following report was submitted and approved:—

Your Directors have much pleasure in submitting herewith the first Annual Report and Statement for the past year accompanied by the Balance Sheet to December 31st, 1913, showing the result of the Company's operations.

The Directors are pleased to submit the First Annual Report and Balance Sheet of the Corporation for the period ending 31st of December, 1913.

The Order-in-Council approving of the merger of the Standard Loan Company and the Reliance Loan and Savings Company of Ontario was passed on the 21st day of April last, and the actual merging took place on the first day of May.

It will be noted that after paying all fixed charges and expenses, including outlays consequent upon the amalgamation, the balance available for distribution has been sufficient to allow of payment of the usual dividends to the Shareholders, and an addition of $100,000 to the Reserve Fund, which now stands at $400,000.

We are pleased to be able to report a substantial increase in the Debentures placed by the Company, and also in the Savings Accounts. By reason of this our total Assets now stand at over $5,100,000, or an increase of over $300,000 since the merger, and the net earnings of the Corporation are greater by over $10,000 than the combined net earnings of the two Companies prior to the amalgamation.

The shares held by the Corporation in the Dovercourt Land, Building and Savings Company, Limited, represent assets consisting of real estate having an actual value largely in excess of the par value at which the shares are now standing on the books.

To fill a vacancy in the Directorate since the amalgamation, Dr. H. Jessop, of St. Catharines, a large and influential shareholder in the Company, was elected.

Since the last Annual Meeting of the Standard Loan Company, now an integral part of the amalgamation, the death of one of the most distinguished Canadians, Lord Strathcona, has taken place. We feel sure that all our shareholders deplore the great loss which the Dominion of Canada has sustained by the passing of one of the most notable figures in the history of our country. He was, at the time of his death, a Director of this Corporation.

We take great pleasure in bearing testimony to the efficiency displayed by the officials and agents of the Corporation in performing their respective duties.

Respectfully submitted on behalf of the Board.

(Signed) N. H. STEVENS, President.

Dated, Toronto, 18th February, 1914.

Balance Sheet as on December 31st, 1913.

Action For $400 is Concluded in County Court—The Judgment

Plaintiff is Awarded Judgment in Full for $400 Without Costs—Defendants Win in Counterclaim—The Net Result in the Case of Revellos vs. Pappas.

Judgment has been handed down in the County Court by His Honour Judge Huyche, in the case of Revellos versus Pappas. In this action the plaintiff, G. Revellos, of Toronto, sued M. Pappas of this city for $400 on cheque of defendant, which was admitted as having been given, and unpaid. The defendant entered a counter claim for $600, with expenses, constituting difference in retail value of building in Toronto, which defendant claimed to have leased from Revellos, and which was subsequently leased to another man.

Mr. Godfrey of Toronto appeared for the plaintiff, and Mr. D. O'Connell, of Peterborough, for the defendant.

The judgment in its entirety contains the following:

REVELLOS V. PAPPAS.

Action for $400 on cheque of defendant which was admitted as having been given and unpaid.

The real dispute was over the counterclaim arising out of the transaction for which the cheque was given. The circumstances were as follows:

In August, 1913, plaintiff had a shoe shine place at 48 Queen East, Toronto, which on or about Saturday, 23rd August, 1913, he agreed to sell to Pappas and Pappas agreed to buy. The price was $1,200, and for this were to be given all the fixtures and chattels in the shop and an assignment of the existing lease from Miles Vokes, the landlord and owner of the premises.

Cheques Were Given.

Cheques were given, for which others were afterwards substituted, and shortly after midnight keys and possession were given over, the formal papers to be executed the following week. Plaintiff says he told Pappas, defendant's husband who acted for her throughout, the existing lease was for only two months.

This I find not proved. I do not think on that night either party knew the exact terms or meaning of the lease, and Pappas, as he said, "took a chance" on it. On the following Monday Pappas got the lease and took it to his friend Hunter, who read and explained it to him.

Later on the solicitor, Mr. W. M. Hall, read and explained it to both parties. The lease was good to October, 1914, subject to termination on notice for sale or building purposes only. This was the lease, however uncertain its terms or meaning, which plaintiff agreed to transfer and did transfer, and which Pappas agreed to take over and pay for, whatever it was or meant.

Regular Assignment.

On 23th August, 1913, the parties went together to Mr. Hall about noon to have the necessary papers drawn and executed. Mr. Hall took instructions and told them to come back later in the afternoon, when he would have all the necessary documents, i.e., Bill of Sale and Assignment of Lease ready for signature. This they did and all the necessary papers were then executed including a regular assignment of the lease from plaintiff to defendant.

But in the meantime another fellow Greek, Janettos, cast longing eyes on the premises and went to Vokes to rent the shop, and secured a promise of the first chance if vacated. Vokes properly told him he could not rent it because Revellos had an existing lease; but Revellos had sold, and did not want the place, Vokes was told. "Well, then, bring him in," Vokes said, "and if he gives it up you can have it." Janettos went to Revellos, telling him Vokes wanted him. Revellos evidently unacquainted with Laocoon's warning as told by Virgil, "Quid quid id est—Timeo Danaos, et dona ferentes," went with Janettos to Vokes' office, where he signed a surrender of the lease to Vokes. Immediately thereafter he went to Hall's office, and pursuant to his contract executed a Bill of Sale and a formal assignment of the same lease he had a few minutes before surrendered.

Remained in Possession.

Pappas remained in possession and refused to go out, pursuant to notice to quit. Ejectment proceedings followed under the Overholding Tenants Act, and Morson J. made an order, with costs, evicting both plaintiff and defendant.

In the meantime Vokes rented to Janettos for three years, with no limitation as to sale or building for $115 per month, the former lease being for only $45 monthly. Pappas had to obtain other premises not nearly so good, he says, for $75 per month, and was put to much expense and inconvenience in addition. He now counterclaims for the difference in rental value $115—$85 or $30 monthly, October, 1913, to October, 1914, 12 months, or in all $360, with expenses in addition.

The Counterclaim.

I think Pappas must succeed on the counterclaim, the only difficulty being the quantum to be awarded. I hesitate to find that plaintiff acted fraudulently and wickedly. He did know when he assigned the lease that he had just before signed some paper affecting the same lease. He may not—probably did not—know the full and contrary effect of the two papers. But he agreed, for valuable consideration, to hand over the existing lease as it then was, and failing to do so, and himself having destroyed its effect, is liable for resulting damage. Nor do I think he is much helped by the contingency of Vokes refusing assent to the assignment or of his taking the property for sale or building purposes.

Good Moral Character.

If Vokes withheld consent, it would I think have been an unreasonable withholding, and contrary to I. George V., Ch. 37, Sec. 23.

Defendant is shown to be of good moral character and well-to-do—a desirable tenant. And as said before, the place was rented for 3 years without sale or building restrictions, it is true, at an increased rental.

I also think under the lease in question that forfeiture would not accrue from an assignment of it without leave of the landlord.

The measure of damages is laid down to be the difference between the rental to be paid and the rental value. In this case it was $50 per month, and the term 12 months to run.

Removal Expenses.

I have some doubt as to whether this $600 should be given now or at the end of the term in October, 1914. The defendant was ejected wrongfully, so far as plaintiff was concerned, and I think the damage accrued forthwith on such ejectment. But as some counterpoise to this, I find no damages for removal expenses which would in any event have been necessary a year later in October, 1914.

I was referred to certain findings made by Morson J. With very great respect for both him and his opinion, I do not think I should be governed thereby in this case. It was a different issue, different parties, and I have no doubt decided on different evidence.

Judgment must go for plaintiff for $400 on his cheque without costs.

Must Have Difference.

On the counterclaim defendant must have judgment for the difference in rental values as above shown for $600 00

Damages paid for overholding	9 35
Costs overholding proceedings paid Sheriff	37 00
Costs of his own solicitors defending in that proceeding rendered at $75.14, but not taxed or paid, which, to be absolutely within the mark, I place at	50 00
Total	$696 35

Some of the other items proved in reality, but part of the $600 as indicated.

Judgment will go for defendant for $696.35 on her counterclaim, and with costs.

The net result is that defendant will recover from plaintiff her judgment $696.35, less his judgment $400, or a balance of $296.35 with costs to be taxed.

E. C. S. Huyche.

2nd March, 1914.

HON. W. T. CROTHERS IS DENOUNCED, ETC.

(Continued from Page 7.)

ers, whoever they were. [illegible] the Labor Department to act was evident from a telegram to Sir William Mackenzie from his private secretary, in which it was said that the strike would collapse if Ottawa declined to interfere.

Hon. T. W. Crothe , Minister of Labor, upon rising to reply, congratulated Sir Wilfrid Laurier upon his new found affection for the working man. In 1896 there was a strike at Buckingham within thirty miles of the capital involving considerable bloodshed, but the Laurier Government refused to lift a finger in behalf of the strikers. It was then announced that Mr. Lemieux, who was Minister of Labor, that the Government would intervene in no strike unless requested to do so by both sides. In the Nova Scotia coal strike the Laurier Government had declined to request the mine owners to recognize the United Mine Workers, and in this course they were supported by Mr. Carvell, Minister Carroll and others who criticized him for not consulting the British Columbia mine owners to recognize the United Mine Workers.

Mr. Crothers then extensively reviewed the history of the Vancouver Island strike and said he had been active and diligent in his efforts to settle the same. He had no objection to international unionism, but so far as the United Mine Workers were concerned, there was every reason to believe that they intended to prevent Canadian coal competing too sharply with that mined in the United States.

Mr. Crothers was followed by Mr. Macdonald of Pictou, who charged that the United Mine Workers interfered in Nova Scotia politics in the Conservative interest, and had been instrumental in bringing about the election of Mr. Madden as member for South Cape Breton in 1911.

Cohan and Harris Present For First Time in the South Geo. M. Cohan's Latest and Greatest Success

"Broadway Jones"

Extract from criticism of Mr. Hugh H. Huhn, dramatic critic "Memphis Commercial Appeal" January 3, 1914:

At this dawn of the new year, theatregoers should silently thank a kindly Nature for permitting the existence of George M. Cohan. He is one of the kindliest gifts Nature has allowed a tired world. He has directed the X-ray of the sunshine into the hearts of those who have needed the cheerfulness of his humour. He has made even the tremulous man forget the bill collector.

He is the father of a paradox. He has placed prince and panper on the same basis, and has made the rich man, poor man, beggar man, thief, laugh just as though they were brothers in mirth and all equal, as they will be in the end.

The fruit is usually judged by the tree which bears it, and George Cohan and his sister, Josephine, were produced by a tree of such tremendous excellence that the names of Jere and Helen Cohan must share in their son's honour to-day.

This is all more about George M. Cohan than it is about "Broadway Jones," which was presented at the Lyceum Theatre last night, but "Broadway Jones" would not be possible but for George Cohan.

If it was not a matter of personal opinion alone, I would unquestionably say that "Broadway Jones" is one of the best and brightest comedies that has ever escaped from the fluent Cohan pen.

His best humour is found in it, his brightest epigrams in slang, his keenest wit all find delightful expression. There is no necessity to search for a plot, although there is a rather good one, somewhat slender, perhaps, but altogether pleasant, in "Broadway Jones."

From the minute the curtains ascends until its final fall there is not a dull phrase nor an indifferent situation. To be frankly honest, there is a laugh in every line. Not in many seasons has a comedy been offered at the Lyceum Theatre in which there is condensed so much clean, wholesome, invigorating humour, nor as many spontaneous laughs.

It is typically Cohanesque. It smacks of the man in every detail. It is a pleasant reminder of what he did in a musical way, but is much better, so much brighter.

It will be one of the redeeming features of the season to know that "Broadway Jones" appeared at the Lyceum Theatre and opened a vista of future possibilities.

There was not a serious face in last night's audience, which was an unusual one for Sunday night, and helplessly appreciative.

The four acts are well staged and the action begins with the opening and never closes until the pledges of love are consummated in the final scene. There are no serious thoughts, no perplexing complications, no unpleasant reminders, nothing in fact, at all serious to think about.

It is just a breezy, bright, joyful comedy, presented by a typical Cohan company, which means one of the best to be had.

After scanning the theatrical horizon for possibilities of a probable successor, and after trying many clever boys, the keen discernment of Cohan found in Thos. V. Emery, the logical man. He was no doubt right. Last night's audience is sure that he was. Mr. Emory is a youthful replica of George M. Cohan, with something in his own personality which adds to his usefulness. He has expression, he has an irresistible smile, he has the ideal conception of the Cohan humour. He is an actor of unusual ability and he has a reserve force that leads one to believe tat he is capable of better and bigger parts.

As Broadway Jones last night, Mr. Emory was irresistible. His magnetism thrilled and at once captured and held his audience as he would independent of the lines of Cohan.

The entire company is one of exceptional ability. The Robert Wallace of Curtis Benton seemed to be the necessary balance wheel. He was exceedingly clever, but in a more dignified way. One is dependent on the other. Wallace is a proper foil for the Jones frivolity. Both were most acceptable.

Mrs. Gerard was played in a most artistic way by Caroline Lee. The part is not a prepossessing one personally, but it is one about which several important scenes cleverly swing. Miss Lee acts every line and scene in a spontaneous way entirely in keeping with the other characters. Grace Morissey, as Josie Richards, gracefully filled the role necessary in all such comedies to develop the thrill of romance. She approached the climax gracefully, with a certain girlish dignity. Olive Artelle as Clara Spotswood was also most acceptable as the giggling girl knocking at the door of an unexplored future. The entire company is an excellent one, well balanced and carefully selected for the numerous roles so characteristic of George Cohan.

"Broadway Jones" will be repeated to-night, with two performances to-morrow.

Those who wish a hearty, wholesome laugh should by no means miss it.

BROKE THROUGH THE ICE IN POND AND FATALITY WAS NARROWLY AVERTED

Mr. J. Christie, of Hastings, Had a Close Call—A Social Function of Interest.

HASTINGS NEWS

Examiner Special:

HASTINGS, March 2.—The home of Mr. and Mrs. Jas. Buck was the scene of a pleasant social function on Wednesday of last week, the occasion being the marriage of their daughter, Dora, to Mr. C. M. Ruff, of Toronto. The ceremony was performed at 12 o'clock noon, by the Rev. T. H. P. Anderson, pastor of the Methodist Church, in the presence of about 35 guests. The bride, who was unattended, looked very charming in a lovely gown of cream Duchesse satin with pearl trimmings, and carried a shower bouquet of roses. After the ceremony and customary congratulations, the company repaired to the dining-room where a sumptuous wedding "dejeunier" was served, and much enjoyed. The happy couple took the 4:10 p.m. train at Norwood for their future home in Toronto, amid showers of confetti and followed by the best wishes of a host of friends. The bride's going away gown was of midnight blue with hat to match. The gifts were many and varied, showing the high esteem in which Mrs. Ruff is held by her many friends.

An accident, which might easily have proved fatal, occurred to Mr. J. Christie on Thursday last, when, by some means, he slipped through the ice on the pond here, and was submerged to his chin in the icy water, when he was discovered by some men who heard his cries for help, and just came in time to rescue him from his perilous position, as the ice was rapidly breaking away from his grasp. He was taken to his home and wrapped in warm clothing, and is none the worse for the trying experience.

Mrs. J. Moore and Miss Eva took a trip to Toronto a week ago, where Miss Moore was writing on her musical examinations. We wish her success.

On Thursday last Miss Flo., daughter of Mr. and Mrs. Robt Scott, of Asphodel, was united in marriage to Mr. H. Nesbitt, of Western Canada. The many friends of Mr. and Mrs. Nesbitt join in wishing them a long and prosperous wedded life.

A number of the lady friends of Mrs. Wm. Oakman met at her home on Thursday last and spent the afternoon in quilting. A very sociable time was enjoyed by all present.

Mr. A. Parsons has moved his household effects into the house recently vacated by Mr. Ostrander.

Messrs. A. Humphries and L. Elmhirst were in Peterborough last week attending as jurors at the recent sitting of the court.

Miss Ethel Collins is holidaying at the home of her brother, Mr. R. Collins.

Miss Gladys Stevenson spent the week-end with her grandmother, Mrs. J. Beavis.

Mr. and Mrs. Wilbert Fife of Otonabee, spent Saturday with friends in town

M Lexis Spellman of Peterborough, spent Saturday and Sunday at his home here

Mr. Wm. Knox of S. Dummer and Mr. J. Armstrong of Otonabee, spent Friday in this vicinity.

Mr. and Mrs. A. Armstrong of Havelock, have been visiting friends in Hastings.

Mr. Currie, who has been acting principal in the Public school here, was forced to give up the position owing to ill health, and has gone to his home in Toronto.

Mr. John Hope of Villiers, was in town last week getting bills printed for a public auction sale to be held at his home on March 18th.

Mr. and Mrs. M. Baker spent Thursday with friends out of town.

Miss Luella Archer of Seymour, is the guest of her sister, Mrs. Walter Humphries.

A bunch of young people drove out to Mr. Wm. Oakman's on Monday night and spent a happy time.

Mr. Mahoney of Campbellford, gave us a call last week.

Mr. Blodgett of Roseneath, was in town last week looking for horses to purchase.

Mr. and Mrs. Frank Parker of Alnwick, drove through Hastings on Monday en route to Norwood to visit friends.

The worst storm of the season passed over this section on Sunday and Monday, and in consequence some of the country roads were rendered impassable for a time.

IN THE WORLD OF SPORT

THE ATHLETIC CLUB WILL TRY TO REVIVE LACROSSE IN THE SCHOOLS

Will Work in Connection With the Lacrosse Association in Encouraging Youngsters to Take Up National Game.

CALL MEETING SOON

One of the first things the newly formed Peterborough Athletic Club will take up is an effort to revive lacrosse in the City, at least to co-operate with the Ontario Lacrosse Association in a campaign to get the grand old game going, by commencing in the city schools. The Association is working along these lines, and is providing lacrosse sticks at a very cheap rate and offering gold medals for competition in a school league. It is believed that in order to revive lacrosse on a proper basis it is necessary to start with the youngsters and great success has been met with in other cities.

The Peterborough Athletic Club will undoubtedly do everything in it power to help the movement along and act as the central body in promoting the intrests of the school league, in addition to starting the game among its own members. The officers of the Club have already been waited upon by a number of lacrosse enthusiasts, who have promised their hearty support. The club proposes to call a meeting of the Principals of the different City schools and have Secretary Frank Doyle of the Association come to Peterborough and explain the situation thoroughly, after which it should be an easy matter to organise the school league.

Speaking of the lacrosse revival the Toronto Star says:

In one city visited by the organisers of the schoolboy lacrosse leagues last week, a man, who had not hitherto been interested in the game, asked if it was not beginning at the wrong end to expend so much energy upon the lads. He thought that if the fathers and big brothers stared in to play lacrosse, the small boys would follow as a matter of course. It was quite evident at once that the man who raised the objection had never played the game. Old players have long recognized that the men who does not learn lacrosse while quite young has not much chance of ever playing it well. Like its kindred game of hockey, lacrosse requires strenuous training and makes very big physical demands. You cannot get into either game late in life. It was explained for the benefit of the objector that the present movement to get the boys to learn lacrosse was necessary if the national game is to be played in the future, and though the work of organising has not come until the year 1914, the people intimately connected with the lacrosse realized many years ago that something along these lines would have to be done sooner or later. The man who raised the point, which perhaps may have puzzled other persons not acquainted with the game is now on the comimttee in London, Ont.

It is quite certain now that the scholboy leagues are appealing to the sporting element in the towns and cities of Ontario. The first work done by the organisers has made it certai that boys in Brampton, Brantford, London, and St. Catharines will be proud possessors of gold medals sometime late in the present summer. These four places were selected for the first visits because they have always been lacrosse centres that turned out fine players. It was suggested in the Toronto papers before the campaign started that Brampton might form a league with Woodbridge and Weston, but the men who have taken up the matter in the home of the O.A.L.A. champions think that there are enough boys in the town to make the league. If the two smaller towns want to play, it may be necessary for them to organize with West Toronto. In St. Catharines they are not only planning to have the schoolboys in line, but they also think it will be possible to establish an industrial league among the factories. One optimistic person thought there would be two hundred and fifty lacrosse players in the Garden City this summer. If they carry out all their plans St. Kitts will be a much on the map as Winnipeg and Cornwall, the other two cities where they have both schoolboy and industrial leagues playing the national game.

T. W. BOYD & SON, 37 Hunter Street W. West, Hamilton

BERLIN HAS GOOD LEAD BEAT ORILLIA 4 GOALS TO 0

BERLIN, March 4.—Berlin intermediates surprised Orillia to-night in the first final O. H. A. game when they whitewashed the Northerners 4 to 0, scoring two goals in each half. It was a hard-fought game and there was no let-up in the play of either seven until the last gong. Berlin's team work was like a machine and greatly surpassed that of the Northerners, who were unable to get away effectively.

The Dutchmen rushed more effectively and succeeded in beating the Orillia defence on combination work, the majority of the goals resulting by plays of this kind. Play in the first period of the game was not marked by any spectacular work, both sevens checking back closely, making fast play impossible. The first goal came after playing twenty-six minutes, being scored by Boettger on a pass from Solomon. Wearers of the green and white notched the second tally two minutes later, his time Boettger scoring on a pass from Leroux. During the last ten minutes of play the locals outskated and outchecked the visitors.

The visitors' forwards played a strong game, Jupp and Ross being easily the stars. Jupp made several spectacular rushes, but the good defence prevented scores. Every man on the Berlin team played superior hockey to any game this season, checking like demons and breaking away often. The work of Truschinski and Seibert was especially good on the defence, and it was due in no small degree to their hard checking that no goals were scored. Both players also rushed alone and with their team mates very effectively. The auditorium was packed, every available space being taken, strong deputations being present from many surrounding towns. Only about fifty accompanied the visiting team. None of the players on either team sustained any injuries. There was considerable betting on the game, it being generally conceded that if the Dutchmen gained a two-goal lead they could win the honours. The teams:

Berlin — Goal, Hainsworth; right defence, Trushchinski; left defence, Seibert; rover, Boettiger; centre, Leroux; left wing, Solomon; right wing, Roschman.

Orillia—Goal, Corbould; right defence, Perryman; left defence, Harvey; rover, Carte; centre, Ross; left wing, McDonald; right wing, Jupp.

Referee—Dr. Gilfillan, Uxbridge.

BLACKBURN ROVERS CAN BOAST OF FIVE STARS

Which Cost Them a Paltry \$1,000—A Consistent Scorer —League Tables

Is Bill McCracken, the famous Newcastle back, leaving Newcastle? It is stated, although not officially, that the price asked for his League papers is \$10,000. It seems strange that Newcastle should have an inclination to part with the Irish Internationalist considering their precarious postion in the English League. McCracken has rendered valuable service at St. James' Park since he went there many years ago, and is still capable of having powerful influence in ny team, and it is quite probable that the announcement of his transfer will be made at an early date.

According to an English critic, W. Reid, of Rangers, is the best centre-forward in Great Britain. That's a big compliment to the Ibrox sharpshooter.

Blackburn Rovers can boast five "stars" which cost them a paltry £900, viz., Crompton and Cowell, nil; Walmsley, £30; Percy Smith, £125; Bradshaw, £30; and Latheron, £35.

Since joining Woolwich, Jack Rutherford has been a consistent scorer. Newcastle are sorry at parting with him.

Bradford City possess a Jew International, which is the only one of that nationality claiming the distinction, altogether unique.

Shaw, of Celtic, has saved three penalties this season and no penalty goal has been recorded against him.

Reynolds, Fulham's goalkeeper, is recognized in many quarters as one of the finest custodians in England.

Only four of Glasgow Celtic's present team won for them the League championship on their last triumph four years ago.

ORILLIA JUNIORS GO INTO FINALS FOR FOURTH TIME

OSHAWA, March 4.—In the last of the games in the semi-finals of the O. H. A. junior series, played here to-night between Oshawa and Orillia the game resulted in a tie at four all. As Orillia came down with a lead of four goals from the first game played in Orillia on Friday last, they thus win the round by four goals. The game started off at a fast pace, Oshawa forcing the play and storming the Orillia goal. Both teams played splendid hockey for the first twenty minutes, but the ice became very soft and made the going hard. The soft ice also made brilliant playing impossible, and the players continually bunched.

In the second half the game became rough, many players being penalized. Oshawa played hard all through and stormed dozens of shots on Johnston who played goal for Orillia. Oshawa, however, got three past him and with the score 4 to 3 in favour of Oshawa an easy one rolled in past Jacobi and the game ended. Riordan, for Oshawa, did not shine as in past games, his playing being marred by trying to get the man and not the puck. Weller and Williams played the best game on the Oshawa team, while Draper and Butterfield showed up best for Orillia Draper being the fastest man on the ice.

It was a hard-fought game and regardless of being slow hockey, very exciting from start to finish for the large crowd present. The Orillia team are well balanced, and aside from Tudhope, are all husky boys. Their chances look very good for the championship. The following are the teams:

Orillia — Goal, Johnston; defence, McNab and Reid; rover, Butterfield; centre, Tudhope; wings, Draper and Teskey.

Oshawa — Goal, Jacobi; defence, Bowan and Riordan; rover Williams, centre, Hall; wings, Weller and Miller.

Referee—J. Fraser.

Wells Won From Blake

LONDON, March 4—"Bandsman" Blake may be counted out of the "white hopes" amongst the English pugilists. This evening, at the Palladium, one of the newest of the music halls, and in the presence of a crowd who had paid from five 'bob' to five 'quid' for their seats, was knocked out by Bombardier Wells in the fourth round.

Blake forced the pace at the outset and showed the best fight in the first and second rounds, driving Wells around the ring, but in the third round Wells punished Blake heavily, whilst in the fourth round heavy blows on the jaw staggered Blake, who took the count.

This is Wells' third victory since his disastrous meeting with George Carpentier, the all-conquering French fighter. Since then Wells, who, despite frequent disappointments, has never lost the favour of the British public, has been busy reinstating himself. Two contests were quickly fixed up and almost as quickly decided, Wells being offered as a spur to success in these encounters a meeting with Bandsman Blake, an East Anglian, who, with a clean ring record, was in the position to make the final accomplishment of his challenge of Wells' championship title contingent upon the Bombardier coming through the two fights without adding any further blot to his escutcheon. Wells did win these two fights. He knocked out Gunner Rawless at Belfast in ten rounds on January 4th, and he polished off Pigot France's best heavyweight, at Cardiff, equally dramatically and suddenly as he had himself been polished off by G. Carpentier.

Those who watched last night's contest could not but feel that it did not furnish the Old Country with the man fit to take rank alongside Carpentier and the American contingent of "white hopes"

BELLEVILLE'S PROTEST IS THROWN OUT

Special Wire to The Examiner:

TORONTO, March 3—At a meeting of the O. H. A. sub-committee, this morning the protest of the Belleville Club against Thomas Riordan, of Oshawa, on the ground that he had played baseball with professionals, was dismissed. The Committee decided that Belleville's allegations were entirely incorrect. Orillia will play the return game at Oshawa to-night.

\$200.00 in cash bonuses to be given away will make Dollar Day interesting.

SOCIETY BRAND CLOTHES ARE FOR YOUNG MEN

FEATURES

English Woollens, American Styles

Made in Canada. Saving Duty Charges.

LAST SEASON we inspected all the Leading Clothing Houses of Canada, also Society Brand of Chicago in search of new clothing that would interest our customers. We were particularly impressed with Society Brand Clothing for Young Men. We introduced Society Brand Clothing to the Young Men of Peterborough, and its merits were specially recognised. This season we again present Society Brand Clothing, but under more favourable circumstances. A contingent of American Society Brand Designers and Tailors arrived in Canada; huge bales of English Woollens were here in readiness, and Society Brand Clothing, with all its style, splendid tailoring and beautiful finish, improved by the use of English materials, and the price, less the cost of duty, is here for the fitting out of the particular, well-groomed young man. The preference this season is Grey and Brown, leaning towards the rougher weaves, and are shown in splendid variety. Come in and see them. Whether you buy now or latter matters not to us. But we are anxious to have you know the character and quality of these

THE TAR BABY IS 28 YEARS OLD

Special Wire to The Examiner:

BOSTON, Mass., March 4.—Sam Langford, who has been resting up at his home in this City since he returned from Europe, last week, was entertained by a party of his old friends to-day on the occasion of his twenty-eighth birthday anniversary. Langford is a product of Nova Scotia, where he was born March 4th, 1886.

The "Tar Baby," as he is familiarly known, is one of the veterans of the ring, notwithstanding that he is comparatively young in years. He began fighting at the age of 16 and, consequently, he has a ring career of a dozen years to his credit. During this period he has engaged in more than 300 battles. He made his early reputation as a welterweight, and in recent years has faced practically all of the middleweight and welterweight, and heavyweight fighters of reputation on both sides of the Atlantic and in the Antipodes.

Langford expects to engage in a ten-round boxing match in New York next week with Jack Blackburn, who is about to resume activity after an absence of several years from the ring. Some ten years ago, when Blackburn was in his prime, he and Langford met on five or six different occasions, each contest resulting in a draw.

After the Blackburn contest Langford will go to Kenosha, Wis., where he is matched to meet Carl Morris at the end of this month. After several other bouts now in prospect he will return to Paris in April to renew his efforts to bring about a match with Jack Johnson for the world's championship.

TO WELCOME THE WORLD'S TOUR PLAYERS

Special Wire to The Examiner:

NEW YORK, March 4.—New York expects to entertain a big collection of baseball enthusiasts at the end of this week, when the world's tourists will be welcomed home from their long trip. A special train carrying several hundred Chicago fans, is due to reach town to-morrow and other large delegations are reported about to start from Philadelphia, Boston, Pittsburgh, Washington and other cities.

The Baltimore Hotel has been selected as headquarters for the demonstration of welcome, and the touring Giants and White Sox will be taken there after their arrival on the Lusitania on Friday. On that day there will be meetings of the officials and club owners of the National and American Leagues, and it is likely the gathering will be taken advantage of to hold meetings of other baseball organizations. On Saturday night virtually all of the men who control the national game, together with any army of players, sporting writers and invited guests, will gather about the festal board at the Baltimore at the great banquet arranged in honour of the globe-trotting baseball teams.

Hockey—That's All

Toronto Star: Past President H. E. Wettlaufer, of Berlin, is looking after the junior Western All-Stars in their game here Saturday night, while Secretary W. A. Hewitt, of the O. H. A. will handle the Eastern All-Stars. This should provide one of the best contests of the season, as it will give the public a view of the best junior players developed in the Province during the winter. The all-star team of the East will be as follows:

Goal—Joe Dwyer, Peterborough.
Defence—Thos. Riordan, Oshawa.
Defence—John S. Godard, Kingston Frontenacs.
Rover—Wm. M. Box, Belleville.
Centre—Norman Millan, Kingston Frontenacs.
Right wing—C. F. W. Hicks, Toronto Simcoes.
Left wing—Charlie Stewart, Kingston Collegiate Institute.

HERE IS ANOTHER PAGE OF VALUES

That Demonstrate the Advantage of Visiting Our Store THIS WEEK

It is evident from the increasing number of shoppers who traded here last week that there is a widespread appreciation so far of our display of Beautiful New Spring Merchandise.

The New Models in Corsets have arrived that Fashion demands for the season

CERTAIN models shown here for the first time represent great achievements in the corset-makers' art. Each model is designed to best set off the slim, supple lines of Fashion's present vogue.

The above cut represents No. 525. Extremely low bust, with long skirt, free hipbone, made in fine coutil, in sizes 18 to 25. Price.....$2.00
Other models priced at $1, $1.35, $1.75, $3, $3.50.

Showing of Ladies' New Spring Tailored Suits—They are the newest of the new, both as to material, cut and finish. Shepherd's Plaid Suits, Serges, Diagonal Venetians, Bedfords, and Wool Ratines, in the new popular shades. The Coats are made with the new butterfly sleeves. Skirts are made in the new peg-top effect; the coat—silk serge lined, with fancy collar. You would expect to pay one-third more than these prices—
$12.50, $15.00, $18.50, $20.00, $22.50, $28.50

Smart and attractive are the Spring Coats we are showing for Misses and Children, Ratines, Black and White Checks & Serges, &c. The excellence of the material and styles exceeds previous seasons. You will be delighted to see your child wearing such a beautiful coat as you can get in this choice collection at "Fair's". Coats to fit children 3 to 6 years, $3.75 to $5.00.
Coats to fit misses from 12 to 16 years .....$3.75 to $12.50

We are prepared to take orders for
Ladies' Man-Tailored Suits
and to execute same promptly

Splendid showing of the New Chiffon Moire Silks—Silks that will be appreciated because of their soft lustrous finish. In shades of maize, saxe, pink, and new shade of old rose. 40 inches wide. Per yard $1.10

Black and White Check Dress Goods are in big demand. One of the leading fabrics for the season. Now in stock at, per yard 50c, 75c, $1.50, $1.75, $2.00

Black Paillette Silk—Positively the best value offered. A really wonderful fabric, 36 inches wide, worth $1.00 yd. On sale at 69c yard

Black Paillette Silk — A special heavy quality guaranteed pure silk. Has a full deep black lustrous finish. 36 ins. wide, worth $1.75 yd. On sale at $1.25 yard

New Wash Goods for Spring and Summer Dresses—Everything points to a great season for Wash Goods in the novel weaves. **Crepes and Ratine** in white and colours, the most popular fabrics of the season, in exclusive, fresh and effective patterns, per yard ..... 12½c, 15c, 25c to $1.00

Poplins, Brocaded Crepes, Bedford Cords, Voiles, are charming in their ingenious designs in white and new shades. Price range, yard.....25c, 50c, 75c, $1.00

Wherever you see the red lettered Dollar Day pennants you will find the treasure box numbers.

Skips' Bonspiel Opens To-night At The Rink

The draw for the Skips' Bonspiel, which begins to-night at 8 o'clock, has been posted on the green baize board at the Charlotte street rink. This series of games should produce some fine curling, and will just about wind up the season. The Skips who meet to-night are as follows:

A. Moore vs. W. D. Campbell.
W. J. Thompson vs. S. J. Stubbs.
Dr. Wightman vs. S. T. Medd.
H. Rose vs. George Stevenson.
J. H. Ferguson vs. J. H. Connal.
George Hill vs. Jno. Cameron.
R. Neill vs. R. G. Sturgeon.

A big gallery is expected for most of these games. They will be continued on Thursday night and rushed on to the finals.

Read the list of the stores where the treasure box numbers are given away.

We have a big lot of all kinds heavy weight underwear, which we will sell at low prices. Reg. $1.00 and $1.50 a pair, for 49c, 75c, and 98c.
Great bargains in Sweater Coats, working shirts, overalls, sox, mitts, caps and winter overcoats.
Dressers—We have a big lot on hand, which we will sell very cheap.
2 good ranges and 3 first-class parlour heaters, will sell at a great sacrifice. Come and save money.
We buy anything you may offer to sell.
The Old Country New and Second-hand Store, 199 Charlotte Street.

COMMENDATIONS FOR GRAND TRUNK

The convention of the Canadian Hardware Manufacturers Association of Canada was held this year in the City of Ottawa from Feb. 16th to 21st. In connection with this convention the Grand Trunk Railway operated special train service from Montreal to Ottawa and from Toronto to Ottawa. The following is a copy of a resolution, passed by the Association at their meeting and forwarded to the General Passenger Department.

"The Canadian Hardware Manufacturers wish to express herewith a hearty vote of thanks to the officials representing the Grand Trunk System for the able manner in which the necessities of travel to and from the Canadian Hardware Manufacturers Convention have been handled without a dissenting voice or complaint from any of the visiting delegates. (Signed) M. R. Griffiths, A. A. Bittues, Resolution Committee."

BASKETBALL

The City Basketball League will meet to-night at the Y.M.C.A. and a large representation of teams is expected. The Collegiate team had a good work-out last night and will make a strong bid for the City League honours.

$200.00 in cash bonuses to be given away will make Dollar Day interesting.

SOCIAL AND PERSONAL

Mrs. Thos. Barrie will not receive to-morrow nor again this season.

Mrs. E. H. Boyle of St. Catharines is in the City, the guest of her parents.

Miss Masie Klingner of Toronto, is visiting her sister, Mrs. J. H. Renwick.

Mrs. W. J. Young, Frederick Avenue, will not receive to-morrow, (Thursday).

Miss Kathlene McQuaig, 474 Sherbrook Street, has returned after spending a month with friends in Maine and Marmora.

The home of Mr. and Mrs. E. G. Hardie, 317 Dalhousie Street, was the scene of a bright and merry party last night, when a company of about 24 young people paid a surprise visit. A most enjoyable evening was spent in games, dancing and music. Mr. J. Brown, with his violin, being a feature. The guilty parties gave their names as follows: Mrs. Preston, Mrs. A Hardie, Misses M. Hardie, Hawkins, W. Heaslip, G. Heaslip, Preston Hamilton, Libby, Munro, Laing, R. Waldie, M. Waldie and Messrs. Crowe, Cater, A. Hardie, McArthur, Brown, Smith, Munro, Wilson, Rack, Preston.

OBITUARY

WM. H. LANGFORD.

There passed away at his residence at Mount Julian on the evening of February the 19th, William Henry Langford, an old and respected resident of the Township of Burleigh, who was for many years a member of the Municipal Council of the united Townships of Burleigh, Chandos and Anstruther. He was born in Bath, near Kingston on July 13 in 1842, and was 72 years old. His youthful days were spent at Norham in the Township of Percy. In 1870 he married Emma Jane Church, and settled on Lot 6, Con. 4 in the Township of Burleigh. His wife died in 1889. He was later married to Maraha Megahy, who with one son, William, one brother, Robert, of Saskatchewan; one sister, Mrs. A. H. Smith, of Norham, are left to mourn his loss. The remains were taken to Norham for interment.

Injurious Insects: How to Recognize and Control Them—O'Kane.

THE WIZARDRY OF WIRELESS TELEGRAPHY

McClure's Magazine for March contains an article of unique interest in two respects. The article concerns a wireless invention by means of which "a boat without a soul on board, her lights blazing, her engine pounding, shooting out to sea at night with the speed of a railway train" is controlled by a young man at bay on the shore, behind whom are arranged the two greatest wireless masts in the world, a monster search-light and other apparatus which effects the elimination of the human element on board ship to a certain degree and opens up a system of coast defences by means of controlled torpedoes undreamed of even a few years ago.

The romance of the thing lies in the character of the inventor. He is John Hays Hummand, J., son of a wealthy American financier and mining promoter. As is the case with the sons of American millionaires, the every whim of this young man has been gratified by an indulgent parent, but in this instance the whims have turned him into a wizard of wireless whose pluck and dogged loyalty to scientific research make him second only to Marconi. Young Hammond at the present time is 25 years of age. He is the wonder of admirals and scientist. He has scientific secrets coveted by the gray-beards of Europe; he has never tackled anything which he has not solved.

His laboratories and wireless equipment are situated at Gloucester, Mass. From his lookout station, Hammond, or one of his assistants is constantly experimenting with the "Radio," the 40-foot craft with a guaranteed speed of 33 miles an hour. She is equipped with wireless masts. In the blackest night she is steered among buoys and other ships seven miles out into the ocean. She is turned at will to left or right, and from the description of her manoeuvres, she must seem like a thing possessed to the fisher folk of Gloucester.

The science of radio-dynamics or tetautomatics is that to which Hammond has devoted himself. The effect of the wireless waves upon certain sensitive plates and dials in the boat is so finely adjusted as to cause motors to operate. One turns a rudder, another sets the engines going at half speed, another at full speed, while another stops them. The boat works on its own power, the waves from shore being sufficient only to unlock the motor gates and let the current from the generators flow through.

Hammond has had years of perplexities to overcome, but his system is almost perfect now. He could send a torpedo out from shore controlled by wireless into a battleship before the battleship could come within range of shore. He foresees the time when an entire coast may be protected by a relay of stations such as his. He prophesied his own career, and on file at the Sheffield Scientific School was placed a statement by him to the effect that he would some day control a moving body at a distance by his voice. This he has also accomplished. His different achievements with wireless would fill a book, in fact he can cause what he calls an "electric dog," a box containing batteries and plates, to follow him all over the house.

Hammond stands out an heroic figure among the idle rich young men of the United States. His life devoted to science, he has won his goal, with the same mastery as the men of the stronger, earlier generation carried out their careers. The second generation of wealthy men in the United States appears to be taking life more seriously in general, and Hammond's accomplishment will be an inspiration to them.—London Advertiser.

MILLBROOK AND BAILIEBORO NEWS

Examiner Special:

MILLBROOK, March 4.—Mr. S. B. Collins was in Toronto last week.

Major Medd, of Peterborough, was out last week.

Mrs. T. A. Campbell has returned from New York.

Miss Carveth, of Lindsay, has been visiting Mrs. Carveth here.

Mr. J. J. McGill, of Cavan, has sold his store to M. McDowell.

Miss Bernister spent a few days last week at her home in Beaverton.

Mr. J. W. T. Todd has been visiting friends at Lakefield for a few days.

Mr. Andy Duncan, of Collingwood, is visiting Mr. and Mrs. G. A. Duncan.

Bailieboro News.

Mr. John Porter was visiting his sister, Mrs. McDonald last week.

Mrs. Farmer, of Millbrook, was out visiting her parents, Mr. and Mrs. Wm. Harmer.

Miss Ethel Nurse is the guest of Mr. and Mrs. John White.

Mrs. Porter, of Lakefield, is visiting her daughter, Mrs. Abner Wood.

Mrs. Smith, of Millbrook, was the guest of Mr. and Mrs. Harmer.

Mr. J. N. McGill and Mr. M. Carry took in the Horse Show in Lindsay last week.

Kenenth McBean was home from Trinity School, Port Hope, over the week-end.

Miss Maude Hunter, trained nurse, of Moriston, N.Y., is home for a few days.

Stock Markets

A. H. Stratton & Co., Brokers, report the following:

To-morrow promises a continuation of the inaction on the stock market on Tuesday and Wednesday. This outlook is due to the effect of the storm, which has restricted raiding and influenced professionals to bring reactions. The active list may sag until oversold but good stocks are a purchase on any drops. The Mexican developments are looked upon as likely to bring that problem to a head in the not distant future. The firm stand of Great Britain is something that was needed, according to diplomatic sources at Washington.

Comment on industrial stocks is lacking except as regards a few specialities which are handled by the pools.

Oil strikes are being hailed by these sources.

The Room traders have been selling Reading, United States Steel, Union Pacific, A C P, N H, N Y C, B O & R R, but only for small turns.

There is an undercurrent of bullish feeling among the professionals but they are inclined to work for activity at all times, regardless of the trend of prices. Good buying is found on weak spots.

A. H. Stratton & Co., brokers, report fluctuations in New York stocks to-day as follows:

A New Road Making Material

May Be Considered By the Board of Works Department

The regular weekly meeting of the Board of Works was held in the City Hall last evening. There were present: Aldermen Duncan (chairman), Stratton, Anderson, Duffus, McIntyre, Saunders, Green, Johnston, Mayor Buller, and City Engineer Parsons.

Mr. Sears, representing the Rocmac Roads Co., waited upon the Board with a view of interesting the members in the road-making material produced by that firm. Spring conditions will soon facilitate street-paving operations, that were suspended on account of the weather, to be recontinued, and should it be decided that more should be done, the work will be let by contract.

Rocmac is a chemical binder, the chief ingredient of which is limestone screenings. The action of the Rocmac is chemical, differing from Asphaltic Concrete in as much as the latter is mechanical in its action.

Large areas have been laid in North Toronto, where traffic is very heavy, and it was owing to the durable nature of the material that a further order had been secured. The cost of surface work would be approximately 55c per square yard, and a complete roadway could be laid for somewhere in the neighbourhood of a little over $1.00 per square yard.

Some of the members of the Board, who intended to go to Toronto shortly, will inspect the work that has been done in that city, and report back to the Board.

Home Rule Bill March 9.

LONDON, March 5.—The Home Rule bill will be read a second time on March 9. Mr. Asquith has promised to announce his suggestions for a compromise, two days will be allotted for discussion and then the debate will be adjourned while financial business is settled. It is nowhere expected that Mr. Asquith's suggestions will result in a settlement of the question.

The situation brings nearer the prospect of a general election, and it is the opinion that Parliament would be dissolved by June at the latest.

STATEMENT IS MADE

Evanturel Apologizes and Denies Knowledge of Wrong

"RESIGN," SAY THE LEADERS

TORONTO, March 5.—The Ontario Legislature made it plain yesterday that the only course open to Gustave Evanturel of Prescott is to resign. The long-awaited explanation came from him at the opening of the afternoon session, but beyond expressing his regret at the affair and apologizing to the House and the members for a slur he had never thought of casting upon them, the matter seemed ended as far as he was concerned.

The Government and Opposition, however, thought otherwise, and the suggestion was made and warmly endorsed that Evanturel's action could only be requited by his withdrawal from his seat. This was the opinion advanced by Hon. J. J. Foy for the Government and Mr. Rowell for the Opposition, and supported by the Opposition with clapping of the desks.

Mr. Evanturel's statement began with the excuse that the word "alliance" was used mistakenly, lack of knowledge of the English tongue having been responsible for his error. He had not understood the references of the member for Grenville and hence had denied them. For this he wished to apologize to the one who had laid the charges.

The position he applied for was not exactly understood by himself. He merely wanted to work for the liquor people. Further he had not stabbed his leader in the back in any sense, for Mr. Rowell had understood his position and so had his electors. He had maintained the same stand both before and after entering politics. If he had intended to injure the dignity of the House surely he would have gone about it in a more secret fashion. His sincerity and frankness in expressing regret for an unintentional action should weigh in his case, he thought.

Hon. J. J. Foy, on behalf of the Government, took the floor.

While he gave the member for Prescott credit for his apology to the House, Hon. Mr. Foy was of the opinion that a simple apology was not sufficient to meet the needs of the case.

"I myself," continued Mr. Foy, "think that he ought to resign his seat in the Legislature. He should consider whether he should do that or not, and if not then it will be the duty of the House and primarily of the Government to take some action in the matter."

The form such action should take Mr. Foy could not for the moment say. Now that Mr. Evanturel had acknowledge the letter, it rested with the House to take what action was proper.

Mr. Rowell spoke briefly in support of Mr. Foy's position. He had already personally suggested to Mr. Evanturel that he should resign his seat in the House, and wished now to express publicly his concurrence in the opinion of the acting Premier.

The budegt debate advanced another stage yesterday afternoon, with one Opposition and two Government speakers participating.

A. H. Musgrave (Centre Huron) resumed the debate and said he considered the province open to great congratulation. They were combatting unemployment by spending millions annually on good roads in the north and in general conditions there was not a province in Canada to compare with the prosperity of Ontario at the present.

J. C. Elliott (Lib., W. Middlesex) centered his attack on the method of accounting which showed a surplus. The good report of the Government, he said, had been made possible by using a large part of the cash on hand, and in this way was not warranted. Apparently no provision had been made for current expenditure.

One thing he desired to establish, namely, that there should be added to the estimated expenditure two and a half million of statutory expenditure. This would leave a deficit of nearly five millions. He also took exception to the Treasurer having included a large sum out of the T. & N. O. subsidy as interest. A part may have been justified, but the amount used certainly was not.

T. W. McGarry said the Government had taken up the burden of ancient sins and was doing well under it. He was not going to apologize for Government expenditure. It showed that they were serving the people in the very best way possible. The trouble with the Opposition was that they fell down on their bookkeeping.

The highest hotel in the United States will be erected in California at an elevation of 12,000 feet above sea level.

Instructions To 1914 Candidates

Following are the instructions to candidates for the 1914 Junior Public School Entrance and Junior Public School Graduation examinations:

To be read to Candidates by the Principal previous to the Examination:

1. (a) The Junior High School Entrance examination for 1914 will be held on the 17th, 18th, and 19th of June, and will be conducted under the provisions of Sections 44-47 of the High Schools Act and of the High School Regulations of 1913.

(b) The Junior Public School Graduation examination for 1914 will be held on June 15th-18th, and will be conducted under the provisions of Public School Regulation 19.

2. Candidates who purpose writing at either of the above examinations must notify the Public School Inspector, either directly or through the Public School Principal, before the 15th day of April.

3. No candidate shall be admitted to the Junior High School Entrance examination in the subjects of Group II. who does not present the certificate provided for in section 2 (2) (a) of the High School Regulations, page 101.

4. Where fees have been imposed as provided in Section 46, sub-section 5 of the High Schools Act, such fees shall be paid to the chief Presiding Officer before the close of the first day of the examination.

5. Every candidate should be in attendance at least fifteen minutes before the time at which the examination in the first subject is to begin, and shal occupy the seat allotted by the Presiding Officer. Any candidate desiring to move from his allotted place or to leave the room shall first obtain permission from the Presiding Officer to do so. Any candidate leaving shall not return during the examination in the subject then in hand.

6. Every candidate shall write his answers on one side only of the paper, and number each answer. He shall arrange the sheets numerically, according to the questions, and fold them once crosswise, endorsing them with his name, the name of the subject, and the name of the place at which he is examined. A paper shall not be returned to a candidate after being placed in the hands of the Presiding Officer.

7. Any candidate who is found copying from another or allowing another to copy from him, or who brings into the examination room any book, note or paper having any reference to the subject on which he is writing, shall be required by the Presiding Officer to leave the room, and his paper and the papers of all the guilty parties shall be cancelled.

8. In the case of the illness of any candidate or other unavoidable cause of absence from all or part of the examination, full particulars accompanied by a medical certificate should be submitted to the Entrance Board immediately at the close of the examination.

9. An appeal against the standing of any candidate should be made to the Entrance Board not later than October 1st. Such appeals should not be made to the Department.

Inspect Mount Royal Tunnel.

MONTREAL, March 5.—Numerous subjects relating to mining and metallurgical practice were discussed at the sessions of this, the second day of the annual meeting of the Canadian Mining Institute. This afternoon the visiting mining engineers were conducted on a tour of inspection through the new Mount Royal tunnel.

DOLLAR DAY
March 12th

Plans For The Disposal Plant

Were Submitted to the Provincial Board of Health

City Engineer Parsons was in Toronto on Tuesday last, and submitted the plans for the outfall sewage disposal plan to the Provincial Engineer. The latter expressed himself well pleased with them, but suggested one or two slight changes. This was practically an order which has to be complied with. For this work he would need some extra help for a few days.

This he was authorized to do by the Board of Works last night. The work will accordingly proceed at once.

Instructed to Write.

Mr. Parsons was also instructed to write to the C.P.R. Co. re the filling in of a portion of Romaine street, explaining exactly what the Board required. Among other things was a roadway 66 feet wide.

Crew of Schooner Saved.

PHILADELPHIA, March 5.—Captain Anderson of the Norwegian steamer Storstad, bound from Lisbon for this port, reported from Ready Island last night that he had on board the crew of the schooner Mattie W. Porter, who were picked up yesterday 170 miles southeast of Absecon. Nothing was said of the fate of the schooner, but it is believed she foundered during the recent blizzard. The Porter, a 28-ton vessel, carried a crew of eleven men and hailed from Somers Point, N.J.

Duke Again Grand Master.

LONDON, March 5.—The Duke of Connaught was last night re-elected grand master of the United Grand Lodge of English Freemasons. The Lord Mayor of London, who proposed the motion, paid a handsome tribute to His Royal Highness for the interest he had always taken in Masonry and for his distinguished services to the army and Empire.

MAY VOTE FOR EXCLUSION

Autonomy For Counties Said To Be Asquith's Home Rule Offer.

LONDON, March 5.—A. F. Nicholson of The Daily News, in his political notes this morning, says that the Cabinet decided yesterday what should be the Home Rule compromise to be put before the Commons on Monday.

Briefly, the Prime Minister's proposition, says Nicholson, will be that any county in Ireland which makes demand, after the passage of the Home Rule Act, but before the Irish Parliament is summoned, shall have the right to take a vote of the electorate within the county. If the majority favors exclusion from the act that county shall be excluded for a term of years, probably three. The proposal, it will be seen, is not confined to Ulster, but is general in its application. The scheme for some administrative autonomy, known as "home rule within home rule," the variation of the postal arrangements, or of the customs, the suggested increase in Ulster representation in either House of the Irish Parliament; all these ideas, which have been widely discussed during the winter, have gone definitely by the board, according to the writer.

The Daily Chronicle, which enjoys in a large measure the confidence of the Liberal Government, declares today that despite assertions to the contrary the Government has no intention of dissolving during the present year, and that the Ministers anticipate finishing out their full five-year term.

The Government, according to the paper, will introduce to-day (Thursday) for their first readings during the present session the Irish Home Rule bill, the Welsh Disestablishment and the Plural Voting bills, and expects to carry all three of them before the expiration of the present term of office.

May Have Scott Act Fight.

ST. MARY'S, March 5.—It is proposed by the Ministerial Association of the town to call a meeting to consider the advisability of submitting the Canada Temperance Act to a vote of the people for the County of Perth in the near future.

Service
Is Our Watchword
in the examination of the Eye—in the fitting of the proper Glasses—in the eyeglass mount or frame we fit you with.

MELANCHOLY WOMEN

Should Profit by Mrs. Hurley's Experience—Her Own Story Here Told.

Eldon, Mo.—"I was troubled with displacement, organic inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased once a month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world.

"After I had tried most every female remedy first, without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

Mr. Kennedy Griffin was a business visitor to Lindsay on Monday.

Mr. Clarence Laidley of Janetville, was in town last week calling on friends.

Famous "Pint of Cough Syrup" Recipe

No Better Remedy at Any Price. Fully Guaranteed.

Make a plain syrup by mixing two cups of granulated sugar and one cup of warm water and stir for two minutes. Put 2½ ounces of pure Pinex (fifty cents' worth) in a 16-ounce bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of $2. It never spoils. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold instantly, and will usually stop the most obstinate cough in 24 hours. It tones up the jaded appetite and is just laxative enough to be helpful in a cough, and has a pleasing taste. Also excellent for bronchial trouble, throat tickle, sore lungs and asthma, and an unequaled remedy for whooping cough and croup.

This recipe for making cough remedy with Pinex and Sugar Syrup (or strained honey) is a prime favorite in thousands of homes in the United States and Canada. The plan has been imitated, though never successfully. If you try it, use only genuine Pinex, which is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this recipe.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

Jr. II—Gerald Condon, Lillian Russell, Olive Russell.

Sr. I—Helen Moher, Willie Whibbs.

Jr. I—Percival Stenner, Mary Tobin.

Perfect attendance—Gerald Condon.

URIC ACID SUFFERING

Uric acid is an accumulation of poison which finds lodgment in the system when the kidneys fail to remove it from the blood. In the kidneys and bladder it forms stones, in the joints and muscles it causes rheumatism. In any case the pain and suffering is almost beyond human endurance. Uric acid is promptly removed from the system when the kidneys are kept healthy and active by using Dr. Chase's Kidney-Liver Pills.

KEENE NEWS

Examiner Special:

KEENE, March 4.—Last Wednesday evening at 6.30 o'clock a quiet wedding took place at the home of Mr. and Mrs. William Miller, when their youngest daughter, Miss Lizie, became the bride of Ernest Manley of Saskatchewan, The bride was costumed in a light blue silk with Marabout lace and seed pearl trimming. Rev. Goodwill performed the ceremony, after which hearty congratulations were tendered the bride and groom by the friends present. They were the recipients of beautiful and useful gifts.

Mr. Duncan McGregor of Toronto, was in the village a few days last week on business.

Mrs. T. B. Sharpe visited Toronto friends a few days last week.

Mrs. Andrew Rennie and mother, Mrs. H. Fletcher, were in Peterborough on Wednesday last.

Mr. Thomas Howson was in Peterborough on Friday.

The annual meeting of the shareholders of Keene cemetery will be held in the town hall, Keene, on Friday, March 6th at 2 p.m. to receive financial statement and transact other business. A full attendance is respectfully requested.

Miss Mary Wood who has been in Toronto the past three months, returned home last Wednesday.

Miss Alice Lumsden of Lindsay, is visiting friends in the village.

Mr. Hugh McFee and sister, Miss Hazel, visited friends at Norwood last week.

Mr. James Bryce of Peterborough, spent a few days last week with friends in the village.

Miss Susie Moore of Coldsprings, N. Y., is visiting at the home of her father, Mr. J. J. Moore.

Misses Lula Kerr and Marion Ashbrook of Peterborough, returned to their home last Friday after spending the past week at the home of Mr. Thomas Howson.

Miss Stella Cuffe of Villiers spent the week end at the home of Mr. H. McLachlan.

Mrs. Herbert Zambey is visiting friends at Peterborough.

Rev. Edmison attended the funeral of the late Rev. T. J. Mansell at Peterborough last Wednesday.

Mrs. Bull and sister, Miss Kate Nixon, of Winnipeg, were the guests of Mrs. (Dr.) Harrison the past week.

The manager of the rink will give the annual skaters' assembly dance on Tuesday evening, March 17th.

A pleasant forenoon was spent by the Keene curlers last Friday when three rinks of the Campbellford players came up for a friendly game. The line-up was as follows:

Campbellford		Keene
H. P. Lee		John Drummond
C. Booker		James McCarthey
A. Scott		Robert McIntyre
T. E. Gandrie		John Moore
Skip	..18	Skip ..9
Robert Brown		Nicholas Dorris
R. Dunk		Robert Nelson
G. Thomas		William Wedlock
F. E. Smith		Michael Kenneally
Skip	9	Skip ..9
F. Latrash		A. K. Edmison
G. E. Doxey		Jarvis Dickson
G. Haig		Frederick Kassone
N. J. Doxey		Robert McCamus
Skip	..13	Skip ..9

Campbellford 33, Keene 36.

Mr. Roy Kempt took a load of our junior hockey players to Hastings last Thursday night for a game with the Hastings juniors. We are sorry to state Keene was beaten by a score of 8 to 1.

A son was born to Mr. and Mrs. John McFarlane on Thursday, Feb. 19th.

Mr. and Mrs. John McIntyre left last week for their home at Edmonton after spending the winter with Keene friends

Mrs. Bessie Ross of Toronto is visiting at the home of her brother, Mr. William Wedlock.

Miss Short of Lang is at the home of her brother, Mr. Richard Short.

Mr. and Mrs. L. Burley visited friends in Peterborough on Tuesday.

Mr. Nicholas Dorris purchased a fine team of colts at the Braithwaite sale last Tuesday.

Miss Nellie Mather of Peterborough, visited Elsie Taylor over Sunday.

Dr. Halliday of Peterborough, was in the village on Saturday.

Mr. Thomas Nelson, who has been visiting friends at Lakefield, Peterborough and other opints, returned home on Saturday.

Mr. T. H. Apsley, Toronto, special agent for the Bell Telephone Co., and Mr. Doane of Peterborough, superintendent of the Bell Co. of this district, held a formal meeting with the commissioners of the Otonabee Rural Tel. Co. on Monday last.

Mr. and Mrs. John Kempt and children were in Peterborough on Saturday.

Mr. Campbell McIntyre of Moose Jaw, visited relatives in the village last Tuesday.

Last Tuesday night the rink was well packed to witness the hockey game between Keene and Hiawatha. It was interesting from start to finish and ended with a score of 6 to 5 in favour of the home team.

The junior hockey team had their return game with Hastings on Tuesday night, the home team beating their opponents 11 to 1.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only saved

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhœa. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought
In Use For Over 30 Years
THE CENTAUR COMPANY, NEW YORK CITY.

For detecting errors on the beds of machines which require great accuracy a machine has been invented which magnifies inequalities 500 times and shows them on an easily read scale.

In one of the cities captured by the Servians in the Balkan war the electric lighting system had not been completed and the task has been finished by the conquering army's engineers.

For handling heavy carboys of acids a framework has been invented to tip them over against a set of rockers, so curved as to return them to an upright position should a user's hand slip.

For transporting meat a refrigerator car has been invented in England that is claimed to maintain a temperature as even as in the more elaborate refrigerating plants of ocean going vessels.

Although Pittsburg ranks fifth among the cities of the United States for population, having only about one-fourth about as many residents as New York, it is the largest fuel consumer in the world.

A novel boat of French invention consists of two cigar shaped floats supporting a bicycle frame, on which the single passenger sits and drives the craft by pedals to an aerial propeller.

This Lady Knows How to Keep Well

She always keeps Gin Pills in the House

GLENVILLA, MAN.

"I think GIN PILLS are the finest things for the kidneys. When first I came to Canada, I suffered with dreadful Pains in my Back, that made me quite ill. A friend gave me six of your GIN PILLS and after I had taken one dose, I felt less pain. I then got myself a box and before half of it was gone, I had lost all the backache. It did seem a treat to be rid of the pain.

If any one tells me, what a pain they have in their back, I say "You should try GIN PILLS." MRS. J. PICKRELL.

Take Mrs. Pickrell's advice and take GIN PILLS. They will cure you of every trace of Backache, Kidney Trouble or Rheumatism. 50c. a box, 6 for $2.50—sent on receipt of price if your dealer does not handle them. Money back if GIN PILLS do not give prompt relief. Sample free if you mention this paper. National Drug and Chemical Co. of Canada, Limited, Toronto.

Mango-Tone Blood and Nerve Tablets correct Female Troubles and make pure, rich blood. 50c. a box. 20

WEEKLY SERVICE THROUGH LENT

To Be Held Tuesday Afternoon in Lakefield Church

Examiner Special:

LAKEFIELD, March 4.— Mr. Thos. Gordon left on Tuesday last for Toronto, where he will spend a few weeks visiting his daughter, Mrs. A. Record, and will then go on to Vancouver, B.C. to visit his son, Mr. Chas. Gordon.

Miss M. McDonald of Winnipeg, Man., arrived on Tuesday last to spend a few weeks in the village visiting his sister, Mrs. H. G. Fitzgerald.

Miss Ena Moore, who has been the guest of her uncle and aunt, Mr. and Mrs. A. D. Payne for a few days, returned last week to Hastings.

Mrs. O. A. Sawyers, who has been spending the past week visiting friends at Havelock, Kingston and other points, returned home on Friday last.

Mr. W. W. Leonard was in Toronto for a few days last week.

Mr. T. Z. Webster spent a few days last week visiting friends in Tillsonburg.

During Lent there will be service in the Old Church every Tuesday afternoon at half past four.

Mrs. O. A. Langley was in Peterborough on Monday.

Mr. A. A. Fleming of Montreal, spent a few days last week in the village.

Mr. H. G. Fitzgerald spent a few days last week in Toronto.

Miss Graham and Miss Patterson were guests of Mr. and Mrs. Warren Nicholls at Bridgenorth on Saturday last.

Mr. Harold Young of the Royal Bank staff, Toronto, passed through the village on Monday last on his return to the City after a short visit to his home at Young's Point.

Mr. Russell Joyce spent a few days last week in the village.

Mr. E. R. Tate spent a few days last week in Toronto.

The hen house belonging to Mr. Thos. Pettit was completely destroyed by fire on Thursday night, and with it, a number of valuable hens. There is no clue as to the origin of the fire.

The Peterborough Collegiate Institute hockey team played the Grove school team on Saturday at the Grove rink. The visitors were victorious the score being 3—1 in their favour.

The officers of the local branch of the Woman's Auxiliary met on Friday last at the residence of Mr. T. B. Marling to discuss business.

Mr. and Miss Harston of Peterborough were in the village on Monday.

LAKEFIELD, Feb. 29.—Mr. H. G. Fitzgerald spent a few days in Toronto this week on business.

Mr. A. Fleming left on Saturday for Montreal after a few days' visit in the village.

Miss Ena Moore has returned to Hastings after spending a few days with her uncle and aunt, Mr. and Mrs. A. D. Payne at "Hillcrest."

Mr. Thos. Gordon left on Tuesday for Toronto, where he will spend a few weeks visiting his daughter, Mrs. A. Record. Mr. Gordon will also visit his son, Mr. Chas. Gordon at Vancouver, B.C.

Mr. H. Leonard was in Toronto this week on business.

Mr. and Mrs. Fred Mason, who have been visiting in this section for the past two months, have returned to their home in Perry, N.Y.

The hen house belonging to Mr. Thos. Pettit was completely destroyed by fire on Thursday night about twelve o'clock. About twenty valuable hens were destroyed. The origin of the fire is a mystery.

What is Your Best Horse Worth to You?

Yet your best horse is just as liable to develop a Spavin, Ringbone, Splint, Curb or lameness as your poorest!

KENDALL'S SPAVIN CURE

has saved many thousands of dollars in horse flesh by entirely curing these ailments.

Carman, Man., Feb. 26th, 1913.

"I have used Kendall's Spavin Cure to kill several jacks, and removed a bunch of long standing, caused by a kick." BEN. GRAHAM.

Don't take chances with your horses. Keep a bottle of Kendall's handy, $1—6 for $5. Our book "Treatise on the Horse" free at druggists or

Dr. B. J. KENDALL CO., Enosburg Falls, Vt.

PRISON MASTERPIECES.

The Cells Have Given Us Some of Our Finest Literature.

Byron's famous poem, "The Prisoner of Chillon," is supposed to be written by Beauivard, the Genevan patriot, whilst he was incarcerated in the Chateau of Chillon, on the shores of the lake. But the poem was really written at lightning speed whilst Byron was imprisoned by inclement weather for a night and a day in the neighborhood.

Nevertheless, some notable literary achievements have been really written in jail, undoubtedly the most outstanding being two of the world's greatest classics, "The Adventures of Don Quixote" and "The Pilgrim's Progress." If only those two books had belonged to the literature of captivity they would have been sufficient to make that literature distinguished and immortal.

Thomas Cooper, the Chartist, whose life reads like a romance, and whose name is held in reverance by modern reformers, wrote a remarkable poem whilst he was lying in prison on account of his political agitation. This poem bears the remarkable title of "The Purgatory of Suicides," and when it was published it created a very considerable stir in the literary world, for it had emanated from the brain of a man who had begun life as a cobbler and had made himself master of the Greek language and literature.

Another remarkable poem written in prison is "The Ballad of Reading Jail," by Oscar Wilde, whose remarkable and most sombre book, "De Profundis," was also written there. These two books are amongst the saddest records in the history of literature.

It ought not to be forgotten that one of the greatest letters ever written was penned in a dungeon in Rome. This is the Epistle of Saint Paul to the Colossians, a piece of literature, quite apart from its sacred character, which is very hard to beat.

It is very seldom that a newspaper has been edited from the inside of a cell, but even this feat was accomplished by the late lamented W. T. Stead, who during the two months he spent in prison for an offence which many condoned and which a number admired, he wrote scores of articles and practically conducted his paper.

RUPTURE

(SEE DATES AT BOTTOM)

Truss Torture

Once Thought Necessary, but Now Very Soon Scrub for Relief is Ended.

Wonderful Method Retains Rupture Without Knife, Danger or Pain.

J. Y. EGAN, Specialist of Toronto

Old-fashioned truss torture is no longer necessary. Galling, slipping trusses and barbarous methods of treating rupture are done away with by the wonderful invention of a specialist who has devoted fifty years to this one affliction. The marvelous new EGAN "CURATRUS" gives to the ruptured instant relief, rest and security where all others fail. It stops all irritation and restores every part to its natural position as soon as it is used and for all time and old style trusses are thrown away.

"EGAN'S CURATRUS" cures are absolutely without operation and the cost is small.

Multitudes of cured men, women and children testify. Also endorsed by many physicians.

Where others fail is where I have my greatest success. Nothing complicated, no pain or irritation, but just a natural retaining method.

Immediate relief guaranteed. No fakes or lies—just straight business. Do not lay this aside, or delay, but tear off free coupon now.

Free Consultation Coupon.

This coupon, upon presentation to J. Y. Egan, rupture specialist, (office, No. 209, 14 East King Street, Toronto) who will visit the towns on dates mentioned below, will entitle bearer to free consultation and examination of samples. Ask at hotel office for number of sample room. Note dates.

Lindsay, Benson House, March 9th & 10th. Peterboro', Oriental Hotel, Wednesday & Thursday, (all day and night) 2 days only March 11th & 12th, Campbellford, Windsor Hotel, March 13th.

HEART WAS SO BAD
Could Not Do Her Housework

Many women get run down and are unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. Thomas Melville, Saltcoats, Sask., writes:—"I thought it my duty to write and tell you how much your Heart and Nerve Pills did for me. My heart was so bad I could not sleep, eat nor walk about the house. I could not do my housework at all, and what my husband could not do had to go undone. I had two small children depending on me besides three men to cook for, and it worried me to not be able to do anything. My husband had taken some of your pills some years ago, and insisted on me trying them, so I started, and before I had taken them two weeks I was considerably better, and before I had taken two boxes I was doing my own work again. Any one suffering from heart or nerve trouble should just give your pills a trial. If anyone cares to write me I will gladly give them all the information I know concerning your wonderful medicine."

Milburn's Heart and Nerve Pills are 50 cents per box, or three boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In an Egyptian Room.

Soft rugs—real oriental rugs—comfort one's feet; vistas and glimpses of things half seen through arches and doorways soothe the eyes. Oh, those half concealed nooks behind screens of tall palms, where one finds a luxurious couch and inlaid taboret and sips his tiny cup of Turkish coffee! A dragoman comes into the lobby with a bunch of luscious La France roses in his bronzed hand. The porter, in gorgeous livery of green and gold, motions him to an Arab servant in starchy white, with broad red girdle and tarboosh, and golden hoops in his ears. On the second floor, as you go to your room, every servant on guard along the corridor rises and salutes as you pass, and you feel you really are somebody worth while—you get a little better opinion of yourself.—Hubbard's Life.

Measles and Morals.

Miss Rosamond Napier, in "Tess Harcourt," has this little gem of a story:

"Another little boy to see you, miss," said old Robson, the butler, to Tess.

This was a very fiery red but clean little boy, holding tightly a book covered in black cloth.

"Well, Tommy?"

"Please, miss, I've bringed back the Mary book as you give Sunday, as we've got measles."

Tess beamed all over her face. At last her words were bearing fruit.

"Good boy, Tommy!" she encouraged. "Who has got them in your house?"

"Me, miss, please. I broked out Tuesday."

Oratories in English.

Speaking of the wonderful enunciation of Miss Reeves, Sir Frederic Cowen relates an anecdote illustrative of the opposite effect. "One could always understand what he was singing about, not like a certain other artist of the time (it is true she was German), who invariably turned the words of Mendelssohn's 'Oh, for the wings of a dove!' into 'Oh, for-ty winks, for-ty winks!'"

108

NOX A COLD

IN ONE DAY

Refuse imitations. Every bottle has the number and wording, 108 Nox a Cold. This is the greatest and most wonderful of all cough medicines, 25c. and 50c. per bottle at all drug stores.

Warne Drug Co., special agents.

Sacred Deer.

From time immemorial deer have been held in reverent regard by the Japanese. Herds are kept in enclosures, and the highest respect is paid to the animals. In olden times the shogun gave the people such a strict order to protect the sacred animals that if any one happened to injure or kill them he was put to death on the spot. It was a period of terror. Even at the present day the deer are so tame and abundant, in the shrine grounds that they in the weather stroll round to the streets by the grand three-and surround passersby, asking for food and even taking the persons sleeves in their mouths affectionately. Once a year some of the deer are caught by means of a net with a handle by several fathers in service at the Kasuga shrine office and taken to an inclosure, where their splendid horns are cut off with a saw, while a crowd of spectators watch the work with breathless interest (admission 10 sen, equal to about 5 cents). This done, some of the sacred horns are, as a custom, awarded to the spectators by means of lottery.

Disillusion.

The unmarried woman who shall be the subject of this anecdote was fixing herself up to go out in the evening. A certain man was going to call for her, and though the occasion was somewhat spoiled by the fact that they would have to take her little niece along she nevertheless took the usual care of her complexion, hair and eyes, for the man was trembling on the verge of a proposal. The trio—auntie, auntie's beau and auntie's niece—walked along the street until they came to one of those all night photograph galleries. You know how awful a person looks standing in the ghastly glare of the mercury tube lights that they put in the windows of such places? Well, they paused in that awful greeny-yallery light. And the little niece said to auntie's beau:

"Ooo-ooh, look! Auntie looks just like she does when she first gets up in the morning!"—Cleveland Plain Dealer.

Sitting Cross Legged.

Fully 80 per cent of the men and women who travel in the trains and street cars sit cross legged, and this habit is responsible for many ills, according to a prominent London physician. The prime objection against this habit, he says, is that the return flow of blood from the leg is stopped at the knee, the result being that the veins in the leg swell up. All the weight is thrown on one side of the body, and the under leg goes to sleep owing to the pressure put on the sciatic nerve. The body should be equally balanced. Then there is another danger. Too much crossing of the legs is sure to bring lopsidedness. Let the legs rest limply. In that way the muscles become eased, while the flow into and the return of blood from the legs is naturally done and the body is equally balanced.

Rats as Food.

Rats form a favorite dish in China split open, dried, pressed and powdered with a finely ground white bark, they look somewhat like haddocks as they hang in long strings over butchers' stalls. Dr. Arthur Stradling once declared that "rats would be not only wholesome, but very nice, if properly prepared—not common sewer rats, but such as I ate, hand fed animals snared in a hop garden. The flesh, though perfectly white, was dry and tasteless. But then they were only skinned, cleaned and submitted to the fire without any of the et ceterns which make other meats savory. Admiral Beaufort and other arctic explorers speak highly of rats as a wholesome addition to their supply of food in those dreary latitudes."—Chicago News.

Easy Economy.

Speaking of economy in the home, a prominent charity worker said:

"There was a lot of truth in the remark of the poor, harassed east side housewife whose husband complained:

"'I wish you would be more economical, Mary. Look at the boss' wife, how economical she is!'

"'Yes,' Mary replied, 'it's easy enough for the boss' wife to be economical. She's got plenty to be economical with!'"—Exchange.

A Really Wonderful Messenger

There's a messenger ready, close at hand, to do your bidding—one that acts quickly, efficiently—one that goes straight to the mark and reports results almost instantly.

A messenger that will summon landlords and tenants in conference and bring together those who have kindred interests in buying, selling, renting, hiring and exchanging.

A messenger that will ferret out the really good jobs for the really good workers and lay before the ambitious and capable opportunities for advancement and gain.

Would you summon such a messenger to do your bidding? Then take full advantage of

With many devices for lessening shocks an automobile has been designed especially for transporting nitroglycerine in the Oklahoma oil fields.

For propelling boats a Frenchman has invented paddle wheels which may be attached to any boat pulling it oarlike handles.

An absorbant pad, to hold water for moistening postage stamps on envelope flaps, that is fastened to the back of a person's hand has been patented.

Discoveries of extensive deposits of limestone and silica in the Philippines have led to the formation of a company to manufacture cement there.

Automobile builders claim that more power is being developed in the United States by motor engines than in all the commercial steam power plants.

Five new French battleships will have both turbine and reciprocating engines, the former for speed and the latter for cruising, on economic fuel.

Here is the Secret of Long Life

While looking forward to health and long life it is possible that you are unaware of the conditions necessary to attain healthful old age. Careful eating, and consequent preservation of the health and vitality of the digestive and excretory organs, is of the greatest importance.

Overeating is the usual cause of torpid, sluggish liver action, and when the liver fails additional work is thrown on the kidneys and they break down. Kidney disorders are the great source of suffering in old age. Rheumatism, bodily pains, aching arms and legs, backache and lumbago are the result.

By the use of Dr. Chase's Kidney-Liver Pills to regulate the liver, kidneys and bowels, as occasion requires, you not only overcome the suffering, inconvenience and unpleasantness of attacks of biliousness, indigestion and constipation, but you actually prolong life by keeping these organs in good, healthful condition. This medicine is a wonderful source of comfort for people in old age.

IDEAL WIVES.

Well-Known Novelists Views on Desirable Women.

Tastes, of course, differ, but some men appear to want a wife who never existed except in romantic dreams. She must be a model of all virtues and possess no failings. She must be "so pretty that we are always proud, and so good that we are never uneasy; a woman who wears well and looks her best in two-year-old gowns; who applies the adjective important in relation to our work, our food, and our desire for unfettered holidays; who laughs at our jokes and preserves a marble face when we are scored off by others; with whom we have the massively comforting sensation that she will never recognise the plain, staring fact that we are not brave, not wise, no; kind, not clever."

The words quoted are those of that popular novelist, Mr. W. B. Maxwell, and "the astounding, incredible thing," he concludes, in his comments on the sort of woman a man likes, "is that, wanting all that, we sometimes get it."

A truer note, perhaps, is struck by Mr. Joseph Hocking who, after remarking that a woman a man does not like is the political woman, says:

"Man's ideal of womanhood, so far as I know men, is suggested by the old-fashioned word 'womanliness.' She is a sympathetic companion, one who desires to share in the joys and sorrows of her husband. She is a lover of home and children, and finds her greatest joys by her own firesides. She is far removed from the creature whose main thought is her own pleasure. Whether she is intellectual or not I do not think of great importance, but she must be pure in heart and life, and, like Dickens' Agnes, hers must be the 'hand that ever points upward.'"

And both Mr. Coulson Kernahan and his friend, Mr. Max Pemberton, agree with Mr. Hocking. The former, in a Strand Magazine symposium, quotes G. H. Lorimer, the well-known American editor and author, who has given it as his opinion that "Marriages may be made in heaven, but most engagements are made in the back parlor with the gas so low that a fellow doesn't really get a square look at what he is taking."

"But," comments Mr. Kernahan, "the woman that the majority of men like may be dark or fair, tall or short, plump or slim, so long as she is, before all things, womanly." And most readers will probably agree with Mr. Max Pemberton, who gives it as his opinion that men want "chiefly a womanly woman. She must be," he says, "the woman in all the world for him, and he must be conscious of the fact. It is quite impossible for one man to convince another that any particular type of beauty is an element in the mystery of love. The appeal is from the soul of the woman to the soul of the man. Nevertheless, it is the quality of womanhood, of gentleness and patience and capacity to love, that is the supreme thing."

Mr. E. Temple Thurston is somewhat severe on his own sex. "The kind of woman a man likes," he says, "is the woman who can minister to his selfishness without obliterating herself, who can listen to his egotism without making him feel he is monopolizing the conversation, who can clothe his thousand faults with the desire to win to his few virtues; she who can be mother and child, mistress and wife, friend and counsellor to his countless inconsistencies."

DR. A. W. CHASE'S CATARRH POWDER 25c

is sent direct to the diseased parts by the Improved Blower. It cleanses the air passages, stops the nasty dropping in the throat and permanently cures Catarrh and Hay Fever, Hdc. a box; blower free. At dealers or Dr. A. W. Chase Medicine Co., Toronto, Can.

OUR DAILY SHORT STORY

TALE OF AN ANTIQUE RUG

"I am a prayer rug—an "antique Ghoordes," my master calls me—and I lie in a corner of the library before the shelves that hold his choicest books.

This morning sunshine enveloped me in a rich flood of yellow splendour; in the evening the blazing logs in the fire place caress me with flickering shafts of golden light; at night I lie in the soft daintiness and dream happily of the days of my youth.

Allah is good. I am content.

I was an old rug worn smooth by the bare feet of the faithful, even before I was taken from the temple and brought to this strange country across the seas. For months I lay in the dark, evil-smelling places, before that day when I found myself once more in the blessed sunlight, amid a babel of strange sights and sounds. The worshippers of this strange temple swayed and jostled each other noisily—the priest waved his arms madly. "Going—going—gone," he cried. 'Going—going—gone!"

Aside from the crowd in the corner where I lay, two men were standing. One talked earnestly to the other, who listened with a certain embarrassment.

"Tell her what you have told me," said the first. "Go home to her now. Get down on your knees and tell her that you've made all kinds of an ass of yourself and you know it. Beg for her forgiveness. Beg, for the boy's sake, to be allowed to try again."

The other man flushed dully. "I have not been home for weeks," he said huskily. "I couldn't. "I've done about all the evil a man can do except that. "I couldn't go from that other crowd to her and the boy."

"But you are done with all that now," protested the first eagerly. "You have had your fling and you've found it yields nothing but Dead Sea fruit in the end. It isn't too late to go back. "She will forgive you."

"How can I ask her to?" said the other wearily. Think of the grievous wrong—"

Just here I was taken up and carried over to the priest, who held me aloft in his arms while all the people craned their necks and jostled each other in the effort to get a better view.

"An antique Ghoordes prayer rug," chanted the priest. "A sapphire on an opal ground. A rug that is to other rugs what rubies are to other precious stones—rarer, more brilliant, more costly. Notice the harmony of the contrasting colours—the mosaics of the borders—the splendour of this superb antique prayer rug?"

Then the tide of the shouts of the devout broke against the priest's chant, and in its midst I found myself carried once more to the corner where the two men stood. They examined me carefully. The face of the one who had held back was flushed and eager.

"This is the anniversary of our wedding day," he said to the other, "and I will do it. I will go now. I will take her this rug as a thought of the anniversary, and on it, where so many prayers for forgiveness have been offered, I will offer mine."

"Oh, Allah! Be careful!" he added under his breath.

So I went with him to his home and he let himself in gently with his latch-key and tiptoed to the library, and laid before me the fire. Then he touched a bell.

"Is Mrs. Wharton at home" he asked the man who answered his ring, and his voice trembled in spite of his effort to steady it.

The man eyed him curiously. "No, sir," he said ,respectfully. "Mrs. Wharton and Master Edward 'as been gone, sir, some days."

"Mrs. Wharton left a note, and there is other mail," he added, placing a sheaf of letters on the table and retiring with a bow.

My master tore open the small square envelope on top and his face went ashen gray. "I have warned and prayed and entreated," he read dully, "and now I have gone where I shall at least be spared the insult of your presence. You have ruined my life—and your own—but the boy shall be saved."

Under the small square envelope was a long, white one. "Her lawyers," he repeated monotonously, opening it and stumbling mechanically through its legal phrasing.

Then he threw himself in a chair and buried his face in his arms on the table.

"Oh, my God!" he sobbed brokenly. "Oh, my God!"

After that night I did not see the master for many months. Then, one evening, he came into the library, looking older and sterner, with deep lines in his face. After that he spent nearly all his evenings in the library, sometimes with friends, but oftener alone, reading—or just staring straight ahead into the fire. So the days rolled into weeks and the weeks into months and years until one evening the master came and stood for a time looking at the picture of a woman and a boy on the mantel. "Three years to-night," he said, slowly, "three long years."

The curtains of the doorway parted and a woman came forward partway into the room, a slender, graceful woman, who carried her head hautily, although her lips quivered with nervousness.

The master turned abruptly.

"Elisabeth!" he cried.

"You are surprised to see me here?"

"Elisabeth!" he said again in dazed astonishment: then—"The boy? what is wrong with the boy?" he cried sharply.

She blushed painfully. "It is because of him, I am here; he has some claim on you still even though I—have none.'

She stopped abruptly and walked over at the fireplace, then turned and looked at him with proud, appealing eyes.

"I have not money enough to educate the boy properly," she said simply, "and there is no one I could come to but you—his father."

He did not answer her, but with one quickr step forward took her hands in his.

"Elisabeth," he said, almost fiercely, "I love you—I want you!"

Trembling, she leaned against the table.

"Love me? After all I did—the divorce—the boy?"

"The fault was mine. I loved you through it all. I have always loved you—I love you now—".

He looked searchingly at the sweet averted face, then with a quick, happy, movement drew her close.

"It was not until afterward—that I knew—how dearly I loved you," she said, with a little catch, like a sob, in her voice.

That was the dawn of a new era. The old silence is gone and laughter and the soft sound of happy voices echo through the house. I am fond of them all; the master with his merry laugh—the mistress with her soft dark eyes and gracious ways—the boy, who brings in troops of his admiring friends to see me.

If I sometimes long for the days of my youth—for the silence of the temple and the prayers of the faithful, what would you?

Allah alone is perfect.

I am content.

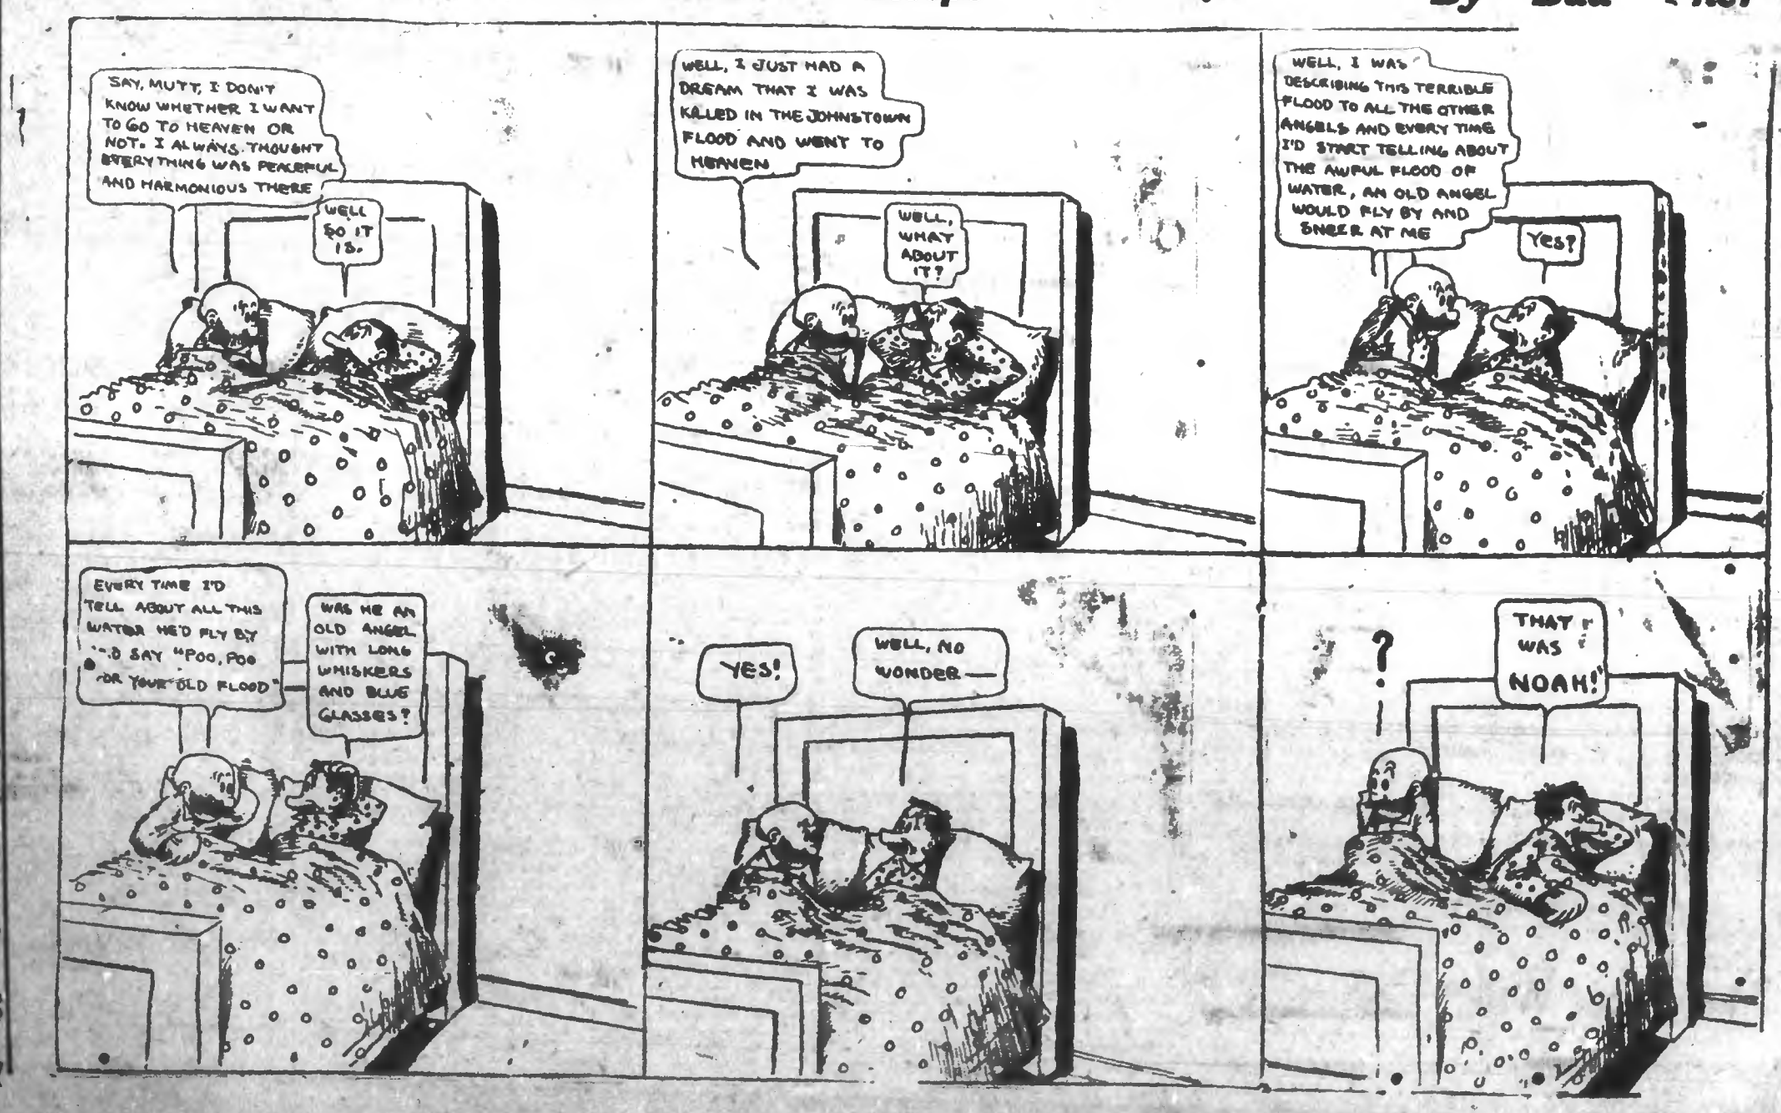
Jeff Has His Troubles Even While He Sleeps -:- By "Bud" Fher



LAXATIVE FOR OLD PEOPLE—"CASCARETS"

Salts, Calomel and Pills Act on Liver and Bowels Like Pepper Acts in Nostrils—Danger!

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

Engineer Averted Disaster.

PETERBORO, March 5. — The C. P. R. express No. 34, running from Toronto to Ottawa, had a miraculous escape from disaster yesterday morning. When it arrived here one of the axles on the front truck of the engine had become heated. The engineer thought the axle too hot to proceed with, so arrangements were made to have the mogul of a passing freight haul the express. The regular passenger engine was uncoupled and started to run to the freight sheds spur when the axle snapped, causing a wheel to fall off the engine.

Left to Itself Eczema Spreads

When left to itself, eczema, as a rule, runs on indefinitely. Even with careful treatment it is often obstinate in resisting curative measures.

The cause is often difficult to find, but you can readily obtain relief from the dreadful itching by the application of Dr. Chase's Ointment. This treatment cleanses the sores and soon sets up a process of healing which leads to complete cure.

Patient and persistent treatment is necessary in severe cases, but as you can readily see the improvement from day to day as Dr. Chase's Ointment is applied you will be encouraged to keep on until you have driven out the disease and restored natural, healthy skin.

Attention to the genral health is advisable in order that the cure may be lasting, but you can depend on Dr. Chase's Ointment to stop the itching and heal the skin. So well does it accomplish this that many cures it brings about are almost like miracles. Put it to the test and you will be surprised and delighted with the results.

6564

No. 6,564, Nurse's Dress.

This frock has been specially designed for the use of trained nurses, but is suitable also for children's nurses and for a home dress. The body and sleeves are in one and the waist is absolutely plain. It may have a band or a soft collar at the neck. The four gore skirt closes in front and may have high or normal waistline.

The dress pattern, No. 6,564, is cut in sizes 34 to 44 inches bust measure. Medium size requires 4¼ yards of 44 inch material.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

PLEADS FOR GIRLS

Miss Ratte Tells Social Service Congress of Her Work

BIG AUDIENCE IS THRILLED

OTTAWA, March 5.—The great social congress of Canada was thrilled yesterday afternoon by a woman as not even the speeches of the leaders of Canada's national life and the thoughts and eloquence of the eminent speakers who proceeded her at the previous sessions, succeeded in doing. It was during the consideration of commercialized vice and the white slave traffic.

The speaker, who for a quarter of an hour made the big audience of men all astounded, women and girls frequently breaking into exclamations and tears, was Miss Marie Christine Ratte, Toronto, general supervisor of redemptive work for girls in the Presbyterian Church.

"Under the shadow of the towers of Parliament in your beautiful city of Ottawa," she said, "I went out after taking up my work, and in a house found eighteen girls, the youngest 16. Next door I found nine in a house. I tried to talk to them; to find out about them, but they told me they were not supposed to talk, and although I did find out, I was warned not to say anything, but I did say something."

In British Columbia it was the same and in Winnipeg, too.

"In the Winnipeg rescue home there is a mother of thirteen, fifteen, and up. Have you ever thought what the world means to those women abandoned by man?"

"I would suggest that no young girl be brought to Canada without proper protection. The agencies bringing these girls here do not offer any protection. There is a law for those girls who are seduced, but there is no law to protect those domestic servants who are wronged."

TO FIGHT FOR MONK'S SEAT.

Government Will Be Bitterly Opposed By Nationalists.

MONTREAL, March 5. — The by-election in Jacques Cartier to elect a successor to Hon. Mr. Monk will probably be bitterly fought between the Government and the Nationalists. Mr. Monk was allied with the Nationalists, and his influence will still be felt on polling day.

Henri Bourassa is being urged to run in opposition to the Government candidate, but Armand Lavergne the Nationalist lieutenant, who no long age announced his intention of quitting the Legislature for Federal politics, may consider the present time opportune make a change.

L. T. Marechal, K.C., who has frequently been spoken of as likely to enter the Dominion Cabinet, will, it is expected, be the Conservative candidate. Whether the Liberals will also enter the race or leave the Conservatives and Nationalists to fight it out remains to be seen."

VICTIM OF X-RAYS.

Pioneer Manufacturer of Tubes Dies of Carcinoma.

HARTFORD, Conn., March 5.—Harry Green, pioneer manufacturer of X-ray tubes, died at his home here yesterday of carcinoma of the liver, induced by X-ray poisoning. He was born in England 54 years ago. He developed the first focussing tubes to be successfully operated, and gave many public demonstrations, later beginning the manufacture of tubes on a commercial basis.

John L. Bauer, a glass blower, who aided him in the development of the tubes, died from the same disease in 1906. Mr. Green's health became affected the year previous.

A medical journal has an article on "How to Lie When Asleep." Of more value would be an article on how to induce people to tell the truth when awake.

Piles Quickly Cured At Home

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

The Pyramid Smile.

Many cases of Piles have been cured by a trial package of Pyramid Pile Remedy without further treatment. When it proves its value to you, get more from your druggist at 50c. box, and be sure you get the kind you ask for. Simply fill out free coupon below and mail to-day. Save yourself from the surgeon's knife and its torture, the doctor and his bills.

FREE PACKAGE COUPON

PYRAMID DRUG COMPANY,

402 Pyramid Bldg., Marshall, Mich. Kindly send me a sample of Pyramid Pile Remedy at once by mail, FREE, in plain wrapper.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 50 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Hundreds of Sheep Devoured.

ROME, March 5.—Hordes of starving wolves driven from the Apennine mountains by the heavy snows descended yesterday into the valleys of the Abruzzi provinces and in the vicinity of Rome and devoured hundreds of sheep.

The wolves afterwards took refuge in the caverns of Mount Soracte about 25 miles north of Rome. Parties of armed peasants have gone to hunt them, and according to the latest reports have killed a large number of the animals.

Preston as Biographer.

LONDON, March 5.—The C. A. P. learns that W. T. R. Preston, a well-known late official under the Department of Trade and Commerce, who now resides here, is preparing a life of Lord Strathcona, based on the author's own records. The work will shortly be ready for publication.

NEGLECT IS THE CAUSE OF GRAY HAIR

Easily Corrected If You Only Will.

No woman nowadays need lose the charm of her rich, lustrous hair with advancing years. Grey and faded hair destroys a woman's charm as nothing else will do.

It seems a shame that any woman should suffer the annoyance of grey hair when it is so easy to restore it to its natural colour.

Hay's Hair Health is so simple and easy to use and so sure in its results that no woman can afford to overlook it. It is not a dye, just a real tonic that brings new life and vigour and that natural coloured healthy look to the impoverished scalp and hair roots, restores the original, natural colour of the hair. It removes dandruff.

Your money will be refunded to you if it fails after a fair trial.

$1.00, 50c, 25c. Get it at our store. **For sale and recommended by the Warne Drug Co.**

Fielding to Edit Financial Paper?

MONTREAL, March 5.—Montreal is to have a new daily paper if rumor is to be believed. It is stated on good authority that the new venture will be of a financial nature, and that Hon. W. S. Fielding is to be the editor-in-chief. Jack Ross is said to be one of those interested. The capital is set at $300,000, and it is added that the paper will be published in the offices of The Industrial and Educational Press.

Murray To Go To South Africa.

LONDON, March 5. — Sir James Wolfe Murray, a descendant of Col. Murray, in whose arms Gen. Wolfe expired, has been appointed commander of imperial forces in South Africa. Sir James, who is in his 60th year, distinguished himself in the South African war.

No Infantry at Barrieifeld.

KINGSTON, March 5.—It has practically been decided there will be no infantry camp at Barrieifeld this year. Three rural brigades will go to Petawawa in June instead of Kingston. Companies of city corps will constitute a composite brigade which will train there the last five days of camp.

May Treble Commissioner's Salary.

OTTAWA, March 5.—The salary of the High Commissioner for Canada in London is quite likely to be raised. Heretofore it has been $10,000 a year, but Lord Strathcona, because of his great wealth, did not draw any salary at all. There is now talk of making the figure $25,000 or $30,000.

Hackett Is Left a Fortune.

NEW YORK, March 5.—A fortune of $1,500,000 has been left to Jas. K. Hackett, actor, from the estate of his aunt, Mrs. Minnie Hackett Trowbridge, who hated him cordially in life and made no attempt to conceal it. Her will left the money to her husband. He is dead, and the million and a half goes to Hackett automatically.

THE MARKETS

CHICAGO, March 4.—Bears ruled in the wheat pit today with the aid of lower cables and of optimistic reports concerning the winter crop. The market, altho firm at the close, was ⅛c to ¼c down.

Liverpool wheat closed ⅛d lower; corn, ¼d lower.

Flour—Fancy patents, $4.65 in wood; first clears, $3.45 in jute; second clears, $3.60 in jute; shipments, 61,300 bbls.

Bran—$23.

DULUTH GRAIN MARKET.

DULUTH, March 4.—Close—Wheat—No. 1 hard, 92¾c; No. 1 northern, 92¼c; No. 2 do., 90¼c to 90⅝c; Montana No. 2 hard, 89¼c; May, 92¼c; July, 92½c.

CATTLE MARKETS

UNION STOCK YARDS.

TORONTO, March 4.—Receipts of live stock at the Union Yards were 43 carloads, comprising 559 cattle, 866 hogs, 31 sheep and lambs and 94 calves.

Butchers.

Choice butchers sold at $7.70 to $8; good, $7.40 to $7.60; medium, $7 to $7.25; common, $6.50 to $6.75; choice cows, $6.75 to $7; good cows, $6.50 to $6.75; medium cows, $6.50 to $6; common cows, $5 to $5.50; canners and cutters, $3.75 to $4.50; bulls, choice, $7 to $7.50; good bulls, $6.50 to $7; medium, $. to $6.50.

Stockers and Feeders.

Choice steers, 800 to 900 lbs., are worth $7 to $7.40; medium to good steers, $6.60 to $6.75; stockers of light weights are slow sale at $5.75 to $6.25.

Milkers and Springers.

Choice fresh milkers and forward springers are in good demand, but backward springers are slow sale. There was a moderate run yesterday, which sold at $60 to $110, the bulk at $70 to $95.

Veal

Receipts of calves were again light and prices ruled firm. Choice veal calves, $10 to $11; good, $9 to $10; medium, $7.50 to $8.50; common calves, $5.50 to $7.

Sheep and Lambs.

The sheep and lamb market was firm. Sheep, light ewes, sold at $6.50 to $7; heavy ewes, $5.75 to $6.25; rams, $5.25 to $6.25; heavy lambs, $8 to $8.75; choice lambs, $9 to $9.75.

Hogs.

Selects, fed and watered, sold at $9.25 to $9.50.

MONTREAL LIVE STOCK.

MONTREAL, March 4.—There was no further change in the condition of the market for cattle, prices being steady at the decline noted on Monday because of the smaller offerings. The demand from both packers and butchers was limited because of the Lenten season and the fact that they provided for their wants for the week fairly well on Monday, therefore trade was rather slow and some were left over for next week. A few choice steers sold at $8.25 to $8.50, hoof at $7.75 to $8, fair at $6.75 to $7.25 and the commoner grades at from $4.75 to $6 per 100 pounds. Cows brought from $4.50 to $7 and bulls from $5 to $7.50 per 100 pounds. There is a steady demand for milch cows, of which offerings are small and prices in consequence remain very firm, with sales of choice milkers at $100 to $110, good at $80 to $90 and medium at $70 to $75 each.

In spite of the advance of 25c per 100 pounds in the Toronto market yesterday for live hogs, there was a more pronounced weakness in the local market today, and prices declined a further 15c to 25c per 100 pounds because of the more liberal supplies coming forward.

The demand for calves was fair at prices ranging from $3 to $12 each as to size and quality.

EAST BUFFALO LIVE STOCK.

EAST BUFFALO, March 4.—Cattle—Receipts, 150; slow.

Veals—Receipts, 25; active and 25c higher; $6 to $12.

Hogs—Receipts, 7000; slow and steady to easy; heavy and mixed, $9.10 to $9.15.

Next To Consumption.

There Are More Deaths From PNEUMONIA Than Any Other Lung Trouble.

Pneumonia is nothing more or less than what used to be called "Inflammation of the Lungs."

Consumption may be contracted from others, but as a rule pneumonia is caused by exposure to cold and wet, and there is only one way to prevent pneumonia, and that is to cure the cold on its first appearance.

Dr. Wood's Norway Pine Syrup will do this for you if you will only take it in time.

Mrs. Wm. M. Steeves, River Glade, N.B., writes:—"Please allow me to express my gratitude for the presence of Dr. Wood's Norway Pine Syrup in the house, for I believe it saved our little boy's life. Three years this fall we were in the lumber woods, and it was very hard to get a doctor to us, and our little boy got pneumonia, and was very ill. The only relief he could get was to take Dr Wood's Norway Pine Syrup, and with the combined use of the Syrup, and your British Troop Oil Liniment, he soon got better, and was around in a couple of weeks. It certainly is a great remedy."

Price, 25 and 50 cents.

Be sure and get "Dr. Wood's" when you ask for it. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Norwood News Of Interest

Presentation to Mr. and Mrs. Joseph Reynolds, Who Are Leaving for the West—Other News Items

Examiner Special:

NORWOOD, March 3.—Mr. Spotton, Inspector of High Schools, visited the Norwood school last week.

Dr. and Mrs. Sutton were guests last Wednesday of Dr. and Mrs. Neal, Peterborough.

Scott, Canada; F. Nicoll, pennant girl; Edith Puffer, Yankee girl; Doris Patterson, Starlight; Henry Rorabeck, hockey player.

Mrs. Lawlor, Miss Hugill, Rev. Father Kelly and Mr. J. R. McKelvie were judges for the evening.

On Wednesday evening the ladies of the Presbyterian church will hold a social at the home of Mr. Thos. Lord, Asphodel.

Mr. A. J. Raddon of Peterborough, spent Sunday in town.

Mrs. Bice of Allan Craig, who was here for the funeral of her sister, Mrs. (Rev.) Lowe, has returned home. She was accompanied by her niece, Miss Jean Lowe, who will remain with her for a time.

Another social under the auspices of the Methodist Church was held on Tuesday night at the home of Mr. J. Comstock, Asphodel.

Mr. and Mrs. Joseph Reynolds and daughter, Mrs. A. Gyte, left this week for the west. On Wednesday, previous to their departure, a number of friends and neighbours assembled at their home and presented them with a beautiful silver tea service, accompanied by the following address:

Dear Mr. and Mrs. Reynolds,— It was with a feeling of deep regret that we learned last autumn that you had disposed of your farm and had decided to hike to the golden west, and we, your neighbours, feel we cannot let you go without gathering to extend you some tangible expression of our esteem, and endeavouring to shew one more good time together from whence to carry pleasant memories.

In your residence among us, practically all your lives, you have steadily shown an example of sterling, upright character, whether in a social or business sphere, your position being ever strong and clear on the side of right, equity, and all that makes for improvement in the community, and we want to say that such a character must leave behind it an abiding influence for good.

For many years Mr. Reynolds, you have been a faithful member of the Trustee Board of our church, and your judgment, quick perception of, and decisive stand for best methods has been a valuable asset to that body, and will be greatly missed by your co-members. While in all social functions of the same, the busy hands and support of yourself and Mrs. Reynolds were always to be relied on, and your removal will make an empty place there.

And to you, Mrs. Reynolds, let us say that your work for a number of years among the boys in Sunday school was a work far-reaching in its influence.

And the ready sympathy and kindly interest of you both, extended to us in our up and downs, has endeared you, especially to the hearts of many, and so we ask to be permitted to offer you this silver tea service, as a little memento of Old South Dummer, with the hope that it may often bring you happy memories. And may we wish you a pleasant and safe journey, and a joyous visit among your dear ones in the west, and a cosy bungalow when you settle down.

(Signed) Robert J. Girven, Harry Brown, Willie Newell, Thos. A. Allen.

GIRLS! HAVE BEAUTIFUL, CHARMING HAIR AND NO DANDRUFF—25 CENT DANDERINE

Try This! Doubles Beauty of Your Hair and Stops It Falling Out

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

Farm and Dairy Market Report

Toronto, Monday, March 5—Most recent Dominion Government statistics show 1913 to have exceeded all previous years in the production of wheat and oats, Saskatchewan is a banner wheat province with 231,569,000 bushels. Next in order come Manitoba, Alberta and Ontario. The total value of all farm crops raised in the Dominion during 1913 is estimated at $628,771,500. These are enormous figures, but they are nothing to what Canada will be producing when our undeveloped agricultural resources will be more fully opened up.

Changes have not been exceptional on the farmers' markets. Hay and cattle are dragging, but dairy cows are in exceptionally good demand. Hogs continue to come from Western points to the Toronto market.

WHEAT

World statistics prove that the wheat crop of 1913 was the greatest ever harvested, the census amounting well on to 3,000,000,000 bushels. At the same time the demand for wheat is good, cable offers from the Old Country being frequent. There is, however, little trade being transacted. Quotations now are: No. 1 Northern, $1.01; No. 2, 97½c; all-rail, 1c more: Ontario, 85c to 87c.

COARSE GRAINS

There are few changes to note in the coarse grain market. The trade is corn seems to be on the increase. Quotations now are: track, C.W. No. 2, 45c; No. 3, 40c; Ontario oats, 36c to 37c; barley, 57c to 58c; buckwheat, 74c to 75c; peas, 78c to 81. Montreal quotations are: Oats, C.W. No. 2, 44c; No. 3, 43½c; barley, malting, 56c to 60c; feed, 55c; peas, $1.75 to $2.25; buckwheat, 86c; rye, 70c to 72c.

MILL FEEDS

Mill feeds are decidedly stronger. Quotations here are: Bran, $23 to $23.50; shorts, $25 to $26.50; middlings, $30; feed flour, $34 to $35. Montreal quotations: Bran, $23; shorts, $25; middlings, $30.

HAY AND STRAW

A weaker feeling characterizes this market. Only odd lots are being shipped to the United States, and it is believed that farmers have a good supply of hay on hand in both Ontario and Quebec. Quotations here have not yet declined on account of the unwillingness of the farmers to part with their hay at a decrease. No. 1, $14.50; No. 2, $13.50 to $13.50; No. 3, $9 to $9; baled straw, $8.50. Montreal quotations have already declined: No. 1, $15.50 to $16; No. 2, $12.50 to $15; No. 3, $10 to $10.50.

POTATOES AND BEANS

Supplies from the Maritime provinces have been falling off during the past few days and prices have gone up accordingly. Ontario potatoes are now quoted 65c a bag out of store; 80c in car lots; New Brunswick's, 5c to 10c more. At Montreal wholesale dealers are paying 80c to 90c for Green Mountains and 60c for Quebec grades.

Eggs here are quoted: Prime, 23.5c to 24c; hand-picked, 23.5c to 25.5c. Montreal dealers quote: Hand-picked, 28c to 28.5c; prime, three-pound pickers, $1.25 to $1.30 and prime, $1.75 to $1.85.

SEEDS

Merchants are paying farmers a market as follows: Alsike, No. 1, $6.50 to $8; No. 2, $7.50 to $8; No. 3, $5 to $7; red clover, No. 1, $6.25 to $8.75; No. 2, $7.50 to $8; timothy, No. 1, $2.75 to $3.25; No. 2, $2 to $2.50.

EGGS AND POULTRY

Lower prices for eggs have induced a larger consumption. The lenten season has also added to the demand for eggs. Consequently increasing receipts have not been followed during the week by decreasing quotations. Wholesale dealers are asking as follows: New laids, 30c to 35c; selects, 32c to 34c; storage, 28c. Eggs retail at 40c. Receipts from United States at Montreal have been heavy. Storage, 28c; selects, 30c; new-laid, 35c.

Poultry quotations are: Dressed fowl, 15c to 16c; alive, 12c to 14c; spring chickens, 16c to 18c and 14c to 15c; geese, 12c to 15c and 10c to 11c; turkeys, 17c to 22c and 14c to 17c.

DAIRY PRODUCE

Storage stocks of butter in Canada will be just about sufficient to meet demand until receipts increase largely. At present supply and demand are balanced. Farmers' separator prints, 25c to 26c; dairy prints, 24c to 25c; creamery prints, fresh, 30c to 31c; solids, 29c to 29½c; storage, 2c to 3c less. Cheese quotations: New large, 15½c; twins, 15¾c; twins, 16c.

LIVE STOCK

Live stock market last week opened in a manner entirely satisfactory to the drover. Prices advanced 15c to 25c. During Wednesday and Thursday, however, the market lost all that it had gained earlier in the week, and this on comparatively small receipts. Even for first-class cattle the market was dreary. Choice butchers now run around $7.50 to $8.15, with common to good $6.75 to $8. Heifers held their values more strongly and are quoted $6.15 to $8.50. Other quotations are: Choice cows, $6.50 to $7; common to good, $4.50 to $6; butchers' bulls, $4.50 to $7.65; feeders, $6.75 to $7.50; canners and cutters, $3.50 to $4.50.

Milch cows are on hand the largest supplies are not sufficient to depress the market. During the last week one man has bought as much as 100 cows. Quotations for choice ones run from $60 to $130 and for springers $40 to $120; common, mixed cows, $40 to $60. Calves go $4 to $11, according to size and quality.

United States lambs are already beginning to arrive on the market and will arrive in greater quantities as time goes on. Consequently quotations have declined somewhat. Now, $6.75 to $7; culls, $5 to $5.

Hogs continue to arrive from Western points, being mostly consigned direct to packers. Quotations paid, f.o.b. country points, new run $8.75 to $8.90.

Quite an enjoyable evening was spent on Friday at the Armouries, when the local Chapter of the Imperial Order of the Daughters of the Empire observed Paardeburg Day by inviting the citizens to an 'At Home.' The programme was very instructive as well as well as entertaining, and was as follows:

Opening address by Reeve Squire.

Chorus—Rule Britannia.

Flag drill by several little girls.

Solo—There is a Land—Miss Pearce.

A paper on Paardeburg —Mrs. C. Waters.

Solo—Mr. K. G. Thompson.

Extracts from a letter from a veteran of Paardeburg—Mrs. Grover.

Solo—Heroes and Gentlemen— Mr. H. Nicol.

The programme was followed by several promenades.

Rev. Mr. McDougall of Spencerville, will preach in the Presbyterian church on Sunday.

Deep sympathy is extended to Mr. and Mrs. W. E. Pakenham in the loss of their infant daughter, Frances Lillian, aged eight months.

The death occurred on Thursday night and the funeral took place on Sunday afternoon to the Norwood Cemetery.

The regular meeting of the W. M. S. of the Methodist Church will be held on Wednesday afternoon.

On Saturday at his home, concession 9, lot 15, the death occurred of Mr. Charles Rusaw, at the age of seventy-four. The funeral took place on Tuesday afternoon to the Norwood Cemetery.

Miss Beatrice Elliott spent a couple of days in Toronto last week.

Miss Belle Brown of Tonawanda, N. Y., is the guest of Miss Jean Nicol, King Street.

The Guild of the Presbyterian Church held their literary evening in the basement of the Church. There was an oratorial contest in which Messrs. Theo Burgess, H. Tudhope and Armar Weir took part.

Mr. B. W. Squire, D.D.G.M. and Mr. John Weir attended the Masonic Lodge at Lakefield on Tuesday night.

Mr. Graham of Madoc preached two very eloquent sermons in the Presbyterian Church on Sunday last.

Siamese Twins Separated.

PARIS, March 5.—The delicate operation of separating the Siamese twins, Madeleine-Suzanne, who had been born united, was performed here yesterday.

No such operation had taken place in France since Dr. Douen, in 1902, separated the two Hindu children, Radica-Roodica, who died of tuberculosis after the operation.

The twins operated on yesterday were born Nov. 28, 1913. At birth they weighed ten pounds. Both children appeared perfectly healthy and when not sleeping were extremely lively.

SHE GAINED 30 LBS.

Mrs. George Bradshaw, Harlowe, Ont., writes: "I was troubled for many years with weak, watery blood and dropsy. I had nervous headaches, dizziness, and sinking spells, and was, in fact, a confirmed invalid. Doctors told me my heart and kidneys were diseased and quite my life. By using 10 boxes of Dr. Chase's Nerve Food I have been cured of many of my old complaints and gained 30 pounds in weight."

You're not really sick, still you don't feel "just right."

How often is this true of hundreds of us. We're not really sick, but feel sluggish, out of sorts, our keenness and activity are impeded. The chief cause for this is constipation. When you feel that way, take

Wesden's Pills

25c Box. LOOK FOR THE RED SEAL

UP IN NEW ONTARIO.

Got Rheumatism Through Exposure, but Wesden's Kidney Pills Cured Him.

"While on a trip with a survey party in Northern Ontario two years ago, I contracted rheumatism through exposure and sleeping in damp clothing. When I returned home I was very ill, and the pain in my joints was something awful. I was advised to try Wesden's Kidney Pills, and after taking four boxes my rheumatism was entirely gone. Last year I was up on the survey party again, but I was never without a box of Wesden's Kidney Pills, and have never had the slightest return of it.

PETERBOROUGH, THURSDAY, MARCH 5, 1914

U.S. TIES CAN TO CATTLE FROM THE CANADIAN SIDE

Test for Tuberculosis Necessitates Six Day Quarantine at Cost to Drover and Effectively Puts on the Lid—Toronto Market Will Put Fine of $2.00 on Cattle With Horns—Price Is Now Too High

WHEN DROVER IS THE GOAT

Drovers on the market state that the price of meat must go down. They refer particularly to the producer's end of it, to the farmer who is holding his stock in the hope of getting all that is going. The testimony of the drovers is that the going these days is rather light, and it is going to continue that way.

Shut Out of the U.S.A.

The lid is on again at the border. The Wilson open gate is shut by a little dodge that is decidedly effective, and on the surface looks quite harmless. Last fall it looked as if there would not be a hoof left in Canada, but the export activity did not materially reduce the local supply, according to the drovers. Now a week ago a law went into force requiring all Canadian cattle to pass the test for tuberculosis. If the test is made across the line it means that the cattle will be held for six days in quarantine and the drover pays the shot. That looks like a mighty effective embargo.

The Supply Is Good.

The present supply in this country includes 12,000 distillery fed cattle, most of which were exported in the past. These will be turned onto the home market and should help meet the demand for the three months. Drovers state that the farmer is asking more than one dollar more than he can get. The abattoirs are offering a low price, and there is no other alternative for the drovers.

Fine for Horns.

There is a new rule which should be noticed by those interested in the business. After April 1st all cattle not dehorned will be docked $2.00 each on the Toronto market. If the drover is going to be fined to that extent it may be taken for granted that when buying for the Toronto market he will demand "moolies."

The use of the caustic stick on the horns of the calves will probably be used altogether if all the markets follow Toronto's lead.

Drovers the Goat.

There is one deal where the drover appears to be the goat, without any strong claim to get back his money. Suppose he takes a car of cattle to Montreal or Toronto, and one of them is found to be tuberculous. It is consigned to the incinerator and the drover gets the hide merely to show to the man from whom he bought the beast. The question is, can the drover recover the sum he paid the farmer. The matter has not been clearly settled, and the droves has a string of red tape to cut through and the cost of the cutting would be equal to the price of the cow. So there you are. The drovers want some simple method to circumvent this condition. In the meantime the market is said to be due for a drop of a dollar or more a hundred.

Addressed The Nurses

Dr. Moir Spoke on "Infectious Diseases and Private Nursing"

The Peterborough Branch of the Ontario Graduate Nurses' Association, held their monthly meeting in the Public Library yesterday afternoon, at three-thirty o'clock. An interesting and instructive address was given by Dr. Moir on "Infectious Diseases and Private Nursing."

At the conclusion of the meeting a hearty vote of thanks was tendered to Dr. Moir, for the able address he had delivered.

"Broadway Jones"

Big New York Success Coming to "The Grand"

"Broadway Jones," which comes to "The Grand" next Monday, March 9, was last season's real substantial hit in New York. Geo. M. Cohan has written many good plays, but his latest effort is in a class by itself, and one of the highest compliments that could be paid to an author, is this quotation from the New York Tribune:

"Some people can live on Broadway all their lives and never know what the place really is until they go and see 'Broadway Jones.'"

The cast that will present the play here includes George Schaefer, Thos V. Emory, Custis Benton, Geo. B. Miller, Maurice H. Fisher, Mrs. Chas. Willard, Frederick Maynard, Miss Olive Artelle, Miss Grace Morrissey, George K. Henery, Miss Indie Whiteside, Frank Evans and Chas. H. Henderson.

Limit Removed From Parcel Post

OTTAWA, March 5.— The six pounds limit imposed by the Post Office Department during the organization period of Parcels Post, has been withdrawn by the Department. The full limit should be withheld for three months, but the system has worked so easily that the restriction is withdrawn already.

THE APPEAL OF PRES. WILSON

Urges Congress to Repeal the Free Tolls Act—Message Met With Approval

QUESTION OF HONOUR

Special Wire to The Examiner:

WASHINGTON, D.C., March 5. — The repeal of the free tolls given the United States' coastwise vessels in the Panama Canal Act, which raised the protest of Great Britain and other countries was earnestly urged on Congres to-day by President Wilson. The clause, said the President, was directly antagonistic to the Hay-Pauncefote treaty and the honour of the United States demanded that the treaty be rigidly observed. The message was received with evident approval by Congress. The galleries were crowded with diplomatic representatives.

Hockey Returns At Grand Hotel

Tonight. Direct G.N.W. wire from the rink to Grand Hotel, giving every incident of the game.
T. B. & A. A. vs. St. Michaels.

LIVE STOCK MARKET

Special Wire to The Examiner:

UNION STOCK YARDS, March 4.—Receipts were light. 43 cars, 559 cattle, 866 hogs, 31 sheep and lambs, 94 calves.

Cattle.—Trade in cattle was practically dead, very little doing, buyers and sellers being wide apart. Choice butcher's steers, $7.70 to $8.00. Good butcher's steers, $7.25 to $7.50. Medium butcher's steers, $7.00 to $7.25. Common butcher's steers, $6.60 to $6.75. Choice butcher's heifers, $7.75 to $8.00. Common butcher's heifers, $7.00 to $7.50. Choice cows, $6.75 to $7.00. Good cows, $6.50 to $6.75. Canners, $3.75 to $4.50.

Feeders and Stockers.— Market unchanged. Choice steers, $7.00 to $7.25. Medium steers, $6.50 to $6.75. Stockers, $5.50 to $6.25.

Milkers and Springers. — Market firm at $60 to $110 each; bulk sold at $70 to $90 each.

Calves.—Market steady. Choice veals $10.50 to $11.50.

Sheep and Lambs.—Too many heavy lambs are being offered. Sheep, $6.50 to $ 0. Culls and rams, $6.50 to $6.25. Lambs, choice ewes and wethers, $9.00 to $9.75.

Hogs.—Receipts continue light and prices remain firm. Selected, fed and watered, $9.25 and $8.25 f.o.b. cars, and $9.50 weighed off cars.

THE CATTLE MARKET

TORONTO, March 5.—Live Stock Market.—Receipts fair, trade dull, prices easier. Choice butcher cattle, $7.40 to $7.75; good medium $7 to $7.25; heavy stocker steers, $6.50 t $7.25; sheep steady; hogs, fed and wa- $7.25; heavy stocker steers, $6.50 to $9.75, f.o.b. $9 to $9.15.

New Hydro Electric Offices

Reconstruction work has commenced on the building adjoining the tax-collector's office on Simcoe street, with a view of converting it into offices for the use of the Public Utilities Commission. About three thousand dollars will be expended on the work. The need for the offices are not very pressing at present. In fact the need has depreciated since the city, which is the sole local user of the Hydro-Electric system, has cut the street lighting down one half. Until such time as the city is in a position to undertake the distribution of power, the proposed new offices will not be required. The power that is used to operate the Hydro-Electric street lighting system is supplied by the Peterborough Light and Power Company. When the entire system is in operation, about eighty horse-power is required. At the present time only about one-half of this amount is used, as only one-half of the system is illuminated each night.

"YOU SHOULD INOCULATE THE WHOLE OF CANADA WITH TYPHOID VACCINE"—Sir Wm. Leishman and other Canadian notables at Wellesley Hospital. The noted British army surgeon, Sir Wm. Leishman, honorary physician to the King, met a number of Toronto doctors and other well-known people. In the picture are shown, from left to right, Dr. Bruce, Dr. Cavan, Col. Jones, Dr. Aikens, Sir Wm. Leishman, Dr. Abbey, and Sir William Mulock, former Postmaster-General of Canada.

AUTHORIZED TO PURCHASE A STEAM BOILER

Board of Works Object to Alleged Excessive Bills as Rendered by the Waterworks Department

COUNTER CLAIMS

Mayor Fuller, Ald. Duncan and City Engineer Parsons were last night, at a meeting of the Board of Works, authorized to purchase a steam boiler outfit, which outfit is required for the work of thawing out hydrants, etc. This action was brought about by a letter from Mr. Fawcett, superintendent of the waterworks department, which was read to the board, after enquiry had been made as to the disbursements required to assume periodical ownership of this particular plant.

Mr. Fawcett intimated that the cost would be five dollars per day, which would be exclusive of horse hire and other incidental expenditures. Together with that, was a request for payment of an account which amounted to eighty-six dollars.

City Engineer Parsons explained that the board had a contra account for twenty-eight dollars, and, in his opinion, that should be considerably more, but exactly how much he could not say, as no very strict account against them had been kept.

Several of the Aldermen present were of the opinion the bill was ridiculous, and not being in a concessive mood, did not assent to the whole being paid. The above three named members of the board were appointed to look into the account.

In the opinion of several aldermen present, the purchase of a steam boiler plant would result in a considerable saving, as at the rate of $5 per day with horse hire, etc., would soon pay for a new plant.

City Engineer Parsons said that such an article could be bought for between $150 and $200.

Assault Case Was Dismissed

Blood Stained Shirt Exhibited in Court

A mild case of assault was aired in police court this morning. Magistrate Dumble after hearing the evidence dismissed the case. "Try your pride and go back to work. Don't quarrel with your bread and butter," admonished the Magistrate. The combatants of yesterday's date were employed at a local factory and the dispute in question arose out of the allocation of certain duties connected with the plant. A blood-stained shirt and some very contradictory evidence featured the proceedings in police court. The former encompassed the shoulders of a robust looking Scotchman. The stains are said to have come from the nasal proturbence of his opponent. The latter bore a few scratches about the face as circumstantial evidence of the fray. The parties to the case were advised to restrain their pugilistic propensities in future.

Laceless shoes for men, held together by pieces of spring metal, have been invented.

INFLUENCE OF THE KING IS BEING FELT

Understood That His Majesty Has Intervened in the Dispute Over Home Rule

MUST GO TO COUNTRY

Special Cable to The Examiner:

LONDON, Eng., March 5.—(Special cable.)—"It cannot be emphasized too strongly that predominant feeling on both sides of the house is strongly adverse from any assertion of the Royal name with the critical stage through which national politics are now passing." This quotation from the leading article in the Times this morning is a is prevalent to-day, that King George is revalent to-day, that King George has intervened in the Home Rule dispute so far as to insist that a general election should immediately follow the passage of the Home Rule Bill before it comes into operation. It is further stated that His Majesty has informed Asquith that if parliament does not voluntarily dissolve, he will exercise his almost obsolete constitutional prerogative of dissolving it himself.

Liberal critics show bitter unconcealed resentment of this prospect and such a step would bring the Crown for the first time in modern times in direct conflict with the dominant political party.

FILM FEATURES FOR THE ROYAL

Manager Clayton has arranged a great series of film features for the Royal Theatre. Following the magnificent "Battle of Waterloo" picture which was a record-breaker, the Royal will present, on the last three days of this week, Carlottas Nillson, the famous actress, in "Leah Kleschna," one of the greatest plays in the history of the Theatre. This film should be seen by every one. For the first three days of next week Mrs. Fiske will be seen in "Tess of the D'Urbervilles," and for the balance of the week the great actor, Jos. O'Neill, in his famous play "Monte Christo."

GUNPOWDER EXPLODED BY RAYS

Examiner Special:

PARIS, March 5.—The European naval powers are much interested in reports of the secret trial said to have been made recently at Florence of the invention of Signor Olivi, the discoverer of rays which explode gunpowder at a distance. According to the reports four torpedoes, two containing white and two containing black gunpowder, were submerged in the Arno river. On receiving a signal Signor Olivi, who was stationed on a tower of the Palazzo Capponi, started his apparatus, and within a minute all the torpedoes exploded. The Italian Government has secured the invention.

Wherever you see the red lettered Dollar Day pennants you will find the treasure box numbers.

APPEAL IS BEING ARGUED IN TORONTO

Case of Northern Electric Co. vs. Cordova Mines Was Formerly Entered at Peterborough

WAS DISMISSED

An appeal is being argued in Osgoode Hall, Toronto, in which the Northern Electric Manufacturing Company and the Cordova Mines, are named as plaintiffs and defendants respectively. The action, which was entered at Peterborough, is to recover $817.09, alleged to be due for goods sold and delivered by plaintiffs to defendant, and to set aside a mortgage for $60,000 by the Mines Company to defendants Grueme and McKechnie, and for an order that these defendants account for and pay all moneys received by them under said mortgage.

At the trial the action was dismissed with costs as against all the defendants, but the company, against whom judgment was already entered for debt, and declaring the validity of the mortgage in question as against the company and creditors. Appeal partially argued but not concluded. R. McKay, K.C., for plaintiffs, J. M. Clark, K.C., for Cordova Mines G. F. Shepley, K.C., and W. N. Tilley for defendants Hughes and McKechnie.

ELECTED TO BE TRIED BY A JUDGE

Joseph and Vincent O'Toole, who were committed for trial by Magistrate Dumble yesterday on serious charges, were arraigned before His Honour Judge Huycke this morning. Both entered a plea of "not guilty" and elected to be tried by a judge without a jury.

Vincent O'Toole was admitted to bail in $600, his sureties being Mr. E. W. Jones and Mr. W. J. Irwin. The trial has been fixed for Monday, the 16th instant, at 10:30 o'clock in the morning.

Joseph O'Toole was remanded in custody.

READY TO GREET WORLD'S TOURISTS

Special Wire to The Examiner:

NEW YORK, March 5.—The big men of baseball are all in readiness for the welcome demonstration in honour of the Comiskey - McGraw world tourists. A committee representing the two major leagues has chartered a tug to meet the Lusitania when she come up the bay. Among the big league magnates who will extend the glad hand to the returning globe-trotters will be Ban B. Johnson, president of the American League, Harry N. Hempstead, president of the New York Nationals; Frank Farrell, President of the New York Americans; Ben F. Shibe, President of the Philadelphia Athletics; Joseph J. Cannin, President of the Boston Americans, and W. F. Baker, president of the Philadelphia Nationals.

French chemists recently observed the centennial of the discovery of iodine by erecting a tablet on the birthplace of its discoverer.

PARLIAMENT EVADES THE PENSION SCHEME

Too Big a Burden Says Finance Minister and Debate Was Adjourned — Discussion on the Matter.

OPPOSITION FAVOURED IT

OTTAWA, March 5. — The House of Commons put in the day discussing old age pensions upon a resolution offered by Mr. Kyte of Richmond, N.S., declaring that, in the opinion of the House, the Government should at once inaugurate an old age pensions system.

In speaking to his resolution, Mr. Kyte referred to what has been done in Great Britain, Australia, New Zealand and other countries in establishing old age pension systems, and urged that Canada should not lag behind.

He laid special stress upon the desirability of some action which would prevent the separation of husband and wife when poverty came upon them in old age. From the information he had obtained, he believed that an annual outlay of some $7,000,000 would suffice to meet the requirements of a pension system, and it must be remembered that to-day $3,000,000 or more is paid out in Canada for housing the poor.

Mr. Burnham (W. Peterboro) favored the principle of the resolution but said that he was not in a position to say whether the Dominion Government should at this time be able to assume the financial responsibilities involved.

E. M. Macdonald (Pictou) took exception to the idea held by some people that an old age pension plan was designed to benefit the improvident and the intemperate, but held to the opinion that no system which might be established should provide pensions for persons having incomes of more than $300 a year.

Mr. Aiguire (Cos., Stormont) doubted if there was any urgent public demand for the legislation. That demand, he said, would come in time and in the meantime Parliament was well occupied in discussing the question.

W. F. Carroll (Cape Breton, S.) held to the opinion that there is a ripened sentiment in the Dominion to-day in favor of old age pensions. Some scheme should be formulated, even though immediate effect were not given to it.

Hon. Mr. White thought the expense would be much greater than many members of the House seemed to imagine. His predecessors had estimated that to pay three dollars a week to every person in Canada over sixty years of age would involve an expenditure of $40,000,000 a year. Mr. White said, however, that not all of the 334,000 people over sixty-five years of age in Canada would receive a pension, and the system might not cost the Government more than half that amount. But whatever it cost, there would be a tremendous burden upon the revenues of the country. Such a burden, he submitted, should not be imposed unless the people of Canada desired that it be done. He doubted if eighty per cent. of the people in Canada ever gave the subject a thought.

On motion of Mr. White the debate was adjourned.

THIRD READING FOR IRISH BILL

Introduced in Commons This Afternoon — Comes Up on Monday For Final

NOW UP TO COMMONS

Editor Examiner:

LONDON, Eng., March 5.—The Irish Home Rule Bill, twice passed by the Commons, and twice rejected by the Lords, was introduced in the Commons the Veto Act, despite the rejection by Augustin Burrell, chief secretary for Ireland. On Monday it will have a second reading and when passed with various "concessions" promised by Asquith, will become law by virtue of the eVto Act, despite the rejection by the Lords.

Attend Recital To-morrow Night

And Help Work of the Health Association

By attending the Recital to be given in the Collegiate Assembly hall by Mrs. Renwick, vocalist, Miss Telgmann, violiniste, and Mr. Renwick, accompanist, to-morrow (Friday) evening, you will not only have a great musical treat, but will help along the Health Association in its efforts to erect a sanatorium for tuberculosis patients of your own City. Mrs. Renwick having kindly offered the returns for the first brick. The patronesses of this recital are the following ladies of the Health Association, Mrs. R. W. Travers, Mrs. Hazen Ritchie, Mrs. Vincent Eastwood, Mrs. W. H. Denham, Mrs. Alex. J. Grant and Mrs. James Kendry.

Dr. F. C Neal, Secretary of the Nurses' Supervision Committee, will take the chair.

New York Stock Market

Special Wire to The Examiner:

NEW YORK, March 5.—A better tendency developed in the late afternoon, apparently as a result of Secretary Bryan's statement that all nations are in accord with this country's policy of watchful waiting in Mexico, and his expression of belief that Carranza would yield and change his attitude on the Benton affair. It was rumoured that B & O are to bring out a big new issue in the near future, the traders asserting that negotiations to that end were now in progress. An amount as large as 50 million dollars was spoken of —money 1 7-8 to 2 per cent.

Sales 330,000.

A COMPLEX PROBLEM.

"Do you think worry makes a man baldheaded?"

"It is hard to say,' replied the man who gives every question cautious consideration, "whether you get bald because you worry or you worry because you are getting bald."

SIR GEORGE ROSS IS WEAKER TO-DAY

Special Wire to The Examiner:

TORONTO, March 5.—Sir George Ross weaker still to-day.

MANY OUT OF WORK IN BERLIN

Special to The Examiner.

BERLIN, March 5.—So acute is the unemployment problem in Berlin that the municipal council has approved of a plan for setting aside a sum of $75,000 for the purpose of making small loans to citizens whose means have become temporarily exhausted through no fault of their own but owing to the present economic conditions.

MERCHANTS PLEASE NOTE

The Examiner is sending to each store on the list of treasure box givers, a supply of pennants and price tickets for use on Dollar Day. They are asked to hang the pennants in their windows at once in order to advertise the day, and at the same time let people know that the treasure box tickets will be at their store on Dollar Day. The small tickets are for putting on articles, or tables or articles, that are to be sold at the even One Dollar. A larger ticket leaves a space to be filled in with a number of any article that are to be sold for one dollar, such as 2 for one dollar, or 5, 8 or 10 for one dollar as the case may be. A third style of card leaves a blank to be filled in with the price of an article that is to be sold at more than one dollar, such as 2 one dollars, 10, 15, 1 1-2 or 2 1-2 one dollars as may apply. With this explanation, and the tickets in hand, there should be no difficulty in all merchants using the cards in the same way, and thus making the price marks alike all over the City.

THURSDAY, MARCH 5, 1914

A RESIGNATION.

The continued ill health of Hon. F. D. Monk, member for Jacques Cartier, has led to his resignation of his seat. Mr. Monk has been practically retired from public life since he resigned from the Borden Government on a question of principle. He could not see eye to eye with Mr. Borden on his contribution naval policy and he resigned the portfolio of Public Works. This is entirely to My. Monk's credit; he could not conscientiously agree to the policy by holding his seat in the Cabinet, and he had the courage to retire. Mr. Monk was a man of excellent parts, he was a good debater, and his manner and his utterances were marked by dignity and restraint, such as one would expect from a statesman, and a gentleman. His example in retiring both from the Government and the House is worthy of imitation by more than one of his late colleagues in the Government. There are at least three of Mr. Borden's ministers who hold their Cabinet positions in support of a policy contrary to that upon which they gained the confidence of their constituents. But no resigning for them. Hon. Louis Philippe Pelletier, Postmaster - General, declared he would not resign—he was chained, bolted and padlocked to his seat, and to make sure that the bond should hold, he placed an order for a supply of government postal padlocks — enough to last the country until [illegible].

THE PUBLIC HEALTH.

There seems to be need in Peterborough for preparing a larger and more intelligent view of the importance of the public health and of the means of preserving and promoting its interests. A striking instance of the danger of neglecting precautions comes from St. Johns, Quebec, where there is an epidemic of typhoid, due to the existence of unsanitary conditions of various kinds. The situation is so serious that the Dominion government has sent an official to investigate. Local medical men attribute a great deal of the disease, two thousand cases of typhoid in a city of 5,000 inhabitants—to the water used for domestic purposes and to the milk supply and the bread supply. Some general cause must exist for the disease is universal; hardly a factory in the city has its full complement of workmen. Now, if the neglect of sanitary precautions of the most vigilant kind can result in widespread typhoid in one place, similar neglect in another may lead to similar results. The lesson of this is to emphasize the importance of the best sanitary measures to protect the public, and it should lead the authorities of Peterborough to take the importance of our health department more seriously and not treat it as something that can be administered by perfunctory attention and unsympathetic attitude. We may be justified in cheeseparing in other matters, but undue economy in providing protection for the public health is trifling with the dearest interests of the citizens and endangering the reputation of the city as a healthy place of residence. No thinking citizen will welcome the saving of a few cents of taxation, if that saving represents a risk to the health of himself and his family.

A GOOD STATEMENT.

The annual report of the Sun Life Assurance Company, printed elsewhere in this issue, must be a gratifying one, not only to the management and directors, but to the policyholders as well. The figures in the report tell their own story—a story of progress, of prosperity and stability. Substantial increases are shown in assets, in cash income, in new business and in assurances in force. The assets in force at the end of December, 1913, were $35,726,347.32 (increase over 1912, $6,120,730.83). The cash income during 1913 increased $1,603,320.84, making a total for the year of $13,996,401.64. Profits distributed to policyholders aggregated $706,424.19. There was added to surplus during the year $221,229.26, making the present surplus (Dec. 31st 1013) $3,758,986.68. Death claims, matured endowments, profits, etc., were almost five million dollars ($4,582,553.25). The aggregate payments to policyholders since organization amounted to $39,385,287.91. The total premiums received since the Company's organization in 1872 amounted to the grand total of $94,012,632.86. One of the most satisfactory features of the report was the great amount of new business done—no less than $34,200,916.79, an increase over the new business done in 1912 of $3,476,507.15. The comparative figures for each decade since organization give a birds-eye view of the growth and development of the Company's income, assets and assurances in force. The income has grown as follows:—1872, $42,210.93; 1883, $274,865.50; 1893, $1,240,483.12; 1903, $3,586,139.50; 1913, $13,996,401.64. The assets by decade were: — 1872, $56,461.95; 1883, $735,940.10; 1893, $4,001,776.90; 1903, $15,505,776.48; 1913, $35,726,347.32. The Life Assurance in force for the same decades were: 1872, $1,064,300.00; 1883, $6,779,566.00; 1893, $27,799,757.00; 1903, $75,681,189.00; 1913, $202,363,996.00. These figures require no comment, but simply invite congratulations. Mr. W. H. Hill, manager for Central Ontario, is the local representative of the company.

COOPERATION.

Aside from what the Social Congress, held in Ottawa, may accomplish in the way of betterment of social conditions — the conditions of living, among Canadians—its very existence conveys a great lesson. The union of all the moral forces in the Dominion marks the beginning of a new era in the work of social reform. Nearly all the church organizations in Canada are represented in the Congress. If the several church organizations, through their best minds, are thus united in the work of social reform, which is essentially the work of the churches themselves, why cannot the churches unite in the same manner. Great movements that affect the whole of humanity can only be advanced by cooperation; and the cooperation of the best intellects of the churches in the work of social reform is only made necessary by the neglect of the church organizations themselves, to unite in the same work. We have heard a great deal, and doubtless shall hear more, of church union. We have it represented in part by the great Social Service Congress, which means the highest form of cooperation. Similar cooperation is needed for accomplishment in all the realms of activity, not only in respect of religious and moral movements, but in civic and community movements. If we could subordinate our prejudices, our political prejudices, especially, in the interest of great movements of reform, accomplishment would be great. If the advocates of temperance reform could shake off the trammels of political affiliation and act according to conscience and conviction, triumph would speedily come. If one could throw aside petty prejudices in local and civic matters and heartily unite in cooperation, beneficient local and civic revolution would follow. We are too sensitive and combative over small things; we separate ourselves from our fellow citizens by little walls of prejudice. We all aim at the betterment of civic condition, but we are too suspicious, one of the other. One cannot offer criticism of any movement, of the details of the application of some principle upon which all are agreed, without incurring the charge of hostility. For instance, the least criticism of the City Council's dealing with the application of the Hydro-electric principle is construed into hostility to the principle itself. We need to have more give and take if we are to arrive at the cooperation that is necessary to give the best results. This applies to all interests. We have abundant musical talent in Peterborough, capable, with hearty and unjealous coordination of effort, to produce the best results. We all agree upon the advisability of beautification of the City. To secure this we must act together; the authorities must co-operate with the people and move in line with popular sentiment, uninfluenced by petty prejudices and narrow views of their responsibility to give effect to the popular will and desire. If the popular will and desire were effectuated by general popular cooperation no power could prevent the realization of the most excellent results.

THE FINANCIAL SITUATION OF ONTARIO

Ontario has had another accounting, attended by the mystery of a surplus of revenue over expenditure, accompanied by an increase of debt through borrowing. The surplus is made by separating a large port of the outlay and charging it to capital account. But even the surplus, modestly figured at $280,000 by Hon. Mr. Lucas, is achieved by including in the current revenue for the year over $400,000 arrears of interest from the T. & N. O. Railway Commission for 1909, 1910, and 1911. But there is a far more serious matter confronting the people of Ontario than bookkeeping methods in figuring out an imaginary surplus. The Province is being burdened with greatly increasing expenditure, greatly increasing debts, and a threat of increased taxation, accompanied by the depletion and dissipation of a heritage of timber, minerals, and lands that should have permanently borne the cost of Provincial admiration. Last year's ordinary expenditure was $10,868,026, and expenditure charged to capital, including a million and a quarter for roads, a million and a quarter for the Hydro-electric Commission, and close on a million for the T. N. O. Railway, was $5,223,916, a total of $16,091,942. For this money has been raised by the Dominion Government, and paid in subsidies, and interest to the extent of $2,531,917, timber has been sold to the value of $1,979,125, the disposal of lands brought $220,000, and mines yielded $203,680. These represent the proceeds of the disposal of assets entered as revenue. The Dominion subsidy on the T. & N. O. or $7,179,450 was entered as capital revenue, but the balance of $964,689 paid by the Dominion in adjusting interest on that subsidy was entered as current revenue.

Borrowing has again a formidable place in the receipts, making a total of $4,520,000. The chief items of real revenue were $1,162,694 from succession duties, $901,486 from licenses, $376,886 from the Provincial Secretary's office, chiefly for letters patent and automobile licenses, and $937,599 from the indirect tax on corporations. Even allowing the classification of the proceeds of the sale of assets as revenue, and charging to capital all items really capital expenditure, the result of the year's financing is a deficit of $1,818,000. This summing-up was made by Mr. Bowman in a careful review of the financial statement.

The result of this tendency in public finance is shown in the statement of debts. These now reach the serious total of $23,267,299, while indirect liabilities agregate $9,656,390, the chief item being the Mackenzie & Mann guarantee of $7,860,000. Against this there is the T. & N. O. Railway, on which $19,696,451 has been spent, and the Hydro-electric service, which has cost $6,022,646.

Comparative figures showing this descent into debt, accompanied by the disposal of a public heritage, are instructive. In 1903 the total expenditure was $4,888,962, as compared with $13,867,000 for 1912. In the latter year many items for public works separated and charged to capital, but this total includes them so as to make the comparison fair. From the latter item should be deducted $1,210,789 for the T. & N. O. Railway, and $458,159 for Hydro-electric construction. For 1904 the total expenditure was $5,267,453, and for 1905 it was $5,369,016. In that year the T. & N. O. Railway was responsible for an aditional outlay of $1,536,164. This is in striking contrast to the outlay of $16,091,942, or, deducting the Hydro-electric and T. & N. O. Railway outlay, $13,780,536 last year.

A single item way illustrate the way in which this transformation has taken place. It was stated in 1912 that the Government House building and site would cost $400,000. In 1913 it was stated that $418,560 had been spent, and $280,000 would be required, making in all $698,560. This year's statement shows an expenditure of $600,013, with $286,000 still required, a total of $875,013. If this rate of expansion is maintained the total will be over a million next year, which will mean a great debt, a great yearly cost, and the exclusive reservation of the office for men of wealth. The Treasurer now forecasts heavier taxation to be collected by both the Provincial and Dominion Governments. He did not realize the disquieting significance of his words when he declared that the Provincial surplus of four millions was ancient history, but the Province should take serious heed of the change.

Bad Acting.

Prof. Brander Matthews, the student of the drama, was talking in New York about a bad play.

"The actors, too, were bad," he said. "They were, in fact, so very bad that they remind me of a certain bal masque.

"One East Sider said to another: "'How did the bal masque come off?'

"'Very poor,' was the reply.

"'You don't say so! And how was Mary Dannigan as the Goddess of Liberty?'

"'Rotten.'

"'Rotten? Didn't she act the part well?'

"'No. She got locked up.'"

CLASSIFIED BUSINESS CARDS

Agricultural Implements

HEARD & NORTHEY — CUTTERS AND Sleighs, the best manufactured by the McLaughlin Co., of Oshawa, well known for their superiority, durability and comfort. Also Harness, Robes, Mitts, etc. Heard & Northey, 370 Water St. 'Phone 1209.

HAVELOCK ITEMS OF INTEREST

Day and Night Constable for Safeguarding of C. P. R. Traffic —Other Items

Examiner Special:

HAVELOCK, March 4.—Miss Mahoney of Peterborough was the guest of Mrs. F. White for a few days last week.

Miss Ida Runyon of Lakefield visited Miss Madge Gerrie last week.

Miss Lovelock of Lakefield was the guest of Mrs. Robert Flynn, last week.

Mr. Wilson of Perth, organizer for the I. O. F., was in Town last week on business.

Miss Shannon of Bristol was the guest of Mrs. Alex. Reid, last week.

Mr. Robert Elliott of Sharbot Lake attended the "At Home" in the Town Hall on Monday night last.

The Women's Auxiliary of St. John's Church met last week at the residence of Mrs. Bert Payne.

Mrs. Wm. Barnett has returned home from Peterborough.

Miss McWilliams left last week to attend the millinery openings in Toronto.

Mrs. Armison has returned from visiting her sister, Mrs. Maines at Tweed.

Mrs. Thos. Flynn and son, Thos., who have been the guests of her parents, Mr. and Mrs. Mark Spencer, left on Monday last for their home at Bass Lake.

Miss Ethel Fraser of Calgary, Alberta, and formerly of Norwood, is the guest of Mrs. (Dr) Kindred.

Mr. and Mrs. J. Reid have returned from visiting friends in Toronto.

A pretty wedding was celebrated on Tuesday evening, Feb. 24th, at 8 p.m., at the residence of Mr. Wellington Wilde, Concession Street, when Mr. John Boyd of Campbellford, Inspector of Concrete Work, Trent Valley Canal, and Mrs. Elisabeth Brown of Trent River, were united in marriage by Rev. James Skene. After the ceremony a dainty lunch was served, followed by the usual toasts, after which Mr. and Mrs. Boyd left on the Montreal midnight train on a wedding tour to Europe.

Mr. Thos. Lloyd has sold his residence to Mr. Byron Farrar, who takes possession next week.

Mr. M. Hunt and Mr. Oscar Brecken of Town, and Mr. A. O. Sawyer of Lakefield left on Friday last on a trip to Florida. They expect to be gone about two weeks.

Mr. and Mrs. Wm. Andrews spent Wednesday in Peterborough.

Miss Mabel Sawyers of Lakefield, spent Thursday with friends in Town.

Mrs. Brecken and Baby Gladys, left on Friday for Lakefield, where they will spend a couple of weeks the guests of Mrs. Sawyer.

A moving picture show, under the management of Rose and Armiston, held the boards of the Opera House on Friday evening last. The programme was as follows: 1. The Fortune. 2. Until We Three Meet; again in two parts. 3. The Streak of Yellow. Songs between acts.

Mr. and Mrs. Jack Hart were in Peterborough on Friday.

Mr. Hopwood of Peterborough was in Town on Thursday.

A number from Town attended the 12 o'clock dance at Campbellford on Tuesday evening of last week.

The work of filling Swift and Co's. large ice house, at this point, has been finished, and their large 5,000 ton plant is now filled with a splendid quality of ice. The time spent in refilling each winter season generally takes from two to three weeks, but with the new ice house filling system lately installed by the owners, the time occupied is not only reduced, but a great saving is realised in the expenses. Under the old means of handling, the blocks of ice were hoisted by cable and two teams of horses, but under the new way, the blocks are merely slid from the car to the carriage, which carry it to its respective floor or level by means of gasoline power. The cutting is done at Norwood and the ice hauled by train to this point, where it is stored each winter for the supplying of the many fast beef and perishable shipments passing to Boston etc., from Chicago and other American points during the summer months.

The Investigating Department of the C. P. Railway have placed this point in line with their other terminal points by installing a day and night Constable for the safe-guarding of their traffic, etc. The Company are apparently desirous of eliminating all possibilities of exceptions which might arise in their yards through non-protection.

Mrs. H. Falkner spent Friday in Peterborough, the guest of her sister, Mrs. Wm. Jackson.

Miss Gladys Brewster of Toronto is spending the week-end with her father, Mr. C. H. Brewster.

Miss Powers of the school staff, who has been confined to her bed, the past month, suffering from a severe attack of pneumonia, left on Saturday with her mother for her home in Aroma. Miss Powers will not resume her duties as teacher in the public school here until after the Easter holidays.

Miss Jennie Barlow of Town, has been engaged to teach in Miss Powers' room until the Easter holidays.

The hockey team went to Hastings on Friday night for a friendly game with the team of that Village. The score was 6 to 3 in favour of Havelock. A number from Town accompanied the team over.

Mr. Fred Fry of Toronto was in Town Saturday.

Kairnes pressing establishment has removed from Ottawa Street to George Street, to be more central.

Miss Mabel Beatty and Mr. Firman Haig spent Sunday in Frankford the guests of Miss Nora Beatty.

Mr. F. Gribble, relieving operator for the C.P.R., is at present relieving Day Operator C. L. Pickering, who is relieving Despatcher O. A. Bracken, the latter being on a two-weeks' trip to Florida.

Mr. Thos. Piper, C. P. R. day chief despatcher, here, spent Sunday at his home in Toronto.

The last game of hockey in the Havelock League, consisting of the Bankers, Traffic Dept., and a pick-up team of town boys, was played at the Park Rink on Wednesday night between the Traffic Department of the C. P. R. and the Bankers, resulting in a victory for the C. P. R. team.

Following is the standing of the League at the close of the hockey season:

	Won.	Lost.	Tie.
Locomotives	5	1	0
Bankers and school	3	3	0
Town	3	2	1
Traffics	0	5	0

The local hockey team defeated the Eastern Power Company's seven from Healey Falls at the Campbellford rink on Tuesday night last by the score of 6 to 5.

Mrs. Wm. Caverly and Master Victor spent Saturday at Lindsay, the guests of Mrs. Fanning.

Miss Bertha Bryans has returned home after spending the past two days in Peterborough, the guest of Mrs. Charles Curtis.

Mr. and Mrs. Wood of Campbellford were in town Sunday, the guests of Mr. and Mrs. Ed. Fennell.

Miss Barnett returned to her home in Peterborough after spending the past month in Town, the guest of her brother, Mr. Wm. Barnett.

Miss Alice Bennington returned home Sunday from Peterborough, where she spent the past week, the guest of Mrs. J. Knox.

The Women's Auxiliary of St. John's Church met last Wednesday at the home of Mrs. Bert Payne.

Mr. and Mrs. Duff have returned from Calgary and are now the guests of Mr. and Mrs. Butterill.

Mr. and Mrs. Albert Armstrong spent the week-end with friends in Hastings.

Meadames Parsons and Paine spent Saturday in Peterborough.

Mr. and Mrs. C. A. Ghent of Peterborough on Saturday.

Miss Lettie Chiles of Peterborough spent last week in Town.

$200.00 in cash bonuses to be given away will make Dollar Day interesting.

The Vagaries of Easter Day

Lent began this year three weeks later than last year, being, of course, based upon the date of Easter, which is April 12 this year, as against March 29, in 1913.

Very few people can tell why Lent varies as from year to year, and why Easter may come as early as March 2 or as late as April 25.

It is something of an anomaly from the religious point of view that the anniversary of Christ's death may fall on any one of the dates, while the anniversary of His birth is always the same.

It is no less of an anomaly from the astronomical standpoint, for there seems no reason why we, having adopted the solar year as the basis of our calendar, should cling to the lunar year merely for the establishment of one date.

A MYSTERY.

It is a mystery why, when the date of Christ's birth was fixed as Dec. 25, some dates in April were not at the same time settled upon as those of His death and resurrection.

REVISED CALENDAR.

When Pope Gregory undertook to reform the Julian calendar, that had by that time become incorrect by about 10 days, the revolution of the earth around the sun was not yet fully understood, so instead of making a change that would be thoroughly scientific, the present form of year was adopted, the Julian calendar being modified by calling Oct. 5, 1582, Oct. 15, and making all terminal years of centuries, 1700, 1800, 1900, etc., common years of 365 days, except when the year was a multiple of 400, as 1600, 2,000 etc., which should be leap year.

DIDN'T KNOW.

In those days they were so accustomed to movable feasts that it never occurred to the reformers of calendar that a day might come when there might be moved from the calendar a lunar cycle that has long been abandoned by all civilized peoples.

If Christ was crucified on the 14th day of March moon astronomers ought to be able to calculate on which date this fell. They say that in all probability it fell on April 7 of the year 30 of the Christian era. Why, then, not fix Easter once and for all as the first Sunday after April 7?

It is to the Council of Nicea that we owe the computation of any an ecclesiastic record of reckoning Easter. This council decreed that it should be the first Sunday after the first full moon on or after the vernal equinox, March 21.

Pope Gregory XIII undertook at that time to reform the Julian calendar, which had been in use ever since Julius Caesar, in 46 B.C. had prescribed that a year should consist of 365 days, every fourth year having 366.

This Julian calendar was a reform of a still more ancient system based upon the motions of the moon, which system varied widely in different lands. In Rome, it had originated with Romulus. They knew so little about the relations between the sun and the earth that they did not wish to reckon the lunar year entirely, and so upset the order of feast day that had from time immemorial been based upon the movements of the moon.

Though the Gregorian calendar was issued in 1582, prejudice against anything that came from Rome was so strong in England that it was not adopted there until by an act of Parliament, passed in 1751. Sept 3 1752, was reckoned as September 14 and New Year's Day was set back from March 25 to Jan. 1 beginning with 1752.

NEED PAPAL DECREE.

To fix one definite date for Easter would require a decree from the Pope. The whole Roman Catholic world and all Roman Catholics elsewhere would at once adopt it, and there is little doubt that the Protestant churches would follow. As it is purely a religious feast this is all that would be necessary.

In Russia and Greece the Julian calendar is still in use, so their dates are now 13 days different from ours.

J. T. O'CONNELL'S BARGAIN LIST

HOUSES

A new, two-storey red brick house, with six rooms and attic; all improvements except furnace. Near school, church and car lines in the south part of the City. Possession at once. Can be purchased on easy terms, and at the price of $2000.00

THE MERCHANTS TREASURE BOX

$200 To be Given Away by the Merchants and Examiner ON EXAMINER $ DAY

IN ADDITION TO THE GREAT VALUES to be had on EXAMINER DOLLAR DAY, the Merchants will give away $200 in Cash as Bonuses to their Customers, so that Dollar Day will be long remembered. With each purchase of One Dollar made on Examiner Dollar Day at any of the stores named below, a number will be given, and 89 of these numbers will secure the cash bonuses. This is not a lottery, because there is no element of chance. Every Customer gets more than a full dollar's value for every purchase, and in addition a Cash Bonus is to be given to the 89 Customers. Of course, everybody cannot get a Bonus, but everybody can get a Great Big Bargain for every dollar spent. See the money in Neill's Centre Window. The Cash Bonuses will be as follows:

1 Bonus of	$20.00
1 Bonus of	$15.00
3 Bonuses of	$10.00
4 Bonuses of	$5.00
5 Bonuses of	$3.00
25 Bonuses of	$2.00
50 Bonuses of	$1.00

THE FOLLOWING MERCHANTS will issue numbers with every One Dollar Purchase on Dollar Day. The numbers will be named by Mayor Buller and published by the Examiner on the evening following Dollar Day. The list includes all names received up to the time of issue, and will be added to as fast as handed in.

Spring Importations of New Wash Goods & Dress Goods

Priced Much Below Regular During

The Annual March Sale

DURING THE MARCH SALE OF DRESS GOOD AND WASH GOODS we are giving to our Customers an opportunity to buy fine imported Cotton and Wool Dress Fabrics at a big discount of their real values.

The Fabrics range from delicate floral tinted Crepe to sturdy English Serges—and the assortment offers a wide choice for selection.

PLAIN WOOLLEN TEXTURES DISPLAY NEW COLOURINGS

FIGURED COTTON MATERIALS ARE QUAINT AND EFFECTIVE

All Fabrics are charming to look at and will fashion most gracefully into stylish Summer Costumes, Suits and Sports Coats. *Mentioning a Few of the Values.*

Warp Cords

Warp Cord is a new fabric in a Crepe effect, soft and sheer, and makes an ideal afternoon gown, 28 inches wide, comes in all the new delicate tints, per yard 49c.

Light Weight Ratines

One of the most popular fabrics in Cotton Dress Materials is Ratine and we are showing a wide range both in plain and fancy—in small black and white checks and hair line stripes—which are priced as low as per yard 49c.

White Matelasse

The very newest fabric shown in London for Separate Coats or Suits. It comes in pure white and cream of a pretty design in brocade, soft finish, firm in weave and just the light weight to hang properly, many different patterns, 40 & 44 in. wide, per yard 75c and $1.00.

French Poplin

The cloth that is superior for women's dresses, soft velvet finish—in all the new shades of spring, per yd 57c

English Suiting Serge

Navy blue and black, pure wool English serge, 54 ins. wide. This quality is guaranteed not to shrink or spot. Per yd $1.39

Whipcord Suiting

A splendid material for suits, medium weight strong and durable, all wanted shades, per yd 94c

Shepherd Check Suitings

Especially noteworthy in this new assemblage of new materials is the almost unlimited variety of splendid plaids in plain and broken checks. Shepherd plaids are obtainable in a wide range of materials never checked before. Widths from 42 to 54 inches. Prices

47c 75c $1.00 $1.25 $1.50 $2.00

WOMEN'S FINE UNDERMUSLINS

Your attention is directed to a very fine display of Women's Fine Undermuslins in the Ready-to-Wear, 2nd Floor.

All these garments on display were sent on from New York by our buyer—and are included in the special pricing which prevails during the sale of Women's Undermuslins

Promotions On Grand Trunk

The announcement is made from the Passenger Traffic Department of the Grand Trunk at Montreal that the following appointments have been made effective to-day:

Mr. W. E. Duperow, General Agent Passenger Department, Vancouver, has been made Assistant General Passenger Agent of the Grand Trunk Pacific with headquarters at Winnipeg.

Mr. C. E. Jenny, City Passenger and Ticket Agent of the Grand Trunk Railway System, Toronto, has been appointed General Agent Passenger Department, Grand Trunk Pacific Railway, Vancouver, to succeed Mr. Duperow.

Mr. W. J. Moffatt, Travelling Passenger Agent, with headquarters at Toronto, has been appointed City Passenger and Ticket Agent, Toronto, succeeding Mr. Jenny.

Mr. S. R. Joyce, Ticket Clerk in the Toronto City Ticket Office, has been appointed Travelling Passenger Agent, with headquarters at Toronto, succeeding Mr. Moffatt.

Mr. Duperow has been in transportation work for many years. He was Chief Clerk for the District Passenger Agent, Toronto, several years ago, and afterwards Travelling Passenger Agent; subsequently accepting the position of General Agent Passenger Department, Grand Trunk Pacific Railway at Vancouver.

Mr. Jenney was for some years Soliciting Passenger Agent of the Grand Trunk Railway System at Toronto, Travelling Passenger Agent at Toronto, also at Pittsburg, Pa., and latterly City Passenger and Ticket Agent at Toronto.

The appointments are all deserving and the representatives who have been chosen for more responsible positions are popular and competent members of the Grand Trunk staff.

NO SIGNS OF THE EXPECTED SAVING OF MONEY SEEN YET

But With the Return of Industrial Activities Saving Should Be More General.

One of the expected results of the money stringency during the past months—a wider practice of saving—has not yet shown any marked signs of development. A local bank manager stated a few days ago that there was no pronounced movement in that direction. Some men who had a savings were in fact drawing on their stake, but with the return of business to its full tide volueme there should be a more general emulation of the husbandry of the bees during the time of plenty.

"The Shamrock For Ever"

Home Rule or no Home Rule, we're just loaded with the newest, daintiest and funniest of

St. Patrick's Day CARDS

Greet all your friends with them on the 17th of March,—they're about the cost of writing paper, Pretty cards all a-blossom with Shamrocks, and as full of Love and tender Blarney as the heart of an Irishman with Patriotism.

Don't forget the Mavourneen.

C. B. ROUTLEY'S

TORONTO 202 QUEEN STREET — PETERBORO 370 GEORGE STREET

Act Has Been Passed

Respecting the Peterborough Radial Railway Company

The following Act respecting the Peterborough Radial Railway Company has been passed by the Legislature:

Whereas the Peterborough Radial Railway Company has by petition represented that it was incorporated by an Act passed in the second year of the reign of His late Majesty King Edward VII., Chaptered 91, as amended by Acts passed in the sixth year of His late Majesty's reign, Chantered 116, and in the ninth year of His late Majesty's reign, Chaptered 142; that by the said Act 2 Edward VII., Chapter 91, the Company was empowered to issue bonds, debentures or other securities to the extent of $20,000 per mile for each and every mile of single track of the said railway and extensions and branches thereof; that it is desirable that the Company should be authorized to issue bonds or debentures to the extent of $35,000 per mile, and has prayed that the said Act 2 Edward VII, Chapter 91, be amended so as to increase the Company's borrowing powers to the extent of $35,000 per mile of single track; and whereas it is expedient to grant the prayer of the said petition;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

1. Section 16 of the Act passed in the second year of the reign of His late Majesty King Edward VII, Chaptered 91, is amended by striking out the figures "$20,000" in the eight line and inserting in lieu thereof the figures "$35,000"—2 Edw. VII., c 91, s. 16, amended.

Prosecution Did Not Appear

Special to The Examiner:

PORT HOPE, March 5.—The charge against Barney Page of the Sothern House, Millbrook, of selling liquor without a license, was summarily dismissed by the Magistrate. Alexander Corrian, who laid the information against Page, and J. A. Ayerst, the Provincial License Inspector, failed to appear in court, and the case was not proceeded with.

ROGERS SAYS "YES."

Leamington Delegates Promised $75,000 Breakwater.

OTTAWA, March 5—A breakwater is to be built at Leamington within the next couple of years. An appropriation for it will appear either in the supplementary estimates this year or in the main estimates next year. This was what Hon. Robert Rogers told a strong delegation from the north riding of Essex which waited on the Minister of Public Works yesterday. The cost of a suitable breakwater would be about $75,000, but at present the Government gets $50,000 a year in duties on tobacco grown on the inland, and with better facilities this would be greatly increased.

HUNDREDS ARRESTED AT CHURCH SERVICE

New York Detectives Lock Doors and Seize I. W. W. Demonstrators at Lenten Service

NEW YORK, March 4.—Several hundred men who, under the leadership of the Industrial Workers of the World, have been marching on church edifices recently, were arrested to-night in St. Alphonsus Roman Catholic Church on West Broadway, after they had disregarded warnings that if they entered the church it would be under peril of arrest.

As the men neared the church, detectives informed Frank Tannenbaum, who has headed the demonstrations during the last few days, that if the men entered the building they would do so at their peril. Tannenbaum, instead of heeding the advice, called on the men to follow him.

A Lenten service was in progress in the church when the men marched in. Women screamed when they saw the intruders, who, paying little attention to this, quickly occupied seats well in front. When the last of the men had entered the church the detectives ordered the doors locked.

Meanwhile the reserves from nearby police stations had been called out and patrol waggons from all over the city were rushing to the scene.

When the policemen entered the church building pandemonium ensued. For half an hour there was the wildest disorder, due in a measure to the efforts of the police to separate the intruders from the worshippers.

The men were taken from the church in twos and conveyed in patrol waggons to the nearest police stations. Later they were brought into the Domestic Relations Court for a preliminary hearing.

Tannenbaum, their leader, was charged with inciting to riot and held in $5,000 bail for a hearing to-morrow. The other prisoners, charged with disorderly conduct, were held in $1,000 bail for a hearing to-morrow.

Georgian Bay Commissioners

Special Wire to The Examiner:

OTTAWA, March 5.—It is definitely decided that the commission which will be appointed to enquire into the commercial possibilities of the Georgian Bay Canal will consist of five instead of three members as at first intended. This decision has been reached as a consequence of representations from Toronto and west of Toronto of those opposed to the project. At present three names are favorably mentioned in connection with the commission, Sanford Evans, of Winnipeg, and Edward Gohier and F. S. Meighen, of Montreal.

Read the list of the stores where the treasure box numbers are given away.

Temple Band Planning For The Tour

Thirty Men Will Accompany the Organization to England for International Congress

SOUVENIR BOOKLETS

It is now an absolute surety that at least thirty trained musicians, from the S. A. Temple band will visit the great International Congress to be held in June in London, England. There will be somewhere in the neighbourhood of twenty thousand delegates from Foreign countries present, including representatives from Corea, Australia, Japan, Maori, Finland, Grmany, India, Norway, etc., etc., and in fact, from every quarter of the Globe.

In Albert Hall.

A spacious hall is to be erected in London, that will accommodate some ten thousand people, and in addition to that, the management of the Congress have secured the use of the great Albert Hall for two days' meetings, and the Crystal Palace for one great day.

The Temple Band has been assured of every ease and consideration, from the International Headquarters, and will be given a chance to take part in the larger feats, in connection with this Great Congress, including the great International demonstration and March Past, on the Crystal Palace day.

Will Make a Tour.

After this ten days' gathering in London, the Temple Band will make a tour, accompanied, in all likelihood, by a number of delegates who are also attending the Congress. The Peterborough band will have the distinction of being the only local organization that has ever visited the Old Country, either outside or inside the Salvation Army. The Temple Band is very hopeful of having the pleasure of taking with them, a representative of the City Council, to further advance the interest of the city in which we are all interested.

Rescue Home.

Lt.-Col. W. J. B. Turner, Immigration and Territorial Secretary, is in the city to-day, finalizing the arrangements, by which the local corps will be conducted to England. Incidentally it may be mentioned, that Adjutant McElhiney will ask him to buy some property in the city, and if he is successful, a Rescue Home will be started.

A Souvenir.

A permanent copyright Souvenir of Peterborough will also be printed, for distribution. This book is being compiled from information that has been secured from the most authentic sources, and includes descriptions and engravings. A full description of, and a complete history of the city, including factories, stores, educational institutions, churches, and hospitals, industries, summer resorts, railway facilities, and will describe the city as the Canadian Peterborough, progressive, and prosperous.

12,000 Copies.

Three thousand copies of these will be issued for local distribution, as the need has long been felt for a copyrighted souvenir. The remaining 10,000 will be taken to the Old Country, and will be distributed while the Band is in London and on tour. This, in itself, consisting of many, will be one of the best booms that Peterborough has ever had. The very presence in the Old Country of thirty musicians distributing 10,000 copies of this souvenir ought to be worth a great deal to the City. By this distribution of 10,000 souvenirs, which will be conducted through the ten days' programme in London, together with some photographs of the Temple Band, the Temple, and of some of the residences and businesses that Old Country men have acquired since coming to Canada, will, it is hoped, encourage men of the best calibre to come to the City of Peterborough.

Away For Five Weeks.

The Band will be away for five weeks, and to those who have never been to England, this will be an educational opportunity that comes, not to many, while those whose homes are there, will have the opportunity of renewing old acquaintances. A number of people who are not members of the Salvation Army, have signified their intention of accompanying the local delegates.

More minute particulars of the trip will be available in due course, and it is plain to see that much interest has been manifested.

WILLIAM S. BENTON, SLAIN BY HIS FRIEND J. A. SOMMERFELD, OF EL PASO

BENTON, THE MAN WHOSE DEATH STIRRED TWO GREAT ANGLO-SAXON NATIONS TO ACTION—A rough sketch drawn by a friend, but said to be a good likeness of the wealthy Scotch rancher murdered by Villa, the rebel general, in Mexico.

MEMORIAL NAVAL SERVICE TO-DAY

Special Wire to The Examiner:

PLYMOUTH, Eng., March 5.—Thirty submarines and ten larger warships, with a total of eight thousand men of the British navy, to-day took part in an impressive memorial service for the eleven who perished with the lost submarine, "A7," which is still buried in the sand.

The Merchants are planning hundreds of surprises in Big Dollar Values for Dollar Day.

Some Very Worthy Values Extended
By the Dress Goods Section

A Very Select Display of Spring Wall Papers on the Third Floor

Whipcords, Taffeta Cloths & Tweeds Receiving Special Prices for the Week-End

And Placing Whipcords First on the list, we would say that in the three shades of Copenhagen, Navy and Tan; and in 42 inch Width, we are showing some Whipcords that are, without doubt, of liberal value at the price. You will find the texture good, and with the close, hard finish that makes it admirably suited for Spring Suits and Dresses. The special price is 59c a yard.

Taffeta Cloths 59c a yard

In these lighter weight materials, there is a soft lustrous weave, procurable in Rose, Myrtle Green or Grey shades.

And aside from the fact that Taffeta Cloths are a favourite of fashion for spring apparel, there is the added advantage of securing in them, the very clothes that, all along, have been selling for 75c. Therefore of extra worth are they at the week-end price 59c yard

50 inch Tweeds 57c yard

Beautifully thick and durable, these Tweeds are in Grey and Tan only, both colors being regularly marked at 75c yd. They have a striped pattern, are generously wide, and are exceptionally good buying at 59c yard.

Dressmaking on the Second Floor

Women who need the services of a competent Dressmaker are reminded that Miss Wesley is now receiving orders for work of this kind. She is to be found on the Second Floor.

Will Camp At Petawawa

The Peterborough Rangers Will Have a Much Longer Trip This Year

KINGSTON, March 5.—It is virtually decided that there will be no infantry camp at Barriefield this year. The three rural brigades will go to Petawawa in June, instead of Kingston, and companies of the city corps will constitute a composite brigade, which will train there the last five days of he big camp, and have the benefit of the combined training.

If this is the case the 14th of Kingston and the 57th of Peterborough will be called upon to supply two companies at least. The dates will be likely in the last full week of June.

Miss Eva Booth In Toronto

Miss Eva Booth, daughter of General Booth will appear in Toronto on Tuesday next, where she will conduct mass meetings in Massey Hall. Miss Booth was Commander of the Salvation Army forces in the United States for five years. The topic of her address will be "My Father."

A. T. FONTAINE
has purchased Dr. Polkinghorn's Livery Business at N. 193 Hunter Street
and soliciting a continuance of the public patronage. Speedy well harnessed horses and comfortable right ready on short notice. Careful drivers when desired. Telephone 176

THE GOVERNMENT REFUTES ITS OWN PRESS REPORT

OTTAWA, March 4.—The stock of Messrs. Gutelius and Lynch-Staunton, the National Transcontinental Railway scandal-hunting Commissioners, dropped a few more points to-day by reason of further official information given to Parliament, contradictory to the statements made in the Commissioners' report. A direct refutation was given by the Government of the truth of one of the main charges containd in the Government's own synopsized press reports of the Commissioners' findings.

In that report it was explicitly stated that the former National Transcontinental Commissioners had paid over to M. P. and J. T. Davis a 10 per cent. commission, amounting to $740,000, as their profit on two contracts sublet to Messrs. O'Brien, Fowler & McDougall. In the press report handed out by the Government, and since then duly exploited in the Government press, this $740,000 was called a clear "rake-off" paid by the N. T. R. Commission to Messrs. M. P. and J. T. Davis.

To-day the Acting Minister of Railways, Hon. Dr. Reid, was obliged to admit that the "rake-off" was not paid over by the N.T.R. Commission at all. If payment of that amount was made, it was made by the subcontractors themselves in accordance with their private agreement with the main contractors, and following out the usual procedure as to profit allowance in cases of subletting.

Further replies to questions by Hon. Geo. P. Graham, Hon. Chas. Murphy and Hon. H. R. Emmerson brought out the information that Messrs. Gutelius and Lynch-Staunton were not specially sworn to faithfully and impartially perform their duties, that the evidence submitted to them was not taken in public, and that Mr. Gutelius was not naturalized as a British subject until Febrbary 23, 1912, or nearly one month after he was appointed a Commissioner.

Mr. Gutelius and Mr. Lynch-Staunton drew $65 per day as Commissioners. Mr. Gutelius became General Manager of the Intercolonial on May 1, 1913, and subsequent to that date he drew pay only for the latter position at a salary of $20,000 per year. The term of his engagement is for two years, and thereafter "during the pleasure of the Minister of Railways."

SUFFRAGISTS WILL MEET

Special Wire to The Examiner:

BIRMINGHAM, Ala., March 5.—A campaign to interest the women of the South in the equal suffrage movement and to enlist their aid in efforts to obtain the Federal constitutional amendment now before Congress will be launched here next week at the most notable conference of woman suffrage leaders ever held south of the Ohio river.

The conference will include a meeting of the executive board of the National Equal Suffrage Association, of which Dr. Anna Howard Shaw is president. The board will hold its sessions Monday and Tuesday. On thes ame day there will be a conference of State presidents and other leaders from Georgia, Tennessee, Mississippi, Louisiana, Kentucky and other States of the South.

A leading feature of the gathering will be a public mass meeting at the Jefferson Theatre, with Miss Jane Addams, Mrs. Medill McCormick and other leaders of natfonal prominence as the speakers.

The Alabama Equal Suffrage Association and the women of Birmingham are arranging an elaborate programme of entertainment in honour of the distinguished visitors. Receptions, teas and luncheons will be among the social features. During the conference the business section of the city will be profusely decorated with flags and streamers of yellow, the official colour of the National Equal Suffrage Association.

NO CAUSE FOR ANXIETY.

Havelock Student secures Position in South America — Disappearance Caused Sensation.

Mr. C. R. Holdcroft of Havelock, and A. McAuley of Carrying Place, two Queen's University students, caused quite a sensation in college circles by leaving on Wednesday last without giving their Kingston friends any reason for doing so. We understand that they have secured positions with an oil company in South America and had to leave at once to fill them, which accounts for their sudden departure.

NO ALCOHOL FOR SHACKLETON'S POLAR PARTY

Special Wire to The Examiner:

LONDON, March 4.— Total abstinence from alcoholic stimulants will be strictly observed during Sir Ernest Shackleton's trip across the South Polar continent. He and his men propose to work long hours, including eight hours marching every day, but for stimulant they will reply on nothing stronger than tea or cocoa. The tea will be taken at midday to refreshen the meal for afternoon march, and the cocoa the last thing at night to preserve the body heat during the hours of sleep. Sugar will figure largely in the rations On his last expedition Sir Ernest and his companions took two or three lumps of sugar every two or three hours and he says ten minutes after eating they could feel the heat going through their bodies.

The men thus far chosen for the expedition are between 30 and 41 years of age. Shackleton, who is 39, believes that men are at their best between 25 and 40. A man he says, does not reach his full strength until he is 25, and whatever may be the superiority of youth in the way of spring, nerve and enthusiasm, these do not weigh against the staying power of an older man or the balanced judgment of one who has experience behind him.

The Kaiser Preferred To Stay In Bed

Examiner Special:

BERLIN, March 5.—An amusing story concerning the Kaiser is going the rounds of the sporting clubs in Berlin. He was recently out hunting, and saw a fine big antlered stag which he desired to lay low. Scenting danger, it had, however, gone off into the thick woods of the royal demesne. The Kaiser ordered his head keeper to watch for the stag, and no matter what the hour to let him know when he got sight of it again. One morning at the early hour of six the keeper spotted the stag. He hurriedly went and informed the adjutant-in-waiting, who had no hesitation in waking the Kaiser up. "The big stag has reappeared, your Majesty," said the adjutant. But the Kaiser merely took a tug at his bed covers and rolled over for another nap, murmuring, "Tell him to wait."

THOUSANDS OF FREIGHT CARS HELD BY STORM

TORONTO, March 5.—The first train hauling "dead" freight to cross the frontier since the great storm steamed over the International Bridge from Canada last night at 10 o'clock. The first train load of freight from the United States will arrive in Canada this morning.

The congestion of "dead" freight in the frontier terminals as a result of the storm is said by railway men to be the worst yet known. It is estimated by them that full a million and a half dollars worth of goods have been held in the yards since Sunday. With the delivery commencing to-day it will take almost a week before the congestion is eliminated.

Reports from Niagara Falls state that more than 1,800 cars are stalled on the Canadian side of the border at present, while about 2,500 cars are blockaded in New York State. At Black Rock 3,000 cars are still waiting, while at Bridgeburg 2,200 cars are in a similar condition.

Illustrated Lectures For Boys' Department of Y. M. C. A. This Month

Mr. Galley, boys' secretary of the Y.M.C.A., has outlined an interesting series of illustrated travel lectures for the four Friday evenings during March. Mr. Ivor Brock, Rev. H. J. Keith and Mr. H. R. H. Kenner will be the speakers, and on the 27th a banquet will be held in the gymnasium. The programme is as follows:

March 6th — Illustrated lecture: London, Paris, Switzerland, by Mr. Brock.

March 13th — Illustrated lecture: Trip through India, by Rev. Mr. Keith.

March 20th — Illustrated lecture: Rome, by Mr. Kenner.

March 27th—Boys' banquet in Gymnasium at 6 p.m.

Be sure and attend these lectures and bring a friend with you.

SCHOOL REPORT

Report for S.S. No. 4, South Monaghan, for February, by percentage:

Class V.—Gladstone Finnie 85, Violet Buckham 84.

Sr. IV.—Mary Whittington 80, Vincent Whittington 71, Roy Whittington 65, Annie Nicholson 59.

Jr. IV.—Marie Powers 72, Eva Nurse 66, Charlie Smyth 65, Marjorie Emberson 62, Kathleen Byers 56.

Sr. III.—Marion Emberson 82, Ethel Whittington 67.

Jr. III.Geraldine Powers 88, James Wood 79, Pearl Finnie 74, Helen Whittington 74, Milly Nurse 73, Mary Wood 67, Verna Byers 66.

II.—Edwena Wedlock 72, Thomas Hammond 64, absent Luella Pue, Charlie Ingram.

I. — Clifford Emberson, Harold Thorne, Wilbert Wright.

Primer — Willie Collins, Mary Wood, Joe Powers, Greta Byers.

Perfect Attendance—Roy Whittington, Jimmy Wood, Eva Nurse, Edwena Wedlock, Milly Nurse.

No. on roll—31.

Average attendance—25.

G. E. Marshall, Teacher.

Benton Enquiry Not Closed?

WASHINGTON, March 6. — Gen. Carranza's announcement that he had appointed a special commission to investigate the recent execution by Gen. Villa of William S. Benton, a British subject, coupled with the declaration from Great Britain that she would not look to the United States for action as a result of the incident, was generally accepted yesterday as meaning the abandonment of the expedition of American and British representatives who were to have gone to Chihuahua to examine Benton's body.

Shaughnessy Is Silent.

MONTREAL, March 5. — Asked yesterday regarding a rumor that he had been offered the position of High Commissioner for Canada in London, and was considering the matter, Sir Thomas Shaughnessy, president of the C.P.R., said that he had nothing whatever to say in relation to it. It is believed locally, however, that such a suggestion has been made to him from an official quarter.

Miles in Many Countries.

In England a mile means the familiar 1,760 yards, but in Ireland it means 2,240 yards, and in the Highlands it may mean the old Scots mile of 1,976 yards. In Switzerland the hardy mountaineers think 9,453 the proper thing, even when, as it generally is, it is very much up-hill. The Swiss is the longest mile of all, being followed by the Vienna post mile of 8,296 yards. The Flemish mile is 6,869 yards the Prussian 8,237 yards, and in Denmark they walk 8,244 yards and call it a stroll of a mile. The Arabs call 2,143 yards a mile, while the Turks are satisfied with 1,826 yards, and the Italians shorten the distance of a mile to 1,766.

SOME THINGS AND A FEW OTHERS

Get the Spring fever; feel like a three-year-old; leave off your overcoat and catch a peach of a cold. Easiest thing in the world.

Winter has nearly run its course, but the mystery is unexplained. Husky men encarf their throats and button up overcoats, while frail-looking women trim more or less generous "V's" with a bit of lace. And the men get most of the colds.

The north side of Charlotte Street, near George, is a great sun garden these days.

Keep your eye on "Dollar Day," and understand the offerings of local merchants. It will be a real red-letter day.

One sunny day doesn't make Spring.

Some of the residents of the South Ward have misgiving about the incinerator and open windows in summer time. That dead horse of a week or two ago was rich.

Maybe it would be monotonous to be in Georgia or Florida, watching the workouts of the big leaguers. And maybe it wouldn't.

The city is no worse than others. There was some satisfaction in not being overlooked in such a generalization.

The Peterborough Athletic Club deserves the support of all lovers of good, clean sport in Peterborough. It is making sure progress and more information will be forthcoming later on.

Another little while and the "tar gang" will be with us once more.

GEORGE BAINS' NOSE — BROKEN WATCHING THE LINDSAY GAME

Mr. George Bain, the corporal of the Boston Exploits, journeyed to Lindsay on Tuesday night and brought back a broken nose. He was in the press box, in charge of a pile of Peterborough hockey sticks. The game had scarcely been started when he was struck on the nose with the puck. At half time a Lindsay doctor straightened it, but the member is still quite sore.

JOHN D. ROCKEFELLER. — A late sketch of the great financier, who has moved his residence from Cleveland to New Jersey, because his taxes under the income would be $9,000,000. By the change he saves $3,000,000. The sketch was made as Mr. Rockefeller was leaving church.

Read the list of the stores where the treasure box numbers are given away.

"Soft Pedal" In Debate On Benton Case

Special Wire to The Examiner:

WASHINGTON, D.C., March 5. — Content with the policy of passivity in Mexico and secure in Great Britain's approbation on their course in the Benton case, President Wilson's cabinet this morning appointed Secretary of State Bryan to put the "soft pedal" on congressional debate of the question by appearing and making explanations to the House committee where resolutions censuring the government for inaction have been presented.

COULD THERE BE A BETTER PRAYER?

The most indispensable and valuable asset for the conduct of life is courage—courage to endure, courage to go on. Without these how shall we do more than drag out a miserable existence, moving from place to place, like tramps and beggars living on the doles fate offers us as we slouch along unpremeditated ways? Could there be a better prayer for the opening year than this? "Give us courage to be masters of ourselves, courage to swim against the stream, courage to drown when our dire time is come, with serene hearts and quiet faith in God." When that prayer is answered, living deserves as easy, and dying becomes an episode in the history of a man. If religion did not more than make this forward-looking courage possible it would deserve our reverence and pursuit.

Plan to spread yourself on Dollar Day and secure as many of the big bargains as you can.

"WITH THIS RING I THEE WED"

And then the "plain wedding circle" is slipped over her finger, and the clergyman says, "I now pronounce you."

"Plainness," however, is not so characteristic of wedding rings as it once was. We have the 10, 14, 18 and 22 karat plain gold bands, costing $3.50 to $10.00.

Aside from this, wedding rings vary extensively in width, and other details, giving our display a greater variety than you would think probable.

They are an interesting sight, when all laid before you, and we shall be very glad to have you inspect them.

RATEPAYERS SUED FOR INCOME TAX

Others Will Now Have to Settle —Havelock Council Meeting

HAVELOCK, March 4.—At the regular March meeting of the town council on Monday night, the Clerk reported that judgment had been entered in favour of the village in the suit of T. Fraser for his income tax of 1912 and 1913 taxes, and the clerk was instructed that he be notified that further proceedings would be taken if the judgment was not paid by March 10th.

The Clerk also reported that the suits against A. Paquet and F. Buttery for 1913 income tax, had been paid by the defendants, with costs.

R. Wright asked for a rebate on his taxes of $180 assessment. No action was taken.

T. Callan asked for rebate of $3.12 on income tax of 1912, and on notice of Boylan & Scott, the Clerk was instructed to rebate the $3.12 as Callan had paid taxes on real estate in 1912.

The assessor reported that the C.P.R. had not furnished a list of employees for income assessment purposes, and the Clerk was instructed to write the Company giving them ten days in which to comply with the assessor's request.

A Mr. Gilligan of Smith's Falls applied for the position of scavenger. His letter was filed for further consideration.

The Treasurer was instructed to notify all in arrears for 1913 taxes, that the amounts will be placed in court for collection if not paid by the 20th of March.

Ray Phillips asked for permission to put a gasoline pump under the sidewalk and his request was granted.

The Treasurer was instructed to return Mrs. Forsythe's areas of taxes against the property.

The clerk was instructed to notify Mr. Jas. Thompson that he must erect a guard around the ruins of his stage, to protect the public.

Pay sheet No. 3 was passed and the Council adjourned.

Miss Cartwright, principal of St. Hilda's College, Toronto, and President of the Woman's Auxiliary for the Diocese of Toronto will visit and address the branch of St. John's Church, Havelock, on Wednesday of next week, 11th inst.

SCHOOL REPORT

Following is the report of S. S. No. 3, S. Monaghan for February:

Sr. IV—May Dawson 73 p.c., Cora Bradshaw, 66 p.c., Frank Dawson, 56 p.c.

Jr. IV.—May Murney 55 p.c.

OLDEST AND LARGEST COLLECTION OF CRIMINAL WEAPONS IN CANADA.—This curio case is the property of the Toronto Police Department, and contains revolvers, knives, wheels of fortune, counterfeit bills, and other means of cheating the law. The collection dates from 30 years ago, and is the largest in Canada.

HOCKEY

TORONTO, MARCH 5.—The old saying that "he who laughs last laughs best" was again exemplified last night. Sammy Lichtenhein and the members of the Wanderer team were those with the happy smile, while the local hockey followers and Jack Marshall's team were the downcast ones. It was all over the result of the N. H. A. game, which was the last scheduled fixture of the season. Strange as it may seem, the Montrealers were the victors and the final count 7 to 5.

Wanderers' victory, coupled with the defeat of Ontarios by Canadiens at Montreal, leaves Toronto and Canadiens tied for the honours. Home and home games will be played, with total goals to count. The defeat of the Blue Shirts was the biggest surprise of the season, and many rumours were afloat after the game. Torontos certainly played below their form, but it may be taken into consideration that the Wanderers played brilliant hockey.

Torontos started with a rush and tallied twice in the first half. This good work pleased the fans, who sat back contented. Wanderers, however, were not to be denied. Hyland scored the visitors' only tally in the first period, but the locals had much the best of the play. The remaining two periods were all Wanderers.

Toronto Off Form.

Walker and Foyston were the only local players to display their best form. Clarkson rushed well in the first two periods, but failed to get in as close as usual. On the defensive, however, the weakness was more noticeable. This was especially noticebale in work close in on the nets. Marshall was away below form. Walker was effective in the first period, but after that seldom failed to penetrate the Wanderer defence. Davidson was the weak man on the Toronto team, and the wonder was that Manager Marshall did not replace him sooner than he did. "Cully" Wilson took his place in the last period, and scored two goals in the short time he was on the ice.

There was not a weak spot in the Wanderer line-up. Odie Cleghorn was missing from the forward line, but Randall, who replaced him, played a useful game, particularly in backchecking. Their defence was like a stone wall. Ross and S. Cleghorn were in splendid form. The veteran Ross is far from a "has-been," and while he did not have the speed of the other members of the team, he drew the youthful Toronto forward line into many traps. Cleghorn was good on both the offensive and defensive, his stickhandling being superb. Warwick in goal, a position which up to last night has been the weak point of the team, proved himself of N. H. A calibre. He stopped many hard shots and in addition cleared nicely.

BANK CLERKS ORGANIZE.

Two Hundred of Them Ready to Join in New Movement.

Last night the Associated Bank Clerks of Canada organized in St. George's Hall, Elm Street. J. F. Buschlen, whose efforts in the interest of the bank men have resulted in the proposed society, has on hand communications from over 200 of the clerks, signifying their willingness to associate themselves with the movement, regardless of trouble or expense. Naturally he feels confident of ultimate success.

A temporary committee has drawn up a proposed constitution, setting forth the aims and objects of the association, and was passed upon clause by clause. Mr. Buschlen intends to secure the co-operation of as many bank managers as possible, although he considers that such an organization as his should make a start on its own initiative and on its own resources before calling for help.

That bank clerks of other cities and towns are taking an interest in the movement is shown by a number of letters from men whose places of residence cover the country from Prince Edward Island to Vancouver.

The Merchants are planning hundreds of surprises in big Dollar Values for Dollar Day.

SOME INCUBATOR DON'TS

Don't forget to study your incubator. Get the catalogue that describes your particular machine, and study every part and the construction in general.

Don't try to run the incubator in a place where there is a draft, or near a stove, or in the sun. In such places it will be impossible to maintain a uniform temperature. Set it where the temperature is uniform and you will have much better success.

Don't forget to test the eggs before setting the incubator and three times during incubation. Do not use any doubtful ones. Take no chances with any egg that you are not sure contains a fertile and vital germ.

Don't allow the lamps to burn low. Keep them trimmed correctly and as nearly full of oil as possible. Do not let them smoke. It is a good plan to clean the burners every day to insure a uniform flame and absence of smoke.

Don't place any dirty eggs in the tray. Filth may cause the generation of deadly gases, which will work ruin to many of the fertile eggs.

Don't try to place too many eggs in the trays. Eggs need room in the incubator as much as the chicks need room after they have been placed in the brooder.

Don't forget to turn the egg every second day. The hen generally turns them every day, and the person who attempts artificial incubation should see to this important essential at least each alternate day.

Don't neglect to cool the eggs every morning. The hen leaves her nest at that time for food and drink, and it is natural that the eggs should be exposed for a few minutes to the pure atmosphere.

Don't handle the eggs with dirty hands. There may be enough germs upon the hands to destroy the vitality of the germs in the eggs you touch.

Don't disturb the eggs after the eighteenth day. Better results are obtained by allowing them to remain quiet after that date.

—Farm and Dairy

"GRATEVICTORY FOR SENCE."

Two large orchards, side by side, brought much profit to Farmer Turmut and much trouble, for the orchards were considered fair game by the youth of the village and two orchards are harder to watch than one.

One day, looking from one orchard to the other, Turmut saw a small boy shin down a tree and, uttering a word of warning to another imp still up among the apples, ran off.

"Got yer this time!" he roared to the boy almost hidden among the leaves. "Come down!"

Getting no answer and not being in a hury, he sat down and waited. Time passed and still he waited, until a servant brought him a note that had just been dropped through the letter box. He did not wait after he had read it, as follows:

"Some people as apples, some as sence. You bin wotchin a pair of trowsis stuffed with straw, and we bin gettin' your apples from the other orchard. Grate victory for sence!"

WISE SAYINGS OF MARCUS AURELIUS.

Whatever may befall thee, it was preordained from everlasting.

Mark how fleeting and paltry is the estate of man—yesterday in embryo, to-morrow a mummy or ashes. So for the hair-breadth of time assigned to thee live rationally, and part with life cheerfully, as drops the ripe olive, extolling the season that bore it and the tree that matured it.

All that happens is as usual and familiar as the rose in spring and the crop in summer.

As for life, it is a battle and a sojourning in a strange land; but the fame that comes after is oblivion.

Nothing has such power to broaden the mind as the ability to investigate systematically and truly all that comes under the observation in life.

Though thou be destined to live three thousand years and as many myriads besides, yet remember that no man liveth other life than that which he liveth, nor liveth other than that which he loseth.

Plan to spread yourself on Dollar Day, and secure as many of the big bargains as you can.

THE WINTER DINING ROOM

THE decoration of a dining room depends largely on whether it adjoins the living room, or is across a hall. If the dining-room and living room adjoin and are connected by large double doors, the two rooms should be decorated almost alike. The wall paper should be the same; or if one room is a little darker than the other, use for the darker room a paper of the same color but a lighter shade.

If you do not wish to use the same cretonne in both rooms, you can use a solid color for the dining room hangings. It is a good plan to use the same color as the table covers in the living room. This serves to bring the two rooms together. Between meals it is always pretty to have a runner across the table. This should be of the same stuff as the hangings and about 18 inches wide.

When the dining room does not adjoin the living room, it can be decorated entirely independently. Blue and white dining rooms are always pleasing. There are many cheap papers on the market now in delf blue and white. One of the best designs is a conventionalized tulip. With a paper like that it is well to use plain blue denim for hangings. If you want to keep the room light and airy, put dotted muslin curtains at the windows.

WHAT RUGS TO USE.

In a dining room, rugs should be durable. In case you use a solid paper the rugs may be figured and are less apt to show spots of any kind. But with a figured blue and white paper the rug should be a dark blue solid color with a woven in border of a lighter shade of blue. These rugs come in cheap grades that are reasonably durable.

In a dining room as in a living room, the kind of furniture you have makes less difference than you would think. If your table is ugly put a cover on it that hangs down about a foot all around. Then you get the charm of the color of the cover and forget about the table.

Sideboards are generally either pretty or ugly, and there is very little that can be done to make an ugly sideboard attractive. But if it mars the beauty of your room, it can always be moved to the pantry, where it is just as useful. A built-in corner cupboard for china adds much to a dining room. You can find a picture of one in any book on old furniture, and the family carpenter can copy it.

A serving table is a great comfort to a housekeeper, and a good design is the one that has the appearance of three deep shelves, the lowest being about three inches from the floor. This can be made of cheap wood and stained the color of the rest of your dining room furniture.

SIMPLIFY SERVING OF MEALS

There should be a five-foot screen before the door leading to the pantry. Three panels 15 inches wide is a good size. Get the carpenter to make you the frame and then tack over it stuff like your hangings. If your serving table is placed behind this screen, it will be found to greatly simplify the serving of meals in a quick, orderly manner.

A dining room should, above all, have a clean, clear-cut appearance. It should be kept free from all unnecessary furniture, and there should always be flowers on the table. Artificial flowers can be bought for very little and are so wonderfully made now that it is difficult to tell them from real ones. In winter a vase of these flowers, however small, on the dining room table makes a difference in the appearance of your whole house.

—Farm and Dairy

QUEER ENGLISH VILLAGES.

Villages with but a single inhabitant are not unknown, one of them being Shieldaw, in Cumberland. The single villager complains because he cannot vote, there being no overseer to prepare a voters' list, and no church or other public building on which to publish one, as the law requires.

In the Isle of Ely is a little parish with about a dozen inhabitants that has no rates, as there are no roads or public institutions of any kind, and consequently no expenses.

Kempton, near Bradford, can probably lay successful claim to the distinction of being the largest village in the world, as it straggles along the road for a distance of seven miles.

MILITANTS IN BATTLE.

Bitter Conflict Occurs at Labor Meeting In London.

LONDON, March 5.—Militant suffragettes last night gave further proof that their bitterest animosity is reserved for the Labor party, the only political party which has espoused their cause. As soon as J. Ramsay Macdonald, chairman of the Labor party, began speaking at a Labor party rally in Memorial Hall, suffragettes in all parts of the chamber, aided by a number of male supporters, started to howl him down.

Women ushers had been engaged to deal with women interrupters of the meeting and males to tackle masculine disturbers, but as "bouncers" for their own sex the women proved failures, and the men had to take over their duties. For nearly an hour a fierce struggle raged in the hall. There were frequent free fights between men, while women grabbed one another by the hair and scratched faces and tore clothing. Windows were smashed and chairs broken during the disorder.

Eventually the police were summoned to restore order, and Mr. Macdonald got a chance to finish his speech. In concluding, he said that if the vote could be gained for women by turning out the Government the Labor party would assist them. The worst enemy to the women's cause, he declared, was the women suffragette, of whose methods people in the hall had just had a striking illustration.

TWO CONVICTS ESCAPE.

David Grant and Henry Dart Elude Chatham Turnkey.

CHATHAM, March 5. — David Grant, who last week was sent nor seven years in Kingston for highway robbery, and Henry Dart, alias George Grant, sentenced to two years less two days in the Central for issuing bad checks, escaped from the county jail here early yesterday. Grant is wanted in Toronto for a bad check deal. The men are not related. Searchers shortly before noon had traced the men to a Pere Marquette freight train going south.

Dart and Grant secured a ladder and climbed over the 16-foot wall. Persons on the outside were evidently connected with the plot, as the men went directly to Terry's teahouse, where Dart changed his clothes to a suit of civilian clothes, which apparently were left there.

The Chinaman whose name was [illegible] suggestion and whose house burned down while he was trying to spell it over the telephone still has a good deal left to complain of.

WANT THIRD UPRISING.

Diaz Representatives Want U. S. To Help In Project.

WASHINGTON, March 5. — Although Great Britain's reluctance to press the Benton case at this time has made the Mexican situation less acute, there are several aspects of it which it is now practically certain will occasion spirited debate in the Senate in a few days.

Senator Fall of New Mexico yesterday presented to the foreign relations committee, Pedro Del Vilar and Cecilio Ocon, representing the political interests of Felix Diaz. Members of the committee were frankly amazed when the Mexicans sought the moral support by the United States of a movement to bring about peace in Mexico by another revolution headed by Diaz. The committee had no idea, it is said, as to the exact purpose of their visit other than that they wished to present information about the situation in Mexico. Members of the committee flatly stated that the United States could not recognize any such movement.

Vilar and Ocon severely arraigned Huerta as corrupt and Carranza and Villa as bandits, and argued that Felix Diaz had a host of Mexican citizens behind him who would rush to his support to establish a real government in Mexico. They wanted to get a promise, if possible, from the United States Government that it would uphold Diaz and recognize him if a counter-revolution succeeded. Several members of the committee characterized the proposition as preposterous.

BOY GETS 20 YEARS.

Lad Who Slew Seven Persons Is Sentenced to Prison.

NANTES, France, March 5.—Marcel Redureau, the 16-year-old lad who last September killed seven persons with an axe at Basbriage-en-Landreau, was found guilty of the charge against him, and sentenced to twenty years in prison. The sentence is the maximum allowed by law. The trial of Redureau began Tuesday.

In summing up for the defence, the boy's lawyer declared that at the time of the commission of the murders, the lad was laboring under extensive nervous fatigue, due to hard work. When asked if he had anything to add to the words of his lawyer, Redureau rose with lowered head, and wept, but said nothing.

An Inference.

I like the girl with smooth hands well enough—
I suppose she's as nice as another—
But I think more of the girl whose hands
Show signs of rough
Denote she has been helping mother.
—Evening City Topics

BRIEFS FROM THE WIRES.

Orford Township lost another old resident in the death yesterday of Mrs. Susan Shipp, wife of Mr. Thos. Shipp of Palmyra; aged 79.

As a result of the crusade against cigarettes by the temperance workers of Clinton, Ont., the license fee has been raised from $15 to $60.

Prince William and Princess Sophie of Albania left Saxony yesterday for Albania after paying a farewell visit to the princess' paternal home.

G. G. S. Lindsay, K.C., was yesterday elected president of the Canadian Mining Institute. Mr. Lindsay is the first lawyer to occupy the position.

The first spring influx of British immigrants numbering 1,000 persons bound for the Canadian prairie provinces arrived in Montreal from Halifax yesterday.

The bill designed to give Buffalo, N.Y., a commission charter, with the approval of the voters at the next election, passed the State Assembly by a vote of 107 to 3.

More than five thousand people gathered in the little town of Aylmer, Que., yesterday morning to pay their last tribute to the memory of its native son, Hon. C. R. Devlin.

The London, Ont., Board of Education officially endorsed the proposal of Andrew Brodeur, M.P., to prohibit the sale, manufacture or importation of cigarettes in Canada.

The death took place in Guelph yesterday of John Sleeman, the widely-known brewer. He was in his 87th year, was born in England and came to Canada in the year 1836.

Two thousand people in St. John's, Que., are suffering from a form of mild typhoid at first thought to be intestinal grip. A physician of the town attributes its alarming spread to impure water.

Rival For Hydro-Radials.

LONDON, Ont., March 5.—Maanter, Beer & Co., representing [illegible], Montreal and New York capitalists, will this week apply for a charter to build a new $2,000,000 radial line from London to Grand Bend on Lake Huron and from there to [illegible] and eventually take in [illegible], Guelph, Galt, Toronto and Mt. Clemens.

Many Jobs Means Insomnia.

GALT, March 5.—[illegible], aged 78, a shareholder, was removed to the hospital yesterday in an ambulance. She was found lying exhausted by privation and cold in her little home where she lived all alone. Her condition is critical.

$200.00 in cash bonus not to be given away will make Dollar Day interesting.

IN THE WORLD OF SPORT

GOOD SEASON FOR THE CRICKET CLUB
WON NINE OUT OF TWELVE MATCHES

Report of Local Organization During 1913 Shows the Club is in a Very Healthy Condition.

ANNUAL MEETING FRIDAY

The annnual meeting of the Peterboorough Cricket Club will be held on Friday night in the Y.M.C.A. and in view of this fact the annual report of the Hon. Secretary, Mr. J. H. Thompson, should be of interest to all lovers of cricket.

The report is as follows:

In presenting this report it may be said at once that, all things considered, the season 1913 has been a very satisfactory one. The total membership, including honorary and playing members, numbered twenty-four (24.) This may appear small, but in view of the fact that this is our first season and that a late start was made in organizing, it could not well be otherwise. Owing to this late start some difficulty was experienced in obtaining fixtures; however, we managed to get twelve (12) games of which we won nine (9) and lost three (3.)

No phenomenal totals were made, our highest being one hundred and eighty-three (183) against Grace Church Club of Toronto, and in this same game our highest individual score of seventy-nine (79) was made by C. Levy. The average for the season are as follows:

Batting (10 runs per inning as minimum.)

Name.	No. of Innings.	Runs Per Innings.
Levy	9	15.4
Dela Fosse	5	14.7
Thompson	8	12.4
Whitehouse	5	12.2
Patterson	5	11.0
Boone	10	10.7
Cumming	2	10.3
Yaxley	11	10.0

Bowling—

Name	Total Wickets.	Runs Per Wicket.
Lawrence	36	8.3
Yaxley	35	9.0
Boone	11	4.54
Foster	12	8.5
Levy	12	11.16
Paterson	6	5.83

Net practice and all home matches took place on the Oval, which is an ideal cricket ground but for two serious drawbacks. The first is that home fixtures cannot be arranged with certainty for the whole season owing to the ground being of necessity a public one, and the second is that no water is available for the preparation and maintenance of pitches. This lack of water was felt acutely last season, and especially so on the practice pitches, which became so hard and uneven that good practice was out of the question, and any practice at medium or fast bowling became dangerous. The question of obtaining a ground of our own on lease has been mooted, but owing to lack of finances there does not appear to be any immediate prospect of this materialising. Suggestions would be appreciated.

Finances.

As will be seen from the balance sheet, the club closed the season clear of debt, in spite of initial outlay on cricket material. The only source of income was members' subscriptions, and this, as shown, was not quite enough to meet all expense. However, the deficit was made up by contribution from a few of the playing members.

The expenses shown on the balance sheet are by no means the only ones incurred. Visiting teams were entertained in a modest way and every effort made to make their visits pleasant ones, the outlay being covered by a levy upon each playing member of our team. In addition, when playing away matches, each member of our team paid all his own expenses. During the past season the prospect of having to meet these incidental expenses prevented several good players from taking part in the game owing to their lack of means, and, bearing on this question, it has been suggested that during the coming season a fund be set apart wherefrom a part of these incidental expenses be paid in such deserving case as say a man earning a labourer's wage and supporting a family. Such fund need not be large one—$30 would go a long way—but whether or not it is established depends entirely upon subscription, since this is our only source of revenue. Apropos of this subject of finance, the executive committee thank heartily the honorary members for their support during the past season.

Balance Sheet.

Income—

Income from all sources	$126.20
Deficit (ignoring 9c. balance in bank	14.74
	$140.94

Expenditure—

Cricket material	$98.79
Wages of groundsman and scorer, and railway fare of scorer	28.14
Stationery	8.25
Postage, telephone and incidentals	3.42
Express charges	2.25
Bank balance	0.9
	$140.94

Note.—Above deficit will not be carried forward to 1914. It has been subscribed by several of the playing members.

R. ROSE,
G. R. HALL,
Hon. Auditors.

Prospect For 1914.

Most of our matches will probably be against teams in the surrounding district, embracing Lakefield, Port Hope, Campbellford, etc., all of which are more or less accessible for half day fixtures. There will be no difficulty in obtaining games with Toronto teams, but our visits to Toronto will be confined to public holidays as far as possible. With the co-operation of a few of the neighbouring towns it might be possible to form a league so that we would not be so dependent upon friendly fixtures, but in any case there should be nothing in the way of our getting at least 15 games.

Notice of General Meeting.

A general meeting will be held in the Y.M.C.A. on the evening of Friday, March 13th, at 8 p.m. Business: Discussion of report, election of officers for 1914.

This meeting will be open to the public, and all interested are earnestly requested to make it a duty to attend.

J. H. THOMPSON,
Hon. Sec.-Treasurer.

The officers last season were:
Hon. President—Judge Huyche.
Hon. Vice-Presidents—Major Cooper, J. H. Burnham, Esq., M.P., C. H. Pennefather, Esq., J. E. Stratton, Esq., E. G. Patterson, Esq., E. R. Hall, Esq., M.P.P.
Captain—E. Whitehouse.
Vice-Captain—F. M. Dela Fosse.
Sec.-Treas.—J. H. Thompson.
Executive Committee—Messrs. G. R. Hall, P. Lawrence, H. Foster, G. V. Boone, C. Levy, W. Brown, G. Bennett, S. Yaxley, R. Rose, J. Cumming.

CANADIAN LEAGUE NOTES

ST. THOMAS, March 4. — Midge Craven, who has been playing scout for the past two weeks, returned to the City yesterday. The towns visited were for the most part in Michigan, which, as Midge says, is some Paradise for ball players. "You can pick them off the trees there," said he. His trip was successful in every way. He got everything he went after and a little besides. The first question that Midge settled was that of training grounds. It was said some time ago that the Saints would train at Charlotte, Mich., and it was definite. While training there the Saints, according to Midge, will take on such clubs as Olivette, Jackson, Kalamazoo and Battle Creek, and in this way defray a little of the training expense.

The old pitchers, Howick, Wilkinson, Reilly, Clement, Baker, and Hughey will again perform at Pinafore. Not content with this aggregation of star twirlers, Midge entered into negotiations with half a dozen more. With this selection the Saints should have the best staff in the League, bar none. Wilkinson led the League last year, having won 7, lost 1, and tied one. He expects to have a big season this year and has been training all winter. Wilkinson is the youngest pitcher in the League and is, by far the most promising. Last year, in his eighteenth year, he twirled a memorable game against the veteran Bobbie Heck, of the Cockneys. The game went eleven innings, and ended scoreless. In the nine games he allowed a average of five hits per game. Wilkinson was secured last July from the Naps, and will eventually be gobbled up by the majors, likely the Naps. He is playing in the Canadian League for the experience derived, and ought to make a major league club in a couple of seasons.

Kopp and Kustus will return to the field. There seemed to be considerable doubt as to whether Kopp would sign or join the outlaws, but Craven's little visit banished all fear. Dave Inker and Sweeney will do the receiving. With the exception of Forgus the infield will be all new. Gil. has been sick lately, but declares he will be in the game again. While Jerry Midge negotiated with several infielders, but as no contracts have been signed, he is not at liberty to divulge his new finds. Hess, of Cleveland has signed, however, and will report.

Prospects are bright for a successful year. President Stanley is very optimistic and believes that his hirelings will carry off the pennant. The grounds at Pinafore will be fixed up and improvements made to the bleachers. About all that remains to ensure the best ball season in St. Thomas' history is that the fans turn out to support the home team.

LONDON, March 4—Manager Reisling is of the opinion that he has located a shortstop that will make London fans forget all about George Dunlop. In a letter to President Stevly he states that he will forward this new phenom's contract in a couple of days. His name is Whitcraft and he hails from Norfolk, Va., down near the place that turned out Oakes Neale.

Whitcraft has a splendid record, and he comes to London well recommended. He is practically the only shortstop signed up by the London Club, although a number of infielders, who no doubt could be used at short field position, have been landed. He is fast and has a quick, snappy throw. He is also a good hitter and seems to have all the qualifications of a good player.

The London Club roster is practically complete. A couple more players may be signed up for a trial before the training season opens, but Manager Reisling is satisfied that he has a pretty likely bunch to pick from at the present time, and he is only waiting for the middle of April to roll around in order to see them in real action. All the arrangements for the training camp in Marietta, Ohio, have been made, and good weather is all that is needed to make the affair a success.

AUBURN, N. Y., March 3. — The National Board of Arbitration of the National Association of Professional Baseball Leagues, to-day denied the application of the Canadian League to be advanced to Class B, and among the other decisions handed down was:

Service of players awarded: Frank Kelly to Peterborough, Ont.

The above decision was received here this morning and will doubtless prove a source of much disappointment to Canadian League fans and a great surprise to the majority of club owners as well as fans. That there was a chance of the application of the Canadian League for admittance to class B company being denied has been known for some time by those in close touch with baseball affairs. The reason for the action of the National Board was that the rules of the National Association prevented the Canadian League from including the population of Toronto in the population figures of the league. Classification is given according to a league's combined population. When President Fitzgerald made application for class B rating he included the population of Toronto with his figures, but at the same time claimed that the combined population of the other seven cities in the circuit was enough to give the League the rating adopted. In making his claim President Fitzgerald went on the figures of population for each city published by the Dominion government in an official announcement within the past six months when, as a matter of fact the rules of the National Association are to the effect that "classification is to be based upon the aggregate population of the cities comprising the league, according to the last published official census preceding the application." The last Dominion of Canada census was taken in 1911, with the result that the aggregate population figures for all the cities would be much below what they now are. Using the population figures of the 1911 census, the circuit, exclusive of Toronto, certainly would not reach the 400,000 mark, which is necessary for Class B rating. Using the figures issued by the government some months ago, the total population of the seven cities would pass the 600,000 mark, and if Toronto was added, would reach the 900,000 mark. The National Association refuses to consider Toronto's population in the League aggregate, however, on the ground that Toronto has already been counted in the International League aggregate and cannot be counted by another league. President Fitzgerald had been advised by Secretary Farrell, of the National Association, of the circumstances, and was also informed that Mr. Farrell, who usually settles such matters himself, had decided to have the national board make the decision. At the last League meeting President Fitzgerald stated that, in the event of the decision being an adverse one, the matter would be carried to the National Comission, while several points would be brought up which would undoubtedly gain the point desired by the League in the end. In the meantime the classification of the Canadian League still remains at Class C, and indications are that it will take some pretty fine manoeuring to attain the higher rating.

EXPLANATION OF ENGLAND'S DEFEAT BY IRELAND

Players Were Much Below Their Club Form—Irishmen Gave a Display That Was Much Beyond the Ability They Show With Their Respective Clubs.

Those who have witnessed the rather feeble displays of Thompson, Clyde's outside left, against Celtic and other teams, must have rubbed their eyes on reading that this same Thompson, in an international jersey, ran round and past the famous Robert Crompton at Middlesbrough in the game between England and Ireland. There is a vast difference between playing on his international side, where every man is primed with enthusiasm, and taking part in a series of club matches, where defeat means so little. Thompson evidently has the international temperament, and the knack of being on the winning side, for he it was who in 1910 scored the only goal of the match against Scotland.

IRELAND'S VICTORY.

Commenting on the defeat of England by Ireland, at Middlesbrough, the Sporting Life critic remarks as follows:

"The explanation of the pronounced defeat of England is that the home players were much below their club form, and the Irishmen gave a display that was much beyond the ability they show with their respective clubs.

"Summarised shortly, the Irishmen rose to the occasion, and the Englishmen did not. I am not going to offer any excuses for the defeat of the home country. They lost—and deserved to lose, and on Saturday's form they would have been defeated by an average club side.

"It has been my good fortune to witness dozens of internationals, and I have seen brilliant and indifferent displays. Matches have come under my ken that were worth travelling over a continent to witness, but others have not been worth the shortest railway journey. Of the poor games I have seen in the previous years not one has compared with that I saw at Middlesbrough. The only one that at all approaches it in my memory is that at Hampden Park four years ago, when not player on the English side was within measurable distance of his reputation. Even in that match there were conception and purpose at times, but on Saturday, so far as the Englishmen were concerned, there was little more than a scramble from start to finish. The e men who represented their country can play heaps better football than they did. It would be all the ore absurd to suppose that they could not, and that makes their poverty of resource against Ireland, their pronounced lack of skill, their marked absence of dash, their feeble, almost puerile, efforts at combination, all the more a cause for wondering surprise."

FOOTBALL BRIBERY.

At Stafford Assizes, before Mr. Justice Lush, Pascoe Bioletti, 67, described as an actor, was convicted for having on 28th November last unlawfully and corruptly agreed to give to one, Jesse Penington, an agent of the West Bromwich Albion Football Club, Limited, the sum of $375 as an inducement to do a certain act in relation to the affairs or business of the said club.

His Lordship, in passing sentence, said the offence was a most discreditable and disgraceful one. There were far too many examples, unfortunately, of the mischievous and baneful effects of this miserable system of gambling on sports. He would pass a sentence which might be perhaps too lenient, but he had considered prisoner's age and character, and that he had been a month in prison. In the circumstances, and not because he regarded it as a light offence, he sentenced prisoner to five months' imprisonment in the second division.

Berlin Players All Passed Up By The Toronto Ball Club

(London Advertiser.)

That the Toronto Canadian League team will be composed of none but Toronto International League recruits and that it will have no resemblance to the Berlin Club whose franchise it took over, is evidenced by the fact that no effort was made to retain in any of the Berlin players who belonged to the club when the transfer was made. The Toronto Club passed up every one and did not bother sending them a contract.

Among the players who were passed up by the Toronto Club and who are free agents as a result are "Biddy" Burns, Jack Getsie, Pitcher Schaefer, Mike Sweeney, Catcher Stroh, Jack Auld and Ernie Dinsmore, the local boy. Some of these players were promising, particularly Auld, Getsie and Dinsmore, who are all youngsters with only a couple of years' experience. The others are a mediocre lot and it is doubtful if the Toronto Club really lost anything by passing them by. Burns was a good lead off man, but he stops there. The others were has-beens.

The Berlin management wrote the majority of these players at the time the transfer was made, telling them that each would receive a contract for a trial with the Toronto Club. Those contracts were never sent out, the Toronto Club preferring to sign up a brand new team out of players who can easily be secured through the International League clubs.

Ernie Dinsmore is Not Worrying.

Ernie Dinsmore, the London player, who is a free-agent at present, is not worrying about his baseball future. He would have liked to try out with the Toronto team and is confident that he would have made the fellow who beat him out for a place step some, but he is at present considering an offer to play in the Cobalt district this summer, and it is altogether likely he will spend the baseball season in Northern Ontario. According to Ernie, one of the Northern Ontario clubs was after him last season, but he preferred to remain with organized baseball. This season another offer has been made, and as the salary is a much better one than he received with Berlin and as good as a class B league could afford to pay, he thinks he'll accept. They only play two games a week in the silver district league so that life up there is one grand, sweet song for the ball players, that is if the black flies and mosquitoes let him alone.

Other Players May Follow His Example.

It is also likely a couple more players who were with the Berlin Club last season will follow Dinsmore's example, and his themselves to the region of bush fires and solid rock. Jack Auld came from Cobalt to the Canadian League and after the had played a couple of games with Berlin last season he wished he was back in Cobalt. Not that the Berlin Club didn't suit him, but he claimed the league he came from was away better than the one to which he came. At least, the financial remuneration was much more satisfying. Auld proved one of the best twirlers in the league before he had been in it long, and it seems strange that the Toronto Club did not look up the dope on him and give him a trial. Promising young pitchers who take care of themselves are a scarce article now-a-days and it's sometimes a pretty costly business passing them up. If the London Club or any of the other clubs in the league are in need of pitchers, they should lose no time in grabbing up Auld. That kid Getsie, who played shortstop for Berlin last season, is also worth a trial on any of the clubs this present season.

Hockey—That's All

TORONTO GLOBE — The tremendous demand for tickets for the St. Michael's-T. R. and A.A. O. H. A. senior final to-night is totally unprecedented in the history of sporting affairs in Toronto.

Again was the all-night waiting line to be seen at the Arena. The police were on the job all night to preserve order and when the ticket sale commenced at 9 o'clock in the morning it lasted only twenty minutes. The police removed scores of all-nighters who were suspected of being speculators. The first of the patient ones arrived at 10 o'clock at night. Snowball battles, bonfires, songs, etc., helped to enliven an otherwise cheerless night.

When the announcement was made, twenty minutes after the Arena sale opened, that the 600 tickts had been disposed of there was a wild demonstration on the part of those who had waited all night for nothing.

While the waiting line clamoured at the south entrance to the Arena a wicket was opened at the north entrance at which tickets were sold to ladies only. Places at the head of the line at the south entrance sold for five dollars each shortly before the sale commenced. In spite of all the O.H.A. precautions there has been a slight leakage somwhere and speculators are asking — and getting — five dollars each for one-dollar tickets.

St. Michael's opened an office at 88 York street for the accommodation of the friends of the club. The Irish were amazed at the number of their "friends." Only a small fraction of the applicants could be accommodated with the limited number of tickets at the disposal of the club. The same conditions prevailed at the north Yonge street office opened by the T. R. and A.A. Several days ago the telephones in the homes and offices of members of the two clubs were discontinued until after the game. At the St. Michael's office the waiting line extended south from near York and King to Wellington and along that street to Simcoe street.

Indications are that fifteen thousand people would witness the game to-night were the Arena large enough to accommodate them and were tickets to be had in the ordinary way.

The newspaper offices were besieged for two days and the sporting writers were obliged to resort to various subterfuges to evade the persistent ticket-seekers. Wherever tickets were on sale they were in demand at any price up to five dollars. In fact the price of the pasteboards seemed to be quite a secondary consideration.

The game will be started as promptly as possible, play being called at 8:30. The only change in the teams will be the substitution of McCamus on the St. Mike's team for Davidson.

TRAMP GOT TEN DAYS

In the Peterborough County Gaol—Arrested by C.P.R. Constable.

C. P. R. Policeman Blatchford turned a "hobo" over to the local authorities on Saturday and his trampship received a sentence of ten days in the Peterborough Jail from Magistrate Mathison as a reward for his vagrancy.

Dollar Day is for every person in the City or District to profit by.

Y.M.C.A. NOTES

Basketball.

In the School Boys' series the White Caps won from the Baglers, 6 to 4. It required 8 1-2 minutes' overtime to decide the contest.

Classes.

Business Men's Class at 6 o'clock to-night.

Employed Boys' Class at 7.30 to-night.

Senior Class, Friday, at 8 p.m.

Hockey.

The Ponies of the Church League play Murray Street team to-night from 10 to 11 p.m.

Life Problem Club.

Rev. F. J. Sawyers will be the speaker at the meeting Sunday afternoon at 4.15 p.m.

We buy anything you may offer to sell.

The Old Country New and Second-hand Store. 199 Charlotte Street.

OBITUARY

MRS. ANDREW YOUNG.

The death of Alice Darling, relict of the late Andrew Young, occurred this morning, Thursday, March 5th, 1914, at her late residence on the 4th Concession of Smith Township.

Mrs. Young was born in Smith Township eighty-two years ago, and had spent her long life in the same neighbourhood, where she endeared herself to a large circle of friends. The deceased leaves to mourn the loss of a loving mother, seven children. They are: Messrs. Thos. and J. D. Young, of Manitoba; Mrs. Jas. Montgomery, of Dundalk, Ont.; Mrs. John Archer, of Smith, and Misses Bessie and Mary, and James A. Young, who reside on the homestead. The funeral will take place at 1:30 p.m. on Saturday, March 7, 1914, from the late residence, 4th Line of Smith, to Little Lake cemetery, Peterborough.

MARY KATHARINE DORIS.

The death occurred yesterday in Keene of a well known resident in the person of Miss Mary Katharine Doris, who passed away after a long illness. The deceased had lived in Peterborough for some time and had many friends in this City who will regret to learn of her demise. While here she was an attendant at St. Peter's Cathedral and a faithful member of the Young Ladies' Sodality. She is survived by her father, two brothers and three sisters.

The funeral will take place to-morrow morning at 9.30 o'clock to St. John's Church, Keene. Interment will take place in St. Peter's Cathedral, Peterborough.

VOCAL & VIOLIN RECITAL

Mrs. J. H. Renwick Soprano.

Miss Mignonne Teighmann Violinist.

J. H. Renwick accompanist.

Collegiate Institute Assembly Hall, under auspices of Peterboro' Health Association.

Friday evening March 6th. Admission silver collection, ten cents and upwards.

LLOYD GEORGE APOLOGIZED.

He Had to Do So, Else Glasgow Heckler Would Have Sued.

LONDON, March 3.—David Lloyd George, the Chancellor of the Exchequer, has just had a novel experience with the British libel laws. At a recent meeting in Glasgow the Chancellor suggested that a heckler must have got into the meeting, which was supposedly confined to Liberal stalwarts, by means of a forged ticket of admission.

"What about Marconis?" was the heckler's repeated question. "I suppose that man came here in a forged ticket." Mr. Lloyd George told his audience, which laughed.

Now the laugh is turned against the Chancellor. His heckler considered the suggestion that he was capable of forgery a distinct slander. He consulted his lawyer, who threatened the Chancellor with suit. After much correspondence Mr. Lloyd George wrote the lawyer a letter, saying:

"If your client or any one else construed the observation I made as reflecting on your client in any way, I much regret it and withdraw the statement in the most unqualified manner."

Some Conservative papers remark that this is the first time that David Lloyd George was ever known to make an apology.

HOCKEY SCORES

Full particulars T. R. & A. A. & St. Michaels by goals to-night at White House.

Gim Family Feud at St. Scholastique, Quebec, Lasted Many Years.— The two-column picture shows John McGibbon, father of the murdered man, and the dead man's two sisters. Single column picture below is Leonard McGibbon, who was sentenced to seven years. Following a feud of seventeen years' duration which originated in a land deal, Leonard McGibbon, in company with his father, Peter, aged 60, and a brother, met John and Elizabeth McGibbon, cousins and members of the other branch of the family, in the fields between the two homesteads. There was a row over a cow which had disappeared, and John levelled his gun and shot Peter in the leg. Leonard immediately levelled his gun and killed his cousin, John, with one discharge. He appeared on a murder charge and his lawyer claimed that he fired in defence of his father. The case lasted two months, requiring two juries, and resulted in a finding of manslaughter.

SOCIAL CIVIL SERVICE CONGRESS

There seems to be some significance —something like poetical justice —in the circumstance of the synchronising of the first meeting of the first Social Civil Service Congress of Canada in Ottawa and the criticism of Hon. Mr. Crothers, Minister of Labour. The congress specially pleads for the recognition of the rights of organized and other labour; while the almost simultaneous debate in parliament emphasized the indifference and neglect of the responsible guardian of the interest of labour. Another contrast lies in the fact that the members of the congress have no other than a moral obligation to take an interest in the toilers of the land; they receive no money reward for this work. The Minister of Labour gets an emolument of $9,500 per year for neglecting duties he is under both moral and official obligations to perform.

URGES PORCELAIN HOUSES

W. Hales Turner of England Says They Would Revolutionize Life.

LONDON, March 3. — A home of porcelain, that can be erected with a screw driver and wrench in a few hours, is the plan of W. Hales Turner, who calls himself "the pioneer of porcelain," and who has explained to a Daily Mirror reporter some details of his project.

"In the construction of the porcelain house," he said, "there is a complete absence of all absorbent materials, such a bricks and mortar, plaster, white wash, concrete, woodwork, and paper. The complete porcelain house is constructed as follows: Framework, preferably of light, rust-proof metal. In this framework are fitted the huge porcelain panels, half an inch thick, 6 feet long and 3 feet wide, weighing 5 pounds to the superficial foot, decorated and glazed on both sides to resist wind, stress, and weather, with steam-tight joints, made of copper-coated asbestos tape.

"Porcelain is non-absorbent, insect and germ proof, fireproof and washable, and it makes possible for all a perfectly hygienic home. As for warmth—an inch-thick wall of pure porcelain glazed both sides is better able to keep out cold than an eighteen-inch brick wall. With bricks and mortar it takes months to erect a house, and, say, five rooms; a porcelain house of the same size can be put up in a few hours."

The River Seine, its branches and canals, connect the city of Rouen with one-fifth the area and one-third the population of France.

A scissors sharpener patented by a New Jersey inventor is provided with a guide so that the blades are applied at the correct angle.

A spiked chain attachment has been invented for driving an automobile upon runners, which can be mounted in place of the wheels.

Normal School Beat Centrals

The Central school hockey team met a seven from the Normal school in an interesting game at Brock Street rink last night, the Normals winning by 5 to 3. The little fellows from the Central played great hockey, but the Normalites' superior weight was too much for them. Sherrett and Soden starred for Centrals, while Kenner and Haylock were the best for the Normals. The teams were:

Centrals		Normals
Gibson	Goal	Nicholls
Gardner Rishor	Defence	Mallory Kinner
Henry	Rover	Munro
Sherett	Centre	Haylock
Howson	Right Wing	Hart
Soden	L. Wing	Butler

Referee—Grover Halpin.

First Games In The Bonspiel of Local Club

The first round of the club bonspiel at the Curling Rink was played last night, with the ice in good condition. Some of the scores were a little wide, but others showed a narrow margin. The scores were as follows:

A. Moore 16, W. D. Campbell 5.
Dr. Wightman 14, G. T. Medd 6.
H. Rose 17, Geo. Stevenson 11.
J. H. Ferguson 11, J. H. Canal 14.
R. Neill 15, R. G. Sturgeon 4.
E. Hicks 15, Geo. Boucher 5.
T. Brightman 15, E. M. Waddell 15. Half defaulted to Ross Cameron.

The games scheduled for to-night are as follows:

W. J. Thompson—S. J. Stubbs.
W. G. Morrow—W. Taylor.
F. Foote—F. M. Dela Fosse.
D. Davidson—S. Clegg.
W. M. Lang—W. H. Denham.
W. McCracken—W. G. Read.

MANY CARS WERE USED BY FRENCH TRANSLATOR

His Expense Bill is Posted by Commons Committee.

OTTAWA, March 4.— The Public Accounts Committee this morning, at the instance of Dr. Edwards, posted a payment of $203 to Wilfrid Larose, of the French translation staff of the House. Until recently Larose was chief translator, but at his own request he has been relieved of his duties as chief. He lives at Vercheres, Quebec, and he was hired by the Public Works Department in 1912 to come up, during the Parliamentary recess, and select new quarters for the translation staff. He made six trips. It was apparent from the accounts that Mr. Larose had a lot of riding in cabs, and stayed over in Montreal en route to and from Ottawa, but the official maintained that everything was regular and the bill justified.

It came out that the Speaker was not consulted in regard to the selection of new quarters, although the requisition to the department should have gone through him.

BIRTHS.

SULLIVAN—At St. Joseph's Hospital on Thursday, March 5, 1914, to Mr. and Mrs. J. E. Sullivan, a son.

THE SWISS NAVY.

Centuries before Germany was to be reckoned with as a sea power Switzerland possessed a fleet equipped for warfare. Eight hundred years ago, on all the larger Swiss lakes, armed galleys were maintained by the rival cantons. Skilled shipwrights had to be imported from Genoa for the construction of their vessels, some of which carried crews of 800 men or more. The largest of these flotillas was maintained on the Lake of Geneva, when the inhabitants of Geneva were at war with Savoy. Since the neutrality of Switzerland has been guaranteed by the powers there has been no need for war vessels on the lakes. The Swiss, however, possess a mercantile navy which carries a considerable amount of trade over the 362 miles of navigable waterways in the republic.

Two French engineers have invented grappling aparatus which in tests has successfully raised sunken submarines.

A Spanish family of seven persons boasts 154 fingers, one member having 12, another 24, and the other five 12 on each hand.

The top of a new typewriter desk is unbroken, the machine being mounted on a shelf beneath, which swings outward and upward.

The first underground railroad in Japan will be built between a new post office and the principal railroad station in Tokio.

Dollar Day is for every person in the City or District to profit by.

EVANTUREL SAYS HE WILL RESIGN

Special Wire to The Examiner:

TORONTO, March 5. — Seen this morning, Gustave Evanturel, Liberal member of the Ontario Legislature, who offered his services to the liquor interests for ten thousand dollars, intimated that he would resign, as practically requested to by both parties, but believed he would come back after the bye-election with almost the unanimous support of his constituency.

VOL. LV. No. 55 14 PAGES PETERBOROUGH, FRIDAY, MARCH 6, 1914 PAGES 1 TO 6 PRICE TWO CENTS

ORIENTALS NOT WANTED IN BRITISH COLUMBIA

Some Interesting Facts and Figures, as Given by Mr. R. F. Green, M.P., for West Kootenay, B.C., at a Meeting of the Canadian Club Last Evening.

RICH IN MINERALS

Those who were fortunate enough to be present at the meeting of the Canadian Club, which was held in the Savoy last evening, had the pleasure of hearing an old Peterborough boy, in the person of Mr. R. F. Green, M. P. for West Kootenay, B.C., deliver an intensely interesting and educative address on "The Pacific Province and its Resources."

Mr. Green prefaced his remarks by saying how glad he was to again meet some of the friends he had known in by-gone years. He was born, as he said, but a stone's throw from where they were now sitting. At the age of 19 or 20 he then, like many other young men, started to roam and look for other places, where he thought that he might better his position.

Sea of Mountains.

During the course of his address, he said in part as follows:

Much as I care for and love the province of my birth, I may say, in all fairness, that my present love is with the province of my adoption. The provinces of Vancouver is 356 thousand square miles, or 228 million square acres in extent. Your will readily see, then, that we have a small empire, in the Province of British Columbia. I think that we are probably the largest province in the Dominion—unless Quebec is a little larger.

It has been named by an eminent statesman, the "Sea of Mountains." We are proud of our sea of mountains and believe that we are well named. We have mountains towering up into the skies. When you realize that what a mineral wealth we have in these mountains, you can readily see that we are proud of the name. Of the 228 millions of acres that we have in the province, there are not more, perhaps, than 12 or 15 millions of that arable, but that which is arable, is particularly fertile.

Population.

In 1871, British Columbia came into the Federation, and was widely separated from the balance of the Dominion, and with a population of 36,247 people all told of which less than ten thousand were whites. From 1871 to 1881, the progress in the addition to our population was very small, and in fact, until the advent of the C.P.R. in 1885 you could count the additions to the province, in the matter of population. In 1891 we had reached a total of 98,173 and in 1901 we had 178,-757. In the census of 1911 we had 392,480, and the present estimation is 425,000 people. It may look large, but the fact is, that the increase has been very great.

The Oriental Question.

I cannot tell you the number of Orientals that we have, but there are a great many indeed. But they are at any rate, undesirable. There are three classes, the Chinese, the Japanese and the Hindu. The Chinaman is a good labourer, there is no question about that, and he is reliable in any way that you want to take him. He never indulges in getting drunk. He is absolutely reliable as a working man. But I want to point out why we do not want them. That class of labourer fills the field. If you want anyone to look after your house, you have got to get an Oriental. The white man objects to working alongside a Chinaman. If you go to the mills of the salmon industry, you will find that the white man has been replaced by an Oriental. Boat building is done by the Chinaman and the fishing by the Japanese.

Not Dangerous.

The Chinamen are not dangerous, except that they live more cheaply, and send the money that they earn out of the country, and while doing that, keep the market clear of white labour. The Japanese is very aggressive. He first took the work in our field and saw mills, and at last the river fishing. To-day he manufactures the boats that the fisherman uses, and he lives more economically than the white man. The Japanese will soon have every industry that we have if we let them. If the people of Canada will only help us to keep these people out of the country and build up a white man's country, we should have a country to be proud of. We have some thirty or forty thousand of these people in the province, but we must have the backbone of the country, the labouring man.

A Timber Land.

Practically half of the province, somewhere around 100,000 acres is timber land. Of the one hundred thousand acres there are sixty-five thousand that are covered with merchantable timber. That comprises about half of the standard timber of Canada. Some of the trees are very large, a few of them being fifty or sixty feet in circumference. The average merchantable timber, however, averages three to five feet in diameter. The revenue resulting from the lumber industry is as much as that received from all sources some years ago. The revenue estimated for this year, is three millions of dollars. While the people of British Columbia have been extravagant in some things, they have been careful in others. They have been careful in respect to the timber. I was Minister of Land and Works from June, 1903, till December, 1906, and before that time there was some legislature in force, whereby the lumberman was making a lot of money. I introduced an Act by which the lumberman was put into partnership with the Government, and the larger his profits, the more he has to pay to the Government.

The Fishing Industry.

The products on last year's work was valued at $15,600,000. That is more than the three Maritime Provinces got altogether, and yet our fisheries are hardly touched. In 1903 the total value of the fisheries was $5,000,000 and in ten years it has been trebled. If we can only keep the Oriental out of it, we would be able to build up the fishing industry and feed millions of people.

Rich in Minerals.

We have a mining country in British Columbia. Some years ago we had a mining boom, and unscrupulous promoters took up grants in the vicinity of a mine, and started in with their glowing prospectus, and mined the people. We have a number of good mines in B.C. In 1903, British Columbia produced $17,500,000. In 1912, three hundred and twenty-six million dollars' worth of ore. In minerals we come second to the Province of Ontario. The total production of metals all told, up till 1912, was four hundred and sixty millions of dollars. We have smelters to reduce the ore, and we have the only refining plant in the Dominion of Canada.

On Agriculture.

A large quantity of grain has to be imported. This is brought about by the fact that we cannot get the men to work on the land. Once it is cleared it will compare favourably with any in the Dominion. We have good fine fruit. We have sent exhibits to London England, Glasgow and Edinburgh, Scotland, and have taken the gold medal award in those countries for the past 12 years.

Future For Shipping.

Are you aware that we have fifteen thousand miles of coast line in British Columbia? It stretches from the 49th parallel to the Alaskan boundary, and in addition we have islands and gulfs, as well as Vancouver itself. The fisheries are becoming more important every day, and there are now patrol boats on the waters to keep out American neighbours from poaching. The fishing industry of B. C. will some day become as important as that of the North Sea is to-day.

The Panama Canal.

The Port of Vancouver has a bigger sea-going tonnage in and out of the harbour, than has Montreal. This is due to the natural advantages that are to be found around the coast. The opening of the Panama Canal will also mean a great deal to Vancouver. In fact it is almost beyond comprehension what that will mean to Vancouver.

Beautiful Scenery.

People from Canada are going to Germany and Switzerland to look at mountain scenery and it is no more attractive than ours. But the tourist traffic is increasing, and to-day is very large. As regards the climate, we can give you any climate you desire to have from the most rigorous to that of Los Angeles. In fact, Victoria has been termed the Canadian Los Angeles.

This concluded the speaker's address.

A hearty vote of thanks was accorded him for taking the trouble of coming to address the meeting.

Mr. Walker, chairman, made reference to the late Rev. T. J. Mansell, who was a member of the committee of the club, expressing the opinion that sincere condolences were offered to the bereaved ones.

RETURNED!

Mr. Fred L. Roy has returned from the Convention of The New York State Society of Photographers, held in Buffalo during the past week.

Woman Concocted Story in Order to Delude Her Husband

POLICE CALLED OFF

WINNIPEG, March 6.—The "Baby Mystery" turns out to be a mystery at all. Mrs. J. B. Jones, who claimed that a mid-wife had carried off her half-hour-old child, has admitted that no child was born to her, and that the story was merely intended to delude her husband.

It appears Jones desired a child, and his wife told him one was coming. Unable to continue the deception, she planned with an unregistered midwife, Mrs. Anderson, to adopt an infant and present it to Jones as his own. They were apparently unable to find a child. When Jones went home one afternoon, his wife was in bed, and told him a child had been born and taken away by Mrs. Anderson. When the child was not returned Jones notified the police, whose search availed nothing. Finally the facts came out, and Mrs. Jones admitted no child had been born, whereupon Jones called off the police.

NEW COMMANDER FOR ROYAL YACHT

Special Wire to The Examiner:

LONDON, March 6.—Plans for the state visit which King George and Queen Mary are to pay to President Poincare next month are rapidly nearing completion. The trip across the channel will be made in the royal yacht Victoria and Albert. The royal yacht will be in charge of Commander George Toulin, who was navigating commander of the P.O. steamship Medina (which was built and fitted out for the occasion by Caird & Co., shipbuilders, Greenock, Scotland), when she conveyed their Majesties to India for the Durbar. Announcement of Commander Toulin's assignment to the Victoria and Albert has just been made.

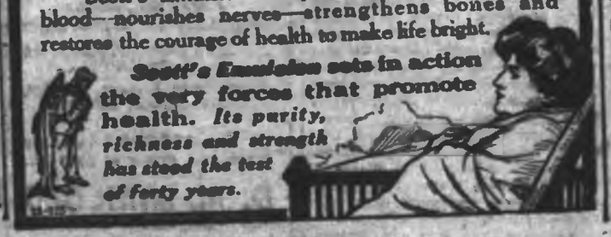
AFTER SICKNESS OR OPERATION

It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves *nourishment* to repair the wasted body and restore the vigor of health.

For forty years the best physicians have relied on the wholesome predigested nourishment in SCOTT'S EMULSION which is totally *free from alcohol or opiates.*

Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright.

Scott's Emulsion acts in action the very forces that promote health. *Its purity, richness and strength has stood the test of forty years.*



ASSESSMENT RETURNS FROM THE CENTRE WARD

WATER STREET—EAST SIDE.

Albert A. Goodfellow, owner, 318 and 320 Water Street. Part lot 1, south of McDonnel, east of Water Streets. Frontage 30 feet 5 inches. Land value $800. Buildings $1,680. Total taxable property $2,480. P.S.S.

PRISON REFORMS SOUGHT

Special Wire to The Examiner:

NEW YORK, March 6.—Superintendents and wardens of prisons in various parts of the United States and Canada addressed a conference here to-day in the interest of prison reform. The meeting was held under the auspices of the Woman's Department of the National Civic Federation, and the first of a series of such meetings to be held in various parts of the country with a view to creating public sentiment in favour of legislation for prison reform and to formulate a definite programme of legislative action.

A WEAK CHESTED BOY

"My boy Frank caught cold—developed and took a very severe cold," writes Mrs. C. Stewart, Regina, Sask. "The cold settled on his chest, and he began to cough him, until we took Dr. Chase's Syrup of Linseed and Turpentine and found it to be exactly what was needed to cure him. No treatment is so thorough and effective as a cure for croup and bronchitis.

RIGHT IN STYLE

"I have been expecting her for some time," declared Dubbe, "and there she is."

"There is who?" asked his wife.

"The woman tramp," answered Dubbe 'Anybody could tell that she is a hobo. Observe how she slouches along with her shoulders humped, her stomach projecting, and her hands thrust into the pockets of some man's discarded overcoat. Yes, and look at her shoes! The heels worn clear off!"

"Silly," giggled Mrs. Dubbe. "She is one of our swellest society girls, in the latest figure, gait, and garb."

The purchase of 24 pieces of motor driven fire apparatus and a motor fire boat is planned for London.

Service
Is Our Watchword
in the examination of the Eye—in the fitting of the proper Glasses—in the eye-glass mount or frame we fit you with.

Having one of the most up-to-date Lens Grinding Plants in Ontario we are in a position to duplicate almost any lens in one hours time. This SERVICE is worth something to you in case of an accident to your glasses.

MONEY TO LOAN

W. G. MORROW
MANAGING DIRECTOR

THEIR WOMEN AIDES.

British Statesmen Have Strong Support In Their Wives.

Miss Olwen Lloyd George, eldest daughter of the Chancellor of the Exchequer, has just become Press-cutter-in-chief to her father.

Diligently every day she applies herself to the self-imposed task of searching newspaper periodicals, and magazines for references to Mr. Lloyd George, making her cuttings, and classifying them in easily get-at-able order.

It is naturally hard work for a girl of twenty-one.

Mr. Lloyd George must be just about the most written of public men of the day, but it is not the first time Miss Olwen has "helped" her father.

A year or two ago someone who was evidently seriously annoyed with the chancellor threw a box at him.

Miss Lloyd George was with him on this occasion, and she promptly set herself to defend him from any further outrage.

"I just sat next to father after that in case anything else was thrown at him," she explained in the most matter of fact way afterwards.

Mr. Lloyd George is very happy in his children, for, besides his eldest daughter, there is Megan. When she was only eight Megan conducted an election campaign so earnestly in the Carnarvon boroughs that they called it "Megan's Campaign."

Not content with motoring all over the place with her mother, she actually made little speeches of her own in Welsh! One day she asked an old man, "Please will you vote for father?"

"Indeed I will. But you must give me a kiss first," he said jokingly.

"Ah," replied Megan gravely, "ah, but that would be bribery and corruption, wouldn't it?"

Although she is only eleven years old, Miss Megan has already declared a creche for fifty babies at Pentonville "open," and once, explaining her absence from the opening of a bazaar her father wrote as follows:

"She is helping me to get well. Her cheerful presence is better than any physic."

In another way Mr. Joseph Chamberlain once paid an equally charming tribute to the value of his wife's influence on him. In one of his rare moments of public confidence he said of Mrs. Chamberlain:

"She has sustained me by her courage and cheered me by her gracious companionship, and I have found her my best and truest counsellor."

No stateman could have paid a higher compliment to a woman than that.

Mrs. Winston Churchill is well known to be one of the most active of feminine influences behind the political scenes. She takes a most practical and enthusiastic interest in the First Lord's work, and, whether he is inspecting docks or experimenting in naval air-craft "Mrs. Winston" is more often than not with him or else close at hand.

Will Crooks is another politician blessed with womanfolk not merely content to be exploited and put "on show" at election time. In Mrs. Crooks, for instance—"the missus," as he calls her—he has a most valuable helper, a woman who not only organises a club for poor working girls, but who is quite capable of making a speech "off her own bat" on occasions.

Mr. Asquith, Mr. Bonar Law, and others employ women as their confidential secretaries, too, and so altogether, despite what the suffragettes may say, women undoubtedly do have a good deal to do with the inside of Parliamentary matters.

Stolen Goods Found.

Buried treasure which has been discovered in the Crystal Woods, near Cardiff, throws a light on a burglary which took place about forty years ago.

A workman noticed some articles protruding from the earth at the foot of a large tree, and found them to be pieces of old silver. He dug out 11 silver candlesticks, two large silver wine cups, a silver model of a cow, a silver inkstand, four silver punch ladles, two glass inkpots, and some silver dishes.

He informed the police, who believe the articles to be property stolen from the Heath House when in the occupation of the late Mr. Wyndham Lewis. Mr. Wyndham Lewis was married in 1873 to the present Lady Orr-Ewing, the widow of Sir William Orr-Ewing, and the articles have been forwarded to her in Scotland.

Barred Queen From Museum.

Because she refused to give up her umbrella the Queen of England was refused admittance to Norwich Castle Museum.

Queen Mary was accompanied by the Bishop of Norwich. As it was a purely private visit, no notification had been given. The attendant, failing to recognise the Queen, stubbornly refused to admit her with the umbrella, which she, with equal stubbornness, refused to surrender.

The bishop intervened, but without effect, until he disclosed the identity of the royal visitor. Profuse apologies followed, and the Queen entered bearing her umbrella in triumph.

One Triumph Left.

Let women vote, and trousers wear,
And carry canes, and crop their hair,
And give up chewing gum and pins,
And copy all our swagger sins,
And all our ancient glories share,
And say "Ha, ha!" What do I care?
Let women vote!
Their work with ours may well compare
In competition free and fair,
But we are safe—excuse these grins—
They can't grow whiskers on their chins.
Let women vote!
—Chicago News.

Worth Defending.

"So you are going to build another racing yacht?"

"Yes," replied the eminent sportsman. "People are easily forgotten. A man has to go to some trouble and expense even to keep up his reputation as a good loser."—Spokane Spokesman-Review.

ECZEMA AND SORE EYES

"My daughter suffered from inflamed eyelids and eczema on her head," writes Mr. E. W. Lear, Port Planford, Nfld. "The child was in a bad state and suffered greatly. The doctor failed to help her, and on recommendation of a friend, I used Dr Chase's Ointment, which made a complete cure. With a grateful heart I write you this letter."

Martinique.

Martinique, one of the French West Indies, has an area of 380 square miles and a population of about 183,000, some 180,000 of whom were born in France or French colonies and 3,000 in foreign countries.

Berlin Butchers.

The butchers of Berlin have a curious way of informing their customers of the days on which fresh sausages are made by placing a chair covered with a large, clean apron at the side of the shop door.—London Telegraph.

Conflicting.

"Haven't I told you," asked the father, "always to tell the truth?"

"Yes, you told me that," the young man admitted, "but at another time you told me never to become [illegible]"

Australian Dry Farming.

Farming on dry soil has proved quite successfully in Australia. The agent-general for Western Australia, Sir Newton Moore, has received an interesting report on the awards for wheat given by the Royal Agricultural Society of Western Australia at the recent show. The champion prize was won by a farmer of only five years' experience, and the wheat was grown in the Dowerin district which only a few years ago was considered too dry for wheat growing, but which has regularly yielded to this farmer 15 bushels per acre. In the competition for hard wheat the first three prizes were won by farmers who obtained handsome yields with a comparatively light rainfall, ranging from 9 1-2 to 13 1-2 inches. The yields went as high as 30 bushels to the acre. The third prize winner, on a 9 1-2 inch rainfall, obtained a yield as high as 27 bushels, and the lowest yield on his farm was 16 bushels.

Low Spirits From Weak Nerves

Low spirits, depression, discouragement are a form of nervous disease. You worry over little things, and at the slightest ailment apprehend the gravest dangers and diseases. You form the habit of looking at the dark side of things.

Indigestion is a frequent accompaniment, and you probably do not sleep or rest well. The cause of the trouble is to be found in the exhausted condition of the nerves. To get well you must build up the feeble, wasted nerve cells by use of such treatment as Dr. Chase's Nerve Food.

This great food cure forms new, rich blood, and thereby nourishes the nervous system back to health and vigour. There is nothing like new nerve force to bring back hope and confidence to the weak and discouraged. This treatment works in natural ways to restore health, and, therefore, cannot fail to prove of benefit to you. Put it to the test and you will be surprised with the building-up influence that will result.

The Secret of Baldness.

The actual condition of the scalp and of the hair has very much less to do with the health of the latter than is popularly supposed. The bulbs of the roots of the hair go down completely through the skin and into the fatty layer which lies between it and the skull, and the thing that to the expert eye is really significant of the prospect as to progress or cure in a particular case of baldness is not the condition or color or cleanliness of the scalp, but the thickness or thinness of this fatty layer which underlies it. So long as this is present and the scalp is freely movable over the skull there is hope of restoring a reasonable growth of hair, but when this fat has been absorbed and the shiny scalp sticks as closely to the skull as the cover on a baseball the outlook is practically hopeless. This, of course, shows at once the futility of most of the local applications to and manipulations of the scalp, from which it suffers untold torments in those who are or imagine themselves to be becoming bald.

A Preparatory Course.

There is a judge in Salem, Mass., who, behind a benignant exterior, hides an occasional surprise for persistent evildoers. Not long ago there came up before him for sentence two youths who had been guilty of a long sequence of misdeeds. Both were under age, each having just passed his nineteenth birthday. Having been caught with the goods on them, they had pleaded guilty in the hope of getting off with a light punishment.

The judge adjusted his glasses and through them beamed softly at the young lawbreakers.

"Now, then, boys," he said softly, "I'm going to send you two to the state reformatory for two years apiece"—his voice suddenly changed—"and while you're there you can both be studying for the state penitentiary."—Saturday Evening Post.

Colors of the Rainbow.

Violet, indigo, blue, green, yellow, orange and red are the colors of the rainbow. Most are sure of that. It is true, however, of only a very few rainbows. The colors of rainbows vary with their width, and their width varies with the size of the raindrops, big drops producing narrow bows with bright, clearly defined colors, small drops producing wide bows with pale colors. Here are the colors as generally seen: First, when the raindrops average one millimeter in diameter, violet, light blue, bluish green, green, yellow, orange, light red, dark red; second, when the drops average three-tenths of a millimeter in diameter, violet, light blue, bluish green, green, yellow, orange, and, third, when the drops average one-tenth of a millimeter, very pale violet, violet, whitish blue, whitish green.

Convict Smoke.

There has been a movement for separate tables at meals among the convicts at the prison "hotel" at Camp Hill, Isle of Wight, where an attempt is made to reform convicts by special privileges.

Meal-times at Camp Hill are social functions which the warders are not permitted to disturb. Those old habitual criminals who have been granted many comforts by the authorities have after-dinner chats which are often of a strictly confidential nature.

Lately a distinct "caste" feeling has sprung up. The more notorious men have formed a clique. They decline to discuss subjects with men of less repute. Apart from this purely professional jealousy, there are sharp cleavages of opinion, religious, moral, and political, which have been so marked that further controversy on gentlemanly lines is out of the question.

Historic House Passes.

A house with man. historic memories—No. 35 St. Martin street, Leicester Square, where once Sir Isaac Newton and Dr. Burney dwelt — is now being demolished. Newton lived here from 1720 to 1725, and used to say that the happiest years of his life were spent in an observatory on the roof. Dr. Burney, the musician, friend of Dr. Johnson, afterwards lived in the house, and here was born his daughter Fanny, afterwards Mme. D'Arblay, who wrote her first novel, "Evelina," in the house.

Real Ritual Murder.

An extraordinary tragedy of superstition is reported from Burdwan, where a man named Vabamidan murdered his wife with her own consent in the course of a secret ceremonial. Vabamidan had for some time been learning the principles of Tantric worship from a monk. To complete his studies he needed a dead body, and on his assurance that he would restore her to life when he had finished his worship, the wife consented to be killed. The man is now in the hands of the police.

England's Tobacco Crop Good.

It is announced that this year's English tobacco crop is likely to be exceedingly good, from the standpoint of quality. Especially favorable is the report regarding the crop grown in Hampshire. The development commission have placed their rehandling shed in England, and the main farm at Church Crookham, has become a centre of considerable activity.

A Millionaire's Freak.

M. Spiridinoff, a well-known Moscow millionaire, is just about to celebrate his golden wedding. To the festivities which are to mark the event two hundred guests have been invited. Each of these two hundred people received the other day a special and appropriate card of invitation, made of pure gold. As each card weighs 20 grammes, which is rather less than 3-4 oz. avoirdupois, it follows that the total amount of gold used is just about nine pounds. The metal was transformed into these unique missive, on which the invitation was worked in enamel by a Moscow goldsmith. Each invitation card is valued at about $30.

Terribly Afflicted With Lame Back.

Could Not Sweep The Floor.

When the back aches and pains it is almost impossible for women to do their housework, for every move and every turn means an ache or a pain.

Women are beginning to understand that weak, lame, and aching backs from which they suffer so much are due to wrong action of the kidneys, and should be attended to at once so as to avoid years of suffering from kidney trouble.

On the first sign of anything wrong with the back Doan's Kidney Pills should be taken.

They go right to the seat of the trouble.

Mrs. Wilfrid Jolicoeur, Nouvelle, Que., writes:—"I take pleasure in writing you stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not sweep my own floor. I was advised to try Doan's Kidney Pills. I only used three boxes, and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

Price, 50 cents per box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Toronto, Ont.

If ordering direct specify "Doan's."

There is nothing like a "Tea Pot" test at your own table to prove its sterling worth!

"SALADA"

TEA "Always and Easily the Best"

BLACK, GREEN, or MIXED. Sealed Airtight Packages Only

Just as you are, no change for me,
Truehearted friend,
I like the faults that others see.
We don't pretend
That life is much beside a dream
And things are not the way they seem.

Just as you are. I do not ask
Perfection, no,
I only want to see the task
That tries you so;
And aid you in it to the last,
And ward from you life's tempest blast.

Just as you are: change not your voice,
Nor yet your smile,
Both make me constantly rejoice,
Linger a while
And let me see again those eyes
That make me strong to silence sighs.

To your virtue I would not add;
Yours doth suffice,
Example fair to make all glad,
At any price.
I'll try to emulate your grace,
In your heart find my resting place.

I'd change you not; to Time leave all
Too soon, alas,
The stage be dark, the curtain fall,
The actors pass,
And I will know, to my distress,
Not e'en your faults can I possess.

Nathaniel Ferguson.

LOANED SERMONS

A Scathing Criticism by a Carlisle Bishop

Men who preached merely borrowed sermons, said the Bishop of Carlisle, at the Islington Clerical Meeting, were in grave peril, as all borrowers were, of ultimately becoming bankrupt. Thought-lenders were in some ways almost as ruinous as money-lenders. It was hard to imagine any real teacher depending much on borrowed sermons. There might be occasions of fatigue or overpressure which made borrowing inevitable, but if they desired to preach with power their sermons must be their own and well thought out. One reason why some churches were empty was because the teachings of their pulpits were secondhand, antiquated, nutritious, sterile. They had no living touch with the current age, its thoughts, its wants, its ideals. The Bishop added that he was wholly against packing off lads and youths into seminaries until they had been trained to think freely and independently, to abhor labels and shibboleths, schools and fashions. Their greatest and noblest work lay before theological colleges when they had strengthened their status and modernized their curricula.

WRITING to the agents entrusted with the purchasing of the stores for the forthcoming Imperial Trans-Antarctic Expedition, Sir Ernest Shackleton uses these words:

"I consider the question of the concentrated beef supply is most important—

it must be Bovril"

Men who trust their lives to their food take no risks, and Sir Ernest Shackleton, planning this expedition with an intimate knowledge of stores in ice and snow, has recognized the scientifically proved value of Bovril.

The independent scientific investigation which proved the Body-building Power of Bovril to be from 10 to 20 times the amount taken was carried out by one of the foremost physiologists of the Kingdom on behalf of a Government Department, and the results obtained applied to Bovril and Bovril alone.

Even were it double the price, Bovril would still be an economical and indispensable article in every home.

Of all Stores, etc., at

1-oz., 25c.; 2-oz., 40c.; 4 oz., 70c.; 8-oz., $1.30; 16-oz., $2.25.
Bovril Cordial, large, $1.25; 5-oz., 40c.
16-oz. Johnston's *Fluid Beef (Vimbos)*, $1.20.

THE CHIEF OBJECT OF DEVELOPMENT

Secure the Best Use of Things For the Present and Leave Them in Best Condition For Future

"Too often and too much the eyes of public men and the people generally are fixed exclusively upon some local political programme," says J. W. Robertson of the Royal Commission on Technical Education in Canada. "The vocational training of all the people to be contributing earners, good citizens and worthy members of the race is really the world's greatest movement at the present time. All the foremost nations are on the march. The campaign is against ignorance and inability and ill-will. The hope is emancipation from poverty, disease and vice, and the attainment of new and higher levels of happiness and power by all the people. In the freshness and vigor of its youth Canada turns readily to questions of material growth and development. Canadians feel that they are coming into their own. Yet their attention and imagination are captivated by wealth in things more than their hearts are stirred by the possession of power with knowledge and desire to use it wisely. With all the fine attributes which belong to youth the country has many of its handicaps and dangers. Hence the urgency for educational training, which will be adequate not only for material progress, but for the enjoyment of its achievements and for the real advancement of intellectual, social and spiritual interests and outlook.

"The chief object of development is to secure the best use of things for the present and to leave them in the best condition for the future, to attain the best characters in the people and provide the best quality of life and opportunities for their successors. In all the provinces there is evidence of progress. The Provincial Governments are not only responding to the demands on them as far as their revenues permit, but they are leading, encouraging and guiding the local communities.

Burns of Children

That more girls than boys are fatally burned in the interesting conclusion of investigations made in England by Dr. Brend. Due reflection upon the ages at which these fatalities are recorded in the reliable statistics which the Journal of the American Medical Association presents in a recent issue discloses the reason.

The subjoined table enumerates these fatal accidents during the five years from 1906 to 1911:

Age	Boys	Girls
Up to one year.....	214	234
From one to four.....	1,663	1,883
From four to five.....	368	778
From five to ten.....	389	1,427
From ten to twenty.....	80	631

Keep the pot a' boiling.

Who wouldn't enjoy fish when it's served this way?

WHITE SAUCE FOR FISH. To one packet of Edwards' DESICCATED

White Sour add a little water, and boil for ten minutes. Then add half-pint of milk, and let it boil for five minutes. Strain, then season to taste. Chopped parsley may be added.

Edwards' Soups come in three varieties—

Brown, Tomato and White. **5c** packet and upwards, but the 5c size is the same quality

Grocers everywhere have them.

Newsy Gleanings From British Isles

Challenge of a Centenarian

Mr. E. M'Adams, of Cornale, Newtownabutler, who celebrated his 100th birthday recently, says he is ready to meet any other Irish centenarian to dance him for a challenge.

"Never to Wake"

The first case of its kind in Ireland was heard at Edenberry Sessions when a woman named Mary Moore, a farmer's wife, was sent to trial for failing to bury the dead body of her infant child.

Evidence was given that Mrs. Moore carried the child around in her arms, and when asked if it were asleep said it was asleep never to wake. She afterwards left the child's body in a room, refusing assistance to get it buried.

No Intolerance

Mr. E. B. Cleeve, the only Protestant member of the council, was the seconder of a motion at the Tipperary Urban Council for the presentation of an address to the Most Rev. Dr. Harty on the occasion of his consecration as Archbishop of Cashel.

Millions For Farmers

By the Cow-Testing Associations which are being organised in connection with the Agricultural Department's dairy scheme it is calculated that cows will produce a higher annual profit. In County Tyrone, where an Association is in operation, the excess is stated at $1, and it is believed that the scheme, if generally adopted, will increase the revenue of Irish farmers by twenty-five million dollars annually. Associations are now being formed in Monaghan.

Highland Chieftain Dead

Colonel John Stewart, of Ardvorlich, near Lochearnhead, who died in his eighty-second year, was the recognised chief of the Clan Stewart. Joining the Royal Artillery, he saw service in the Indian Mutiny. Colonel Stewart was a typical Highland Chief, and always wore the garb of old Gaul.

Gift to Infant Marquis

The Marquis of Beaumont, the infant son of the Duke and Duchess of Roxburghe, has been made the recipient of a silver porringer, with fork and spoon, in oak case, from the children of the employes on the ducal estates.

Curious Claim by a Servant

Judgment has been given in Edinburgh in an action under which Marion Macleod, a domestic servant, sued Rev. Malcolm MacLennan of Edinburgh, for compensation at the rate of $2.50 a week during her incapacity for work as the result of injuries sustained by being knocked down by a street car, which necessitated amputation of the left leg above the ankle. Her statement was that on a Sunday Mrs. MacLennan told her to go to church. She took this as an order, and the accident happened on the way. The court held that the accident did not arise out of her employment, and found for the defendant.

Developing a Barren Island

Messrs. William Baird and Co., Gartsherrie Iron Works, who are engaged in developing the mineral resources in the Island of Ramsay, of which they are proprietors, are providing accommodation for an additional number of workmen. The island, which lies between Skye and the mainland, was little known until a few years ago, when rich deposits of iron ore were discovered. It had been looked upon more or less as a barren isle of the sea.

Cheating Fellow-workmen

At Denbigh, Wales, Albert Edwards and Harvey Stokes were sentenced to six months' hard labor, on a charge of obtaining money under false pretences from the proprietors of the Brynsaulit Colliery. The prisoners had been cheating their fellow-workmen by removing the tallies from the tubs of other men working in the pit and placing their own on the coal tubs. They were afterwards paid for coal they had not worked for.

Squandered a Fortune

A trustee in bankruptcy was appointed in the case of Arthur Pusolt, a Londoner whose accounts showed liabilities of $81,270 and assets of $210.

Pusolt inherited $375,000 from his mother in 1899, the Official Receiver reported. In the following year he married, and he and his wife lived so extravagantly that he eventually got into the hands of moneylenders. The debtor attributed his insolvency to his reckless expenditure.

England's Fattest Cat

Ashley, with golden fur and twinkling eyes, is said to be the largest and fattest cat in England. He lives in Addison Road, Holland Park, with the Misses Jay and weighs 25½ pounds. Every luxury is provided for him; his paws are manicured daily, he has his own toilet set and scent bottles, and for distractions he has in his luxurious nursery, replete with soft rugs and cushions of every hue, toy elephants, teddy bears, and rattles.

United States Capital in Canada

United States investments in Canada amount to $636,000,000.

And its better soap.

Do you still buy soap by the cake? Have your grocer weigh the different kinds for you, and this is what you will see.

1 Bar of N.P. SOAP at 15¢ weighs more than 4 cakes of any 5 cent brand and more than 5 cakes of some kinds. That means you can save 5 cents by using N.P. SOAP or 25¢ on every dollar's worth. 3

Have You Seen the New Box of COWAN'S MAPLE BUDS

The daintiest of Chocolate Confections now comes in the daintiest of packages. Just the right size to slip in your pocket—or your hand-bag—and holds just enough.

EVERYWHERE, 10 CENTS

c.n.a.

The current is switched into a new electric screwdriver automatically the instant pressure is applied.

The world's production of tin last year is estimated at 120,000 tons, a gain of about 7,500 tons over 1912.

Recent statistics credit be United States with about one automobile for each two miles of country road.

Child Almost Strangled

You never know what minute a child will develop a bad cold or be seized by croup. For this reason it takes a great burden off every mother's mind to have at hand Dr. Chase's Syrup of Linseed and Turpentine.

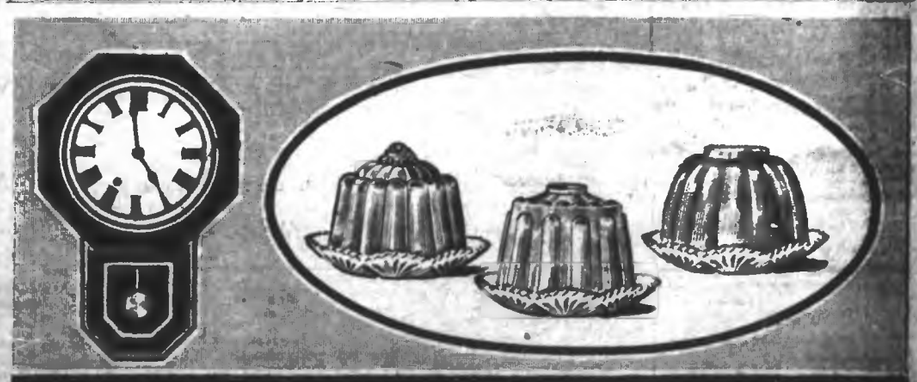
Mrs. E. W. Silver, South Milford, Annapolis County, N.S., writes:—"I have used Dr. Chase's Syrup of Linseed and Turpentine for my little boy with most satisfactory results. His throat would fill up with phlegm so bad that he could scarcely make a sound, and I thought he would surely strangle. He grew worse, and had frequent bad attacks, so I began using Dr. Chase's Syrup of Linseed and Turpentine. Scarcely half a bottle was used when the strangling ceased. This medicine had a wonderfully soothing effect, and when he had taken two bottles I could not tell that he had any throat trouble. We have also used Dr. Chase's Ointment with equally good results. It is a grand medicine for salt rheum."

There are imitations, but the genuine Dr. Chase's Syrup of Linseed and Turpentine bears the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

SHIRKING THE HOME

Evils of the Boarding Houses For Married People

Married persons live in boarding-houses largely because of the prevalent high rents, the excessive cost of living generally, and perpetual troubles with domestic servants. In the long run they probably escape none of these ills, and certainly if any one of them be lessened there is a generous set-off in some greater evil which they will yet be called upon to suffer. There is an even more serious cause of this rush of married people to the boarding-houses. Very many wives, particularly the newly-married, have an antipathy to housework, and shrink before the idea of struggling to build up a home. Behind these feelings, which are unwomanly, is probably defective training in the home of their girlhood. It is difficult to make girls understand that domestic work is noble work. If the income be small it is no shame to the wife to do all the housework; but some sort of artificial stigma appears to attach to toil of the kind, which it seems to be impossible to remove. A consequence is that a new race of women is adding a new terror to life. The woman of this type marries not to make a home, but to dwell in lodgings. The honeymoon is spent in an hotel in the mountains or at the seaside, and the happy young people immediately afterwards rush to permanent quarters in a flat or a boarding house. The wife, instead of making a home for her husband, makes calls in the morning, goes shopping in the afternoon, and attends bridge parties or the theatre at night. All these things may be good, and some of them necessary, but for the young married woman in a boarding house they are practically all life has to offer in the way of occupation. She ought to be making little soft garments in her own home, instead of gadding about and making life a misery to those of her friends who have homes by extolling the advantages of life in lodgings.—Melbourne Argus.



Serve These at Five O'Clock

The stylish appearance of these jellies will win the admiration of your guests at the tea hour. And when they taste them they will be eager to get your recipes.

These jellies are only three of the many kinds, both plain and fancy, which you can make with Shirriff's Jelly Powder. There are recipes inside of every package. These recipes have been tested by an authority in Domestic Science Cookery connected with a Government School. Many are out of the ordinary. All are worth trying.

Shirriff's Jellies are high-class, pure-food products. There are over a dozen "fruity" flavors. Many women like them so well they buy from a half-dozen to a dozen packages at a time. Six packages cost but 50 cents—8⅓ cents a package. Very little to pay your grocer for a dessert so delicious.

10c. a pkg. **Shirriff's Jelly** 3 for 25¢

Experienced mothers say Zam-Buk is best for children's injuries and skin troubles, because:
It is herbal—no poisonous mineral coloring.
It is antiseptic—prevents cuts and burns taking the wrong way.
It is soothing—ends pain quickly.
It heals every time.
Just as good for grown-ups.
Sold at all stores and druggists.
Zam-Buk

THE LATEST TO BURNS

The following verse by Dr. Robert Bridges, the poet laureate, appeared on the invitation card for the 118th annual celebration of the Greenock Burns Club:

To Burns, brave Scotia's laureled son
Who drove his plow on Helicon,
And who with Doric rhyme erstwhile
Taught English bards to mend their style,
And by the humor of his pen
Fairly bothered Auld Nickie Ben,
Dear Bobbie Bobbie Burns, we love thee well
Because thou wert so like thyself.'
And fill full cups with festive cheer
We toast thy fame from year to year.

United States Has Copper Record

Japan's annual production of copper is estimated at 65,000 metric tons. Mexico's production was 53,815, and that of the United States 557,387 tons.

Special Cars For Autos

There are 2,440,000 freight cars in the United States of which 42,000 are used solely for the transportation of automobiles.

Thought She Would Go Mad
WITH
HEADACHE.

In all cases of headache the treatment should be directed to remove the cause, for with the cause removed the headache vanishes for all time. Headache powders just relieve for the time being, but what is necessary for a permanent cure is something that will go right to the seat of the trouble. For this purpose it is impossible to find a better remedy for headaches of all descriptions than Burdock Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system.

Mrs. Althea Bowman, Hamilton, Ont., writes:—"I have suffered terribly with my head for weeks at a time till I thought I would go mad. A friend advised me to give Burdock Blood Bitters a trial, so I got a bottle and found relief. I have used four bottles in all and I am glad to say that I have had no more headaches since. I would advise all sufferers to give it a fair trial."

OUR DAILY SHORT STORY

PHILLIPS' NERVE

"Congratulations, Phillips. Glad to hear of your good luck."

Andrews' good wishes beamed from every part of his rotund countenance. He halted a moment in his mad flight for his car and vigorously pumped the arm of his bewildered victim.

Phillips searched vainly in his mind for the cause of this unexpected expression of joy. What reason had he to be congratulated? Neither business advancement nor success in other lines had come to him of late.

At the corner he met Hunt. The latter's face lighted as he caught sight of Phillips and he approached, arm outstretched.

"A long life of hapiness, old man! Say, I've some ideal building sites in Birdvnew Addition, patriarchal trees, green award, and all that. Come around and I'll be delighted to show them to you."

And after joyfully wringing his friend's—and he hoped future patron's—hand, he, too, joined the hurrying htrong crowding up the steps to the elevator. In his haste he did not note the cool reception of his good wishes.

Phillips groaned inwardly whenever he thought about it. The night before, for the fortieth time, he had resolved to find out his fate; but the opportunity had come and gone, and the words were still unsaid.

Somehow his nicely prepared speeches always vaporised when he came into her presence, and if pluck did take him far enough to speak concerning his feelings it was only to flounder helplessly around until the weather or some such impersonal subject let him down easily to earth again.

Surely Irene knew what he was trying to say! Why, if she cared for him, had she given him so little help?

A suddenly remembered engagement turnad his footsteps into the building he was passing. The elevator let him out at the seventh floor, and he found his o ce. Henly turned at his entrance. The same smile adorned his features. He gripped his friend's fingers tightly.

"I knew it would come at last. Who did the proposing?"

"What in thunder do you fellows mean?"

"Mean?" Henly's smile twisted itself into a surprised grin. "Why, your engagement to Irene Haskins, of course."

Phillips stared at him in amazement. Henly caught up a morning paper, searched through it hastily, found what he wanted, and handed it to his friend, indicating the paragraph:

"Announcement is made of the engagement of Miss Irene Heloise Haskins and Mr. Lawrence Phillips, a popular young business man of the city."

Henly watched the blank expression in his companion's face.

"Weren't you going to have it announced for a while" he chuckled. And then bantering, "I hope you know you're engaged?"

"I didn't—" and then stopped.

"You're not? Somebody—well, it looks as if she were giving you your chance, old boy. Knew you meant it, but lacked courage to propose in the conventional way. If I were you I'd make tracks up there immediately. It will be clear sailing now."

After Henly had left his friend he began to think. "It'll do the trick, but it isn't at all like Irene Haskins. Last resort, maybe. It's strange about Phillips; pluck clear to the bone in everything except in his wooing."

Peggy, Irene's 16-year-old sister, admired Phillips and ushered him into the library, where a cheery grate fire was burning. A hidden something made her dimples deeper. Otherwise in her external staidness there was for her almost a suspicious decorum.

Phillips had only a few minutes to wait before the portieres were brushed aside and Irene stood framed by their dary velvet softness.

A surprised "Oh" escaped her lips, and then an icy "I beg your pardon; I didn't know it was you. Peggy said—Sir!"

She drew back uttering the last in a frigid exclamation. Lawrence had sprung up at her entrance.

"I am so glad—" he began, jubilantly.

"Glad?" she questioned.

"We are engaged," he finished.

"Since when?"

"I know I'm a duffer. I've been trying to ask you for ages, but—I always get tangled up. If you hadn't been angel enough to help me out—"

"Sir!"

"The announcement in the paper," he blundered.

"Lawrence Phillips, how dare you?" Her voice rang with wrath. "You accuse me of such a thing? You put that in yourself, for you wer too big a coward to ask me and thought you had found an easy way. Maybe you have and maybe you have not. You may have the pleasure of reporting to the paper that it is all a mistake, and liable, too, to be so for all time. One thing I want you to understand: I will have nothing to do with a man who has not gumption enough to ask me straight out, but uses such a subterfuge and then accuses me of its origin."

For a few minutes he stood confronting the closed curtains and then he stumbled into the hall and out into the street. He had made a bungle of it. Of course, Irene never would have done it. Who could have inserted that paragraph? His mind searched for the culprit.

He was striding along, head down, unmindful of the curious glances of the few he met. He did not hear the hurried, pattering steps till a slim hand caught his arm. A sharp girlish voice spoke:

"Well, you two have done it now. Walk back a moment with me. Please don't look so like a thundercloud. Everyone will stare so."

Their course changed. Peggy continued:

"I knew you would never pluck up courage to propose to sister, so I thought I would help you out. It was I who had that announcement put in the paper. You two certainly messed it up. 'Rene was so angry she was just shaking, said you accused her of doing it; and you—you certainly looked squelched." A girlish giggle escaped her.

They walked on in silence, Peggy retaining a tight hold on his arm.

"I told Irene I did it, and she began to shed tears. Said I'd ruined her life," the girl sniffed. "I'm going to take you back and you can try it over agin."

She led him in the gate and up to the porch, where, when he showed signs of hesitating, she said: "Brace up. Your rubicon lies before you."

And then she coached:

"Don't be too stiff. Be patient. Acknowledge it's all your fault. Tell her of the firmaments of devotion that are throttled up within you because of your stammering tongue—on your knees would be the best, ore impressive, I think."

She opened the front door softly, motioning him to keep silence—though he had not spoken except to articulat protestations since she had caught up with him.

They entered the hall quietly, and she mutely bade him to remain there. Stealthily she slipped back to the library portieres and reconnoitered. Satisfied, she beckoned the man to approach. In a whisper she said:

"You two are not coming out until you settle this matter."

Drawing back the curtain she pushed him into the room. At the table, head buried in her arms, sat Irene, a picture of desolation.

The girl carefully closed the curtains behind the man, and walked audibly down the hall only to return silently a moment later. As she applied her ear to the opening between the curtains she excused her, actions to herself. "I'll see it through this time."

Judging by the first dissatisfied expression that flitted over her face, it was not proceeding happily. Then, after a time, her big ribbon bows slowly nodded in aproval. A moment later she was fleeing on tiptoe down the hall, her finger tips on her lips. In her room she alowed her mirth its freedom.

"He did it, but he did it dreadfully. To miss and kiss her on the nose!" She relapsed into laughter. "'Rene said she would never stand for that, but she did. I'd never have done it, though." She addressed the slim figure in the glass. "But then, I think I could get a man to propose without so much bother—if I ever found one worth while," she added.

Apparatus has been invented for forcing a jet of compressed air into the acid bath in the manufacture of newspaper etchings, which is said to improve them by keeping the acid in motion and removing metal particles.

Many apartment houses in Europe are equipped with electric lights which may be switched on when a person enters and which automatically extinguish themselves a few minutes later, when he has had time to reach his room.

Be Clean! Inside and Outside

If you would be healthy, strong and happy. Bathe keep the skin clean and in good condition. But what about the inside of the body? You can no more afford to neglect it than the outside. It is just as important that the system be cleansed of the poisonous impurities caused by weakness of the digestive organs or by inactivity of the liver.

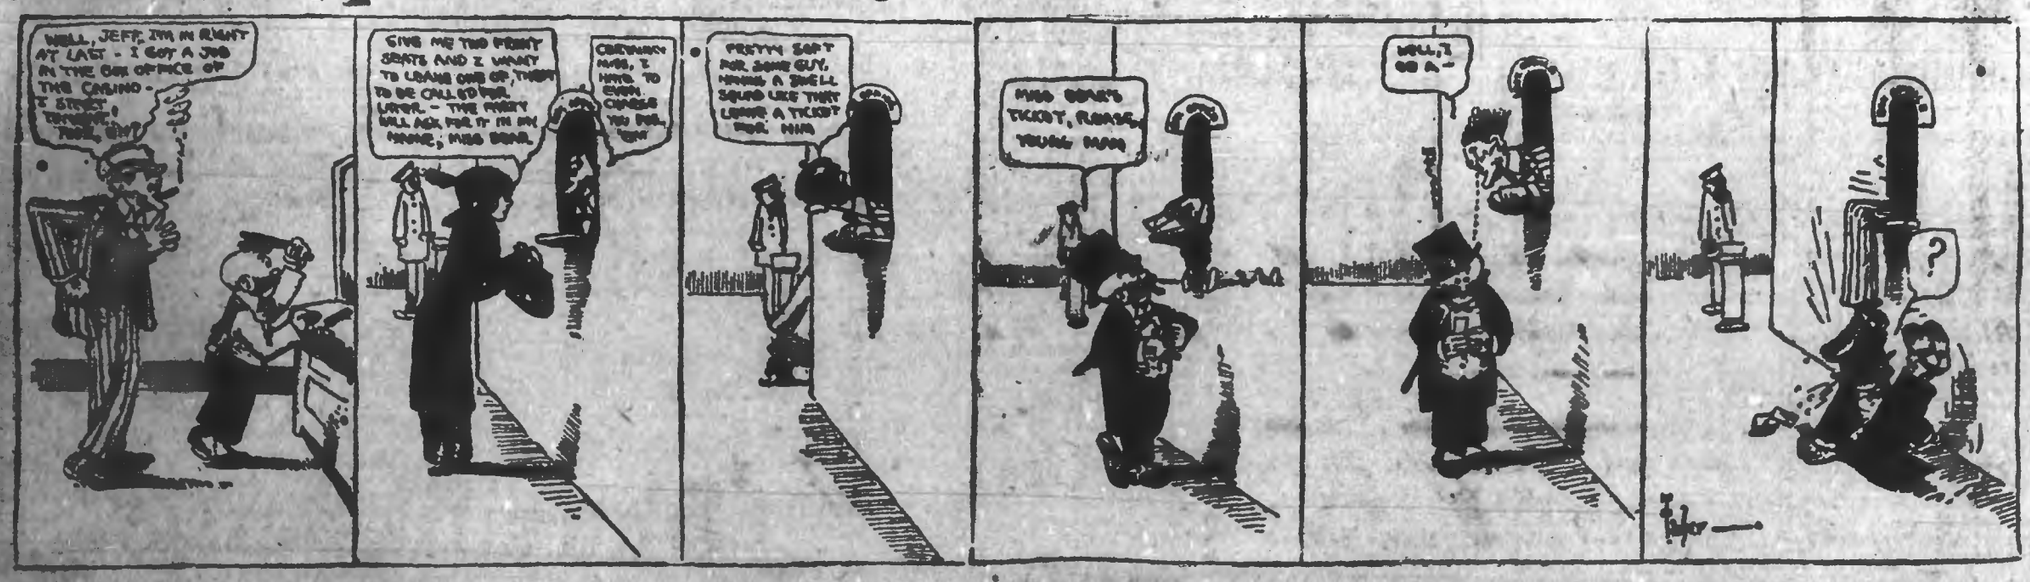
DR. PIERCE'S
Golden Medical Discovery
(In Tablet or Liquid Form)

Cleanses the system—and more. It puts the liver in such a condition of health that it purifies the blood—as it should. It helps the stomach digest food so that it makes good blood—rich, red blood to nourish and strengthen all the organs.

You may avail yourself of its tonic, revivifying influence by getting a bottle or a box of tablets from your medicine dealer—or send 50c for a trial box. Address as below.

FREE "Dr Pierce's Common Sense Medical Adviser"—a French cloth bound book of 1008 pages, on receipt of 21 one-cent stamps to cover mailing charges. Address Dr. R. V. Pierce, Buffalo, N. Y.

Jeff Is a Bear When It Comes To Coffing Chickens -:- -:- By "Bud" Fisher



MOTHER! IF CHILD'S TONGUE IS COATED

If cross, feverish, constipated, bilious, stomach sour, give "California Syrup of Figs."

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless doesn't eat heartily, full of cold or has a sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." Don't be fooled!

TO INCLUDE OPPONENTS.

Toronto and Western Ontario Members for G.B. Canal Enquiry.

OTTAWA, March 6.—As a result of representations that have been made to the Minister of Public Works, it is understood that two more members will be added to the commission which will enquire into the feasibility of the Montreal-Ottawa and Georgian Bay Canal project, one of the new members will probably be from Toronto and the other from Ontario west of Toronto. The object is to have represented on the commission those who are opposed to the proposal to create the new ship waterway. The appointments will not be made for a few days.

Drunken Indians In Riot.

WIARTON, March 6.—Word has just reached town of a grand debauch of the Indians of Cape Croker Reserve on Shrove Tuesday. Many red men got some fire water, and with two squaws, they got drunk and started a small riot. When the Cape constable tried to quiet them they took his baton from him and pounded him unmercifully. The arrival of some sober braves stopped this and the whole affair will come before Magistrate Miller.

GOOD LOOKS

Surely Impossible If You Are Constipated, Bilious or Have Indigestion

go to it that you cleanse your system of undigested food, foul gases and excess bile in the stomach, intestines and bowels by the timely use of the great fruit tonic laxative

FIG PILLS

and you will feel fine, have a clean clear complexion, healthy stomach, no indigestion, sick headaches or that tired-out, down-hearted feeling. Refuse all substitutes when you ask for FIG PILLS. At all dealers in 25 and 50 cent boxes, or by mail from The Fig Pill Co., St. Thomas, Ont. Sold in Peterborough by the Warne Drug Co., Ltd.

EXAMINER PATTERN SERVICE

DAILY FASHION HINT.

No. 6,582, Lady's Sleeves.

In this set of sleeves we have three separate styles. No. 1 is the new bishop sleeve, plain at the shoulder and gathered at the lower edge, where it is joined to a shaped cuff in short or full length. No. 2 has the fulness on the outside of the arm, without a cuff, and No. 3 has the fulness at the back of the wrist and is made with ribbon run through the pleats of material.

The pattern, No. 6,582, is cut in three sizes, small, medium and large. Medium size requires for No. 1, 1½ yards of 27 inch material. For No. 2, 1¼ yards of 27 inch material. For No. 3, 1⅛ yards of 27 inch material.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

PROBE IS NEEDED

Vancouver Ld. Strike Should Be Investigated Says Convention

RESOLUTIONS ARE ADOPTED

OTTAWA, March 6.—Several resolutions were passed at yesterday afternoon's sessions of the Social Service Congress calling on the Dominion Government to appoint a royal commission to investigate and make a report on the coal miners' strike on Vancouver Island; to prevent the manufacture, importation and sale of cigarettes in Canada; to establish free employment bureaus; to appoint a royal commission to investigate the unemployment problem; to enact a policy that will raise the Indians to a level of citizenship; to adopt a closer inspection of immigrants from southern Europe; to create a department of child welfare; to give pensions to mothers; to initiate an old age pension, and to assist the extension of co-operative societies.

The congress went on record as being in favor of woman suffrage, labor unions, total abstinence and social survey work. A resolution recommending that civil servants be appointed for the outside service the same as they are for the inside service, and to give them their political rights—it was not decided just what those rights are—caused a warm discussion, and finally the resolution went back for reconsideration to the resolution committee along with one to ask the Government to establish moral education in the schools.

The resolution regarding the western miners' strike, after reviewing the great hardships caused, concluded:

"Therefore, be it resolved, that this social service congress urgently requests the Dominion Government to appoint a royal commission to examine into the whole dispute from its beginning; to bring all the facts to light, and thereby to bring the full strength of public opinion to bear on those concerned in order to effect a settlement of the dispute.

KILLED BY TRAINS.

Man on Tracks Was Tossed Like Shuttlecock.

TORONTO, March 6.—Struck by one train and tossed in front of another, Frank Hilbert, 164 Anne street, London, Ont., was almost instantly killed while walking along the C. P. R. tracks near Campbellville, between Milton and Guelph Junction, last night.

In attempting to avoid the Goderich train Hilbert stepped in front of the Chicago flyer, which was coming from the opposite direction. He was struck by the Chicago train and thrown in front of the train he had sought to avoid, which hurled him to one side.

The man was placed on board the Goderich train and Dr. Anderson of Milton summoned, but he died a short time later.

The body was brought to Toronto and taken from the train to the morgue. An investigation into the occurrence has been ordered.

LAST STAGE BEGINS.

Home Rule Bill Is Given First Reading In Commons.

LONDON, March 6.—The Home Rule for Ireland bill was introduced again into the House of Commons yesterday by Augustine Birrell, Chief Secretary for Ireland, and was read a first time amid prolonged Ministerial and Nationalist cheers.

The Government has succeeded in keeping the secret of the concessions to be offered by Premier Asquith on Monday, when the bill comes up for second reading. According to reports from quarters connected with the Cabinet, however, Premier Asquith will simply propose that any Irish county may, by a plebiscite, vote itself out for a period of three years.

It is generally regarded in Parliamentary circles as certain that the Unionists will reject any concessions Premier Asquith is likely to offer.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to flush Kidneys if Back hurts or Bladder bothers

If you have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

HAS NEW TAX SCHEME.

J. W. Johnson, of Hastings, Would Levy on Bank Capital.

TORONTO, March 6.—With a view to providing a new source of revenue for the province J. W. Johnson, Government member for Hastings, laid a suggestion regarding bank taxation before the House yesterday afternoon. He claimed that the immense sums held by the banks were a legitimate subject for taxation, especially because they were only possible through the extraction of large sums to these corporations by the people of Ontario. If his scheme were put into operation the revenue would be increased yearly to the extent of $450,000.

His suggestion was that a one per cent. tax be levied on the paid-up capital of banks operating only in Ontario. Dominion-wide banks should be roughly estimated as gaining one-fourth of their patronage from Ontario, and on this understanding should be subject to one-quarter of one per cent. as a tax rate.

The budget debate was continued yesterday afternoon when T. W. McGarry (Hastings) took the discussion for the Government and Sam Clarke (Northumberland) replied for the Opposition.

Mr. McGarry said there was a vast improvement in the handling of finances since the present administration had taken hold. Whereas nine acres had been disposed of under the old regime for $200,000 a block of six acres had recently placed $500,000 in the provincial coffers. This was merely illustrative of the general work being done in the agriculture, crown lands and other departments.

The attack of Sam Clarke centred about Government House. It would prove an immense burden, he said, at an immense cost. He also criticised the policy of feeding prisoners in the Guelph farm on "quail on toast" and domiciling them in quarters with hardwood floors and like luxuries.

Messrs Hugh Munro (Glengarry) and J. W. Johnson (Hastings) followed with short addresses.

Villa Demands Ransom.

EL PASO, Texas, March 6.—Gen. Luis Terrazzas, yesterday afternoon appealed to Marion Letcher, American consul at Chihuhua, who is now in this city awaiting instructions, to save his son, Luis, whom Villa will be made the forfeit if 500,000 pesos of ransom money is not paid over to Gen. Francisco Villa, the rebel leader.

The messenger of Villa to Gen. Terrazzas said that the money must be paid within five days or Don Luis will be killed. The five days expires to-day.

INDIGESTION, GAS OR SICK, SOUR STOMACH

Time it!—"Pape's Diapepsin" makes your upset, Mixed Stomach feel fine in five minutes

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food, and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

Fire-Eating Italian Committed.

LONDON, March 6.—Rocs Mellie, alias Mellie Antfuuoso, the man held by the police on the charge of shooting with intent to kill William Kingsley and Hector Miller, the two Hydro employes, in the Hotel Harrison on Tuesday night, appeared before Magistrate J. C. Judd yesterday and was committed for trial at the spring assizes in April without entering a plea.

It developed that the name the prisoner gave the police when he was arrested, Antfuuoso Mellel, was not his proper name, and that he also was at present out on suspended sentence, having been found guilty on Feb. 20, by Magistrate Judd on a charge of assaulting another Italian.

Two Murderers Reprieved.

OTTAWA, March 16.—Clark and Davis, the two murderers who were to have been hanged at Vancouver to-day have been granted a reprieve by the Minister of Justice for fifteen days in order to enable them to place their case for revision by the Supreme Court of the province.

Sir George Ross' Condition.

TORONTO, Jan. 6. — Sir George Ross showed no improvement yesterday, and according to the attending specialists, grows weaker every day. Although he is so weak he cannot even recognize members of his own family, Dr. Goldie believes he may linger some days.

Insulted Crown Prince.

BERLIN, March 6.—An insult to the German crown prince resulted in a sentence of six months' imprisonment being inflicted yesterday on Hans Leuss, the writer of a condemnatory article in a weekly newspaper, Die Welt am Montag.

Magnifying Misery Into Joy

Dyspeptics, Stomach Sufferers and Appetiteless People May Quickly Find Relief in Stuart's Dyspepsia Tablets.

When a stomach sufferers gets relief he is one of the happiest of human beings and he looks back at his old self with a distinct feeling of horror.

Stuart's Dyspepsia Tablets quickly readjust the out-of-proportion stomach and digestive machinery and bring joy of life and love for food to the man or woman who will use them after each meal for a short time.

"Holly gee, I used to feel just like that fellow."

The action of Stuart's Dyspepsia Tablets is a purely natural one. When taken they enter the stomach just like food. They mix with the juices of the mouth. Then they enter into and correctly build up or dilute the juices of the stomach, go into the intestines and there when the nourishment from food is taken into the system so follows the ingredients of these wonderful tablets.

They correct the faults of the blood and thus at the next meal the body is better able to produce a stronger and more normal digestive juice.

A short use of these tablets will re-establish your digestion, stop gastritis, heartburn, indigestion, foul breath, catarrh of the stomach, ulcers and many other unbearable conditions.

Go to your druggist to-day and begin the Stuart's Dyspepsia Tablet habit. It is the habit of health and appetite. Learn how to yearn for food, not how to spurn it.

Obtain a box from any druggist — price 50 cents. Sold wherever you can find a drug store.

'TWAS ALL A PLOT.

Story of Stolen Baby Was Trick To Deceive Hubby.

WINNIPEG, March 6.—The "baby mystery" turns out to be no mystery at all. Mrs. J. B. Jones, who claimed that a midwife had carried off her four-hour-old child, has admitted that no child was born to her, and that the story was merely intended to delude her husband.

Jones desired a child, his wife told him one was coming, and planned with Mrs. Anderson to adopt an infant and present it to Jones as his own. They were unable to find a child. His wife told him a child had been born and taken away by Mrs. Anderson. When the child was not returned, Jones notified the police. Finally the facts came out.

Youth Carried Revolver.

SUDBURY, March 6.—The appearance of a youth at the wicket of the Palace Skating Rink with a revolver in his hand caused some excitement, when Miss Flora Glencat, the ticket seller, fainted, and Mr. James, the caretaker, backed the "desperado" out of the building as he was "covered" with the revolver.

The youth entered the rink early in the evening, and after skating for a while on leaving the rink demanded his admission refunded.

Miss Glencat refused his request, and the "desperado" thrust his hand and revolver into the wicket.

The police are looking into the case.

Service For Lost Sailors.

PLYMOUTH, March 6.—With impressive ceremony a funeral service was read yesterday for the 11 men who perished with the lost submarine A7, hope of recovering which has been abandoned by the Admiralty.

While the burial rites of the Anglican Church were read aboard the spot in Plymouth Sound, where the A7 is supposed to be buried in the sand, a duplicate service was read in the royal navy barracks at Keyham.

Ladies! Look Young Darken Grey Hair

Use the Old-time Sage Tea and Sulphur and Nobody Will Know

Grey hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns grey and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay grey! Look younger! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the grey hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Changes In Act Respecting Dogs

Tagless Fides Will Receive Attention From the Police Department—Scraps Will Find Their Way to the Incinerator.

MUST BE LICENSED

Dogs must be licensed. This edict issues forth each year with consistent regularity. It is entitled—"A by-law for restraining and regulating the running at large of dogs and the licensing thereof." The by-law which bears the endorsation of Mayor Butler, is designed to include the five hundred odd canines that have never cost their owners a cent in license fees. There are less than four hundred dogs licensed in the city, whereas the Mayor has asserted that there are at least one thousand dogs living within the corporation.

Tagless Fides.

This year the task of ascertaining that each and every qualified dog is licensed will devolve upon the police department. Tagless doggies will be apprehended by the duly elected minions of the law, and if not claimed within forty-eight hours, will be fed to the incinerator. Just how the police will approach the somewhat precarious task of capturing stray dogs, has not been stated. Perhaps they will hurl a baton at them, boomerang style, and thereby bring their victim to the pavement, when it can safely and easily be removed.

Forty-eight Hours' Grace.

The by-law states that it shall be the duty of the police constables of the city, or such officer as may be appointed by the Council for that purpose, to seize any dogs running at large contrary to the provisions of the by-law, and to impound them, and the owner or harbourer of any dog so seized and impounded, may redeem the same, if done within forty-eight hours from the time of capture, on production of a tag and a receipt from the Chief Constable for the amounts which would be payable in respect to such dog, as represented by the license fee, also an additional sum of one dollar for each dog so seized and impounded. All dogs not redeemed or sold shall after forty-eight hours from the time of being seized, be destroyed.

Outrageous Canines.

Any person unlawfully removing the collar or tag from any registered and licensed dog shall be deemed guilty of an offence under this by-law.

No person shall keep or harbour a dog in the city, which is dangerous or has attacked any person on the street or other public place.

Any person convicted of a breach of any of the provisions of this by-law shall be subject to a fine not exceeding the sum of ten dollars for each offence, exclusive of costs, or an option of ten days in gaol.

The license fee for a dog of the masculine gender is one dollar, and for each additional dog, two dollars. Dogs of the feminine gender are assessed three dollars, and for each additional dog, five dollars.

Kennel Owners.

Special reservations are made in the case of an owner or possessor of a kennel of pure-bred dogs, that are registered in the Canada Register. The owner or harbourer of every dog in the city shall on or before the first of May in each year, cause the same to be registered in the office of Chief of Police Thompson, and obtain from him a license and tag. A breach of the by-law may place the dog concerned in a very compromising position with the police department.

HOUSEWIVES' ATTENTION!

During the next ten days your City will be thoroughly canvassed by Agents, with the most up-to-date line of Sanitary Brushes ever put before the buying public. These brushes include Radiator, Register, Hand, Sink, Dustless Dusters, Combination Stair, Whisk, Hat and Cloak, Crumb, Hose, Tidies, Bath and Flesh, Velvet, Massage, Bed Pan, Mangers, Hair, Milk Bottle, Lamp Chimney, Tub, Lavatory, in fact a brush for every purpose.

A glance at the samples will convince you. They are beyond comparison.

In a new English process for treating pine for timber purposes, lime used which does not discolour wood, but permit it to be stained, shown, painted or polished as though it had not been treated.

AN EPIDEMIC OF MUMPS IN THE CITY

Several Students in Local Halls of Learning Are Victims of the Malady

ARE MOSTLY ADULTS

There is an epidemic of mumps in the City. It was learned to-day that twenty-two students of the Normal School are confined to their homes with swelling jaws. Likewise at the local Business College, it is said that there has only been half the regular daily enrolment during the past few days, owing to the prevalence of the above malady among the students. The Central School, too, has not escaped a visitation, and the smallest attendance in years is reported from this hall of learning. A singular fact in connection with this outbreak is the remarkably large number of adults who are victims of the disease. There is no doubt as to the most popular song in the City at the present time, since everybody is singing that celebrated character piece made famous by Irene Franklin, in vaudeville, "I've Got The Mumps".

"ANTONY AND CLEOPATRA"

A Treat Next Week for Lovers of Motion Pictures

The story of Mark Antony's ill-fated passion for the beauteous Egyptian Queen Cleopatra is familiar to almost every reader and student of history. It stands out pre-eminently as one of the world's great love tragedies and has been immortalized in poetry, song and in drama. It has remained, however, for Mr. George Kleine to do it fitting justice in his production of the Cines photo drama "Antony and Cleopatra," which comes to this City shortly, and is said to surpass anything that has been accomplished in this wonderful new art. All the mighty attributes of the story are produced as faithfully by the camera as they have been by pen and brush, and the influence is even more potent, as it visualizes the story, leaving little to the imagination. It begins with the conquest of Egypt by Mark Antony and his peremptory summons to Cleopatra to be brought to him as hostage. Her charms fascinate him at their first meeting and he falls a victim to her wiles. His noble compatriots and loving wife in Rome are soon forgotten and Antony rules in Egypt as consort of Cleopatra, completely swayed by his passion for her. The news of his condition reaches Rome. Messages are sent to him to return to his home and country, but he rejects them. His wife journeys to Egypt to win him back. He spurns her and Cleopatra taunts her. Indignantly the wife returns to Rome, and tells her story. The Roman Senate determines to punish Antony and sends an army to bring him back. The soldier-lover defends Egypt and Cleopatra against his countrymen, and falls in battle. After his death and Cleopatra has been repulsed in her overtures to Rome, she kills herself through the sting of an asp, rather than return to Rome as a slave. All these incidents are related on the screen with vivid realism and hosts of other interesting details that occur while Antony is in Egypt. Plot and counterplot make an entertainment of absorbing interest that holds the spectator spell-bound from beginning to end. Dramatically it is remarkable, and as a spectacle is superb. The engagement in this city is on Tuesday, Wednesday and Saturday, March 10, 11 and 14. The prices have been arranged at Lower Floor 25c. Balcony 15c. Gallery 10c.

DOLLAR DAY
March 12th

WILL BRING OUT FARM HANDS

Special Wire to The Examiner:

LONDON, Ont., March 6—At a meeting of representative farmers from all over the district, last night, Thos. Benstead, of Strathroy, was selected to go to the Old Country at once and try to secure one thousand unmarried farm hands, Scotch and Irish, preferred, to work on the farms in Western Ontario. He will make contracts and accompany them himself to see that they are not side-tracked by other agents in Montreal and Toronto.

CANADIANS INTERESTED

Threatened Revolution in Brazil is Being Followed With Close Attention by Many Canadians

CAPITAL TIED UP

Special Wire to The Examiner:

TORONTO, March 6.—The news of disorders and threatened revolution in Brazil is being followed with peculiar interest by thousands of people in Toronto and throughout the province who have invested more or less of their savings in Brazilian traction and light and power enterprises. The possibility of damage to concerns in which more than fifty millions of Canadian capital is tied up, brings the rioting and martial law which extremely scanty cables from the Southern Republic report, very near home. It is almost as if a revolution were threatened at the Soo. In the local market to-day Brazilian stock was very active, fluctuating between 88 and 84 and closing fairly firm.

Council Will Meet To-night

Civic Fathers Will Discuss the Question of Extending the Garbage Collecting Area

A meeting of a committee of the whole Council will be held this evening, when Aldermen McIntyre, representing the East Ward, will have an opportunity to present a resolution asking that East City be excluded from the garbage collecting area. The East Ward representative claims that the residents across the bridge are not in favour of participating in the system, which is being extended to include a much larger area than last year.

Police Patrol Make Long Trip In Safety

Special Wire to The Examiner:

OTTAWA, March 6.—Comptroller Fortescue of the Royal Northwest Mounted Police, has received word that the patrol which left Dawson City early in January for Fort McPherson, has returned. The return trip was made in the record time of seventeen and one-half days. This trip is an annual mid-winter duty of the Yukon force and its hazardous character is a matter of history since it was on this patrol that the late Inspector Fitzgerald and his companions perished.

Will Celebrate St. Patrick's Day Together

Special Wire to The Examiner:

MONTREAL, March 6.—In an example to their people in Ireland loyal representatives of the Irish race, both Catholic and Protestant, will celebrate St. Patrick's Day here together.

MAY BE INCREASE FOR THE POSTIES

OTTAWA, March 6.—Questions asked at the opening of the House to-day brought the usual miscellaneous information. Hon. L. P. Pelletier told Mr. F. F. Pardee that the Post Office Department was considering paying higher wages to letter carriers and rural couriers on account of the introduction of the parcel post.

ARNOLD BRUCKMAN—Head of the Department of Aeronautics of the Panama-Pacific International Exposition, who has the work of organizing the big globe-girdling aviation race that is to start from the Exposition grounds at San Francisco in May, 1915, to make the round-the-world flight for the largest prize offered for a single sporting event.

Annual Meeting

Home Re-union Association Will Meet To-night

The first annual meeting of the local branch of the Imperial Home Reunion Association will be held in the Bank of Montreal Chambers to-night, Friday evening, March 6th, at 8 o'clock.

LICENSE ACTS

The report of the operation of the Liquor License Acts in Ontario during 1913 presents a few figures of interest.

In 1895 there were 43 tavern and 12 shop licenses in Peterborough County, and there were 27 committments to the gaol on the charge of drunkenness.

In 1913 there were 12 taverns and three shops in the city, and one tavern in the county, a total of 16, and th number of commitments was 119. Possibly the increase in the population accounts for the condition.

The tables are as follows:

	Tavern Licenses.	Shop Licenses.
1877	98	16
1875	72	16
1876	40	11
1885	50	15
1895	43	12
1900	42	11
1904	39	
1905	47	6
1907	38	5
1908	33	5
1909	27	4
1907	6	2
1912*	1	

*Not including City of Peterborough.

A year ago January, Burleigh Falls' license was cut off, leaving one bar at Mt. Julian.

Peterborough City has 12 ordinary licenses, three shops and one club.

The bartenders are numbered at 44.

The revenue received for licenses by the City is $3,250. The province receives a like amount.

In 1895 there were 27 committments to gaol for drunkenness; in 1905 there were 13; in 1900 there were 6; in 1910 there were 23; in 1912 the number was 37, and in 1913 it was 119.

WORK ON THE UNION STATION

Special Wire to The Examiner:

TORONTO, March 6.—Definite arrangements for at least commencing Toronto's new Union Station were made this morning, when the Toronto Terminal Company, consisting of the big men of the G. T. R. and the C. P. R. was formed, and Directors elected. The work will be commenced on the $25,000,000 viaduct and station in a few weeks.

SENT THE I. W. W. LEADER TO JAIL

Special Wire to The Examiner:

NEW YORK, March 6—Despite the threats of death to himself and of the destruction of his Fifth Avenue mansions and residences on Riverside, if any I. W. W. workers were jailed, Magistrate Campbell to-day sent their leader, Joseph Albers, to the workhouse for thirty days. Simultaneously, however, the special police were posted in the fashionable districts, where mothers fear their children will be kidnapped.

NEW YORK BALL CRAZY

Fans Are Ready to Welcome the Touring Ball Tossers

Special Wire to The Examiner:

NEW YORK, March 6.—Baseball fans from the Battery to the Bronx were astir early this morning in anticipation of the great welcome demonstration in honour of the returning Giants and White Sox from their globe trot. Not since the world's championship series last fall has such a flood of baseball enthusiasm been turned loose on the metropolis. Pictures of the heroes of the diamond were displayed in store windows all along Broadway, and baseball was the staple topic of conversation in clubs, cafes and all other places where men congregate.

During the day the committees in charge of the big welcome banquet to be given at the Hotel Baltimore to-morrow night put the finishing touches to their arrangements. The spread will be laid at $10 a plate, which means that it is going to be "some banquet." All of the big base ball guns and some who are not so big will be there. Altogether it is expected that nearly 600 will gather about the festal board. Judge Edward McCall will be toastmaster and Lieut. Governor Wagner will greet the tourists in behalf of the State. Governor Tener, President of the National League, and Ban Johnson, who directs the destinies of the American League, head the list of speakers. John McGraw, Charles Comiskey and "Jimmy" Callahan are slated to respond to the addresses of welcome.

MEMORANDUM PREPARED

OTTAWA, March 6.—A memorandum in support of the application of the C. N. R. Company, for further aid, has been prepared and will be placed in the hands of the Government probably to-day. The aid asked for is a substantial bond guarantee. Though the amount is not stated in a memorandum it is stated that the Company was induced to abandon its former request for a loan. The Government however is said to be willing to lend the good name of the Dominion to the C. N. R. for the purpose of floating the new issue of bonds, backed by Dominion securities, but Sir Wm. and Sir Donald will have to do the negotiating themselves. The general reasons given by the Company for their demand are that they desire to complete their transcontinental line without further delay.

LADIES' MORNING MUSICALE

At the Home of Mrs. Duncan Walker Yesterday Morning.

The regular fortnightly meeting of the Ladies' Morning Musicale took place yesterday morning, at the residence of Mrs. Duncan Walker, Weller Street. The following programme was rendered:

Lists.

1. Paper, Limit—Mrs. Allan.
2. Solo, 'Heroide Elegiaque" —Mrs. Massey-Cooke.
3. Song, "Thou Art Like a Flower" —Miss Quartermaine.
4. Violin solo, 'Consolation No. 3" —Mrs. Tomlins.
5. Solo, 'Etude-tragique No. 3"—Mrs. Porter, Accompanist, Miss Dean.

The next meeting will be held on Thursday, March 19th, at 10.30, at Mrs. Tomlins, 329 Brock Street, when Mazeppett will be studied.

Garbage wagons used by one German city are so constructed that they can be hauled either by horse or by electric tractors, the latter being 26 per cent. cheaper.

Will Serve 1 Year In Central Prison

John McClay, Found Guilty of Criminal offence, Has Sentence by His Honour Judge Hoyche This Morning—A Fine by Counsel—The Judge's Remarks.

AN EXAMPLE

"John McClay—There has just been handed to me a statement under the hand and seal of the Chief Justice of Ontario, stating that the case against you has been entertained in the Appellate Court, and that you were rightly convicted by me, some little time ago. You are therefore brought before me for sentence."

These were the words with which His Honour Judge Hoyche, addressed the prisoner, when he was arraigned before that justice on remand. McClay, it will be remembered, was convicted by a jury of supplying drugs for criminal purposes. He was found guilty of the charge by Judge Huyche. The case was taken to the Appellate Court by prisoner's counsel, but the five presiding Judges upheld the conviction that was given.

A Counsel's Plea.

Mr. O'Connell, on behalf of the prisoner, and who took part in the defence, addressed the Judge on the prisoner's behalf. He said in part:

"If it had not been for the fact that he had supplied these drugs, the relations that he had with this girl would have been no offence in law. I want to say on behalf of the prisoner, Your Honour, that there is no desire to minimize the gravity of the offence. I want you to take into consideration, the circumstances of the man's life. The drugs were furnished according to the medical testament. They did no harm to her, and were unaccompanied by any evil consequences, to anyone.

"One of the most important questions in connection with dealing with criminals, is the effect that the sentence will have upon the prisoner. It becomes necessary to consider his other propensities before inflicting a heavy penalty. This is not a man of criminal intent.

No Criminal Record.

"As far as we can learn, there has been no criminal record against him. Had it not been for this offence, he might have been considered a respectable citizen. He has, no doubt, friends and relatives, who are anxious for his welfare. If the law could be properly vindicated by a slight penalty, it would be properly served. The desire is rather to reform him, and I would ask that Your Honour should have regard to this. He has been confined to the jail since the 16th of January, last, and has been serving a term for the offence for which he was convicted. If, Your Honour, there is any further penalty to be imposed, it should be lenient."

The Crown.

Mr. T. Wearing, Assistant Crown Attorney, when asked by Judge Huyche if he had anything to say, said that it was not so much as a punishment, that sentence should be imposed, but as a means of correction. As far as punishment goes, the prisoner has been confined for a long enough time already. But it is not the future of the prisoner alone that has to be considered. But the welfare of a large number of young men in this country.

His Honour Judge Huyche.

"John McClay, stand up!"

McClay in the prisoner's box, looking somewhat haggard, stood up.

Judge Huyche:—"There is a very painful duty cast upon me. You have been ably defended. It is not the fault of your counsel that you are where you are at the present time. I have no doubt in my mind that you are guilty of the crime. You have been, taken to the highest court of the Province, and five judges have said that you are properly convicted.

Painful Duty.

"I said that this is a painful duty for me. I do not like to see any young man of ability and good character brought before me. I must take into consideration the admissions that came from you on the action of this child. It must be definitely and positively understood that women must be protected. The girl was a child in your hands, and you did not treat her properly, in any sense of the word. It was most improper, unkind and unmanly, and unchivalrous, to take advantage of the girl in the way you did. The suggestions that you made against her were cowardly on your part. There is no vindication that the girl was

(Continued on Page 14.)

NO EVIDENCE IN ALLEGED LIQUOR CASE

Port Hope Guide Makes Charge Against Provincial Liquor Officials

PAGE HOTEL, MILLBROOK

The Provincial Government and their special officer, Alexander Currian should feel heartily ashamed of themselves after the attempt they made this morning to convict George Page, of Millbrook, for selling liquor without a license.

The information was laid by Alexander Corrian and the only grounds for such information was that Norman Robinson was seen coming from the Page hotel on Feb. 11th, and his manner of walking indicated that he had been drinking. The fact of the matter was that Mr. Robinson a few minutes before had been thrown from his rig in a runaway and had received injuries that made him walk lame. In giving evidence this morning he swore that he received no liquor at the Page house, neither had he tasted liquor that day. The four other witnesses called stated that they had seen no liquor at the Page hotel on Feb. 11th and two of these witnesses pointed out to the Magistrate that they did not even know the taste of liquor.

Mr. J. A. Ayers, Provincial License Inspector was to conduct the prosecution, but neither he or the special officer, Corrian, appeared in court, making this case a regular fiasco.

Mr. Chisholm, who appeared for Page, pointed out that the information had been laid by Corrian and in fairness the prosecution should call him as a witness. A grave injustice had been done to his client and also to the witnesses, as any person would admit it did not redown to a man's credit to be called as a witness in a liquor case. The charge had been laid without the slightest foundation and the person giving the information had proved himself to be such a coward as not even to show his face in court. Provincial Inspector Ayers was very much to blame, as he should look into these cases and know the evidence better before proceeding. It was making a regular fool of the court.

Magistrate White said that he considered it a pity that information had been laid, but this was a matter for the Department to settle. He dismissed the case and the Department must pay the costs, amounting to $15.00.—Port Hope Guide.

AN EXCEPTIONALLY STRONG COMPANY

Will Present "Broadway Jones" Here Next Monday

"Broadway Jones," which comes to "The Grand" next Monday, March 9th, bears the stamp of success upon it, having been endorsed by every paper in New York as the greatest play that has been produced on Broadway in years.

"Some people can live on Broadway all their lives, and never know what the place really is until they go and see Mr. Cohan's play "Broadway Jones."—N. Y. Tribune. This quotation explains how naturally Mr. Cohan has drawn the characters in his new play. There is genuineness about this piece of stage writing that stamps it with sure success from the moment the curtain rises on the first act, and the fact that the progress of the play is accompanied by a moral lesson that is conveyed in an atmosphere of almost constant laughter furnishes an appeal that is irresistible and altogether satisfying.

The Company presenting this play here is an exceptionally strong one, an includes George Schaefer, Theo. V. Emory, Curtis Benton, Carolyn Lee, George E. Miller, Maurice M. Fisher, Mrs. Chas. Willard, Frederick Maynard, Miss Olive Artelle, Miss Grace Morrissey, George K. Henery, Miss Indie Whiteside, Frank Evans and Chas. H. Henderson.

FRIDAY, MARCH 6, 1914

EDUCATION NEEDED.

In connection with the outbreak of typhoid in the valley of the Richelieu river, Quebec, a very important fact was developed. In addition to the existence of unsanitary conditions, there is gross carelessness on the part of the people affected. Medical health officers investigating, say that precautions are not observed, and thus the work of the medical men to improve conditions is made difficult from the carelessness of the people themselves. This "carelessness" is no doubt due to ignorance and prejudice, and a failure to realize the importance of health precautions. This indicates, that there is still much educational work to be done, and the necessity where people deliberately sin against their own health and the health of the community, of the enlightened authorities applying the regulations and remedies, which enlightened research and observation and scientific deduction have demonstrated as indispensable. When the authorities take the lead in practically ignoring the importance of sanitary precautions in the interests of the preservation of the public health, one naturally expects less improvement in public cooperation in the provision and maintenance of proper sanitary conditions.

SHODDY OR SCOTCH TWEED?

The Toronto News makes light of the decision of the opposition in parliament to thoroughly discuss the report of the Transcontinental Investigation Commission. It declares that the figures of excessive cost of the construction of the railway "would seem to make silence rather than defence the part of wisdom." Is the alleged excessive cost a disadvantage? It represents a first class railway, built with such attention to ease of grades and curves as to make operation for all time the lightest possible charge on the revenues of the road, and built with such solidity and regard to permanence as to make rebuilding practically uncalled for. It is safe to say that the Canadian Pacific railway has spent in rebuilding its lines—to remedy the results of cheap construction, and to improve grades and curves in the interests of cheaper operation—a sum nearly equal to the original cost of the road. The News does well to urge silence in regard to the report, when without a full dress debate, the government has been forced to take back, on the floor of parliament, false statements founded upon the report, which tend to show that the interests of the party, the desire to discredit the Laurier administration through a partisan commission whose members were not even sworn in, was the chief motive of the "investigation." The Transcontinental railway has cost more than it should have been built for; and the question is was not the result worth the price? A man buys a shoddy suit of clothes for $10. Is he better served than if he had paid $30 for a suit of good Scotch tweed?

"GRAFT" AND "GRAFT"

The proverb "Set a thief to catch a thief," is often used in its figurative and illustrative sense only. It is reasonable to suppose that a man who has personal knowledge of the ways of thieves is more successful to detect the man guilty of a little forgetfulness of the distinction between meum et tuum. It is further in the correctness of this supposition seems to have influenced the Borden government to select Mr. Duff as one of the special commissioners to unearth "graft" in connection with the construction of the Transcontinental Railway. On June 30th, 1913, Mr. Gutelius was appointed a commissioner of investigation at the munificent remuneration of $25 per day. He handed his report on Feb. 5, 1914, or 588 days for two years and eight days Mr. Gutelius was drawing $25 per day, amounting to $47,970. This was not all. Mr. Gutelius seems to have been such a capable man that he could "investigate" and run the Intercolonial railway at the same time. On May 1st, 1912, he was appointed manager of the Transcontinental railway at a salary of $20,000 a year, or $54.80 cents per day. This, added to his side "graft" of $25 a day as commissioner, brought up his total receipts to $119.80 cents per day. Altogether in less than two years, Mr. Gutelius has drawn from the public treasury the tidy sum of $64,629. And Mr. Gutelius was a foreigner when he was appointed commissioner at $25 per day. He was formerly general superintendent of the Canadian Pacific Railway, and a citizen of the United States. But he evidently considered that a country that was such an easy mark, and such a fine field for "graft," was a good country to tie up to and he became nationalized, as a Canadian citizen, on Feb. 23rd, 1912, a month after he had been appointed investigating commissioner at $25 per day. A man capable of filling two important offices at the same time, and capable of "grafting" $119.80 cents per day was rightly regarded as a fit and proper person to discover "graft" in connection with the building of the national railway, especially as he was given a rather free play to his conscience, by not being "sworn in" as is the custom with Royal Commissioners. The fact that he did not discover any graft, except that put into his mouth by the government travesty of his report, and only found evidence of extravagance by comparison of the cost of building a degraded line, with that of building a first-rate railway, shows—taken in connection with his princely income for the past couple of years—that the government considered him well qualified personally to conduct a "graft" investigation for purposes of party advantage. A man that can execute a "rake-in" of nearly 120 dollars a day should have a fairly good nose for "rake-offs" in railway construction. Even if he didn't find any—that was less the fault of his qualification than of the facts.

THE NEW TARIFF AT WORK.

Whether as a consequence of the new tariff, or for some other reason, the last Bradstreet's index number, calculated from the wholesale prices per pound of ninety-six articles, stood at 8.8810 for February 1st, the lowest figure reported since Oct. 1st, 1911. Whether this is due to the tariff or not it cannot be denied that one direct result of it has been the increased import of free meat into the United States. For the last three months of the year no less than 32,780,129 pounds of meat were imported from outside, the figures being 5,752,207 for October, 10,908,733 for November, and 16,029,089 for December. These imports, however, do not seem to have materially reduced meat prices, but they have at least helped to prevent still further advances. The most significant fact is, however, that the United States has become an importing nation. With all its marvellous resources for the raising of cattle, it has ceased to be able to supply even its own markets. Whether it will remain an importing nation or will again develop its own resources sufficiently to at least provide meat for its own people is yet to be seen.—Christian Guardian.

WHEN THE BOY LEAVES SCHOOL

Ninety-five per cent. of the boys of Toronto over fourteen years of age are at work for wages. Less than five per cent. go to high school, and less than two per cent. go to universities. This statement is made by C. C. Robinson, Secretary of the International Y.M.C.A. Committee for the Employed Boys' Department at the Y. M. C. A.

Now there is nothing wrong in the fact that the boys are at work. An early experience of the responsibility and sharp struggle of life may be beneficial. But a boy in his teens ought not to be left to his own devices. His education is not finished at fourteen—in some ways it is only beginning. The next few years are filled with danger and opportunity, and everything possible ought to be done to give the boy a good start and equip him for usefulness and good citizenship.

Good work is being done in the Technical School, the Y.M.C.A. and elsewhere, but these agencies are probably not yet able to cope with the immense work that remains to be done. There must be recreation, culture, and vocational training. The boy must be helped in his calling, and also educated in the intelligent use of his leisure time.

In fact, we ought to devote almost as much care to the education of boys and girls over fourteen as we do to the education of children.

The employers of young people, the Province, the cities and towns, the general public, should all cooperate and see that no part of this great duty and opportunity is neglected. —Toronto Star.

EVANTUREL'S SALARY.

He Wants It Up to Date But Officials Hesitate.

TORONTO, March 6.—There is some interesting speculation concerning the sessional indemnity to which the member for Prescott is entitled. He has already sent in an application to the Government for the payment of his salary up to date.

It was stated yesterday by a Government official that Mr. Evanturel's sessional allowance would stop from the day that the original statement was read in the House. This, however, is questioned by others. The rate usually allowed is twenty dollars per day up to the end of thirty days. For more than thirty days the indemnity is $1,400, minus $15 a day for each day over a week absent.

Late in the evening the Government were up a petition to say what action would be taken.

THE GOVERNMENT'S LAMENTED LAMB

The universal movement for the improvement of highways is reflected by the passing in the United States Congress of the Shackleford Good Roads Bill. This Bill is particularly interesting as a contrast, to the Highways Aid Bill introduced into Parliament by the Borden Government, and subsequently killed by that same Government.

The measure provides that $25,000,000 be turned over to the State governments annually to be used for the construction of post-roads. The roads are divided into three classes. Class A is to be surfaced with macadam, concrete, or brick; Class B, with gravel or sand clay; and Class C is to be well-crowned earth road. The expenditures of Federal money on the three classes of thoroughfares is limited, respectively, to $20, $20 and $15 per mile. The distribution of money would be based, half on theratio of population and half on the ratio of post-roads. The States, or subdivisions thereof, are compelled to spend as much per mile as the Federal Government, and all work must be done under the supervision of the State, county, or more local authorities, the Federal authorities prescribing rules for construction and maintenance and inspecting the work before the money is paid over from the national fund.

Now here we have put into operation the very principle for which the Canadian Senate stood out rather than adopt which the Borden Government killed their Highways Bill. The Shackleford Bill authorizes the expenditure of a certain specified sum, and its distribution among the States, half on the ratio of population, and half on the ratio of post-roads. The Borden Bill authorized the appropriation of unnamed amounts for improving highways, and left it to the discretion of the Government themselves to expend the whole or any part of any appropriation in any province or any part of any province. The Senate inserted an amendment to have money voted under the Bill distributed among the provinces according to the ratio of population, and, as is the case now in the United States, left to the provincial authorities to spend in conjunction with their own programmes for improving highways. The Conservatives were outraged at the money getting beyond their control in this way. It meant that there would be no Highway Fund to spend in shaky constituencies. They therefore indignantly killed their little ewe lamb—simply because the Senate had cut its little tail off.—Montreal Herald-Telegraph.

Wife-Murderer Convicted.

CHICAGO, March 6.—William C. Ellis was yesterday found guilty of murdering his wife, Mrs. Eleanor Hosea Ellis, last October in a Chicago hotel. Punishment was fixed at imprisonment in the state penitentiary for 15 years.

The jury reached a decision after deliberating three and one-half hours.

The defence of transitory insanity, set up by Ellis, apparently was disregarded by the jurors. Ellis claimed that he had been driven to mania by the knowledge that his wife had been lost to him and her infatuation with a young Brantford dry goods merchant the Ellises met during a vacation at Georgian Bay.

School Question Raised.

OTTAWA, March 6.—The Manitoba schools question is revived in a petition presented to the House yesterday by Monsignor Charlebois, vicar apostolic of Keewatin, and 35 residents of the same locality, of which the headquarters is Le Pas.

It is cited that the Northwest Territories came into the Confederation on an understanding that their civil and religious rights would be upheld.

CLASSIFIED BUSINESS CARDS

Agricultural Implements

HEARD & NORTHEY — CUTTERS AND Sleighs, the best manufactured by the McLaughlin Co., of Oshawa, well known for their superiority, durability and comfort. Also Harness, Robes, Mitts, etc. Heard & Northey, 370 Water St. 'Phone 1151.

BRIEFS FROM THE WIRES.

Queen's University students are planning to erect a building to be used by themselves for social purposes only.

Crozier Coulter, of Coulter Bros., horse buyers, Toronto, was the victim of a robbery while staying at a hotel in Markdale.

A leak in a gas jet in their room caused the death Wednesday night of Olive and Dorcas Phillips, who boarded at 23 Terrasse Street, Montreal.

Four grand opera prima donnas, —Mme. Melba, Mary Garden, Emmy Destinn and Mme. Matzenauer—are on the sick list as the result of the stormy entrance of March.

Seventeen soldiers of the Empire Rifle Regiment were overwhelmed and killed yesterday in the Tyrolese Alps by a great avalanche while they were engaged in manoeuvres.

Chief of Police Zeats of Regina, formerly of Woodstock, Ont., has resigned. An investigation into the police department has been going on behind closed doors for some time.

The application of the Cornwall Cheese Board for the establishment of a dairy record centre for cow-testing has been granted and the work has been commenced under A. L. Andrews.

The Lower House of the Austrian Parliament, whose sessions had been suspended owing to the violent obstructions of the Czech Deputies, reassembled yesterday, but was again closed because of violence.

HAS NARROW ESCAPE.

Labourer Badly Hurt Thawing Out Frozen Dynamite.

SUDBURY, March 6.—In attempting to thaw out a pail of ice containing dynamite, Nicholas Sobotsky, a Russian labourer, was nearly blown to pieces. He was brought to St. Joseph's Hospital, where he was attended by Dr. Dizon; and is expected to recover.

The victim was employed on the construction of a five-mile spur from the C.P.R. main line into the Big Lorrain mine, which is to be opened up this spring by the Mond Nickel Co. He placed the pail on a fire. It exploded, bruising and tearing the flesh from the legs and arms and cutting the face. A large piece of the barred itself in the right leg near the ankle. Other injuries more or less severe were sustained.

ANAEMIC SINCE CHILDHOOD

If you are anaemic, you need more iron in your blood, and the tell-tale symptoms are a pale face—colourless lips, ashen finger nails, poor circulation, and short breath, and more serious diseases are easily contracted when in this condition.

What Vinol did for Miss Yvonne Holmes of Fall River, Mass., it will do for every anaemic run-down person. She says: "I have been weak and anaemic since childhood, always had 'that tired feeling.' Tonic after tonic was tried with little or no result until Vinol was recommended, and after taking three bottles, my appetite and digestion have been improved. I do not suffer any more from insomnia, nor do I have distressing headaches as formerly, and I am stronger than I have been for years."

We ask every anaemic or run-down, weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. McGaughey & Jury, druggists, corner George and Charlotte Streets; also Lakefield Drug Store, corner George and Simcoe Streets.

WILL ASK SUBSIDY.

Hydro Radial Deputation Went Go Back to Ottawa, Says Beck

"FIELD DAY" IS A SUCCESS

LONDON, March 6.—A statement of the operation of Hydro, plans for acquiring further power, the need of radials and how they might be secured and a suggestion for a provincially-controlled system of telephones were the features of Hon. Adam Beck's address last night at the London "Field Day" for the discussion of the power situation in Western Ontario.

At the outset he expressed his desire to do everything possible to bring the plans for a system of radials to a successful issue. It would be his privilege in the course of a week or so to place on the table of the Legislature the last annual report of the Hydro-Electric Commission.

"The commission," said Mr. Beck, "has paid to the Provincial Treasurer $559,388 as interest charges on the Hydro investment. Not one dollar after the completion of municipal construction work has been charged to capital account, but every dollar after that has been taken from every side. We have an available surplus of $189,269, an amount adequate to meet complete sinking fund charges. In addition every one of the-fifty odd municipalities has had a handsome surplus at the end of the year, with the exception of a few still in the constructional stages. The total investment in the Niagara scheme by the end of the year will be approximately $9,500,000 by the Government and $9,350,000 by the municipalities in the Niagara zone and $3,000,000 by other municipalities, making an investment of $21,000,000, this being the liability of the province through the municipalities, and every dollar of it is self-sustaining."

Motive power was available, said the speaker, to meet all the demands at the lowest cost. In the dual undertaking of transmitting Hydro and operating radial railways, they had at once the most economic way of bringing both to the doors of all the people in Ontario. In the three or four years of operation they now had electricity at the disposal of one and a half millions of the two and a half millions of people in the Province of Ontario.

Mr. Beck said that he quite concurred in the expressions of anxiety as to further supply of Hydro to meet the ever-increasing demand, and he referred to the action of the Ontario commission in protesting against private companies being given extensions of charters to secure power from Niagara Falls.

"We must ask that Government at Ottawa, that Government that is rich and extravagant as Dominion Governments have been since time immemorial, to give you assistance towards this end," said the Minister. "We mean to have some of that money, not to be squandered but carefully invested to make Ontario the province that she should be, agriculturally, socially, and commercially."

Mr. Beck then gave estimates on the cost and revenues of the projected Toronto, Markham & Port Perry Hydro Radial, which is expected to serve as the first experiment of radial building by the Ontario commission. The line, he said, was estimated to cost $2,470,770, or $38,600 a mile, which figure did not include the asked-for federal subsidy. Comparative figures were then brought forward to show how the construction of the roads would reduce the price of Hydro-electric power.

The exercises opened at one o'clock in the Masonic Hall on Queen street with the welcoming of delegates by Mayor Green and members of the Board of Control and City Council. The visitors then signed the register.

A resolution offered by Mayor Jackson of Clinton, warmly endorsing the work of Hon. Adam Beck and urging the continuance of his efforts towards the upbuilding of a radial system, was passed unanimously.

Phillip Pocock, of London, presided; and Ald. Hanrahan, of Guelph; Alex. Summers, vice-president of the Guelph Board of Trade; J. J. Pettypiece, M.P.P., of Forest; and S. C. Elliott, of Glencoe, spoke during the afternoon.

LIVE STOCK MARKET

THE MERCHANTS TREASURE BOX

$200 To be Given Away by the Merchants and Examiner ON EXAMINER $ DAY

IN ADDITION TO THE GREAT VALUES to be had on EXAMINER DOLLAR DAY, the Merchants will give away $200 in Cash as Bonuses to their Customers, so that Dollar Day will be long remembered. With each purchase of One Dollar made on Examiner Dollar Day at any of the stores named below, a number will be given, and 89 of these numbers will secure the cash bonuses. This is not a lottery, because there is no element of chance. Every Customer gets more than a full dollar's value for every purchase, and in addition a Cash Bonus is to be given to the 89 Customers. Of course, everybody cannot get a Bonus, but everybody can get a Great Big Bargain for every dollar spent. See the money in Neill's Centre Window. The Cash Bonuses will be as follows:

1 Bonus of	$20.00
1 Bonus of	$15.00
3 Bonuses of	$10.00
4 Bonuses of	$5.00
5 Bonuses of	$3.00
25 Bonuses of	$2.00
50 Bonuses of	$1.00

THE FOLLOWING MERCHANTS will issue numbers with every One Dollar Purchase on Dollar Day. The numbers will be named by Mayor Buller and published by the Examiner on the evening following Dollar Day. The list includes all names received up to the time of issue, and will be added to as fast as handed in.

MUST AVOID STUMP

Deputy Speaker Should Not Electioneer, Says Sir Wilfrid

PREMIER BORDEN AGREES

OTTAWA, March 6.—The House spent practically all of yesterday's sitting in committee of supply, with the estimates of Hon. Bruno Nantel Minister of Internal Revenue, afte: listening to a brief discussion between Sir Wilfrid Laurier and the Prime Minister respecting the propriety of the Deputy Speaker taking any part in electoral contests.

Earlier in the day Mr. Nantel introduced a bill respecting the metric system. It makes the metres and kilogram kept as a standard at the international bureau in Paris the standard for Canada.

Sir Wilfrid Laurier presented a resolution declaring that the same rule which applied to Mr. Speaker applied to the Deputy Speaker, and that the latter should be barred from taking part in electoral contests.

Sir Wilfrid said he desired to say nothing controversial. The rules of this House, except as modified, were the rules which governed the British House at the time of Confederation. An unwritten rule in the British House had been then, and ever since that, the presiding officer should refrain from expressing any political views, either in or out of Parliament. He was glad to say in Canada all the Speakers since Confederation had scrupulously refrained from expressing any political views, and from all displays of partisanship. The same, he thought, could be said of all the gentlemen who had occupied the position of Deputy Speaker since the operation of the office in 1891, except Mr. Bergeron. He did not say this to reflect on Mr. Bergeron, as no one had objected at the time to the course he saw fit to take. He concluded with an appeal to the Prime Minister to establish the British practice in Canada.

Mr. Borden said, in reply, that the British practice rested on no written rule, and we would probably make more progress towards having the Deputy Speaker non-partisan by making no hard or fast regulation, but by relying upon public opinion in and out of the House. In England the Speaker had no temptation to take part in politics, because his seat was never contested. That was not the case in Canada, with either the Speaker or the Deputy Speaker. He was quite in sympathy with the views of Sir Wilfrid Laurier, but trusted that the resolution would not be pressed at this time.

Glancing at the historical part in Sir Wilfrid's address, Mr. Borden said that not only Mr. Bergeron, but Messrs. Macdonald, Brodeur and Marcil had appeared on the stump while holding the office of Deputy Speaker.

The committee which has charge of the redistribution of constituencies will meet on Tuesday next to consider the proposals of the two parties in the different provinces. Nothing has yet been done by the committee itself with regard to any of the seats, not even the unit of redistribution, but so much harmony has been in evidence that several proposals which will be laid before the committee on Tuesday will be unanimous.

The first matter which will be agreed upon unanimously will be the unit. It will be a general basis of 45,000 for cities and 20,000 for rural constituencies. That is, in regard to the latter, where there is not less than 20,000 in a constituency, the riding will not be disturbed. There may, of course, be additions to it, as in the case of several Quebec and Ontario constituencies, which have to be merged in others to make way for the increased representation of cities. For instance, it has been definitely decided that Montreal will have 12 seats, but apart from that, nothing has been done in the French-Canadian province.

Koch Cure For Tuberculosis Now Success

Tubercilin Cures One Hundred Per Cent. of Cases in First Stage

PHYSICIANS NOW USE IT

NEW YORK, March 6.—More than fifty physicians recently received their first lesson in the treatment of tuberculosis with the Koch tuberculin by an improved method on Monday at the Polyclinic Hospital, the first medical institution in the United States to provide a course of instruction in the use of this remedy.

Under the supervision of Dr. John A. Wyeth, former president of the American Medical Association, and president of the Polyclinic Hospital, the course was begun by Dr. Ellis Bonime, who has had an unbroken record of success in the treatment of cases of lung, bone and gland tuberculosis at the hospital during the last eighteen months.

Met With Failure.

When the tuberculin of the late Dr. Koch, of Germany, was first administered, in 1892, it was a disastrous failure. To-day, by the new method of treatment, however, Dr. Bonime told his students, tuberculin effects a cure in practically 100 per cent. of bone and gland cases. It also cures 100 per cent. of cases of tuberculosis of the lungs in the first stage, 90 per cent. of cases in the second stage, but is cannot be used successfully in the third stage. When it is used during the last stage its exect is likely to hasten death.

Dosage Too Great.

The reason that the remedy was a failure during the first years after its discovery is that the dosage was too great. Formerly from one-tenth of a milligramme to a milligramme of the tuberculin was the initial injection. This is from 1,000,000 to 10,000,000 times as great as the first dose now administered. The large dose produced reaction, which made the disease more virulent than before.

During the last eighteen months Dr. Bonime has cured about 100 bone and gland cases at the Polyclinic Hospital. The institution specializes on surgical cases, and for this reason fewer cases of tuberculosis of the lungs have been treated. Dr. Bonime, however, has cured with tuberculin nine cases of tuberculosis of the lungs at the hospital, and more than thirty patients whom he treated privately.

Some of Toronto's Best Talent for Handel's Oratorio

Mr. R. J. Devey reports having a busy time in Toronto this week in connection with the grand production of Handel's oratorio, "Judas Maccabaeus," on April 10th next. Mr. Devey was commissioned by the Executive committee of the St. George's Choral Society to make tentative arrangements with the principals for the above production. Dr. Torrington again placed all the well known facilities at his disposal necessary for such an important work, and voiced his appreciation of the courtesies extended to him on the occasion of his visit to the "Messiah" production last year. All being well he will come along this year.

The best talent of Toronto is at the disposal of the committee, who will meet at an early date to make final arrangements.

Read the list of the stores where the treasure box numbers are given away.

King Will Attend the Boxing Bouts

Special Wire to The Examiner:

LONDON, Eng., March 6—Boxing enthusiasts are jubilant to-day over the fact that King George, despite the outcry against professional pugilism will attend the boxing contests of the Second Life Guards, where Bombardier Wells and other professionals will give exhibitions.

The Magistrate Was Lenient With E. Butler

Edward Butler, more familiarly known as "Neddie," decorated the prisoner's box at the Police Court, this morning, with his bald pate and a cut on the bridge of his nose.

Magisthate Dumble recognized him at once: "Your familiar face in all its beauty, is back again," remarked Magistrate Dumble.

"I didn't do anything your Worship" replied Edward. "I just came down yesterday. I didn't do any harm."

"Were you working with a farmer?"

"No, your Worship; I was in the woods."

"They should never have let you out of the woods."

"I'm going back in the Spring."

"Five dollars, to be paid forthwith or ten days in jail," said His Worship, with the idea that Edward needed a rest on the hill, and that a fine of five dollars was more than he could pay.

"Will you give me a few minutes to get the money, Mr. Dumble?"

"If you have the money I will reduce your fine to two dollars."

Ned shuffled out to get the pair of iron men.

Mr. R. J. Devey Will Conduct "The Mikado" For a Toronto Club

A signal honour has been offered to Mr. R. J. Devey by one of the Toronto Athletic clubs. Next month, the Gilbert and Sullivan comic opera the "Mikado" is to be produced, and Mr. Devey has been asked to conduct the performances. Mr. Ernie Dalton, who took the part of "Koko" in this city some years ago with so much success is taking the same part, and the beautiful principals dresses owned by Mrs. Devey, will be used

The performances, according to present arrangements will be given in the Royal Alexander Theatre.

AN ODE TO THE HENRY HOPE

The Henry Hope
Is the only hope,
Of the boys that are out of work;
There is no need to bring any more,
Across from the other shore;
For those that's here can do just as much,
And maybe a little more;
For there is just a hundred now,
And maybe a hundred and two;
That's just waiting for a chance,
To show what they can do.
And if they get that only chance,
To make the machinery wiz;
And get a decent living wage,
I'm sur they'll do the biz.
For we will work without a shirk,
From the time that we are hired,
Till the superintendent tells us,
See here, boys, I say your tired.

FLORAL DEPT. OF C.P.R.

This coming spring marks the twenty-fifth anniversary of the creation by the C.P.R. of the floral department which, though it is immediately concerned with aesthetic effects, has been a splendidly paying feature of the organization — paying, that is, in the sense of popularizing the system with the travelling public. Twenty-five years ago the company began the work tentatively, and almost apologetically it seemed, to a system which was marked, and which had to be marked, by a relentless utilitarianism, that to introduce poetry when you wanted dividends was to "slop over," in an absurdly sentimental way. The work, feeble as it was done at the start, showed gratifying results. The agents and section men showed that with a little encouragement their native love of flowers would be a factor which could be depended on to make the floral department a success. The work grew until to-day, from coast to coast, every station in the summer time has its plot of flowers, while along the track one may see a blaze of colour as the train rushes by.

It is now the time when the spring seeds are being sent out. In these are put up, in carefully sealed packages, at least 37 varieties—seeds obtained from many diverse quarters, but the whole forming, if used, a beautiful floral synthesis. Scores of thousands of these packages are being sent out along the line to the agents and section hands—to all in the employment of the company who will undertake to care for them and take a pride in their growth. In the early fall thousands of bulbs are sent out — narcissi, jonquils, tulips, hyacinths, daffodils and all the familiar names which have their appeal in the homes of the agents when they appear in bloom, either in the earth itself or in glass-case cultivation against the windows. When these have gratified the eye and finished their course, the seeds will be ready to come up; and thus the year round, all over the vast system, there is a colour scheme which has the most inspiring effect. The company has received many letters from passengers complimenting it on the floral department, and testifying, not only to the aesthetic, but moral effect of the parterres in front of the stations on the long journeys between coasts.

REMOVED

McFadden & Son have moved from their former store at 186 Hunter Street to Murty's fine new building, four doors east of the old stand, where they are now prepared to show their

High-Class Furniture, specializing Mahogany, Quartered Oak in Fumed, Golden and Mission finish, Pieces and Sets for Dining Room, Den and Parlour.

WATCH FOR THE GREEN PRICE CARDS

Saturday Snaps

Women's $3.50 and $4.00 Gunmetal Boots $2.89.

There are both lace and button styles, and the ordinary and the high cut uppers.

They are made with toe-caps, extension sole, cuban or military heels, while the leather is a selected colt skin, tanned in gunmetal finish.

In the whole assortment—all $3.50 to $4.50 boots—there are sizes 2½ to 6, and as a clearing lot they are exceptionally cheap at $2.89.

—Second Floor

Lion Brand Rubbers 59c

With the certainty of slushy weather before us, it behoves every Miss or Matron to possess herself of a reliable pair of rubbers if she would walk in comfort and keep dry shoes.

Therefore, we would remind you of the excellency of the Lion Brand Rubbers, which come in all sizes, are neatly fitting, and wear for a very satisfactory length of time.

Moreover, they are seldom to be obtained so cheaply as on Saturday at 59c pair.

—Second Floor

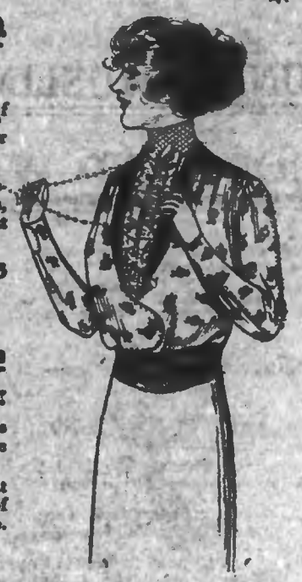
$2.95 is an Extra Low Pricing for a Clearance of Expensive Blouses

There are some made of lace or chiffon over silk, and some of plain messaline silks, the shades being black, white and the darker hues of blue.

Amongst them are high and low collars, full length and three-quarter sleeves; while they offer a great diversity of styles and finishes, and all are the better class of blouses that were formerly priced at $4.75 to $8.50.

In one grand clearance on Saturday at the uniform price of $2.95

—Second Floor



Many Wise House-keepers are Choosing Their Spring Wall Papers Now

And this they can do in comfort and without haste, for the confusion of spring cleaning is yet to come.

While another point in favour of making an early choice, is that just now the stock of Wall Paper is at its best.

The department is on the Third Floor in a bright, sunshiny corner, where the latest designs and most approved methods of hanging are shown.

Here we will gladly estimate on any proposed decoration.

Extra Values Are To Be Secured in The Notion Department

And from all the host of Small Things that this section offers, we have chosen two wherewith to refresh your memory of the many sterling values to be obtained.

100 Gaelic Safety Pins on a card 14c. They are in assorted sizes, are nickled steel and are sharp and strong.

500 Assorted Pin Sheet; the "Morning Glory" kind; made well and finished with sharp points. 2 Sheets 5c.

Main Floor Rear Centre

Some New Blouses of Cotton Crepe Remarkably Cheap at 98c

And though so moderately priced, each garment reveals much taste and good style in it's make up.

They are all of white crepe, and all have the turn down Robespierre collar, which in some instances is finished with a trimming of blue rep, and in other cases has a simple sailors knot of coloured ribbon.

There are two styles which have a pretty yoke effect that is hemstitched, while the third is a plain shirt waist design.

At 98c on Saturday they are one of the neatest lines of Blouses we have ever offered for the money.

—Second Floor

Penman's Seamless Cashmere Hose, 29c, 3 pairs 85c

This is the only hose that is knit to form without a seam.

They have spliced heels and toes; are full fashioned and dyed a fast black. A 35c hose in every respect, that is priced on Saturday at 29c, 3 pairs 85c.

—Main Floor Left

Many Busy Fingers Are Preparing the Season's New Hats

Although the formal opening of Spring Millinery is to take place on the 19th, 20th, and 21st of this month, the showrooms on the second floor are already assuming a Spring aspect, with an array of new hats to greet those girls and women, who like to choose their Spring headgear at an early date.

—Second Floor

Guipure and Medallion Lace Trimmings, 7½c yd.

This is a clearance of several pieces of white, cream and Paris laces, that are worth 20c to 25c yard.

Some are slightly shop soiled, but they are all of solid quality and of liberal value to effect a sharp clearance. Saturday, 7½c yard.

—Main Floor Centre

Anderson Ginghams 11½c

Here is a well known line, the name of which is a guarantee of quality.

They are procurable in checks, plaids and stripes in all colours, and are 27 inches wide.

Saturday 11½c a yard.

POTATOES ARE SOMEWHAT SCARCE

Supply Held Up by Storms—Should Be Plenty in Two or Three Weeks

If you have your spring supply of potatoes safely tucked away in the cellar you are fortunate, for at present the "Irish favourite" is inclined to be scarce in Peterborough. There have been plenty all along, but the dealers, not anticipating such cold weather, have not been holding them and the result is there are no potatoes to draw from here.

"You see, it is the intense cold and the recent snowstorms tying up traffic," said a prominent potato dealer to-day.

"The cars are all held up by the storms. Over 90 per cent. of our potatoes come from New Brunswick, and down there they have experienced the worst winter they have had in years.

"Oh, no; I do not think there will be any famine here. There will be enough, but none to spare. In two or three weeks' time we should have plenty. The opening up of the weather is all we want."

The price of potatoes is at present $1.25 a bag, or $1.00 by the carload. Last week's price was $1.15, so that makes a jump of 10c in one week. "They are not liable to go any higher though" was the comforting news. If you have plenty of the mealy tubers it is just as well to be careful of them, for a while anyway.

PRAISE FOR PRESIDENT WILSON

Special Wire to The Examiner:

LONDON, Eng., March 6.— Leading British newspapers to-day give unstinted praise to President Wilson's message to Congress yesterday. The Westminster Gazette, the leading government organ, says his attitude on the Panama tolls question is worthy of the highest compliment. The Pall Mall Gazette says, "President Wilson's action sweetens the atmosphere of internatoinal re lations between us and our kin on the other side of the Atlantic."

Judgment Re Cordova Mines

Argument Concluded Yesterday —Judgment Reserved

The argument respecting the Northern Electric Company versus the Cordova Mines was concluded in Osgoode Hall, Toronto, yesterday, and judgment was reserved.

Northern Electric & Manufacturing Co. v. Cordova Mines—R. McKay, K. C., for plaintiffs, J. M. Clark, K.C., for Cordova Mines, G. F. Shepey, K. C., and W. N. Tilley for defendants, Hughes and McKechnie. Appeal by plaintiffs from judgment of Middleton, J., of October 21, 1913. Argument of appeal resumed and concluded. Judgment reserved.

QUESTIONS FOR LEONARD TO ANSWER

Special Wire to The Examiner:

MONTREAL, P.Q., March 6 — Le Canada this morning publishes a warm editorial on te Transcontinental Railway situation as a result of a series of questions Hon. Mr. Parent put to Mr. Leonard, as published a few days ago. 'What will Mr. Leonard answer to Mr. Parent's questions?" asks Le Canada and goes on, "the man whom Mr. Borden chose to replace Mr. Parent, has now, in his turn, been placed on the stand, and must answer the questions which are very embarrassing to him, but of the greatest importance to the public. Mr. Gutelius, finding that he can do nothing against the old Laurier Government, has put Mr. Parent and his administration in question. Doubtless he had his formal instructions on the subject, but his accusations fell flat, and after Mr. Parent's answer there remains less than nothing of them.

The Merchants are planning hundreds of surprises in big Dollar Values for Dollar Day.

The Poultry Association In Session

The regular monthly meeting of the Peterborough Poultry Association was held in their hall, Simcoe Street, last night. There were a goodly number present and much interest taken. While last year was a record year, the members are anxious to make this year the best. It was decided to have Mr. J. E. Bennet of Toronto, and Mr. J. H. Minshall of Brantford act as Judges for the next annual show, which will be held January 5th, 6th, and 7th, 1915. It was also decided to continue to have the different varieties of birds shown by members at each monthly meeting. There will be a competent judge present to look over the birds and ribbons will be awarded. The purpose of these meetings are not only to be interesting but instructive, and while the Association appreciates the support of the business men and public, they would be glad to have all those who have purchased a membership ticket and any who wish to become members to attend these meetings, which will be of interest and profit.

The variety of birds for exhibition at the next meeting will be all varieties of Wyandottes.

OMEMEE REQUESTS ANOTHER ARMOURY

Council Urge Restoration of the Armoury

At a meeting of the Omemee Village Council on Wednesday, March 4th, 1914, the following resolution was passed:

"That the municipal council of the Village of Omemee record with deepest regret the burning and destruction of the Armouries in the Village of Omemee, which deplorable accident occurred on the morning of February 25th. They desire to express to the Honourable the Minister of Militia and Defence how greatly the residents of the Village and surrounding district appreciate the benefit and advantage which the provision of the splendid building conferred upon them, and to give expression to their keen sense of deprivation its loss has caused. The Council desire to respectfully and earnestly urge upon the Minister that the building and its equipment be restored as soon as the work of reconstruction can be undertaken."

ORILLIA WOULD PLAY SARKIS TO THE TRENT CANAL'S PEGOTTY.

The Lindsay Post, Liberal, points out that the present house-cleaning of the staff of the Trent Valley Canal offers an opportunity for a more even distribution of honours and emoluments, and suggests that Lindsay should not be overlooked in the new appointments. Hitherto, the Post says, practically all the appointees have been Peterborough men. The best men available ought to be, and we trust will be, chosen wherever they may happen to reside. But there can be no harm in mentioning that Orillia is not often behind when capable men are in question. Moreover there are several of us ready and willing to sacrifice ourselves upon the altar of our country in this particular case.—Orillia Packet.

FOLEY AND GLEESON SECURED CONTRACT

Paving Contractors Guarantee Work For Ten Years

KINGSTON, March 6.—At the meeting of the City Council of Kingston on Monday night the contract for the paving of Princess and King Streets, from the corner of Brock Street to Clergy Street, was awarded to Foley & Gleeson of Ottawa, their tender of $41,319 being considered the most acceptable. The pavement will be sandstone within the track area and sheet asphalt outside the rails.

Foley & Gleeson agree to guarantee their work for ten years and will leave ten per cent. of the contract price as a bond with the city. They undertake to do the work within 60 days; in fact Mr. Foley says that it will be finished in 45 or 50 days if there is no delay in getting the materials on the ground.

Come and hear Evangelist Pugsley at Park Street Baptist Church, every night, beginning March 9th. Sound Gospel preaching and good singing. Everybody welcome.

In Favour Of Repeal Of Canal Tolls

Special Wire to The Examiner:

WASHINGTON, D. C., March 6.— Responding to President Wilson's message for the repeal of the Panama Canal tolls Clause, the House Interstate Commerce Committee today favourably reported Sims' repeal resolution, only four committee men voting against it.

PARCEL POST UP TO LIMIT.

Instructions have been issued to the different post-offices to immediately accept parcels up to the limit of eleven pounds.

At the start only six-pound parcels were taken, and it was proposed to limit the system to that weight for three months.

$200.00 in cash bonuses to be given away will make Dollar Day interesting.

GENERAL STOCK MARKET

NEW YORK, March 6.—To-morrow may see further short covering in the general stock market, which shows a disposition to break away from specific influences of an adverse charcter.

More impressive than anything else in the entire market situation is the apparent liquidated and possibly oversold condition of the majority of the active standards. Naturally sympathetic reactions take place when unfavourable news comes but such reactions are small. The return of good news would have an electrifying effect in the best stocks, which are scantily offered and are in a position where they would respond to a moderate demand to an extent that would surprise the bears. Our best advices favour the purchase of good securities on moderate reactions.

The coppers shares may be bullishly conspicuous any time. There is a tendency to favour them and the steel stocks. The railroads are under the rate cloud but good buying is going on in GQ, NP, BG, St. Paul, Atch. and SP.

Specialties should be bought for turns when made active.

Grain.

On recessions the buying is improving.

Liverpool opening — Wheat unchanged to 3-8 lower.

Corn unchanged to 3-8 lower.

1:30 p.m.—Wheat 1-4 to 1-2 lower. Corn unchanged to 1-4 lower.

Chicago, March 6—Hogs, 12,000. Car lots—wheat 41; corn 351; oats, 142.

SUFFERING FROM EXCESSIVE CULTURE

Christian morality cannot exist where art dominates, because art untrammeled finally ends in gross sensuality. The substitution of art for the good and true has always ended in physical and moral decadence.

So it is now in this country. We do not have to go to Rome and Greece. We have become noted all over the world for our pursuit of the beautiful. We are trying to cultivate people by eaching them that beauty is essential, and that where beauty exists there will be no excuse for vice.

We are suffering from excessive culture of esthetic. Our enjoyments today require no thinking, and we are suffering from muddle-headness. But we have no business reading questionable novels, seeing questionable plays, unless we can think logically and philosophically.

As the true, the good and the beautiful are of God, there can be no conflict between these. Eliminate the true and the good and art becomes pagan. Corruption and ruin follow. —The Rev. Father McMahon in New York American.

Dollar Day is for every person in the City or District to profit by.

That Real Estate Debate

Mr. F. E. Ellis Replies to Mr. W. C. Austin and Enters into Details of the Land Question

To the Editor of The Examiner.

Dear Sir,—Is land speculation immoral? I had little idea of the controversy that would follow the letter that I wrote to The Examiner some weeks ago, in reply to a previous letter by Mr. W. C. Austin, relative to the subject of land speculation. In helping to keep this subject before the attention of the people of Peterborough Mr. Austin is performing a public service. In view of the interest that the land question is creating in every civilized country of the world, it is a timely subject for consideration here and I beg your indulgence for space in which to reply to Mr. Austin's communication in your issue of Monday last.

Let me again make it plain that I have no personal feling in the matter whatever, nor no desire to "knife" the real estate agent, as Mr. Austin seems to think. As a medium through which men looking for homes are put into communication with men who have homes to sell or rent, the real estate agent is a producer of wealth and a middleman without which we could not well get along. This function of the real estate business, however, is something entirely apart from land speculation. The legitimate real estate man will always be with us; under a just economic system we will have no place for the land speculator. With the first I have already done business. I have bought a home in the City of Peterborough. With the real estate men in this capacity no one could have any quarrel.

Speculators Not Necessarily Immoral

Let me point out further that while I consider land speculation immoral, the speculator in land is not necessarily immoral. It all depends on the viewpoint. I know that many eminently respectable and useful Christian citizens have speculated in land. It can also be proved that people of equal respectable standing at one time speculated in slaves, but they could hardly do so now and retain the respect of their fellows. When we all come to appreciate the evil effects of land speculation then it is that the speculator, as well as the speculation will be classed as immoral.

Probably Mr. Austin and I would come to some conclusion sooner if we defined our terms. According to Webster's new International Dictionary, anything that is "unjust" is "immoral." In previous letters I have attempted to prove that land speculation works an injustice on the home seeker in Western Canada. I gave figures on good authority, which showed that every farmer in the Prairie Provinces might have a farm of 160 acres, and not one of them be more than seven miles away from the railroad. Moreover, that every bit of cultivated ground in Western Canada could be located within two miles of the railways. Because so much of the best land is held on speculation by railway companies, by land companies and by other speculators on a smaller scale, farmers are found living 25, 30, and even 250 miles from the railway, while there is plenty of land near to shipping points held idle for speculation. The ill effects of this system on the social life of the farmer and the expense that it involves to him in hauling his grain to the elevator, and hence in increasing the cost of living to all of us, are too evident to stand in need of proof.

The Real Issue Evaded.

I pointed out, further, that these evils are becoming so well appreciated in Western Canada that two of the three provinces are already attempting to curb the speculator's operations by taxation methods, and quoted several ministers and church assemblies to show that the Christian conscience of the West is at last fully awake to the immoral aspect of land speculation. Mr. Austin evades the real issue and makes much of one incident that I related to illustrate a genral principle.

I stated that a man whom I employed when in Edmonton, had found it necessary to go 80 miles from the City before he could find a free homestead. Mr. Austin takes me to task by pointing out that since that date several areas have been homesteaded within 25 miles of the City. Perhaps I should have said "a suitable homestead." As I was well aware that there were homesteads within 25 miles of Edmonton which settlers had passed over because the soil conditions were not favourable to profitable farming. The homesteader to whom I refer told of visiting some of these nearby homesteads and, not considering them suitable. Of course, as the country settles up land will become more valuable and these homesteads will be taken up. But why should the first settlers be forced to go so far for good homesteads when there is much good land held idle on speculation, near the City? An uncle of mine who has heavily invested in Edmonton land, and covered the land pretty thoroughly in the vicinity of Edmonton, told me that same year that he did not know of a single desirable homestead within seventy miles of the City. That same year settlers were going, by ox cart, 200 miles, to the Peace River district. So much for the Edmonton incident.

Is Speculation Legalized Theft?

It has not been attempted in the course of this discussion to show that the speculator in Western lands gives a fair return for the money that he makes on his deals. Most of us have been taught to regard stealing as taking something for nothing. If this is a good definition of stealing, is not land speculation a form of legalized theft? Perhaps I can illustrate the principle no better than by giving a parallel illustration by Mr. Pogue, in his sermon in St. Paul's Church, last Sunday evening:

A caravan is passing through the desert, richly laden with gold and silks. A band of desert tribesmen approach. Says one, "See that rich caravan? Let us attack it, kill the men and carry away the goods". This would have been done had not one of the tribesmen, somewhat wiser than his fellows, intervened. "That would be unwise," said he. "The caravan is well guarded. Some of us might be killed in the attempt. And, besides, that would be stealing! Instead, let us go ahead to the only oasis in the desert, put a legal claim on it, and then force these merchants to give us their goods for the water that is necessary to their life". No sooner said than done. This legal, respectable way of stealing appealed even to the robbers.

How Speculation Takes Toll of Production.

Is not this an illustration of what happens in every civilized community, either when a new country is opened up, or a city, for some reason, booms, and starts to grow? The land speculators get in ahead of the farmers, manufacturers, or merchants. For a relatively small consideration they get a legal claim to the land. Then when the genuine home-builder arrives the speculator forces him to pay their own price for the land which is absolutely necessary to their business, or move elsewhere. This is what has happened in Western Canada. Like the Bedouins of the desert the speculator has got there first and is exacting his toll. The same is happening in every growing community in Eastern Canada.

In Toronto, as Mr. Austin well knows, land values have become so high that it is next to impossible for a labouring man, be he ever so thrifty and industrious, to secure a home of his own. Consequently an increasing proportion of the mare forced to live under slum or semi-slum conditions. A few months ago a prominent newspaper of that city advocated the extensive building of radial lines into the suburbs in order that these labouring men might have an opportunity to buy homes for themselves where land is cheap. The project received little support from the Trades and Labour Council, which pointed out that just as soon as it was noised about that a radial was to be built in a certain direction the speculators would buy up all the land and put such a price upon it that by the time the labouring man had paid car fare and accounted for time lost going to and from his home, he would be no better off than were he living in the present limits of the city. The Trades and Labour Council were endorsed in their stand by all of the saner portion of the Toronto press.

Cheap Homes Impossible.

In Ottawa they actually have built a couple of these lines; one of them runs to Britannia Bay. Result: farm lands that were worth $400 an acre previous to the building of the railway line are now worth $1,000 to $1,500 an acre. Fortunes have been made by land speculators, but the object of the line to afford cheap homes for the working people has been consummated. Under our present land system the operations of the speculator make it impossible for a city to provide cheap homes for its labouring people. Could anything be more unjust than such a system; and hence more immoral?

I would ask Mr. Austin who creates these values. It is now universally admitted that land values, particularly city land values, are the result of community growth. They are the product of the industry of the whole people. What could be more reasonable than that the people as a whole, who create these values, should claim them for their own. Under a just economic system all of the taxes will be derived from these community land values and the annual rental value of the land, that is its unimproved value, will thus go to the state, instead of being capitalized in land values by the speculator. A start has already been made in this direction in our western provinces, in Great Britain, in Australia, in New Zealand and in many of the German cities. A small measure of single tax, local option in taxation, is now a plank in the platform of one of the political parties in Ontario. The "Henry George crusade" is thus not confined to "a few chaps," as Mr. Austin seems to think.

Your Waistline Stays Where You Like It

You Can Try This Remedy At Our Risk

YOU know what that means—Misery—Worry—Big Bills—Debts! You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It's up to you to take care of yourself. It's up to you, whenever you don't feel right, to take something to make you right, to strengthen you, build you up, ward off worse sickness, protect you and your family! That thing we have, and in offering it to you on this protect you against money risk, by personally promising you that if it doesn't protect you against sickness, we'll gladly take your money without a word or question. It is—

Rexall Olive Oil Emulsion

It Is the Best Remedy

When you are run-down, no matter what the cause.

It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness, and builds you up to a healthy, normal condition.

It is a real nerve-food tonic, a real builder of healthy nerves, rich blood, strong muscles, good digestion.

It contains the Hypophosphites, to tone the nerves and give energy, and pure Olive Oil, to nourish the nerves, the blood, the entire system, and give vitality, strength and health.

It is pleasant to take, the greasy flavor of the Olive Oil having been removed.

For you who are tired out, nervous, run-down, debilitated, weak, emaciated—for convalescents—for old people—for puny children—we recommend Rexall Olive Oil Emulsion as the best medicine we know of to make and keep you well and strong.

We Make Our Living

out of the drug business right here in your town. It is our duty to give you the best remedy we can for whatever ailment you may have, and business sense demands that we recommend nothing unless we know it's good.

We know Rexall Olive Oil Emulsion is good. We believe it is the best builder of health, energy and strength there is made. We know it is greatly helping many of your neighbors. We believe that it will make you well and strong again, and save you money and worry in the end.

We feel it is good business for us to recommend Rexall Olive Oil Emulsion and get you to use it, because we know you'll thank us afterward for making our confidence in it so plain that you didn't hesitate to take us at our word. We also feel sure that once you have used it, you'll be so enthusiastic about it as we are and will recommend it to your friends. Read our money-back guarantee and get a bottle today.

Sold only at the 7000 Rexall Stores—the World's Greatest Drug Stores—$1.00 a bottle

TWO FREEZE TO DEATH.

Aged Brother and Sister Found Dead Near New Germany, Ont.

BERLIN, Ont., March 6. — Jacob Thomasing, aged 75 years, and his sister, Mary Thomasing, aged 77 years, who have been living together since infancy, were found frozen to death at the farm on the road leading from Bloomingdale to New Germany, at 9.30 o'clock yesterday morning.

The shocking discovery was made by a neighbor, Mrs. Sebleski, who went to the Thomasing farm yesterday morning for the purpose of purchasing some wood which was for sale. She found the body of the aged man lying on his side in the shed alongside the hay wagon. He had apparently been standing in the wagon and had fallen to the floor, as his face was bruised considerably, and there was a gash on the right side of his forehead. The horse and cow had been feeding from the hay wagon, and the man's coat had also been bitten by one of the animals.

Mrs. Sebleski, horrified at her discovery, immediately went to the nearest neighbor, Andrew Benninger, and, along with Albert Snider and Eli Clemmer of Berlin, they returned to the tragic scene. In the house, which is a small red brick structure, with two rooms downstairs and three upstairs, all in a most deplorable and insanitary condition, they found the frozen body of Mary Thomassing. She was lying on the bare floor in the bedroom off the living-room, wearing a thin dress, and had her hands across her body.

There were no evidences of decay, owing to the body being frozen stiff. It is practically certain that death was due to exposure to the cold. As neither of them had been seen for upwards of a week, indications are that they died during the extremely cold spell of last week.

DOLLAR DAY March 12th

BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD—END CATARRH

Instantly Relief When Nose and Head are Clogged from a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes.

Try "Ely's Cream Balm"

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith — just once — in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

For sale by Warne Drug Co.

LATER STREET CARS ON SATURDAY NIGHTS

In order to meet the convenience of those wishing to leave the business section of the City about eleven o'clock on Saturday nights the last cars on the present schedule will make another trip hereafter.

Outbound cars will therefore leave the corner of George and Charlotte Streets on Saturdays commencing with March 7th on the following time table subject to delays or interruptions on our lines—

George St. southbound 5 minutes to 11.00 p.m.

Auburn 5 minutes after 11.00 p.m.

Jackson Park 8 minutes after 11.00 p.m.

Can. Cer. Exc. 11.00 p.m.

THE PETERBORO' RADIAL RAILWAY COMPANY.

The Cast of Metropolitan Favorites who will present Geo. M. Cohan's Roaring Comedy "BROADWAY JONES" at "THE GRAND" next Monday, March 9th

Positively your last chance to see one of the greatest Motion Picture performances ever seen in this City

"BETWEEN SAVAGE AND TIGER" LAST TIME TO-NIGHT

ADMISSION 10c. 2 PERFORMANCES—7.30 and 9 p.m.

IN THE WORLD OF SPORT

ATHLETIC CLUB EXECUTIVE DISCUSS MANY PLANS FOR COMING SEASON

Lacrosse, Baseball, Tennis and Other Sports Will Be Carried On —Basketball Team is First Athletic Club Team to Get in Action

DOUBLE BLUE THE COLOURS

Considerable progress in arranging the campaign of the Peterborough Athletic Club during the coming summer was made at a meeting of the executive held at the home of the President, Dr. McPherson, last night. A number of important matters were dealt with and will be reported to a general meeting of the club to be held next Thursday night, March 12th.

Dr. McPherson presided, and the other members present were Len Dobson, Fred McGrath, Grover Halpin, Orville Kennedy, E. P. Kelly, W. G. Harris, Roy Smyth and F. D. Craig.

A Lacrosse Campaign.

One of the most important things discussed by the executive last night was the proposal to take steps to encourage the revival of lacrosse in the City. It was the opinion of those present that there are many lacrosse enthusiasts in the City who would be willing to assist in this movement if given an opportunity and that the best way to boom the game was to commence in the schools along the lines proposed by the Ontario Lacrosse Association.

The Athletic Club will call a meeting of lovers of lacrosse in conjunction with the principals of the City schools next Wednesday night, and an invitation will be extended to every one who is interested in lacrosse, to be present to help the project along. The Athletic Club propose to take charge of the arrangements for a league, receive subscriptions from those who are willing to assist in securing enough lacrosse sticks to equip the different schools, and to endeavour to secure the services of some old-time lacrosse players to coach the youngsters. The Ontario Association will offer twelve gold medals for competition, and it is figured that the majority of the City schools will enter teams.

In addition to this missionary work in encouraging the game, the Athletic Club may organize a lacrosse team among its members if enough of the latter express a desire to play Canada's national game.

A Tennis Section.

A tennis section of the Club is also one of the strong probabilities for the coming summer. A number of the members play the game and Dr. McPherson submitted a proposition last night by which it is possible that a local tennis club, who have good grounds, conveniently situated, may affiliate with the Peterborough Athletic Club, assuring the latter twenty-five more enthusiastic members.

Baseball Will Boom.

Baseball was also discussed, and will be played by the club members this season. The majority of the best young ball players in the City are already members of the Athletic Club, and the new organization will be represented on the diamond. The executive last night discussed the idea of encouraging the formation of a City Baseball League, and this matter will be taken up in the near future. In addition the P. A. C. will have a representative team to play games with other towns in the district.

Double Blue the Colours.

The question of Club colours was another matter discussed, and the executive will recommend at next Thursday's meeting the adoption of light and dark blue as the official club colours, to be used in all sports in which the Club will participate.

The honour of being the first team to use the name and wear the double blue of the club goes to the Peterborough Athletic Club basketball team which will enter the City Basketball League, Harold Long, Walter Flowers and Alex. Darling will form the nucleus of this organization who will wear light and dark blue jersies, with the emblem, P.A.C., across the breast.

The Club Room Question.

The matter of the club rooms was discussed at some length, and the question of whether the club shall secure suitable quarters at once or wait until next autumn, will be settled at Thursday's general meeting. Dr. McPherson and F. D. Craig were appointed a committee to go into the question of the cost of club rooms, and submit a statement at next week's meeting.

The rules and constitution of the new club were also taken up last night. The Parkdale Canoe Club, the Argonauts of Toronto and the St. Patrick's Club of Montreal have been written to for copies of their constitutions and the committee appointed will incorporate the best points of these successful organizations into the rules of the Athletic Club.

It was decided that the executive might be given the power to admit or refuse to admit any applicant for membership.

A large number of citizens have expressed a willingness to become associate members of the club and it is likely that the membership will be divided into classes, associate and active.

GRANITE CURLERS BEATEN AT LINDSAY

Tom Rennie's Rink in a Tie, But All the Other Rinks Were Down

LINDSAY, Ont., March 6.—Toronto Granites brought down six handpicked rinks Wednesday night to give Lindsay a trimming but instead were defeated themselves by 20 points. It was one grand night of curling.

Ross Harstone tackled the veteran Flavelle and at one stage was down 12 to 4, but in a grandstand finish ended only 3 down. C. O. Knowles was four down to President Carew, while Tom Brunton was only one down before Widdess. Tom Rennie pulled out a tie with Butler, but D. S. Prentiss was down 6 to Hec. Cuthbert and Horace Lewis 6 down to Little.

Y.M.C.A. NOTES

The Athletic contest for Junior School Boys' class will be held Saturday morning at 9.30.

Plans are now under way for a great laughing success that will be staged in the gymnasium April 2nd and 3rd, entitled "Grand Tramps Re-union."

Junior School Boys' Basketball League final game Saturday morning, Indians vs. Maple Leafs.

The Curling Club May Be Divided Into Two Sections

No Immediate Step is Probable but the Growth of the Game and Possibility of Increasing the Interest Suggest Such a Step—Another Rink Has Been Spoken of but Both Matters Have Been Merely Talk so far

THE GAME SHOULD GROW

At the curling rink one hears now and then a casual discussion upon the advisability of dividing the local curlers into two clubs for the purpose of creating keener interest and greater enthusiasm than has existed during recent years. Even more visitors to the rink realize that the interest in the game has not been satisfactory, and the proposal has not been broached on account of dissatisfaction with the present spirit manifested by the Peterborough lovers of the old game. Generally speaking, there is but little room for improvement on this score. The curlers are one big, happy family, and the past winter has shown numerous evidences of the growth of the sport and the real eagerness with which even the scratch games have been entered.

But, the fact remains that the idea referred to has been mentioned and by those who are not only pleased with the present development, but who look forward to greater things in the future. Reverting to the days of the old Thistles and Granites, it is claimed that the division of the club into two sections produced a keen rivalry between them. And it is natural to expect that the games between the rinks of one section would be practically as earnestly played as those scheduled by the present club, with the added interest of inter-club contests.

POPULARITY ON THE INCREASE.

Quite a number of new players has been added to the membership of the club during the past two or three years, and a most encouraging feature is the progress made by the younger set. It is true that not very many of them—are skipping rinks, but the majority have mastered the principles, are picking up the finer touches, are playing good first or second stones, and some even are vice-skips. The Charlotte rink has been taxed almost to its limit during the winter, whose sands are fast running out. It has even been the case that as the result of so many of the players being dependent upon the night hours, there have been some who faced the "au complet" sign on the entire seven rinks. Fortunately, however, incidents of this kind have been comparatively rare, and every member has been able to get about as much curling as he could find time for. But with one hundred and forty members now enrolled the limit is not far distant.

CAN'T STAND STILL.

It will be readily seen, therefore, that the question of dividing the club into two sections leads directly to the probability of erecting another curling ring. The present membership could be branched into two parts and the Charlotte street ice would be sufficient. This would mean that only a limited number of new members could be received, for the simple reason asserted above that the club would have to stand still. There would be scarcely any other recourse.

SHOULD BE BOOSTED.

And just such an issue should be avoided. There are many reasons for this statement. Curling is too good a game to remain with a limited number of devotees in this city The new members have shown the interest that may be expected of the younger men, and there are undoubtedly many who would get into the game once they had caught the spirit of the "stanes," the skill that is demanded and the elements of nerve and luck that make every sport interesting. It may have been noticed that there is no rounding up of curlers, no going to the highways and byways for members. Hence the growth has been gradual, certain and satisfactory.

THE ATMOSPHERE IS GOOD.

This is not a resume of what should be done or what may be done. It is but a desultory review of the local situation and the reasons given above are by no means all that might be mentioned. It might be mentioned that the local club has quite a number of sterling players men who know the game and are willing to impart their knowledge to the younger generation. The average healthy young man upon reaching the staid age that shuts him out of the more strenuous sports, will find that curling opens up an avenue which keeps him from the athletic shelf. It will call forth his best instincts and the best lessons he acquired in the games of his earlier youth. And above all, he will find, for the most part, a tone, an atmosphere in keeping with his maturer views.

NOTHING IMMEDIATE.

The annual meeting of the local club will be held on Monday, March 16th. It is unlikely that the two points referred to will be brought up. But there is the situation. It is true that there is no immediate call for action, but the club is growing, and the membership with reasonable effort on the part of the present enthusiasts, could easily be increased were it desired. Everyone is eager to see the game grow in popularity here, and the history and traditions of the club sentimentally demand that there should not be too long a resting on the oars. Difficulties such as the fact that the rink is comparatively new arise, but it should not be long before changes of an interesting nature should be undertaken.

T. R. & A. A. Senior Champions

Toronto, March 6.—

O. H. A. SENIOR FINALS.

	T.R. and A.A.	St. Michael's.
First game	6	5
Second game	3	2
	9	7

Toronto Rugby and Athletic Association retained the senior championship of the Ontario Hockey Association by beating St. Michael's 3 to 2 last night in the second of the final games. T. R. and A. A. also won the first game, played last Friday night, by 6 to 5. The score on the round was, therefore, 9 to 7.

The largest crowd which ever witnessed a game of hockey in Toronto was in attendance. Even standing room was not to be had, and the steel girders in the dizzy heights of the roof were lined with adventurous spectators from end to end of the mammoth building.

A TERRIFIC STRUGGLE.

It was hardly expected that the game last night would be as good an exhibition of hockey as the meeting between the teams a week ago, but it was. Up to within six or eight minutes of the end the score was 1 to 1. At half-time, St. Michael's were in front by 1 to 0, and the count on the round was 6 to 6. The second half resolved itself into a Titanic struggle for a goal. Perhaps such a scene of frenzied excitement was never seen in Toronto before. It appears that the team to first get a goal would win the game, and so it was. The extreme nervous tension of the crowd was depicted in their faces. With the score tied at half-time and the teams going a pace that seemed as if it could not last, one team or the other had to crack. That team was St. Michael's.

CHECKING WAS "FIENDISH"

One would think to watch the players that their lives depended upon the outcome of the game. Each man marked this check with the utmost tenacity. Each gave the very, very best that was in him. Each played to the limit of his skill, speed and endurance. The result was that team-play was not conspicuous. The checking was quite too strenuous. At times both teams played brilliant combination, but that style was the exception rather than the rule. T. R and A. A. excelled in snatches of combination. Two-man rushes with G. Meeking invariably the gunner were always dangerous.

There was not the difference in speed between the teams that had been expected. Either the champions showed less than usual or St. Michael's provided more than is their wont. Doubtless, too, the tenacious checking had something to do with it. At any rate, the speed of both teams was sustained from end to end, with not much to choose between them in this department.

HARD BODYING FEATURED.

The teams both used their bodies to good advantage, but St. Michael's excelled in this respect. The sturdy Diesette-Murphy defence spilled the incoming champion forwards like tenpins, sometimes fairly and sometimes not. The Black and White showed a wholesome respect for the weighs of their opponents. At the other end Gooch and Hefferman also did a good deal of body-checking. Both sides introduced their stickin into their checking repeatedly, but the Irish were caught the oftener by the officials.

St. Michael's back-checked very hard. They knew that they had to do it if they expected to stop the T. R. and A. A. attack. All but G. Meeking of the winners clung to their checks. He is essentially a goal getter, and conserves his energy for that purpose. St. Mike's had more shots than their opponents, and Smith played an excellent game in the net.

CENTRE PLAYERS STARRED.

G. Meeking and Laflamme were the stars of the game. The former was the more effective offensively but the latter did the work of two men back-checking. Laflamme was all over the place with the puck, and broke up rush after rush, but never failed to be in his place when his team were attacking the Black and White citadel. Meeking's expert stick-handling and cool judgment made him conspicuous throughout. He was slowed down by the hard bodying of the Irish defence, but at that his effectiveness was not seriously impaired. St. Michael's did not use an opportunity to use their bodies, which undoubtedly accounted in some measure at least for the apparent diminution of the champions' speed.

Neither team had shown much superiority over the other in the matter of forward line play. The same may truthfully be said of the defences. Gooch and Hefferman on one hand and Diesette and Murphy on the other rushed time and again, but were usually overtaken before they could get an uninterrupted shot at their opponents' net.

McCamus appeared for the Saints with his injured ankle encased in a boot protector. After the first few minutes he slowed down, and it was quite evident that the accident which befell him in Kingston three weeks ago all but destroyed his usefulness His stick-handling was great, but his speed was minimized. The champions made a dead set for Laflamme, but could not hold him down. G. Meeking was also carefully looked after, but he was far from stopped. T. R. and A. A. stayed on the ice and played the game, while St Michael's spent time in the penalty box. The losers incurred three times as many penalties as the winners, and two of the three goals scored by T. R. and A. A. were notched while the Black and Blue were short-handed. That was one aspect of the champions' superiority which had not a little to do with their winning.

SOCIETY BRAND CLOTHES ARE FOR YOUNG MEN

FEATURES
English Woollens, American Styles
Made in Canada. Saving Duty Charges.

LAST SEASON we inspected all the Leading Clothing Houses of Canada, also Society Brand of Chicago in search of new clothing that would interest our customers. We were particularly impressed with Society Brand Clothing for Young Men. We introduced Society Brand Clothing to the Young Men of Peterborough, and its merits were specially recognised. This season we again present Society Brand Clothing, but under more favourable circumstances, A contingent of American Society Brand Designers and Tailors arrived in Canada; huge bales of English Woollens were here in readiness, and Society Brand Clothing, with all its style, splendid tailoring and beautiful finish, improved by the use of English materials, and the price, less the cost of duty, is here for the fitting out of the particular, well-groomed young man. The preference this season is Grey and Brown, leaning towards the rougher weaves, and are shown in splendid variety. Come in and see them. Whether you buy now or later matters not to us. But we are anxious to have you know the character and quality of these

Point St. Clement Mills

CITY AND GENERAL

Members of St. John's Men's Bible Class are particularly requested to attend the regular monthly meeting to be held in the schoolroom this evening at 8 o'clock. Special business.

PROBABILITIES.

Fresh to strong east and north winds, occasional snow to-day and on Saturday, with a few degrees of frost.

Brigadiers Attention.

A meeting of No. 1 Brigade of St. George's Church is called for to-night. All members are requested to be sharp on time at 9.30 p.m. — W. Fuller, Captain St. George's B. B.

PAPERING, PAINTING AND GRAINING

Reasonable prices. Geo. Hawke, Browntown P.O. 'Phone 1431. 2d-33

No. 6 Company.

All members of No. 6 Company are requested to meet in the Armouries Tuesday evening, March 10th, at 8 o'clock. Kindly bring along any recruits. A. P. McLean, Captain.

Auction Sale.

Of household furniture, etc. at the house of Mr. Jos. H. Moss, 135 Lansdown Street, Wednesday, March 11, at 1.30 p.m. Most of furniture in high class walnut and oak.—W. J. Hance, Auctioneer. 4d-33

YES! AND TENNIS.

Ronald Dawson has been transferred from Winnipeg to Assiniboia, Sask., as manager of the Bank of Toronto. Hope there may be some good skating and bowling and shooting for him there.—Millbrook Reporter.

Grocery Sale.

Just twelve days more. We expect to be in our new store by the 17th of March. Everybody should take advantage of this sale as we can save you money. Money saved is money earned. Come early and often.—Jas. R. Bell, 161 Hunter Street. 'Phone 455.

A New Arrival

The face of one of "the loose" wears a broad smile these days. The reason is not far to seek. Just recently he had an innocent little mite—by no means frail—sent to his home, which he and his better half have arranged to bring up in the faith. Congratulations!

VICTORIA HEIGHTS

Is now Registered Plan 144 for the City of Peterborough. All sewers, water and light will be installed in Victoria Heights. A number of buildings will be built in early spring, so choose your lot for a choice residence. Good terms. Ask C. J. CARROLL & CO., 372 Water Street. 'Phone 822. Open evenings. We sell the earth.

WINTER UNDERWEAR.

We have a big lot of all kinds heavy weight underwear, which we will sell at low prices. Reg. $1.00 and $1.50 a pair, for 40c, 75c, and 98c.

Great bargains in Sweater Coats, working shirts, overalls, sox, mitts, caps and winter overcoats.

Dressing.—We have a big lot on hand, which we will sell very cheap.

2 good ranges and 3 first-class parlour heaters, will sell at a great sacrifice. Come and save money.

We buy anything you may offer to sell.

The Old Country New and Second-hand Store, 199 Charlotte Street.

SOCIAL AND PERSONAL

Miss Maud Lancefield is visiting at her home in Fenelon Falls.

Mr. Ed. Skuse left yesterday for Calgary, to go into business with his uncle.

Miss Norma Telgmann, of Kingston, is the guest of her sister, Miss Mignon Telgmann.

Mr. and Mrs. S. H. Mitchell left to-day on an extended trip to Norfolk, East Virginia.

Mrs. W. J. Mather leaves to-day for her home in Wroxeter, after spending three weks at Mathers Corners and Peterborough.

Mr. A. M. Chalmers, who has been visiting in the City for the past two weeks, left this morning for his home in Shelldrake, Mich.

Miss Norma Telgmann is in the City having come here from her home in Kingston, expressly to play in violin duet, with her clever sister, Miss Mignonne Telgmann, at the recital in the Collegiate Institute Hall to-night, for the benefit of the building fund of the proposed Tuberculosis Sanatorium.

LATER STREET CARS ON SATURDAY NIGHTS

In order to meet the convenience of those wishing to leave the business section of the City about eleven o'clock on Saturday nights the 1st cars will make another trip hereafter.

Outbound cars will therefore leave the Corner of George and Charlotte Streets on Saturdays, commencing with March 7, on the following Time Table subject to delays or interruptions on our lines:—

George St. Southbound ... 5 minutes to 11 p.m.

Auburn 5 minutes after 11 p.m.

Jackson Park 5 minutes after 11 p.m.

Can. Gen. Elec. ..... 11 p.m.

DOLLAR DAY

March 12th

Death Of Famous Preston Player—"Geordie" Drummond

Was One of the Finest Wingers Scotland Ever Produced —Hull City's New Player—Blair Will Not Become a Blade—Celtic's Goal Record.

"Geordie" Drummond, one of the famous old Preston North End invincibles, has passed away at the age of forty-nine. "Geordie" was one of the finest wingers Scotland ever produced, and above all, he was a humorist. J. W. Crabtree, the famous Villa half-back and international, once said, that he had never seen a forward line to compare with Gordon, Ross, Goodall, Dawhurst, and Drummond. I don't think he was far wrong either. We haven't a forward line to compare with them to-day!

"Geordie" had a fairly lengthy career, as far as footballers go, for he played in England for 17 years after leaving the St. Bernards. After giving up playing he became trainer to one or two clubs, but was never in good health, and it is pleasing to hear that some of his admirers came to his assistance in a time of need. I'm right in saying that Drummond stood alone in his position as far as England is concerned. Drummond had been training Falkirk of late.

The Offside Bugbear.

The Scottish Association are said to be still keen on securing a change in Law 6, so as to have two for off-side instead of three. That is not the official way of putting it, but the idea is that a player shall not be ruled off-side if at the moment the ball is played behind him he has at least two opponents ahead of him. As the rule is now he must have three.

The Football Association put in an objection to the change last winter, and it did not carry the International Board. It would relieve the referee and destroy the one back game, and cause the spectators. But it might also lead to players lying up close to the goal, and so tend to change the open character of the game. It was this fear that led the clubs to oppose the instance of no-offside 18 yards from the opposite goal. Law 6 has weathered many an insidious attack.

Priestess.

Sheffield Wednesday have been endeavouring to secure Blair, the Clyde back, but would not give the £2,000 which the Glasgow Club asked. They have also approached Edinburgh Hibernians for Templeton, but the "Hibs" regard that player as priceless, and would not discuss the question.

Remarkable Records.

With reference to Glasgow Celtic's remarkable goal average, one of the best defensive performances in English football is that of Fulham in 1905-6. Winning the Southern League championship (36 matches) the Arsenal conceded only 15 goals, only Southampton managing to get as many as two goals in one match. In ten of the ten fourteen games the defence was undefeated. The members of this successful rear-guard were J. S. Fryer, Harry Ross, Harry Thorpe and Edwin Charlton.

APPEALS TO HONOR.

President Wilson Urges Congress To Repeal Panama Tolls Bill.

WASHINGTON, March 6.—President Wilson went to Congress yesterday and pleaded for repeal of the provision of the Panama Canal Act, which exempts American coastwise shipping from tolls. He tersely asserted that his reason for asking the repeal was that everywhere except in the United States the tolls exemption was regarded as a violation of the Hay-Pauncefote treaty, and he further asked it in support of the administration's general policy.

That the President's request will be granted there seemed but slight room to be little doubt, despite the fact that there will be vigorous opposition to the repeal, both in the Senate and the House.

Aside from the hearing of yesterday's message on the Panama tolls question, some of the phrases used by the President attracted widespread comment in Congressional quarters as relating to foreign relations in general. In some quarters there was a warning on the difficulties involved in other matters of even greater delicacy and greater importance.

The President will call on the White House yesterday that while he had never received any formal communications on the subject, he had understood that European nations generally took the same view as did Great Britain, that the Hay-Pauncefote treaty was violated by the Panama Canal Act. He pointed out that in dealing with foreign affairs nations which believed the United States did not keep a promise as important a treaty as the Hay-Pauncefote convention, would not be likely to be sincere on other delicate questions.

Word had come to the President of a general impression in Europe that the United States was "sailing as close to the wind as possible" in interpreting promises made in the treaties.

DIVISION COURT HELD TO-DAY

Thirteen cases were entered for trial at the Division Court Sittings, that were held to-day, His Honour Judge Huycke presided.

Following is a list of cases:

Division Court Sittings.

Canty-Moher Co. vs. Canadian Pacific Railway	$60.02

Good results have been obtained and a few actual cures effected by a Vienna physician who treats insane patients by injecting pure oxygen hypodermically.

A frame with wires strung across it at regular intervals has been patented by a Pennsylvanian for cutting noodles evenly by pressing the dough through it.

For the guidance of tourists France is planning to number all of its principal highways and to display the distinctive number of each on all of its mile posts.

A spring actuated burglar alarm has been invented which rings a bell the instant a door is turned and also prevents a key being turned from the wrong side.

Will Serve One Year

(Continued from Page 7.)

anything but pure until you got hold of her.

Serious Crime.

The one crime of which you have been found guilty is that of giving the girl drugs for purposes best known to yourself. You were both in trouble, and to clear yourself of the consequences you did not stop at a very serious crime.

You may thank the good Providence that it is as it is, for the sake of the girl, you, and the child, which has recently been born, and of which you are the father. Your counsel has asked for leniency, as far as you are concerned. But the object of punishment is not for you alone. If you have any of the instincts of a man at all, and I think you have, you must have regretted over and over again, for this last few weeks, you for the last nine months, the wrongs that you have done to this girl. There is another element that I must consider.

Must Protect Women.

It must be most emphatically manifested and understood, that girls and women must be protected in every way. You have been convicted of a crime for which the punishment is two years. I do not intend to inflict the full sentence that is permitted. Your crime could have brought you under another section, for which the maximum is seven years.

I feel that I must punish you in some way, for your own sake, and for the sake of the community in general. The sentence of this court is, that you serve the term of one year in the Ontario reformatory, for the crime you have been convicted."

McClay sat with a fixed glare in the box, and the gaolers had to repeat his name several times before he could realise that he was wanted to go below.

Read the list of the stores where the treasure box numbers are given away.

Hockey—That's All

Although Peterborough has not hockey championships to her credit, two of her sons are on championship teams, Frank Heffernan with T. R. & A.A., senior O.H.A. champs, and Harold Matthews with the R.M.C. Intercollegiate intermediate title holders. And there are two Peterborough boys with the All Star junior teams to-morrow night—Joe Dwyer with the All Star Easterners and Harold Parker with the Western All Stars.

The final game in the Junior Church Hockey League will be played at Simcoe Street rink to-night between 7 and 8 o'clock between Knox Church and Charlotte Street, Knox Church has a lead of two goals, having won the first game between the two by 3 to 1. Harold Knapman will referee.

TO-NIGHT! TO-NIGHT!

Come early to insure a seat at the Vocal and Violin Recital, Collegiate Institute Assembly Hall, To-night.

Mrs. J. E. Renwick, Soprano.

Miss Mignonne Telgmann, Violiniste.

Mr. J. E. Renwick, Accompanist.

Miss Norma Telgmann, of Kingston, in Violin Duet with her sister.

In aid of Building Funds of Tuberculosis Sanatorium.

Admission, Silver Collection—Ten Cents or upwards.

MOUSSEAU IS BETTER.

Health Is Gradually Picking Up—He Will Take a Trip.

MONTREAL, March 7.—J. Gustave Mousseau, the Quebec Provincial member found guilty of accepting bribes to pass legislation, is reported as gradually regaining his health. It was stated yesterday by Dr. Demartigny that Mr. Mousseau, with his family, had left for a mountain resort to recuperate, but the doctor refused to state where this was. It is understood that if Mr. Mousseau's health continues to improve he will leave early in April for an extended tour in Europe.

L. B. Berard, ex-Legislative Councillor, who also accepted bribes, is now on his way to the continent.

FIRE OUT KIDNEYS

Kidney troubles are so frightfully common because the kidneys are so easily upset by overwork or excesses of eating and drinking. Ours is offered not by whipping them on to renewed effort, but by a revitalizing the system of liver and bowels by the use of Dr. Chase's Kidney-Liver Pills. They rest the kidneys and make them well. Backache and urinary disorders then disappear.

Eighty Million Dollars

BURKE AND BURKHOLDER ARE NOW IN THE KINGSTON "PEN"

Were Taken There by Governor of Jail and Deputy Sheriff on Wednesday Last.

HAD TALK WITH ELLIS

LINDSAY, March 6.— Mr. G. Balfour, government of the county jail, and Deputy-Sheriff G. Foster arrived home from Kingston last night after securely placing Burke and Burkholder in charge of the warden of the penitentiary. The officers experienced no trouble with the prisoners, who showed no insubordination on their way down.

Burke talked incessantly to the officers concerning the counterfeiting game and may have possibly told things which some folks would not like to see in print. However, time in its revolution may unearth some hidden secrets that may show up others who were in complicity with the two men now under penal servitude for five years.

Burke said to Deputy-Sheriff Foster that he would have gone to Kingston without a guard if they had purchased him a ticket and reposed that confidence in him.

Burkholder was less communicative, but admitted as did Burke to Mr. Balfour, that he would cheer up, and if he was spared to return to the world once more he would never again be guilty of a crime against the state. Burkholder is in poor health.

Both men will be placed at work on the prison farm. Burke was engaged in the culinary department when serving his first term in the penitentiary.

Saw "Doc" Ellis.

Both of the officers saw the prisoner Ellis, who is serving a life sentence for the killing of Louis Porter. Ellis knew Governor Balfour, but had forgotten Deputy-Sheriff Foster. The governor stated that Ellis looks first-class, and that he is engaged in the laundry department washing and ironing like any good celestial. He spoke of home and friends, making many inquiries of what had transpired since he became cloistered in Kingston. He is very anxious that another chance to retrieve his fortune be given. He thinks he should get a new trial if possible.

One prisoner received his liberty from the penitentiary on Thursday and two were taken into the institute. There are 606 prisoners serving sentences in the penitentiary at the present time.

TRADES AND LABOUR NOTES

Notes by the Official Scribe

There was a large attendance of delegates this week at the usual meeting, and with an unmistakable smile of gratification at the good turnout, President Hartley called the meeting to order shortly after 8 p.m.

A PLEA FOR CLEAN MONEY.

Amongst the communications dealt with was one from the International Steel and Copper Plate Printers' Union of North America, Ottawa Local, requesting that a demand for clean money be made. Old and much worn paper money meant probably the spreading of disease germs as it was passed around, and another and very important consideration was that counterfeiters could the more easily carry on their nefarious traffic when much dirty currency was being used. The way suggested to create a demand for cleaner money was that employees ask for new bills in their pay envelopes, and the same request be made by those higher up from their bankers. This request looked good to the delegates, and it was deemed advisable to comply with it.

DANCING PERMITTED.

Attention was drawn to the very successful dance lately held under the auspices of the Street Railway Employees' Union. This came as a surprise to many present, because as one prominent official of the I. B. E. W. stated they had been given to understand that no dancing was allowed in the Trades and Labour Hall, and that they had been obliged to secure other quarters when entertaining their friends recently. Members of the Hall Trustee Board present refuted the charge, and said that dancing had never been placed under their ban, and that as "all work and no play makes Jack a dull boy" they were for the idea of more sociability during the winter, the recently installed piano being evidence sufficient for all. Another unfounded and silly rumour was about and that was declaring the hall unsafe. So many partitions on the flat below was ample proof of its stability.

THE ASSESSMENT ROLL.

Mention was made of the publication of the assessment roll by the City newspapers. This was filling a long-felt want, and delegates were urged to examine the lists and see that the assessment was fair and no favouritism displayed. The next few weeks will almost tell the complete story, and probably the assessor would be willing to attend a meeting and answer questions.

A MINIMUM RATE OF 35 CTS.

The recent demands for increases by members of the City staff was used as a basis for a demand as to what the street labourers were being paid. $1.90 for a nine-hour day is the figure at present, and the idea seemed to be unanimous that 25 cts. per hour as a minimum was not in the least excessive. The secretary was asked to inform the City Council that a resolution had been passed to that effect by the Trades and Labour Council, as the increased cost of living affected the humbler of the City's servants as well as the higher-priced officials.

LABOUR DAY CELEBRATION.

The Labour Day Committee report on the securing of Riverside Park for the annual celebration, and the Municipal Committee was asked to wait on the City Council for the customary grant.

THE CIGARETTE BY-LAW.

Discontent was displayed by delegates at the $40 license to be imposed on all cigarette venders. It meant that many dealers, in fact nearly all, would have to drop the sale, making thereby a monopoly for two or three fortunate ones. The City Dads did not seem to fully realise that boys with a preference for the sickly fumes emanating from a "coffin nail" could obtain the paper and tobacco necessary (there is no fine on these articles) and enjoy themselves after very little effort. The suggestion was thrown out that the parental boot, rightly applied, would be more efficacious than much grandmotherly legislation.

Strictly Union Show Houses.

Mr. Herbert Clayton of the Royal, Red Mill and Princess Theatres reported through delegates that he had decided to, and was, employing from now on, union operators at his three houses. This proposition he had found exceedingly difficult, as operators with union cards could hardly be induced to leave Toronto. A union operator was expected that same night and would commence his duties at the Princess, the other places to be equipped in like manner as soon as possible. Delegates were ordered to report back to their unions Mr. Clayton's decision and notify organized labour in the City that they had now show houses they could conscientiously patronize.

Asthma Catarrh
WHOOPING COUGH SPASMODIC CROUP
BRONCHITIS CROUPS COLDS
Vapo-Cresolene
ESTABLISHED 1879
A simple, safe and effective treatment for bronchial troubles, without dosing the stomach with drugs. Used with success for thirty years.
The air carrying the antiseptic vapor, inhaled with every breath, makes breathing easy, relieves the coughing, and stops the Cough, assuring restful nights. Cresolene is harmless to nursing babies, young children and a BOON to sufferers from Asthma. Send us postal for descriptive booklet.
ALL DRUGGISTS.
The CRESOLENE ANTISEPTIC THROAT TABLETS for the irritated throat. They are pleasant, effective and antiseptic. Of your druggist or from us, 10c in stamps.

For the liquor habit will break these shackles. A simple, safe and effective treatment. Write or 'phone for particulars.
NEAL INSTITUTE,
78 St. Alban's Street,
TORONTO.

FOR PIMPLES.

A sulphur wash composed of precipitated sulphur, 20 grains, to an ounce of rose water, to which a few drops of glycerine are added, makes an excellent lotion to prevent pimples. The complexion brush is excellent for the skin in which the circulation is sluggish, but it too harsh to use when the face is covered with pimples. The brush should be washed each time after using and disinfected by leaving it for a little time in a dish of water having a teaspoonful of borax in it. Dry it quickly, for it spoils a brush to lay long wet.

C.N.R. WANTS AID

Application For Bond Guarantee Laid Before Government

DAY IS SPENT IN SUPPLY

OTTAWA, March 7.—A final application for Federal assistance to complete the financing of the Canadian Northern's transcontinental system was placed in Premier Borden's hands yesterday by Sir William Mackenzie and Sir Donald Mann. It was accompanied, it is understood, by a memorandum setting forth the company's plans, financial requirements, and the expenditures and obligations incurred to date, with a supplementary statement as to the amount of public aid which has already been given the road.

Sir William and Sir Donald Mann, Mr. Lash and others of the party have interviewed a number of Ministers and members, and Sir Donald yesterday morning called upon Sir Wilfrid Laurier.

No definite public announcement by the Government is anticipated until the return of Hon. Frank Cochrane after the Easter holidays.

Although no specific statement as to the exact character of the aid desired is said to be formally on file, it is understood that what the company seeks is a Federal guarantee of a bond issue to the par value of $7,000,000 sterling or $35,000,000. The detailed conditions, are it is said, still the subject of negotiations.

The House spent most of yesterday's sitting in Committee of Supply on the estimates of Hon. Bruno Nantel, Minister of Inland Revenue.

Hon. Mr. Foster gave notice of Government bill to amend inspection and sale act by providing that binder twine manufactured for export only need not be labeled with name of dealer or number of feet of twine per pound.

The House yesterday afternoon passed through committee the resolution offered by Hon. W. J. Roche, Minister of the Interior, extending until Dec. 31 the time in which the holders of warrants under the South African Volunteer Bounty Act can present the same for redemption and receive $500 in satisfaction therefor.

The Minister stated that 46 of these warrants were still unpresented. After a brief discussion the resolution and a bill founded upon the same was introduced and read a first time. The bill will probably meet with some opposition at its second reading, as it is charged that practically all the warrants outstanding are in the hands of speculators.

In October last 58,571 cattle found their way across the border from Canada as compared with 5,142 during the corresponding month of the preceding year, which shows the effect of the abolition of the United States duty, according to a return tabled yesterday.

In November last 76,037 cattle were exported as compared with 6,662 in November 1912. In December 22,223 were exported as against 4,126, and in January last 5,500 went across as compared with 4,211.

The falling off in the export during December and January is attributed to the rise in prices on this side of the line.

Eleven Months For Bigamy.

BRACEBRIDGE, March 7. — Demaise Paquette, a young Frenchman charged with bigamy, was tried in Chambers by Judge Mahaffy here yesterday afternoon. He pleaded guilty and was sentenced to eleven months in the Central Prison. This is the same term as was given Millie Draper for bigamy a week ago. Paquette was married at Brule Lake four years ago, and to Miss Johnson of Huntsville last July.

EATING RELIEVES STOMACH TROUBLE
A Prominent Physician's Advice.
"Eat good foods and plenty of them. Dieting in many cases, is almost criminal. Get back to normal. To do so you must have the proper quantity of nourishment. You need it for brain or physical work. Probably there is nothing the matter with your stomach except acidity. That is merely an abnormal secretion of acid in the stomach. Neutralize that acid and your stomach trouble will end at once. Bisurated magnesia is one of the best neutralizers in ordinary drugstore's bisurated magnesia. You can get it at my drug store for a few cents. Take a teaspoonful in a quarter glass of water after each meal. The relief will be immediate."

ITALIAN TO HANG.

Slayer of Rival In Love Is Convicted of Murder In Montreal.

MONTREAL, March 7.—Thomasso Bernardi, an Italian, was yesterday found guilty of murdering Luigi Sgrolli last August and sentenced to die on May 22.

Sgrolli had supplemented him in the affections of Angelina Rigiani, whom Bernardi had brought out from Italy. When she arrived in Canada Bernardi refused to marry her, and wanted to take her to Toronto to live upon her earnings. The girl refused, and he then had her arrested on a charge of stealing his watch. Sgrolli, with whom the girl had fallen in love, secured the girl's release, and as they were walking away from the Police Court, Bernardi followed and shot and sadly injured the girl. Sgrolli was killed when he placed himself in front of the girl.

Bernardi went on a hunger strike, and his trial was repeatedly postponed because of his weakness owing to starvation. More recently he feigned madness.

When he heard the sentence, Bernardi went into a fit and shouted: "Who's dead?" He had to be led from the dock. The Rigiani girl also lost her self-control and fainted.

Service
Is Our Watchword
in the examination of the Eye—in the fitting of the proper Glasses—in the eyeglass mount or frame we fit you with.
Having one of the most up-to-date Lens Grinding Plants in Ontario we are in a position to duplicate almost any lens in one hours time. This SERVICE is worth something to you in case of an accident to your glasses.
We use "PERLO" Ovoflex Glass in all our work, It's the finest quality manufactured.

CHANCE'S BIG INCOME

Some eight years ago Frank Chance was music manager of the Cubs. At that time he had a bank account of $7,000. When Charles Taft and Charles Murphy bought Hart's interest in the Chicago team they declared Chance in for 10 per cent. of the stock. He paid for it with his [illegible] Chance admits that he is now worth $300,000. For looking into the lens of a moving picture camera for 25 minutes he was paid $1,000. His salary for his first season with the New York Americans was $26,000. He owns a 24-acre orange grove in California, and modestly calculates that his yearly income is about $55,000.

Must Pay Real Players

"You can't do anything with cheap talent," says Frank Chance, manager of the New York Americans. "You've got to pay top-notch players big salaries to keep them going. I'd rather have two $5,000-a-year men on my club than fifty $2,000-a-year men. The high-priced man usually plays major league ball." Chance's method of rebuilding a team is simple. He believes in buying every man, without regard to price, that appeals to him.

Immigrants For Canada

In one year 388,812 people left the British Isles. Of these Canada secured 190,968.

Insurance on St. Paul's

St. Paul's Cathedral, London, is insured for $1,500,000.

Heart and Nerves Were Bad.

Could Not Sleep.

To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nerves on the jump, the heart action all wrong, and to whose eyes sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber, as they restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Charles Tee, Horncastle, Ont., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the least noise or excitement would make me feel so that I used to think I was going to die, and I would tremble until I could hardly stand. I took doctor's medicine, but it did not do me much good. At last I tried Milburn's Heart and Nerve Pills, and can certainly say they did me a great amount of good. I can recommend them to anyone who is suffering as I was."

Milburn's Heart and Nerve Pills have been on the market for the past thirty years, and have done more to steady shaky nerves and strengthen weak hearts, than any other known preparation.

Price, 50 cents per box, or three boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

HELPING HISTORIANS OF DISTANT FUTURE

Miscellaneous Collection of Articles Placed Under Cleopatra's Needle on Thames Embankment

Possibly, several thousand years from now, London will be but a ruin, upon which the scientists of some great new race will be delving in search of material for instruction in the ways of the Anglo-Saxon race. Should they discover the ancient Cleopatra's Needle, which now stands upon the Thames Embankment, they will find a wealth of such material placed there especially for their benefit. Before the large base upon which the obelisk is erected was permanently sealed up, there were placed into it the following articles:

Standard gauge of one-thousandth part of an inch; standard foot and pound; bronze model of the obelisk, half-inch scale to the foot; a fragment of the obelisk itself, chipped from it in the process of levelling the base; copies of "Engineering," printed on vellum, with plans of the mechanical contrivances employed in erecting and transporting the obelisk, together with its complete history; complete set of British coinage, including an Empress of India rupee; jars of Doulton ware; "Bradshaw's Railway Guide"; portrait of Queen Victoria; baby's feeding-bottle and children's toys; and a shilling razor.

Bibles in French and English are also there, the Hebrew Pentateuch, the Arabic Genesis, and a translation into two hundred and fifteen languages of the sixteenth verse of the third chapter of St. John's Gospel; case of cigars; parchment copy of Dr. Birch's translation of the hieroglyphics; some pipes; box of hairpins and sundry articles of feminine adornment; a London directory; a "Whitaker's Almanack"; a hydraulic jack used in raising the obelisk; twenty-four maps of London; specimen of wire rope and submarine cables; copies of daily and illustrated newspapers; a two-foot rule; and, lastly, photographs of twelve beautiful English women of the day.—London "Answers."

SOLDIERS MUST PAY

Compulsory Calls on the Pay of the British Private

The pay of the British private soldier is from 25 cents to 40 cents a day, according to his regiment, but every penny he receives is not clear pocket money. For he must pay from sixpence to one shilling a month to the sports fund, which provides him with cricket implements and flannels, footballs and football boots, and so on, and a like amount to the regimental mess club.

When the soldier must pay one halfpenny per day to the comrade's wife who does his little bit of washing (half-a-crown a month is to be a sergeant); twopence per month goes to the company barber, which sum, as a rule, only covers the cost of one "hair-cut," any tonsorial "extras" having to be paid for personally; and in regiments where a journal is maintained the soldier is expected to display his good feeling by subscribing cheerily to a copy—generally threepence a month.

Then there may be some sort of regimental benevolent fund for ex-soldiers, towards which all good soldiers will inevitably contribute—by "official persuasion"; and among other funds peculiar to certain regiments may be mentioned a recruits' supper fund, a big game shooting fund, and a musketry members' early morning coffee fund. In addition, the soldier has theatre-tickets' and tailors' bills to meet compulsorily, and he must provide from his own pocket such essential "extras" as pipeclay, soap, walking-out canes and gloves, and brass polish.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CAN BE OBTAINED IN NEW YORK.

Small Pill. Small Dose. Small Price.

DOCTORS ADVISE OPERATIONS

Saved by Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn.—"For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the Change of Life and cannot praise your Vegetable Compound too highly. Every woman should take it at that time. I recommend it to both old and young for female troubles."—Mrs. EMILY SUMMERHILL, Swarthmore, Pa.

Canadian Woman's Experience:

Fort William, Ont.—"I feel as if I could not tell others enough about the good Lydia E. Pinkham's Vegetable Compound has done for me. I was weak and tired and I could not rest nights. A friend recommended your Compound and I soon gained health and strength and could not wish to sleep better. I know other women who have taken it for the same purpose and they join me in praising it."—Mrs. WM. A. BUFFY, 621 South Vickar Street, Fort Williams, Ontario.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

DARING SURGERY

The Knife Used With Success to Cure Tuberculosis

Tremendous strides have been made of late years in the treatment of tuberculosis, and one of the greatest appears to have been due to the surgeons at Guy's Hospital, London, who are declared to have made a remarkable advance in the treatment of certain forms of the disease.

Recent researches have led doctors to suppose that many conditions of chronic ill-health, such as nervous debility, rheumatism, and other disorders, are due to poisoning set up by unhealthy conditions of the large intestine, and it has even been suggested that the lowering of vitality resulting from such poisoning is favorable to the development of cancer and tuberculosis.

It was felt that if the large intestine could be safely removed the result would be a tendency to healthy longevity in the individual; but surgeons were deterred from the obvious operation by a knowledge of other functions performed by this part of the body. The main function of the large intestine is the absorption of water, and at Guy's Hospital was considered the idea that if a small portion of the intestine were left it could carry on all the necessary processes till the smaller intestine and the stomach were able to adapt themselves to the altered conditions.

Accordingly, a child who appeared to be in the final stages of what was believed to be an incurable form of tubercular joint disease was operated on as a last resource of treatment. The lower intestine, with the exception of nine inches, was removed, and the portion left was joined to the smaller intestine.

The result was astonishing. In a week's time the internal organs had resumed all their normal functions, and a marked improvement had taken place in the tuberculous condition, and in a few weeks the patient was apparently in perfect health.

The operation was repeated—in all cases with similar success—and it is to be adapted to other forms of disease known to arise from intestinal poisoning.

KAISER CHOPS WOOD

Every Morning In Hunting Attire Does His Allotted Task

The German Emperor, following the advice of his physician, combats the growth of obesity by spending a certain time every day in chopping wood at Potsdam.

Clad in Court hunting dress, the Kaiser in the grounds of the palace vigorously plys a saw on the trunks and branches of trees, and then, with undiminished energy, hews the short logs into pieces of convenient size for burning. In this occupation he is assisted by an expert forester.

Not infrequently the Empress watches her consort at his unfamiliar exercise, and once jocularly measured up the pile of firewood to see whether the prescribed daily task had been fully accomplished, while occasionally an aide-de-camp found axe or saw pressed into his inexperienced hand with the imperial command to try his skill with those tools.

WALKED BAREFOOTED TO FULFIL A VOW

PILLAR GUERRERO

When Pillar Guerrero, one of the most beautiful and popular of Spanish actresses, in fulfillment of a vow to the Virgin, walked four miles barefooted through the streets of her native city, Seville, from her home to church, thousands followed her and youthful cavaliers spread their cloaks as rugs, a la Sir Walter Raleigh, for her to walk upon.

Cold Storage Eggs

Canada imported 13,000,000 dozen eggs in one year. Of the total imports British Columbia took five and a half million dozen.

At 40 a man is a mere callow youth, just beginning to find himself.

Confession is never made easier by postponement.

A bad conscience is the result of a poor digestion.

Stops Headache

Mr. E. F. Tomkins, Ex-Mayor of Coaticook says so.
"Your tablets are a safe and effective remedy for headache."

Mr Geo. Legge, Editor of Granby Leader, Mail says so.
"Your Zutoo tablets deserve to be widely known as a cure that will cure."

Major A. C. Hanson, B.A., B.C.L. says so
"I use Zutoo tablets and find them a very satisfactory cure for headache."
So says every mother's son who has tried

ON THE VERGE OF A BREAK-DOWN

Wrecked Strength And Shattered Nerves Completely Restored By "Fruit-a-tives", The Famous Medicine Made From Fruit.

MRS. W. N. KELLY.

HAGERSVILLE, ONT., Aug. 20th, 1913

"I can highly recommend "Fruit-a-tives" as they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking "Fruit-a-tives" for a general break-down and they did me a world of good. We bought a good many dollars' worth but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found ONLY pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking "Fruit-a-tives" after reading my letter, and if they do, I am satisfied the results will be the same as in my own case". MRS. W. N. KELLY

A blood purifier, a general tonic, a builder of health and strength, "Fruit-a-tives" is one of the great discoveries of the century in curative medicine. One of the valuable properties of "Fruit-a-tives" is its marvellous cleansing powers. When these tablets are taken, they act on the three great eliminating organs of the body—the bowels, kidneys and skin. "Fruit-a-tives" keeps the system free of waste matter, prevents the formation of an excess of uric acid, and insures the blood being pure and clean. "Fruit-a-tives" sweetens the stomach, increases the flow of the digestive juices, makes digestion complete and enables the system to absorb and assimilate an abundance of nourishment from the food eaten.

"Fruit-a-tives" builds up, invigorates, strengthens the whole system. As a general tonic, there is nothing else quite so good. And these tablets are so mild in action, so pleasant to take, that they are particularly suited to women.

50c a box, 6 for $2.50, trial size 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

ORRINE
FOR DRINK HABIT

So uniformly successful has ORRINE been in restoring the victims of the "Drink Habit" into sober and useful citizens, and so strong is our confidence in its curative powers, that we want to emphasize the fact that ORRINE is sold under this positive guarantee. If, after a trial, you get no benefit, your money will be refunded. ORRINE costs only $1.00 a box. Ask for Free Booklet.

Wm. Medill, corner of Hunter and George Streets.

BEST ANTIDOTE

Bodily health is the best antidote for a poor complexion, and a calm disposition the surest preventive of wrinkles. A constant watch over one's self is the price of each. To allow one's self to become run down, to ignore nature's hints, allow her warnings to go unnoticed, is to necessitate that pound of cure that might have been saved by an ounce of prevention.

Rub in a nourishing cream every night, and two or three times a day pat the lined place with the fingers dipped in cold water. If you catch yourself squinting, as one often does, while in deep thought or obstruction, stop it and give the skin all around the eyes where the wrinkles begin to show the same treatment as for the frown and similarly treat the mouth, nose and ears.

Wrinkles are not the sign of age always, but as often may be laid to neglect and habits.

Above and below the air chamber in a French automobile tire are sections filled with elastic strips, which come together and support the tire in event of puncture.

To protect the interior of ships from the humidity caused by the condensation of moisture on the metal walls an Italian has invented a varnish containing ground cork.

For riding in winter a Boston enthusiast has designed a motorcycle surrounded with a thin metal body to protect the riders from wind that it resembles a submarine.

Children's wagons can be converted into sleds by the use of new runners with clamps to engage the wheels.

Have you been waiting for an Edison *Disc* Phonograph?

The man who made sound reproduction possible—Thomas A. Edison—has now produced a Phonograph that plays Disc Records. He has put into this new instrument all that 35 years of study in sound reproduction has taught him.

The result is a Phonograph of rich, mellow tones and lifelike fidelity. If you want real music; if you want *permanency* in your reproducing point; if you want records that can be played for years without injury; if you want a cabinet that is beautifully designed; if you want every improvement and refinement that Mr. Edison has been able to work out—then you want an Edison Disc Phonograph. There is a model at *your* price. There is a demonstration at your service any time.

A PAGE OF THE BEST HUMOR OF THE WEEK

A Dilemma.

"I have a bad cold. I don't know now what to do—whether to drink tea or dance the tango!"

Heartless.

"Eddie, what's the matter? Fell on the ice?"

"No. I tried to hang some pictures and stood some dictionaries on a table, and they slipped from under me."

"Words failed you, I suppose."

To Him Who Waits.

Warwick—There's Wilkins. Have you read his latest novel? He has the heroine, an heiress, turn down the hero and marry the villain.

Wickwire—It seems to me if that would be rather unsatisfactory.

Warwick—Yes; but that's where Wilkie shows his talent. The hero then becomes the heroine's lawyer, and the fortune comes to him, after all.

Educated.

Crawford—What makes you think it is risky to marry a widow?

Crabshaw—Because she will never believe you if you happen to tell her the same stories her first husband tried to put over.

Human Nature.

Citizen—You are always boasting of your home town. If you are so awfully fond of it why don't you go back there to live?

Booster—Well, to tell you the truth, I don't care a hang for the dura place except when I'm away from it.

"You're kinder to dumb animals than you are to me, your wife."

"Well, you try being dumb and see how kind I'll be."

There is in circulation yet another genial story about the canny Scot. A Caledonian chieftain won a million pins in a penny raffle at a bazaar. Three days later he called, very wan and weary of aspect.

"See here," he said to the bazaar secretary, "I've counted them. They're three short!"

"My work," remarked the bald-headed dentist, "is so painless that my patients often fall asleep in the chair while I am operating."

"Huh, that's nothing," retorted his rival. "My patients nearly all insist on having their pictures taken while I am at work, in order to catch the expression of delight on their faces."

They were discussing the relative position of various countries as musical centres. Germany seemed to have the most votaries, much to the evident displeasure of one excitable Italian, who wished his own country to carry off the palm.

"Italy is turning out the most musicians, and has always turned out the most," he cried.

"Ach!" exclaimed a German present, "can you blame them?"

During a concert tour of the late Theodore Thomas and his celebrated orchestra, one of the musicians died, and the following telegram was immediately dispatched to the parents of the deceased:—

"John Black died suddenly today. Advise by wire as to disposition."

In a few hours the answer was received, reading as follows:—

"We are broken-hearted; his disposition was a roving one."

Miss Cameron Taylor, in her book on her father, Sir A Taylor, relates an amusing example of the British habit of conferring nicknames.

In the Punjab service, we are told, were three brothers named Bean. One of these, Leonard, who was of substantial build, was known as "Bread Bean"; his brother, John, who had lived on the Continent, and had charming manners, was called "French Bean"; and the third, Charles, who was of a melancholy and retiring temperament, and finally died, was dubbed "Has Been."

Too Easy.

Pluto (to imp)—Is Sisyphus still trying to roll that stone uphill?

Imp—Yes, my lord.

Pluto—Well, start him out on an endless journey with an automobile that will break down every ten minutes. That stone stunt is too mild.

Before you ask a man to feel at home, consider what sort of a home he has got.

No Enthusiast.

Mother—I am afraid Laura will never become a great pianist.

Father—What makes you so discouraged?

Mother—This morning she seemed beside herself with joy when I told her she must omit her music lesson to go to the dentist.

Sufficient Reason.

Childs—What made Bennett stop building the addition to his house?

Haskell—His daughter and young Loafley broke their engagement.

A Paradox?

"So you are deaf and dumb?"

"Perfectly. But I will not say a word except in the presence of my attorney.

Careless of Him.

A Birmingham man, on receiving his doctor's bill, hurried to the doctor's office and protested:

"What does this mean, doc.? Besides the stipulated fee for my wife's operation you have charged me twenty pounds extra for instruments!"

"Yes, I know," said the doctor. "That's for a very valuable saw that I found I had left in your wife after her operation."

She Loved the Sea.

The beautiful girl was greatly loved by the poverty-stricken scribe who had nothing but his mother's wit to commend him.

The girl, having thought the matter over, decided that a balance at the bank might accompany the next offer, and the scribe was somewhat embittered in consequence.

They stood together upon the steamer, and as they leaned over the rail the girl said with a sigh:

"I love the sea."

"Strange!" said the rejected one; "it hasn't got any money."

"There goes that poor writer, Binks."

"Yep, the poor guy. He used to make a good living out of these 'What a Young Girl Ought to Know' books, but there's no demand for that kind of stuff any more."

Definite.

First Photographer: You were rejected yesterday, weren't you?

Second ditto: Yes; but I got a clear negative.

This is not a cloak-room but the lounge of a fashionable hotel.

Immunity.

Grace (age six): "Mamma, end a little girl as little as me be arrested for playing suffragette and breaking a window?"

Her Mother: "No, dear; certainly not! Why do you ask?"

Grace (relieved and gleeful): "Oh, I shud worry!"

Easier Than He Thought.

"G-g-good-evening," said the young man who had come to speak to the young girl's father.

"Good-evening," said the father. "You look a little nervous. How do you feel?"

"Flattered," said the young man. "I was afraid I looked scared to death."

A Rural Blunder.

Abner: Silas is the darndest man I ever saw to try to put on a front—to sail under false colors, so to speak.

Hiram: "What's he been doin'?"

Abner: "Why, everybody knows that he never saw the time when he was makin' more'n enough to buy his clothes and tobacker, an' yet he stands around town every day and talks till he's red in the face, denouncin' the income tax."

Stumped.

Tramp: "Have you any odd jobs I can do?"

Lady: "Yes; I will paint me name and paint it green."—Williams' Purple Cow.

Cause and Effect.

Tom: "Did your dad give you hell Columbus?"

Jack: "Yes; and I saw the star spangled banner.

Correct Answer.

The Policeman: "Where are you going at this time of night?"

The Wanderer: "I'm—hic—goin' to a lecture."—London Sketch.

She: "Lizzie's bloke calls 'er 'is peach and the happle of 'is heye. Why can't you call me things like that?"

He: "Yus, that's very well, but 'e's in the vegetable business. I'm in the fish trade, remember."

"Why do you insist upon having the biggest share of the pudding, Harry?" asked the mother of a small boy. "Isn't your older brother entitled to it?"

"No, he isn't," replied the little fellow. "He was eating pudding 10 years before I was born."

A local band was one day playing in Scotland, when an old native came up and asked the bandmaster what piece was they were rendering.

"That's the Death of Nelson," replied the bandmaster.

"Aye, man," remarked the native, "ye hae given an awfu' death!"

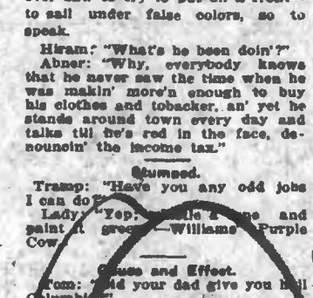
Mrs. Clarke ran running hurriedly into her husband's office one morning.

"Oh, Dick!" she cried, as she gasped for breath. "I dropped my diamond ring off my finger, and I can't find it anywhere!"

"It's all right, Bess," replied Mr. Clarke. "I came across it in my trousers-pocket."

"Professor, I know my son is rather slow, but in the two years that you have had charge of his education he must have developed a tendency in some direction or other. What occupation do you suggest as a possible outlet for his energies, such as they are?"

"Well, sir, I think he is admirably fitted for taking moving pictures of a glacier."



First Urchin: "See, 'Erb, a Aircoplane!"

Second Urchin: "Where?"

First Urchin: "See, There—That Loose Bit."

The superintendent of a Sunday-school was illustrating for the children the text, "Arise, and take the young child and his mother, and flee into Egypt." Showing them a large picture, she asked:

"Now, isn't that splendid? Here is the mother. Here is the young child. There's Egypt in the distance."

The children, however, looked disappointed, and finally a little boy piped out:

"Teacher, where's the flea?"

Willie: "Pa, what is a slave to fashion?"

Pa: "A man who has a wife and some grown daughters, my son."

Good Pilot!

A steamboat was stranded in the Mississippi, and the captain could not get her off. Eventually a hard-looking fellow came on board and said:

"Captain, I understand you want a pilot?"

The captain asked: "Are you a pilot?"

"Well, they call me one."

"Do you know where the sandbanks are?"

"No, sir!"

"Well, how do you expect to take me out of here if you don't know where they are?"

"I know where they ain't!" was the reply.

Pronunciation.

Here is a good story about a group of Scottish lawyers who were gathered round a brew of toddy one evening. The conversation turned upon a question of pronunciation.

"Now, I always say 'neether,'" one of the lawyers said in discussing the pronunciation of the word "neither."

"I say 'nayther,'" remarked another lawyer. Turning to a third, he asked: "What do you say, Sandy?"

Sandy, whose head was a little muddled by too many helpings of toddy, woke up from a gentle doze. "Me?" he said. "Oh, I say 'whusky.'"

Inside Information.

Several farmers were sitting around the fire in the country inn and telling how the potato pests had got into their crops. Said one:

"Them pests ate my whole crop in two weeks."

Then another spoke up:

"They ate my crop in two days, and then sat around on the trees and waited for me to plant more."

Here a commercial traveler for a seed house broke in:

"Well, boys," he said, "that may be so, but I'll tel you what I saw in our own warehouse. I saw four or five beetles examining the books about a week before planting time to see who had bought seed."

Mates and Seams.

"Married men declare that their wives can't keep a secret, but these men themselves are just as bad.

"A married man buttonholed me in the billiard room an hour ago, and told me a frightful scandal.

"'Don't let this go any further, George,' he ended.

"'No, certainly not,' said I. 'But how did you happen to hear it?'

"'Oh, the wife, of course,' he answered. 'She's just like all women—can't keep a secret.'"

Urgent.

Smith and Jinks are going to operate on Hawkins.

"Necessary?"

"Yes. Dr. Jinks wants new car, and Dr. Smith has a hole to plete coming due."

Embarrassing Generosity.

"You don't feel quite sure of your wife's affection?" said the very confidential friend.

"Not quite."

"But she is always lavishing expensive presents on you."

"Yes. But the presents do not denote the solicitude for my comfort and safety which I should like. First, she gave me a polo pony; then she gave me a racing motor-car; and now she is trying to persuade me to accept an aeroplane."

Hardeuppe: "Mrs. Boarder, I think nature intended you to be a bird."

Mrs. Boarder: "How's that?"

Hardeuppe: "I've never seen you without a bill."

Ethel: "How did Jack happen to propose a second time?"

Kitty: "Because I refused him the first time, of course."

She: "Are they happy together?"

He: "Well, he stays in every evening."

She: "Then they must be."

He: "But she goes out."

THE HIGH COST OF LOVING.

Hé Hadn't.

"What a debt we owe to medical science!" he said as he put down the paper.

"Good heavens!" she exclaimed. "Have you had the doctor's bill yet?"

The Happiest Moment.

A bachelor of considerable wealth was much sought after by many of the most charming young women of the town.

Minnie Rivers, a very pretty maiden, was one who had brought him almost to the point of proposal.

"What was the happiest moment of your life?" she asked, while they were taking a moonlight stroll one evening.

"The happiest moment of my life," answered the bachelor, with a reminiscent smile, "was when the jeweler took back an engagement ring and gave me some cuff-links in exchange."

Magistrate: "The evidence shows that you threw a kettle at your husband."
Culprit: "It shows more than that, yer honor; it shows that I 'it 'im!"

In Sawston.

Sunday School Teacher: And why are you smiling, Reginald?

Reggie: It's all so amusing! When Eve pilfered the forbidden fruit, she couldn't attribute her monomania to heredity.

"Do you think the motor car has come to stay?" asked one man of his neighbor.

"Well," replied the other, "there was one out in front of my house today which I thought had, but they got a horse after a while and towed it home."

Ways and Means.

Ethel: "Jack Roxleigh is good-looking enough, but I don't care for his ways."

Marie: "Never mind about his ways, my dear; think of his means."

You didn't hear all of my sermon," said the minister.

"Yes, I did," replied the considerate lady; "I closed my eyes part of the time for fear of seeing something that would distract my attention."

Repartee.

A young gentleman with a very plain face was rather annoyed because his view of the stage was obstructed by the hat of a pretty girl who was sitting in front of him in the gallery. Wishing to get a glimpse of the performance, he plucked up courage and, in a nervous voice, exclaimed: "See here, miss, I want to look as well as you." "Oh, do yer?" she replied in a rich cockney accent, as she turned round and looked at him square in the eye. "Then you'd better run 'ome and change yer face."

The Joke Broker: These witticisms are all old and worn out."

The Broke Joker: I know they're bad, but if you ascribe them to a lot of prominent men they'll go in the magazines."

Wild Son: Dad, I'm going to trace back our ancestors.

Father: Drop it! You've disgraced the family enough smoking cigarets!

"Kate says she intends to marry Mr. Plunks to reform him."

"What is his vice?"

"He's a good deal of a miser."

"He told me he had a leaning towards the church."

"Was he sober?"

Visitor: Do your children go to school?

Mother: Not yet. They're studying sex hygiene, eugenics and bacteriology.

An old "Wee Free" woman was walking to church in Scotland with her family. The Church of Scotland minister rode past at a tremendous rate, and the old body said to her children:—

"Sloean a wey to be ridin', and this the Sawbeth day! Aweel, aweel, a guid man is mareifu' to his beast!"

Shortly afterwards the "Wee Free" minister rode past just as furiously, but she changed her tone.

"Ah, there he goes!" she cried; "there he goes; the Lord bless him! Puir man, his heart's in his work, an' he's eager to be at it!"

When Mr. W. D. Howells, the famous American writer, was editing an American magazine, a young man called on him at the office and offered him a poem. Mr. Howells read the poem and thought it was good, but somehow it seemed rather familiar.

"Did you write this unaided?" he asked.

"I did," replied the youthful poet. "I wrote every line of it."

"Then I am very glad to meet you, Lord Byron," said Mr. Howells. "But I was under the impression that you had died some years ago!"

THE BARGAIN.
"Look here, old chap, I'll dance twice with your ugly little sister if you'll take my mater down to grub."

Tired.

"I've got a watch here that strikes."

"Something new, isn't it?"

"Not exactly. The blooming thing just refuses to work."

Clever Dog.

"Yes," said Brown, "I have a wonderful dog. Only this morning, when I came down to breakfast, after a sleepless night, and forgot to give him his usual tit-bit, he went out into the garden, pulled up a bunch of flowers, and laid them at my feet."

"And what were they?" inquired his friend.

"Forget - me - nots," answered Brown, as he hurriedly left the room.

The Awful Pause.

A gentleman who had married his cook was giving a dinner party, and between the courses the good lady sat with her hands spread on the tablecloth.

Suddenly the burr of conversation ceased, and in the silence that followed a young man on the right of his hostess said, pleasantly:

"Awful pause!"

"Yes, they may be," said the old-time cook, with heightened color; "and yours would be like them if you had done half my work."

A Useful Present.

"You say you exceedingly smoke one of your wife's Christmas cigars?"

"Yes. I dug 'em up the other day, and they are a great help in my present situation."

"What is that?"

"I am trying to leave off smoking for good."

A Modest Request.

"Dear teacher," wrote little Edith's mother, "please excuse Edith for not coming to school yesterday. She fell in the mud. By doing the same you will greatly oblige,

Her Mother."

He Knew.

A Washingtonian, who was touring the Shenandoah Valley, stopped his motor car in the road one day and asked an aged darky who was painfully proceeding in the opposite direction whether he knew where Mr. Simpkins lived.

"Yessuh," was the reply. "He live heah in de valley."

"Do you know where his house is?"

The aged negro chuckled. "'Deed I do, boss," he said. "I only wisht I had as many dollahs as I knows where dat house is."

"Hello, Mike. Where did you get that black eye?"

"Why, O'Grady's just back from his honeymoon, an' 'twas me advised him t' get married."

Attention.

He: I called to see your father this afternoon.

She, (fluttering visibly): Oh, did you?

He: Yes; he has been owing our firm a little bill for some time.

Very Final.

"What's the matter?"

"She has rejected me again. She says this is final."

"Did she say how final?" inquired the older and more experienced man.

"Paris to Athens in sixty hours" is a newly advertised train schedule. A saving of time, but what a waste of opportunity!

Calling the Kettle Black.

"I despise a hypocrite."

"So do I."

"Now, take Jackson, for example; he's the biggest hypocrite on earth."

"But you appear to be his best friend."

"Oh, yes; I try to appear friendly toward him. It pays better in the end."

One predicts a future for the school boy who wrote the following terse narrative about Elijah:

"There was a man named Elijah. He had some bears and he lived in a cave. Some boys tormented him. He said: 'If you keep on throwing stones at me, I'll turn the bears on you and they'll eat you up.' And they did and he did and the bears did."—Everybody's.

SOTTO VOCE
Conductor (to groom)—I guess you made a little mistake. One of these tickets calls for a fur-lined overcoat.

THE MAN THAT MAYBE.
"Bah—it is a sardine box!"
"Don't yell so loud! There may be some sardines in there yet!"—La Rire (Paris).

HOUSEHOLD NOTES

A woman who has not learned discretion will come to an evil end.

The more we know about life the less we feel like criticising others.

A woman's fears are always ahead of her danger.

To love and be loved is pretty much all there is to live for.

Never ask your husband for money till he has had his dinner.

There is no use in worrying, and just as little use in telling other people not to worry.

Some men are so dishonest, that they even put their religion in their wife's name.

A man may have many sins, but if he has tenderness and charity, women will love him.

Men who rave and dogs who bark seldom do much else.

Forego revenge. Revenge converts a little right into a big wrong.

Flattery is the bridle and whip men use to drive women.

You may teach all the girls in the house to sew, but when Johnny has a button off he will trot to mother to sew it on all the same.

The Tango craze is ruining the corset makers, 'tis said. Well, no one will blame them if they pray that something will ruin the tango.

Men are like wine, age sours the bad and mellows the good.

It is worth a thousand dollars to any one to be able to look on the bright side of things.

"Now Jane," said the mistress to the new maid, "you may go and soak the mackerel!"

"All right, mum," answered Jane, "how much do yes expect jo be afther gittin' on thim?"

"Father, don't men call themselves bachelors before they are married?"

"Yes, my boy."

"And what do they call themselves after, dad?"

"Hush! It isn't fit for little boys to know."

Some girls can acquire a husband in one evening, but they require days of a careful looking to select a hat.

HINTS TO HOUSEWIVES

Did it ever occur to you what a wise intervention of Providence it is that Lent comes at a season when fish is plentiful How inconvenient it would be for those who are required to abstain from meat if their diet did not consist largely of fish! To those, too, who make no difference for Lent, fish in the spring is considered a necessity. With the breaking up of winter and the arrival of milder weather, one's diet should also be varied. During the cold weather the natural demand is for meat and fats to produce warmth in the body, but at the approach of spring the careful housewife provides her family with salads, fish, eggs and other foods, nourishing and palatable, but not so essentially heat-producing as meat.

To those who of necessity must eat the noon-day meal in haste, fish is a positive boon as it requires less time to eat and digest, and if properly prepared, is quite as palatable as meat.

An unusual recipe is for herring salad. To prepare this dish cook salt herring fifteen minutes in boiling water to cover. Drain, cool and separate in flakes; there should be one cupful. Add an equal measure of one-third-inch cubes of cold boiled potatoes and one-fourth the measure of finely chopped whites of hard-boiled eggs. Mix thoroughly, moisten with French dressing, cover, and let stand in a cold place one hour. Moisten with Huntington dressing, and mould in a salad dish on a bed of crisp lettuce leaves. Sprinkle with the yolks of two hard-boiled eggs, forced through a potato ricer or purree strainer, and garnish with rings cut from whites of hard-boiled egg and tiny sprigs of parsley.

To prepare the Huntington dressing. Mix one-half tablespoonful of salt, one-half tablespoonful of mustard, three-fourths tablespoonful of sugar and one tablespoonful of flour. Add the yolks of two eggs slightly beaten, three tablespoonfuls of melted butter, three-fourths cupful of rich milk and one-fourth cupful of vinegar. Cook in double boiler, stirring constantly, until mixture thickens like a custard. Strain and cool. When using this dressing for herring salad, to two-thirds cupful add one-fourth cupful of heavy cream beaten until stiff, to which has been added two tablespoonfuls of canned pimento puree.

CLEANING PIANO KEYS.

Water should never be used to clean the keys of a piano, as it removes their polish. Rub them with a cloth dampened in alcohol, which will remove all the yellow stains and make the keys perfectly white again.

WATERY BLISTERS INTENSELY ITCHY

Between Fingers. Spread to Tips. Would Swell Up, Itch and Burn. Did Not Dare Put Hands in Water. Cuticura Soap and Cuticura Ointment Cured.

Carman, Manitoba.—"A breaking out between my fingers was the first trouble. It was very itchy and spread to my finger tips affecting the nails. It first appeared in watery blisters and they were so intensely itchy I scratched them and let the water out making sores. They would swell up, itch and burn and finally the nails would loosen and come off. I spent many sleepless nights. I did not dare to put my hands in water except to wash them.

"I began using Cuticura Soap and Ointment, but was not cured. Sometimes the remedies would help a little but I was not free from it altogether. I was that way for nine years trying everything. I heard of Cuticura Soap and Ointment and sent for them and before I had used them half a dozen times I noticed an improvement. By washing with the Cuticura Soap and applying the Cuticura Ointment frequently I was cured in three months." (Signed) Miss Florence B. Sandelski, May 29, 1913.

For many years Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp from infancy to age. A single set is often sufficient. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

SPRING SUIT.

Picturesque Creation In Wistaria Purple.

PURPLE SUIT.

A glance at the fashion novelty illustrated here would suggest that we had gone back to the days of D'Artagnan for inspiration. The hat and coat are very reminiscent of the garments of the Gascon as depicted in story and on the stage. This is really the new loose coat of the Louis XVI. period, when styles had not changed greatly from those of the grand monarch. The suit is carried out in wistaria purple, the coat having collar and cuff facings of brocade to match the material of the vest. The long gloves are of silk in a shade of purple slightly lighter than that of the suit and hand embroidered.

Eighty-six Women Plumbers.

Has any one ever seen a woman plumber? There are not many persons who could reply in the affirmative; but, according to the report of the census of England and Wales relating to occupations and industries, there are eighty-six women who ply the calling of plumber. Of these seventy-seven are widows.

The same blue book, which has just been issued, shows that women have succeeded in establishing themselves in a number of industries where their presence is unexpected. There are seventy women paperhangers and whitewashers and four bricklayers, all of them women, but only one woman coachman.

Three women appear under the heading of "clergymen, priests and ministers," and four are coal heavers. There are 347 women carmen and wagoners and 231 women blacksmiths and "strikers." Only one woman occupies herself with making patent fuel, only three women are shipwrights, five women are "tramway car makers," and finally England and Wales can boast of fifty-six women carpenters and joiners and fourteen women masons.

New Mending Idea.

A mother whose allowance for management of the home is very small has evolved a number of economical ideas. One is to use pieces of old kid gloves for mending the back seam of the children's shoes. She sews the patch on the inside of the shoe.

New Hairpins.

One of the fads of the winter is the wearing of two handsome horseshoe shaped jeweled pins to fasten the coils or braids of hair. Fashion seems to favor having these placed at the sides just above the ear, but there is no set rule in that regard

LA GRIPPE'S VICTIMS

You Can Only Recover From Its After Effects by Enriching the Blood

Few diseases so shatter the health as la grippe, or influenza. Its victims all tell the same story. They are left despondent, tired, weak and wretched in every way. They have no appetite, ambition or strength; cannot sleep and suffer from headaches, backaches and nervousness. In this weakened condition lies the real danger. The body falls an easy prey to bronchitis, pneumonia, and even to consumption. Nearly every form of nervous trouble has been known to follow an attack of la grippe. Dr. Williams' Pink Pills give the quickest and most thorough relief from the after effects of this trouble. They build up and purify the blood, drive the poisons out of the system and give strength and tone to the whole body. The following is an example of their power in cases of this kind. Mrs. R. A. McLean, Wentworth Station, N.S., says: 'Two years ago Herbert E. Freeman, a young boy living with us, was attacked with la grippe. At the time he did not have a strong constitution, and we feared the trouble was settling on his lungs. He was not able to walk fifty yards without being out of breath, and his general vitality was very low. For months he continued in this this position, notwithstanding all we did for him, and it was at this crisis that we got Dr. Williams' Pink Pills for him. By the time he had used three boxes there was a noticeable improvement, and this was followed by his being able to do light work, and later he had all the strength of a growing boy. His cure was looked upon as remarkable by all who knew him, and I am giving the result in the hope that it may be of benefit to someone else."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for $2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

NO TROUBLE BREAKFASTS

"You would not have so much trouble over our breakfasts if you got things ready overnight," said Mrs. Experience to Mrs. Hausfrau, in answer to the young wife's dismal lament that breakfast was the worry of her life. "I don't like getting up early any more than you do, but I can quite understand that your husband gets tired of boiled eggs and fried bacon after day. Personally, I always choose dishes that can be got ready the night before, and all there is to do is to heat them. Here are two or three of my staple dishes which I think you will find will break the monotony and will really be less trouble in the morning than preparing eggs. For ham cakes, for instance, take half a pound cooked ham, four tablespoonfuls mashed potatoes, one teaspoonful of grated onion, pepper, salt, milk, one egg, some bread crumbs and fat for frying. Overnight I chop the ham very fine, and mash the potatoes free from lumps, then mix the potatoes with the ham, and onion, season and mix all these ingredients carefully, and add just enough milk to bind the mixture and prevent it crumbling. Next I divide the mixture into open-sized pieces, and shape these into round fat cakes. Brush each over with beaten egg, and then coat them with crumbs, and place them ready on a tin covered with paper, on which to drain them after frying. I put a deep pan of frying-fat all ready. In the morning I put the pan of fat on the fire to heat, and when a faint smoke rises from it I put in some of the cakes, and fry them a pretty golden brown—then I lift them from the fat, drain them on paper, and serve neatly arranged on a hot dish. Boiled lean bacon, tongue, cold meat or poultry can be used instead of ham. For fish croutons you want half a pound of cooked fish freed from bone, a tablespoonful of butter, two tablespoonfuls of flour, a little fish stock or milk, one hard-boiled egg, two teaspoonfuls of anchovy essence, salt and pepper, and some slices of bread cut about a quarter of an inch thick. Overnight I chop the fish finely, melt the butter in a saucepan, stir in the flour smoothly, and add the milk, heat and stir this until the sauce boils. Then add the fish, shelled and chopped egg, anchovy essence and seasoning. If the mixture seems too dry add more liquid, for it should be stiff, yet creamy, and leave the mixture in a pan in a cool place. Cut the bread into pieces about three inches long and one and a half wide, and lay these on a tin with about an ounce of bacon or beef dripping, in which they will be fried. In the morning I heat the mixture thoroughly, remembering that it is thick, and so will stick and burn if not stirred; heat the bacon fat in a frying pan, and when a faint smoke rises from it lay in the bread, and fry it a pretty good colour. Then drain the pieces on paper, and neatly stiff yet creamy and leave the mixture. Any fish, or mixture of fish will do. If there is any suitable sauce, white or brown, ready, use it instead of making fresh. Toast can be used instead of fried bread.

HOLIDAY FROCK.

OF CRIMSON, LACE AND FUR.

The very charming creation seen in the picture is a dance frock which is smart in the extreme. Eighty-one of every ten dance gowns one sees this season are inspired by the costumes of Richepin's famous play, "The Minstrel." Seven out of every eight show the lamp shade tunic, either plain or broken by flounces wired stiffly from the figure or modified to what is merely a very full hip flounce.

This latter expedient has been carried out in the gown illustrated, the lace flounce, an extension of the flounced bodice, being edged with fur and slightly wired to give the lamp shade effect.

Chiffon cloth in a lovely shade of tawny yellow makes the lower skirt, which harmonizes beautifully with the ivory lace and rich brown fur.

The Maternity Blouse.

Far more trim looking than any garment which previously has been designed for maternity wear is a blouse cut on precisely the same lines as the "middy," but long enough to reach to the knees and with sleeves that cover the wrists. Very practical are the maternity blouses in black satin finished all round with a self piping or with an ajour hem and fastening below the sailor collar with a silk cording run through eyelets. Like the original "middy," the maternity garment goes on over the head and may be sash belted if desired. In satin it may be worn with the skirt of almost any afternoon gown or under a tailored street suit and for morning be worn with linen or pongee skirts.

Lady Warwick a Journalist.

The Countess of Warwick has become a journalist. She has undertaken the editorial direction of the woman's page of a London halfpenny illustrated daily newspaper. Lady Warwick the countess spent several weeks in this country lecturing to raise funds for one of the charities in which she is interested.

A WONDERFUL REMEDY

Orange Lily is daily curing the most obstinate cases of Female Disorders, Falling of the Womb, Leucorrhoea, Painful and Suppressed Menstruation, etc., etc., are all of them relieved from the start by its use, and a few weeks' or months' treatment accomplishes a complete cure. This remedy is a positive scientific preparation, and is based on the discoveries of Pasteur and Lister. It is an applied treatment; that is, it is not taken internally, but is applied direct to the suffering parts, and it, therefore, acts with all the certainty of the known laws of chemical action. As it comes in direct contact with the diseased tissue, it cannot help have a beneficent influence. I receive from 10 to 15 letters daily speaking of the benefit and cures it is performing, and so sure am I that it will do what is claimed for it that I will send absolutely free to any suffering woman who will write for it, Free, a $1 per box, which is sufficient for one months' treatment. Address, MRS. FRANCES E. CURRAH, WINDSOR, ONT.

MOTHER ALWAYS USES OXO WHEN SHE MAKES THE STEW, IT'S SO EASY WITH OXO CUBES

It is their wonderful convenience, as well as their body-building power, that recommends the new Oxo Cubes to mothers, and is winning for this wonderful new food-invention a permanent place in every nursery.

A CUPFUL OF OXO YIELDS JUST THAT NUTRIMENT A GROWING CHILD NEEDS, AND IS MADE IN A MOMENT WITH AN OXO CUBE.

No rush when the children come from school—no fussing with "spreadable"—no sticky jars and bottles—just a dainty cube and a cupful of hot water, a stir, and it's ready. Try an Oxo Cube in a cupful of hot milk, it goes over the digestion difficulty and is both delicious and sustaining.

A Cube to a Cup

OXO CUBES

ADDRESS ON "CANADA" TO SCOTCH AUDIENCE

Home and Dear to the Scots—Most Akin to Scotland, of all Colonies

At a lecture on Canada given in Dunfermline by the Rev. W. Baird, of Edinburgh, the chairman, Mr. W. Lindsay, introducing the lecturer, said that Canada was near and very dear to all Scots, for out of the many colonies of the Empire it stood foremost and most akin to us. Why? Because though first discovered by a Genoese trader from Bristol, and afterwards successfully settled by the Norman-French, it was not until that notorious Highlander—rather Franco-Scot—John Law, an Edinburgh goldsmith who found it convenient to transfer his interests to Paris, where he founded a famous bank—turned his attention to colonizing Canada with Scots, that thus began the westward trend of our race. Then followed the rush of Scots exiles after the Jacobite Rebellion in 1715, and many began the interest of the Scots in the St. Lawrence. This exodus was followed later, and especially after 1745, by many Scots to seek fresh fortune in the West. Previous to this, however, and in the reign of James VI. and I. of England, Sir William Alexander secured a charter to found Nova Scotia, or New Scotland—the territory to be an appanage of the Kingdom of Scotland, and to be erected into two chief districts, viz., (1) Caledonia (now Nova Scotia) and (2) Alexandria (now New Brunswick.) To further make it homelike for the Scot some of the rivers were renamed, Tweed, Clyde, Forth, etc., but to still further popularise the movement a new order of baronets of Nova Scotia was instituted.

A Great Movement

Then commenced the great movement of Scots to the new Acadia, and from time to time they were followed by other bands of determined Scots, until about the years 1782-4-5, when the clearance of the Highland glens took place, and the Scots surged across the Atlantic to form that well known settlement, Glengarry, Ontario. Thereafter ship after ship brought its contingent of clansmen from old Scotland's shores. The names of the clans were: M'Donald, M'Donell, M'Millan, M'Dougall, M'Rae, M'Leod, Grant, Cameron, M'Gillis, Kennedy, M'Lennan, Campbell, M'Intosh, M'Gillivray, M'Kinnon, M'Pherson, Fraser, M'Phee, M'Intyre, Ross, Chisholm, M'Gregor, Ferguson, M'Laren, M'Kenzie, Morrison, M'Cormick, M'Martin, M'Kay, M'Arthur, M'Lachlan, Cattanach. In 1825 they numbered 2,265 souls in Glengarry, Ontario. Thus did the Scots win the East, but no less had they since won the West, and at the present time over a million Scots were located in and over the Dominion of Canada, and it may be taken as a surety that very few homes in Scotland at the present time but had some relationship with Scots o'er the water.

Who Should Emigrate

The chairman, in moving a vote of thanks, said that no one should emigrate unless he felt his present position did not give him cope for his abilities, nor afford sufficient remuneration for his toil. Nor should anyone emigrate if his circumstances were such that he is well off in this country. However, if after careful consideration of the matter and good prospects were held out by friends already settled across the seas, then it might be well to go forth with the hope of some success. It was important, however, to emphasise what the lecturer had said, that it must not be expected when they reached the other side they would find "a land flowing with milk and honey." They would find a land of opportunity for those who were willing to tackle hard work, and who had plenty of grit and courage to face difficulties.

"Eat More Bread"

Of course you should "eat more bread"—and less meat—but be sure your "bread" contains all the body-building material in the whole wheat prepared in digestible form. The only "bread" that fulfils all these requirements is

SHREDDED WHEAT

It is made in Canada of Canadian whole wheat steam-cooked, shredded and baked. It is a natural, elemental food and is not treated or compounded with anything. Its purity, cleanliness and food value stand unchallenged, being endorsed by the highest health and dietetic authorities in Canada and the United States.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Triscuit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

UP IN NEW ONTARIO.

Got Rheumatism Through Exposure, but Wesden's Kidney Pills Cured Him.

"While on a trip with a survey party in Northern Ontario two years ago, I contracted rheumatism through exposure and sleeping in damp clothes. When I returned home I was very bad, and the pain in my joints was something awful. I was advised to try Wesden's Kidney Pills, and after taking four boxes my rheumatism was entirely gone. Last year I was up on the survey party again, but I was never without a box of Wesden's Kidney Pills, and have never had the slightest return of it.

John S. Dillon,
Soo, Mich.

REBEL CHIEF'S BRIDE

This beautiful girl was cashier in a clothing store at Torreon, Mexico, where she came under the eye of General Villa. The famous rebel forcibly married her in true bandit fashion and drove off in the finest carriage available. The girl seemed quite reconciled by the time the triumphant procession was ready to start.

The Dunmow Flitch

Rev. [illegible] Robson, vicar of Little Dunmow, Essex, is conducting a search in connection with the Morant Society for the tomb of Robert Fitzwalter, one of the barons who compelled King John to sign Magna Charta, and the founder of the Dunmow Flitch contest.

Excavations were begun on the site of Little Dunmow Priory, and the investigations of the Fitzwalter family vault discovered in front of the high altar. Both the three tombs when opened were found to be empty.

It is believed they were ransacked when the priory was destroyed at the dissolution of the Monasteries.

The title of Shakespeare on the films has encouraged the theorists that they off wrgt to take it.

There are three kinds of husbands—good, bad and indifferent. The last is the most unbearable.

POINTED PARAGRAPHS

What praise ne'er won fair damsel.

A woman is interesting because she isn't a man.

The heart may be willing, but the pocketbook weak.

The man who lives a double life never does two men's work.

The weaker a man is, the easier it is for him to break a promise.

Many a chap's town turn up while waiting for a dead man's shoes.

A lot of girls who pose as candy kids develop into lemon drops later.

When a man sticks to a job he doesn't like, it's because he needs the money.

The more rings a woman has on her fingers the oftener her back hair needs adjusting.

Many a man who thought he could set the world on fire turned out to be a wet blanket.

Women dress to please the men, but some men are so all-fired contrary they refuse to be pleased.

As soon as a man begins to think he knows a woman thoroughly something crops out in her personality that entirely upsets his calculations.

An old bachelor may not believe that life is full of contradictions, but a married man always does.

A meddlesome woman is bad enough, but when the meddling bee gets into a man's bonnet it is time to stand from under.

Occasionally we meet a man who can't stand prosperity, but more often we encounter men who never had a chance to find out.

THE EARL OF KINTORE

The ninth Earl of Kintore, a big, soldierly all-footer is touring the United States to spread the gospel of peace and good-will, and incidentally promote closer commercial relations.

Cannot Read at Ten

In the United States 5,516,163 persons over ten years old do not know how to read or write; 2,273,668 of these are men of voting age, and 617,783 are native-born whites.

Canadian Crops Decrease

Canadian field crops last year were valued at $552,771,500 as compared with $567,344,100 in 1912.

Spain's Population

The population of Spain is estimated to be nearly 20,000,000. Of these, 600,000 are in Madrid.

Corson's

Corson's Ideal Orchid Talcum Powder

—is the most refreshing and pleasant of all talcs

Its choice fragrance, coolness and antiseptic qualities have placed it foremost among talcums and made it the favorite of many users.

The high quality of the talc—its fineness, purity and the excellence of the perfume that gives it its fragrance are not equalled in any other talc you can buy.

WOUNDED IN BATTLE

Bullets Mostly Strike Heads and Hands in Modern Fighting

Dr. O. Laurent, a surgeon who served as a volunteer during the Balkan War, rendered to the French Academy of Medicine a very interesting and instructive report concerning casualties in battle.

His statistics show that, in modern warfare, 82 to 84 per cent. of the wounds inflicted are caused by bullets, 15 to 17 per cent. by shrapnel, and 1 per cent. by cold steel. The penetrative force of shrapnel bullets is, he declares, very much less than that of rifle bullets—at all events, when the shrapnel bursts at some distance from the soldier; for, whereas shrapnel is often found embedded in clothing, rifle bullets never are. On the other hand, complications arise very much more frequently from shrapnel wounds than from rifle bullet wounds.

Dr. Laurent has observed that nowadays, since the soldier usually fires under cover, lying either prone or in a trench, a large majority of wounds are received in the skull and the hands, especially the left hand.

To combat this, he suggests the use of a light, resistant shield to protect the head, and that another shield should be fixed to the left hand or the rifle itself. A third might be placed in the region of the heart. Indeed, many British soldiers who fought in the Boer War owe their lives to the chance presence of a cigarette case or wad of papers in the left breast pocket.

The Largest Kitchen

It is believed that the largest kitchen in the world is that of the Bon Marché in Paris. It provides food for all the employes of the house, 4,000 in number. The smallest kettle holds seventy-five quarts, the largest 375 quarts. There are fifty frying pans, each of which is capable of holding 300 cutlets at a time or frying 220 pounds of potatoes. When there are omelets for breakfast, 7,200 eggs are used. The coffee machines make 750 quarts of coffee daily. There are sixty cooks and 100 kitchen boys employed.

Higher Voltages

A general tendency toward higher voltages in electric transmission plants is apparent. One plant, for instance, is sending current from Big Creek, Calif., to Los Angeles, 240 miles, at an initial pressure of 125,000 volts, to be raised toward 150,000 as the load demanded. Keokuk's plant is regularly shooting current at 100,000 volts into St. Louis over a line more than 140 miles long.

THE GOOD COOK

She studied not theosophy, nor had
lied with theosophy;
Which often tries to lift the veil for
just a little look;
She avoided the piano, did Miss Ann
Eliza Hannah,
And devoted all her intellect to learning how to cook.

With an earnest air and serious she
studied stews mysterious,
And mastered all the processes of
making wholesome bread;
Her pies were each a poem, as she
would proudly show 'em,
"Oh, how lucky will her husband
be!" her friends and neighbors said.

But alas! for all endeavour, that
forever and forever
Showeth faith to be a carping fiend,
of disposition cruel;
For the fellow that she married by
dyspepsia was so harried,
That he couldn't let her cook a thing
but toast and tea and gruel.

DR. A. W. CHASE'S CATARRH POWDER 25c.

In quick direct to the diseased parts by the improved Blower. Heals the sore, cleanses the air passages, stops dropping in the throat and relieves Headache. 25 cents; Dr. Chase's Kidney-Liver Pills, 25c. a box; blower free. Sold by all dealers or Edmanson, Bates & Co., Limited, Toronto.

OUR DAILY SHORT STORY

PEGGY

Peggy, huddled on the window seat, her brown curly hair turned to a golden halo by the sun, her blue eyes very serious, was inspecting the room in which she sat.

The old furniture, covered with cretonnes, was so arranged as to cover the worst part of the rug which in turn hid from the prejudiced gaze the worn places in the floor. Bright geraniums, muslin curtains and the window seat whose shortcomings were manifested only to those who sat on it, completed a most attractive apartment.

"It's very pretty," said Peggy, and homelike; so is the whole house and garden. Moreover, I did it every bit myself, which proves I am the wife of a poor man.

"It was bad enough, goodness knows, when I got back from school. Poor mother was so ill for years before she died she couldn't do a thing, and father, of course, was a man"; which seemed to her argument enough to prove his uselessness in all finer matters.

She arose to inspect herself in the mirror.

"My dress doesn't look homemade." Though at most times a modest young woman, to-day she was being, as much as possible, "perfectly unprejudiced." "I do think I would not be a disgrace to a rich man and I'd like a looking glass that didn't bulge you all out where it shouldn't and he has an automobile."

All of this sounds disconnected until it is explained that Miss Margaret was earnestly trying to decide whether to marry Roland Clark, rich, or Jack Westworth, poor, both very estimable fellows, each desiring the honour of her hand.

"Do I love Jack or do I love Roland? I must guess. It must be Jack. He is good looking and clever. The girls are all crazy about him.

"No one could love Roland, anyway. He's homely and stupid, though I must say I like his being so polite to everyone, even Delia, and he's very kind. If I marry him it will be the automobile that did it. O, that telephone? It's always ringing just when I want to think."

"Hello! Hello!"

"Oh, hello, Roland."

"Yes!"

"This afternoon at 2? All right."

"There! I am all a-quiver at his asking me to go. I knew it was the auto and poor darling old Jack shan't be left because he's only a clerk. I'll tell Roland this afternoon."

Promptly at 2 Peggy was ready, arrayed in a fetching veil and other garments which looked very good to the man in the machine.

The day was lovely; the car ran perfectly; Roland, at no time voluble, talked not at all, leaving her free to enjoy the scenery and the dreams always clamouring at the back of the brain on a beautiful day in spring.

"Which would be very nice," quoth Peggy mentally, "if I didn't suspect him of not being able to think of anything else to say."

They stopped at the farm house for milk. The children all rushed out, clamouring over Roland to demand another story from him. "They do seem to like him," thought Peggy. Then they were off again, the auto skimming along the road, purring like some enormous cat.

"Miss Peggy," abruptly began Roland.

"Dear me, it's coming," cried Peggy mentally. She was in a panic.

"Miss Peggy, I wish you'd marry me, you know. I'd do everything in my power to make you happy. I'd just give my whole life to it. You know I haven't anyone else, so I'd have all my time for it. Don't you think perhaps I could? The tone was so wistful that Peggy had to steel her heart against it.

"I'm sorry, Roland, but I don't love you in the least, not in the least, although you are rich; and love without—I mean marriage without love is a crime against—well, anyway, Roland, I don't love you so that't all there is to it."

She ended her carefully planned speech lamely, feeling so virtuous she failed completely to realise she had been at all cruel.

"It's Wentworth, I suppose," said Roland miserably to himself, and the ride ended in silence.

"Good-by, Miss Peggy. I'm off on a trip to-morrow, so probably shan't see you again," he said as he left her.

In her own room at last, Peggy threw herself on the bed in a storm of tears.

"O, he looked so unhappy. I've broken his heart, and he's so good. They say the poor people of his town couldn't get along without him. He's going away so that I'll never see him again. I wouldn't marry him just because he's rich. I see it now."

A ring at the doorbell caused her to dry her tears and lean over the banister to see who was there. As it proved to be Jack, she descended with great dignity to greet him.

"Jack, I don't want you to bring me any more candy, and I have plenty of flowers growing in the garden. You mustn't be so foolish."

"It's all right, Peggy. I have enough for one; for two, in fact. You know we could manage; we could live here, keeping Delia just the same, and everything would be fine and dandy. Please marry me, Peg."

Jack, I told you once before that I didn't intend to marry anyone."

"It's Clark, I suppose. No one else stands a ghost of a show with that idiot around. Trust any girl to jump at cash instead of a real man."

Peggy's eyes flashed fire. "Jack, go home. You are insulting not only Mr. Clark, but me as well, and I won't stand it. I—" but the door slammed before she could say more.

Once more Peggy retired to her chamber in tears. Was ever a mortal so ill-bred. Poor Jack!

"It's just as I said," she wept. "Even Jack can see it. It is the money that makes me think I want Roland. O, dear, O, dear—

"I won't cry another tear. I hate all men—they're just alike—beasts; I'll be an old maid with a cat, tea and things and then they'll be sorry," she ended rather vaguely.

"Peggy went to the top of the stairs and called to Delia. No answer.

"Delia!" A tangible silence.

"Deelia!" yelled Peggy, forgetting to be elegant.

"Lord, Miss Peggy, whatever is the matter, and me down cellar trying to get the grease outer your petticoat after that ortermobile."

"Never mind, Delia," sighed Peggy, "I just wanted you to run out in the garden and gather me a few flowers to wear. Since you're so busy I'll go myself."

"Flowers, is it," grumbled Delia, who, adoring Peggy and the soul of good humour, nevertheless felt obliged to do a certain amount of grumbling.

Out in the garden Peggy sniffed the air with delight. Such a perfect day — how wonderful all the flowers looked—how—

The soliloquy ended suddenly. There was a creaking, a grinding, then the earth apparently opened and swallowed her. For a time she was too dazed to think, expecting at any moment to be blown up or sucked down. As nothing further happened, however, she began to take account of stock.

She remembered there had been an old well that had been boarded over, sodded up and forgotten until the psychological moment when it chose to break open, landing poor Peggy buried up to her neck, and, though quite unhurt, also utterly unable to get out.

"Of all the ridiculous situations," sh groaned, with tears of vexation in her eyes. "Here I am, just like those tortured Fiji islanders or something. If any one sees me I'll die just the same. O, Delia! De-li-a! Yah. Of course she won't hear me. Deeeee-lia!"

Spying a male figure approaching, she dropped hastily from sight. She simply could not bring herself to call for help from an unsympathetic and possible humorously inclined stranger.

"What on earth, or rather in earth," she giggled hysterically, "shall I do now? I'll just have to wait." Waiting was for Peggy the hardest thing in the world.

Presently her mind went back to the problem of the hour.

"They are both fine fellows, I believe I love them both. I wonder which one loves me better?"

"I have it. Whichever one finds me I'll have. Of course, the one loves best will hunt hardest. I simply can't make up my mind, and I must marry some one." She shuddered at the awful possibility of the fate to which she had declared her life not an hour before.

"I can't be an old maid!" To a girl of Peggy's age nothing would seem more horrible.

"I wonder which will come first," she yawned. "If it's Redmond I bet he won't dig me out for fear of soiling his raiment; anyway it's up to them."

Upon which thought, tired from her ride and worry, she fell asleep fortunately before she had time to think of toads and snakes.

She was awakened by voices when it was quite dark. She felt so cramped and cold she could scarcely contrive to peak one eye cautiously above ground. Jack and Roland were talking together. Roland had a lantern, by the light of which she could see he looked pale and worn.

"I've been searching for her ever since dark," Roland was saying. I came back after a parcel I had forgotten, to find Delia in hysterics. Where can she be?"

"She's all right," declared Jack.

"Are you sure? Do you know?" gasped Roland eagerly.

"I don't know, of course, but I feel sure. I'm off to the lodge, but if she isn't found when I get out I'll turn to and hunt. By the way, aren't you coming?"

"Oh, no, I must find her."

A head shot out of the ground at the very feet of the astonished gentlemen, a head whose eyes glared balefully at Jack.

"Of course he's got to find me, because I'm going to marry him," it said.

RUPTURE

(SEE DATES AT BOTTOM)

Truss Torture

Once Thought Necessary, but Now Your Search for Relief is Ended

Wonderful Method Retains Rupture Without Knife, Danger or Pain

J. Y. EGAN, Specialist of Toronto

Old-fashioned truss torture is no longer necessary. Rubber, clipping trusses and barbarous methods of treating rupture are done away with by the wonderful invention of a specialist who has devoted fifty years to this one affliction. The marvelous new EGAN "CURATIVE" gives to the ruptured instant relief, rest and security where all others fail. It stops all irritation and restores every part to its natural position as soon as it is used and for all time old style trusses are thrown away.

"EGAN'S CURATIVE" cures are absolutely without operation and the cost is small.

Multitudes of cured men, women and children testify. Also endorsed by many physicians.

Where others fail is where I have my greatest success. Nothing complicated, no pain or irritation, but just a natural retaining method. Immediate relief guaranteed. No rubber ban—just straight business. Do not lay this aside, or delay, but tear off free coupon now.

Free Consultation Coupon.

This coupon, upon presentation to J. Y. Egan, rupture specialist, (office, No. 228, 14 East King Street, Toronto) who will visit the towns on dates mentioned below, will entitle bearer to free consultation and examination (of samples. Add at hotel office for number of my room. Note dates.

Lindsay, Benson House, March 9th & 10th. Peterboro', Oriental Hotel, Wednesday & Thursday, (all day and night) 2 days only March 11th & 12th, Campbellford, Windsor Hotel, March 13th.

Contracted A Severe Cold After An Operation.

DR. WOOD'S NORWAY PINE SYRUP

Effected A Complete Cure.

Mrs. Thos. A. Julian, Almonte, Ont., writes:—"Just a few lines to let you know how thankful I am for what Dr. Wood's Norway Pine Syrup has done for me. A few years ago I was operated on for appendicitis, and was confined to the hospital for five weeks. When I returned home I contracted a severe cold which left me with a bad cough. A neighbor told my husband about Dr. Wood's Norway Pine Syrup so I decided to try a bottle. When it was finished it had done me so much good I took another which completely cured me. I can very, very strongly recommend it."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the famous Norway pine tree, which makes it the very best preparation for Coughs, Colds, Bronchitis, and all Throat and Lung troubles.

Price, 25 and 50 cents.

See you get "Dr. Wood's" as there are many imitations on the market. The genuine is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

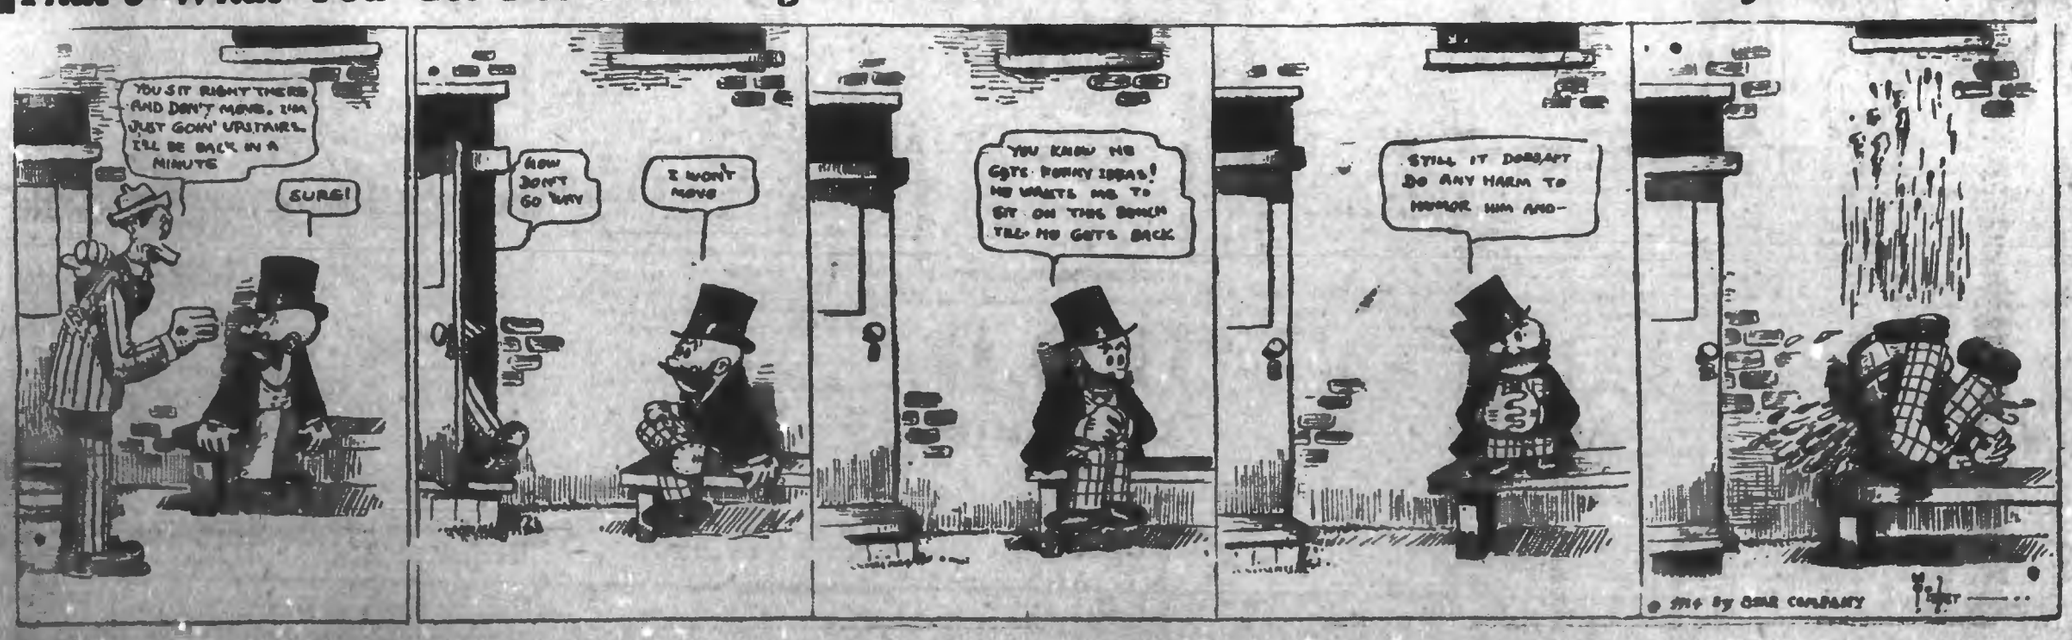
That's What You Get For Humering a Friend -:- -:- By "Bud" Fisher



IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if you eat meat regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorde come from sluggish kidneys.

The moment you feel a dull ache the kidneys or your back hurts, or the urine is cloudy, offensive, full sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive; and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Another Railway Project.

NEW YORK, March 7.—D. A. Thomas, a Welsh coal operator, arrived on the Lusitania yesterday to spend three weeks in this country. His object is to meet several gentlemen from Seattle and Vancouver, and talk over with them the charter that they are expecting to get from the Canadian Government for the development of coal and mineral lands along the Peace River into Athabasca.

Malcontents Defrauded.

BELLEVILLE, March 7.—Twenty-three Bulgarians arrived in this city Thursday from Toronto. They were engaged by a fellow-countryman work in a large paper mill establishment. No work was waiting, and their supposed employer secure $66 in cash from them and left on an early train yesterday morning for Montreal.

KEPHALDOL

Allays Fever and Cures Colds and Grippe

The quick, sure action of Kephaldol in reducing body temperature to normal health standard, gives to this great, natural remedy an altogether priceless value in the treatment of every kind of fever and feverish cold.

Though it is just being introduced into Canada, Kephaldol has been prescribed by physicians and used in the hospitals of Great Britain and the Continent for many years. It relieves the burning heat and fulness in the head which comes with a "grippy" cold—allays pains and aches, soothes the nerves, and brings that sweet rest which means speediest restoration.

For colds, influenza, catarrh and similar complaints Kephaldol is unequalled. A tablet or two taken at the first indication of trouble will unfailingly arrest development and restore health.

Get a 50c. tube of Kephaldol tablets from your Druggist, and be ready to check a cold the day it attacks you. Kephaldol Limited, 31 Latour Street, Montreal.

EXAMINER PATTERN SERVICE

DAILY FASHION HINT.

6532

Lady's Vest Blouse.

The vest is worn not only with cut blouses but it is now used on the outside of many soft blouses. As in this design the blouse proper is in the kimono style, the vest forms an outside section, made in mannish fashion in front, but made like a waist in the back. The vest is usually of crepe or silk brocade, while the under blouse is of soft batiste or voile.

The pattern, No. 6,532, is cut in sizes 36 to 42 inches bust measure. Medium size requires for blouse 2¼ yards of 36 inch material; for the vest 1 yard of 36 inch goods.

This pattern can be obtained by sending 10 cents to the office of this paper.

When ordering remember to give your name and address as well as the number and size of pattern required, and age of a child.

Address—The Examiner Pattern Service, The Examiner, Peterborough.

REPORT IS UNFAIR

N.T.R. Finding a Partizan Document, Says Graham.

EX-MINISTER AT TORONTO

In Address at Banquet of University Liberals, Hon. Mr. Graham Discusses Charges of Messrs. Lynch-Staunton and P. P. Gutelius—Whether Took Oath That Verdict Would Fit Evidence.

TORONTO, March 7.—Hon. George P. Graham, ex-Minister of Railways and Canals, was the guest of honor at the banquet of the Liberals of the University of Toronto last night. During his speech to the students, Hon. Mr. Graham dealt with the Stevenson-Gutelius report on the cost of the N.T.R.

The speaker declared that Messrs. Lynch-Staunton and Gutelius were both enemies of the Grand Trunk Pacific, and that the public would consider Mr. Lynch-Staunton too violent a partizan to take much notice of any report of a political character he might make. He had even dropped his pen whilst he was in the act of preparing the report and gone into South Bruce to help the Conservatives in the bye-election there. In appointing these two men the Government had not appointed a royal commission, for neither of them had taken an oath that their findings would be according to the evidence. In one instance Mr. Lynch-Staunton had actually appeared in the role of counsel for the commission, and signed his name to documents as counsel for the commission.

"From one end of this report to the other," said Mr. Graham "there is not one line that breathes a symptom of independent consideration or finding. The report is for the most part an expression recklessly regardless of law, fact, principle, railway practice or commonsense.

"Small mistakes and small leaks may have occurred; they are liable to occur as long as man is mortal; but I challenge any man to prove that I have spent one dollar of the one hundred and sixty millions for self-interest."

MANY OFFERS OF MONEY.

Earl Grey Reports Promises of Plenty of Funds For Ulster.

LONDON, March 7.—Earl Grey, interviewed in New Zealand upon Home Rule for Ireland, was asked, according to a London Telegraph cable, if the report about officers of the army resigning their commissions, is true. Earl Grey replied he believed Carson's pockets were stuffed with letters offering to resign, but he told them their duty was to obey the crown. "Ulstermen had a just cause and were prepared to make any legitimate sacrifice, but one sacrifice they were not prepared to make, namely, to encourage sedition to His Majesty's army."

Carson, added Earl Grey, had not made a single mistake. His influence had kept Ulstermen peaceful, although threatened with the withdrawal of their liberties, and his action would probably lead to a settlement which would bring contentment and prosperity to Ireland and increased strength to the Empire.

Big Subscription For Ulster.

LONDON, March 7.—Grey cables from New Zealand to Sir Edward Carson that a certain Australian will subscribe £25,000 to the Ulster fund.

The Delicacy of Baby's Skin

Cold Air, Rough Winds, Strong Soaps Often Bring on Chronic Eczema.

More beautiful than the rose is baby's skin when in health, and so delicate that it is susceptible to anything which irritates. For this reason baby's skin troubles are many, and frequently chronic itching eczema is developd.

Nothing can be better for baby's skin when irritated, than Dr. Chase's Ointment, and when eczema is developed you can apply this preparation with the knowledge that its wonderful record as a healer of the skin is due to the success it has proved in the cure of eczema.

The intense itching of eczema of the face and scalp is very hard for the little one to bear, and is a source of worry and anxiety to the mother. The itching parts are scratched, and nasty and colored scars are formed. Eczema naturally becomes chronic and spreads over the body. You can positively control eczema and cure it by the use of Dr. Chase's Ointment. What is better still is to use this ointment for all chafing and irriation of the skin and prevent eczema from getting started.

A CURE FOR DRUNKENNESS WITHIN THE REACH OF ALL

That Alcoholism is a disease is now recognized by Science. No man in his senses brings disgrace and ruin on himself and family through choice.

Alcura stops the craving for drink, builds up the system, steadies the nerves. It is guaranteed to cure or benefit or money refunded after a fair trial. Alcura No. 1 can be given secretly by any wife or mother wanting to restore a dear one to health and usefulness. Alcura No. 2 is the voluntary treatment.

Can be had at our store, only $1.00 per box. Ask for our free booklet about Alcura.

McDermid & Jury, Druggists, Peterborough."

10 CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator in the World —Work While You Sleep

Get a 10-cent box.

Put aside—just once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

Montreal Was Poor Stand.

MONTREAL, March 7.—The speculative element in the presentation of grand opera, even when it is given in English, is brought out by the announcement by Thomas Quinlan that his opera company will conclude its local engagement on Thursday evening, March 19, nearly two weeks earlier than arranged. A loss of between $1,000 and $1,500 has resulted from each performance so far, it is stated. The organization will sail from Halifax for England on March 21, to appear during Easter week at the new theatre in Manchester.

"I have been greatly disappointed here," said Mr. Quinlan. "Our company has not met with such treatment during the whole of its Empire tour."

For Rough, Wrinkled Freckled, Pimpled Skin

As March winds, flying dust and dirt are apt to injure any complexion, this information will be of special value right now. If you have any cutaneous blemish, don't use paint, powder or anything else to cover it up. Try often this only genuine and reliable remedy. Besides, it's much easier to remove the disagreement with ordinary mercolized wax, applied nightly, the wax will gradually remove freckles, pimples, moth patches, sallow skin, red or yellow blotches or any surface eruption. The affected cuticle is absorbed, a little each day, until the clear, soft, youthful and beautiful skin beneath is brought wholly to view. Ask the druggist for one ounce of mercolized wax and use this like you use cold cream. Remove at morning with soap and water. Many who have tried this simple, harmless treatment report astonishing results.

If bothered with wrinkles or furrows a wash lotion made by dissolving 1 ounce powdered saxolite in ½ pt. witch hazel will prove wonderfully effective.

SLAIN BY TRIBESMEN.

One British Officer Is Killed and Another Badly Injured.

LONDON, March 7.—News has just reached here of two exciting scrimmages by British troops and tribesmen in Africa. In the first of these Major James Lionel Joyce Conry of the Connaught Rangers, who was awarded the Distinguished Service Order medal in South Africa in 1900, was killed in a fight with outlaws near Wadai Hadi, in the Soudan. Major Conry was in charge of a contingent of an Arab battalion of the Egyptian army. The leaders of the outlaws and other members of the band were killed, and the remainder made prisoners. Besides Major Conry, the British troops lost three men killed and four wounded.

In the second affair Lieut. Jones was shot through both legs during an attack on a stockade by Abyssinian raiders in British East Africa. When Lieut. Jones was wounded all his native soldiers, except three orderlies, fled. These men at Jones' command retook the stockade by assault.

Two of the soldiers bore the wounded officer 500 miles to headquarters. Blood poison, however, set in, and a doctor was sent for. The doctor was absent, and a journey to Nairobi was started. On the way the stretcher was charged by two rhinos, which the faithful orderlies killed. At Nyiri a doctor and nurse were found.

The muscles of one of Jones' legs was so shrunk that the leg will always be four inches shorter than the other, and Jones will be a cripple for life. The doctors regard Jones' arrival at the hospital alive as miraculous.

PROBE IS TO GO ON.

Peers Will Examine Lord Murray's Marconi Dealings.

LONDON, March 7.—Lord Halsbury, the Earl of Lereburn, the Earl of Desart, Baron Charnwood and Baron Sanderson, have been appointed members of the committee of the House of Lords to investigate the allegations against Lord Murray of Elibank relating to his dealings in wireless shares. The announcement came as a surprise to the Earl of Crewe, leader of the Liberals in the House of Lords, who declared he had not expected it so soon, and had not yet prepared a statement which he had expected to make explaining the presence of Lords Lereburn and Charnwood, both Liberals, on the committee. This explanation, he said, would be made Monday.

Ice as Public Utility.

KINGSTON, March 7. — Mayor Shaw has a proposition to bring before the City Council to have the harvesting of ice and sale of it carried on as a public utility by the city to sell to citizens at cost price.

ACTION IS TAKEN

U. S. Congress Moves to Repeal Panama Tolls.

OPPOSITION IS ALSO BUSY

House Committee on Interstate Commerce Favorably Reports a Measure to Strike Out Provision Discriminating in Favor of U. S. Vessels Using Canal—Senate to Consider It.

WASHINGTON, March 7.—Initial steps to repeal the toll exemption clause of the Panama Canal Act as requested by President Wilson were taken in Congress yesterday when the House committee on interstate commerce reported favorably a bill to strike out the provision. In the Senate the committee on interoceanic canals decided to meet next week to consider the appeal of the President for a reversal of policy in the controversy which involves the Hay-Pauncefote treaty, and, in the opinion of those present, the general foreign relations policy of the administration.

While the House is debating the issue next week, the Senate committee will consider what course to pursue; whether to recommend a flat repeal bill or to urge the compromise bill offered by Senator Chilton of West Virginia, a member of the committee which would authorize the President to regulate tolls and assess charges at his discretion wherever exemption is provided in the Canal Act.

In the House there was quick response to the President's address, the committee voting 13 to 8 to favorably report the Sims repeal bill. Absent members who were recorded made the vote 17 to 4.

Chairman Adamson had ready a draft of the report when the committee met. It based the approval of the Sims bill on the same two broad grounds set forth in the President's message, general international comity and the immediate foreign situation confronting the country. Representative Knowland of California, who led the opposition in the committee, was given three days to file a minority report, and Chairman Adamson was authorized to urge the rules committee to report a special rule to hasten the bill through the House. The matter will be pressed at once, and it is expected a rule will be brought into the House probably by Thursday of next week.

In its report yesterday, the committee, which provided for uniform tolls in the Canal Act as originally reported, reiterated its position.

SHE GOT SO SHE WAS ALMOST INSANE

AND THEN FOUND A CURE IN DODD'S KIDNEY PILLS.

That's Why Mrs. Wellington Dunlop Says Dodd's Kidney Pills are the Best of all Medicines.

South Waterville, York Co., N.B., March 6.—(Special.)— Mrs. Wellington Dunlop, an estimable resident of this place, has given an interview in which she states that she believes Dodd's Kidney Pills to be the best of all medicines. Mrs. Dunlop says:

"When I commenced taking Dodd's Kidney Pills I was in a terrible condition. I had been sick for over a year and had paid out more than one hundred and thirty dollars for doctors and medicine. I would get some better and then get just as bad as ever.

"The doctor said my trouble came from my stomach. His medicine relieved me only for a few minutes after I had taken it, and I got so that I was nearly insane.

"I had not taken Dodd's Kidney Pills two days till I was some better. I took twelve boxes in all, and I can truly say they have done me more good than any medicine I have ever taken."

Dodd's Kidney Pills are suffering woman's best friend. If you haven't tried them yourself, ask your neighbours.

No News of Karluk.

REGINA, Sask., March 7. — That Stefansson has no news of the Karluk, lost in the ice of the Arctic Ocean, was the word received yesterday by Commissioner Perry of the R.N.W.M.P. in a wire from Supt. Moody, in command of the Dawson station. The patrol, which came from Fort McPherson, arriving at Dawson Thursday under command of Corpl. Hocking, brought an exceptionally heavy mail, containing letters from the explorer and from whaling vessels and others in the north, but Stefansson still knows nothing of the whereabouts of his ship.

The silence with regard to it is considered ominous.

Escaped From Asylum.

CORNWALL, March 7. — Joseph Adelard Berthiaume, aged about 35, was arrested here yesterday on a charge of vagrancy. Berthiaume boarded at the St. Lawrence Hall, East Cornwall, for several days, and as he had no money or baggage he had to leave the hotel. He told Chief of Police Smythe that his home was in Sorel, Que., and that he was an inmate of Longue Point Asylum, Montreal, for eight years, but that he ran away from that institution two years ago.

Young Fighting eGts Off.

TORONTO, March 7.—Earl Masterson came up before his Honor Judge Denehe on charge of arson. He was found guilty and allowed out on suspended sentence. Fifteen hundred dollars' bail was furnished for his good conduct for a year.

Pimples Are Signals of Distress

And by Using Stuart's Calcium Wafers They May be Removed Quickly, Surely and Harmlessly.

Before the blood becomes entirely impoverished it tells man of its condition. It warns him repeatedly. These messages are conveyed by pimples, blotches, liver spots, eczema, tetter, rash, etc. If one disregards these symptoms one runs the risk of permanently diseasing the blood beyond hope of cure.

"A Face Made Radiant After Using Stuart's Calcium Wafers is a Beautiful Sight."

Don't worry and give up hope. You can secure easily, quickly, harmlessly the very hope you desire if you really wish to remove pimples, blotches, skin discolorations, blackheads, rash, tetter, etc.

No matter upon what part of the body the blemishes occur Stuarts Calcium Wafers will really tint your skin, give you better, purer, stronger blood, and thus rebuild your entire body, for blood is the secret of all health.

Calcium Sulphide contained in these pleasant little wafers is the strongest blood purifier known. It abolishes pimples, etc., in just a few days, while in a week or so the change in your complexion will actually astound you.

The beauty that comes after using these wafers is so extremely gratifying to women that they cannot speak too higly of their changed appearance, and hence it is that Stuart's Calcium Wafers enjoy the greatest patronage of any remedy sold.

Building and purifying the blood builds up all that women so much desire—face, skin, nerves and body tone. Thus it is that when one uses Stuart's Calcium Wafers the entire system is glad, and responds in a manner that is quickly felt and speedily seen by others.

Go to your druggist, no matter where he may be located, and obtain a box of Stuart's Calcium Wafers. Price 50 cents.

ULSTER IS VERY QUIET.

Correspondent Says "Armed Camp" Is Difficult To Find.

LONDON, March 7. — The Daily Chronicle declares that the decision to offer Ulster exclusion from the operation of the Home Rule bill on the basis of county option was arrived at only this week, and is expected to result in the exclusio of the Counties of Antrim, Londonderry, Down and Armagh. The other Ulster counties are Cvaan, Donegal, Fermanagh, Monaghan and Tyrone.

A special correspondent of The Westminster Gazette, a Government organ, who says he has toured the north and east of Ireland, writes his paper that "the picture of Ulster as an armed camp is a pure figment of the imagination conceived to impress the British elector." He does not deny the presence of volunteers, but says that some knowledge is necessary to find them, as otherwise a man might be in Ulster for a week and remain unaware of anything save the ordinary round of daily life.

Appointments Delayed.

OTTAWA, March 7.—The successors to Hon. M. E. Bernier and Dr. Mills, railway commissioners, who have completed their ten years' term of office, will not be appointed until after the return of Hon. Frank Cochrane from Europe, two months hence. Messrs. Bernier and Mills will continue in office until the new commissioners are appointed.

Will Bourassa Run?

OTTAWA, March 7.—Le Droit of this city announces that Mr. Henri Bourassa has been asked to contest the County of Prescott when the seat in the Ontario Legislature becomes vacant by the resignation of Mr. Demaurel.

IT IS EASIER TO SAVE THE HAIR YOU HAVE Than to Grow New

The tendency to put off until tomorrow what we should do to-day accounts for most of the bald heads we see in the front row.

Newbro's Herpicide stops falling hair and prevents baldness. The dandruff is destroyed by its use and a condition of health maintained in the hair and scalp.

Nearly everyone has hair troubles of some description which Herpicide will correct. Don't wait until it is too late.

It is conceded to be the standard hair remedy and is recommended and applied by all the best hair dressers and barbers.

Newbro's Herpicide in 50c. and $1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Send 10c. in postage for sample and booklet about the hair to The Herpicide Company, Dept. E., Detroit, Mich.

McDermid & Jury, special agents.

THE MARKETS

Evanturel To Address Meeting.

OTTAWA, March 7. — Gustave Evanturel, who entered into negotiations with the Hotel Keepers' Association of Ontario with a view to receiving a salary for protecting their interests on the floor of the Legislature will speak in Hawkesbury to-night.

CHECK CHRONIC RHEUMATISM N

RHEUMA Thoroughly Drives Deep-Seated Uric Acid.

There is only one way to be from Rheumatism— the accumulated impurities caused by an excess Uric Acid poison must be expelled from the body. That is what RHEUMA will do and do it thoroughly. If you suffer from any form of Rheumatism — Sciatica, Inflammatory, Articular, Muscular, Lumbago or Gout — a bottle of RHEUMA from the Wilson Drug Co. for 50 cents—it is guaranteed.

"For years I suffered with Rheumatism in my arms and shoulders, kidneys and bladder were affected and I rapidly lost flesh. After two weeks' use of RHEUMA I was a new man."—William Fry, Port Erie, Ont.

"Tomb of Osiris" Found?

LONDON, March 7.—Professor Naville, in a letter published in the Times yesterday, on the excavations of the Egyptian exploration fund at Abydos, expresses the belief that they have found "what Greek authors call the tomb of Osiris, where the head of the god is supposed to be preserved."

The excavations began at the site which Professor Petrie discovered two years ago. The doorway, Professor Naville thinks, was the entrance to a passage leading to a subterranean chapel under the temple of [illegible].

A GRAND MEDICINE FOR LITTLE

Mrs. D. L. McIntyre, McIntyre Mountain, N.B., says: Baby's Own Tablets are a grand medicine for the ones and I am well satisfied with the results obtained from them. Mrs. McIntyre's testimony is the same as that of thousands of other mothers. Once a mother has used the Tablets she will use nothing else for the results are sure and the Tablets are guaranteed by a government analyst to be perfectly safe. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

DEATH COMES TO EX-PREMIER OF THE PROVINCE OF ONTARIO

Sir George Ross Passed Away This Morning at the Toronto General Hospital—Death Closes an Eventful Career.

HIS EARLY LIFE

Special Wire to The Examiner:

TORONTO, Ont., March 7.—Sir George W. Ross, leader of the Liberal party in the Senate, a former premier of the Province of Ontario, Liberal imperialist, and mighty optimist, is dead. Early this morning while the snow fell gently over the city, the veteran Senator passed peacefully away in his room in the General Hospital, where he has lain ill for some weeks. Death came quietly. His passage into the great beyond was not came he was sleeping. Thursday night following a week in which he was conscious only momentarily, Sir George Ross' condition became decided improved. H was absolutely clear in his mind, and talked brightly and freely to his wife, Lady Ross, and his son, Duncan Ross. This improvement continued into yesterday morning, punctuated by temporary lapses, and then at four o'clock yesterday afternoon he suddenly became worse. Once again the aged statesman recovered, his improvement marking his last victory against the black knight. Early yesterday evening he began to gradually sink. As each hour of the night passed he became weaker until the end came at the first stroke of the hour of eight o'clock to-day.

None of the family were present at the end, just the house surgeon, Dr. Garnet Greer, of Peterborough, and nurses. Lady Ross was on her way to the hospital when death came.

The Dominion and Provincial Governments have suggested a public funeral which would likely be of a most imposing character in deference to Sir George's long and prominent career as a statesman. The family has not decided.

Like many other noted men in Canada, the Hon. Sir George William Ross was a school teacher in his early life; also a moulder of public opinion as a newspaper editor and writer. Subsequently he became a lawyer and statesman, whose fame was not by any means confined to the province in which most of his political victories were won.

BORN NEAR NAIRN.

Born in the county of Middlesex, Ont., near Nairn, on September 18, 1841, the future Premier of Ontario received the groundwork of his education in the public schools, afterwards passing through the Toronto Normal School and Albert College, Belleville, from which he received the degree of LL.B. in 1868. The honorary degree of LL.D. was afterwards bestowed on him by these universities: St. Andrew's, Scotland, 1893; Victoria, 1892; Toronto University, 1894; McMaster, 1902; and Queen's, Kingston, 1906.

THREE TIMES WEDDED.

He as married three times. First to Christina Campbell, in 1868; secondly to Catherine Boston, in 1875 and in May, 1907, to Mildred Peel sister of the late Paul Peel, a Canadian artist whose fame extended far beyond the land of his birth, by hom he is survived.

During the days of his connection with the educational work, Hon. Sir George W. Ross had much to do with, and took a deep interest in, the county Model School question, and, after their organization prepared a syllabus of lectures for their direction, and filled for a time the office of inspector. He steadily contended for the uniformity of text-books, and favoured the limiting of Norma' schools to professional work.

IN COMMONS FIRST.

Hon. Sir George W. Ross took his first plunge into the mainstream of politics in 1872, when he was elected to the House of Commons for the west riding of Middlesex, which he represented till November, 1883, when he entered Ontario Provincial politics, taking the portfolio of Education, under Premier Mowat. In the Legislature he also represented West Middlesex.

On Sir Oliver Hardy's retirement, in October, 1899, Sir George succeeded him as premier, which office he held till the final defeat of his party at the polls in February, 1905; afterwards acting as leader of the Opposition in the Legislature till his appointment to the Senate, of which body he was elected Liberal leader in the fall of

SENATOR SIR GEORGE ROSS
Who Passed Away at 8 o'clock This Morning

Mrs. Fiske, America's Most Distinguished Artiste

Appears in Her Greatest Success in Motion Pictures—Eminent Actress Renders an Immortal Portrayal of Her Famous Characterization, "Tess of the D'urbervilles."

The motion picture has recently earned a great deal of praise and respect by reason of the unusual dramatic and artistic accomplishments which it has made possible; but surely it has had no greater claim to recognition than that which it derives from the appearance of Mrs. Fiske in her foremost success "Tess of the D'Urbervilles," which has just been produced in films by the Famous Players Film Co.

Neither the names of Mrs. Fiske or the title of the famous "Tess of the D'Urbervilles" requires any introduction to the American public, Mrs. Fiske is the artistic materialization of the dramatic soul of America. She exemplifies the spirit and the essence of our national ideals and art. She is the living and intense symbol of the dramatic aspirations and ambitions of the western world. The subject selected for Mrs. Fiske's initial appearance in motion pictures a the play in which she attained the loftiest heights of dramatic power, and the greatest measure of public approval. Thomas Hardy's inspired master-piece, "Tess of the D'Urbervilles." It is the pathetic record of a woman's pitiful career and immortal epic of sorrow. Evil may flourish anywhere, but when it comes into conflict with inherited pride and passionate love, the outcome is eternal tragedy. Such is the bitter story of "Tess," the tender chronicle of a great misfortune.

Mrs. Fiske elevates the theme to realms of genius and renders an inspired portrayal.

The motion pictures of this human tragedy will serve to immortalize Mrs. Fiske's dynamic art and familiarise it with a greater number of people than she has ever before been able to reach.

Watch for the story of Count Monte Cristo in Tuesday's Examiner.

"TESS OF THE D'URBERVILLES"

Parson Tringham traces the genealogical history of John Durbeyfield, and discovers that he is the lineal descendant of the ancient and knightly family of the "D'Urbervilles. Lazy and slothful always, John Durbeyfield, on the strength of his heritage, now abandons himself to a life of ease and indolence.

Tess, his eldest daughter, is s

(Continued on Page 12.)

NEWS OF DEATH OF SIR GEO. ROSS CAUSED REGRET

Special Wire to The Examiner:

OTTAWA, March 7.—News of the death of Sir George Ross was received here this morning with genuine regret. Though he was known to be very ill at Toronto there were hopes that he would rally. Both in the Commons and Senate corridors are heard expressions of sorrow for his passing, this morning. The last active part taen by Sir George in the Senate was when he delivered a long and eloquent speech on the address in reply to the speech from the throne. Sir Wilfrid heard the news at his house. "I am very sorry," he said. Beyond this brief expression Sir Wilfrid would say nothing. It has always been the custom of the Leader of the Opposition to reserve such expressions of tribute to the House of Commons. The late Sir George Ross succeeded Sir Richard Cartwright to the Liberal leadership in the Senate two years ago. Senator Bostock of British Columbia will now probably succeed to the vacant position of Liberal leader in the Upper Chamber.

Auction Sale.

ROBERT FAIR, J.P.
Whose appointment as Justice of the Peace has just been announced.

CITY MUST PROVIDE FOR MAINTENANCE

Of Indigent Patients—Will Involve an Expenditure of Several Thousand Dollars—A Compulsory Obligation

A SUITABLE MAN

A deputation representing the Nicholls Hospital Board waited upon a meeting of a committee of the whole Council, last evening, with a view of securing their assent to a proposal to take care of indigent patients at a fixed rate of one dollar a day. The deputation not only secured the approval of the Council, but when their point was gained and they were about to depart, they "kidnapped" the Mayor, with the result that Ald. Stratton moved that Ald. Anderson take the chair. Failing to get a seconder, the meeting resolved into a little family caucus, which remained in session until Mayor Buller returned. The deputation comprised Rev. James Rollins, Mr. W. H. Hill, Mr. Wm. Madill and Mr. John Crane. The following members of the City Council were present: His Worship Mayor Buller, Aldermen McIntyre, Anderson, Langford, Johnston, Green, Duffus, Stratton, Duncan and Saunders.

Functions of the Board.

Rev. James Rollins who opened the discussion regarding the Hospital question, stated that the Board was desirous of maintaining cordial relationship with the Council. The Board not only represented the Hospital interests, but the interests of the City at large. The Board was elected to do certain work for the City just as the Aldermen were elected to perform a similar function. Under the present method of managing the Hospital the Board was empowered to come to the City whenever funds were needed. This is in accordance with the charter under which the City assumed charge of the Hospital. The Board had as much right to come to the City when in need of funds as the Board of Education, or any other municipal body.

Would Jeopardize Grant.

Continuing, Mr. Rollins said: "We are under an obligation to take care of the poor people of the City if we would avail ourselves of the Government grant which last year amounted to about $1,800. We are just as much interested in operating Nicholls Hospital economically as you are. We could come to you under the charter and ask you to make up any deficit that might accrue from time to time.

"Instead of that we are going to ask you as a City Council, to appoint some competent person, who shall examine into indigent cases, requiring hospital treatment. If such examination proves that the patient is unable to pay, it would then devolve upon the City to provide for the patient's maintenance at a cost of one dollar a day. We are sometimes criticised for letting too many free patients into the Hospital. If we turned away one deserving case, and it was reported to the authorities in Toronto, our Government grant would be cut off. We are going into the whole question of an economic management of the Hospital, because we have come to a point where we are going to spend the City's money as well as the trust funds of the Nicholls Estate."

Claim Will be Paid.

Mayor Buller referred to an old claim amounting to about $300, that was charged against the City for indigent patients, whereupon Rev. Mr. Rollins suggested that the old claim be left out of the question until the proposal of the Board had been dealt with. It was decided, however, to settle the claim, a decision which was hastened by an attempt on the part of Mr. Crane to produce figurative statements, shewing how many indigent patients had been treated at the institution during the past year, some of which the City had not been charged for. Mr. Crane also intimated that the care of indigent patients for one year would require in the neighbourhood of three thousand dollars.

Ald. Duffus pointed out that the Council practically had no alternative in the matter since the City was under statutory obligation to provide funds for the maintenance of the Hospital whenever required.

On motion of Ald. Johnston and Duncan it was moved that the proposal be accepted.

The Board of Management in connection with St. Joseph's Hospital will be asked to confer with the Council in regard to a similar arrangement for the care of indigent patients.

$200.00 in cash bonuses to be given away will make Dollar Day interesting.

GAME HERE TO QUENCH HIS THIRST

The Fines for Drunks is on the Increase—Castle Nesbitt Claims Two Boarders

SHORT WEIGHT

Monzan Succe, who claimed he hails from the local option district of Tweed, was yesterday found drunk on the public streets of this city. He was charged with that offence before Magistrate Dumble at Police Court this morning, and was assessed $2 together with $3.75 costs. Having no money to pay his fine, he will spend the next 10 days in Castle Nesbitt, that being the Court's alternative.

Another One.

A local man was also fined a similar amount for a like offence, but he will spend 15 days on the hill, as his pockets were devoid of any coin. He was been drinking for the past month, and Chief Thompson suggested that a short period in gaol would do him more good than a fine.

Was in a Hurry.

Another local man was drunk yesterday. He is also on the prohibited list, but he said he did not know that when charged with being under the influence of liquor while on the black list, in Court this morning.

When asked to plead he said he expected he was drunk.

Magistrate Dumble—You are fined $10.

Accused—Let me out, I guess I'll pay.

Chief Thompson—Wait a minute, there's another. I believe he is willing to tell us where he got his liquor.

Accused—Yes. I can tell you that. I got it from one of the bridge gang who went away to Hamilton yesterday.

Magistrate—It is about time you stopped this foolishness. You are getting an old man now. I think you are getting worse instead of better.

Chief Thompson—I think the Commissioners will feel like taking his licenses away if he keeps on.

I will give you my word of honour that this is the last time I'll be here, Mr. Dumble," replied the prisoner.

Chief Thompson—If His Worship feels like giving you the benefit, alright. You may go. He went.

Wrong Weight.

A farmer's wife from Cavan appeared on a charge of selling butter for less weight than it was represented to be.

The complainant said he bought 7 pounds of butter from the accused and had it weighed. The scales indicated only 6½ pounds. Considerable evidence was taken after which the deficiency was made up, and so conviction registered.

ALICE LLOYD'S BIG ENTERTAINMENT

Alice Lloyd, England's daintiest comedienne, heading her own company of seventy well known entertainers, under the direction of William Morris, will be the attraction at the Grand Opera House Thursday, March 12th. Miss Lloyd, who is known throughout the theatrical world as England's daintiest comedienne, will be seen in a new style of entertainment with a song repertoire including "Parisian Crinoline," "Mother, Mother," "My Night Out," "When Mother Was Twenty-one," "Lady Policeman," "Ship Ahoy," "Splash Me," "Who Are You Getting At," "Stockings on the Line," "Nothing Doing," "The Girls I left Behind Me," and others.

A promising feature of the big entertainment will be a dance revue of all nations entiled "Dance Maid," offering a realistic glimpse of the famous Jardin de Danse step of the New York Theatre, New York, together with a vivid interpretation of the cabaret life in New York and Paris.

Engaged to support the twinkling little star of two continents are Frank Fogarty, "The Dublin Minstrel;" Sidney Wood and Doraine Sisters; Ed. Latell, Mel. Craig, the Tschkowski Trio, Pauly and Young, De Lisle and Vernon, Eduardo and Elina Cansino, The Cowboy Minstrels, and "The Act Beautiful."

A WORD TO THE WISE

A little attention paid to the agents canvassing the most up to date line of sanitary brushes ever brought to your notice will be to your advantage.

They included sink, hand, combination stair, radiator, register, window, hat and clothes, crumb, tailors', bath and flesh velvet, massage, manicure hair, bottle, lamp chimney, tub, lavatory, and dustless dusters. Our dustless mop is our feature.

Those in rural districts or those who haven't been called on can see samples at Snowdon Hotel, between 7 and 9, evenings. Ask for Mr. Robinson.

These brushes have been endorsed by the leading hospitals and colleges of the provinces.

SITUATION IN MEXICO HANGS IN THE BALANCE

Britain May Not Recognize Rebel Leader If Victorious—Nothing But a Full Explanation of the Benton Incident Will Satisfy.

DEFEAT IN BATTLE

WASHINGTON, March 7.—High officials of the administration believe the fortunes of the constitutionalist movement in Mexico hang largely in the balance, and that only a clear explanation of the Benton incident and satisfactory reparation will regain for them the prestige they had acquired as persons desirous of the restoration of constitutional government in their country.

Should the Benton case remain unsettled in the event the cause of the constitutionalists is triumphant, there are strong intimations heard in official circles that Great Britain would refuse to recognize Carranza, if he were elected. It is also taken for granted by officials that Great Britain might influence other European nations to withhold recognition until reparation is made for injury done foreigners. Administration officials here in discussing that phase of the situation yesterday pointed out that on the Benton case seemed to depend the political future of Gen. Carranza.

Rebels Defeated at Sea.

MEXICO CITY, March 7. — Despatches received by the Governmental yesterday said that in the naval engagement Wednesday at Topolobampo between the Federal gunboats Morelos and Guerrero and the rebel gunboat Tampico, the Tampico was forced to retire badly crippled. The rebel boat, according to the despatches, was attempting to escape when the Federal boats fired on her. No mention of the Tampico's defection has yet been published here.

Defeat in Battle.

MEXICO CITY, March 7.—Three thousand rebels under Gen. Toribio Ortega, who were moving towards Torreon, were defeated Thursday between Conejos and Escalon, according to advices received at the War Department. The despatch said four hundred rebels were killed in the engagement. The Federal forces, commanded by Gen. Ricardo Pena, numbered seven hundred.

GARBAGE TO BE COLLECTED

In East City Despite the Protests of the East Ward Representative—Several Little Difficulties Are "Jockeyed" Around

AMENDMENT LOST

The question of fixing the boundaries defining the area for garbage collection occupied the attention of the City Council last evening for upwards of an hour. "We have got to jockey around this thing," insisted Mayor Buller. The "jockeying" act consisted of eliminating certain streets from the proposed area, also a few of the manufacturers, who claim that they have no garbage to collect. Another matter that had to be "jockeyed" around, was a ten-acre park lot owned by Alderman Green. The latter does not object to paying for the frontage on Park street and for distance of two or three hundred feet back, but he practically refuses to pay for the entire distance to the Boundary. He referred to the property as a "cow pasture."

Garbage Wanted.

Alderman McIntyre was particularly desirous of eliminating East City in so far as the collection of garbage was concerned. This did not meet with the approval of several of the Aldermen who claimed that the East Ward should submit to sanitary conditions the same as the rest of the city. "We want more garbage for the incinerator," said Alderman Duncan, and we want East City clean when we go over there."

Alderman McIntyre Objected.

"I object to that statement," countered Alderman McIntyre. Whereupon Sanitary Inspector Spence was called upon to give his version of the situation. "This is a measure for public health and individual opinion should not be considered," said the Inspector. "There are many bad spots in East City, particularly along Hunter street east. I have had to serve notices on the owners on several occasions. These bad spots should be eliminated and they can't be eliminated except by a system of garbage collection."

Alderman McIntyre wanted to know why the garbage collecting waggons were not covered last year. "They were covered," chorused several of the Aldermen including the Mayor.

Alderman Stratton—"The proposal to inaugurate a system of garbage collection in East City was made on the recommendation of the Board of Health, and in the public interest to safeguard the public health. The matter was then threshed out at a subsequent meeting of the Property Committee of the City Council. I think that the Council should support that arrangement, and I would move that the arrangement be endorsed by this meeting subject to any minor change that might be suggsted in respect to the present proposed areas."

"We are trying to jockey around these places," put in the Mayor.

Amendment Defeated.

Alderman McIntyre moved in amendment that East City be eliminated from the garbage collecting area.

Alderman Anderson seconded Alderman McIntyre's amendment to eliminate the whole East Ward. In doing so he stated that it was entirely unnecessary to include a large part of the district, particularly Concession street, and all south of Hunter and east of Mark streets. Even in the more settled parts there were many vacant lots which produced no garbage, and the lots built on were mostly large, allowing plenty of means to dispose of garbage and ashes without danger to health.

On the whole therefore, he did not think it wise to inaugurate the system at present. The amendment was lost, only being supported by Aldermen McIntyre, Anderson and Green.

The Committee decided to eliminate a few of the streets both in East City and the North Ward, but in the main the area as proposed by the Property Committee will stand.

Princess Theatre

Big Acts for Mon., Tues. and Wed.

Big acts for Monday, Tuesday and Wednesday. Special Vaudeville will greet the patrons of the Princess on Monday, when a big time Animal Act will open the bill. The admission will be the same, five cents for the afternoon performance, and ten cents for the night performance. Come early to secure seats. This Theatre is strictly Union.

"Peterborough Promises Possibilities Unsurpassed."

SATURDAY, APRIL 4, 1914

A STATESMAN PASSES AWAY.

Sir George Ross, senator, died this morning at 8 o'clock after three-score and twelve years of active and fruitful public life. In all the varied activities of his public career he left his impress deep and beneficial upon the public life of his country. He was a man of many activities. He began his career as a public school teacher, and in that capacity laid the foundation of his deep and intelligent interest and fruitful work in the advancement of education in this province. He had experience in journalistic work. He was an earnest advocate of the interests of temperance movements. He filled the position of Most Worthy Patriarch in the Sons of Temperance, founded the Temperance Colonization Company, was a delegate to the British and Colonial Temperance Congress in London in 1879, was president of the Temperance and General Life Assurance Company. His largest activities were displayed and to the greatest advantage in political life which he entered in 1872, being elected to the Commons for West Middlesex, which he continued to represent till 1882 when he entered the government of the late Sir Oliver Mowat, as Minister of Education. As a legislator and administrator, Sir George Ross has a fine record. He was responsible for the provincial legislation providing for the consolidation of the Public and High Schools Acts, the Act for the federation of the University of Toronto, the affiliation of the denominational colleges with that national institution, and the Act providing against truancy. But perhaps the greatest work to his credit came to him as premier of Ontario, in succession to Hon. Mr. Hardy. He provided in 1900 for the exploration of New Ontario, which even at that recent date was a terra incognito. As a result of that exploration Sir George Ross began the construction of the Temiscaming and Northern Railway, the first provincially owned railway in Canada. His far-seeing action in regard to New Ontario has had, perhaps, the greatest material results of any public movement in the history of the province in regard to material development. In the very construction of the railway, silver deposits were discovered and subsequent development, made possible by the exploration of the country and the building of the railway, made of Northern Ontario the richest silver camp in the world; and agricultural development has revealed possibilities in this direction that make Northern Ontario potentially almost as great as the much and justly vaunted older Ontario. Sir George Ross virtually doubled the area, wealth, importance and commercial, industrial and agricultural possibilities of Ontario.

He was an ardent Liberal in politics, and a convinced and rational imperialist. While he did considerable in the way of literary authorship, his greatest reputation was won as an orator. As a public speaker on almost any subject, Sir George Ross was the peer of the greatest men of his time, and there are few men in history that be regarded as surpassing him, as a speaker, in his eloquence, polish, logical incisiveness or effectiveness. And his patriotism was as great as his oratory. In all his thirty-two years of public life he worked strenuously for the advancement of the highest interests of his country and for the betterment of the imperial relationship. He graced and added dignity to all his relations, whether as a humble teacher or a stalwart of the senate. He left the impress of his high character and great abilities upon all the interests his relations made him the champion or promoter or. No brief or even extended summary can do justice to the place Sir George Ross filled in the life of Canada. History will do it justice. In relation to his public activities, to his great influence upon the higher interests of the country, in relation to the work he achieved, the influence he exerted, his position may be fairly summarized in three words—

He was a man, take him for all in all,
We shall not look upon his like again.

HONOUR TO WHOM HONOUR.

Our evening contemporary very properly expresses patriotic appreciation of New Ontario and its great possibilities. It reproduces the remarks of Hon. W. H. Hearst, Minister of Lands, Forests and Mines, as to his praise of the north country. It is to Mr. Hearst's credit that he loses no opportunity of sounding its praise. There is, however, a suspicion that he is not altogether animated by a sense of patriotism; there is some reason to believe that his frequent speeches upon the glories of New Ontario are the voice of conscience; an act of reparation, a sort of sentimental conscience money, a belated apology for the leader of the Conservative party. Once on a time, some dozen years ago, Sir James Whitney was a violent skeptic as to the value of the northern part of this province. When Hon. Mr. Ross, who afterwards became Sir George Ross, and who ended his great life of public usefulness this morning, adopted a forward policy suggested by a former representative of West Peterborough, and with a firm belief in the great resources of New Ontario, caused it to be explored, revealing boundless sources of wealth and possibilities of development. Sir James, then plain Mr. Whitney, laughed the enterprise and the country to scorn. He scoffed it it as the "land of the stunted poplar," and said in his vigorous way everything possible to discredit this part of the province. He had no faith in it.

It stands to the credit of a Liberal government that this new country was practically discovered and that a railway, the first provincially owned railway in the Dominion, was built, and initiated the course of development, unfolding the riches of the resources of the country which form the foundation of laudatory articles in Conservative and other newspapers, and the text of the eloquent and frequent oratory of Hon. Mr. Hearst who, whether conscience stricken on behalf of his leader, is exceedingly zealous as well as justifiable, in singing the praises of his northern bailliewick.

Mr. Hearst is also quoted as bearing testimony to the value of the Transcontinental railway, which "runs through a fine stretch of agricultural land." This railway which is due to the foresight and farsight and enterprise of a Liberal government, and was antagonised by a Conservative Opposition, and degraded as to character of construction by a Conservative government, has done a great work, in relation to developmental conditions. It has not only opened up "a fine stretch of agricultural land," but gives added importance to the provincial railway as a stimulant to commercial and industrial relations with the older parts of Ontario. The rental paid by the Transcontinental for the use of the provincial line represents no little addition to the provincial revenue, in addition to the great commercial and developmental advantages.

We have in these two instances evidence of the foresight, faith in our resources and enterprise of two Liberal governments, and evidence of the unfaith and skepticism and opposition passive, if not actual, of two Conservative leaders and parties. We rejoice as heartily—and much more consistently—over the immense resources of New Ontario, brought to light and subjected to development by two Liberal governments. It may be little to boast of—it was only their duty—but the fact is they saw their duty and did it. It is permissible to bring things into their true relation when there is a disposition to gain credit and glory on the head of the accomplishments of others—a disposition to build on the foundations laid by others amidst the opposition and obstruction of others.

CANADA'S GROWING RATE OF INTEREST

OTTAWA, March 5.—The redistribution map of the Conservative manipulators for Ontario is gradually assuming shape. Details are now being finally worked out from the Conservative standpoint with a view to wiping out as many Liberal seats as possible, and to insuring as many safe Conservative ridings as can be carved out. The arrival here to-day of Hon. W. J. Hanna and of Mr. J. S. Carstairs, formerly Conservative organizer for the Province, and now customs inspector, with headquarters at Toronto, was followed by a consultation with the Ministers from Ontario and with the Conservative members of the Redistribution Committee. The coming Provincial redistribution has a bearing also on the Federal redistribution of Ontario, and hence Mr. Hanna has been called into consultation before the operation is performed.

It is practically certain that the rule adopted at the last redistribution with regard to non-interference with municipal and county boundaries will be very largely disregarded by the Government this time. The carving and hiving is to be done "regardless."

Plan to spread yourself on Dollar Day, and secure as many of the big bargains as you can.

More Light And Sinister Light On Railway Politics

How Borden Government Impaired Competition Value of National Railway by Degrading Construction

The limelight begins to show up the ugly and dark corners of railway politics in Canada. There seems to be a good ground for believing that the Borden Government has gone to work deliberately to destroy the work of the National Transcontinental in the hope that at the same time the reputation of the Liberal party may suffer. Gutelius and Lynch-Staunton were hired to track Lemieux's dog around. They have done their work admirably from their point of view. The clever insinuations contained in their report have implanted in the minds of thousands of people the idea that many millions of dollars expended on the Transcontinental went into graft and corruption instead of grading and rails. That false impression probably will never be quite removed, although not asingle name of engineer, inspector, contractor, or Commissioner is mentioned as having done an illegal act, save in one case, where $7,900 was spent in Quebec on the purchase of a lease. Of this one traction alone—$7,900 out of a hundred and nine millions—it is said by the investigators that it cannot be justified either in law or morals.

But the Gutelius-Staunton report, bad as it is, is not the most serious handicap to which the National Transcontinental has been subjected in the game of railway politics. When the facts as to the degrading of the road by the Borden Government are full understood by the public there will be general agreement that the action of Mr. Cochrane and Major Leonard falls little short of conspiracy to destroy the competitive value of the railway. The Government of Sir Wilfrid Laurier set out deliberately to build a railway on which a single engine would haul twice as much as it could on the C.P.R. across Northern Ontario. The maximum grade to be overcome by anengine eastbound was to be four-tenths of one per cent., or 4.4-5 inches of a rise in a hundred feet. The C. P. R. had grades on its Sudbury-Port Arthur section in which the grade was one foot six inches in a hundred feet. In that section double-track work is in progress, and even under the double-tracking plans the grade is to be .99 eastbound, practically a foot in a hundred or twice as heavy as the N.T.R. grades arranged for by the Laurier Administration. From North Bay to east to Chalk River the C.P.R. grades are very heavy, averaging one and one-half per cent., and it is estimated that it would take five million dollars to bring this section to a grade of .5 and eliminate the sharp curves.

It is clear that the N.T.R., with grades of four-tenths of one per cent., would be a vastly more economical road to operate than the C. P.R. It is clear also that a friend of the C.P.R. and an enemy of the N. T.R. could wish nothing more to his liking than that the N.T.R. should be degraded to the C.P.R. standard. And that was what actually happened almos immediately after the Laurier Government went out of office. Some of the changes made on the Heaurt to Cochrane section through the clay belt were as follows:

.81 eastbound and 1 per cent. westbound at mileage 83.

.1 per cent. eastbound and 6.10 westbound at mileage 86.

.76 eastbound and 6.10 westbound at mileage 178.

.76 eastbound and 6.10 westbound at mileage 178.

.7 eastbound at mileage 190-1.

.69 eastbound at mileage 193.

All these are in District C., tract 13, and there are grades up to 1 per cent in District C., tract 14, also.

Sir Wilfrid Laurier, Hon. Geo. P. Graham, and other Liberals have already directed the attention of Parliament and the country to the degrading of the N.T.R. They must do so again and again until public indignation is aroused. The Gutelius-Staunton report says that the N. T.R. could have been built more cheaply. Major Leonard has shown in these new grades what cheapness involves. The grades will increase the cost of operation so materially that the C.P.R. will be almost on an equality with the N.T.R. If President Chamberlin of the Grand Trunk Pacific were in a position to talk out we may be sure that he would say "an enemy hath done this."— The Globe.
